

27/12/23, 11:44 - Benedetta Zini: Goodmornig 😊! I have already called SSI Helpdesk for ticket 01333731 (turn off and turn on wamas). We will update five minutes before 12 am for starting the shutdown @Support Technician 15

27/12/23, 11:46 - Support Technician 15: hello

27/12/23, 11:46 - Support Technician 15: ok, thank you

27/12/23, 11:59 - Benedetta Zini: Hello Robert

27/12/23, 11:59 - Support Technician 15: Hello

27/12/23, 12:00 - Benedetta Zini: If it is okay you can proceed with the shutdown

27/12/23, 12:00 - Support Technician 15: ok, but i think you have to put agvDisable - True

27/12/23, 12:00 - Benedetta Zini: yes

27/12/23, 12:01 - Support Technician 15: ok, I see it's false now

27/12/23, 12:01 - Benedetta Zini: now it is true

27/12/23, 12:01 - Support Technician 15: ok :)

27/12/23, 12:01 - Benedetta Zini: 3 AGVs mission

27/12/23, 12:01 - Benedetta Zini: I will let you know when you can start

27/12/23, 12:01 - Benedetta Zini: :)

27/12/23, 12:02 - Support Technician 15: ok

27/12/23, 12:05 - Benedetta Zini: I see red bubbles 😞

27/12/23, 12:05 - Benedetta Zini: We are trying to reset them...

27/12/23, 12:06 - Benedetta Zini: IMG-20231227-WA0000.jpg (file allegato)

27/12/23, 12:10 - Benedetta Zini: It is the fault of LDF01C0522_RIGHT

27/12/23, 12:16 - Benedetta Zini: I can't remove red bubbles 😞

27/12/23, 12:16 - Razvan Voicu: We are checking now

27/12/23, 12:16 - Benedetta Zini: thank you

27/12/23, 12:24 - Benedetta Zini: IT WORKS!

27/12/23, 12:24 - Razvan Voicu: <Media omessi>

27/12/23, 12:25 - Benedetta Zini: You can start with the shutdown 🤔

27/12/23, 12:25 - Razvan Voicu: Ok, we are starting

27/12/23, 12:26 - Benedetta Zini: Please, tell me when everything is turned off so we can start working on server

27/12/23, 12:27 - Benedetta Zini: then I will let you know when you can turn WAMAS on again

27/12/23, 12:28 - Razvan Voicu: sure

27/12/23, 12:35 - Support Technician 15: ok, I stopped the wamas application server. You can shutdown the VM - 172.29.26.37

27/12/23, 12:35 - Support Technician 15: I will also stop the Database server and let you know when you can shutdown the VM - 172.29.26.36 as well

27/12/23, 12:36 - Benedetta Zini: I'm going to wait until everything is stopped

27/12/23, 12:49 - Support Technician 15: ok, you can shutdown both of VMs. I stopped wamas, hive, LH and database

27/12/23, 12:49 - Benedetta Zini: perfect

27/12/23, 12:50 - Support Technician 15: and please let me know when I can start it again

27/12/23, 12:50 - Benedetta Zini: yes sure

27/12/23, 15:07 - Benedetta Zini: We are almost ready

27/12/23, 15:08 - Razvan Voicu: <Media omessi>

27/12/23, 15:13 - Benedetta Zini: DB is on, we are turning LH, Rocla and others on

27/12/23, 15:15 - Benedetta Zini: Okay you can switching on WAMAS and others

27/12/23, 15:15 - Benedetta Zini: 🙏

27/12/23, 15:16 - Support Technician 15: ok, thanks

27/12/23, 15:17 - Benedetta Zini: Please tell me when everything is working 🤔

27/12/23, 15:33 - Benedetta Zini: any news?

27/12/23, 15:34 - Razvan Voicu: almost done checking

27/12/23, 15:34 - Benedetta Zini: okss

27/12/23, 15:34 - Benedetta Zini: we have to do something in automatic area?

27/12/23, 15:35 - Benedetta Zini: IMG-20231227-WA0004.jpg (file allegato)

27/12/23, 15:35 - Benedetta Zini: reset of F01 and F02?

27/12/23, 15:35 - Razvan Voicu: no

27/12/23, 15:35 - Razvan Voicu: MFS is loading

27/12/23, 15:35 - Benedetta Zini: okay okay

27/12/23, 15:35 - Benedetta Zini: thanks for the information

27/12/23, 15:35 - Razvan Voicu: just loading slower than usual
27/12/23, 15:35 - Benedetta Zini: it is my first stop and start 😞
27/12/23, 15:36 - Razvan Voicu: Any feedback from your IT dept about the maintenance? Maybe they changed some configuration or?
27/12/23, 15:37 - Benedetta Zini: We only change the server
27/12/23, 15:38 - Benedetta Zini: Because we have to increase storage on our currently server
27/12/23, 15:38 - Razvan Voicu: ok
27/12/23, 15:39 - Benedetta Zini: so we transfer all on a temporary server, from now to Tuesday 2.01 we are going to increase storage
27/12/23, 15:39 - Benedetta Zini: then we are going back to our server on 2 of January
27/12/23, 15:40 - Benedetta Zini: Can we start working in manual area?
27/12/23, 15:41 - Benedetta Zini: What is the machine that is suffered?
27/12/23, 15:42 - Benedetta Zini: Because IT dept changed the host
27/12/23, 15:42 - Razvan Voicu: The server is loading slow
27/12/23, 15:42 - Benedetta Zini: which one?
27/12/23, 15:42 - Razvan Voicu: App server
27/12/23, 15:42 - Razvan Voicu: .37
27/12/23, 15:43 - Benedetta Zini: wamasapp?
27/12/23, 15:43 - Razvan Voicu: Yes
27/12/23, 15:43 - Benedetta Zini: okay
27/12/23, 15:43 - Benedetta Zini: they are checking too
27/12/23, 15:43 - Razvan Voicu: What sever you changed?
27/12/23, 15:43 - Razvan Voicu: Wamasapp
Or wamasdb
27/12/23, 15:44 - Benedetta Zini: for us WAMASAPP is 10.32.0.5
27/12/23, 15:44 - Benedetta Zini: We changed the host in which all VM running
27/12/23, 15:44 - Benedetta Zini: DB and APP
27/12/23, 15:47 - Benedetta Zini: The configuration of all VM is the same, they are a copy
27/12/23, 15:53 - Benedetta Zini: now automatic area start moving
27/12/23, 15:55 - Razvan Voicu: Ok yes
27/12/23, 15:55 - Razvan Voicu: Everything is ok on our side
27/12/23, 15:55 - Benedetta Zini: AGVs?
27/12/23, 15:55 - Razvan Voicu: parameter on false
27/12/23, 15:55 - Razvan Voicu: somebody on your side changed it
27/12/23, 15:56 - Benedetta Zini: IMG-20231227-WA0005.jpg (file allegato)
27/12/23, 15:56 - Benedetta Zini: there are in charging position...
27/12/23, 15:57 - Razvan Voicu: OH
27/12/23, 15:57 - Razvan Voicu: checking
27/12/23, 15:57 - Benedetta Zini: thank you
27/12/23, 16:00 - Razvan Voicu: IMG-20231227-WA0006.jpg (file allegato)
27/12/23, 16:00 - Razvan Voicu: this seems to be the prob
27/12/23, 16:00 - Benedetta Zini: what is the problem?
27/12/23, 16:00 - Benedetta Zini: AGV #3?
27/12/23, 16:02 - Benedetta Zini: IMG-20231227-WA0007.jpg (file allegato)
AGVs 12, 23 and 26 are green and we can see them on LH and Cway
27/12/23, 16:02 - Razvan Voicu: Do you have rocla support?
27/12/23, 16:02 - Benedetta Zini: I have to call SSI Helpdesk...
27/12/23, 16:02 - Razvan Voicu: Agvs seem to not be connected
27/12/23, 16:03 - Benedetta Zini: oh no...
27/12/23, 16:03 - Benedetta Zini: but not all of them...
27/12/23, 16:03 - Razvan Voicu: Yes 12 23 26 green
27/12/23, 16:03 - Benedetta Zini: Hive is okay?
27/12/23, 16:03 - Razvan Voicu: Can you try to turn them on/off?
27/12/23, 16:04 - Benedetta Zini: I'm going to try
27/12/23, 16:06 - Razvan Voicu: Things are getting green
27/12/23, 16:06 - Benedetta Zini: AGVs are all off
27/12/23, 16:06 - Benedetta Zini: yes
27/12/23, 16:07 - Razvan Voicu: IMG-20231227-WA0008.jpg (file allegato)
27/12/23, 16:07 - Razvan Voicu: that must be a good sign
27/12/23, 16:07 - Benedetta Zini: But I don't know why 3 are still active 😊
27/12/23, 16:07 - Benedetta Zini: yes

27/12/23, 16:07 - Razvan Voicu: Ok, so try to restart them and let's see what happens
 27/12/23, 16:07 - Razvan Voicu: if not, we will contact rocla support
 27/12/23, 16:08 - Benedetta Zini: They are appearing on LH and Cway 🤔
 27/12/23, 16:11 - Benedetta Zini: Please contact Rocla support because we have difficulty to reinsert AGVs inside the system
 27/12/23, 16:12 - Benedetta Zini: Rocla don't assign mission to AGV
 27/12/23, 16:12 - Benedetta Zini: IMG-20231227-WA0009.jpg (file allegato)
 27/12/23, 16:14 - Benedetta Zini: We all AGVs in "NOT IN SYSTEM"
 27/12/23, 16:20 - Benedetta Zini: I have already called Helpdesk
 27/12/23, 16:20 - Razvan Voicu: Ok
 27/12/23, 16:20 - Benedetta Zini: Hive is okay?
 27/12/23, 16:32 - Benedetta Zini: IMG-20231227-WA0010.jpg (file allegato)
 27/12/23, 16:32 - Support Technician 15: I contacted our call center to request support from Rocla team
 27/12/23, 16:36 - Razvan Voicu: we can keep trying to restart the hive, not sure if it helps or not
 27/12/23, 16:36 - Razvan Voicu: but did you do something special to the agvs that work?
 27/12/23, 16:36 - Benedetta Zini: no wait
 27/12/23, 16:42 - Benedetta Zini: They work!!!!!!!
 27/12/23, 16:46 - Razvan Voicu: Did you do something? Or rocla
 27/12/23, 16:54 - Razvan Voicu: i see that agv 3 is still red
 27/12/23, 16:54 - Razvan Voicu: let us know if you did something or rocla, so we know for the future
 27/12/23, 17:20 - Benedetta Zini: Here I am! sorry
 27/12/23, 17:21 - Benedetta Zini: Services inside Rocla server were turn off...
 27/12/23, 17:21 - Benedetta Zini: So Rocla turned them on and put it in automatic mode (because it was in manual)
 27/12/23, 17:22 - Benedetta Zini: So next time (on 2nd of January) we won't have this problem again
 27/12/23, 17:24 - Razvan Voicu: Ok. Good to know
 27/12/23, 17:24 - Benedetta Zini: yes...
 27/12/23, 17:37 - Support Technician 15: so now everything is working correctly ?
 27/12/23, 17:39 - Support Technician 15: IMG-20231227-WA0013.jpg (file allegato)
 27/12/23, 17:39 - Giacomo Trivieri, Lavoro: The agv in zone wuzzi, goes in I/O Blocking
 27/12/23, 17:40 - Giacomo Trivieri, Lavoro: IMG-20231227-WA0014.jpg (file allegato)
 27/12/23, 17:40 - Giacomo Trivieri, Lavoro: IMG-20231227-WA0015.jpg (file allegato)
 27/12/23, 17:41 - Support Technician 15: and can you contact ROCLA again to check? I don't see anything on our side
 27/12/23, 17:44 - Giacomo Trivieri, Lavoro: I have already contacted incas support and they have already contacted rocla

We are waiting

27/12/23, 17:44 - Support Technician 15: ok, thank you
 27/12/23, 18:24 - Giacomo Trivieri, Lavoro: Sorry but now i have a problem on all the picking station source, can you check what happening?
 27/12/23, 18:32 - Support Technician 15: ok, i am checking
 27/12/23, 18:32 - Support Technician 15: but the agvs are working now ?
 27/12/23, 18:32 - Giacomo Trivieri, Lavoro: The technician is in contact with me to solve the problem
 27/12/23, 18:33 - Support Technician 15: and what is the issue at picking station ?
 27/12/23, 18:40 - Giacomo Trivieri, Lavoro: The shift manager told me that they do not go back
 27/12/23, 18:41 - Support Technician 15: ok, checking
 27/12/23, 18:46 - Support Technician 15: it is working now ?
 27/12/23, 18:46 - Support Technician 15: the picking stations
 27/12/23, 18:47 - Giacomo Trivieri, Lavoro: I check
 27/12/23, 18:59 - Giacomo Trivieri, Lavoro: Its Ok now

27/12/23, 19:00 - Support Technician 15: ok, and can you please give an update when/if the issue with the AGVs is solved ?
 27/12/23, 19:07 - Giacomo Trivieri, Lavoro: Ok I update when The agv issue are solve
 27/12/23, 19:07 - Giacomo Trivieri, Lavoro: Now are at work to fix
 27/12/23, 19:07 - Support Technician 15: ok, thanks
 28/12/23, 08:57 - Benedetta Zini: Hi All, sorry for bothering you but I need your help...
 28/12/23, 08:58 - Benedetta Zini: It seems that mqReceiver needs a reset...
 28/12/23, 08:59 - Benedetta Zini: Could you please reset it?
 28/12/23, 09:02 - Benedetta Zini: 🙏🙏
 28/12/23, 09:02 - Benedetta Zini: This problem blocks trucks loading...
 28/12/23, 09:02 - Benedetta Zini: I can't do it, can I? <Questo messaggio è stato modificato>
 28/12/23, 09:04 - Support Technician 7: Hi, give me 5 minutes, i will reset it
 28/12/23, 09:06 - Benedetta Zini: Thank you!
 28/12/23, 09:12 - Benedetta Zini: Please tell me as soon as you reset it so I can check if it is okay or not 🤔
 28/12/23, 09:17 - Support Technician 7: I restarted it
 28/12/23, 09:20 - Benedetta Zini: It doesn't work...
 28/12/23, 09:20 - Benedetta Zini: We have 124 messages in queue that are waiting for WAMAS
 28/12/23, 09:20 - Benedetta Zini: 😞
 28/12/23, 09:21 - Benedetta Zini: Do you reset the mqReceiver? not Sender
 28/12/23, 09:24 - Support Technician 7: I am looking
 28/12/23, 09:24 - Benedetta Zini: Thanks
 28/12/23, 09:30 - Support Technician 7: Is it working now ? Or where do you see the 124 messages?
 28/12/23, 09:36 - Benedetta Zini: Yes... Now we have 129 messages in queue 😞
 28/12/23, 09:37 - Benedetta Zini: It seems that there isn't a communication between our host (AS400) and WAMAS
 28/12/23, 09:37 - Benedetta Zini: IMG-20231228-WA0001.jpg (file allegato)
 28/12/23, 09:38 - Support Technician 7: And can you fix it from your side?
 28/12/23, 09:38 - Benedetta Zini: From our side everything is okay
 28/12/23, 09:39 - Benedetta Zini: It is WAMAS that doesn't want to read messages...
 28/12/23, 09:39 - Benedetta Zini: Last message it read was at 22:51 of yesterday
 28/12/23, 09:40 - Benedetta Zini: IMG-20231228-WA0002.jpg (file allegato)
 28/12/23, 09:40 - Support Technician 7: Can you tell me if it works now?
 28/12/23, 09:40 - Benedetta Zini: Did you do something?
 28/12/23, 09:41 - Support Technician 7: I tried a reset again
 28/12/23, 09:47 - Benedetta Zini: I'm checking
 28/12/23, 09:48 - Benedetta Zini: It works!!!!!!
 28/12/23, 09:50 - Support Technician 7: Awesome
 28/12/23, 09:50 - Benedetta Zini: what was the issue?
 28/12/23, 09:52 - Support Technician 7: I restarted again both mqSender and mqReceiver
 28/12/23, 09:52 - Support Technician 7: I dont know why it didn't work the first time
 28/12/23, 09:52 - Benedetta Zini: Can I reset them by my self?
 28/12/23, 10:07 - Support Technician 7: I dont know to be honest. Try to access se038 and search for "mqsender" or "mqreceiver". Right click on the worker and see if you can stop/start
 28/12/23, 10:13 - Benedetta Zini: IMG-20231228-WA0004.jpg (file allegato)
 only SE015
 28/12/23, 10:16 - Support Technician 7: Then you can't do this
 28/12/23, 12:38 - Razvan Voicu: Hello
 28/12/23, 12:39 - Razvan Voicu: Because of what old bug you can't discharge 59046657?
 28/12/23, 12:39 - Razvan Voicu: from what I see in logs

2023-12-28-12:25:16.225 | main | INFO |
 Can't discharge LU: 59046657 because of inBufferArea / supermarketStaging / partOfAnActiveOrder flags: false / false / true - SmLuHelper

28/12/23, 12:40 - Razvan Voicu: You can't discharge this because the OBD is still active

28/12/23, 12:45 - Razvan Voicu: @Company Employee 11

28/12/23, 12:59 - Benedetta Zini: Honestly I don't remember...

28/12/23, 12:59 - Benedetta Zini: As soon as I come back to work I will check

28/12/23, 13:00 - Benedetta Zini: But we can discharge even if obd is active...

28/12/23, 13:00 - Benedetta Zini: 😞

28/12/23, 13:51 - Razvan Voicu: Yes, you can, but it needs to be inBufferArea or supermarket

28/12/23, 13:52 - Razvan Voicu: This is in HBW1

28/12/23, 13:54 - Razvan Voicu: From the code, this is standard logic

28/12/23, 13:55 - Razvan Voicu: IMG-20231228-WA0008.jpg (file allegato)
so you have to move this LU to manual buffer area

28/12/23, 13:56 - Razvan Voicu: or automatic buffer area, which is SS46 or HBW2

28/12/23, 13:56 - Razvan Voicu: or the lu to be whole in HBW1

28/12/23, 13:58 - Razvan Voicu: or to be in supermarketStaging or Bulk

28/12/23, 14:35 - Benedetta Zini: You are right.. LU is old and we sent it inside HBW1 maybe because S46 was full... this happened before CR "redirecting shipLU inside HBW1 if S46 is full"

28/12/23, 14:43 - Razvan Voicu: Can you send it to a proper location in order to be discharged?

28/12/23, 14:43 - Benedetta Zini: yes, we have already done it

28/12/23, 14:43 - Benedetta Zini: We are waiting it at QC exit 😊

28/12/23, 14:47 - Razvan Voicu: Great, thanks

28/12/23, 15:02 - Tommaso Guizzardi, Lavoro: IMG-20231228-WA0010.jpg (file allegato)

28/12/23, 15:02 - Tommaso Guizzardi, Lavoro: IMG-20231228-WA0011.jpg (file allegato)

28/12/23, 15:03 - Benedetta Zini: @Company Employee 22 wait a minute

28/12/23, 15:05 - Benedetta Zini: Could you please check what is happening?

28/12/23, 15:07 - Benedetta Zini: We think that this issue is generated by printer LDF01C0522_RIGHT

28/12/23, 15:08 - Benedetta Zini: IMG-20231228-WA0013.jpg (file allegato)
LU is blocked on CU053

28/12/23, 15:09 - Benedetta Zini: IMG-20231228-WA0015.jpg (file allegato)
and labeler is in "Notify" mode

28/12/23, 15:09 - Benedetta Zini: And all F01 have red bubbles and all conveyors are stop

28/12/23, 15:11 - Benedetta Zini: It seems that WAMAS is trying to send something to the labeler but it fails and everything go in error...

28/12/23, 15:12 - Benedetta Zini: It happened Yesterday morning and afternoon before the switch off of the system

28/12/23, 15:12 - Benedetta Zini: @Support Technician 21 and @Support Technician 15 fixed it

28/12/23, 15:13 - Support Technician 15: checking

28/12/23, 15:13 - Support Technician 15: i don't know if it is the same issue

28/12/23, 15:13 - Benedetta Zini: I kindly ask you to check why this issue occurs and fix it forever 🙏

28/12/23, 15:13 - Benedetta Zini: thank you

28/12/23, 15:14 - Benedetta Zini: I supposed yes because the labeler is in the same condition

28/12/23, 15:14 - Benedetta Zini: 👍

28/12/23, 15:15 - Benedetta Zini: but I'm not sure... just a guess

28/12/23, 15:15 - Benedetta Zini: you are the WAMAS expert

28/12/23, 15:19 - Benedetta Zini: I reach the labeler

28/12/23, 15:21 - Support Technician 15: 51999878 where is this TU ?

28/12/23, 15:21 - Support Technician 15: I see the first pending events it's for this TU but can't find it in Wamas

28/12/23, 15:22 - Benedetta Zini: Give me 2 minutes, I'm checking

28/12/23, 15:23 - Support Technician 15: IMG-20231228-WA0016.jpg (file allegato)
i see it on mfs and it's stuck there

28/12/23, 15:25 - Benedetta Zini: IMG-20231228-WA0017.jpg (file allegato)

28/12/23, 15:25 - Benedetta Zini: there it is

28/12/23, 15:25 - Benedetta Zini: but we can't see it on wamas...

28/12/23, 15:25 - Support Technician 15: I deleted the first pending event for it

28/12/23, 15:26 - Benedetta Zini: It works

28/12/23, 15:26 - Benedetta Zini: IMG-20231228-WA0018.jpg (file allegato)

28/12/23, 15:27 - Support Technician 15: can you please create a ticket priority C for this? and I will analyze the issue and the logs

28/12/23, 15:27 - Benedetta Zini: But LU is waiting on IPF01C1261

28/12/23, 15:27 - Support Technician 15: ok, checking

28/12/23, 15:27 - Benedetta Zini: Yes sure, I'm going to write an email

28/12/23, 15:30 - Benedetta Zini: @Support Technician 15 WAMAS see this LU on CU126

28/12/23, 15:31 - Benedetta Zini: IMG-20231228-WA0019.jpg (file allegato)

28/12/23, 15:31 - Benedetta Zini: TEMP7523

28/12/23, 15:31 - Support Technician 15: hm

28/12/23, 15:31 - Support Technician 15: yes

28/12/23, 15:31 - Benedetta Zini: whereas MFS

28/12/23, 15:31 - Benedetta Zini: IMG-20231228-WA0020.jpg (file allegato)

28/12/23, 15:31 - Benedetta Zini: very strange

28/12/23, 15:32 - Support Technician 15: is on the same location as 51999878

28/12/23, 15:32 - Support Technician 15: but I can't find 51999878 in the system

28/12/23, 15:32 - Support Technician 15: so should we get rid of that TEMP ?

28/12/23, 15:33 - Benedetta Zini: nono wait a minute

28/12/23, 15:33 - Support Technician 15: ok

28/12/23, 15:33 - Benedetta Zini: I'm going to check phisically the barcode

28/12/23, 15:35 - Benedetta Zini: it is a loading aid AF and it can't go inside HBW1...

28/12/23, 15:35 - Benedetta Zini: IMG-20231228-WA0021.jpg (file allegato)

28/12/23, 15:36 - Tommaso Guizzardi, Lavoro: IMG-20231228-WA0022.jpg (file allegato)

28/12/23, 15:36 - Benedetta Zini: from destination of pick station empty AF have to go to S46...

28/12/23, 15:37 - Benedetta Zini: Thanks @Company Employee 22

@Support Technician 15 the TEMP is the LU 51999878

28/12/23, 15:38 - Benedetta Zini: it seems that WMS is a step back respect MFS...

28/12/23, 15:42 - Benedetta Zini: do you find something?

28/12/23, 15:44 - Benedetta Zini: because the issue of the potential total block is this problem... WMS sees TEMP whereas MFS sees LU 51999878

28/12/23, 15:45 - Benedetta Zini: If you are okay I will proceed with deleting pallet

28/12/23, 15:49 - Support Technician 15: still checking

28/12/23, 15:50 - Support Technician 15: and what should happen with this pallet ?

28/12/23, 15:50 - Support Technician 15: what are you trying to do with it ?

28/12/23, 15:50 - Support Technician 15: it is ok just to take it out and delete it ?

28/12/23, 15:50 - Benedetta Zini: in order to fix this problem yes, we have to remove it from the system... both TEMP and LU <Questo messaggio è stato modificato>

28/12/23, 15:51 - Benedetta Zini: but I understood what was the root cause of loading aid AF with TPO towards HBW01 (not okay) and I'm going to write an email

28/12/23, 15:52 - Benedetta Zini: But I don't understand why WMS sees TEMP and MFS LU....

28/12/23, 15:55 - Support Technician 15: not sure either, need to check the log

28/12/23, 15:56 - Support Technician 15: so for now in order to fix this issue, we can delete it

28/12/23, 15:57 - Benedetta Zini: Yes and we can do it

28/12/23, 15:57 - Benedetta Zini: Atlas can do it (I think)

28/12/23, 15:57 - Support Technician 15: ok, please let me know when it's done

28/12/23, 16:01 - Support Technician 15: strange how mfs put a barcode to that TEMP. When the pallet leave the destacker it should be TEMP on WMS and MFS until arrives at picking

28/12/23, 16:07 - Benedetta Zini: nono it is okay, because on CU126 we have a

barcode reader

28/12/23, 16:07 - Benedetta Zini: so MFS worked well, whereas WMS not...
28/12/23, 16:08 - Support Technician 15: hm ok, i understand
28/12/23, 16:24 - Support Technician 15: so can they delete it ?
28/12/23, 16:28 - Benedetta Zini: I did it
28/12/23, 16:29 - Support Technician 15: ok, I will be checking this issue from the logs, to see if I can find something
28/12/23, 17:00 - Benedetta Zini: We have problems with TPOs... WAMAS doesn't create TPO for pallet that have to go to pick stations and we have also problem in manual area with TPO
28/12/23, 17:01 - Benedetta Zini: All these LUs have to go to pick #8, but they don't have TPOs
28/12/23, 17:01 - Benedetta Zini: IMG-20231228-WA0024.jpg (file allegato)
28/12/23, 17:02 - Benedetta Zini: IMG-20231228-WA0025.jpg (file allegato)
28/12/23, 17:02 - Benedetta Zini: Pick #8 is empty...
28/12/23, 17:06 - Support Technician 15: ok, I am checking
28/12/23, 17:07 - Benedetta Zini: thank you
28/12/23, 17:10 - Benedetta Zini: in manual area when user try to bring a pallet WAMAS says "it is not planned in the transport orders", but LU have a TPO
28/12/23, 17:25 - Benedetta Zini: any news?
28/12/23, 17:36 - Benedetta Zini: Pick stations aren't working...
28/12/23, 17:38 - Benedetta Zini: whereas in manual area user can't move pallets with manual mode and spontaneous
28/12/23, 17:41 - Support Technician 15: checking.....
28/12/23, 17:49 - Benedetta Zini: also empty pallet request...
28/12/23, 17:56 - Benedetta Zini: Can it be some job/worker?
28/12/23, 17:56 - Razvan Voicu: We are checking now
28/12/23, 18:04 - Benedetta Zini: mfs problem?
28/12/23, 18:05 - Benedetta Zini: maybe a restart of mfs can help?
28/12/23, 18:05 - Benedetta Zini: GREAT!!
28/12/23, 18:05 - Benedetta Zini: I can see TPOs now
28/12/23, 18:05 - Benedetta Zini: let me check manual area
28/12/23, 18:13 - Benedetta Zini: it doesn't work...
28/12/23, 18:14 - Benedetta Zini: with mobile terminal
28/12/23, 18:17 - Benedetta Zini: IMG-20231228-WA0026.jpg (file allegato)
28/12/23, 18:17 - Benedetta Zini: IMG-20231228-WA0027.jpg (file allegato)
28/12/23, 18:20 - Razvan Voicu: One second
28/12/23, 18:20 - Razvan Voicu: The mfArea queue is blocked
28/12/23, 18:21 - Razvan Voicu: I am trying to make it work
28/12/23, 18:23 - Benedetta Zini: oh okay thanks
28/12/23, 18:27 - Razvan Voicu: Ok
28/12/23, 18:27 - Razvan Voicu: Now, let's see what works and what doesn't
28/12/23, 18:34 - Benedetta Zini: It seems that everything it's back to work!
28/12/23, 18:34 - Benedetta Zini: what was the issue?
28/12/23, 18:40 - Razvan Voicu: Did you do something to db around 15:00 IT time?
28/12/23, 18:41 - Razvan Voicu: 2023-12-28-16:04:13.995 | MfamMessageListener-mfam | ERROR | Message processing failed: #retry:0
com.wamas.platform.jdbc.exceptions.JdbcConnectionException: The connection to the database was interrupted unexpectedly.
Please try again later. <Questo messaggio è stato modificato>
28/12/23, 18:41 - Razvan Voicu: here we have a lot of errors regarding db conneciton
28/12/23, 18:42 - Razvan Voicu: actually it's 16:04 italy time
28/12/23, 18:53 - Razvan Voicu: IMG-20231228-WA0029.jpg (file allegato)
I checked DB,
28/12/23, 18:53 - Razvan Voicu: Red, but still ok
28/12/23, 19:08 - Razvan Voicu: Can you confirm it's all ok?
28/12/23, 21:21 - Benedetta Zini: Sorry for late reply, but I confirm that it is okay
28/12/23, 21:22 - Benedetta Zini: Yes we do something at this time... wamas freezing for 1 sec...
28/12/23, 21:22 - Benedetta Zini: Thank you for your help @Support Technician 21 and @Support Technician 15
28/12/23, 21:24 - Razvan Voicu: Thanks aswell

29/12/23, 15:33 - Benedetta Zini: Hello, I have already sent an email for pick station #1 because it is blocked... Orders in status active don't have empty pallet/request for empty pallet. Could you please check? thank you

29/12/23, 17:50 - Giacomo Trivieri, Lavoro: Sorry you have to check the pick station #1?

29/12/23, 17:52 - Giacomo Trivieri, Lavoro: If you can kindly watch what happens because it is still not working

29/12/23, 17:55 - Support Technician 7: Hi, I am a little bit confused. So you want to create an empty Lu request to finish pick order 4258275 first, then to finish pick order 4258282?

29/12/23, 18:09 - Support Technician 7: Can you pick now?

29/12/23, 18:09 - Giacomo Trivieri, Lavoro: I go to check thx

29/12/23, 18:14 - Giacomo Trivieri, Lavoro: IMG-20231229-WA0001.jpg (file allegato)

Baia 1

29/12/23, 18:14 - Giacomo Trivieri, Lavoro: No 😞

29/12/23, 18:15 - Giacomo Trivieri, Lavoro: IMG-20231229-WA0003.jpg (file allegato)

29/12/23, 18:15 - Giacomo Trivieri, Lavoro: IMG-20231229-WA0005.jpg (file allegato)

29/12/23, 18:15 - Giacomo Trivieri, Lavoro: IMG-20231229-WA0004.jpg (file allegato)

29/12/23, 18:44 - Razvan Voicu: what is the barcode of this box

29/12/23, 18:44 - Giacomo Trivieri, Lavoro: Did you by chance arrest Station 1?

29/12/23, 18:44 - Razvan Voicu: 60509859?

29/12/23, 18:44 - Razvan Voicu: I logged in on it, yes

29/12/23, 18:45 - Razvan Voicu: So what barcode is on BP01 D02?

29/12/23, 18:45 - Giacomo Trivieri, Lavoro: Yes is correct

29/12/23, 18:47 - Razvan Voicu: IMG-20231229-WA0006.jpg (file allegato)

29/12/23, 18:47 - Razvan Voicu: and this is the stock item on the pallet? Is that correct?

29/12/23, 18:50 - Giacomo Trivieri, Lavoro: I check

29/12/23, 18:53 - Giacomo Trivieri, Lavoro: Yes are 10

29/12/23, 19:14 - Giacomo Trivieri, Lavoro: Now we have the same problem in the picking station 10

29/12/23, 19:22 - Razvan Voicu: IMG-20231229-WA0007.jpg (file allegato)

29/12/23, 19:22 - Razvan Voicu: we need to cancel

29/12/23, 19:22 - Razvan Voicu: these 2 POs

29/12/23, 19:23 - Razvan Voicu: Problem is that for one the emptyLuRequest was canceled

29/12/23, 19:23 - Razvan Voicu: They have different pickers, not sure why

29/12/23, 19:24 - Razvan Voicu: Can I finalize them?

29/12/23, 19:24 - Razvan Voicu: Problem is that some LUs arrived at station, but no empty is assigned to them so the pick can be done

29/12/23, 19:24 - Razvan Voicu: and for other the target is at station, but sourceLus are still in HBW

29/12/23, 19:30 - Razvan Voicu: Can we do that?

29/12/23, 19:31 - Razvan Voicu: I think this is related to the server change, because we get more than usual "connection interrupted to the database unexpectedly " errors, which causes a slow in the performance

29/12/23, 19:31 - Razvan Voicu: and I noticed the performance of the server to be lower, when we did the restart

29/12/23, 19:31 - Razvan Voicu: Stuff that usually loaded in 1-2 minutes took 10-15 minutes

29/12/23, 19:44 - Support Technician 15: @Company Employee 10

29/12/23, 19:47 - Giacomo Trivieri, Lavoro: Sorry I unfortunately don't know how to answer you on how to proceed because I am part of maintenance, I would not like to cancel things that would penalise those who schedule picking orders.

Maybe it's better to wait until the 2nd of January after changing servers if that's not a problem for you.

29/12/23, 19:47 - Razvan Voicu: I already canceled them

29/12/23, 19:47 - Razvan Voicu: But if you wait until 2nd of January, then these stations would be blocked until then

29/12/23, 19:48 - Razvan Voicu: How is your schedule during holiday?
29/12/23, 19:49 - Benedetta Zini: I think so....
29/12/23, 19:49 - Giacomo Trivieri, Lavoro: It's OK because we are closed until the 3rd of January, on the 2nd we will only be here to do the server change and extraordinary maintenance
29/12/23, 19:49 - Razvan Voicu: Ok
29/12/23, 19:50 - Razvan Voicu: I already solved the issue with finalizing picking orders, just so you know for future
29/12/23, 19:50 - Razvan Voicu: everything should be ok now
29/12/23, 19:50 - Benedetta Zini: Thank you very much
29/12/23, 19:50 - Giacomo Trivieri, Lavoro: Thx for your support raizan
29/12/23, 19:51 - Razvan Voicu: 4260016
4258275
29/12/23, 19:52 - Razvan Voicu: These are the two POs from station1 that I finalized and you should probably re-pick the OBD
29/12/23, 19:53 - Razvan Voicu: Ok, so we will leave it like this until 2nd of January and then if there are problems we'll talk again?
02/01/24, 09:50 - Benedetta Zini: Good morning! Happy New Year to everyone! 🎉
02/01/24, 09:51 - Benedetta Zini: We are ready for switching off, I have already called Helpdesk. @Support Technician 7 let me know when you are ready 🤔
02/01/24, 09:51 - Benedetta Zini: Yes, we have to take a look after the restart
02/01/24, 09:52 - Support Technician 7: Good morning and happy new year!
02/01/24, 09:52 - Support Technician 7: Give me a moment to prepare please, I will let you know when we can start
02/01/24, 09:53 - Benedetta Zini: yes thank you
02/01/24, 10:02 - Support Technician 7: Let's do it
02/01/24, 10:03 - Support Technician 7: Should i put agvDisable = true?
02/01/24, 10:08 - Benedetta Zini: yes
02/01/24, 10:08 - Benedetta Zini: even if we haven't missions for AGV because we are closed, but just to be on the safe side
02/01/24, 10:09 - Support Technician 7: Yup, i will continue with shutdown on VM: 172.29.26.37
02/01/24, 10:09 - Benedetta Zini: okay
02/01/24, 10:09 - Support Technician 7: I will let you know when this one is shutdown
02/01/24, 10:09 - Benedetta Zini: let me know when all VMs are off
02/01/24, 10:32 - Support Technician 7: All VMs are off, you can start
02/01/24, 10:32 - Benedetta Zini: Thank you
02/01/24, 10:33 - Benedetta Zini: Let's see you again when we are ready to turn on 🤔
02/01/24, 11:27 - Benedetta Zini: We did it!
02/01/24, 11:27 - Benedetta Zini: Could you please restart VMs and applications?
02/01/24, 11:28 - Support Technician 7: Yup, i am on it!
02/01/24, 11:28 - Benedetta Zini: perfect!
02/01/24, 11:28 - Benedetta Zini: let me know as soon as all VMs are on
02/01/24, 11:29 - Support Technician 7: Ok
02/01/24, 11:29 - Benedetta Zini: so we can check that everything work
02/01/24, 11:55 - Support Technician 7: Done
02/01/24, 11:55 - Support Technician 7: Should i put agvDisable = false?
02/01/24, 11:55 - Benedetta Zini: yes
02/01/24, 11:55 - Support Technician 7: Done
02/01/24, 11:57 - Razvan Voicu: I think we have the AGV problem again, so you have to restart it
02/01/24, 11:58 - Benedetta Zini: Yes...
02/01/24, 11:58 - Benedetta Zini: I have to call Helpdesk
02/01/24, 12:08 - Benedetta Zini: I have already called Helpdesk for Rocla
02/01/24, 12:12 - Support Technician 7: Everything on our side looks good. When the Rocla team fixes the AGV issue, you can proceed with the tests and let us know if something is wrong
02/01/24, 12:13 - Benedetta Zini: yes, we are testing wamas side
02/01/24, 12:20 - Benedetta Zini: I did it!
02/01/24, 12:20 - Benedetta Zini: AGVs are okay
02/01/24, 12:20 - Benedetta Zini: 😊
02/01/24, 12:21 - Razvan Voicu: <Media omessi>

02/01/24, 12:36 - Benedetta Zini: yasssss
02/01/24, 12:36 - Benedetta Zini: one question
02/01/24, 12:37 - Benedetta Zini: mqSender and mqReceiver have to be restart?
02/01/24, 12:37 - Benedetta Zini: or not
02/01/24, 12:37 - Razvan Voicu: receiver, we restarted it
02/01/24, 12:37 - Razvan Voicu: but if you have probelsm with telegrams, we can restart again
02/01/24, 12:37 - Razvan Voicu: actually mqSender has to be restarted
02/01/24, 12:37 - Support Technician 7: MqSender we restarted
02/01/24, 12:40 - Benedetta Zini: because now we don't have truck loading so I can't test it
02/01/24, 12:40 - Benedetta Zini: Tomorrow we are going to restart the production
02/01/24, 12:44 - Benedetta Zini: thank you for your support @Support Technician 21 @Support Technician 7
02/01/24, 12:44 - Benedetta Zini: have a nice day!
02/01/24, 12:48 - Razvan Voicu: thanks aswell
02/01/24, 12:49 - Support Technician 7: Thanks! Have a nice day
05/01/24, 17:53 - Support Technician 7: Hi, regarding ticket 01337710 i have a few questions
05/01/24, 17:54 - Chiara Lodesani, Lavoro: Hi, tell me
05/01/24, 17:55 - Support Technician 7: Are you sure the stock on LUs 51531926 and 51531928 are the same as in the order with problems?
05/01/24, 17:56 - Chiara Lodesani, Lavoro: I think so
05/01/24, 17:56 - Chiara Lodesani, Lavoro: IMG-20240105-WA0001.jpg (file allegato)
05/01/24, 17:56 - Chiara Lodesani, Lavoro: IMG-20240105-WA0002.jpg (file allegato)
05/01/24, 17:57 - Support Technician 7: the reason i am asking this is because we have some different values in csia on stock
05/01/24, 17:57 - Support Technician 7: i will send you some photos
05/01/24, 17:58 - Support Technician 7: IMG-20240105-WA0003.jpg (file allegato) this is the stock required on the order
05/01/24, 17:58 - Chiara Lodesani, Lavoro: ok
05/01/24, 17:58 - Support Technician 7: IMG-20240105-WA0004.jpg (file allegato) but this is the stock on LUS
05/01/24, 17:58 - Support Technician 7: the CSIA02 value is different
05/01/24, 17:59 - Support Technician 7: that is the reason for "missing items"
05/01/24, 18:02 - Chiara Lodesani, Lavoro: Sorry but I don't know this parameter... I can change it on WAMAS for the LUs?
05/01/24, 18:03 - Support Technician 7: i think so
05/01/24, 18:04 - Support Technician 7: if you know for sure that is what you want to do
05/01/24, 18:04 - Support Technician 7: i can show you how
05/01/24, 18:06 - Support Technician 7: what i mean is, if you are sure the stock on those 2 lus is what you want to deliver for that order
05/01/24, 18:07 - Chiara Lodesani, Lavoro: the operation guy tell me that is the same stock
05/01/24, 18:07 - Support Technician 7: IMG-20240105-WA0005.jpg (file allegato) this field looks to be different
05/01/24, 18:08 - Support Technician 7: if you want to solve the problem, i think you should delete this field from the LU's stock
05/01/24, 18:08 - Support Technician 7: or i can delete it for you
05/01/24, 18:08 - Chiara Lodesani, Lavoro: ok.. or Can I change this value for the stock required on the order?
05/01/24, 18:10 - Support Technician 7: sure
05/01/24, 18:10 - Support Technician 7: right click on order line-> edit
05/01/24, 18:10 - Support Technician 7: IMG-20240105-WA0006.jpg (file allegato)
05/01/24, 18:10 - Support Technician 7: and this should pop up
05/01/24, 18:11 - Support Technician 7: and you match the tipoudc field
05/01/24, 18:11 - Support Technician 7: release again and then it should be fine
05/01/24, 18:12 - Chiara Lodesani, Lavoro: This page for me is 'reading only'. I try to change one LU
05/01/24, 18:13 - Support Technician 7: i can do it for you if you want

05/01/24, 18:13 - Support Technician 7: your choice
05/01/24, 18:13 - Support Technician 7: or you can change on LU, yes
05/01/24, 18:15 - Chiara Lodesani, Lavoro: IMG-20240105-WA0007.jpg (file allegato)
I have tried to delete the parameter on one LU but I can't save
05/01/24, 18:16 - Chiara Lodesani, Lavoro: I'm forced to enter a value
05/01/24, 18:16 - Support Technician 7: ok...that's strange. i can do it 🤔
05/01/24, 18:17 - Support Technician 7: i don't get the error
05/01/24, 18:18 - Chiara Lodesani, Lavoro: you have more power 😊
05/01/24, 18:18 - Support Technician 7: should i fix the order for now? and maybe look into this sometime next week?
05/01/24, 18:18 - Support Technician 7: because, for me, it is strange that from the same dialog i can save something and you can't
05/01/24, 18:18 - Chiara Lodesani, Lavoro: Yes, please
05/01/24, 18:19 - Support Technician 7: i will fix the field on order
05/01/24, 18:19 - Support Technician 7: and release it again
05/01/24, 18:19 - Chiara Lodesani, Lavoro: ok
05/01/24, 18:23 - Chiara Lodesani, Lavoro: please tell me when you have done it
05/01/24, 18:28 - Support Technician 7: Done
05/01/24, 18:28 - Support Technician 7: Tell me if it is ok foe you
05/01/24, 18:28 - Support Technician 7: I realised that csia1 was different as well 🤔
05/01/24, 18:28 - Support Technician 7: I changed that too on the order
05/01/24, 18:29 - Support Technician 7: I did not modify the stock at all. I just modified those 2 fields from csia for the order
05/01/24, 18:33 - Chiara Lodesani, Lavoro: ok, thank you. it works. next week we can check it because probably it can happen again...
05/01/24, 18:34 - Chiara Lodesani, Lavoro: for now thank you!
05/01/24, 18:35 - Support Technician 7: Thank you too! Can i close the ticket?
05/01/24, 18:38 - Chiara Lodesani, Lavoro: Yes
08/01/24, 17:52 - Razvan Voicu: hello @Company Employee 9
08/01/24, 17:52 - Razvan Voicu: So the two OBDs have shipmentLU with Loading in progress because they have a loading order assigned
08/01/24, 17:53 - Razvan Voicu: Now, I'm not exactly sure why this flag was set, I can keep digging
08/01/24, 17:53 - Razvan Voicu: or if you want, I can manually edit the fields so you can dissolve the load
08/01/24, 17:55 - Chiara Lodesani, Lavoro: Yes, please
08/01/24, 17:57 - Razvan Voicu: IMG-20240108-WA0001.jpg (file allegato)
08/01/24, 17:57 - Razvan Voicu: I believe because of this
08/01/24, 17:57 - Razvan Voicu: IMG-20240108-WA0002.jpg (file allegato)
for this Loading order
08/01/24, 18:00 - Chiara Lodesani, Lavoro: Can you resolve it or have I do something?
08/01/24, 18:01 - Razvan Voicu: Ok, I changed the loading state
08/01/24, 18:01 - Razvan Voicu: try to conitnue your flow now
08/01/24, 18:07 - Chiara Lodesani, Lavoro: it works, thank you
08/01/24, 18:08 - Chiara Lodesani, Lavoro: Now I have another problem with the inventory... can you check please?
08/01/24, 18:08 - Chiara Lodesani, Lavoro: I have send an email now
08/01/24, 18:10 - Razvan Voicu: □
08/01/24, 18:10 - Razvan Voicu: I'll check now
08/01/24, 18:10 - Chiara Lodesani, Lavoro: thank you
08/01/24, 18:15 - Razvan Voicu: But that LU is for LU restriciton
08/01/24, 18:15 - Razvan Voicu: restriction*
08/01/24, 18:16 - Chiara Lodesani, Lavoro: that is..?
08/01/24, 18:18 - Razvan Voicu: oh, I see, they have more inventory order lines
08/01/24, 18:18 - Razvan Voicu: Ok, so you want me to delete these 2 inventories, right?
08/01/24, 18:19 - Chiara Lodesani, Lavoro: yes, please try to do it
08/01/24, 18:21 - Razvan Voicu: done
08/01/24, 18:23 - Razvan Voicu: let me know if it works now
08/01/24, 18:24 - Chiara Lodesani, Lavoro: I'll check if the work station #1 restarts..

08/01/24, 18:26 - Chiara Lodesani, Lavoro: Do you know why there are 3 inventory orders for the same LU-ID?
08/01/24, 18:26 - Razvan Voicu: Too late, I already deleted them
08/01/24, 18:27 - Chiara Lodesani, Lavoro: Ah ok
08/01/24, 18:33 - Razvan Voicu: station ok?
08/01/24, 18:36 - Chiara Lodesani, Lavoro: IT WORKS!
08/01/24, 18:37 - Chiara Lodesani, Lavoro: thank you Razvan
08/01/24, 18:37 - Razvan Voicu: Thanks aswell
10/01/24, 08:57 - Benedetta Zini: Hello! Regarding ticket 01338423, the problem was really the presence of 5.135 pieces on LU 51753363?
The number of pieces was wrong, but it is strange that this can cause a potential block...
10/01/24, 08:58 - Adrian Cindea: yes
10/01/24, 08:58 - Adrian Cindea: it was empty physically
10/01/24, 08:58 - Adrian Cindea: but operator confirmed at zero crossing ... this amount
10/01/24, 08:59 - Adrian Cindea: after operator picked 5 pieces ... sistem requested inventory .. and operator confirm 5135 sc on it ...
10/01/24, 08:59 - Adrian Cindea: data is available in OG039 and SM003 (we will send an email about it with screen shoots)
10/01/24, 09:00 - Benedetta Zini: in this moment I'm checking SM003
10/01/24, 09:00 - Adrian Cindea: check on item from yesterday ... 21:47:16
10/01/24, 09:02 - Benedetta Zini: I found it in OG039
10/01/24, 09:02 - Benedetta Zini: IMG-20240110-WA0000.jpg (file allegato)
this was the problem?
10/01/24, 09:03 - Support Technician 10: I sent the email with the screenshots
10/01/24, 09:04 - Benedetta Zini: thank you!
10/01/24, 09:07 - Benedetta Zini: I'm so sorry... but I don't understand why system had to stop working due to this kind of mistake 😞 and why is happened? It seems strange that with the inventory user first declare 0 SC and then 5.000 SC...
10/01/24, 09:07 - Adrian Cindea: sort them by finish time
10/01/24, 09:08 - Adrian Cindea: pick of 5 -> inventory
10/01/24, 09:08 - Adrian Cindea: at inventory operator confirms 5153 SC
10/01/24, 09:08 - Adrian Cindea: 21:47:16 - inventory was done ... and quantity confirmed was 5153
10/01/24, 09:09 - Adrian Cindea: based on SM003 and ...
10/01/24, 09:09 - Benedetta Zini: yes
10/01/24, 09:09 - Benedetta Zini: and because user confirmed 5135, WAMAS decided to stop working...
10/01/24, 09:10 - Support Technician 10: The system stoped working because when the we tried to create some data for mfs we can't transform the gross weight the number was to big
10/01/24, 09:10 - Adrian Cindea: it crashed ... weight computation
10/01/24, 09:10 - Adrian Cindea: exceed 65000 kg ...
10/01/24, 09:10 - Benedetta Zini: okay, now it is clear as crystal
10/01/24, 09:10 - Adrian Cindea: it is a maximum value accepted .. and it was bigger ...
10/01/24, 09:11 - Adrian Cindea: this crashed WAMAS ... value is too much to be real :)
10/01/24, 09:11 - Adrian Cindea: 65353 is max. value accepted .. as i remember ... but it was much bigger
10/01/24, 09:12 - Benedetta Zini: It was 104.000 Kg
10/01/24, 09:12 - Benedetta Zini: 😞
10/01/24, 09:12 - Benedetta Zini: IMG-20240110-WA0001.jpg (file allegato)
10/01/24, 09:12 - Benedetta Zini: I trust you because I don't know this particular
11/01/24, 08:47 - Benedetta Zini: Hello! Regarding ticket 01338663, what was pcs order and pending event on LU 51997380 that didn't exists?
11/01/24, 08:54 - Support Technician 10: Hello yes
11/01/24, 08:56 - Benedetta Zini: okay but what is pcs order and pending event?
11/01/24, 08:57 - Support Technician 10: The pcs order is the orders that are on the plc and pending event is the creation of the orders on the pcs order pool
11/01/24, 08:59 - Benedetta Zini: okay thank you. And do you know what was the

root cause?

11/01/24, 08:59 - Benedetta Zini: Because LU didn't exists on WAMAS....
11/01/24, 09:02 - Support Technician 10: I will look into it
11/01/24, 18:29 - Benedetta Zini: Hello! Sorry for disturbing you, but I have already sent an email regarding what is happening now in automatic area
11/01/24, 18:29 - Benedetta Zini: IMG-20240111-WA0002.jpg (file allegato)
11/01/24, 18:32 - Benedetta Zini: Okay we managed to reset
11/01/24, 18:34 - Benedetta Zini: It seems okay now... I don't know what happened...
11/01/24, 18:47 - Support Technician 10: Hello I got the call from the cc I will take a look
11/01/24, 18:54 - Support Technician 10: @Company Employee 11 is there still a problem I checked the system and it's working
12/01/24, 08:52 - Benedetta Zini: Good morning, regarding yesterday's problems do you know exactly what happened? Tickets are 01338851 and 01338886... my colleague said that the second one is due to the high number of boxes on pallet...
12/01/24, 08:54 - Adrian Cindea: 01338886 -> 79700430 had 6.153 pieces
12/01/24, 08:55 - Adrian Cindea: 01338851 was fixed by you (no intervention .. when we connected - no issue in the system)
12/01/24, 08:56 - Adrian Cindea: regarding high number ... it is very strange case ... pls discuss with operator to understand if he did a mistake ...
12/01/24, 08:56 - Adrian Cindea: normally input value is used by us ...
12/01/24, 08:58 - Benedetta Zini: okay so you didn't find anything "strange"
12/01/24, 08:58 - Adrian Cindea: i will check again to see if i can see in log of application input of dialog
12/01/24, 08:59 - Benedetta Zini: yes... it is very strange... WAMAS is affected because the weight is higher than a threshold?
12/01/24, 08:59 - Adrian Cindea: but value was saved in stock item and stock history ... normally 6130 is an aleator value to be generated somehow by the system
12/01/24, 09:00 - Adrian Cindea: IMG-20240112-WA0000.jpg (file allegato)
12/01/24, 09:00 - Adrian Cindea: lp65 again ...
12/01/24, 09:00 - Benedetta Zini: yes... I know...
12/01/24, 09:00 - Adrian Cindea: pls talk to this user to see if he did it or not ...
12/01/24, 09:00 - Benedetta Zini: we have already called the shift leader
12/01/24, 09:01 - Benedetta Zini: absolutely, last time he did it
12/01/24, 09:04 - Adrian Cindea: we can add a protection to not allow more then 2 times a full pallet for example ... but the operator has to be careful when confirm the quantity ... because the pallet is reused and confirmed with zero at next picking (increasing time to pick current order) the idea is to prevent the system to crash in case operator makes mistake unwanted ... not wanted :)
12/01/24, 09:06 - Benedetta Zini: can we increase the gross weight threshold?
12/01/24, 09:06 - Adrian Cindea: if he did it one time it means he did it again (i though it could be a system problem and in some special case to confirm a strange quantity for stock)
12/01/24, 09:06 - Adrian Cindea: increase or decrease? it is up to you (parameter must be available for your side)
12/01/24, 09:07 - Benedetta Zini: I don't think it is a system problem... same user... same pick station... no other cases...
12/01/24, 09:07 - Adrian Cindea: k
12/01/24, 09:07 - Benedetta Zini: this one?
12/01/24, 09:07 - Adrian Cindea: it is related to definition of a variable in the software
12/01/24, 09:08 - Support Technician 10: It's not about gross weight as a filed it's about the value and if we want to change that we need to change a lot of stuffs
12/01/24, 09:08 - Benedetta Zini: oh okay...
12/01/24, 09:08 - Support Technician 10: This is just a value that is transmitted in mfs so we need to do that change for the hole system
12/01/24, 09:12 - Benedetta Zini: okay clear.... first we will talk again with operator 😊 (and hope that he doesn't make any deliberate mistake)
12/01/24, 09:12 - Adrian Cindea: the idea is to make operator responsible for its action .. because the same issue can be done during goods registration or edit stock and so on ...

12/01/24, 09:12 - Benedetta Zini: yes yes, you are right
12/01/24, 09:12 - Adrian Cindea: or to understand why operator did it ... maybe it scanned something instead to press ok (confirm empty pallet)
12/01/24, 09:13 - Benedetta Zini: yes sure
12/01/24, 09:14 - Adrian Cindea: in case he did for fun ... he has to be informed to not do it again ...
12/01/24, 09:14 - Adrian Cindea: in some cases for extra stock reported company pays taxes ... for minus stock no taxes ... and it can be a huge problem to report fake stock
12/01/24, 09:15 - Benedetta Zini: also for us...
12/01/24, 09:16 - Benedetta Zini: in fact this is not good
12/01/24, 09:16 - Benedetta Zini: not only for wamas...
12/01/24, 09:17 - Adrian Cindea: the idea is to be made responsible for his action ... but it is important how he did it ... input a value manually or he scanned by mistake and system used value scanned ... in that case a protection makes sense ... manual input is a fault
12/01/24, 09:19 - Benedetta Zini: I agree with you... I will let you know as soon as Operation manager talk with him
15/01/24, 08:57 - Benedetta Zini: Good morning... what was the root cause of this morning issue? 😞 ticket 01339283
15/01/24, 08:57 - Adrian Cindea: hello
15/01/24, 08:57 - Adrian Cindea: someone changed barcode for pallet ...
15/01/24, 08:57 - Adrian Cindea: but it still under analyzes
15/01/24, 09:02 - Benedetta Zini: 😞😞 stranger things happen every day... let me know when you find something more 🤔
15/01/24, 09:05 - Benedetta Zini: I have already talk with the maintenance guy who changed barcode reader, but the problem was already there
15/01/24, 09:05 - Adrian Cindea: now problem is solved ... we will come with feedback
15/01/24, 09:06 - Benedetta Zini: yes
15/01/24, 09:06 - Benedetta Zini: thank you
15/01/24, 12:00 - Chiara Lodesani, Lavoro: Hi All, at 12:30 we are going to set agvDisable = true to start the deploy
15/01/24, 12:30 - Chiara Lodesani, Lavoro: Could you explain us how CR P11/F81 work?
15/01/24, 12:31 - Chiara Lodesani, Lavoro: I have set agvDisable = true
15/01/24, 12:33 - Support Technician 7: Please let me know when we can start deploy
15/01/24, 12:38 - Chiara Lodesani, Lavoro: You can start with deploy
15/01/24, 12:48 - Benedetta Zini: Let us know what we have to check! In order to give to you a feedback if it is working or not 😊
15/01/24, 12:49 - Adrian Cindea: 1st of all entire system works as before the deploy.
15/01/24, 12:49 - Adrian Cindea: 2nd - deploy changes ...
15/01/24, 12:49 - Adrian Cindea: WH505 (to be sure there are rights for customer)
15/01/24, 12:50 - Adrian Cindea: IMG-20240115-WA0004.jpg (file allegato)
15/01/24, 12:50 - Adrian Cindea: my idea is to not tested today ... today to be sure system works normally as before deploy
15/01/24, 12:51 - Benedetta Zini: okay okay
15/01/24, 12:51 - Adrian Cindea: tomorrow to start to test it
15/01/24, 12:52 - Adrian Cindea: you have to set a goods category, a quality, HBW storage or not, storage in HBW (used by WMAAS only if HBW used is checked) use optimum or no limits (only physical :)) <Questo messaggio è stato modificato>
15/01/24, 12:52 - Adrian Cindea: this configuration is additional to WH502 ... and in case a quality and goods category is found in WH502 ... this rule is applied otherwise it is not affected by CR
15/01/24, 12:53 - Adrian Cindea: storage is done as before ... so no data in WH505 storage works as before the deploy
15/01/24, 12:56 - Adrian Cindea: i hope these explanations are clear ... <Questo messaggio è stato modificato>
15/01/24, 13:03 - Benedetta Zini: okay clear as crystal
15/01/24, 13:03 - Benedetta Zini: We have to create date inside WH505 for using

benefits of CR

15/01/24, 13:04 - Support Technician 10: @Company Employee 11 it's the problem from ticket 01339343 still persist?

15/01/24, 13:06 - Benedetta Zini: no, we solved it

15/01/24, 13:07 - Support Technician 10: Ok

15/01/24, 13:07 - Support Technician 7: Deploy is done

15/01/24, 13:08 - Chiara Lodesani, Lavoro: ok, thanks

15/01/24, 13:15 - Support Technician 7: I saw that you didn't have access to see the dialog so I gave access to "Dirretore Tecnico"

15/01/24, 13:15 - Support Technician 7: Do you want me to give access to other users as well?

15/01/24, 13:16 - Benedetta Zini: only to superuser

15/01/24, 13:20 - Benedetta Zini: thank you

16/01/24, 08:42 - Benedetta Zini: Good morning, could you please send to me "service report" of ticket 01339505? I can't see it on salesforce

16/01/24, 08:42 - Benedetta Zini: IMG-20240116-WA0003.jpg (file allegato)

16/01/24, 08:43 - Benedetta Zini: I would like to know what happened and what was the root cause in order to fix it because it happens everyday...

16/01/24, 08:46 - Adrian Cindea: good morning

16/01/24, 08:46 - Adrian Cindea: we are working on this issue because it repeated again to understand its root cause

16/01/24, 08:46 - Benedetta Zini: Yes exactly 😞

16/01/24, 08:47 - Adrian Cindea: we deleted pending events for an LU which does not exist in the system 51992875

16/01/24, 08:47 - Adrian Cindea: we know about the issue but its root cause is not find yet

16/01/24, 08:48 - Adrian Cindea: it seems an issue related to destacker which takes a pallet (TEMP) and have a barcode on pallet ... and an issue related to matching of TEMP with real barcode

16/01/24, 08:49 - Adrian Cindea: but still under investigation being one of one priority

16/01/24, 08:50 - Benedetta Zini: thank you very much for your explanation

16/01/24, 14:56 - Benedetta Zini: It can be related to CR Report as full?

16/01/24, 15:43 - Adrian Cindea: i dont know to answer yet

19/01/24, 09:38 - Benedetta Zini: Hello, what did you do to solve ticket 01340275?

19/01/24, 09:42 - Support Technician 10: Hello we set the delivered amount for the order

19/01/24, 09:42 - Support Technician 10: We will investigate the root cause

19/01/24, 09:42 - Support Technician 10: Can you do the loading?

19/01/24, 09:46 - Support Technician 10: @Company Employee 11 ?

19/01/24, 09:46 - Benedetta Zini: no because

19/01/24, 09:47 - Benedetta Zini: IMG-20240119-WA0005.jpg (file allegato)

delivered quantity has to be 500 SC and not 520 SC

19/01/24, 09:47 - Support Technician 10: Ok I will change it

19/01/24, 09:47 - Benedetta Zini: order line #20 of ADBATLATL000099376

19/01/24, 09:49 - Benedetta Zini: IMG-20240119-WA0006.jpg (file allegato)

Also for order line #20 ADBATLATL000001415 the delivery quantity is 24 SC but it should be 12 SC

19/01/24, 09:49 - Support Technician 10: I did it for both

19/01/24, 09:54 - Benedetta Zini: okay thank you

19/01/24, 09:54 - Support Technician 10: Now it's working?

19/01/24, 09:55 - Benedetta Zini: we will let you know if it works as soon as truck is on site

19/01/24, 09:55 - Benedetta Zini: Because it has reservation for 11 am

19/01/24, 09:55 - Benedetta Zini: italian time

19/01/24, 09:55 - Support Technician 10: Ok I will put the ticket on hold

19/01/24, 09:55 - Benedetta Zini: yes thank you

19/01/24, 09:56 - Support Technician 10: We will look into the root cause

19/01/24, 17:57 - Support Technician 15: hello

19/01/24, 17:57 - Support Technician 15: for ticket 01340386

19/01/24, 17:58 - Support Technician 15: i am not clear what they really want by close one load and for the other just to finished it

19/01/24, 17:58 - Support Technician 15: what is the difference between close

and finalize them? they want to close everything correctly or for the second one you want to cancel it

19/01/24, 18:16 - Benedetta Zini: For first load we want to close it

19/01/24, 18:17 - Benedetta Zini: the other one we want to cancel it beacuse we don't ship LUS

19/01/24, 18:17 - Benedetta Zini: IMG-20240119-WA0008.jpg (file allegato)

19/01/24, 18:18 - Benedetta Zini: S20240119990

19/01/24, 18:18 - Benedetta Zini: IMG-20240119-WA0009.jpg (file allegato)

S20240119993

19/01/24, 18:31 - Support Technician 15: ok, you can close truck for the S20240119990 now

19/01/24, 18:33 - Benedetta Zini: I can't close it

19/01/24, 18:33 - Benedetta Zini: IMG-20240119-WA0010.jpg (file allegato)

19/01/24, 18:35 - Support Technician 15: hmm ok, will check
19/01/24, 18:36 - Benedetta Zini: now it is closed
19/01/24, 18:37 - Benedetta Zini: IMG-20240119-WA0011.jpg (file allegato)
19/01/24, 18:37 - Benedetta Zini: now it is active 😊
19/01/24, 18:38 - Support Technician 23: is it ok now/
19/01/24, 18:38 - Support Technician 23: ?
19/01/24, 18:38 - Benedetta Zini: yes
19/01/24, 18:38 - Support Technician 23: I closed it
19/01/24, 18:38 - Support Technician 23: related to the other load, what do you
need exactly? can we do the same?
19/01/24, 18:39 - Benedetta Zini: no, I want to finalize it... "Annulla" in
italian
19/01/24, 18:39 - Benedetta Zini: because we don't send pallet away, pallet stay
here in atlas concorde
19/01/24, 18:40 - Benedetta Zini: IMG-20240119-WA0012.jpg (file allegato)
19/01/24, 18:55 - Support Technician 23: please try now
19/01/24, 19:08 - Support Technician 23: anyone?
19/01/24, 19:42 - Support Technician 23: @Company Employee 11 can you please
check or have someone to check?
22/01/24, 08:49 - Benedetta Zini: Hello, it works
22/01/24, 12:30 - Benedetta Zini: Hi, I set AGV disable = true
22/01/24, 12:31 - Benedetta Zini: I will let you know when you can proceed with
deploy
22/01/24, 12:31 - Support Technician 7: Awesome, thanks
22/01/24, 12:39 - Benedetta Zini: you can go!
22/01/24, 13:11 - Benedetta Zini: Have you finish?
22/01/24, 13:11 - Support Technician 10: Deploy done
22/01/24, 13:12 - Support Technician 10: We set agv disable= false
22/01/24, 13:12 - Support Technician 10: You can test the changes
22/01/24, 13:14 - Benedetta Zini: okay thank you!
22/01/24, 13:19 - Razvan Voicu: Don't forget you have to set in MD078 the
loadaids used at foiling line 1/2
22/01/24, 13:19 - Razvan Voicu: Otherwise, nothing will go there
22/01/24, 13:19 - Benedetta Zini: I was writing about this CR
22/01/24, 13:20 - Benedetta Zini: 🤔
22/01/24, 13:20 - Razvan Voicu: Not MD78, MD73
22/01/24, 13:20 - Razvan Voicu: sorry
22/01/24, 13:20 - Razvan Voicu: you have two columns "used at foiling line1" and

```

"used at foiling line 2"

22/01/24, 13:20 - Benedetta Zini: Okay, so now I'm going to flag "used at foil 2" and "used at foil 2" for all loading aid that we manage inside automatic area

22/01/24, 13:21 - Benedetta Zini: IMG-20240122-WA0000.jpg (file allegato)

22/01/24, 13:21 - Razvan Voicu: yes

22/01/24, 13:21 - Razvan Voicu: you have to right click -> edit -> and check them

22/01/24, 13:21 - Razvan Voicu: IMG-20240122-WA0001.jpg (file allegato)

22/01/24, 13:22 - Benedetta Zini: yes I found it

22/01/24, 13:25 - Benedetta Zini: but they will go inside park locations, right?

22/01/24, 13:26 - Razvan Voicu: YES

22/01/24, 13:27 - Razvan Voicu: Load aids that are not allowed to foiling will park in S46. When they will be allowed, will go to foiling

22/01/24, 13:31 - Benedetta Zini: okay thanks

22/01/24, 13:50 - Razvan Voicu: thanks aswell. If you have any problems, let us know

22/01/24, 14:49 - Benedetta Zini: everything is okay, so far

22/01/24, 16:17 - Benedetta Zini: I forgot to ask you if it is possible to let "Manutenzione" profile modify MD073

22/01/24, 16:18 - Benedetta Zini: because they will be the biggest users of CR MD073 for foiling area

22/01/24, 16:19 - Benedetta Zini: And I realized that only superusers can modify MD073 and "direttore tecnico" role can't change the rights of this dialog for "manutenzione" role

22/01/24, 16:20 - Razvan Voicu: ok

22/01/24, 16:20 - Razvan Voicu: will do

22/01/24, 16:20 - Benedetta Zini: thank you very much

22/01/24, 16:20 - Benedetta Zini: Only "manutenzione" role

22/01/24, 16:36 - Razvan Voicu: From what I see manutezione has access to MD073

22/01/24, 16:36 - Razvan Voicu: But they don't to edit dialog :)

22/01/24, 16:36 - Razvan Voicu: Done

22/01/24, 16:37 - Benedetta Zini: Yes right sorry

22/01/24, 16:38 - Razvan Voicu: No worries. Let me know if it works now

22/01/24, 16:38 - Benedetta Zini: It works

22/01/24, 16:39 - Benedetta Zini: thank you very much

22/01/24, 16:42 - Razvan Voicu: thanks aswell

22/01/24, 21:52 - Support Technician 7: Hello, @Company Employee 7

22/01/24, 21:52 - Support Technician 7: What seems to be the problem?

22/01/24, 23:38 - Giuseppe Romano, Lavoro: @Support Technician 7 hello, sorry for the tardiness of the reply i had not seen the message. The problem was "the usual", the catenary of the traslo both in output and in input were in error *"anomaly P1 assignment without data"* and some picking station, and another F01 catenary had this problem too. Anyway from the 21:15 we back to work without further problem

22/01/24, 23:40 - Support Technician 7: I will close the ticket then. Glad everything is back to normal!

22/01/24, 23:42 - Giuseppe Romano, Lavoro: Ok, thank you

26/01/24, 08:42 - Benedetta Zini: Good morning, regarding Yesterday's problem (block of mfsPalQueue)... could it happens again? can you prevent it from happening again?

26/01/24, 10:58 - Adrian Cindea: hello

26/01/24, 10:58 - Adrian Cindea: i will check and i will come with a feedback

26/01/24, 11:20 - Benedetta Zini: Okay thank you very much

26/01/24, 11:54 - Benedetta Zini: Can I ask you a question? In which table I can find "PRONTO" flag?

26/01/24, 11:54 - Benedetta Zini: I haven't found it inside outbounddelivery table

26/01/24, 11:58 - Benedetta Zini: IMG-20240126-WA0003.jpg (file allegato)

26/01/24, 12:19 - Razvan Voicu: It's not a flag in the DB, it's a "parameter" we calculate on the spot

26/01/24, 12:21 - Razvan Voicu: based on shipment/discharge/stratArea and a lot more parameters

26/01/24, 12:27 - Benedetta Zini: okay thank you

26/01/24, 12:31 - Razvan Voicu: no problem

29/01/24, 09:52 - Support Technician 7: Good morning, is lighthouse working now?
29/01/24, 09:52 - Benedetta Zini: Hello, yes
29/01/24, 09:53 - Giacomo Trivieri, Lavoro: Yes, it's come back Thx
01/02/24, 08:43 - Benedetta Zini: Hello! Do you know what happened this morning (2 am)? ticket 01342531
01/02/24, 08:47 - Support Technician 10: I am looking into it
06/02/24, 09:01 - Benedetta Zini: Hi All, ticket 01343273 is due to the creation of empty pallet request
06/02/24, 09:03 - Benedetta Zini: empty pallet that AGVs continue to bring and come was referring to a pick order with all pallets inside HBW1... so WAMAS was trying to "free space" for an empty pallet for an order that had all pallets in source locations
06/02/24, 14:21 - Benedetta Zini: Hello! We have problems in automatic area
06/02/24, 14:21 - Benedetta Zini: Could you please check
06/02/24, 14:21 - Benedetta Zini: ?
06/02/24, 14:21 - Support Technician 10: I will take a look
06/02/24, 14:21 - Benedetta Zini: @Company Employee 6 has already called helpdesk
06/02/24, 14:21 - Benedetta Zini: Thank you 🙏
06/02/24, 14:29 - Support Technician 10: Now the system should be working we had a pending event with a tu that no longer exists
06/02/24, 14:30 - Alex Ardilli, Personale: Yes It seems that everything Is working now
06/02/24, 14:44 - Benedetta Zini: okay... why did it happen? 😞
06/02/24, 14:45 - Support Technician 10: Now I am looking over the logs
06/02/24, 14:54 - Support Technician 10: Ok after looking over the logs this Lu should be on RPF01C0321 the problem started because we tried to delete it
06/02/24, 14:54 - Support Technician 10: Can someone check is the lu is there
06/02/24, 14:56 - Benedetta Zini: no LU phisically on CU032
06/02/24, 15:02 - Support Technician 10: Ok can someone check if the lu 52300191 is near the point <Questo messaggio è stato modificato>
06/02/24, 15:03 - Support Technician 10: It seems that the problem is connected with a finalized picking order
06/02/24, 15:03 - Support Technician 10: I will disconnect all Lu's from that order and we will investigate the root cause
06/02/24, 15:04 - Support Technician 10: The good part is that the lu that had the problem is empty
06/02/24, 15:05 - Support Technician 10: The other ones are in hbw I deleted the connection to the picking order
06/02/24, 15:06 - Benedetta Zini: LU 52300191 is an empty pallet with loading aid F and it had to go inside the F stack on CU133
06/02/24, 15:07 - Support Technician 10: Do we know where the lu is?
06/02/24, 15:08 - Support Technician 10: Or I can cancel the tpo and book it on lost and found
06/02/24, 15:08 - Benedetta Zini: But something went wrong and maintenance guy sent it to CU132 (destination location QC)... Why did not WAMAS like this Operation?
06/02/24, 15:08 - Benedetta Zini: yes we know and now i fix it
06/02/24, 15:08 - Benedetta Zini: what are the Others?
06/02/24, 15:08 - Support Technician 10: It's connected with the creation of emptylurequest
06/02/24, 15:10 - Benedetta Zini: oh no.... but why? Usually emptylurequest take into consideration empty pallet type F when they are on CU136...
06/02/24, 15:11 - Benedetta Zini: IMG-20240206-WA0007.jpg (file allegato)
CU133 is for creating stacks and for releasing single empty pallet towards CU136
06/02/24, 15:12 - Benedetta Zini: CU136 is the pick point of AGVs and where WAMAS assign the pick order to empty pallet
06/02/24, 15:14 - Benedetta Zini: <Media omessi>
but I can't see an empty LU request for 52300191
06/02/24, 15:14 - Benedetta Zini: Hai eliminato questo messaggio.
06/02/24, 15:23 - Support Technician 10: The picking order did not get deleted so the connection to the lu was not deleted and when mfs tried to delete it we got an error
06/02/24, 15:23 - Support Technician 10: 79650021,52300169

06/02/24, 15:25 - Support Technician 10: No the problem was that the empty was still activ for a order that got finalized and so the order did not get deleted
06/02/24, 15:25 - Support Technician 10: I canceled it already
06/02/24, 15:26 - Support Technician 10: And when mfs tried to delete the lu because it got to RPF it was impossible to do it because database violations
<Questo messaggio è stato modificato>
06/02/24, 15:29 - Benedetta Zini: Okay clear, I understand
06/02/24, 15:31 - Support Technician 10: Can you give us the obd for the issue k82
06/02/24, 15:31 - Support Technician 10: That you just reported
06/02/24, 15:33 - Benedetta Zini: oh yes sorry... I forgot to put it in email...
06/02/24, 15:33 - Benedetta Zini: I will send an email with obd
07/02/24, 13:42 - Benedetta Zini: Hello
07/02/24, 13:44 - Benedetta Zini: Could you please check frm your side if everything is okay?
07/02/24, 13:44 - Benedetta Zini: Because we reboot roccla server and now no missions on cway
07/02/24, 13:49 - Benedetta Zini: Please 🙏
07/02/24, 13:51 - Benedetta Zini: IMG-20240207-WA0009.jpg (file allegato)
07/02/24, 13:51 - Benedetta Zini: Agvs offline
07/02/24, 13:51 - Benedetta Zini: What is it?
07/02/24, 13:54 - Support Technician 7: Im looking
07/02/24, 13:59 - Benedetta Zini: No communication between wms and roccla
07/02/24, 14:00 - Benedetta Zini: Hive?
07/02/24, 14:02 - Razvan Voicu: why?
07/02/24, 14:02 - Razvan Voicu: any changes done on their side?
07/02/24, 14:02 - Adrian Cindea: a restart
07/02/24, 14:03 - Benedetta Zini: No
07/02/24, 14:03 - Benedetta Zini: We restart the roccla serve
07/02/24, 14:04 - Razvan Voicu: would it be possible to do another restart?
07/02/24, 14:04 - Benedetta Zini: Yes
07/02/24, 14:04 - Benedetta Zini: We do it now
07/02/24, 14:06 - Razvan Voicu: ok, let us know when its up
07/02/24, 14:06 - Benedetta Zini: One moment
07/02/24, 14:07 - Benedetta Zini: Rocla is checking
07/02/24, 14:08 - Benedetta Zini: Can we restart now?
07/02/24, 14:08 - Benedetta Zini: Or you have to do something?
07/02/24, 14:09 - Benedetta Zini: @Support Technician 21
07/02/24, 14:09 - Razvan Voicu: YES, please restart and let us know when server is up again
07/02/24, 14:13 - Benedetta Zini: Sever is up
07/02/24, 14:15 - Razvan Voicu: Ok. Let us know if agvs work nou
07/02/24, 14:15 - Razvan Voicu: now*
07/02/24, 14:17 - Benedetta Zini: It seems working!!!!!!
07/02/24, 14:23 - Razvan Voicu: Great
07/02/24, 14:23 - Razvan Voicu: We didn't do anything, server probably didn't start properly
07/02/24, 14:31 - Benedetta Zini: Okay
07/02/24, 14:31 - Benedetta Zini: Also roccla didn't anything...
07/02/24, 14:34 - Razvan Voicu: the mighty restart did its job :)
07/02/24, 14:34 - Benedetta Zini: 😊
07/02/24, 14:36 - Support Technician 7: What do you want to do with ticket 01338109?
07/02/24, 14:36 - Support Technician 7: Because right now, i have the ticket
07/02/24, 14:40 - Benedetta Zini: Now the system is working... I don't understand why at first reboot the connection with wms was down...
07/02/24, 14:41 - Benedetta Zini: and for the second reboot everything worked fine...
07/02/24, 14:41 - Benedetta Zini: Now the communication wms and roccla is up and it is working...
07/02/24, 14:41 - Benedetta Zini: so you can close the ticket
12/02/24, 10:32 - Chiara Lodesani, Lavoro: Hi All, at 12:30 I'll set AGV disable=true and then I'll tell you when you can start with deploy
12/02/24, 12:13 - Adrian Cindea: k

12/02/24, 12:31 - Chiara Lodesani, Lavoro: I have just set agv disable = true.
I'll let you know when you can start
12/02/24, 12:54 - Chiara Lodesani, Lavoro: you can start!
12/02/24, 12:54 - Support Technician 7: Ok!
12/02/24, 13:21 - Adrian Cindea: unfortunately ... the pack has an issue
12/02/24, 13:21 - Adrian Cindea: we will deploy previous pack
12/02/24, 13:21 - Adrian Cindea: we will check later what is the issue about
today pack
12/02/24, 13:22 - Chiara Lodesani, Lavoro: ah, ok
12/02/24, 13:23 - Chiara Lodesani, Lavoro: we'll wait for it
12/02/24, 13:24 - Adrian Cindea: start is in progress ...
12/02/24, 13:29 - Chiara Lodesani, Lavoro: deploy finished?
12/02/24, 13:32 - Chiara Lodesani, Lavoro: Please, after the check tell us if we
can do deploy next monday
12/02/24, 13:34 - Adrian Cindea: it was only a restart of instance ... no deploy
(nothing new)
12/02/24, 13:35 - Adrian Cindea: we will analyze the issue of deploy and we will
keep in touch related to new deploy
12/02/24, 13:35 - Adrian Cindea: we would like to do it asap after deploy issue
is fixed
12/02/24, 13:35 - Adrian Cindea: system is up and running
12/02/24, 13:36 - Adrian Cindea: but it is exactly as it was before the deploy
(no changes)
12/02/24, 13:37 - Chiara Lodesani, Lavoro: ok, understood
12/02/24, 13:46 - Support Technician 10: The system is running we are
investigating the problem with the pack
12/02/24, 13:46 - Chiara Lodesani, Lavoro: Okok thank you
12/02/24, 14:43 - Chiara Lodesani, Lavoro: Hello, after the deploy we have a
problem with the loading aid H that seems it doesn't exist..
12/02/24, 14:44 - Chiara Lodesani, Lavoro: IMG-20240212-WA0001.jpg (file
allegato)
12/02/24, 14:44 - Chiara Lodesani, Lavoro: can you check please?
12/02/24, 14:46 - Chiara Lodesani, Lavoro: H is not in the list of possible
loading aid
12/02/24, 14:46 - Adrian Cindea: did you try to create a new loading aid?
12/02/24, 14:48 - Chiara Lodesani, Lavoro: I was trying to create a new LU
12/02/24, 14:49 - Chiara Lodesani, Lavoro: IMG-20240212-WA0002.jpg (file
allegato)
12/02/24, 14:49 - Support Technician 10: I will check
12/02/24, 14:51 - Adrian Cindea: it is solved
12/02/24, 14:51 - Adrian Cindea: it was marked discontinued
12/02/24, 14:51 - Adrian Cindea: now it is visible again
12/02/24, 14:52 - Chiara Lodesani, Lavoro: Ok, good, thank you
12/02/24, 14:53 - Adrian Cindea: it was before the deploy
12/02/24, 14:53 - Adrian Cindea: IMG-20240212-WA0003.jpg (file allegato)
12/02/24, 14:53 - Adrian Cindea: it checked at 10:30 and it was discontinued too
12/02/24, 14:54 - Chiara Lodesani, Lavoro: Who marked it as discontinued?
12/02/24, 14:54 - Adrian Cindea: i will try to see if i see it
12/02/24, 14:55 - Chiara Lodesani, Lavoro: ok.. sorry but we have discovered it
only now so we thought that it was linked with the deploy..
12/02/24, 14:56 - Adrian Cindea: IMG-20240212-WA0004.jpg (file allegato)
12/02/24, 14:56 - Adrian Cindea: view changes in MD073/75 loading aid overview
12/02/24, 15:01 - Chiara Lodesani, Lavoro: Ok, thank you. We didn't know this
parameter...
12/02/24, 15:02 - Chiara Lodesani, Lavoro: the user had done this change for
error..
14/02/24, 12:28 - Adrian Cindea: hello
14/02/24, 12:29 - Adrian Cindea: i will check reservations/tickets and i will
cancel old ones which remain in the system
14/02/24, 12:31 - Benedetta Zini: Hello
14/02/24, 12:31 - Benedetta Zini: Yes we saw and now orders are released 📌
14/02/24, 12:32 - Benedetta Zini: Did you find root cause?
14/02/24, 12:34 - Adrian Cindea: 69196216;51636339;51604877;51688767;65759999
14/02/24, 12:34 - Adrian Cindea: not yet

14/02/24, 12:34 - Adrian Cindea: they are from december 2023
 14/02/24, 12:34 - Benedetta Zini: Mmh
 14/02/24, 12:34 - Benedetta Zini: What period?
 14/02/24, 12:35 - Benedetta Zini: From 27.12?
 14/02/24, 12:35 - Adrian Cindea: above there are some LUs ... reserved but PPLU/pickig order are archived
 14/02/24, 12:35 - Benedetta Zini: Okay... not good...
 14/02/24, 12:35 - Adrian Cindea: 27-DEC-23 05.04.45.0000000000 PM

 14/02/24, 12:35 - Benedetta Zini: Okay
 14/02/24, 12:36 - Benedetta Zini: Can you send me also orders?
 14/02/24, 12:36 - Adrian Cindea: i will try ... give me a second to chage the query
 14/02/24, 12:36 - Benedetta Zini: Okay thank you
 14/02/24, 12:36 - Benedetta Zini: I will check every orders

 14/02/24, 12:40 - Adrian Cindea: IMG-20240214-WA0000.jpg (file allegato)
 14/02/24, 12:40 - Benedetta Zini: Thank you very much
 14/02/24, 12:41 - Adrian Cindea: i put a screen and values to copy them
 14/02/24, 12:41 - Adrian Cindea: i will cancel all 12 tickets today ... becuae i will check other cases
 14/02/24, 12:41 - Benedetta Zini: Yes yes
 14/02/24, 12:42 - Benedetta Zini: I will check Archived orders this afternoon
 14/02/24, 12:42 - Benedetta Zini: Just to see if someone did something strange
 14/02/24, 14:01 - Adrian Cindea: i did not see any other strange cases with my queries
 14/02/24, 14:01 - Adrian Cindea: i have to cancel them (12 tickets especially with reservation on LU)
 14/02/24, 14:02 - Adrian Cindea: please let me know when i can do it
 14/02/24, 14:37 - Benedetta Zini: You can delete it
 14/02/24, 14:37 - Benedetta Zini: Them*

14/02/24, 14:37 - Adrian Cindea: k
14/02/24, 14:38 - Benedetta Zini: Thx
14/02/24, 14:41 - Adrian Cindea: Done
19/02/24, 12:30 - Chiara Lodesani, Lavoro: Hello, I have just set AGV disable = true. I'll let you know when you can start
19/02/24, 12:31 - Support Technician 10: Ok
19/02/24, 12:36 - Chiara Lodesani, Lavoro: you can start
19/02/24, 12:36 - Support Technician 10: Ok
19/02/24, 12:55 - Adrian Cindea: deploy done!
19/02/24, 12:55 - Chiara Lodesani, Lavoro: ok good!
19/02/24, 14:57 - Adrian Cindea: IMG-20240219-WA0002.jpg (file allegato)
19/02/24, 14:57 - Adrian Cindea: may i cancel old 7 empty LU requests?
19/02/24, 14:57 - Adrian Cindea: some of them are from 2021
19/02/24, 14:57 - Benedetta Zini: yes thank you!
19/02/24, 15:01 - Adrian Cindea: i did it ... but there is 556483 from 3.january.2023 (may i cancel it too)?
19/02/24, 15:01 - Adrian Cindea: it is not necessary
19/02/24, 15:04 - Benedetta Zini: I cancel it
19/02/24, 15:40 - Adrian Cindea: thx
19/02/24, 15:58 - Benedetta Zini: IMG-20240219-WA0010.jpg (file allegato)
what does it mean this simbol?
19/02/24, 15:58 - Adrian Cindea: nothing .. an icon ...
19/02/24, 15:58 - Benedetta Zini: we haven't seen it before today...
19/02/24, 15:58 - Adrian Cindea: we added 3 icons ...
19/02/24, 15:58 - Adrian Cindea: and no text - it is this icon
19/02/24, 15:59 - Adrian Cindea: otherwise it is info (!) or warning
19/02/24, 15:59 - Adrian Cindea: to display properly comments information
19/02/24, 15:59 - Benedetta Zini: okay, in fact we are testing issue F118
19/02/24, 16:00 - Adrian Cindea: i see ... for no comments this icon will be visible ... <Questo messaggio è stato modificato>
19/02/24, 16:00 - Adrian Cindea: no other meaning
24/02/24, 11:46 - Giuseppe Romano, Lavoro: Hello, now it's all okay
24/02/24, 12:56 - Support Technician 10: Ok we will look into the root cause on Monday I put the ticket on hold
26/02/24, 16:30 - Benedetta Zini: IMG-20240226-WA0001.jpg (file allegato)
26/02/24, 16:30 - Benedetta Zini: Hello, could you please check what is happening in automatic area?
26/02/24, 16:31 - Support Technician 10: Hello I will take a look
26/02/24, 16:31 - Benedetta Zini: It seems the same problem occurred on saturday morning
26/02/24, 16:32 - Benedetta Zini: thank you, do we have to open a ticket by calling helpdesk?
26/02/24, 16:32 - Support Technician 10: No I will put this on the Saturday ticket I did not have the chance to look at the root cause
26/02/24, 16:42 - Support Technician 10: Ok found what the problem is the po activity for this pallet was not deleted and that is why we could no make it a temp to add it to the stack it seems that the problem is the same in case of A168 we will fix it
26/02/24, 16:57 - Benedetta Zini: what pallet?
26/02/24, 16:57 - Benedetta Zini: Great that you found the root cause 🍷
26/02/24, 16:58 - Support Technician 15: 51880562
26/02/24, 16:58 - Support Technician 15: hello
26/02/24, 16:58 - Support Technician 15: this was the pallet found in the pending events messages
26/02/24, 17:27 - Benedetta Zini: okay thank you
29/02/24, 12:09 - Razvan Voicu: Hello. REgarding the wamas performance mail. Can you give us a couple of OBDs that you have trouble now approving because they are not changing status?
29/02/24, 12:10 - Benedetta Zini: OBD00000770208
29/02/24, 12:11 - Benedetta Zini: no other OBDs so far...
29/02/24, 12:13 - Razvan Voicu: Well then I don't think it's a Wamas issue, rather there's a problem with this OBD
29/02/24, 12:13 - Benedetta Zini: And regarding the truck load?
29/02/24, 12:38 - Razvan Voicu: we will check now

29/02/24, 12:38 - Razvan Voicu: for OBD0000770208 the pickingRelease crashes, because for an unknown reason it sees the OBD as finished
29/02/24, 12:39 - Razvan Voicu: Can you cancel it and create it again?
29/02/24, 12:39 - Razvan Voicu: I'm not sure what's wrong now with the OBD and analysis takes some time. So the fastest solution would be to start it from 0
29/02/24, 13:04 - Razvan Voicu: @Company Employee 11
29/02/24, 13:32 - Razvan Voicu: The Load is also OK now
29/02/24, 14:44 - Benedetta Zini: okay thank you
29/02/24, 14:44 - Benedetta Zini: okay we will do it
29/02/24, 14:48 - Benedetta Zini: It doesn't work
29/02/24, 15:01 - Support Technician 10: We will look again
29/02/24, 15:15 - Benedetta Zini: I set again report as full = false (due to issue A165)
29/02/24, 15:43 - Support Technician 10: Hello did you delete the order?
29/02/24, 16:11 - Benedetta Zini: no...
29/02/24, 16:12 - Benedetta Zini: Before yes I deleted, but I create it again
29/02/24, 16:17 - Support Technician 10: We found it we still try to find the root cause
29/02/24, 17:10 - Benedetta Zini: We are going to try to do something... we have to prepare that obd
29/02/24, 17:12 - Razvan Voicu: we messed up completely this OBD :D
29/02/24, 17:12 - Razvan Voicu: you will have to re-import it
29/02/24, 17:12 - Razvan Voicu: □
29/02/24, 17:12 - Razvan Voicu: something very weird is with this OBD or article or LU, we cannot understand it
29/02/24, 17:13 - Benedetta Zini: we will do it
29/02/24, 17:14 - Razvan Voicu: ok, I deleted it
29/02/24, 17:16 - Razvan Voicu: Do you try to re-imoprt it now or we leave it for tomorrow
29/02/24, 17:27 - Benedetta Zini: it worked!
29/02/24, 17:28 - Benedetta Zini: 🙏
29/02/24, 17:29 - Razvan Voicu: HOW
29/02/24, 17:29 - Razvan Voicu: <Media omessi>
29/02/24, 17:29 - Razvan Voicu: You reimported it and it worked?
29/02/24, 17:31 - Benedetta Zini: yes.... but we removed flag of wholeLU e we did a picking
29/02/24, 17:33 - Razvan Voicu: it might make sense, if it's not whole LU then another part of code is called that avoids this error
29/02/24, 17:33 - Razvan Voicu: But then again, you have other wholeLUs that work
29/02/24, 17:33 - Razvan Voicu: Ok, glad it worked. We'll keep an eye if this happens again
29/02/24, 17:33 - Benedetta Zini: yes
29/02/24, 17:34 - Benedetta Zini: okay thank you for your support 🙏
05/03/24, 15:33 - Benedetta Zini: Hello!
05/03/24, 15:34 - Adrian Cindea: hello
05/03/24, 15:34 - Benedetta Zini: We have an issue now that i marked "need to be check live"
05/03/24, 15:34 - Benedetta Zini: Could you please check it?
05/03/24, 15:34 - Benedetta Zini: Now i' sending the issue name
05/03/24, 15:34 - Adrian Cindea: let me know the case
05/03/24, 15:34 - Adrian Cindea: k
05/03/24, 15:36 - Benedetta Zini: IMG-20240305-WA0002.jpg (file allegato)
05/03/24, 15:36 - Benedetta Zini: WAMAS addressed a lot of pallets towards SIDE L3 (very slow) instead of spreading them over SIDE L2/L3/L4 lanes (definitely quicker)
05/03/24, 15:36 - Benedetta Zini: TRUCK LOAD S20240305781
05/03/24, 15:37 - Benedetta Zini: IMG-20240305-WA0003.jpg (file allegato)
05/03/24, 15:37 - Benedetta Zini: IMG-20240305-WA0004.jpg (file allegato)
05/03/24, 15:56 - Adrian Cindea: L2: 7, L3: 2, L4: 2
05/03/24, 15:56 - Adrian Cindea: here is capacity for each lane to not blocked others ...
05/03/24, 15:57 - Adrian Cindea: we will check in logs how capacity looks in that moment because now situation is changed

05/03/24, 16:02 - Adrian Cindea: 52475426 was sent to L4 at the end
05/03/24, 18:24 - Benedetta Zini: yes I know
05/03/24, 18:25 - Benedetta Zini: okay thank you!
06/03/24, 10:43 - Benedetta Zini: Hello!
06/03/24, 10:43 - Benedetta Zini: It is happening again now
06/03/24, 10:43 - Benedetta Zini: S20240306735
06/03/24, 10:46 - Benedetta Zini: IMG-20240306-WA0003.jpg (file allegato)
06/03/24, 10:47 - Benedetta Zini: IMG-20240306-WA0006.jpg (file allegato)
06/03/24, 10:47 - Benedetta Zini: IMG-20240306-WA0005.jpg (file allegato)
06/03/24, 10:47 - Benedetta Zini: IMG-20240306-WA0004.jpg (file allegato)
08/03/24, 09:01 - Benedetta Zini: Hello, we have a problem after Yesterday night issue
08/03/24, 09:02 - Benedetta Zini: IMG-20240308-WA0000.jpg (file allegato)
L4 have capacity 2 pallets but there are 3 pallets
08/03/24, 09:02 - Benedetta Zini: no pallet on L3...
08/03/24, 09:23 - Support Technician 7: Hi, i see everything looks fine now
08/03/24, 09:24 - Support Technician 7: Is it all ok?
08/03/24, 09:24 - Benedetta Zini: Now it seems yes... but I'm not sure 100%
08/03/24, 14:33 - Adrian Cindea: Related to L2,L3 and L4 -> shipment LUs were send from load to different lane at the end
08/03/24, 15:09 - Adrian Cindea: IMG-20240308-WA0002.jpg (file allegato)
08/03/24, 15:10 - Adrian Cindea: i marked the 14 LUs of load S20240305781 and they were sent to L2/L3 at the end <Questo messaggio è stato modificato>
08/03/24, 15:10 - Benedetta Zini: okay... so at the end WAMAS worked correctly...
08/03/24, 15:11 - Benedetta Zini: from which table do you do this query?
08/03/24, 15:12 - Adrian Cindea: it is a query in database ... CC15 it is possible to see filtering on LUs and location (to) but load is not possible to be visible
08/03/24, 15:12 - Adrian Cindea: i did a query in database to display them as i want for analyze
08/03/24, 15:14 - Benedetta Zini: yes sure, but which tables did you use?
08/03/24, 15:15 - Adrian Cindea: tables behind CC15 and LD001 <Questo messaggio è stato modificato>
08/03/24, 15:16 - Benedetta Zini: okay perfect! Because I haven't find the field "lane" and it is very useful in this case
08/03/24, 15:16 - Adrian Cindea: lane is done by me :)
08/03/24, 15:17 - Adrian Cindea: in my query for visibility (an adaptation to map location to lane)
08/03/24, 16:58 - Benedetta Zini: Great! I will do it too ;)
13/03/24, 17:30 - Benedetta Zini: Hello! Just a simple question 😊 Is it okay Windows 11 Pro for installing WAMAS?
13/03/24, 17:46 - Adrian Cindea: Yes
13/03/24, 17:46 - Benedetta Zini: okay thank you!
18/03/24, 12:20 - Benedetta Zini: Hello! I will let you know when I put agvDisable = true
18/03/24, 12:31 - Benedetta Zini: I've already set agvDisable = true
18/03/24, 12:32 - Benedetta Zini: Who is going to do the deploy?
18/03/24, 12:34 - Support Technician 10: Hello I will do it
18/03/24, 12:36 - Benedetta Zini: Perfect!
18/03/24, 12:36 - Benedetta Zini: You can start with deploy 🍷
18/03/24, 12:59 - Benedetta Zini: is everything okay?
18/03/24, 13:00 - Support Technician 10: Now I am starting the mfs
18/03/24, 13:02 - Benedetta Zini: okok
18/03/24, 13:07 - Benedetta Zini: are you finish deploy? <Questo messaggio è stato modificato>
18/03/24, 13:08 - Support Technician 10: Not yet
18/03/24, 13:08 - Benedetta Zini: okok
18/03/24, 13:19 - Benedetta Zini: Do you have any problems? <Questo messaggio è stato modificato>
18/03/24, 13:20 - Support Technician 10: No just the reading of the logs for mfs it's taking a little longer the usual
18/03/24, 13:20 - Benedetta Zini: okay.....
18/03/24, 13:20 - Benedetta Zini: let me know...
18/03/24, 13:22 - Razvan Voicu: Wamas has emotional problems

18/03/24, 13:22 - Razvan Voicu: It gets scared when everyone is looking at it 😊
18/03/24, 13:25 - Support Technician 10: Deploy done
18/03/24, 13:25 - Support Technician 10: You can test the changes
18/03/24, 13:25 - Benedetta Zini: the boy (WAMAS) is too sensitive <Questo messaggio è stato modificato>
18/03/24, 13:25 - Benedetta Zini: okay
18/03/24, 13:25 - Benedetta Zini: first we have to check if everything works
18/03/24, 13:26 - Support Technician 10: Ok
18/03/24, 13:26 - Benedetta Zini: then test Patches 😊
18/03/24, 13:26 - Support Technician 10: I am here if you need help
18/03/24, 13:31 - Benedetta Zini: great thank you!
19/03/24, 08:52 - Benedetta Zini: Hi All, after Yesterday deploy we noticed that the system is very slow...
19/03/24, 08:52 - Benedetta Zini: TPOs are created on WAMAS but not on Cway
19/03/24, 08:52 - Benedetta Zini: so pallets stay at destination of picking stations for minutes/hours
19/03/24, 08:52 - Support Technician 10: Ok let me check
19/03/24, 08:53 - Benedetta Zini: for example LU 89053801 is on BP02 D02 since 08:14
19/03/24, 08:54 - Benedetta Zini: Whereas LU 52163209 on BP11 D02 have TPO on Cway
19/03/24, 08:56 - Support Technician 10: The Cway is the agv or the monorail?
19/03/24, 08:56 - Benedetta Zini: AGV
19/03/24, 09:02 - Benedetta Zini: I found something strange...
19/03/24, 09:02 - Benedetta Zini: BP08 have 2 empty request for same pick order
19/03/24, 09:02 - Benedetta Zini: IMG-20240319-WA0000.jpg (file allegato)
19/03/24, 09:02 - Benedetta Zini: They were created at 4 am and 5 am...
19/03/24, 09:02 - Adrian Cindea: and?
19/03/24, 09:03 - Adrian Cindea: maybe it is inherited from another picking order (full)
19/03/24, 09:03 - Benedetta Zini: Pick order has 1 box... so no Report as full
19/03/24, 09:04 - Adrian Cindea: but it used LU for another PO which has 2 empty requests ... it will be moved to another one when it is possible because it is not needed anymore for that pick order (operator picked it in one LU instead of 2)
19/03/24, 09:05 - Benedetta Zini: we have the same thing in BP09
19/03/24, 09:05 - Adrian Cindea: picking is working or not?
19/03/24, 09:06 - Adrian Cindea: we did a change ...
19/03/24, 09:06 - Benedetta Zini: IMG-20240319-WA0001.jpg (file allegato)
19/03/24, 09:06 - Benedetta Zini: 2 empty request
19/03/24, 09:06 - Benedetta Zini: but they are not needed
19/03/24, 09:06 - Adrian Cindea: 2 empty LU requests for a PO (full) and 2 LUs are in station and operator picked it in Lu1 ... Lu2 is eligible for PO2 ...
19/03/24, 09:06 - Adrian Cindea: PO2 will have 2 empty requests ... though it was not full
19/03/24, 09:07 - Adrian Cindea: what to do ... with empty requests created for full ... to send out to wait to come again a new pallet?
19/03/24, 09:07 - Adrian Cindea: the idea was to reuse the 2nd pallet ...
19/03/24, 09:08 - Adrian Cindea: please pick and let us know if there is an issue in picking ... LU empty request are transferred between POs ...
19/03/24, 09:08 - Adrian Cindea: until it will be not possible and LU is sent out of station ... to be reused by next picking order ...
19/03/24, 09:09 - Benedetta Zini: It is okay to use the second pallet that is not used for PO1 (full) because operator use one of the two pallet
19/03/24, 09:10 - Benedetta Zini: but it is not okay that PO2 have two empty request
19/03/24, 09:10 - Benedetta Zini: It should have only one request
19/03/24, 09:10 - Adrian Cindea: this is the reason PO with 1 line 1 piece has 2 empty requests ... one from it and one for PO w
19/03/24, 09:10 - Benedetta Zini: and WAMAS have to assign LU that is on pick station
19/03/24, 09:10 - Adrian Cindea: please pick and let us the result
19/03/24, 09:10 - Benedetta Zini: it is not correct
19/03/24, 09:10 - Adrian Cindea: why?

19/03/24, 09:11 - Adrian Cindea: LU empty request for P01 (full P0 has 2 and use only one) + LU empty request of P02 (has 1 empty request)
 19/03/24, 09:12 - Adrian Cindea: please pick and let us the result ... LU empty requests are moved between P0s ... because operator did not use it ... until it is not possible to reuse it ... and in that case it will be removed ...
 19/03/24, 09:13 - Benedetta Zini: In my opinion, by doing so, we slow down pick stations
 19/03/24, 09:14 - Adrian Cindea: i don't understand why?
 19/03/24, 09:14 - Benedetta Zini: it is not okay to have two empty request for a P0 that doesn't need two empty LU
 19/03/24, 09:15 - Adrian Cindea: P01 = 2 empty requests
 19/03/24, 09:15 - Benedetta Zini: WAMAS has to create only one request and change only the LU inside the field ID LU EMPTY
 19/03/24, 09:15 - Adrian Cindea: P01 = 1 empty request
 19/03/24, 09:15 - Adrian Cindea: please ... wait
 19/03/24, 09:15 - Adrian Cindea: it is correct until now?
 19/03/24, 09:16 - Adrian Cindea: P01 has 2 LU empty requests and P02 has 1 empty request ...
 19/03/24, 09:16 - Adrian Cindea: this is normal flow ...
 19/03/24, 09:16 - Adrian Cindea: any P0 has an empty LU request, with full CR we have P0 with 2 empty requests
 19/03/24, 09:16 - Adrian Cindea: because
 19/03/24, 09:17 - Adrian Cindea: P01 picked in LU11, marked full and continue with L12 and P02 has to get new empty request for it
 19/03/24, 09:17 - Benedetta Zini: okay I'm following you
 19/03/24, 09:18 - Adrian Cindea: this is normal flow... operator picks P01 in 2 LUs and P02 in 3rd LU
 19/03/24, 09:18 - Adrian Cindea: it is clear this flow?
 19/03/24, 09:18 - Adrian Cindea: P02 with empty request ... means no 3rd empty LU at station
 19/03/24, 09:18 - Adrian Cindea:

 19/03/24, 09:18 - Adrian Cindea: exception operator picks P01 in only one LU (LU1) ...
 19/03/24, 09:19 - Benedetta Zini: yes clear and it is the correct flow of CR report as full if operator use both 2 empty pallets
 19/03/24, 09:19 - Adrian Cindea: exception ... now
 19/03/24, 09:19 - Benedetta Zini: yes
 19/03/24, 09:20 - Adrian Cindea: operator picks entire P01 in 1st LU
 19/03/24, 09:20 - Adrian Cindea: in this moment ,,, P01 has 2nd empty request to LU2 and P02 with its empty request ... but P01 is finished being completely picked.
 19/03/24, 09:21 - Adrian Cindea: P02 can use 2nd empty LU -> P02 will have 2 empty requests (one from P01 and its empty request) ... and in the same way ... we will continue with P03 ...
 19/03/24, 09:23 - Adrian Cindea: in case empty LU is not compatible empty request for it is removed and empty LU is sent out from station
 19/03/24, 09:23 - Adrian Cindea: to make space ... and one empty request will remain for order because it was 2 ...
 19/03/24, 09:25 - Benedetta Zini: in this case WAMAS should have cancel the empty request of second LU of P01 (because operator didn't use it) and put TEMPXXXX inside the empty request of P02
 19/03/24, 09:26 - Adrian Cindea: it is not possible because it is not possible to make switch
 19/03/24, 09:26 - Adrian Cindea: in case of compatibility
 19/03/24, 09:27 - Adrian Cindea: switch is done between empty LU requests ... removing one LU empty request = stop to make switch between empty LUs in case of compatibility
 19/03/24, 09:27 - Benedetta Zini: but WAMAS does the switch...
 19/03/24, 09:27 - Adrian Cindea: it does and will do
 19/03/24, 09:27 - Adrian Cindea: please pick and let us know if there is any issue
 19/03/24, 09:28 - Adrian Cindea: because initial issue is related to MFS
 19/03/24, 09:28 - Adrian Cindea: pallet is not sent to AGV and we will check why

(nothing related to picking yet)
19/03/24, 09:30 - Adrian Cindea: it seems lu can not be routed to foiling ...
19/03/24, 09:30 - Adrian Cindea: we will investigate why ... nothing related with empty LU requests so far
19/03/24, 09:30 - Adrian Cindea: for sure ... destination waiting is station makes picking flow.
19/03/24, 09:40 - Benedetta Zini: mmh okay clear... we keep it monitored
19/03/24, 09:41 - Benedetta Zini: yes.... please check what is going wrong
19/03/24, 10:08 - Support Technician 10: Can you check Art-27
19/03/24, 10:09 - Support Technician 10: And tell me if a pallet is on it
19/03/24, 10:09 - Adrian Cindea: 89053801 was moved fwd from station
19/03/24, 10:13 - Adrian Cindea: please let us know if picking is still slow ... picking dialog, sources are not comming at station, targets are not left, empty Lus are not comming in time ... to investigate ...
19/03/24, 10:14 - Adrian Cindea: pallet form station was fixed cancel its PO form AGV pool and reset its transport order no clear root cause for it
19/03/24, 10:15 - Adrian Cindea: in case the issue will repeat we will anlyze deeper
19/03/24, 10:15 - Chiara Lodesani, Lavoro: yes, there was a pallet TEMP2717 on it from 14 of March, but now it is ok
19/03/24, 10:15 - Support Technician 10: Ok
19/03/24, 10:27 - Adrian Cindea: you had a lot of issues due to LU empty requests generated for PO - with 2 empty requests (CR reporta s full).
19/03/24, 10:28 - Adrian Cindea: they remained in the system : - po did no closed due to existence of empty LU request, empty LU sent in stack (caould notb eused at station) crashed to be removed due to existence of empty Lu request and so on ...
19/03/24, 10:29 - Adrian Cindea: the idea was to keep them linked to a not finished PO and to move them to next PO.
19/03/24, 10:30 - Benedetta Zini: okay, we keep the system monitored
19/03/24, 10:30 - Adrian Cindea: We will see maybe Thursday/Friday your feedback and behavior of the system.
19/03/24, 10:30 - Benedetta Zini: okay, I understood
19/03/24, 10:30 - Adrian Cindea: we hope to fix all issues raised so far on this topic ... <Questo messaggio è stato modificato>
19/03/24, 10:31 - Benedetta Zini: Yes sure
19/03/24, 10:32 - Benedetta Zini: If we notice something strange, we will let you know... even if operators in automatic area said that the system is slow... we keep an eye on it
19/03/24, 10:35 - Adrian Cindea: please in case something is slow, try to tell us what it is ... for sure a pallet stopped in a station is an issue (becuase picking is affected but it is strange for us to say picking is slow ... becuae for us means all pkcing is slow but only one station was affected by stopped pallet :)) <Questo messaggio è stato modificato>
19/03/24, 10:38 - Chiara Lodesani, Lavoro: Adrian, how CR to allocate user works?
19/03/24, 10:39 - Adrian Cindea: assign an user logged on a station and that PPLU will be transformed in a PO at that station ...
19/03/24, 10:39 - Adrian Cindea: extra size/normal/express rules reamins the same
19/03/24, 10:40 - Adrian Cindea: PPLU assigned is transfporm in PO only at station with its user logged in
19/03/24, 10:41 - Adrian Cindea: i will be available in about 1 hour ... to continue discussion if any
19/03/24, 10:42 - Chiara Lodesani, Lavoro: ok, I'll test it
19/03/24, 10:49 - Adrian Cindea: Pplu is transformed in po pased on priority and staging time
19/03/24, 10:50 - Adrian Cindea: A pplu cu priority 1 and user assigned is assigned before pplu with prio 9
19/03/24, 10:50 - Adrian Cindea: But user to be loggedin
19/03/24, 10:51 - Adrian Cindea: A pplu assigned to an user which is not logged in is never transformed in pplu until user is logged in or user is deassigned
19/03/24, 10:52 - Chiara Lodesani, Lavoro: IMG-20240319-WA0012.jpg (file allegato)

there is a problem, I can't assign a user that has terminal kind 'Desktop'

19/03/24, 10:52 - Chiara Lodesani, Lavoro: I have tried with user mmop115 that is now logged at HBW07 <Questo messaggio è stato modificato>

19/03/24, 10:53 - Adrian Cindea: We will check

19/03/24, 10:53 - Chiara Lodesani, Lavoro: IMG-20240319-WA0013.jpg (file allegato)

19/03/24, 10:53 - Adrian Cindea: It is an issue it has to be allowed

19/03/24, 10:55 - Chiara Lodesani, Lavoro: is a deploy necessary to adjust this issue?

19/03/24, 11:10 - Adrian Cindea: We will check it

19/03/24, 11:10 - Adrian Cindea: Maybe it is needed

19/03/24, 11:23 - Chiara Lodesani, Lavoro: ok, let us know

19/03/24, 17:09 - Benedetta Zini: Could you please check PO 4338241?

19/03/24, 17:09 - Benedetta Zini: IMG-20240319-WA0015.jpg (file allegato)

19/03/24, 17:10 - Benedetta Zini: it has two empty request of empty pallet (created at the same time) but it is not suitable for CR Report as full

19/03/24, 17:10 - Benedetta Zini: IMG-20240319-WA0016.jpg (file allegato)

19/03/24, 17:10 - Benedetta Zini: Pick station 11

19/03/24, 17:11 - Benedetta Zini: sorry.... I understand why.... □

19/03/24, 17:21 - Adrian Cindea: :)

19/03/24, 17:21 - Adrian Cindea: sorry for feedback about PPLU - user assignment .. tomorrow

20/03/24, 09:18 - Adrian Cindea: for testing purpose i can add mobile rights for an user with locked ... only to be able to set

20/03/24, 09:18 - Adrian Cindea: IMG-20240320-WA0000.jpg (file allegato)

20/03/24, 09:19 - Adrian Cindea: in the future to allow to change between mobile and desktop user to be able to set desktop users ... without to add for mobile

20/03/24, 09:20 - Adrian Cindea: please set an user for mobile before to allocate it to PPLU and it will work

20/03/24, 09:21 - Chiara Lodesani, Lavoro: ok, i'll try

20/03/24, 09:25 - Adrian Cindea: IMG-20240320-WA0001.jpg (file allegato)

20/03/24, 09:25 - Adrian Cindea: the selection of options is disabled ... not possible to change it ... it is needed some changes + deploy

20/03/24, 09:27 - Adrian Cindea: our users are created with rights for both desktop and mobile ... this is the reason in our tests no issue related to allocation of user

20/03/24, 09:27 - Chiara Lodesani, Lavoro: ok, understood

20/03/24, 09:28 - Adrian Cindea: please test with one user as i said ... create right for Mobile but locked it ... and later on we will discuss about it

20/03/24, 10:30 - Chiara Lodesani, Lavoro: we have tried with one order and it is gone

20/03/24, 10:32 - Chiara Lodesani, Lavoro: as mentioned in the email we have need to have this CR that work well at the second week of April, so can you do a deploy on Monday 25th to adjust it?

20/03/24, 11:04 - Adrian Cindea: yes

20/03/24, 11:05 - Adrian Cindea: please tested with workaround to set user for mobile

20/03/24, 11:05 - Adrian Cindea: and allocaiton will be done by deploy

20/03/24, 11:05 - Adrian Cindea: to be sure it works fine excepting allocation

20/03/24, 11:06 - Adrian Cindea: it is needed a small change to allow to choose between mobile and desktop .. but it is needed change + deploy

20/03/24, 11:06 - Adrian Cindea: or workaround as temporary solution

20/03/24, 11:08 - Chiara Lodesani, Lavoro: ok

21/03/24, 10:41 - Chiara Lodesani, Lavoro: Hi @Support Technician 12, I have sent an email about one bug in the CR allocate user

21/03/24, 15:36 - Adrian Cindea: hi

21/03/24, 15:37 - Adrian Cindea: the condition was wrong ... in case of no user assigned but station in picking ... any pplu (inclusiv allocated) are assigned

21/03/24, 15:38 - Adrian Cindea: i fixed to not allow ... in case a pplu has allocated user ... only for station with the same logged-in user ...

21/03/24, 15:38 - Adrian Cindea: fix was done and tested internally ...

21/03/24, 15:43 - Adrian Cindea: i am sorry for the issue but now it is fixed.

21/03/24, 15:58 - Chiara Lodesani, Lavoro: ok, perfect

21/03/24, 15:59 - Adrian Cindea: no comment ... i though it is perfect (no need

adjustments)

21/03/24, 15:59 - Adrian Cindea: at the end .. workaround was good to be able to tested to find other issues... thx for support /patience

21/03/24, 16:06 - Chiara Lodesani, Lavoro: yes, workaround was good 😊

21/03/24, 16:07 - Adrian Cindea: our scope is all to work as in specification (and to not stop activity in case there is a way to avoid the stop until it will be fixed)

22/03/24, 08:45 - Benedetta Zini: Hello! Had you have the possibility to check what happened Yesterday at pick station #7? Thank you

22/03/24, 08:49 - Adrian Cindea: hello

22/03/24, 08:49 - Adrian Cindea: we will do it for sure asap

22/03/24, 08:52 - Benedetta Zini: perfect! thank you!

22/03/24, 14:47 - Adrian Cindea: it seems an issue related to execution of empty LU requests

22/03/24, 14:48 - Adrian Cindea: LU empty request ID: 596615 - LU Update empty LU-ID from ' - ' to 'TEMP3061'. 21.03.2024 17:36:21

22/03/24, 14:49 - Adrian Cindea: LU empty request ID: 596617 Update empty LU-ID from ' - ' to 'TEMP3526'. 21.03.2024 17:37:46

22/03/24, 14:50 - Adrian Cindea: HBW07 had TEMP3500 with TPO for out ...

22/03/24, 14:51 - Adrian Cindea: TEMP3526 reachd HBW07 before TEMP3061 ... and TEMP3061 reached after TEMP3500 was moved out.

22/03/24, 14:52 - Adrian Cindea: normally TEMP3526 has no space for execution because it was one location free and one empty LU request for it ... but both are executed almost simultaneously and the earliest created was faster ...

22/03/24, 14:53 - Adrian Cindea: no other issue found ... i will write an email with pictures (maybe full report had an issue using an AF rejected by operator).

22/03/24, 14:53 - Adrian Cindea: PO was reported 3 times as full + after 1st full operator rejected AF empty request ...

22/03/24, 15:14 - Benedetta Zini: okay...

22/03/24, 15:15 - Benedetta Zini: I understood...

22/03/24, 16:42 - Adrian Cindea: email sent ...

22/03/24, 16:42 - Adrian Cindea: have a nice week end

22/03/24, 16:43 - Benedetta Zini: thank you! Have a nice weekend too

25/03/24, 11:55 - Chiara Lodesani, Lavoro: Hi all, at 12.30 I'll put agvDisable = true and then I'll tell you when you can start with deploy

25/03/24, 12:30 - Chiara Lodesani, Lavoro: I have put agvDisable=true

25/03/24, 12:34 - Chiara Lodesani, Lavoro: You can start with deploy

25/03/24, 12:34 - Support Technician 7: Ok, thanks

25/03/24, 12:58 - Chiara Lodesani, Lavoro: Have you finished?

25/03/24, 12:59 - Support Technician 7: Deploy is done

25/03/24, 13:00 - Chiara Lodesani, Lavoro: Ok, thank you

28/03/24, 15:27 - Benedetta Zini: Hello! Could you please check what is happening now at pick station #2?

28/03/24, 15:28 - Benedetta Zini: Is it due to replenishment of empty LU or CR report as full bug?

28/03/24, 15:29 - Benedetta Zini: ART-26 must put a pallet on destination of pick station #2, but both destination positions are occupied

28/03/24, 15:29 - Benedetta Zini: 2 empty pallets for the same pick order #4354550

28/03/24, 15:29 - Benedetta Zini: and pick station #2 is blocked

28/03/24, 15:29 - Adrian Cindea: destinations are full

28/03/24, 15:29 - Adrian Cindea: and negative pickign waiting on agv

28/03/24, 15:29 - Adrian Cindea: righth?

28/03/24, 15:29 - Benedetta Zini: Yes

28/03/24, 15:30 - Adrian Cindea: wait a second

28/03/24, 15:32 - Adrian Cindea: so ... there are 2 picking orders at HBW02

28/03/24, 15:33 - Adrian Cindea: one with negative picking (no space for it) and a normal full PO (2 empty requests in station)

28/03/24, 15:33 - Benedetta Zini: yes

28/03/24, 15:36 - Adrian Cindea: cancel empty request 600430for the moment

28/03/24, 15:37 - Adrian Cindea: we need to analyze why we sent 3 empty LU requests for 2 possible target locations

28/03/24, 15:37 - Chiara Lodesani, Lavoro: Ok, have you all to investigate?

28/03/24, 15:38 - Adrian Cindea: i have the data to investigate ... now we can

proceed to unblock the station

28/03/24, 15:38 - Chiara Lodesani, Lavoro: ok

28/03/24, 16:21 - Chiara Lodesani, Lavoro: Questo messaggio è stato eliminato.

29/03/24, 06:10 - Support Technician 7: Good morning, are you guys picking now?

29/03/24, 06:12 - Giacomo Trivieri, Lavoro: Good morning, I'm going to check that all empty AF and H pallets have arrived, can you explain to me later what happened?

29/03/24, 06:15 - Giacomo Trivieri, Lavoro: The replenishment of empty AF and H pallets and distribuite, the picking bay are working

29/03/24, 06:18 - Support Technician 7: Good. We will check what happened because I did nothing 🤔

29/03/24, 07:03 - Giacomo Trivieri, Lavoro: Perfect 🥳

08/04/24, 07:55 - Adrian Cindea: IMG-20240408-WA0001.jpg (file allegato)

08/04/24, 07:55 - Adrian Cindea: again archiving filled up the database

08/04/24, 07:57 - Adrian Cindea: IMG-20240408-WA0002.jpg (file allegato)

08/04/24, 07:57 - Adrian Cindea: i did some space but it is important to clarigy archiving

08/04/24, 08:01 - Adrian Cindea: 865 days at archinving instead of 4 months

08/04/24, 08:01 - Adrian Cindea: this was last discussion ... archiving is moved by your side on new server and it will be reduced to 4 months

08/04/24, 08:02 - Adrian Cindea: it could be a problem in the future and solution is to erase archiving data

08/04/24, 08:02 - Adrian Cindea: becuae not possible to make the system to run normally due to big amount of data

08/04/24, 08:03 - Adrian Cindea: and deleting is a solution but it is needed additional action on database (shrink or even more truncate - erase all archiving data).

08/04/24, 08:09 - Adrian Cindea: archiving job were started manually

08/04/24, 08:43 - Benedetta Zini: Hello, as I wrote last week in the email we are going to move old data inside History server at the beginning of May... <Questo messaggio è stato modificato>

08/04/24, 08:44 - Benedetta Zini: Could there be problems during April?

08/04/24, 08:44 - Benedetta Zini: If yes we can think of starting delete data from prod even if History server is not 100% ready

08/04/24, 09:01 - Adrian Cindea: now i add 10GB

08/04/24, 09:07 - Benedetta Zini: okay thank you

12/04/24, 12:33 - Support Technician 10: Hello for ticket 01356299 what exactly you want us to fix

12/04/24, 12:33 - Support Technician 10: To close the PO or to finalize the OBD

12/04/24, 12:34 - Chiara Lodesani, Lavoro: hello, please close the PO

12/04/24, 12:37 - Adrian Cindea: we will do it soon

12/04/24, 12:53 - Support Technician 10: The Po is finished

12/04/24, 13:08 - Support Technician 10: But you have delivered quanti 1 I don't know is that is correct

12/04/24, 14:42 - Chiara Lodesani, Lavoro: IMG-20240412-WA0005.jpg (file allegato)

the quantity underlined is not correct.. we shound have 17 SC

12/04/24, 14:44 - Support Technician 10: I will change the pick order to the right quantity I put that quantity to be able to close the order

12/04/24, 14:44 - Chiara Lodesani, Lavoro: ok, thanks

12/04/24, 14:50 - Support Technician 10: I am not able to see the PO did you finalize it?

12/04/24, 14:51 - Chiara Lodesani, Lavoro: please, try now

12/04/24, 14:54 - Support Technician 10: Now I see it

12/04/24, 14:55 - Chiara Lodesani, Lavoro: now it is ok, thank you!

12/04/24, 14:56 - Support Technician 10: Ok thank you!

12/04/24, 16:07 - Benedetta Zini: IMPORTANT! This message is related DB

12/04/24, 16:07 - Benedetta Zini: Is it possibile to compact the database?

12/04/24, 16:07 - Adrian Cindea: i dont know what is means

12/04/24, 16:11 - Adrian Cindea: database is huge due to archiving data ... a lot of gargabe related to activity prorocol and changes

12/04/24, 16:13 - Benedetta Zini: On Oracle can you compact the database? In such a way as to reduce space...

12/04/24, 16:13 - Benedetta Zini: In Windows you can compact it

12/04/24, 16:13 - Benedetta Zini: but I don't know if in oracle you can do it
12/04/24, 16:13 - Adrian Cindea: i dont know how asked it ..
12/04/24, 16:13 - Adrian Cindea: we dont make any compactation
12/04/24, 16:14 - Benedetta Zini: okay...
12/04/24, 16:14 - Benedetta Zini: so I have to reduce the archiving period
12/04/24, 16:14 - Adrian Cindea: if there is a specialist to do it without to affect the system ... mabe it is possible but to announce su to see the impact into system
12/04/24, 16:15 - Adrian Cindea: the idea is to truncate protocol data and data about changes (view changes data)
12/04/24, 16:15 - Adrian Cindea: in that case the space will become more nomral ...
12/04/24, 16:15 - Benedetta Zini: I don't follow you
12/04/24, 16:16 - Adrian Cindea: it is only garbage data not usefull
12/04/24, 16:16 - Benedetta Zini: the data inside protocol?
12/04/24, 16:16 - Adrian Cindea: but maybe ... i hope the time to truncate it will come sooner
12/04/24, 16:17 - Adrian Cindea: yeap
12/04/24, 16:17 - Adrian Cindea: for example delivered quantity is increased
12/04/24, 16:17 - Adrian Cindea: from 10 to 20
12/04/24, 16:18 - Adrian Cindea: how helpfull is this information after 4 months?
12/04/24, 16:19 - Adrian Cindea: for example space occupied by archived protocol is many times bigger than archived OBDs
12/04/24, 16:20 - Benedetta Zini: Yes I understand...
12/04/24, 16:22 - Benedetta Zini: If I reduced the retention periodo from 865 to 835, would it improve the situation?
12/04/24, 16:22 - Benedetta Zini: If yes, I'm going to do it now
12/04/24, 16:23 - Adrian Cindea: 3,4%
12/04/24, 16:23 - Benedetta Zini: keep in mind that I will reduce retention period inside SE010 and OM022
12/04/24, 16:24 - Adrian Cindea: you lose archive obds instead to gargabe data
12/04/24, 16:24 - Adrian Cindea: but it is up to you
12/04/24, 16:25 - Benedetta Zini: the oldest one, right?
12/04/24, 16:25 - Adrian Cindea: protocol must be 4 months maximum (but dont reduce it directly)
12/04/24, 16:25 - Adrian Cindea: the oldest one all the time
12/04/24, 16:25 - Benedetta Zini: yes yes, you told me
12/04/24, 16:25 - Benedetta Zini: yes
12/04/24, 16:26 - Benedetta Zini: But I have them on History server.... even if History server is not 100% ready 😊
12/04/24, 16:36 - Benedetta Zini: What about reduce retention periodo of OmdEnSoTracking? <Questo messaggio è stato modificato>
12/04/24, 16:36 - Benedetta Zini: Only this table
12/04/24, 16:37 - Benedetta Zini: reduce to 825 days
12/04/24, 16:37 - Benedetta Zini: what do you think?
12/04/24, 16:46 - Benedetta Zini: is there a set time when WAMAS cancel data? Or when I reduce retention period, WAMAS checks and cancel immediately the oldest data?
12/04/24, 16:53 - Benedetta Zini: @Support Technician 12 I decided to reduce retention period by removing 10 days from all visible entries in SE010 and OmdEnLuTracking and OmdEnSoTracking from OM002. Can I do it now without blocking WAMAS? Since the boy is quite delicate.....
12/04/24, 16:55 - Benedetta Zini: VID-20240412-WA0007.mp4 (file allegato)
wamas be like
12/04/24, 16:57 - Benedetta Zini: please I need you help 😊
12/04/24, 17:00 - Adrian Cindea: Start with 5 days ... and no activity over weekend set 10
12/04/24, 17:00 - Adrian Cindea: It is a lot of data
12/04/24, 17:03 - Benedetta Zini: you would mean that:
- NOW I can reduce retention period by removing 5 days
- during weekend I can reduce by removing 10 days
?
12/04/24, 17:09 - Benedetta Zini: IMG-20240412-WA0008.jpg (file allegato)

1. NOW all visible entries from 865 days to 860 days
2. TOMORROW all visible entries from 860 days to 855 days
3. SUNDAY all visible entries from 855 days to 850 days
4. MONDAY 15th all visible entries from 850 days to 845 days

and so on...

12/04/24, 17:29 - Benedetta Zini: I did it... I removed 5 days...

12/04/24, 17:29 - Benedetta Zini: Tomorrow I'm going to do the same...

12/04/24, 17:55 - Benedetta Zini: But wait... I think I have to put 833 days if I want to remove 5 days of data

12/04/24, 17:55 - Benedetta Zini: let me know!

12/04/24, 18:09 - Support Technician 10: You need to put the current value - the value you want

12/04/24, 18:21 - Benedetta Zini: okay, the cleanup is instantaneous?

12/04/24, 18:24 - Support Technician 10: A worker dose the cleanup

12/04/24, 18:24 - Benedetta Zini: okay

12/04/24, 18:25 - Benedetta Zini: How often does it run?

12/04/24, 18:27 - Support Technician 10: I think it runs once every 30 minutes but I am not sure

17/04/24, 09:20 - Adrian Cindea: hello

17/04/24, 09:21 - Adrian Cindea: DA (1520x775x161) = D(1520x775x164)?

17/04/24, 09:25 - Benedetta Zini: Yes

17/04/24, 09:28 - Benedetta Zini: Fork clearance is the same

17/04/24, 10:04 - Adrian Cindea: after deploy the idea is to have the system functional

17/04/24, 10:24 - Adrian Cindea: HA/DA will be not configured in MD500 to be used

17/04/24, 10:25 - Adrian Cindea: and they will be not used at foiling for the moment

17/04/24, 10:25 - Adrian Cindea: no changes on PLC becuase in HBW1 they are slaved on B

17/04/24, 10:26 - Adrian Cindea: not used yet in foling area

17/04/24, 10:32 - Benedetta Zini: okay, and when they will arrive on conveyor and WAMAS deslaved them?

17/04/24, 10:32 - Adrian Cindea: based on our tests yes at wunderwuzzi <Questo messaggio è stato modificato>

17/04/24, 10:33 - Adrian Cindea: create with mobile application stacks of empty pallets (2 of each type).

17/04/24, 10:33 - Nicola Bernardi: Good morning, can you check the Crane 3? I opened a ticket 01357252, now the Crane Is empty on fork 2 but on MF210 i can see a TEMP7275, can you delete this?

17/04/24, 10:34 - Adrian Cindea: put on infeed as slaved ... stored in HBW1 ... send to destackers (using wunderwuzzi - deslaving) and b goes in stack, HA/Da goes to destaker

17/04/24, 10:35 - Adrian Cindea: first, tests ... and later test with rocla to pickup pallet by pallet form each stack with manual empty lu request created by MFS side

17/04/24, 10:38 - Benedetta Zini: okay good

17/04/24, 10:38 - Benedetta Zini: yes exactly, we are going to use a dedicate pick station for tests

17/04/24, 10:48 - Support Technician 10: I will take a look

17/04/24, 10:52 - Support Technician 10: Crane back to normal

17/04/24, 10:52 - Support Technician 10: Can you check?

17/04/24, 10:53 - Benedetta Zini: @Company Employee 17

17/04/24, 10:55 - Nicola Bernardi: Yes, IT'S ALIVE

17/04/24, 10:56 - Nicola Bernardi: Ths

17/04/24, 10:56 - Support Technician 10: <Media omessi>

17/04/24, 10:56 - Support Technician 10: Ok I will close the ticket

17/04/24, 11:22 - Benedetta Zini: we have a problem with TPO!

17/04/24, 11:23 - Benedetta Zini: operator is kicked off the wamas dialog

17/04/24, 11:24 - Benedetta Zini: when he want to put a pallet on truck

17/04/24, 11:24 - Benedetta Zini: could you please take a look?

17/04/24, 11:25 - Benedetta Zini: And when operator use a spontaneous TPO, WAMAS says "no TPO planned"

17/04/24, 11:27 - Benedetta Zini: these issues are causing us problems in

loading area and manual area ☐☐

17/04/24, 11:31 - Benedetta Zini: Also from CU132 (QC) wamas says that "LU have not TPO planned" but it has

17/04/24, 11:31 - Support Technician 7: Can you give me a LU example?

17/04/24, 11:31 - Benedetta Zini: yes sure

17/04/24, 11:31 - Benedetta Zini: from CU132 LU 52442589

17/04/24, 11:33 - Benedetta Zini: also from NOKFoiling, for example 52467350

17/04/24, 11:34 - Benedetta Zini: from loading area, LU 52374967

17/04/24, 11:43 - Support Technician 7: I see only LU 52442589 has a problem

17/04/24, 11:43 - Support Technician 7: I will check

17/04/24, 11:46 - Benedetta Zini: also 52227266

17/04/24, 11:49 - Razvan Voicu: We created HA/DA load aids. Can you please check and confirm in Wamas that dimensions are ok?

17/04/24, 11:53 - Benedetta Zini: okay

17/04/24, 11:54 - Benedetta Zini: but first we need to solve the currently issue of TPO 😊

17/04/24, 11:54 - Razvan Voicu: 2) Also let me know when you change AGV parameter. After we stop Wamas, I will need to restart the HIVE application aswell, so we can apply the changes to the new destacker locations (new "location" for each stack position)

17/04/24, 11:55 - Support Technician 7: This LU doesn't have a TPO

17/04/24, 11:55 - Benedetta Zini: IMG-20240417-WA0003.jpg (file allegato)
the description of HA is not correct... 1220X1220

17/04/24, 11:55 - Benedetta Zini: okay sure

17/04/24, 11:56 - Razvan Voicu: can you screenshot the whole dialog, so I can see the field?

17/04/24, 11:57 - Benedetta Zini: yes sorry

17/04/24, 11:57 - Benedetta Zini: IMG-20240417-WA0004.jpg (file allegato)

17/04/24, 11:57 - Benedetta Zini: it must work with spontaneous

17/04/24, 11:58 - Razvan Voicu: IMG-20240417-WA0006.jpg (file allegato)

This is weird, because for me it doesnt show any description. PProbably it's soemthing to do with italian user profile, but we can check after deploy, not a big issue

17/04/24, 11:59 - Benedetta Zini: another example LU 52414496

17/04/24, 11:59 - Benedetta Zini: mmh... okay (strange)

17/04/24, 12:00 - Benedetta Zini: we have a serious problem with TPO !

17/04/24, 12:01 - Razvan Voicu: We are checking it

17/04/24, 12:01 - Benedetta Zini: I found another issue @Support Technician 21

17/04/24, 12:01 - Benedetta Zini: IMG-20240417-WA0007.jpg (file allegato)
for DA is 500 not 700

17/04/24, 12:02 - Benedetta Zini: user can't close loading even if everything is okay

17/04/24, 12:03 - Razvan Voicu: Can you give us a load order ID?

17/04/24, 12:05 - Razvan Voicu: The latest load order ID and the TPO that keeps crashing

17/04/24, 12:05 - Razvan Voicu: Or it crashes 4 times and the nit works?

17/04/24, 12:05 - Benedetta Zini: yes yes, I'm waiting them

17/04/24, 12:06 - Benedetta Zini: TPOs have crash since 11:20...

17/04/24, 12:06 - Benedetta Zini: all TPOs in manual area, QC, Foiling, loading area

17/04/24, 12:15 - Benedetta Zini: 52471864

17/04/24, 12:16 - Razvan Voicu: now should be ok I think

17/04/24, 12:16 - Benedetta Zini: let me try...

17/04/24, 12:30 - Benedetta Zini: TPOs work!!

17/04/24, 12:30 - Razvan Voicu: Great

17/04/24, 12:31 - Benedetta Zini: I set agvDisable = true, we have a lot of orders for AGV... I will let you know when you can start with deploy

17/04/24, 12:32 - Benedetta Zini: Also Rocla will update AGVs

17/04/24, 12:32 - Razvan Voicu: yes, we also need to update hive, so it's ok

17/04/24, 12:34 - Benedetta Zini: First you need to update hive and then rocra or it can be done together?

17/04/24, 12:35 - Benedetta Zini: is it better to first update WAMAS+HIVE and in a second time Rocla?

17/04/24, 12:35 - Razvan Voicu: after we stop WAMAS, we do the deploy + hive

update

17/04/24, 12:35 - Razvan Voicu: meanwhile rocra does the update
17/04/24, 12:35 - Razvan Voicu: when we start Wamas services, everything should be updated
17/04/24, 12:35 - Razvan Voicu: wamas + hive + rocra
17/04/24, 12:35 - Benedetta Zini: perfect
17/04/24, 12:36 - Razvan Voicu: so before we start the AGVs (set the agv paramater), everything should be updated
17/04/24, 12:42 - Benedetta Zini: 7 missions missing, but we need ARTs that are in charging area... give us 10 miutes
17/04/24, 12:56 - Benedetta Zini: you can start!
17/04/24, 12:56 - Benedetta Zini: please let me know when deploy is finished
17/04/24, 12:57 - Razvan Voicu: Ok
17/04/24, 13:03 - Benedetta Zini: Hai eliminato questo messaggio.
17/04/24, 13:22 - Razvan Voicu: aprox. 5 mins to be done
17/04/24, 13:23 - Benedetta Zini: okay, also Hive?
17/04/24, 13:23 - Razvan Voicu: yes <Questo messaggio è stato modificato>
17/04/24, 13:30 - Razvan Voicu: Deploy done, parameters back to normal
17/04/24, 13:30 - Benedetta Zini: okay we are checking
17/04/24, 13:35 - Benedetta Zini: Rocra has already finished, but he had some problems during update... so this afternoon we can't test destack
17/04/24, 13:42 - Benedetta Zini: IMG-20240417-WA0008.jpg (file allegato)
I have flag it (also for HA)
17/04/24, 14:01 - Razvan Voicu: Ok.
17/04/24, 14:42 - Benedetta Zini: One question.... S46 DAD and DAH locations?
17/04/24, 14:43 - Razvan Voicu: Didn't change the alias yet
17/04/24, 14:44 - Benedetta Zini: Okay
17/04/24, 14:46 - Razvan Voicu: I also blocked them, just to be safe
17/04/24, 14:47 - Adrian Cindea: it is possible to make to stored a stack of empty pallets for each type HA/DA (no replenishment to destacker yet)?
17/04/24, 14:47 - Benedetta Zini: yes perfect!
17/04/24, 14:47 - Adrian Cindea: @Support Technician 21 on our side is ok?
17/04/24, 14:48 - Benedetta Zini: yes, I'm doing stacks 😊
17/04/24, 14:48 - Adrian Cindea: @Company Employee 11 please prepare them using mobile terminal but not move them yet
17/04/24, 14:48 - Benedetta Zini: No store inside HBW1?
17/04/24, 14:48 - Razvan Voicu: Yes, should be ok on our side
17/04/24, 14:48 - Adrian Cindea: let us know when they are done to be able to check their cubature to be correctly
17/04/24, 14:48 - Adrian Cindea: the scope is to store them
17/04/24, 14:48 - Benedetta Zini: okay sure
17/04/24, 14:48 - Adrian Cindea: but firstly to be sure all is fine
17/04/24, 14:48 - Benedetta Zini: I will let you know
17/04/24, 14:49 - Razvan Voicu: Stack of HA with B master, infeed at SLF01CC0011/0071 inside HBW1
17/04/24, 14:49 - Adrian Cindea: before to store please check cubature of B pallet and HA pallet
17/04/24, 14:49 - Razvan Voicu: Same for DA
17/04/24, 14:49 - Razvan Voicu: Sure
17/04/24, 15:49 - Adrian Cindea: i think we will start tomorrow with new stack of DA/HA
17/04/24, 15:49 - Adrian Cindea: no issues so far after deploy?
17/04/24, 15:49 - Benedetta Zini: yes no issue
17/04/24, 15:50 - Adrian Cindea: @Company Employee 11 foiling program for HA?
17/04/24, 15:50 - Adrian Cindea: There are 6 programs configured on WAMAS side
17/04/24, 15:50 - Benedetta Zini: I'm starting creating stacks.... he had problems with operator that load DA instead of D
17/04/24, 15:50 - Benedetta Zini: what do you mean?
17/04/24, 15:51 - Adrian Cindea: MF500
17/04/24, 15:51 - Adrian Cindea: do you have access to it?
17/04/24, 15:51 - Adrian Cindea: it is not a program ...
17/04/24, 15:51 - Adrian Cindea: IMG-20240417-WA0009.jpg (file allegato)
17/04/24, 15:51 - Adrian Cindea: foiling roll type
17/04/24, 15:52 - Adrian Cindea: DA will be the same as for D

17/04/24, 15:52 - Adrian Cindea: for HA?
 17/04/24, 15:52 - Adrian Cindea: i dont know how foiling is working exactly
 (maybe it is needed someting for new type HA)
 17/04/24, 15:53 - Adrian Cindea: DA and D are very close (3 mm is difficult to
 be detected and sometimes wood cut has a tollerance :))
 17/04/24, 15:54 - Adrian Cindea: man detection is not possible only woman
 detection :)
 17/04/24, 15:55 - Benedetta Zini: Yes! I wrote it in the documenti!
 17/04/24, 15:55 - Benedetta Zini: New page! I will check if I have rights
 17/04/24, 15:56 - Adrian Cindea: we will add new type HA at the end
 17/04/24, 15:56 - Adrian Cindea: we will find how configure foil machines
 17/04/24, 15:57 - Adrian Cindea: it is up the dialog
 17/04/24, 15:58 - Benedetta Zini: Let me check inside my document
 17/04/24, 15:58 - Benedetta Zini: Because I wrote how you have to configure foil
 machine
 17/04/24, 15:59 - Benedetta Zini: Wait
 17/04/24, 15:59 - Benedetta Zini: We can't create HA stack
 17/04/24, 15:59 - Benedetta Zini: IMG-20240417-WA0011.jpg (file allegato)
 17/04/24, 15:59 - Benedetta Zini: IMG-20240417-WA0013.jpg (file allegato)
 17/04/24, 16:00 - Benedetta Zini: IMG-20240417-WA0015.jpg (file allegato)
 17/04/24, 16:01 - Adrian Cindea: one second
 17/04/24, 16:02 - Adrian Cindea: it is not configurd on S02 MAV
 17/04/24, 16:02 - Adrian Cindea: into infeed area
 17/04/24, 16:03 - Adrian Cindea: 2-3minutes to add them
 17/04/24, 16:03 - Benedetta Zini: □□
 17/04/24, 16:07 - Adrian Cindea: try now being in S02 MAV
 17/04/24, 16:08 - Benedetta Zini: okay
 17/04/24, 16:09 - Benedetta Zini: no
 17/04/24, 16:09 - Benedetta Zini: it is not working
 17/04/24, 16:09 - Benedetta Zini: same error
 17/04/24, 16:10 - Adrian Cindea: give me id of DA
 17/04/24, 16:10 - Adrian Cindea: loading aids are not defined properly ...
 17/04/24, 16:10 - Adrian Cindea: i will try to fix them
 17/04/24, 16:10 - Benedetta Zini: you mean that we have to try with a DA?
 17/04/24, 16:11 - Adrian Cindea: did you try with HA? <Questo messaggio è stato
 modificato>
 17/04/24, 16:11 - Benedetta Zini: yes
 17/04/24, 16:11 - Benedetta Zini: this is an HA
 17/04/24, 16:14 - Adrian Cindea: cubature HA is not defined properly
 17/04/24, 16:14 - Adrian Cindea: it is B_HA...
 17/04/24, 16:14 - Adrian Cindea: i will fix it ...
 17/04/24, 16:15 - Adrian Cindea: for both ...
 17/04/24, 16:15 - Benedetta Zini: oh okay
 17/04/24, 16:15 - Benedetta Zini: yes also DA isn't working
 17/04/24, 16:16 - Benedetta Zini: cubature of stacks is 1550?
 17/04/24, 16:23 - Adrian Cindea: yes normally
 17/04/24, 16:27 - Adrian Cindea: i added cubature for HA and DA
 17/04/24, 16:27 - Adrian Cindea: but i need to check all configuration for them
 17/04/24, 16:27 - Adrian Cindea: maybe now it is possible to create the stack
 17/04/24, 16:27 - Adrian Cindea: tomorrow morning i will finish all checks
 17/04/24, 16:28 - Adrian Cindea: because it is must better to check them to be
 as inhouse system
 17/04/24, 16:28 - Adrian Cindea: to avoid frustration in other flows
 17/04/24, 16:30 - Adrian Cindea: i will inform you when all configuration for
 new LA are done (as inhouse system)
 17/04/24, 16:32 - Benedetta Zini: okay....
 17/04/24, 16:32 - Benedetta Zini: so for now can I try to do stacks without put
 them inside HBW1?
 17/04/24, 16:34 - Benedetta Zini: SAME PROBLEM OF THIS MORNING WITH TPOS!!!
 17/04/24, 16:35 - Benedetta Zini: we can't close truck S20240417512
 17/04/24, 16:35 - Benedetta Zini: 52427741
 17/04/24, 16:35 - Benedetta Zini: 52008146
 17/04/24, 16:36 - Benedetta Zini: 52452614
 17/04/24, 16:36 - Benedetta Zini: also from CU132

17/04/24, 16:36 - Benedetta Zini: 51601305
17/04/24, 16:37 - Benedetta Zini: 🤔🤔
17/04/24, 16:39 - Benedetta Zini: 52471822
17/04/24, 16:40 - Benedetta Zini: could you please check ASAP?
17/04/24, 16:49 - Benedetta Zini: VID-20240417-WA0016.mp4 (file allegato)
17/04/24, 16:51 - Support Technician 7: Can you check now?
17/04/24, 16:59 - Benedetta Zini: it works
17/04/24, 16:59 - Benedetta Zini: what was the root cause?
17/04/24, 17:02 - Razvan Voicu: We restarted the DcMobile worker
17/04/24, 17:02 - Razvan Voicu: It tried to process some not existant transport orders
17/04/24, 17:02 - Razvan Voicu: We are investigating why this started today
17/04/24, 17:04 - Benedetta Zini: Okay thank you
17/04/24, 17:05 - Razvan Voicu: Actually some already finished
18/04/24, 02:17 - Giuseppe Romano, Lavoro: IMG-20240418-WA0000.jpg (file allegato)
18/04/24, 02:19 - Giuseppe Romano, Lavoro: Hello, at the moment we are stopped, due to the error "anomaly p1 assignment without data"
18/04/24, 03:21 - Support Technician 7: Hi, I am checking the problem
18/04/24, 03:22 - Giuseppe Romano, Lavoro: Ok, thanks so much
18/04/24, 03:58 - Support Technician 7: Did it start to work?
18/04/24, 03:58 - Giuseppe Romano, Lavoro: Yess now it seems to be all ok
18/04/24, 03:58 - Giuseppe Romano, Lavoro: Thanks a lot
18/04/24, 03:59 - Support Technician 7: Awesome! You're welcome. I will close the ticket. Have a nice day
18/04/24, 03:59 - Giuseppe Romano, Lavoro: Ok, have a nice day u too
18/04/24, 09:15 - Benedetta Zini: Good morning! Let me know when it is possibile to try creating stacks of new LA (HA/DA)
18/04/24, 09:35 - Razvan Voicu: Hello. You can try now
18/04/24, 09:35 - Razvan Voicu: a DA
18/04/24, 09:36 - Benedetta Zini: only DA?
18/04/24, 09:37 - Razvan Voicu: Let's start with DA
18/04/24, 09:38 - Razvan Voicu: do you know if rocla is ready to test from HBW to Destacker?
18/04/24, 09:39 - Razvan Voicu: With DA I think we can test HBW->Wuzzi->Destacker->Foiling->S46
With HA only HBW->Wuzzi->Destacker
18/04/24, 09:39 - Benedetta Zini: Yesterday he said that he would update the AGVs today (from 12:40 to 12:50)
18/04/24, 09:39 - Razvan Voicu: Ok, then now only infeed. This we can do both with DA/HA
18/04/24, 09:40 - Benedetta Zini: no destacker --> pick station?
18/04/24, 09:42 - Razvan Voicu: That also, if AGV work
18/04/24, 09:42 - Benedetta Zini: okay, but only with DA
18/04/24, 09:42 - Benedetta Zini: why not with HA?
18/04/24, 09:45 - Razvan Voicu: Because DA has the same dimensions with D and we can use it
18/04/24, 09:45 - Razvan Voicu: HA doesn't and needs PLC changes
18/04/24, 09:45 - Benedetta Zini: okay, whereas for HA needs PLC changes
18/04/24, 09:45 - Benedetta Zini: yes I get it 🤔
18/04/24, 09:46 - Benedetta Zini: clear as crystal
18/04/24, 09:57 - Razvan Voicu: Let me know when you try to create DA stack
18/04/24, 09:57 - Benedetta Zini: yes sure
18/04/24, 10:52 - Razvan Voicu: Do you know when you will be able to infeed
18/04/24, 10:52 - Benedetta Zini: 10 minutes and I'm going to create stacks
18/04/24, 10:53 - Benedetta Zini: sorry but I was going crazy with Access for queries 🤔 <Questo messaggio è stato modificato>
18/04/24, 10:56 - Razvan Voicu: no problem, just wanted to know the time period
18/04/24, 11:07 - Benedetta Zini: I'm going
18/04/24, 11:15 - Benedetta Zini: I'm waiting forklift driver
18/04/24, 11:23 - Razvan Voicu: <Media omessi>
18/04/24, 11:28 - Benedetta Zini: IMG-20240418-WA0004.jpg (file allegato)
18/04/24, 11:29 - Benedetta Zini: cubature is wrong... it has be 1550
18/04/24, 11:29 - Benedetta Zini: not 800

18/04/24, 11:31 - Razvan Voicu: Before this
18/04/24, 11:31 - Benedetta Zini: IMG-20240418-WA0005.jpg (file allegato)
18/04/24, 11:31 - Razvan Voicu: IMG-20240418-WA0006.jpg (file allegato)
18/04/24, 11:31 - Benedetta Zini: like D you should have all kind of cubature
18/04/24, 11:31 - Razvan Voicu: we have a lot of B_DA
18/04/24, 11:32 - Razvan Voicu: checking now why, but one guess would be what operators are pressing buttons on mobile app like they used to
18/04/24, 11:32 - Razvan Voicu: and maybe mistake D for DA
18/04/24, 11:32 - Benedetta Zini: 🤔🤔🤔🤔
18/04/24, 11:34 - Razvan Voicu: fixing it in a sec
18/04/24, 11:35 - Benedetta Zini: WAIT
18/04/24, 11:36 - Benedetta Zini: these B_DA* have as second LU D
18/04/24, 11:37 - Benedetta Zini: CHECK 52452998
18/04/24, 11:38 - Benedetta Zini: IMG-20240418-WA0007.jpg (file allegato)
18/04/24, 11:40 - Razvan Voicu: I wil lcheck
18/04/24, 11:40 - Razvan Voicu: try to create stack again
18/04/24, 11:41 - Benedetta Zini: priority is no the stack but the list you sent to me
18/04/24, 11:41 - Benedetta Zini: because operator slaved D pallet and wamas put B_DA instead of B_D
18/04/24, 11:51 - Benedetta Zini: are you checking?
18/04/24, 11:51 - Razvan Voicu: yes
18/04/24, 12:07 - Razvan Voicu: We had the 2 cubatures identical B_D and B_DA and when it calculated based on the dimensions, it found B_DA instead of B_D
18/04/24, 12:07 - Razvan Voicu: because alphabetically B_DA_ is before B_D_
18/04/24, 12:08 - Benedetta Zini: Oh.... 🤔
18/04/24, 12:08 - Razvan Voicu: We updated in the DB the wrong B_DA pallets into B_D
We changed the dimension of B_DA cubatures by 1 mm
18/04/24, 12:08 - Razvan Voicu: so if it's 1520/775/height it finds B_D
When its 1519/775/height it finds B_DA
18/04/24, 12:08 - Benedetta Zini: Okay
18/04/24, 12:09 - Benedetta Zini: So you fix it
18/04/24, 12:09 - Razvan Voicu: Probably yes. We will track to see if this still happens
18/04/24, 12:09 - Razvan Voicu: meanwhile, let's try to create a new stack and see if it works
18/04/24, 12:10 - Adrian Cindea: with 0.1 mm for length to 1520x1199.99x...
18/04/24, 12:24 - Razvan Voicu: Let me know when you create a new DA stack
18/04/24, 12:27 - Benedetta Zini: Probably after lunch
18/04/24, 12:27 - Benedetta Zini: from 14:30 italian time
18/04/24, 12:28 - Benedetta Zini: is it suitable for you?
18/04/24, 12:28 - Benedetta Zini: Because now we have to do AGV update
18/04/24, 12:39 - Razvan Voicu: for me it's suitable as soon as possible
18/04/24, 12:39 - Razvan Voicu: we need to test as much as we can
18/04/24, 12:39 - Benedetta Zini: yes I know
18/04/24, 12:42 - Razvan Voicu: Why can't we create stacks until then?
18/04/24, 12:42 - Razvan Voicu: it's 2 hours until the update agv
18/04/24, 12:44 - Benedetta Zini: Because now there isn't a forklift driver, but we can start creating stacks at 13 🤔
18/04/24, 12:45 - Benedetta Zini: Only DA
18/04/24, 13:09 - Adrian Cindea: the idea is to store a stack of DA
18/04/24, 13:09 - Adrian Cindea: to create a new stack and to put it on INFEED (rocla is not involved).
18/04/24, 13:10 - Adrian Cindea: to check storage of DA stack
18/04/24, 13:10 - Adrian Cindea: after that to prepare HA stack to store it ...
18/04/24, 13:10 - Adrian Cindea: when rocla is ready we will change global parameter to send DA to destacker to be able to test with rocla - pickup top pallet until pallet is empty
18/04/24, 13:11 - Adrian Cindea: it is important to make small steps to test the system what is ready (DA - can be used for all flows, HA can not be used for picking yet - PLC changes)
18/04/24, 13:12 - Benedetta Zini: okay perfect
18/04/24, 13:12 - Benedetta Zini: this afternoon we will test only DA

18/04/24, 13:12 - Adrian Cindea: 1. create a stack of DA
18/04/24, 13:12 - Adrian Cindea: 2. store it
18/04/24, 13:13 - Adrian Cindea: 3. activate destacker feature for it
18/04/24, 13:13 - Benedetta Zini: I mean with pick and foil
18/04/24, 13:13 - Adrian Cindea: not possible to pick and foil until destacker is not tested
18/04/24, 13:13 - Benedetta Zini: okay
18/04/24, 13:13 - Adrian Cindea: 4. destacker tests
18/04/24, 13:14 - Adrian Cindea: manual empty LU request created on MFS to move an empty DA pallet at a station (not used for picking anymore during tests)
18/04/24, 13:14 - Adrian Cindea: we will test entire stack of empty pallets ... with your support
18/04/24, 13:15 - Benedetta Zini: okay okay, I get it
18/04/24, 13:15 - Adrian Cindea: pallet is moved in target location and removed manually by Atlas and deleted by SSI and SSI creates a new LU empty request
18/04/24, 13:15 - Adrian Cindea: the same for second destacker ...
18/04/24, 13:16 - Adrian Cindea: and later on configure DA in MD500 pe be used for picking ...
18/04/24, 13:16 - Adrian Cindea: and after that test picking + foiling + S46 + ... loading ...
18/04/24, 13:23 - Benedetta Zini: we are creating stacks
18/04/24, 13:23 - Adrian Cindea: one second to check them
18/04/24, 13:25 - Benedetta Zini: Let me know when we can put them inside HBW1
18/04/24, 13:26 - Adrian Cindea: they seem fine
18/04/24, 13:26 - Adrian Cindea: put them in HBW1
18/04/24, 13:26 - Benedetta Zini: great
18/04/24, 13:44 - Benedetta Zini: we put 2 stacks, but both are in NOK at infeed
18/04/24, 13:44 - Benedetta Zini: 60501799
18/04/24, 13:44 - Benedetta Zini: 60501797
18/04/24, 13:44 - Benedetta Zini: same errors
18/04/24, 13:45 - Benedetta Zini: also this one 60501802
18/04/24, 13:49 - Benedetta Zini: IMG-20240418-WA0010.jpg (file allegato)
18/04/24, 13:49 - Benedetta Zini: IMG-20240418-WA0009.jpg (file allegato)
18/04/24, 13:49 - Benedetta Zini: IMG-20240418-WA0011.jpg (file allegato)
18/04/24, 13:49 - Benedetta Zini: IMG-20240418-WA0012.jpg (file allegato)
18/04/24, 13:50 - Benedetta Zini: Stacks are okay
18/04/24, 13:50 - Benedetta Zini: 🧐
18/04/24, 13:58 - Adrian Cindea: i changed 60501802 to be D on B
18/04/24, 13:58 - Adrian Cindea: please put it on conveyor again
18/04/24, 13:59 - Adrian Cindea: to check if there is an issue about stack or it is on issue related to check on PLC side
18/04/24, 13:59 - Adrian Cindea: only this stack please 60501802
18/04/24, 14:03 - Benedetta Zini: okay
18/04/24, 14:07 - Benedetta Zini: no errors
18/04/24, 14:08 - Benedetta Zini: let me know...
18/04/24, 14:15 - Benedetta Zini: is it a PLC issue?
18/04/24, 14:23 - Benedetta Zini: let me know what you want to do
18/04/24, 14:24 - Adrian Cindea: 60501802 please put again this slave on conveyor
18/04/24, 14:24 - Benedetta Zini: Can I create a TPO to go to HBW1?
18/04/24, 14:24 - Adrian Cindea: yes
18/04/24, 14:25 - Adrian Cindea: i will do it
18/04/24, 14:25 - Benedetta Zini: I already do it 😊
18/04/24, 14:25 - Adrian Cindea: k
18/04/24, 14:27 - Benedetta Zini: we are put it on infeed
18/04/24, 14:27 - Benedetta Zini: same errors
18/04/24, 14:28 - Adrian Cindea: please remove it
18/04/24, 14:29 - Benedetta Zini: yes
18/04/24, 14:40 - Adrian Cindea: MFS issue
18/04/24, 14:40 - Adrian Cindea: type sent wrong to PLC (B instead of D)
18/04/24, 14:42 - Benedetta Zini: does it check B instead of stacks of DA?
<Questo messaggio è stato modificato>
18/04/24, 14:50 - Benedetta Zini: what can we do?
18/04/24, 14:50 - Adrian Cindea: let us check

18/04/24, 14:50 - Benedetta Zini: kk
18/04/24, 14:52 - Adrian Cindea: please put back on conveyor 60501802
18/04/24, 14:53 - Adrian Cindea: to see if slaving is correctly on MFS side ...
or it is only a standalone B pallet instead of slaving
18/04/24, 14:53 - Adrian Cindea: and let me know to check on MFS side
18/04/24, 14:56 - Benedetta Zini: 2 minutes and operator is going to put it on
infeed
18/04/24, 15:07 - Benedetta Zini: it goes to NOK
18/04/24, 15:07 - Adrian Cindea: i saw it ... the issue is on MFS
18/04/24, 15:07 - Adrian Cindea: pallet is B standalone instead to be slaved
pallet
18/04/24, 15:07 - Adrian Cindea: this is the reason of contour errors
18/04/24, 15:08 - Benedetta Zini: okay... can you fix it or you need a deploy?
18/04/24, 15:08 - Adrian Cindea: i dont know yes the root cause
18/04/24, 15:08 - Adrian Cindea: i know there is an issue
18/04/24, 15:09 - Benedetta Zini: okay 🙄
18/04/24, 15:14 - Benedetta Zini: if you want to test stacks with rocra we can
put stacks in correct locations and test them
18/04/24, 15:25 - Benedetta Zini: let me know
18/04/24, 15:28 - Adrian Cindea: it is needed a restart of MFS
18/04/24, 15:29 - Adrian Cindea: because some data was added after deploy and
not visible by MFS
18/04/24, 15:29 - Benedetta Zini: okay
18/04/24, 15:29 - Benedetta Zini: but you have to stop production?
18/04/24, 15:29 - Adrian Cindea: a second pleasa
18/04/24, 15:31 - Adrian Cindea: agv-urile needs to be stopped
18/04/24, 15:31 - Adrian Cindea: and we will restart only MFS side ... not
entore deploy procedure... with restart of WAMAS
18/04/24, 15:31 - Benedetta Zini: I'm sorry, we can't stop them...
18/04/24, 15:31 - Adrian Cindea: normally it takes at agv are stopped 3-5
minutes
18/04/24, 15:32 - Adrian Cindea: please let us know when it will be possible
18/04/24, 15:32 - Benedetta Zini: IMG-20240418-WA0013.jpg (file allegato)
18/04/24, 15:32 - Benedetta Zini: we have a lot of truck to load...
18/04/24, 15:32 - Adrian Cindea: tomorrow morning
18/04/24, 15:33 - Benedetta Zini: better
18/04/24, 15:33 - Adrian Cindea: destacker can not be tested
18/04/24, 15:33 - Adrian Cindea: HA is unknown by MFS without a restart
18/04/24, 15:33 - Adrian Cindea: or DA
18/04/24, 15:45 - Benedetta Zini: both LA?
18/04/24, 16:03 - Benedetta Zini: is it a problem to do it at around about 4:30
am?
18/04/24, 16:14 - Adrian Cindea: i dont know it will be possible (it is too
early in the morning)
18/04/24, 16:19 - Benedetta Zini: Okay.... at 5:30?
18/04/24, 16:20 - Adrian Cindea: starting from 7:30 is possible anytime
18/04/24, 16:21 - Benedetta Zini: Because tomorrow we will have a lot of
trucks... and I can't blocked automatic warehouse for 20 minutes (10 for
stopping AGV and 10 for mfs restart)
18/04/24, 16:21 - Benedetta Zini: Let me talk with my colleagues
18/04/24, 16:45 - Benedetta Zini: @Support Technician 12 can you do it now?
18/04/24, 16:45 - Benedetta Zini: Restart MFS
18/04/24, 16:46 - Benedetta Zini: Let me know if it is okay for you and I will
stop agvs
18/04/24, 16:51 - Benedetta Zini: I set agvDisable = true
18/04/24, 16:52 - Benedetta Zini: I will let you know when all AGVs are in
charging
18/04/24, 16:53 - Razvan Voicu: Great
18/04/24, 17:06 - Benedetta Zini: you can start
18/04/24, 17:07 - Razvan Voicu: ok, we start
18/04/24, 17:07 - Benedetta Zini: thanks
18/04/24, 17:08 - Benedetta Zini: let me know when you finish
18/04/24, 17:19 - Razvan Voicu: Shouldn't be long
18/04/24, 17:19 - Benedetta Zini: okay

18/04/24, 17:19 - Benedetta Zini: is it still in progress?
18/04/24, 17:22 - Razvan Voicu: yes
18/04/24, 17:22 - Razvan Voicu: IMG-20240418-WA0014.jpg (file allegato)
18/04/24, 17:22 - Razvan Voicu: 1-2 mins
18/04/24, 17:23 - Razvan Voicu: to load the LUS
18/04/24, 17:24 - Benedetta Zini: okay
18/04/24, 17:24 - Benedetta Zini: let me know when I can release AGV and start using WAMAS
18/04/24, 17:25 - Razvan Voicu: Done
18/04/24, 17:25 - Razvan Voicu: switching back parameters
18/04/24, 17:26 - Benedetta Zini: yessss
18/04/24, 17:26 - Razvan Voicu: Can we try to infeed a new DA stack?
18/04/24, 17:26 - Benedetta Zini: yes sure
18/04/24, 17:28 - Benedetta Zini: @Support Technician 21 !!
18/04/24, 17:28 - Razvan Voicu: What's wrong
18/04/24, 17:28 - Benedetta Zini: IMG-20240418-WA0015.jpg (file allegato)
18/04/24, 17:29 - Benedetta Zini: Same problem as this morning
18/04/24, 17:29 - Benedetta Zini: D pallet has a slaved pallet with B_DA
18/04/24, 17:29 - Benedetta Zini: 58642120 has boxes on it
18/04/24, 17:30 - Razvan Voicu: Edited
18/04/24, 17:30 - Benedetta Zini: great
18/04/24, 17:30 - Benedetta Zini: are you sure it won't happen anymore? <Questo messaggio è stato modificato>
18/04/24, 17:31 - Razvan Voicu: It shouldn't , it's the same explanation as above
18/04/24, 17:32 - Razvan Voicu: jsut that we changed it back to the same values, because we thought that's why B_D works and B_DA doesnt
18/04/24, 17:32 - Razvan Voicu: now I changed it back
18/04/24, 17:32 - Benedetta Zini: okay great
18/04/24, 17:32 - Razvan Voicu: now the cubatures don't have the same dimensions
18/04/24, 17:32 - Razvan Voicu: from now on if it happens, then we need other changes
18/04/24, 17:33 - Razvan Voicu: When can you infeed the new stack?
18/04/24, 17:33 - Benedetta Zini: okay
18/04/24, 17:33 - Benedetta Zini: I'm waiting operator (he is on break)
18/04/24, 17:35 - Razvan Voicu: Do you have an ETA?
18/04/24, 17:36 - Benedetta Zini: ?
18/04/24, 17:38 - Razvan Voicu: an approximate time when we can do it? 10-20-40 mins?
18/04/24, 17:38 - Benedetta Zini: in theory 5 minutes 😊
18/04/24, 17:38 - Benedetta Zini: 5 minutes ago
18/04/24, 17:44 - Benedetta Zini: he did it!
18/04/24, 17:44 - Benedetta Zini: no errors!
18/04/24, 17:45 - Benedetta Zini: we put another stacks
18/04/24, 17:45 - Benedetta Zini: let me know if we have to try also with HA
18/04/24, 17:46 - Razvan Voicu: yes, you can do it with HA also
18/04/24, 17:46 - Adrian Cindea: dont use H
18/04/24, 17:46 - Adrian Cindea: HA
18/04/24, 17:46 - Adrian Cindea: it is not covered by PLC
18/04/24, 17:46 - Razvan Voicu: just infeed in HBW
18/04/24, 17:46 - Adrian Cindea: no
18/04/24, 17:47 - Adrian Cindea: SOC ID is not known by PLC
18/04/24, 17:47 - Benedetta Zini: okay, we leave it outside
18/04/24, 17:47 - Razvan Voicu: Ok then
18/04/24, 17:47 - Benedetta Zini: only DA
18/04/24, 17:47 - Adrian Cindea: yeap
18/04/24, 17:47 - Razvan Voicu: Then DA stack in HBW and then tomorrow we will try HBW->Destacker
18/04/24, 17:47 - Benedetta Zini: yes
18/04/24, 17:47 - Razvan Voicu: Ok, that's it for today then. Thanks you and have a nice day
18/04/24, 17:47 - Razvan Voicu: Let's touch base tomorrow
18/04/24, 17:48 - Benedetta Zini: ookay
18/04/24, 17:48 - Benedetta Zini: thank you!

18/04/24, 17:48 - Benedetta Zini: have a nice evening!
19/04/24, 08:33 - Razvan Voicu: Hello. Can we start testing a DA retrieval to Destacker?
19/04/24, 08:33 - Benedetta Zini: Yes, one minute because we have pick stations that can't send back LUS
19/04/24, 08:33 - Benedetta Zini: but it is due to huge amount of data (I supposed)
19/04/24, 08:43 - Benedetta Zini: Problem solved
19/04/24, 08:45 - Benedetta Zini: we are waiting Rocla technician, let's start at 9 (italian time)
19/04/24, 08:45 - Razvan Voicu: Ok
19/04/24, 09:12 - Benedetta Zini: we can start testing!
19/04/24, 09:15 - Benedetta Zini: please, when it is possibile I kindly ask you to change alias 😊
19/04/24, 09:15 - Razvan Voicu: Sure
19/04/24, 09:15 - Benedetta Zini: I activate destacker feature for DA
19/04/24, 09:17 - Benedetta Zini: Do we have to wait TPOs for stacks?
19/04/24, 09:18 - Benedetta Zini: I removed block from S46A09X003Y01Z1
19/04/24, 09:20 - Razvan Voicu: Ok, great
19/04/24, 09:20 - Razvan Voicu: let me check
19/04/24, 09:20 - Benedetta Zini: yes... because no TPO was created
19/04/24, 09:37 - Razvan Voicu: TPO created
19/04/24, 09:37 - Razvan Voicu: There was one more config to be done
19/04/24, 09:37 - Benedetta Zini: great!
19/04/24, 09:37 - Razvan Voicu: IMG-20240419-WA0002.jpg (file allegato)
19/04/24, 09:38 - Benedetta Zini: yes yes
19/04/24, 09:38 - Benedetta Zini: I saw it
19/04/24, 09:45 - Razvan Voicu: IMG-20240419-WA0003.jpg (file allegato)
19/04/24, 09:46 - Razvan Voicu: @Company Employee 11 how is the lighthouse working onsite? Loads slowly/meh/fast?
19/04/24, 09:47 - Razvan Voicu: IMG-20240419-WA0004.jpg (file allegato)
AGV picked it up -> destacker
Master B goes back to stacker
19/04/24, 09:50 - Razvan Voicu: We unblocked the 2nd destacker location, another TPO was created
60501802
60501803
19/04/24, 09:51 - Benedetta Zini: no...
19/04/24, 09:51 - Razvan Voicu: It's not working? 🤖
19/04/24, 09:51 - Benedetta Zini: yes, but ATX15 want to deposit it in a wrong location
19/04/24, 09:52 - Benedetta Zini: now it is working
19/04/24, 09:52 - Benedetta Zini: it was slow 😞
19/04/24, 09:53 - Razvan Voicu: Ok, what location did the AGV try to deposit?
19/04/24, 09:53 - Benedetta Zini: S46 41 PARK 15
19/04/24, 09:54 - Benedetta Zini: HA location
19/04/24, 09:54 - Benedetta Zini: S46A11X032Y01Z2
19/04/24, 09:54 - Razvan Voicu: But it got stored in S46 40 PARK 18
19/04/24, 09:54 - Razvan Voicu: Did you change anything?
19/04/24, 09:54 - Benedetta Zini: No
19/04/24, 09:54 - Razvan Voicu: Did roccla do anything?
19/04/24, 09:55 - Benedetta Zini: IMG-20240419-WA0005.jpg (file allegato)
19/04/24, 09:55 - Benedetta Zini: Rocla has to change layout of locations
19/04/24, 09:55 - Benedetta Zini: its location
19/04/24, 09:55 - Razvan Voicu: So roccla issue, ok
19/04/24, 09:55 - Benedetta Zini: yes
19/04/24, 09:56 - Razvan Voicu: We did a lighthouse restart, let me know if it loads faster
19/04/24, 09:56 - Adrian Cindea: the idea is to be booked properly on Rocla too
19/04/24, 09:56 - Benedetta Zini: better
19/04/24, 09:56 - Adrian Cindea: because on WAMAS side it is in location
19/04/24, 09:57 - Benedetta Zini: yes I know 😊
19/04/24, 09:57 - Razvan Voicu: IMG-20240419-WA0006.jpg (file allegato)
second stack

19/04/24, 09:57 - Benedetta Zini: During lunch break he is going to do an update
 19/04/24, 09:57 - Razvan Voicu: S46A09X003Y01Z1
 19/04/24, 09:58 - Benedetta Zini: yes but same problem...
 19/04/24, 09:59 - Benedetta Zini: atx want to deposit it in HA location...
 19/04/24, 09:59 - Benedetta Zini: rocla made a mistake in associating locations
 19/04/24, 10:01 - Razvan Voicu: IMG-20240419-WA0007.jpg (file allegato)
 19/04/24, 10:03 - Adrian Cindea: after the issue is fixed and pallets are moved in place ... we need a station for testing (to not be used for picking) <Questo messaggio è stato modificato>
 19/04/24, 10:04 - Adrian Cindea: to be able to remove all pallets from each destacker and send to a target place (and to be stack manually at station)
 19/04/24, 10:04 - Razvan Voicu: Ok, let us know when rocla update is done and then we'll restart testing
 19/04/24, 10:05 - Benedetta Zini: yes, we are going to do it at 12:40
 19/04/24, 10:09 - Adrian Cindea: without deploy faster ... time is running without any test
 19/04/24, 10:39 - Benedetta Zini: I talked with Razvan and it seems that from Rocla side everything is fine
 19/04/24, 10:41 - Benedetta Zini: @Support Technician 21 maybe on Hive you put 6731 instead of 6711?
 19/04/24, 10:41 - Razvan Voicu: No
 19/04/24, 10:41 - Razvan Voicu: IMG-20240419-WA0008.jpg (file allegato)
 19/04/24, 10:42 - Benedetta Zini: IMG-20240419-WA0009.jpg (file allegato)
 Rocla side
 19/04/24, 10:47 - Benedetta Zini: let me now if you find something
 19/04/24, 10:48 - Razvan Voicu: sure, I am talking to daniele
 19/04/24, 10:48 - Benedetta Zini: oookay
 19/04/24, 11:28 - Benedetta Zini: News?
 19/04/24, 11:35 - Razvan Voicu: waiting for rocla feedback
 19/04/24, 11:36 - Benedetta Zini: okay
 19/04/24, 11:36 - Razvan Voicu: we provided them info
 19/04/24, 11:36 - Razvan Voicu: 024-04-19 09:43:10.105 INFO AgvTelegramSenderManager: Telegram to initiate new order: Q01800001120B02C71A4B000000000000000000000012D [ikey=4619, priority=80, code=1, trp_str=1, from=711, to=6731, height=0, function_code=1]
 19/04/24, 11:36 - Razvan Voicu: where we send to 6731
 19/04/24, 11:36 - Razvan Voicu: 2024-04-19 09:56:34.611 INFO AgvOrderManager: HiveOrder read by index[20]: HiveOrder{iKey=4643, index=20, width=0, state=agvPickedUpLoad, tuTypeId=301, destination=S46A09X003Y01Z1, source=RPF01C1201L, agv=8, errorInProcessing=true, fetchPositionEmpty=false, deliveryPositionOccupied=false, shouldBeFinished=false, tuId=60501803, created=2024-04-19 09:54:26.959, reserve1=RELEASED}

 This is the telegram for the other pallet, destination is S46A09X003Y01Z1
 19/04/24, 11:43 - Benedetta Zini: Okay, so wamas sent the correct message
 19/04/24, 11:45 - Razvan Voicu: according to us, yes
 19/04/24, 11:45 - Benedetta Zini: okay
 19/04/24, 11:49 - Benedetta Zini: IMG-20240419-WA0010.jpg (file allegato)
 19/04/24, 11:50 - Benedetta Zini: Is it a problem?
 19/04/24, 11:50 - Benedetta Zini: no S46 for DAD 01 and DAD 02
 19/04/24, 11:51 - Razvan Voicu: no
 19/04/24, 11:51 - Razvan Voicu: We edited that
 19/04/24, 11:52 - Razvan Voicu: The problem would be between hive and rocla
 19/04/24, 11:52 - Benedetta Zini: oh okay sorry
 19/04/24, 11:52 - Benedetta Zini: not great...
 19/04/24, 11:52 - Razvan Voicu: 1) we send something, but rocla receives something else
 2) we send something, but rocla translates wrongly
 3) we send something, but we log something else
 19/04/24, 11:53 - Razvan Voicu: 3 seems highly unlikely
 19/04/24, 11:53 - Razvan Voicu: Since Wamas/Hive sends to DA stacker, rocla receives something but redirects to HA stacker, I would say the mappings are wrong
 19/04/24, 11:54 - Razvan Voicu: Because we move towards one of these 4 "new"

locations

19/04/24, 11:54 - Benedetta Zini: yes, in fact it was my first idea...
19/04/24, 11:54 - Benedetta Zini: but I saw the map and rocla code are correct...
19/04/24, 11:55 - Razvan Voicu: We informed rocla that on our side the telegrams look like
Location = Da stacker locations
RoclaName = 6731/6741 (like in hive)

Waiting feedback on what they receive, to know what to check further

19/04/24, 11:55 - Benedetta Zini: okay
19/04/24, 12:22 - Benedetta Zini: Let me know when Daniel give you feedback
19/04/24, 12:23 - Razvan Voicu: He just did
19/04/24, 12:24 - Razvan Voicu: Rocla conversion issue
19/04/24, 12:24 - Benedetta Zini: Great!!!
19/04/24, 12:24 - Benedetta Zini: So it should be work now
19/04/24, 12:28 - Razvan Voicu: Normally, yes
19/04/24, 12:52 - Adrian Cindea: for you information: it seems on Monday (standard time 12:40-13:10) it is needed anew deploy (WAMAS and *PLC*) to be able to use all new pallets.
19/04/24, 12:54 - Benedetta Zini: Yes Daniele told me
19/04/24, 12:54 - Adrian Cindea: for the moment we will test DA (HA can be tested faking the system stored as H initially and changed after storage to be able to be sent to destackers to check pickup of each empty pallet).
19/04/24, 12:54 - Adrian Cindea: after lunch ... we will test DA for the moment ... send to destackers and pickup each empty LU from each destaker
19/04/24, 12:55 - Adrian Cindea: please provide us a station for testing ... we will generate manually empty LU requests to a specific station
19/04/24, 12:55 - Adrian Cindea: no picking at that station during manual tests
19/04/24, 12:56 - Adrian Cindea: later on we will make picking in case there is no issue during pickup up and drop to station.
19/04/24, 12:56 - Adrian Cindea: we will try to use both targets to speed up testing ... after empty pallet is put in station, it has to be removed and we will clean on WAMAS side to be able to send new empty pallet... being only for testing purpose
19/04/24, 12:57 - Adrian Cindea: later on ... to make picking and send to foiling
19/04/24, 12:57 - Adrian Cindea: @Company Employee 11 pls discuss with Milo about foiling program for HA (DA will us 6 as D).
19/04/24, 12:58 - Adrian Cindea: to configured it on WAMAS side to be pushed to PLC and later on to foiling machine
19/04/24, 12:58 - Adrian Cindea: HA - has no foiling program
19/04/24, 14:12 - Adrian Cindea: 2 HA stacks are sent to destackers
19/04/24, 14:13 - Benedetta Zini: Yes at 14:30
19/04/24, 14:13 - Benedetta Zini: Great!
19/04/24, 14:13 - Adrian Cindea: stacks are on the way ...
19/04/24, 14:14 - Adrian Cindea: at 14:30 - pick ups will be done basically
19/04/24, 14:14 - Benedetta Zini: HA is the same as H, it will use the same foil
19/04/24, 14:15 - Benedetta Zini: Okay, give me 5 min i'm going to office
19/04/24, 14:15 - Adrian Cindea: it takes time to reach destackers ...
19/04/24, 14:23 - Benedetta Zini: HA locations are blocked
19/04/24, 14:23 - Adrian Cindea: please check DA positions
19/04/24, 14:23 - Razvan Voicu: Unblocking them now
19/04/24, 14:23 - Adrian Cindea: no
19/04/24, 14:23 - Adrian Cindea: no HA
19/04/24, 14:24 - Benedetta Zini: ok
19/04/24, 14:24 - Benedetta Zini: DA locations are fine
19/04/24, 14:24 - Adrian Cindea: DA stacks (in location and ATX-6)
19/04/24, 14:24 - Adrian Cindea: both are on destackers
19/04/24, 14:24 - Benedetta Zini: yes
19/04/24, 14:24 - Benedetta Zini: let me going to check
19/04/24, 14:25 - Adrian Cindea: so ... replenishment is working fine ... there is one more stack in HBW1
19/04/24, 14:25 - Adrian Cindea: please

19/04/24, 14:25 - Adrian Cindea: after that please provide a station for testing
(in case all is fine physically) <Questo messaggio è stato modificato>
19/04/24, 14:25 - Benedetta Zini: yes replenishment works
19/04/24, 14:26 - Benedetta Zini: Pick station #3 is the lucky one
19/04/24, 14:26 - Adrian Cindea: i will check it ...
19/04/24, 14:27 - Benedetta Zini: it has to finish picking
19/04/24, 14:27 - Adrian Cindea: i saw it ...
19/04/24, 14:27 - Benedetta Zini: only 3...
19/04/24, 14:27 - Adrian Cindea: give 2-3 minutes to generate 1st empty lu
request
19/04/24, 14:27 - Adrian Cindea: i hope tooo
19/04/24, 14:29 - Adrian Cindea: it was generated ...
19/04/24, 14:29 - Adrian Cindea: PDS03L01
19/04/24, 14:30 - Adrian Cindea: TEMP7263
19/04/24, 14:33 - Razvan Voicu: IMG-20240419-WA0011.jpg (file allegato)
19/04/24, 14:33 - Razvan Voicu: agv picked up 1, stack size decreased by 1
19/04/24, 14:33 - Benedetta Zini: yes!
19/04/24, 14:33 - Benedetta Zini: physically everything okay
19/04/24, 14:35 - Benedetta Zini: I release ART
19/04/24, 14:36 - Razvan Voicu: Are you still picking at station 3?
19/04/24, 14:38 - Benedetta Zini: Yes
19/04/24, 14:38 - Benedetta Zini: Last 2 orders
19/04/24, 14:38 - Adrian Cindea: please do it ... and check ATX-23
19/04/24, 14:38 - Benedetta Zini: Yes
19/04/24, 14:38 - Adrian Cindea: there is an empty HA for it
19/04/24, 14:39 - Benedetta Zini: IMG-20240419-WA0013.jpg (file allegato)
19/04/24, 14:39 - Benedetta Zini: DA
19/04/24, 14:39 - Razvan Voicu: IMG-20240419-WA0014.jpg (file allegato)
19/04/24, 14:39 - Adrian Cindea: Yes, DA
19/04/24, 14:40 - Adrian Cindea: please finish picking to send one one ... and
stack them to be able to remove from WAMAS
19/04/24, 14:40 - Benedetta Zini: Operator is doing picking
19/04/24, 14:40 - Adrian Cindea: step by step ... with communication we will
move all pallets at station 3
19/04/24, 14:41 - Adrian Cindea: we will wait to finish
19/04/24, 14:41 - Benedetta Zini: Yes
19/04/24, 14:41 - Benedetta Zini: After this test, can we try with another
stacks and put physically 7 and logically 8?
19/04/24, 14:41 - Razvan Voicu: Ok
19/04/24, 14:42 - Adrian Cindea: wait to make standard test no exceptions
19/04/24, 14:42 - Adrian Cindea: the idea is to check destacker/AGV ... all is
fine ... not to start with exceptions
19/04/24, 14:42 - Adrian Cindea: later on to make exceptions
19/04/24, 14:43 - Adrian Cindea: anyhow ... empty requests are created
manually ... no PO for them
19/04/24, 14:43 - Adrian Cindea: it is only to test AGV destacker ...
19/04/24, 14:43 - Benedetta Zini: okok
19/04/24, 14:44 - Razvan Voicu: Did you do something to the AGV? Why it waited
so much on the spot?
19/04/24, 14:45 - Benedetta Zini: it was blocked by another agv
19/04/24, 14:45 - Razvan Voicu: Oh
19/04/24, 14:46 - Benedetta Zini: plt deposited
19/04/24, 14:48 - Benedetta Zini: atx 1 is going to take another DA from the
stack
19/04/24, 14:50 - Benedetta Zini: DAD 02
19/04/24, 14:50 - Benedetta Zini: 6 PALLET
19/04/24, 14:51 - Adrian Cindea: it was another empty LU request
19/04/24, 14:51 - Adrian Cindea: first was sent in S46
19/04/24, 14:52 - Adrian Cindea: from station ...
19/04/24, 14:52 - Benedetta Zini: can I cancel it<?
19/04/24, 14:52 - Adrian Cindea: yes
19/04/24, 14:52 - Benedetta Zini: good that it works!
19/04/24, 14:52 - Adrian Cindea: the goal is to reach the station <Questo
messaggio è stato modificato>

19/04/24, 14:53 - Adrian Cindea: cancel and remove physically to make location again empty for a new DA
 19/04/24, 14:53 - Adrian Cindea: the idea is to test both stacks ...
 19/04/24, 14:54 - Benedetta Zini: I can't cancel both pallets because TP0 is recreating too fast
 19/04/24, 14:55 - Benedetta Zini: can you cancel both?
 19/04/24, 14:59 - Razvan Voicu: Is there something physically on station target destination?
 19/04/24, 14:59 - Razvan Voicu: BP03 D01 and D02?
 19/04/24, 15:03 - Adrian Cindea: we dont see them in WAMAS (TEMP7263, TEMP7301)
 19/04/24, 15:04 - Benedetta Zini: We did it!
 19/04/24, 15:04 - Adrian Cindea: the idea is to continue with next 6 + 8 ... to confirm DA destakers ...
 19/04/24, 15:04 - Benedetta Zini: Now on BP03 D02 there is empty lu for order
 19/04/24, 15:04 - Benedetta Zini: Yes yes
 19/04/24, 15:04 - Adrian Cindea: k
 19/04/24, 15:04 - Adrian Cindea: please pcik it
 19/04/24, 15:05 - Benedetta Zini: Yessssss
 19/04/24, 15:06 - Adrian Cindea: we remember covid perid :) ... with this communication and sync
 19/04/24, 15:07 - Benedetta Zini: @Company Employee 16 and @Company Employee 21 certainly remember it 😊
 19/04/24, 15:08 - Adrian Cindea: picking done
 19/04/24, 15:08 - Benedetta Zini: I wasn't there yet, but they told about that period :)
 19/04/24, 15:08 - Benedetta Zini: you can create TP0 for BP03 D01
 19/04/24, 15:08 - Adrian Cindea: we will generate 6 empty LU requests
 19/04/24, 15:09 - Benedetta Zini: oh okay ahaha
 19/04/24, 15:09 - Adrian Cindea: and they are executed where there is capacity
 19/04/24, 15:09 - Benedetta Zini: okok
 19/04/24, 15:11 - Adrian Cindea: TEMP7364 - has TP0 for station 3
 19/04/24, 15:12 - Adrian Cindea: please remove it physically after it reach th station
 19/04/24, 15:12 - Adrian Cindea: and we will cancel its TP0 fro S46 as soon as possible
 19/04/24, 15:13 - Adrian Cindea: TEMP7364;TEMP7370
 19/04/24, 15:14 - Benedetta Zini: okay
 19/04/24, 15:21 - Adrian Cindea: remove TEMP7364
 19/04/24, 15:21 - Benedetta Zini: did it
 19/04/24, 15:22 - Adrian Cindea: TEMP7390, TEMP7395
 19/04/24, 15:24 - Benedetta Zini: IMG-20240419-WA0016.jpg (file allegato)
 DAD 01
 19/04/24, 15:25 - Benedetta Zini: The stack was logically made by 7 pallets?
 19/04/24, 15:26 - Adrian Cindea: no
 19/04/24, 15:26 - Benedetta Zini: I checked it was 8
 19/04/24, 15:26 - Adrian Cindea: TEMP7370?
 19/04/24, 15:26 - Adrian Cindea: this has an issue ... it was not picked up
 19/04/24, 15:26 - Adrian Cindea: this is the reason
 19/04/24, 15:27 - Adrian Cindea: i dont know why it was not executed ... number of LUs from stack was decreased when a pick up order was created to rocla
 19/04/24, 15:27 - Benedetta Zini: There isn't in the system
 19/04/24, 15:27 - Adrian Cindea: no ... it was somehow cancelled
 19/04/24, 15:28 - Adrian Cindea: we will check it later
 19/04/24, 15:28 - Adrian Cindea: this is the reason to write all temps
 19/04/24, 15:29 - Razvan Voicu: Did you get error for this?
 19/04/24, 15:29 - Razvan Voicu: At least we tested a case, even if we didn't want 😊
 19/04/24, 15:29 - Adrian Cindea: one empty has to be removed from station
 19/04/24, 15:30 - Adrian Cindea: please let AGV to take 2nd pallet from stack
 19/04/24, 15:30 - Adrian Cindea: the idea is to test ... and later on to investigate strange cases
 19/04/24, 15:32 - Adrian Cindea: did you cancel pickup of 2nd pallet from stack?
 19/04/24, 15:34 - Benedetta Zini: NO
 19/04/24, 15:35 - Benedetta Zini: another tpo please

19/04/24, 15:36 - Benedetta Zini: from dad 01
 19/04/24, 15:36 - Adrian Cindea: it seems an issue with that stack
 19/04/24, 15:36 - Adrian Cindea: not available source received from agv
 19/04/24, 15:37 - Benedetta Zini: maybe an agv try to pick up pallet #8 but without success and decrease the stack...
 19/04/24, 15:37 - Benedetta Zini: I don't know
 19/04/24, 15:37 - Adrian Cindea: for TEMP7370
 19/04/24, 15:37 - Razvan Voicu: What is the physical status of the stacks now?
 19/04/24, 15:37 - Benedetta Zini: 6 pallet
 19/04/24, 15:37 - Razvan Voicu: DAD01 - 6 pallet
 DAD02 - 3 pallet?
 19/04/24, 15:37 - Adrian Cindea: physically?
 19/04/24, 15:37 - Adrian Cindea: please remove pallet from station 3
 19/04/24, 15:38 - Adrian Cindea: TEMP7422
 19/04/24, 15:38 - Adrian Cindea: is on the way to station
 19/04/24, 15:38 - Benedetta Zini: yes
 DAD 02 3 pallet + 1 WITH tpo
 19/04/24, 15:39 - Benedetta Zini: we did it
 19/04/24, 15:47 - Adrian Cindea: station is empty?
 19/04/24, 15:48 - Benedetta Zini: yes
 19/04/24, 15:48 - Razvan Voicu: But in Wams we see it is still at BP03 D02
 19/04/24, 15:48 - Razvan Voicu: did you remove it manually
 19/04/24, 15:50 - Adrian Cindea: TEMP7450;TEMP7422
 19/04/24, 15:50 - Adrian Cindea: station is logically empty
 19/04/24, 15:50 - Adrian Cindea: 2 TPOs to it ... form each destacker
 19/04/24, 15:56 - Benedetta Zini: I deleted them <Questo messaggio è stato modificato>
 19/04/24, 15:56 - Adrian Cindea: TEMP7460;TEMP7461
 19/04/24, 15:56 - Adrian Cindea: new ones
 19/04/24, 16:01 - Benedetta Zini: deleted
 19/04/24, 16:05 - Adrian Cindea: TEMP7466, TEMP7467 are on AGV
 19/04/24, 16:07 - Adrian Cindea: please clean station
 19/04/24, 16:07 - Adrian Cindea: one stack is empty
 19/04/24, 16:08 - Benedetta Zini: deleted
 19/04/24, 16:08 - Adrian Cindea: TEMP7473, TEMP7475 on the way
 19/04/24, 16:12 - Adrian Cindea: 2 more pallets ... and DA destacks work fine
 19/04/24, 16:13 - Adrian Cindea: pls clean station ...
 19/04/24, 16:14 - Adrian Cindea: but far away ... for stacks :)
 19/04/24, 16:14 - Adrian Cindea: station is full ...
 19/04/24, 16:16 - Benedetta Zini: empty
 19/04/24, 16:24 - Benedetta Zini: last tpo from dad 01?
 19/04/24, 16:29 - Adrian Cindea: analyze
 19/04/24, 16:32 - Benedetta Zini: okok
 19/04/24, 16:34 - Razvan Voicu: We have an issue with this last TU. We will check logs/code
 19/04/24, 16:34 - Razvan Voicu: At the moment, please get rid of it manually
 19/04/24, 16:35 - Razvan Voicu: I put the replenish parameter on false, so we don't send to destackers. If you want to still send, please put it on active
 19/04/24, 16:35 - Razvan Voicu: We will continue picking monday
 19/04/24, 16:35 - Benedetta Zini: okay
 19/04/24, 16:35 - Razvan Voicu: Have a nice weekend !
 19/04/24, 16:35 - Benedetta Zini: nono it is okay
 19/04/24, 16:36 - Benedetta Zini: have a nice weekend!
 19/04/24, 16:36 - Razvan Voicu: wait
 19/04/24, 16:37 - Razvan Voicu: dont take it out manually yet
 19/04/24, 16:37 - Razvan Voicu: 😊😊
 19/04/24, 16:37 - Razvan Voicu: My bad, I put the parameter on false too early and that's why
 19/04/24, 16:37 - Razvan Voicu: You have access to the parameters, right?
 19/04/24, 16:37 - Adrian Cindea: conclusion so far:
 19/04/24, 16:37 - Razvan Voicu: IMG-20240419-WA0017.jpg (file allegato)
 19/04/24, 16:38 - Adrian Cindea: DA - storage, replenishment and destackers - are working fine
 19/04/24, 16:39 - Adrian Cindea: on Monday morning we will test a picking for DA

(we will force it somehow to be on DA)
19/04/24, 16:39 - Adrian Cindea: and we will continue to test HA in the afternoon
19/04/24, 16:39 - Adrian Cindea: thx for support
19/04/24, 16:41 - Adrian Cindea: on Monday we will test a picking order to test ... destaker - AGV - picking - AGV - foiling - AGV - s46 - AGV - S48/S47.
19/04/24, 16:41 - Benedetta Zini: too late.....
19/04/24, 16:41 - Adrian Cindea: you are faster than AGV :)
19/04/24, 16:42 - Adrian Cindea: and our debug action why the last pallet is not moved ...
19/04/24, 16:44 - Adrian Cindea: have a nice week end
19/04/24, 16:44 - Adrian Cindea: see you on Monday
19/04/24, 16:59 - Benedetta Zini: 😊
19/04/24, 16:59 - Benedetta Zini: You too
22/04/24, 09:09 - Benedetta Zini: Good morning! Could you please check what is happening at pick station #7?
22/04/24, 09:09 - Benedetta Zini: I don't understand if it is a bug of CR report as full or it is due to replenishment
22/04/24, 09:10 - Benedetta Zini: Currently pick station #7 is blocked because wamas creates empty LU request with TPO towards pick station and then creates TPO towards S46 locations
22/04/24, 09:17 - Benedetta Zini: let me know if you are able to check, otherwise I have to think up something
22/04/24, 09:26 - Benedetta Zini: VID-20240422-WA0000.mp4 (file allegato)
22/04/24, 09:27 - Adrian Cindea: good morning
22/04/24, 09:27 - Adrian Cindea: let me copy some data
22/04/24, 09:27 - Benedetta Zini: yessss
22/04/24, 09:31 - Adrian Cindea: please manage by yourself
22/04/24, 09:31 - Adrian Cindea: i copy the data for analyze
22/04/24, 09:31 - Benedetta Zini: how? 😊
22/04/24, 09:37 - Adrian Cindea: there are 2 TPOs to move both empty LUs from HBW07 and a TPO to station waiting on AGV
22/04/24, 09:37 - Adrian Cindea: normally system waiting for AGV to move one of empty LUS
22/04/24, 09:38 - Adrian Cindea: PDS07L02 a solution is to remove manually and to cancel empty request ...
22/04/24, 09:39 - Adrian Cindea: TEMP9943
22/04/24, 09:40 - Adrian Cindea: and cancel its TPO ...
22/04/24, 09:40 - Adrian Cindea: the idea is to remove it manually
22/04/24, 09:45 - Adrian Cindea: it is only execution priority ...
22/04/24, 09:48 - Adrian Cindea: as i see issue is solved
22/04/24, 09:56 - Adrian Cindea: maybe an idea is to increase priority of execution by AGVs ... it was not a real blockage, it was an issue of execution ... to make space in station. <Questo messaggio è stato modificato>
22/04/24, 09:57 - Benedetta Zini: I saw the issue is solved...
22/04/24, 09:57 - Adrian Cindea: i did not touch the system by action (only visualisation)
22/04/24, 09:58 - Benedetta Zini: you mean the priority of IN empty LU or OUT of shipping pallet from pick station?
22/04/24, 09:58 - Adrian Cindea: out empty pallets not needed anymore in the station
22/04/24, 09:59 - Adrian Cindea: to release locations asap before to come empty pallet in picking station
22/04/24, 10:00 - Adrian Cindea: 2 TPOs was for OUT and one for IN ... but IN was first waiting for empty position and OUTs are ready for execution for AGV (but one position was not accesible because was blocked by IN agv).
22/04/24, 10:04 - Benedetta Zini: okay I understood...
22/04/24, 10:10 - Adrian Cindea: second position was accesible ... after AGV picks up the pallet , after that MFS moved in 1st empty location and after that it is put IN in station and possible to pick up 2nd OUT
22/04/24, 10:19 - Benedetta Zini: okay
22/04/24, 10:20 - Benedetta Zini: Do we start testing DA pallets for picking stations this afternoon?
22/04/24, 10:41 - Adrian Cindea: i will add DA in MD500 right now ...

22/04/24, 10:41 - Adrian Cindea: because it is like DA ... and it can be used at foiling
22/04/24, 10:42 - Adrian Cindea: to see when first DA will be picked ... maybe i can force it somehow ...
22/04/24, 10:42 - Adrian Cindea: to be able to test it asap
22/04/24, 10:45 - Adrian Cindea: i have added in MD500, LA type DA
22/04/24, 10:46 - Adrian Cindea: IMG-20240422-WA0001.jpg (file allegato)
22/04/24, 10:46 - Adrian Cindea: 2 empty request including DA
22/04/24, 10:50 - Benedetta Zini: mmmh let me check...
22/04/24, 10:50 - Benedetta Zini: DA with AF, F, U isn't a good sign...
22/04/24, 10:51 - Benedetta Zini: It must be an alternative to D
22/04/24, 10:51 - Benedetta Zini: Like AF is for F, U, X etc...
22/04/24, 10:52 - Benedetta Zini: IMG-20240422-WA0002.jpg (file allegato)
in fact at pick station #5 there isn't an ...x150 item
22/04/24, 10:54 - Benedetta Zini: DA must behave like D but only for picking with a weight under 500 Kg
22/04/24, 10:54 - Benedetta Zini: please modify MD500
22/04/24, 10:56 - Benedetta Zini: IMG-20240422-WA0003.jpg (file allegato)
I'm going to cancel them
22/04/24, 10:57 - Benedetta Zini: IMG-20240422-WA0004.jpg (file allegato)
and I modified like in the blue rectangle
22/04/24, 10:59 - Razvan Voicu: did you already save?
22/04/24, 10:59 - Benedetta Zini: no
22/04/24, 10:59 - Benedetta Zini: can i procede?
22/04/24, 10:59 - Benedetta Zini: only blue rectangle
22/04/24, 10:59 - Adrian Cindea: i deleted DA ...
22/04/24, 10:59 - Benedetta Zini: greta
22/04/24, 10:59 - Benedetta Zini: great
22/04/24, 10:59 - Adrian Cindea: exception for D
22/04/24, 11:00 - Benedetta Zini: perfect!
22/04/24, 11:02 - Benedetta Zini: same thing also for HA
22/04/24, 11:06 - Adrian Cindea: not yet ...
22/04/24, 11:06 - Adrian Cindea: later after we have a stack available
22/04/24, 11:06 - Adrian Cindea: we will do it later for HA
22/04/24, 11:09 - Adrian Cindea: it means empty lu request will be DA and D ..., respectively HA, H
22/04/24, 11:09 - Adrian Cindea: in case weight is ok
22/04/24, 11:09 - Benedetta Zini: exactly
22/04/24, 11:11 - Adrian Cindea: IMG-20240422-WA0005.jpg (file allegato)
22/04/24, 11:11 - Adrian Cindea: normally D has to have only 2 lines ... not 3 as now
22/04/24, 11:13 - Benedetta Zini: exactly one for pick and one for negative pick
22/04/24, 11:13 - Adrian Cindea: not problem ... ssystem used both DA and D
22/04/24, 11:13 - Benedetta Zini: only for pick
22/04/24, 11:13 - Adrian Cindea: it does not matter there are 2 lines for pickign <Questo messaggio è stato modificato>
22/04/24, 11:13 - Alex Ardilli, Personale: Questo messaggio è stato eliminato.
22/04/24, 11:15 - Benedetta Zini: could you please delete TEMP7390?
22/04/24, 11:15 - Adrian Cindea: done
22/04/24, 11:15 - Benedetta Zini: thank you
22/04/24, 11:17 - Benedetta Zini: let's wait for empty LU request
22/04/24, 11:18 - Benedetta Zini: VID-20240422-WA0006.mp4 (file allegato)
22/04/24, 11:24 - Razvan Voicu: we also need a compatible picking order
22/04/24, 11:24 - Benedetta Zini: sure
22/04/24, 11:45 - Razvan Voicu: IMG-20240422-WA0007.jpg (file allegato)
22/04/24, 11:46 - Benedetta Zini: 🙏
22/04/24, 11:48 - Razvan Voicu: Is it ok like this?
22/04/24, 11:48 - Razvan Voicu: D;DA ?
22/04/24, 11:49 - Benedetta Zini: I checked and no... It should be DA;D
22/04/24, 11:53 - Benedetta Zini: First DA and then, if no DA pallets is available wamas has to chose D
22/04/24, 11:54 - Benedetta Zini: same behavior as AF pallet instead of F,U,X, etc <Questo messaggio è stato modificato>
22/04/24, 12:00 - Razvan Voicu: in 25 minutes we start deploy, correct?

22/04/24, 12:00 - Adrian Cindea: i removed D;D for picking in MD500 - it affects order of LA types <Questo messaggio è stato modificato>
22/04/24, 12:01 - Benedetta Zini: PLC update you mean?
22/04/24, 12:01 - Adrian Cindea: TEMP0169 - DA
22/04/24, 12:01 - Adrian Cindea: MFS update too
22/04/24, 12:01 - Benedetta Zini: can you explain better?
22/04/24, 12:02 - Adrian Cindea: if there are 2 lines D;D and DA;D
22/04/24, 12:02 - Adrian Cindea: system will preferred D ...
22/04/24, 12:02 - Adrian Cindea: in case there is only one line ..system will select 1:DA; 2:D
22/04/24, 12:03 - Benedetta Zini: oh okay now I get it
22/04/24, 12:03 - Adrian Cindea: TEMP0169 is on AGV
22/04/24, 12:03 - Benedetta Zini: okay, and in case weight is > 500Kg the system will choose D?
22/04/24, 12:03 - Adrian Cindea: soon it will reach the station
22/04/24, 12:03 - Adrian Cindea: yes
22/04/24, 12:03 - Razvan Voicu: and waams update
22/04/24, 12:04 - Adrian Cindea: it is needed to match new TU TYPES in communication with PLC
22/04/24, 12:04 - Razvan Voicu: We will need you to put parameters
22/04/24, 12:04 - Adrian Cindea: this is the reason of WAMAS deploy
22/04/24, 12:04 - Adrian Cindea: there are 2 deploys: PLC and WAMAS deploy
22/04/24, 12:05 - Adrian Cindea: to be able to communicate new TU TYPES configured on PLC
22/04/24, 12:05 - Benedetta Zini: so you need 30 minutes?
22/04/24, 12:06 - Adrian Cindea: standard ...
22/04/24, 12:06 - Benedetta Zini: because Daniele told me only PLC --> 10 minutes
22/04/24, 12:06 - Adrian Cindea: it is the same procedure all the time (no changes in database structure)
22/04/24, 12:06 - Adrian Cindea: PLC is faster
22/04/24, 12:07 - Adrian Cindea: i sent an email (i though it is clar about deploy on WAMAS side)
22/04/24, 12:07 - Benedetta Zini: is the same deploy as you did on thursday?
22/04/24, 12:07 - Adrian Cindea: 52403798 is DA shipment LU
22/04/24, 12:07 - Benedetta Zini: I saw
22/04/24, 12:07 - Adrian Cindea: no, it is standard depliy
22/04/24, 12:08 - Benedetta Zini: okay
22/04/24, 12:08 - Adrian Cindea: Wednesday deploy - full wamas deploy, thursday was only a restart of MFS <Questo messaggio è stato modificato>
22/04/24, 12:09 - Benedetta Zini: but you wrote MFS deploy in email... I thought it was the same as Thursday 😞 <Questo messaggio è stato modificato>
22/04/24, 12:13 - Adrian Cindea: MFS restart takes longer ... than the rest of deploy
22/04/24, 12:15 - Adrian Cindea: i set DA for both foilling machines
22/04/24, 12:15 - Adrian Cindea: it is parked now ...52403798
22/04/24, 12:16 - Benedetta Zini: okay, you will set also HA as I wrote you in the email
22/04/24, 12:16 - Adrian Cindea: i setup foilling program for HA
22/04/24, 12:18 - Adrian Cindea: but not allowed yet at foilling machine .. after deploy i will do it
22/04/24, 12:19 - Benedetta Zini: Okay, whereas DA is allowed
22/04/24, 12:32 - Benedetta Zini: I will put F01 and F02 in manual mode for PLC update, can you do your update at the same the time?
22/04/24, 12:32 - Razvan Voicu: yes
22/04/24, 12:32 - Razvan Voicu: we need AGV parameters set
22/04/24, 12:32 - Benedetta Zini: I set agv disable = truee
22/04/24, 12:32 - Razvan Voicu: tell us when missions are over and we restart the services
22/04/24, 12:34 - Benedetta Zini: you can start
22/04/24, 12:34 - Benedetta Zini: no sorry wait
22/04/24, 12:34 - Benedetta Zini: we have to put F01 and F02 in manual mode
22/04/24, 12:35 - Benedetta Zini: 3 min please
22/04/24, 12:35 - Razvan Voicu: ok

22/04/24, 12:38 - Benedetta Zini: you can start
22/04/24, 12:38 - Benedetta Zini: all automatic area in manual mode
22/04/24, 12:40 - Razvan Voicu: ok, starting now
22/04/24, 12:40 - Benedetta Zini: also PLC
22/04/24, 12:45 - Benedetta Zini: PLC is updated
22/04/24, 12:47 - Benedetta Zini: let me know when you have finished the update
22/04/24, 12:50 - Razvan Voicu: Sure
22/04/24, 12:53 - Benedetta Zini: do not set "agvDisable = false" after deploy is done... I have to check if Rocla will be finished its update
22/04/24, 12:53 - Benedetta Zini: but let me know when we can put F01 and F02 in automatic
22/04/24, 12:55 - Razvan Voicu: Ok. Starting wamas now and mfs in a couple of seconds
22/04/24, 12:55 - Benedetta Zini: okay
22/04/24, 13:01 - Benedetta Zini: can we put in automatic mode F01 and F02?
22/04/24, 13:05 - Adrian Cindea: we are checking the system after its start (last checking before to confirm finish of deploy)
22/04/24, 13:05 - Razvan Voicu: Ok, everything is up on our side
22/04/24, 13:07 - Benedetta Zini: we are switching F01 and F02
22/04/24, 13:10 - Razvan Voicu: let me know when to switch back parameters
22/04/24, 13:10 - Benedetta Zini: I'm doing it now
22/04/24, 13:11 - Benedetta Zini: strange... no missions for AGVs...
22/04/24, 13:12 - Benedetta Zini: no communication between wamas and roccla?
22/04/24, 13:13 - Razvan Voicu: IMG-20240422-WA0008.jpg (file allegato)
22/04/24, 13:13 - Razvan Voicu: yes, AGVs offline
22/04/24, 13:13 - Razvan Voicu: did roccla do also something?
22/04/24, 13:13 - Razvan Voicu: I can do a hive restart
22/04/24, 13:14 - Benedetta Zini: okay
22/04/24, 13:14 - Benedetta Zini: he said no...
22/04/24, 13:16 - Benedetta Zini: Have you do it?
22/04/24, 13:16 - Razvan Voicu: yes, but it doesn't look like it's starting
22/04/24, 13:17 - Benedetta Zini: No...
22/04/24, 13:17 - Benedetta Zini: AGVs are still offline? <Questo messaggio è stato modificato>
22/04/24, 13:18 - Benedetta Zini: do you want to call Daniel?
22/04/24, 13:20 - Benedetta Zini: all AGVs are in I/O blocking
22/04/24, 13:21 - Razvan Voicu: Not yet
22/04/24, 13:22 - Benedetta Zini: kk
22/04/24, 13:28 - Razvan Voicu: Are the AGVs still in I/O blocking?
22/04/24, 13:29 - Razvan Voicu: Yes, can you call daniel and ask him to check on his side?
22/04/24, 13:29 - Benedetta Zini: Not anymore
22/04/24, 13:29 - Razvan Voicu: So they move?
22/04/24, 13:30 - Benedetta Zini: no
22/04/24, 13:30 - Benedetta Zini: When I check satus of modules, all seems be okey with gateway
22/04/24, 13:30 - Benedetta Zini: Daniel answers
22/04/24, 13:31 - Benedetta Zini: from WAMAS side everything okay?
22/04/24, 13:34 - Benedetta Zini: AGV are still offline?
22/04/24, 13:35 - Razvan Voicu: hive is back
22/04/24, 13:35 - Adrian Cindea: it works after roccla restart <Questo messaggio è stato modificato>
22/04/24, 13:36 - Benedetta Zini: okay, so hive works
22/04/24, 13:38 - Benedetta Zini: is it seem a communication problem?
22/04/24, 13:38 - Adrian Cindea: it stopped again
22/04/24, 13:38 - Benedetta Zini: whta?
22/04/24, 13:38 - Benedetta Zini: what?
22/04/24, 13:39 - Benedetta Zini: Rocla system looks also fine, I will restore older system configuration.
22/04/24, 13:43 - Adrian Cindea: wait for Rocla right now ...
22/04/24, 13:43 - Benedetta Zini: please contact Daniel directly
22/04/24, 13:44 - Adrian Cindea: we did it
22/04/24, 13:44 - Benedetta Zini: okay
22/04/24, 13:44 - Benedetta Zini: he restored the old configuration

22/04/24, 13:49 - Benedetta Zini: AGVs are still in charging 🤖
22/04/24, 13:50 - Adrian Cindea: AGVs offline is the issue
22/04/24, 13:50 - Benedetta Zini: Hive doesn't see AGV because they are offline?
22/04/24, 14:00 - Benedetta Zini: On Rocla side all are like before (like last week)
22/04/24, 14:00 - Benedetta Zini: There is some communication problems, I recommend to check Hive /wamas side because update have made there as well
22/04/24, 14:01 - Benedetta Zini: Rocla system and modules seems fine. I don't can do more now. Only restarting AGV server in case this situation doesn't going forward
22/04/24, 14:04 - Benedetta Zini: Rocla says that for your side everything è okay
22/04/24, 14:04 - Benedetta Zini: you says that everything is okay
22/04/24, 14:04 - Benedetta Zini: PLC?
22/04/24, 14:05 - Adrian Cindea: we are working to find the issue
22/04/24, 14:10 - Benedetta Zini: do you want to do a rollback?
22/04/24, 14:10 - Adrian Cindea: no help
22/04/24, 14:11 - Adrian Cindea: the port of communication blocked on Rocla side
22/04/24, 14:11 - Adrian Cindea: rollback will not affect the port
22/04/24, 14:11 - Adrian Cindea: hive does not communicate with Rocla
22/04/24, 14:17 - Adrian Cindea: @Company Employee 11 please talk to administrator to activate telnet on server (.37)
22/04/24, 14:17 - Adrian Cindea: AGV server will be restart
22/04/24, 14:19 - Benedetta Zini: client or server telnet?
22/04/24, 14:19 - Adrian Cindea: client
22/04/24, 14:19 - Benedetta Zini: okay
22/04/24, 14:19 - Benedetta Zini: we do it now
22/04/24, 14:24 - Adrian Cindea: no need to activate it
22/04/24, 14:24 - Adrian Cindea: we run another command to check connection
22/04/24, 14:25 - Benedetta Zini: okay, we are doing it anyhow
22/04/24, 14:25 - Benedetta Zini: ?
22/04/24, 14:25 - Adrian Cindea: agv online :)
22/04/24, 14:25 - Adrian Cindea: moving
22/04/24, 14:25 - Razvan Voicu: IMG-20240422-WA0011.jpg (file allegato)
22/04/24, 14:25 - Adrian Cindea: only restart of AFV server
22/04/24, 14:25 - Adrian Cindea: rollback does not release the port
22/04/24, 14:27 - Benedetta Zini: I didn't know it was the port...
22/04/24, 14:34 - Benedetta Zini: do you know what was the root cause?
22/04/24, 14:35 - Adrian Cindea: port issue
22/04/24, 14:35 - Razvan Voicu: AGV server issue. After he restarted, everything worked
22/04/24, 14:35 - Razvan Voicu: IMG-20240422-WA0012.jpg (file allegato)
This connection HIVE -> ROCLA kept crashing
22/04/24, 14:35 - Adrian Cindea: applications communicates on ports and sometimes ports are not usable (talk to you IT, network administrators for details)
22/04/24, 14:36 - Adrian Cindea: and when server is restarted all ports are released
22/04/24, 14:36 - Adrian Cindea: this was the reason of restart or to use another port (change on hive, change on roccla) but we decided to restart
22/04/24, 14:37 - Adrian Cindea: now the issue seems fixed (unfortunately unexpected issues can not be prevent)
22/04/24, 14:37 - Benedetta Zini: okay, strange because he updated the software laste week
22/04/24, 14:37 - Adrian Cindea: or the port is steal by another application ... there is different reasons ... why the port is not avaiabel
22/04/24, 14:37 - Benedetta Zini: and nothing occurred
22/04/24, 14:38 - Adrian Cindea: we are not connected on AGV server to see the usage of port in that moment ...
22/04/24, 14:38 - Adrian Cindea: to see if it is blocked, used by another appliation and so on
22/04/24, 14:39 - Adrian Cindea: sometimes this kind of issues happens and it is solved almost all the time by a restart
22/04/24, 14:39 - Adrian Cindea: or kill the application which use it

22/04/24, 14:39 - Adrian Cindea:

22/04/24, 14:39 - Adrian Cindea: back in business ...
22/04/24, 14:40 - Adrian Cindea: please prepare a stack of DA and one of HA
22/04/24, 14:41 - Benedetta Zini: it was a firewall problem? can you tell me the number of the port?
22/04/24, 14:41 - Adrian Cindea: 50032
22/04/24, 14:41 - Adrian Cindea: it is possible too
22/04/24, 14:42 - Adrian Cindea: it is port on ...
22/04/24, 14:42 - Adrian Cindea: 10.32.0.8:50032
22/04/24, 14:42 - Adrian Cindea: rocle server side
22/04/24, 14:43 - Benedetta Zini: are you using it now?
22/04/24, 14:43 - Benedetta Zini: I'm checking with my IT dept
22/04/24, 14:44 - Adrian Cindea: yes
22/04/24, 14:44 - Adrian Cindea: yes
22/04/24, 14:45 - Adrian Cindea: please talk to operators to prepare stacks for testing got both types and to test replishment for HA too
22/04/24, 14:46 - Benedetta Zini: I have already told him
22/04/24, 14:46 - Adrian Cindea: thx
22/04/24, 14:49 - Razvan Voicu: S46 31 DAH 02
S46 41 DAH 01

The 2 destackers for HA have blocks. I will remove the blocks

22/04/24, 14:49 - Razvan Voicu: if you also confirm, if rocla is ok
22/04/24, 14:50 - Benedetta Zini: for my IT dept it seems that port 50032 is not the "fixed" port... but sometimes wamasapp use another port
22/04/24, 14:50 - Benedetta Zini: no wai because we put manually stacks for testing
22/04/24, 14:51 - Benedetta Zini: we have to remove them
22/04/24, 14:52 - Razvan Voicu: Can I remove them now?
22/04/24, 14:56 - Benedetta Zini: ?
22/04/24, 14:56 - Adrian Cindea: it is configured this port in hive side
22/04/24, 14:57 - Adrian Cindea: i dont know exactly when it is used but checking application logs we saw no connection possible
22/04/24, 15:00 - Razvan Voicu: @Company Employee 11 can you check stacker TEMP0284 S46 33 DAD 02 ?
22/04/24, 15:00 - Razvan Voicu: AGV gives error that it cannot pick up
22/04/24, 15:00 - Razvan Voicu: AGVFC-TT2710:
AGV_DESTACKER_ERROR_SOURCE_NOT_AVAILABLE|
22/04/24, 15:02 - Adrian Cindea: it is important to check WAMAS vs physically stack ... to be blocked until Rocla will check it
22/04/24, 15:02 - Adrian Cindea: we will block a stack of DA ...
22/04/24, 15:03 - Benedetta Zini: yes one min please
22/04/24, 15:06 - Adrian Cindea: please let us know when 1st HA stack is put on conveyor for storage
22/04/24, 15:11 - Benedetta Zini: yes
22/04/24, 15:15 - Razvan Voicu: DA pallet for picking TEMP0289 should be picked by AGV25

AGV25 is in error

22/04/24, 15:15 - Benedetta Zini: IMG-20240422-WA0015.jpg (file allegato)
22/04/24, 15:15 - Benedetta Zini: IMG-20240422-WA0016.jpg (file allegato)
22/04/24, 15:16 - Razvan Voicu: 🤔
22/04/24, 15:17 - Benedetta Zini: mmh
22/04/24, 15:17 - Razvan Voicu: IMG-20240422-WA0017.jpg (file allegato)
low activity in foiling, this AGV blocks infeed
22/04/24, 15:17 - Benedetta Zini: nono don't worry
22/04/24, 15:18 - Benedetta Zini: it is a fake
22/04/24, 15:25 - Adrian Cindea: 52403625 - DA ready to be stored in HBW (waiting for crane)
22/04/24, 15:28 - Benedetta Zini: yes
22/04/24, 15:30 - Benedetta Zini: second stack of DA
22/04/24, 15:31 - Adrian Cindea: it is an issue at crane
22/04/24, 15:34 - Adrian Cindea: dont add moe

22/04/24, 15:34 - Benedetta Zini: okay
 22/04/24, 15:34 - Adrian Cindea: there is an issue on crane ...
 22/04/24, 15:34 - Adrian Cindea: new type is not recognize
 22/04/24, 15:34 - Benedetta Zini: also HA?
 22/04/24, 15:36 - Benedetta Zini: because so far we loaded only DA
 22/04/24, 15:37 - Benedetta Zini: we have already created HA stacks, no issue with mobile terminale
 22/04/24, 15:48 - Benedetta Zini: ??
 22/04/24, 15:53 - Benedetta Zini: Hai eliminato questo messaggio.
 22/04/24, 16:01 - Benedetta Zini: please, let me know what can be tested
 22/04/24, 16:07 - Adrian Cindea: DA/HA is not recognized by PLC of cranes ... we did a change to b stored as D ... and set back as DA
 22/04/24, 16:07 - Adrian Cindea: it is possible to put on infeed a HA pallet and to announce us when it is on conveyor
 22/04/24, 16:07 - Adrian Cindea: to be able to check PLC changes on conveyor
 22/04/24, 16:07 - Adrian Cindea: no others DA/HA stacks ... only one HA
 22/04/24, 16:08 - Benedetta Zini: okay
 22/04/24, 16:10 - Adrian Cindea: 52403798 (DA)- it is on the way tofoiling
 22/04/24, 16:11 - Benedetta Zini: HA on CU 071
 22/04/24, 16:13 - Benedetta Zini: It goes on error
 22/04/24, 16:15 - Benedetta Zini: we are loading it on other CU011
 22/04/24, 16:16 - Razvan Voicu: 52403798 - went through foiling
 22/04/24, 16:17 - Benedetta Zini: it is in error
 22/04/24, 16:18 - Benedetta Zini: 60697887 HA stack in NOK
 22/04/24, 16:18 - Benedetta Zini: for the second time
 22/04/24, 16:19 - Razvan Voicu: can you send us a photo of the LU on the conveyor?
 22/04/24, 16:20 - Razvan Voicu: 52403798
 22/04/24, 16:21 - Razvan Voicu: I blocked the HA/DA destacker, please don't infeed any more HA/DA because it will crash. We need a PLC update for cranes also.
 Cranes can't store HA/DA.
 Let's check now foiling
 22/04/24, 16:21 - Benedetta Zini: Yes one min, I'm at infeed line for stacks 😊 and foiling area is at the end of warehouse
 22/04/24, 16:22 - Razvan Voicu: I know, no problems
 22/04/24, 16:22 - Benedetta Zini: okay okay
 22/04/24, 16:22 - Razvan Voicu: <Media omessi>
 22/04/24, 16:24 - Benedetta Zini: 😊😊
 22/04/24, 16:28 - Benedetta Zini: IMG-20240422-WA0020.jpg (file allegato)
 22/04/24, 16:28 - Benedetta Zini: IMG-20240422-WA0022.jpg (file allegato)
 22/04/24, 16:28 - Benedetta Zini: IMG-20240422-WA0024.jpg (file allegato)
 22/04/24, 16:29 - Razvan Voicu: can you take a picture of 296/297?
 22/04/24, 16:29 - Razvan Voicu: the chain conveyor
 22/04/24, 16:31 - Benedetta Zini: IMG-20240422-WA0025.jpg (file allegato)
 22/04/24, 16:32 - Razvan Voicu: Did you ack the error on 296 for DA?
 22/04/24, 16:32 - Razvan Voicu: Because I see it went through
 22/04/24, 16:32 - Benedetta Zini: the operator did it
 22/04/24, 16:32 - Benedetta Zini: 😊
 22/04/24, 16:33 - Benedetta Zini: for DA there isn't mission on Cway
 22/04/24, 16:33 - Razvan Voicu: he ack the error and push the pallet or?
 22/04/24, 16:34 - Razvan Voicu: IMG-20240422-WA0026.jpg (file allegato)
 22/04/24, 16:34 - Razvan Voicu: probably waiting for agv
 22/04/24, 16:34 - Benedetta Zini: he confirm the error and pallet went on automatic
 22/04/24, 16:34 - Benedetta Zini: yes but forever because no mission on cway from point 1111 <Questo messaggio è stato modificato>
 22/04/24, 16:35 - Benedetta Zini: IMG-20240422-WA0027.jpg (file allegato)
 22/04/24, 16:40 - Razvan Voicu: seems like it, yeah
 22/04/24, 16:40 - Razvan Voicu: I will check
 22/04/24, 16:41 - Benedetta Zini: now there is mission
 22/04/24, 16:44 - Razvan Voicu: do you see anything related to this mission?
 22/04/24, 16:44 - Razvan Voicu: because I see no agv is assigned
 22/04/24, 16:45 - Benedetta Zini: it disapperead

22/04/24, 16:46 - Benedetta Zini: 🤔🤔
22/04/24, 16:47 - Razvan Voicu: can you check if mission is there now?
22/04/24, 16:47 - Benedetta Zini: @Support Technician 12 can we test the pick up of DA from CU120?
22/04/24, 16:48 - Benedetta Zini: it appears
22/04/24, 16:48 - Benedetta Zini: Daniel said that there is an error...
22/04/24, 16:49 - Razvan Voicu: what error
22/04/24, 16:49 - Benedetta Zini: unknown error
22/04/24, 16:50 - Benedetta Zini: VID-20240422-WA0029.mp4 (file allegato)
22/04/24, 16:51 - Benedetta Zini: roccla is checking
22/04/24, 16:51 - Razvan Voicu: At the moment we shouldn't infeed HA/DA or retrieve from HBW HA/DA
22/04/24, 16:51 - Benedetta Zini: kk
22/04/24, 16:51 - Razvan Voicu: Becasue SRM plc does not recognize the new SOC IDs of these 2 new pallets, so SRMs can't pick them up (or if they pick them up, they will do it wrongly and we risk to destroy stuff)
22/04/24, 16:52 - Razvan Voicu: Pickup of DA from 120 was already tested, we sent to destack a slaved pallet which was deslaved from B, B went back to its stacker and DA was picked up
22/04/24, 16:58 - Benedetta Zini: we have to test it with Rocla in order to prevent this issue
22/04/24, 16:59 - Benedetta Zini: Rocla has to optimize the pick up of DA/HA stacks from CU120
22/04/24, 16:59 - Razvan Voicu: Oh, ok
22/04/24, 16:59 - Benedetta Zini: but we can't do it today
22/04/24, 16:59 - Razvan Voicu: if you put pallets there, you can pick them up sure
22/04/24, 16:59 - Razvan Voicu: just make sure da/ha don't touch cranes
22/04/24, 17:00 - Benedetta Zini: so we have to bring it manually to exit conveyors...
22/04/24, 17:05 - Razvan Voicu: yes
22/04/24, 17:06 - Benedetta Zini: kk
22/04/24, 17:06 - Razvan Voicu: So i guess that's it for today
22/04/24, 17:06 - Benedetta Zini: i think yes..... 🤔
22/04/24, 17:07 - Benedetta Zini: any news from PLC side?
22/04/24, 17:07 - Razvan Voicu: Regarding what?
22/04/24, 17:07 - Benedetta Zini: regarding cranes
22/04/24, 17:07 - Razvan Voicu: I don't have any feedback, probably tomorrow
22/04/24, 17:07 - Benedetta Zini: not okay but okay...
22/04/24, 17:08 - Razvan Voicu: I was in touch only with PLC conveyor, he did a change on chain conveyor so DA can go through without error
22/04/24, 17:08 - Razvan Voicu: probably adrian knows about srm
22/04/24, 17:08 - Benedetta Zini: okay... please update me 🙏
22/04/24, 17:09 - Razvan Voicu: And please let us know when Daniel finds something about AGV picking up from CU375
22/04/24, 17:09 - Adrian Cindea: Plc of crane needs to know new pallet types
22/04/24, 17:09 - Benedetta Zini: i get it... and it needs a new deploy
22/04/24, 17:09 - Benedetta Zini: i supposed
22/04/24, 17:09 - Adrian Cindea: Maybe he needs to set new values of ha and da
22/04/24, 17:10 - Adrian Cindea: Ha 303, da 304
22/04/24, 17:10 - Adrian Cindea: Deploy on plc for sure
22/04/24, 17:10 - Benedetta Zini: okay, have you already talk with someone?
22/04/24, 17:11 - Adrian Cindea: I already inform Danielle about this new issue
22/04/24, 17:11 - Benedetta Zini: kk
22/04/24, 17:15 - Benedetta Zini: @Support Technician 21 could you please create TPO for 52403798?
22/04/24, 17:15 - Benedetta Zini: i can't do it
22/04/24, 17:15 - Razvan Voicu: ok. towards where?
22/04/24, 17:15 - Benedetta Zini: IMG-20240422-WA0030.jpg (file allegato)
22/04/24, 17:16 - Benedetta Zini: I want to have it in cway
22/04/24, 17:16 - Benedetta Zini: Rocla deleted it and it wants to have it again on cway
22/04/24, 17:16 - Benedetta Zini: i did reset and refresh but without success
22/04/24, 17:19 - Razvan Voicu:

AgvOrder[52403798,requestId=13358166,state=TO_DELETE_ACTIVE,amReqId=64879,reserve=RELEASED]

22/04/24, 17:19 - Razvan Voicu: oh wait
22/04/24, 17:20 - Razvan Voicu: Ok
22/04/24, 17:20 - Razvan Voicu: I think now it is active
22/04/24, 17:20 - Benedetta Zini: no...
22/04/24, 17:22 - Razvan Voicu: Now?
22/04/24, 17:23 - Benedetta Zini: yessssssssss
22/04/24, 17:23 - Razvan Voicu: Great
22/04/24, 17:23 - Razvan Voicu: Ok then, we'll test more tomorrow
22/04/24, 17:23 - Razvan Voicu: Thanks and have a nice day
23/04/24, 09:03 - Benedetta Zini: Hello! We need to test stacks with Rocla... what can we do?
23/04/24, 09:04 - Benedetta Zini: Rocla have to test pick up of stacks from CU120 and all the AGVs flow
23/04/24, 09:05 - Benedetta Zini: in order to find some issues (like Yesterday at CU375)
23/04/24, 09:05 - Benedetta Zini: roccla needs to test both HA and DA
23/04/24, 09:05 - Adrian Cindea: hello
23/04/24, 09:05 - Adrian Cindea: we need to find a way to do it ... because HBW1 can not be used so far ...
23/04/24, 09:06 - Benedetta Zini: but we can pick up stacks inside HBW1 manually
23/04/24, 09:06 - Benedetta Zini: we need to introduce HA inside HBW1
23/04/24, 09:07 - Benedetta Zini: by doing so we can't test replenishment, but we can test other things
23/04/24, 09:08 - Adrian Cindea: our idea is to force a TPO from IP to destackers
23/04/24, 09:09 - Adrian Cindea: 1. Clean DA destackers on Rocla side and clean on WAMAS side
23/04/24, 09:09 - Benedetta Zini: it would have been my plan B
23/04/24, 09:09 - Benedetta Zini: 😊
23/04/24, 09:09 - Adrian Cindea: 2. prepare a stack of DA and let us know to cancel its tpo to HBW1 and create directly to destacker
23/04/24, 09:10 - Adrian Cindea: HA can not be introduced in HBW1
23/04/24, 09:10 - Adrian Cindea: becuae it can generate issue related to storage due to its type
23/04/24, 09:10 - Benedetta Zini: we need to find a way to test HA
23/04/24, 09:10 - Benedetta Zini: what issue?
23/04/24, 09:10 - Adrian Cindea: when PLC will be adjusted ...
23/04/24, 09:11 - Adrian Cindea: fork of crane has to be able to manage it properly and to put in rack in proper position
23/04/24, 09:11 - Adrian Cindea: after PLC will give us green light we will do it ... until than no infeed in HBW
23/04/24, 09:11 - Benedetta Zini: but can we send HA directly to destack locations?
23/04/24, 09:11 - Adrian Cindea: 1220 x 1220 is different by existing type
23/04/24, 09:11 - Adrian Cindea: this is our idea ...
23/04/24, 09:11 - Adrian Cindea: but 1st to test with a DA stack
23/04/24, 09:12 - Adrian Cindea:

23/04/24, 09:12 - Benedetta Zini: ooooooooook
23/04/24, 09:12 - Adrian Cindea: 1. clean DA destackers
23/04/24, 09:13 - Adrian Cindea: remove physically + remove stock from wamas + sync Rocla side
23/04/24, 09:13 - Adrian Cindea: please make 1st step remove stacks from each destacker
23/04/24, 09:13 - Adrian Cindea: later on we will do it on wamas side and announce Daniel to check on Rocla side ...
23/04/24, 09:15 - Benedetta Zini: okay but first
23/04/24, 09:15 - Benedetta Zini: IMG-20240423-WA0000.jpg (file allegato)
PROBLEM!
23/04/24, 09:16 - Benedetta Zini: 1. DA stack is deactivate
2. why only DA? it should have also D!
23/04/24, 09:16 - Benedetta Zini: IMG-20240423-WA0001.jpg (file allegato)

23/04/24, 09:17 - Adrian Cindea: let us try HA firstly
 23/04/24, 09:17 - Adrian Cindea: meanwhile we will test DA in foiling area (some changes were done)
 23/04/24, 09:18 - Adrian Cindea: please provide us a barcode B for a HA stack
 23/04/24, 09:18 - Adrian Cindea: to try to send it directly to one HA destacker
 23/04/24, 09:18 - Adrian Cindea: and later on to put on infeed conveyor
 23/04/24, 09:19 - Benedetta Zini: yes, but first check what is happening at pick station #6 because wamas creates an empty LU request with only DA instead of D because DA stacks are blocked!
 23/04/24, 09:23 - Adrian Cindea: we will unblock a DA Destacker to check DA in foiling area too
 23/04/24, 09:23 - Adrian Cindea: now an DA empty will come to station
 23/04/24, 09:23 - Adrian Cindea: and later we will hceck why D is missing from empty LU request
 23/04/24, 09:24 - Adrian Cindea: please provide us HA stack barcode
 23/04/24, 09:25 - Benedetta Zini: okay, but as you can see it wasn't active so why wamas create an empty request for a DA? check also this case because Yesterday night it happened and block pick station for hours
 23/04/24, 09:25 - Adrian Cindea: TEMP1846 DA is assigned for station
 23/04/24, 09:26 - Adrian Cindea: we will change configuration to be D-D in MD500
 23/04/24, 09:27 - Adrian Cindea: IMG-20240423-WA0002.jpg (file allegato)
 23/04/24, 09:27 - Adrian Cindea: no picking on DA after configuration was changed
 23/04/24, 09:29 - Benedetta Zini: why did you change it? 😞 it doesn't work the parameter in FW028?
 23/04/24, 09:29 - Adrian Cindea: to not block picking
 23/04/24, 09:29 - Adrian Cindea: we have a DA now to test picking - foiling - s46
 23/04/24, 09:30 - Adrian Cindea: we need to understand why D is missing from empty LU request
 23/04/24, 09:30 - Benedetta Zini: but for not blocking pick station we add a true/false parameter in FW028 in order to switch on or switch off DA stack
 23/04/24, 09:30 - Adrian Cindea: no D .. DA is not possible
 23/04/24, 09:31 - Adrian Cindea: it is needed in empty request to be both LAs DA and D
 23/04/24, 09:31 - Adrian Cindea: with only DA blocking feature = blok the station
 23/04/24, 09:31 - Adrian Cindea: in case there are both DA, D ... in that case blocking will force to send D to station
 23/04/24, 09:34 - Benedetta Zini: And it is right
 23/04/24, 09:34 - Benedetta Zini: But my doubt is also another
 23/04/24, 09:35 - Adrian Cindea: 52403800 DA is ready for picking at HBW06
 23/04/24, 09:35 - Benedetta Zini: Why did wamas try to send a DA pallet to a pick station even if it was block the possibility to send it in FW028?
 23/04/24, 09:35 - Adrian Cindea: becuase it was never implemented in this way
 23/04/24, 09:36 - Adrian Cindea: WAMAS decides LA types for picking and excluded based on FW028
 23/04/24, 09:36 - Adrian Cindea: empty LU request is createa based on MD500
 23/04/24, 09:37 - Adrian Cindea: and later on decides from LA types absed on FW028 what empty type to be sent at station
 23/04/24, 09:37 - Adrian Cindea:

 23/04/24, 09:38 - Adrian Cindea: stack to be prepared please
 23/04/24, 09:40 - Adrian Cindea: 52403800 is a DA on ATX-4 for foiling and S46
 23/04/24, 09:40 - Adrian Cindea: we tested DA destacker - picking - so far
 23/04/24, 09:42 - Adrian Cindea: 52403800 is in foiling 1
 23/04/24, 09:44 - Benedetta Zini: @Company Employee 9 is checking DA shipping LU
 23/04/24, 09:44 - Benedetta Zini: I'm going to prepare stack
 23/04/24, 09:47 - Chiara Lodesani, Lavoro: No errors at foiling checks
 23/04/24, 09:47 - Adrian Cindea: TT08PC0401
 23/04/24, 09:47 - Adrian Cindea: it is going out ...
 23/04/24, 09:47 - Adrian Cindea: CU375
 23/04/24, 09:47 - Chiara Lodesani, Lavoro: yes
 23/04/24, 09:49 - Adrian Cindea: line is full ... itwill take time

23/04/24, 09:49 - Adrian Cindea: please prepare HA stack
23/04/24, 09:49 - Adrian Cindea: and provide us the barcode to generate proper tpo
23/04/24, 09:50 - Chiara Lodesani, Lavoro: yes.. but I have changed the priority to speed up the exit <Questo messaggio è stato modificato>
23/04/24, 09:57 - Benedetta Zini: LU 70350020 HA stack
23/04/24, 09:57 - Benedetta Zini: it is on MUL-37
23/04/24, 09:57 - Benedetta Zini: let me know if we can deposit on IP
23/04/24, 09:59 - Benedetta Zini: IMG-20240423-WA0004.jpg (file allegato)
23/04/24, 10:00 - Benedetta Zini: @Support Technician 12
23/04/24, 10:01 - Benedetta Zini: now it is in S04 MAV
23/04/24, 10:04 - Razvan Voicu: checking now
23/04/24, 10:05 - Razvan Voicu: Ok, try to infeed it please
23/04/24, 10:05 - Razvan Voicu: I created TPO straight to destacker
23/04/24, 10:06 - Benedetta Zini: okay
23/04/24, 10:06 - Benedetta Zini: 1 min because i have to wait forklift driver
23/04/24, 10:11 - Razvan Voicu: Countour error left/right
23/04/24, 10:11 - Razvan Voicu: we check
23/04/24, 10:11 - Benedetta Zini: IMG-20240423-WA0005.jpg (file allegato)
23/04/24, 10:12 - Benedetta Zini: phisically okay
23/04/24, 10:18 - Razvan Voicu: can you infeed it again?
23/04/24, 10:18 - Razvan Voicu: at CU001 <Questo messaggio è stato modificato>
23/04/24, 10:19 - Razvan Voicu: PLC will stop the pallet at contour check
23/04/24, 10:20 - Benedetta Zini: okok
23/04/24, 10:21 - Benedetta Zini: tpo please
23/04/24, 10:22 - Razvan Voicu: done
23/04/24, 10:23 - Benedetta Zini: loaded
23/04/24, 10:24 - Benedetta Zini: nok
23/04/24, 10:26 - Razvan Voicu: I will add Oriol Marti here, so he can communicate easier
23/04/24, 10:27 - Benedetta Zini: okay
23/04/24, 10:27 - Razvan Voicu ha aggiunto ~ Oriol SSI.
23/04/24, 10:28 - Chiara Lodesani, Lavoro: DA 52403800 is on the shelf
23/04/24, 10:28 - Razvan Voicu: Hi Oriol. Please talk with @Company Employee 11
23/04/24, 10:28 - Support Technician 1 14: hello!
23/04/24, 10:28 - Benedetta Zini: HI!
23/04/24, 10:28 - Support Technician 1 14: can you please put again the HA pallet on FP001?
23/04/24, 10:28 - Benedetta Zini: yes
23/04/24, 10:29 - Support Technician 1 14: I will block the pallet at the contour check. don't worry for that
23/04/24, 10:31 - Benedetta Zini: okok
23/04/24, 10:31 - Benedetta Zini: it is on conveyor <Questo messaggio è stato modificato>
23/04/24, 10:33 - Support Technician 1 14: thank you
23/04/24, 10:33 - Support Technician 1 14: i'm checking the code
23/04/24, 10:37 - Support Technician 1 14: I'm going to release the pallet. it will go to NOK
23/04/24, 10:37 - Benedetta Zini: okay
23/04/24, 10:37 - Razvan Voicu: S46 41 DAH 01
this is the stacker location
23/04/24, 10:37 - Adrian Cindea: i will check DB
23/04/24, 10:41 - Support Technician 1 14: bendetta can you put again the pallet at FP001 please?
23/04/24, 10:44 - Benedetta Zini: yes
23/04/24, 10:45 - Benedetta Zini: tpo please
23/04/24, 10:45 - Support Technician 1 14: the HA pallet I mean
23/04/24, 10:46 - Benedetta Zini: yes
23/04/24, 10:47 - Benedetta Zini: @Support Technician 21 tpo for stack
23/04/24, 10:47 - Support Technician 1 14: I see a D type at contour check
23/04/24, 10:47 - Razvan Voicu: Can you please create here?
23/04/24, 10:47 - Support Technician 1 14: is this true?
23/04/24, 10:48 - Benedetta Zini: yes release it please
23/04/24, 10:48 - Support Technician 1 14: DONE

23/04/24, 10:48 - Adrian Cindea: it is not on conveyor yet
23/04/24, 10:50 - Benedetta Zini: it is on CU011
23/04/24, 10:58 - Support Technician 1 14: i need another try...
23/04/24, 10:59 - Benedetta Zini: it works for this stack
23/04/24, 10:59 - Support Technician 1 14: really??
23/04/24, 11:00 - Support Technician 1 14: i was seeing right and left and rear errors....
23/04/24, 11:00 - Benedetta Zini: IMG-20240423-WA0007.jpg (file allegato)
23/04/24, 11:00 - Benedetta Zini: no....
23/04/24, 11:00 - Support Technician 1 14: ok maybe was because I was holding the pallet.
23/04/24, 11:00 - Support Technician 1 14: can we try with another HA?
23/04/24, 11:01 - Benedetta Zini: not now because I have to check this stack
23/04/24, 11:02 - Support Technician 1 14: ok, let me know when we can try again please
23/04/24, 11:02 - Benedetta Zini: yes
23/04/24, 11:02 - Support Technician 1 14: thank you
23/04/24, 11:04 - Benedetta Zini: @Support Technician 2 my colleague Chiara is arriving to help you with another HA stack
23/04/24, 11:04 - Support Technician 1 14: great!
23/04/24, 11:05 - Benedetta Zini: @Support Technician 21 we have the stack at cu120
23/04/24, 11:07 - Adrian Cindea: it is split right now
23/04/24, 11:09 - Benedetta Zini: inside DAH 01
23/04/24, 11:11 - Benedetta Zini: can we test it with roccla at pick station, then foiling, then S46? <Questo messaggio è stato modificato>
23/04/24, 11:12 - Adrian Cindea: yes it is possible
23/04/24, 11:12 - Adrian Cindea: but please a new stak to for to second destacker
23/04/24, 11:12 - Adrian Cindea: it is needed changes in MD500
23/04/24, 11:13 - Adrian Cindea: what to be 1st ... new stack or pickign .. or both?
23/04/24, 11:13 - Chiara Lodesani, Lavoro: I'm ready with stack HA 51923264
23/04/24, 11:14 - Support Technician 1 14: ok. please put it at FP001
23/04/24, 11:14 - Adrian Cindea: no
23/04/24, 11:14 - Adrian Cindea: wait to force tpo to destacker
23/04/24, 11:14 - Razvan Voicu: It has TPO to destacker DAH
23/04/24, 11:14 - Adrian Cindea: k
23/04/24, 11:14 - Chiara Lodesani, Lavoro: yes, i did it
23/04/24, 11:14 - Adrian Cindea: so please put it on infeed
23/04/24, 11:15 - Benedetta Zini: First HA (if weight is under 700 kg) then H... only H for pick with weight up to 700kg
23/04/24, 11:16 - Support Technician 1 14: wait this was a H pallet not an HA right?
23/04/24, 11:16 - Adrian Cindea: it is a forklift
23/04/24, 11:16 - Adrian Cindea: soon it iwll be on IP
23/04/24, 11:17 - Chiara Lodesani, Lavoro: done
23/04/24, 11:17 - Adrian Cindea: IMG-20240423-WA0011.jpg (file allegato)
23/04/24, 11:18 - Benedetta Zini: let's see
23/04/24, 11:19 - Chiara Lodesani, Lavoro: 51923264 is in NOK
23/04/24, 11:20 - Support Technician 1 14: yes I see. please leave it on the floor I need to check some stuff
23/04/24, 11:20 - Chiara Lodesani, Lavoro: ok
23/04/24, 11:20 - Support Technician 1 14: i tell you when i'm ready for a new try
23/04/24, 11:20 - Support Technician 1 14: grazie
23/04/24, 11:20 - Chiara Lodesani, Lavoro: ok
23/04/24, 11:20 - Benedetta Zini: @Support Technician 12 can we activate parameter in FW028 for HA?
23/04/24, 11:20 - Benedetta Zini: IMG-20240423-WA0012.jpg (file allegato)
23/04/24, 11:22 - Adrian Cindea: yes
23/04/24, 11:23 - Benedetta Zini: i did it
23/04/24, 11:23 - Benedetta Zini: let's wait on OG525
23/04/24, 11:25 - Benedetta Zini: have we do anything else?

23/04/24, 11:26 - Razvan Voicu: no
 23/04/24, 11:26 - Razvan Voicu: You want to test HA with real picking?
 23/04/24, 11:26 - Benedetta Zini: yes
 23/04/24, 11:26 - Razvan Voicu: I would say we do it like DA, with fake station first
 23/04/24, 11:26 - Adrian Cindea: for movement only it is possible as we tested friday
 23/04/24, 11:27 - Razvan Voicu: We create manually request to see if AGV picks up or not
 23/04/24, 11:27 - Benedetta Zini: I haven't a pick station for test...
 23/04/24, 11:32 - Benedetta Zini: we will have it from 12:40 italian time
 23/04/24, 11:32 - Benedetta Zini: is it okay for you?
 23/04/24, 11:33 - Support Technician 1 14: @Company Employee 9 can we try again?
 23/04/24, 11:33 - Razvan Voicu: We created in MD500 record for HA
 23/04/24, 11:33 - Chiara Lodesani, Lavoro: yes
 23/04/24, 11:33 - Razvan Voicu: so if we have an H to pick from, HA should be chosen
 23/04/24, 11:33 - Benedetta Zini: if weight is <= 700kg?
 23/04/24, 11:34 - Razvan Voicu: yes
 23/04/24, 11:34 - Benedetta Zini: kk
 23/04/24, 11:35 - Chiara Lodesani, Lavoro: @Support Technician 2 can we put it on conveyor?
 23/04/24, 11:36 - Support Technician 1 14: yes please
 23/04/24, 11:37 - Chiara Lodesani, Lavoro: done
 23/04/24, 11:37 - Support Technician 1 14: great
 23/04/24, 11:38 - Support Technician 1 14: it worked
 23/04/24, 11:38 - Support Technician 1 14: can you confirm is free of errors?
 23/04/24, 11:38 - Chiara Lodesani, Lavoro: yes
 23/04/24, 11:38 - Chiara Lodesani, Lavoro: no errors
 23/04/24, 11:38 - Support Technician 1 14: nice!
 23/04/24, 11:38 - Benedetta Zini: @Support Technician 21 @Support Technician 12 battle plan for this afternoon from 12:40 :
 1. start test HA as we did with DA last Friday
 2. if everything goes well start using at picking station --> foiling --> s46
 3. put on infeed DA stacks directly towards DAD 01 and DAD 02 because Rocla has to check pick up at CU120
 4. if everything okay start using at pick station --> foiling --> s46
 5. after these tests, switch off DA and HA stacks and start again Tomorrow

 how is it sound?
 23/04/24, 11:39 - Razvan Voicu: Fine by me
 23/04/24, 11:40 - Benedetta Zini: Okay good, i switch parameter in FW028 for da and ha
 23/04/24, 11:41 - Benedetta Zini: Let's see at 12:40 italian time, ok?
 23/04/24, 11:41 - Benedetta Zini: @Support Technician 2 did you find the issue?
 23/04/24, 11:43 - Support Technician 1 14: yes
 23/04/24, 11:44 - Support Technician 1 14: now we are checking if this change can affect something else. But looks good for the moment
 23/04/24, 11:51 - Adrian Cindea: it is not good idea for DA
 23/04/24, 11:51 - Adrian Cindea: DA is in HBW01 and it is possible to fcrash again PLC of crane
 23/04/24, 11:51 - Adrian Cindea: HA is not in HBW1
 23/04/24, 11:52 - Adrian Cindea: IMG-20240423-WA0013.jpg (file allegato)
 23/04/24, 11:52 - Adrian Cindea: DA is false ... keep it false for the moment
 23/04/24, 12:19 - Benedetta Zini: I put it in false... before it was true 😞
 23/04/24, 12:48 - Benedetta Zini: Is WAMAS team ready to start test of HA pallet?
 23/04/24, 12:49 - Razvan Voicu: Here 🙋
 23/04/24, 12:49 - Benedetta Zini: great! give me 5 min to reach station #3
 23/04/24, 12:57 - Razvan Voicu: IMG-20240423-WA0015.jpg (file allegato)
 we have an empty for HA
 23/04/24, 12:58 - Razvan Voicu: but HA doesnt come because HADestack.active is false
 23/04/24, 12:59 - Benedetta Zini: so it will arrive an H?

23/04/24, 12:59 - Adrian Cindea: we need to make a new HA infeed test directly to HA destacker
23/04/24, 12:59 - Benedetta Zini: I'm ready
23/04/24, 12:59 - Benedetta Zini: at pick station #3
23/04/24, 12:59 - Benedetta Zini: now?
23/04/24, 13:00 - Adrian Cindea: asap
23/04/24, 13:00 - Benedetta Zini: can we do later?
23/04/24, 13:00 - Adrian Cindea: remove a stack from destatackrr and send directly
23/04/24, 13:00 - Adrian Cindea: asap ... i said
23/04/24, 13:00 - Benedetta Zini: after HA test from destack to pick?
23/04/24, 13:00 - Benedetta Zini: ok
23/04/24, 13:00 - Benedetta Zini: where?
23/04/24, 13:00 - Benedetta Zini: DAH 01?
23/04/24, 13:01 - Adrian Cindea: one of them does not matter for us
23/04/24, 13:01 - Adrian Cindea: just to check last configuratiion HA at infeed point SLF01C0011/SLF01C0071
23/04/24, 13:01 - Adrian Cindea: keep one destacker for picking and one for testing a new stack of HA
23/04/24, 13:02 - Benedetta Zini: OKOK
23/04/24, 13:03 - Benedetta Zini: I'm going to remove stack from DAH 02
23/04/24, 13:03 - Adrian Cindea: th
23/04/24, 13:04 - Adrian Cindea: meanwhile i will check how to force HA for picking
23/04/24, 13:04 - Benedetta Zini: KK
23/04/24, 13:08 - Razvan Voicu: probably, but at the moment station 7 is full. Lets wait and see
23/04/24, 13:09 - Benedetta Zini: okok
23/04/24, 13:11 - Benedetta Zini: 60697887 on CU011
23/04/24, 13:14 - Support Technician 1 14: good
23/04/24, 13:14 - Benedetta Zini: okay
23/04/24, 13:14 - Benedetta Zini: it worked
23/04/24, 13:17 - Adrian Cindea: we deleted H from empty request with HA and H
23/04/24, 13:17 - Adrian Cindea: 4374024 on MFS side
23/04/24, 13:18 - Adrian Cindea: it means after picking is done at station BP07
23/04/24, 13:18 - Adrian Cindea: we cna test HA in F02
23/04/24, 13:19 - Adrian Cindea: it is 3rd picking order
23/04/24, 13:19 - Adrian Cindea: 4373960 has sources and destination in place ... please talk to operator to do pikcing
23/04/24, 13:20 - Support Technician 1 14: can we know to which foiling machine will go HA pallet?
23/04/24, 13:20 - Adrian Cindea: next PO 4374004 has spurce in station and epty lu assined
23/04/24, 13:21 - Benedetta Zini: pick #3 is ready for test
23/04/24, 13:21 - Adrian Cindea: after picking is done .. one of them based on availability space
23/04/24, 13:22 - Adrian Cindea: but please pick at HBW07 to test real picking on HA
23/04/24, 13:22 - Adrian Cindea: Razvan will generate MFS empty LU request for station 3
23/04/24, 13:22 - Razvan Voicu: But station 3 already has D01/D02 occupied
23/04/24, 13:23 - Benedetta Zini: This test will get me crazy....
23/04/24, 13:24 - Benedetta Zini: EMPTY :)
23/04/24, 13:24 - Benedetta Zini: now I'm going at pick 7
23/04/24, 13:27 - Adrian Cindea: @Company Employee 11 - you will become expert of system with some many tests and issues
23/04/24, 13:27 - Benedetta Zini: yessss
23/04/24, 13:28 - Benedetta Zini: than you can hire me :)
23/04/24, 13:28 - Razvan Voicu: IMG-20240423-WA0016.jpg (file allegato)
23/04/24, 13:29 - Benedetta Zini: good
23/04/24, 13:29 - Benedetta Zini: do you start with DAH 02?
23/04/24, 13:29 - Razvan Voicu: DAH01 has block
23/04/24, 13:31 - Adrian Cindea: picking started at HBW07 ... expert pressure :)
23/04/24, 13:32 - Benedetta Zini: IMG-20240423-WA0018.jpg (file allegato)

23/04/24, 13:32 - Benedetta Zini: I'm looking Him👀
23/04/24, 13:33 - Razvan Voicu: 52403284
60785241

B_HA arrived at SRM. I will edit it to H and store it and then switch back to HA, but try to not infeed HAS

23/04/24, 13:34 - Adrian Cindea: no
23/04/24, 13:34 - Benedetta Zini: 😡😡😡 I told operator to not infeed stack!
23/04/24, 13:36 - Benedetta Zini: TEMP2048 at pick station 7 is an H
23/04/24, 13:36 - Adrian Cindea: requeues HA
23/04/24, 13:36 - Razvan Voicu: Actually I canceled it. Please transfer it manually
23/04/24, 13:36 - Adrian Cindea: it is possible to cancel it and to request specific
23/04/24, 13:36 - Razvan Voicu: 60785241 is onTPSF01C1941. Take it out manually
23/04/24, 13:38 - Razvan Voicu: 52427723
60719871

These are also 2 B_HA_ from S02 MAV to HBW. I canceled TP0, so we don't infeed by mistake

23/04/24, 13:39 - Benedetta Zini: Okay thanks
23/04/24, 13:39 - Benedetta Zini: we are going to take out manually
23/04/24, 13:40 - Adrian Cindea: can be replaced TEMP2048 with a HA physically ...
23/04/24, 13:40 - Adrian Cindea: and i will change in database to be HA
23/04/24, 13:40 - Benedetta Zini: Only physically?
23/04/24, 13:41 - Adrian Cindea: database by me
23/04/24, 13:41 - Benedetta Zini: okay
23/04/24, 13:41 - Adrian Cindea: to be as a HA at station
23/04/24, 13:41 - Adrian Cindea: to check foiling area for a real HA
23/04/24, 13:41 - Adrian Cindea: don't scan it yet ... replace physically and i will do right now in database
23/04/24, 13:42 - Benedetta Zini: yes now i get it
23/04/24, 13:42 - Benedetta Zini: let me change LA
23/04/24, 13:43 - Adrian Cindea: i did it ... it is HA
23/04/24, 13:45 - Razvan Voicu: Is there a problem at HA destacker?
23/04/24, 13:45 - Razvan Voicu: S46 31 DAH 02
23/04/24, 13:46 - Razvan Voicu: IMG-20240423-WA0019.jpg (file allegato)
AGV1 waits here for 5mins+
23/04/24, 13:46 - Benedetta Zini: Rocla is checking ATX01
23/04/24, 13:46 - Benedetta Zini: also physically
23/04/24, 13:48 - Adrian Cindea: it is possible to scan it?
23/04/24, 13:48 - Benedetta Zini: now
23/04/24, 13:49 - Benedetta Zini: @Support Technician 21 there is a problem with HA stack from Rocla side
23/04/24, 13:49 - Benedetta Zini: he is checking
23/04/24, 13:49 - Benedetta Zini: i will let you know
23/04/24, 13:49 - Razvan Voicu: ok
23/04/24, 13:54 - Benedetta Zini: Operator is doing the picking
23/04/24, 14:00 - Adrian Cindea: 52403295 parking :) S46
23/04/24, 14:00 - Adrian Cindea: foiling is busy
23/04/24, 14:03 - Benedetta Zini: foiling is empty.....
23/04/24, 14:03 - Benedetta Zini: but we are updating AGV
23/04/24, 14:04 - Adrian Cindea: foiling issue
23/04/24, 14:04 - Adrian Cindea: :)
23/04/24, 14:04 - Benedetta Zini: for HA?
23/04/24, 14:04 - Adrian Cindea: i will set HA for foiling
23/04/24, 14:04 - Adrian Cindea: :)
23/04/24, 14:05 - Adrian Cindea: right now ...
23/04/24, 14:05 - Benedetta Zini: okay
23/04/24, 14:05 - Benedetta Zini: change tpo
23/04/24, 14:05 - Adrian Cindea: IMG-20240423-WA0020.jpg (file allegato)
23/04/24, 14:05 - Benedetta Zini: 😊😊
23/04/24, 14:06 - Benedetta Zini: we have a lot of parameters
23/04/24, 14:06 - Benedetta Zini: Hai eliminato questo messaggio.

23/04/24, 14:09 - Benedetta Zini: we updated AGVs
23/04/24, 14:10 - Benedetta Zini: atx 3 is going to bring HA
23/04/24, 14:10 - Benedetta Zini: 52403295
23/04/24, 14:11 - Razvan Voicu: ok
23/04/24, 14:15 - Benedetta Zini: atx 15 is going to pick up HA from DAH 02
23/04/24, 14:16 - Benedetta Zini: IMG-20240423-WA0022.jpg (file allegato)
23/04/24, 14:20 - Benedetta Zini: speed up with testing HA on pick station #3
23/04/24, 14:20 - Benedetta Zini: because Operation manager needs it
23/04/24, 14:23 - Razvan Voicu: You have to clean station 3
23/04/24, 14:24 - Razvan Voicu: Remove it physically
23/04/24, 14:24 - Benedetta Zini: yes
23/04/24, 14:24 - Razvan Voicu: And book it on lost_and_found
23/04/24, 14:24 - Benedetta Zini: i cancel it
23/04/24, 14:24 - Benedetta Zini: pick #3 is empty
23/04/24, 14:25 - Benedetta Zini: go go go 🚗
23/04/24, 14:26 - Razvan Voicu: IMG-20240423-WA0023.jpg (file allegato)
23/04/24, 14:29 - Adrian Cindea: 52403295 is in foil2
23/04/24, 14:29 - Adrian Cindea: it is a HA pallet
23/04/24, 14:29 - Razvan Voicu: let's see chain conveyor
23/04/24, 14:29 - Razvan Voicu: if it gives error, tell operator to not ACK it
23/04/24, 14:29 - Razvan Voicu: so @Support Technician 2 can check it
23/04/24, 14:30 - Adrian Cindea: please check pallet related to foling (program 5 was used)
23/04/24, 14:31 - Benedetta Zini: IMG-20240423-WA0025.jpg (file allegato)
23/04/24, 14:31 - Benedetta Zini: IMG-20240423-WA0027.jpg (file allegato)
23/04/24, 14:32 - Chiara Lodesani, Lavoro: TEMP2266 arrived at pick 3
23/04/24, 14:33 - Adrian Cindea: it is going to AGV on 1st line
23/04/24, 14:33 - Chiara Lodesani, Lavoro: can I calcel it?
23/04/24, 14:33 - Adrian Cindea: yes
23/04/24, 14:33 - Adrian Cindea: at station 3 .. cancel to make spae for othrs
23/04/24, 14:33 - Adrian Cindea: remove and delete
23/04/24, 14:34 - Benedetta Zini: @Support Technician 2 it worked but not correctly
23/04/24, 14:35 - Support Technician 1 14: what is the issue?
23/04/24, 14:46 - Chiara Lodesani, Lavoro: I have no more TPO for station 3
23/04/24, 14:48 - Razvan Voicu: checking
23/04/24, 14:50 - Support Technician 1 14: @Company Employee 11 I made a change, can we try again?
23/04/24, 14:54 - Razvan Voicu: coming
23/04/24, 14:55 - Chiara Lodesani, Lavoro: I saw
23/04/24, 15:10 - Chiara Lodesani, Lavoro: I think we have finished the stack of HA
23/04/24, 15:10 - Razvan Voicu: Great
23/04/24, 15:11 - Razvan Voicu: let's take from the other one
23/04/24, 15:11 - Benedetta Zini: @Support Technician 21 can you force tpo from *375?
23/04/24, 15:11 - Razvan Voicu: does rocla have error?
23/04/24, 15:11 - Benedetta Zini: I did it!
23/04/24, 15:12 - Benedetta Zini: during the pick up, and we want to try again
23/04/24, 15:13 - Chiara Lodesani, Lavoro: will you create new TPOs?
23/04/24, 15:13 - Razvan Voicu: no, waiting for wamas to do it
23/04/24, 15:13 - Benedetta Zini: in automatic? of for pick #3?
23/04/24, 15:15 - Razvan Voicu: for pick3
23/04/24, 15:16 - Razvan Voicu: i am checking now why it doesnt
23/04/24, 15:19 - Benedetta Zini: is it blocked?
23/04/24, 15:19 - Razvan Voicu: no
23/04/24, 15:21 - Benedetta Zini: can I send another HA stack inside DAH 02?
23/04/24, 15:22 - Razvan Voicu: I would say wait until we get the other destacker going
23/04/24, 15:23 - Benedetta Zini: @Support Technician 21 in the meantime I saw an issue... AGV deposited HA pallet inside ATLAS_AGV_M/L_1700 * instead of ATLAS_AGV_M/L_1300 * first
23/04/24, 15:24 - Adrian Cindea: please let us know a pallet to be checked ... maybe it depends on dimensions

23/04/24, 15:24 - Benedetta Zini: 52403295
23/04/24, 15:25 - Razvan Voicu: ah, found it
23/04/24, 15:25 - Razvan Voicu: TEMP2398 from destacker #2
23/04/24, 15:41 - Razvan Voicu: Ok, we will check this
23/04/24, 15:43 - Razvan Voicu: You can fill the destacker#2 now if you want
23/04/24, 15:43 - Razvan Voicu: or #1, the other destacker 😊
23/04/24, 15:50 - Benedetta Zini: Okay, I will provide an HA stack
23/04/24, 15:55 - Razvan Voicu: Ok, then I guess that's it for today
23/04/24, 15:55 - Adrian Cindea: we tested all flows ... excepting storage in HBW1
23/04/24, 15:56 - Adrian Cindea: DA is not configured for picking
23/04/24, 15:56 - Adrian Cindea: DA is not active for destacker
23/04/24, 15:56 - Razvan Voicu: Open point on our side would be this storage of pallets in M/L_1300 locations first, then M/L_1700.
23/04/24, 15:56 - Adrian Cindea: Storage for DA/HA is not possible ... so automatic replenishment is not possible ...
23/04/24, 15:57 - Adrian Cindea: removing DA stacks from HBW1 ... it will be possible manual replenishment as we did today from infed to empty destacker
23/04/24, 15:57 - Benedetta Zini: Can we test DA/HA at picking?
23/04/24, 15:57 - Benedetta Zini: Tomorrow
23/04/24, 15:57 - Adrian Cindea: it works
23/04/24, 15:57 - Adrian Cindea: we tested DA and HA
23/04/24, 15:58 - Adrian Cindea: there are DA/HA shipment LUS
23/04/24, 15:58 - Benedetta Zini: Yes but 3 😊
23/04/24, 15:58 - Adrian Cindea: DA can be used for picking only after DA stacks are removed from HBW1
23/04/24, 15:58 - Benedetta Zini: Oh okay
23/04/24, 15:58 - Adrian Cindea: because retrieval of stack will block the execution (unknown type).
23/04/24, 15:59 - Adrian Cindea: it can be retrieved as D or manually ... or we can try tomorrow directly as DA (faking later as D in case it is not working).
23/04/24, 16:00 - Adrian Cindea: no DA/HA stacks in HBW -> picking will work with manual replenishment at destackers directly from S02 MAV - IP - wunderwuzzi ...
23/04/24, 16:00 - Benedetta Zini: okay or block replenishment of DA
23/04/24, 16:00 - Adrian Cindea: or block pallets inside
23/04/24, 16:00 - Benedetta Zini: yes also
23/04/24, 16:00 - Adrian Cindea: please block them and active DA
23/04/24, 16:01 - Adrian Cindea: in this way picking will work ...
23/04/24, 16:01 - Benedetta Zini: by doing so we can use DA at pick
23/04/24, 16:01 - Benedetta Zini: yes
23/04/24, 16:01 - Adrian Cindea: DA empty LU request was created by user request
23/04/24, 16:01 - Benedetta Zini: now?
23/04/24, 16:01 - Adrian Cindea: so i will block all DA from HBW
23/04/24, 16:01 - Benedetta Zini: okok
23/04/24, 16:01 - Adrian Cindea: 1. block DA stacks from HBW
23/04/24, 16:02 - Adrian Cindea: 2. reconfigure MD500 for HA
23/04/24, 16:02 - Adrian Cindea: 3. activate HA destacker
23/04/24, 16:02 - Adrian Cindea: -----
23/04/24, 16:02 - Adrian Cindea: 4. check and fill manually destackers if they are empty
23/04/24, 16:02 - Adrian Cindea: i will do point 1-3 ... 4 is up to you ... based on current situation ...
23/04/24, 16:03 - Benedetta Zini: okay thank you
23/04/24, 16:04 - Benedetta Zini: one question: if I want exclude DA and HA I have to set "false" the parameter inside FW028?
23/04/24, 16:04 - Adrian Cindea: empty lu request are created based on MD500
23/04/24, 16:04 - Benedetta Zini: com.wamas.mfs.core.common.AGVDAdestack.active
23/04/24, 16:05 - Benedetta Zini: com.wamas.mfs.core.common.AGVHADestack.active
23/04/24, 16:05 - Adrian Cindea: execution is blocked (replenishment to destacker from HBW and from destacker to picking station) from FW028 <Questo messaggio è stato modificato>
23/04/24, 16:06 - Adrian Cindea: MD500 exclude them from empty lu request ...
23/04/24, 16:06 - Benedetta Zini: okay, you set DA = false

23/04/24, 16:10 - Adrian Cindea:
HRA02X005Y18Z21;HRA01X005Y18Z21;HRA02X032Y18Z21;HRA03X128Y18Z11;HRA06X011Y18Z21;
HRA06X029Y18Z11;HRA07X005Y18Z11;HRA08X104Y18Z11;HRA08X119Y18Z21 are blocked
23/04/24, 16:10 - Benedetta Zini: I'm so sorry, but I really don't understand
why you need to cancel D-DA from MD500 if you set parameter
http://com.wamas.mfs.core.common.AGVDA Destack.active = false 😊 <Questo messaggio
è stato modificato>
23/04/24, 16:10 - Adrian Cindea: 9 stacks from HBW1
23/04/24, 16:11 - Adrian Cindea: in case DA is requested by operator ...
23/04/24, 16:11 - Adrian Cindea: empty LU request is not executed anymore
23/04/24, 16:11 - Adrian Cindea: in case parameter is false
23/04/24, 16:11 - Adrian Cindea: only in this situation ... no need in another
case
23/04/24, 16:12 - Razvan Voicu: Parameter from FW028 stops
1) Replenishment from HBW -> Destacker
2) Empty pallets from Destacker -> Picking station

Because of the MD500 configuration, HA will still be eligible as a target for H
(if the picking order weight is less than the threshold). So even though we
don't send any HA empty, the empty request will see as eligible HA and H
23/04/24, 16:12 - Benedetta Zini: can you exclude this case?
23/04/24, 16:12 - Chiara Lodesani, Lavoro: @Support Technician 21 there is the
last HA in the stack but no TPO for it..
23/04/24, 16:12 - Benedetta Zini: Now it is clear as crystal, thank you!
@Support Technician 12 @Support Technician 21
23/04/24, 16:13 - Razvan Voicu: ah sorry, counted wrongly. Created a new empty
request for it
23/04/24, 16:13 - Adrian Cindea: it is needed a software change to not allow to
choose DA/HA in case desacker are not usable
23/04/24, 16:13 - Adrian Cindea: 1-3 were done
23/04/24, 16:13 - Adrian Cindea: IMG-20240423-WA0034.jpg (file allegato)
23/04/24, 16:13 - Benedetta Zini: great thank you! <Questo messaggio è stato
modificato>
23/04/24, 16:14 - Razvan Voicu: done
23/04/24, 16:14 - Adrian Cindea: IMG-20240423-WA0035.jpg (file allegato)
23/04/24, 16:14 - Chiara Lodesani, Lavoro: thank you
23/04/24, 16:14 - Adrian Cindea: in this moment ... using manual TPO creation
directly to destackers ... you can fill destackers with DA/HA stacks
23/04/24, 16:15 - Adrian Cindea: picking on DA/HA is available too ... <Questo
messaggio è stato modificato>
23/04/24, 16:15 - Benedetta Zini: okay okay
23/04/24, 16:16 - Adrian Cindea: stacks of DA/HA will stop in front of crane ...
23/04/24, 16:16 - Benedetta Zini: yes, but I will redirect directly towards DAH
and DAD
23/04/24, 16:16 - Adrian Cindea: cancel TPO and move them manually out using the
crane and create tpo to out ...
23/04/24, 16:16 - Adrian Cindea: yes ..
23/04/24, 16:16 - Adrian Cindea: to an empty one (DAD/DAH) physically :) <Questo
messaggio è stato modificato>
23/04/24, 16:16 - Benedetta Zini: in case it happens, yes
23/04/24, 16:18 - Adrian Cindea: in this way picking will be used normally ...
we will check on WAMAS side storage in S46 ...
23/04/24, 16:19 - Benedetta Zini: oookay
23/04/24, 16:19 - Adrian Cindea: remains open sotrage in HBW1 (there is a trick
for DA to be used as D ... 301 instead of 303 ... but it needs MFS restart +
maybe rocla update too).
23/04/24, 16:20 - Adrian Cindea: HBW1 does not know new pallet types to store
them ... this is the reason to not store them becuase stacks remain in front of
cranes
23/04/24, 16:21 - Benedetta Zini: I think I get it 😊
23/04/24, 16:49 - Benedetta Zini: @Support Technician 2 you solved the issue at
the exit of foiling for HA pallet 🙏
23/04/24, 16:49 - Support Technician 1 14: Thanks for the feedback!
23/04/24, 16:50 - Support Technician 1 14: Questo messaggio è stato eliminato.

24/04/24, 09:37 - Benedetta Zini: IMG-20240424-WA0003.jpg (file allegato)
24/04/24, 09:38 - Razvan Voicu: agv brought a stack to station? □
24/04/24, 09:38 - Benedetta Zini: Yes...
24/04/24, 09:39 - Benedetta Zini: It is pick station #6
24/04/24, 09:40 - Razvan Voicu: now I see we have two DA stacks.
One with 3PZ, another with 5PZ
24/04/24, 09:40 - Razvan Voicu: is this real?
24/04/24, 09:41 - Benedetta Zini: I'm going to check 🤖
24/04/24, 09:44 - Razvan Voicu: receive transport order: TT2710 [index=22784,
orderId=13392260, reserve1=2, priority=0, agv=0, source=S46A09X003Y01Z1_4,
destination=PDS06L01

So we sent to pick from _4 and now the stack has 3PZ. I'm guessing this was it

24/04/24, 09:49 - Razvan Voicu: IMG-20240424-WA0004.jpg (file allegato)
so TEMP7490 is the initial stack with size = 8
And then we had 5 pallets that had orders and were split from the stack
24/04/24, 09:50 - Benedetta Zini: 5 pallets for what orders?
24/04/24, 09:51 - Razvan Voicu: I think they were for the tests we did manually
24/04/24, 09:51 - Razvan Voicu: For the manually created empty pallet requests
24/04/24, 09:51 - Razvan Voicu: And we deleted them, but didn't update the stack
back
24/04/24, 09:53 - Razvan Voicu: ah, from this time
24/04/24, 09:53 - Razvan Voicu: Because the TEMP in the picture are around
14:54-15:04 and you sent that picture at 15:15
24/04/24, 09:53 - Razvan Voicu: So that's where the issue is
24/04/24, 09:57 - Benedetta Zini: Oh okay
24/04/24, 09:57 - Benedetta Zini: so no issue...
24/04/24, 09:57 - Benedetta Zini: great
24/04/24, 09:58 - Benedetta Zini: let's continue testing
24/04/24, 10:01 - Razvan Voicu: 👍
24/04/24, 12:03 - Adrian Cindea: IMG-20240424-WA0007.jpg (file allegato)
24/04/24, 12:12 - Adrian Cindea: S46 - S48 missing part was deployed too (any
feedback is welcome)
24/04/24, 13:05 - Support Technician 1 14: Hello @Company Employee 11! it would
be important to test real contour errors for HA and DA pallets, at F01 infeed
points.
You can modify the width or length of the stack by just misaligning the last
pallet
24/04/24, 13:05 - Support Technician 1 14: IMG-20240424-WA0008.jpg (file
allegato)
something like this
24/04/24, 13:07 - Support Technician 1 14: when do you think we can try this?
24/04/24, 14:53 - Benedetta Zini: We are going to test it next week, after CR
AGV destacking
24/04/24, 14:53 - Benedetta Zini: hello! I wanted to ask you if we can test it!
24/04/24, 14:53 - Benedetta Zini: is it okay for you to do it at 15:30?
24/04/24, 14:54 - Support Technician 1 14: yes perfect!
24/04/24, 14:55 - Support Technician 1 14: text me before you infeed the pallet
please
24/04/24, 14:55 - Benedetta Zini: yes
24/04/24, 15:30 - Benedetta Zini: IMG-20240424-WA0013.jpg (file allegato)
I want to send DA stack inside its locations but WAAMS said that it is not a
suitable location.....
24/04/24, 15:30 - Benedetta Zini: @Support Technician 21 @Support Technician 12
24/04/24, 15:32 - Adrian Cindea: choose one bigger
24/04/24, 15:32 - Benedetta Zini: no 😞
24/04/24, 15:32 - Benedetta Zini: it is the destacker location
24/04/24, 15:32 - Benedetta Zini: It have to work!
24/04/24, 15:32 - Razvan Voicu: it's a warning
24/04/24, 15:32 - Razvan Voicu: if you confirm, it doesnt work?
24/04/24, 15:33 - Adrian Cindea: DA vs HA?
24/04/24, 15:33 - Razvan Voicu: most likely because B_DA is too big
24/04/24, 15:33 - Benedetta Zini: yes obviously
24/04/24, 15:33 - Benedetta Zini: it doesn't work

24/04/24, 15:33 - Razvan Voicu: but DA is ok
24/04/24, 15:33 - Razvan Voicu: And wamas doesnt know that this pallet will be deslaved
24/04/24, 15:33 - Benedetta Zini: the location is suitable for D, so also for DA
24/04/24, 15:33 - Razvan Voicu: doesn't know yet*
24/04/24, 15:33 - Benedetta Zini: but last Friday yes
24/04/24, 15:34 - Benedetta Zini: why do not have problems with HA?
24/04/24, 15:34 - Benedetta Zini: IMG-20240424-WA0014.jpg (file allegato)
24/04/24, 15:35 - Benedetta Zini: @Support Technician 2 give me 20 minutes to try to solved this new issue...
24/04/24, 15:35 - Razvan Voicu: MAYbe because it is still on MUL
24/04/24, 15:35 - Razvan Voicu: not on a storage location
24/04/24, 15:36 - Razvan Voicu: and from MUL it doesn't know it goes to deslave
24/04/24, 15:36 - Razvan Voicu: can you try to deposit on conveyor infeed or a location?
24/04/24, 15:36 - Benedetta Zini: no
24/04/24, 15:36 - Benedetta Zini: i deposited it in S04 MAV, same thing
24/04/24, 15:36 - Adrian Cindea: put in S02 MAV
24/04/24, 15:36 - Benedetta Zini: error message
24/04/24, 15:37 - Benedetta Zini: it is in S04 MAV
24/04/24, 15:48 - Benedetta Zini: news?
24/04/24, 15:56 - Benedetta Zini: ?
24/04/24, 15:59 - Benedetta Zini: I have to test CU120 with Rocla...
24/04/24, 15:59 - Benedetta Zini: It is his last day here...
24/04/24, 15:59 - Adrian Cindea: we are working to find the issue
24/04/24, 15:59 - Benedetta Zini: 😞😞
24/04/24, 16:00 - Benedetta Zini: thank you!
24/04/24, 16:00 - Adrian Cindea: we did it last week
24/04/24, 16:01 - Razvan Voicu: This is not a stack
24/04/24, 16:02 - Razvan Voicu: IMG-20240424-WA0016.jpg (file allegato)
24/04/24, 16:02 - Razvan Voicu: It's just an empty LU
24/04/24, 16:02 - Razvan Voicu: Please create it as a stack and it will work
24/04/24, 16:03 - Razvan Voicu: Hmm, wait sorry
24/04/24, 16:03 - Razvan Voicu: my bad
24/04/24, 16:07 - Adrian Cindea: i created
24/04/24, 16:07 - Adrian Cindea: i changed dimension of cubature
24/04/24, 16:13 - Benedetta Zini: thank you!
24/04/24, 16:13 - Benedetta Zini: I'm going to try
24/04/24, 16:19 - Adrian Cindea: tpo was created by me
24/04/24, 16:19 - Adrian Cindea: the issue is B+HA can not be stored in that location based on dimension
24/04/24, 16:20 - Adrian Cindea: 1520 does fit in 1300
24/04/24, 16:20 - Benedetta Zini: But the location is for 1700
24/04/24, 16:20 - Adrian Cindea: but from HBW1 it is possible because it is another procedure used (storage is one for DA/HA) <Questo messaggio è stato modificato>
24/04/24, 16:20 - Adrian Cindea: DA is good, B+DA is not good <Questo messaggio è stato modificato>
24/04/24, 16:21 - Benedetta Zini: But this was B+DA...
24/04/24, 16:21 - Adrian Cindea: DA (1520x775)
24/04/24, 16:21 - Adrian Cindea: B+DA (1220x1520)
24/04/24, 16:22 - Benedetta Zini: ooooooh now I get!
24/04/24, 16:22 - Benedetta Zini: sorry
24/04/24, 16:22 - Adrian Cindea: i will change B_DA_1550 cubature to 1300 instead of 1550
24/04/24, 16:22 - Adrian Cindea: until storage will be fixed in HBW1
24/04/24, 16:23 - Benedetta Zini: okay
24/04/24, 16:23 - Adrian Cindea: now it will work ...
24/04/24, 16:27 - Benedetta Zini: okay thank you
24/04/24, 16:28 - Benedetta Zini: will you fix it when plc update for cranes is ready?
24/04/24, 16:42 - Benedetta Zini: @Support Technician 12 @Support Technician 2 is it okay to add a new parameter inside MF500 for foil for HA? <Questo messaggio è stato modificato>

24/04/24, 16:44 - Benedetta Zini: We created a new parameter --> 7 only for HA
24/04/24, 16:44 - Benedetta Zini: is it possibile?
24/04/24, 16:44 - Benedetta Zini: because #5, that is for H, is not correct... all HA pallets went to nok or blocked AGV
24/04/24, 17:06 - Adrian Cindea: yes
24/04/24, 17:06 - Adrian Cindea: set new value
24/04/24, 17:06 - Adrian Cindea: only to be known by foiling machine
24/04/24, 17:06 - Adrian Cindea: please dont store DA in HBW becuase stack has 1300 width instead of 1520
24/04/24, 17:07 - Adrian Cindea: to be able to create TPO directly to destacket
24/04/24, 17:07 - Adrian Cindea: it is not possible to be stored in HBW1 only in case someone will force it
24/04/24, 17:13 - Benedetta Zini: yes sure don't worry
24/04/24, 17:13 - Benedetta Zini: have you to set a new value?
24/04/24, 17:13 - Benedetta Zini: @Support Technician 21 @Support Technician 12 we have problems with TPOs in manual area and loading area
24/04/24, 17:14 - Benedetta Zini: IMG-20240424-WA0029.jpg (file allegato)
24/04/24, 17:14 - Benedetta Zini: IMG-20240424-WA0030.jpg (file allegato)
Mi dice questo
24/04/24, 17:14 - Benedetta Zini: IMG-20240424-WA0032.jpg (file allegato)
Esce questo messaggio
24/04/24, 17:15 - Benedetta Zini: Hai eliminato questo messaggio.
24/04/24, 17:15 - Benedetta Zini: IMG-20240424-WA0034.jpg (file allegato)
24/04/24, 17:16 - Benedetta Zini: exit CU132
24/04/24, 17:17 - Adrian Cindea: try now
24/04/24, 17:17 - Adrian Cindea: i restarted DC mobile (i tried to set a new location type fpr destackers)
24/04/24, 17:17 - Adrian Cindea: please let me know the result
24/04/24, 17:19 - Benedetta Zini: Kk
24/04/24, 17:22 - Benedetta Zini: it worked
24/04/24, 17:25 - Adrian Cindea: it is my fault ... i tried to find another solution for DA destacket
24/04/24, 17:26 - Benedetta Zini: you mean for the mobile problem?
24/04/24, 17:26 - Adrian Cindea: yes
24/04/24, 17:26 - Benedetta Zini: oh okay... good that you found the issue 😊
24/04/24, 17:28 - Adrian Cindea: the same issue as on 17.04 (2 times DC mobile restart due to configuration for DA/HA destackers)
29/04/24, 08:29 - Benedetta Zini: Hello! We can't create tpos for H and D stack since Saturday!
29/04/24, 08:30 - Adrian Cindea: hello
29/04/24, 08:30 - Adrian Cindea: may i try?
29/04/24, 08:30 - Benedetta Zini: Yes
29/04/24, 08:30 - Benedetta Zini: Stacks are in S02 MAV
29/04/24, 08:31 - Adrian Cindea: IMG-20240429-WA0000.jpg (file allegato)
29/04/24, 08:32 - Adrian Cindea: DAD locations are occupied
29/04/24, 08:32 - Adrian Cindea: IMG-20240429-WA0001.jpg (file allegato)
29/04/24, 08:33 - Adrian Cindea: DAH locations are occupied
29/04/24, 08:33 - Adrian Cindea: am i right?
29/04/24, 08:33 - Adrian Cindea: logically they are all 4 occupied based on my check
29/04/24, 08:34 - Benedetta Zini: Yes in fact I said H and D, not DA and HA
29/04/24, 08:34 - Adrian Cindea: i will check them too
29/04/24, 08:35 - Benedetta Zini: Thank you
29/04/24, 08:42 - Benedetta Zini: It is not possibile to create tpo from S02 MAV to HBW1
29/04/24, 08:43 - Benedetta Zini: and wamas doesn't create it automatically when user creates stacks
29/04/24, 08:44 - Benedetta Zini: IMG-20240429-WA0002.jpg (file allegato)
LU B_H* 46354963
29/04/24, 08:44 - Benedetta Zini: Could it be the cubature?
29/04/24, 08:46 - Benedetta Zini: IMPORTANT!!! H stack is empty!!
29/04/24, 08:46 - Benedetta Zini: IMG-20240429-WA0003.jpg (file allegato)
29/04/24, 08:47 - Benedetta Zini: So it doesn't work also the replenishment of H and D stacks inside stacker!

29/04/24, 08:48 - Benedetta Zini:   
29/04/24, 08:49 - Benedetta Zini: IMG-20240429-WA0004.jpg (file allegato)
last pallet was picked up by AGV at 8:37
29/04/24, 08:50 - Adrian Cindea: 51942608 has a TPO and i cancelled it and it was recreated ...
29/04/24, 08:53 - Benedetta Zini: Did you find the issue? We don't have H stack inside HBW1 and we need to load them
29/04/24, 08:53 - Benedetta Zini: pick stations are blocked
29/04/24, 08:53 - Benedetta Zini: extra size stations
29/04/24, 08:58 - Adrian Cindea: no empty stack of H in HBW1
29/04/24, 08:59 - Benedetta Zini: yes I saw... because we can't load stacks of H and D inside HBW1
29/04/24, 09:00 - Adrian Cindea: 52427710
52339066
60697445
29/04/24, 09:00 - Adrian Cindea: have TPOs to HBW ... please store them
29/04/24, 09:01 - Adrian Cindea: 85353217
51942608
60703619
52414577
60512628
29/04/24, 09:01 - Adrian Cindea: D with tpo
29/04/24, 09:02 - Benedetta Zini: Yes I know, but we have 37 stacks in S02 MAV... it is hard to find these 3 stacks also because they were created on Saturday
29/04/24, 09:06 - Benedetta Zini: did you find the issue?
29/04/24, 09:07 - Razvan Voicu: All of these stacks need to go in HBW1?
29/04/24, 09:07 - Razvan Voicu: I am talking about the H stacks
29/04/24, 09:07 - Adrian Cindea: no yt (maybe it is related to space)
29/04/24, 09:07 - Adrian Cindea: we are working to find the reason ...
29/04/24, 09:08 - Benedetta Zini: yes as always
29/04/24, 09:08 - Adrian Cindea: i cancel TPO for HHHH
29/04/24, 09:09 - Adrian Cindea: please choose one stack and create it TPO
29/04/24, 09:09 - Adrian Cindea: asap
29/04/24, 09:09 - Adrian Cindea: and in that way we will store something until the issue is found
29/04/24, 09:09 - Benedetta Zini: OK
29/04/24, 09:09 - Benedetta Zini: 60499742
29/04/24, 09:10 - Adrian Cindea: tpoo created
29/04/24, 09:10 - Adrian Cindea: please store it
29/04/24, 09:10 - Adrian Cindea: next one ... because i cancelled 4 TPOs
29/04/24, 09:10 - Benedetta Zini: OKAY
29/04/24, 09:11 - Benedetta Zini: 51402684
29/04/24, 09:11 - Adrian Cindea: pls next stack on H to be able to store 2-3 ... to be able to pick at the end
29/04/24, 09:11 - Benedetta Zini: space?
29/04/24, 09:11 - Adrian Cindea: TPO was created
29/04/24, 09:11 - Benedetta Zini: 70439719
29/04/24, 09:11 - Adrian Cindea: next one please
29/04/24, 09:12 - Benedetta Zini: 60719989
29/04/24, 09:12 - Adrian Cindea: tpo created
29/04/24, 09:12 - Adrian Cindea: 3 stacks ready to be stored in HBW1
29/04/24, 09:12 - Adrian Cindea: tpo created
29/04/24, 09:12 - Adrian Cindea: next one ... it is possible to not find
29/04/24, 09:13 - Adrian Cindea: 4 stacks ready to be stored
29/04/24, 09:13 - Benedetta Zini: we are going to store them
29/04/24, 09:16 - Adrian Cindea: i tried one more ... no TPO ...
29/04/24, 09:17 - Razvan Voicu: At the moment in all HRA01->HRA08 we have a total of 2000 unblocked/unoccupied/unreserved locations
29/04/24, 09:17 - Adrian Cindea: SLF02C4091 - is occupied by a D stack
29/04/24, 09:17 - Adrian Cindea: there is D empty pallets in destacker
29/04/24, 09:18 - Benedetta Zini: yes
29/04/24, 09:19 - Benedetta Zini: But I don't think the problem is the space inside HBW1.... for all Others pallet we can create tpo
29/04/24, 09:19 - Benedetta Zini: only D stacks and H stacks

29/04/24, 09:21 - Benedetta Zini: when operator creates an H or D stack, WAMAS creates stack in S02 MAV + automatically TPO towards HBW1

29/04/24, 09:27 - Adrian Cindea: it seems no space for them

29/04/24, 09:27 - Benedetta Zini: really?

29/04/24, 09:27 - Adrian Cindea: D and H is bigger as width

29/04/24, 09:28 - Benedetta Zini: yes, they have to occupy 2 locations

29/04/24, 09:32 - Adrian Cindea: ATLAS_HBW1_1X_1550 - is not good for H and D

29/04/24, 09:32 - Adrian Cindea: ATLAS_HBW1_2X_1550 is good for H and D

29/04/24, 09:33 - Adrian Cindea: IMG-20240429-WA0005.jpg (file allegato)

29/04/24, 09:33 - Adrian Cindea: and sort after compartment

29/04/24, 09:33 - Adrian Cindea: to see if there is ... available means both no tpo, no occupied

29/04/24, 09:35 - Adrian Cindea: IMG-20240429-WA0006.jpg (file allegato)

29/04/24, 09:35 - Adrian Cindea: in ATLAS_HBW1_2X_1550 goes one D or one H nothing more ... not both

29/04/24, 09:36 - Adrian Cindea: IMG-20240429-WA0007.jpg (file allegato)

29/04/24, 09:37 - Adrian Cindea: and in case a comparmnet appears twice ... a tpo can be created

29/04/24, 09:37 - Adrian Cindea: IMG-20240429-WA0008.jpg (file allegato)

29/04/24, 09:38 - Adrian Cindea: storage compartment repeats = means both locations from it are free -> possible to store D or H

29/04/24, 09:39 - Adrian Cindea: -----

29/04/24, 09:39 - Adrian Cindea: conclusion is no free space available for big pallets

29/04/24, 09:44 - Adrian Cindea: H stack is on the way to destacker

29/04/24, 10:03 - Benedetta Zini: So we have only 139 free locations?

29/04/24, 10:03 - Benedetta Zini: for H and D stacks

29/04/24, 10:06 - Adrian Cindea: no

29/04/24, 10:06 - Adrian Cindea: they are "occupied: ... because one of location from comparmenr is occupied or reserved by a TPO <Questo messaggio è stato modificato>

29/04/24, 10:08 - Adrian Cindea: i see them as above to see if 2 lines are availbel for the same storage compartment = all compartment can be used -> H or D can be stored (1550 height)

29/04/24, 10:08 - Adrian Cindea: otherwise ... maybe it is possible to be stored smaller pallets ... but goal of check was only for D and H (big pallets)

29/04/24, 10:09 - Adrian Cindea: B+D/H has width inherit from length of D/H

29/04/24, 10:09 - Benedetta Zini: okay, so no space for H and D? and we are not able to create TPO?

29/04/24, 10:15 - Adrian Cindea: yes

30/04/24, 17:21 - Chiara Lodesani, Lavoro: Hi, we have a problem.. there are more then 600 orders in status "approval in progress". please, check what is the problem🙏 there is a problem with some jobs?

30/04/24, 17:36 - Chiara Lodesani, Lavoro: small groups of orders change the status in "approved for picking" but very very slowly

30/04/24, 17:43 - Chiara Lodesani, Lavoro: IMG-20240430-WA0002.jpg (file allegato)

now there is an high value of cpu in wamasdb

30/04/24, 17:56 - Chiara Lodesani, Lavoro: all orders are passed and the cpu is decreased so the problem seems resolved

30/04/24, 18:03 - Razvan Voicu: Nothing to do from our side in this case

30/04/24, 18:04 - Razvan Voicu: You know this happens from time to time

30/04/24, 18:06 - Chiara Lodesani, Lavoro: it's not nice.. last time, in December, it seemed a problem linked to the big volume of data, but now we are reducing them..

30/04/24, 18:07 - Support Technician 23: Hi

Is this still an ongoing problem?

30/04/24, 18:08 - Support Technician 23: As Razvan mentioned I don't think there is much we can do

30/04/24, 18:10 - Chiara Lodesani, Lavoro: can you check if all jobs run well? the big number of orders is passed but we have tried to approve new orders and the procedure is very slow

30/04/24, 18:12 - Support Technician 23: I will check

30/04/24, 18:12 - Chiara Lodesani, Lavoro: thank you

30/04/24, 18:15 - Support Technician 23: The jobs looks good
30/04/24, 18:15 - Chiara Lodesani, Lavoro: good
30/04/24, 18:15 - Support Technician 23: Also, the resources on the db server are looking well
30/04/24, 18:16 - Support Technician 23: Can i close the case?
30/04/24, 18:21 - Chiara Lodesani, Lavoro: yes, please
30/04/24, 18:22 - Support Technician 23: Ok, thank you
30/04/24, 18:23 - Chiara Lodesani, Lavoro: thank you!
14/05/24, 07:16 - Nicola Bernardi: News?
14/05/24, 07:17 - Support Technician 10: Still working on it
14/05/24, 07:17 - Nicola Bernardi: 🤖
14/05/24, 07:39 - Support Technician 10: Can you check the system now?
14/05/24, 07:45 - Nicola Bernardi: In this moment all system are ok
14/05/24, 08:50 - Benedetta Zini: Could you please explain me what happened?
14/05/24, 08:57 - Support Technician 10: A message got stuck in the que for mfs pal and no other tpo could be started we investigate the root cause
14/05/24, 09:06 - Benedetta Zini: okay, let me know
31/05/24, 10:47 - Support Technician 7: Hi, is the order *84175 finished?
31/05/24, 10:47 - Support Technician 7: You picked all lines?
31/05/24, 11:04 - Chiara Lodesani, Lavoro: Hi, we have just resolved. Thank you
31/05/24, 11:04 - Support Technician 7: I will close the ticket then
31/05/24, 11:06 - Chiara Lodesani, Lavoro: ok
03/06/24, 08:42 - Support Technician 7: Hello, what seems to be the problem with ticket 01366171?
03/06/24, 08:49 - Chiara Lodesani, Lavoro: It seems to have resolved by itself
10/06/24, 10:13 - Benedetta Zini: good morning! At 12:30 we are going to set agvDisable = true
10/06/24, 11:27 - Adrian Cindea: hello
10/06/24, 11:27 - Adrian Cindea: yes
10/06/24, 12:31 - Benedetta Zini: We set agvDisable = true
10/06/24, 12:31 - Benedetta Zini: I will let you know when you can proceed with deploy
10/06/24, 12:40 - Benedetta Zini: you can go!
10/06/24, 13:02 - Benedetta Zini: how is it going?
10/06/24, 13:03 - Support Technician 10: Now we do the final checks for mobile communication
10/06/24, 13:03 - Benedetta Zini: okay great
10/06/24, 13:04 - Benedetta Zini: let me know when I can say that everything it seems fine to work
10/06/24, 13:08 - Support Technician 10: Deploy done
10/06/24, 13:08 - Support Technician 10: Everything looks fine let us know if any problem appears
10/06/24, 13:09 - Benedetta Zini: okay, we will let you know (fingers cross 🤞)
10/06/24, 14:58 - Adrian Cindea: current status after ~2 hours?
10/06/24, 14:59 - Chiara Lodesani, Lavoro: everything seems ok👍
10/06/24, 15:05 - Adrian Cindea: thx for feedback
11/06/24, 10:05 - Benedetta Zini: Hello, I'm testing Q21 and I can't discharge quantities...
11/06/24, 10:05 - Benedetta Zini: could you please help me?
11/06/24, 10:06 - Benedetta Zini: Maybe I'm doing something wrong (it has passed 1 year since I sent the issue..)
11/06/24, 10:08 - Benedetta Zini: the order is the following ADBATL000000325 with 2 OBDs: OBD0000841254 and OBD0000841279... and I would like to discharge LUs 11111111 and 44444444 to see if WAMAS will send one record #27
11/06/24, 10:09 - Adrian Cindea: i will check it ... it is multiple of SC?
11/06/24, 10:09 - Adrian Cindea: *hello
11/06/24, 10:09 - Benedetta Zini: the sum of two LUs yes
11/06/24, 10:10 - Benedetta Zini: LU 11111111 --> 2 sc + 1 piece
LU 44444444 --> 2 sc + 6 pieces
= 5 sc
11/06/24, 10:13 - Benedetta Zini: LUs of ADBATL000000325 are: 11111111, 22222222, 33333333, 44444444
11/06/24, 10:13 - Adrian Cindea: k
11/06/24, 10:22 - Adrian Cindea: they are not in buffer area ...

11/06/24, 10:23 - Adrian Cindea: e.g. S90 ANT is a good location <Questo messaggio è stato modificato>
11/06/24, 10:23 - Adrian Cindea: may i move them in this area?
11/06/24, 10:24 - Adrian Cindea: only some specific areas allows to discharge ..
11/06/24, 10:24 - Adrian Cindea: "sS95", "sS90", "sS90 CL", "sS91", "sS94", "sS41", "sS42", "sS43", "sS50", "sS95 CL"
11/06/24, 10:24 - Adrian Cindea: sS97, sMercLU
11/06/24, 10:25 - Adrian Cindea: plus HBW2, HBW1 for whole LU, sS46
11/06/24, 10:26 - Benedetta Zini: you are right... sorry 😞
11/06/24, 10:26 - Benedetta Zini: I forgot this...
11/06/24, 10:26 - Adrian Cindea: me too
11/06/24, 10:26 - Adrian Cindea: i checked source code
11/06/24, 10:28 - Benedetta Zini: Okay I put LUS 11111111 and 44444444 in S90 P18 and now I can discharge quantities
11/06/24, 10:28 - Benedetta Zini: lets try and see what happens 📦
11/06/24, 10:29 - Adrian Cindea: one time both
11/06/24, 10:29 - Adrian Cindea: we did it one by one
11/06/24, 10:31 - Adrian Cindea: did you discharge selected both LUs?
11/06/24, 10:32 - Benedetta Zini: yes
11/06/24, 10:32 - Adrian Cindea: 4344403 -> 2700064770632024-06-1110.28.35SADBATLATL0000000325 00010 ATLA0PK
1 BS4S6= 007 000000000 +000007000+00000
3500 +0000000000000000000000000028401 000000000 <Questo messaggio è stato modificato>
11/06/24, 10:32 - Adrian Cindea: only one 27
11/06/24, 10:32 - Benedetta Zini: great!!!!
11/06/24, 10:32 - Adrian Cindea: IMG-20240611-WA0001.jpg (file allegato)
11/06/24, 10:32 - Benedetta Zini: 🙏🙏
11/06/24, 10:32 - Benedetta Zini: my wamas is still loading ...
11/06/24, 10:33 - Adrian Cindea: set filter on time, message type and data
11/06/24, 10:33 - Adrian Cindea: as i did it (see my screen)
11/06/24, 10:34 - Benedetta Zini: yes I did it
11/06/24, 10:34 - Benedetta Zini: IMG-20240611-WA0002.jpg (file allegato)
11/06/24, 10:47 - Benedetta Zini: Q21 is solved, I will send you an email
12/06/24, 08:38 - Razvan Voicu: Hello
12/06/24, 08:39 - Razvan Voicu: Before placing the HA/DA stacks on infeed, can you please provide me the barcode, so we make sure pallet is sent to aisle1?
12/06/24, 08:41 - Benedetta Zini: Hello, yes sure
12/06/24, 09:09 - Benedetta Zini: we are going to update plc
12/06/24, 09:09 - Benedetta Zini: in few minutes
12/06/24, 09:10 - Razvan Voicu: ok
12/06/24, 09:21 - Benedetta Zini: 51685227
12/06/24, 09:22 - Benedetta Zini: B_HA
12/06/24, 09:23 - Razvan Voicu: one moent
12/06/24, 09:23 - Benedetta Zini: okay let me know
12/06/24, 09:24 - Razvan Voicu: Ok, I see you created tpo to aisle 1
12/06/24, 09:24 - Razvan Voicu: let's try like this
12/06/24, 09:24 - Benedetta Zini: okay
12/06/24, 09:24 - Razvan Voicu: MFS might change destination on EMS
12/06/24, 09:24 - Razvan Voicu: but I will try to change back
12/06/24, 09:25 - Benedetta Zini: pallet is on its way towards SH1 01
12/06/24, 09:26 - Razvan Voicu: great. let's wait for ems to pick it up
12/06/24, 09:32 - Razvan Voicu: mfs tries to send it to aisle 4
12/06/24, 09:32 - Benedetta Zini: noooooo
12/06/24, 09:32 - Razvan Voicu: is there a way you can pick it up manually with ems and place it on lane to aisle 1?
12/06/24, 09:33 - Razvan Voicu: hmm, actually I think i can do it
12/06/24, 09:33 - Razvan Voicu: ems picked it up towards transfer point for conveyor aisle 1
12/06/24, 09:34 - Razvan Voicu: Oh, pallet at aisle 1
12/06/24, 09:35 - Benedetta Zini: stack is on the infeed of aisle 1
12/06/24, 09:35 - Benedetta Zini: oh yes
12/06/24, 09:35 - Razvan Voicu: yes, pallet waiting now for pair for srm to pick

it up or timeout
12/06/24, 09:36 - Benedetta Zini: okay
12/06/24, 09:37 - Adrian Cindea: it is inside ...?
12/06/24, 09:37 - Adrian Cindea: yes ... it is inside :)
12/06/24, 09:37 - Benedetta Zini: yesssss
12/06/24, 09:37 - Benedetta Zini: it is inside
12/06/24, 09:38 - Adrian Cindea: try to retrieved it ... as a next test ... and
storage next stack of DA
12/06/24, 09:38 - Benedetta Zini: okay
12/06/24, 09:39 - Benedetta Zini: can we create TPO towards S04 MAV?
12/06/24, 09:40 - Razvan Voicu: for DA? yes
12/06/24, 09:40 - Benedetta Zini: or do you want to send it inside HA location?
12/06/24, 09:41 - Razvan Voicu: Before infeed I need to create TPO towards
conveyor aisle 1
12/06/24, 09:41 - Razvan Voicu: IMG-20240612-WA0001.jpg (file allegato)
TPF01C1911
12/06/24, 09:41 - Benedetta Zini: wait wait, first we have to retrieve HA pallet
12/06/24, 09:42 - Razvan Voicu: Send it to destacker?
12/06/24, 09:42 - Razvan Voicu: Or you want to get it out at QC?
12/06/24, 09:42 - Razvan Voicu: IMG-20240612-WA0002.jpg (file allegato)
here?
12/06/24, 09:43 - Benedetta Zini: Exactly
12/06/24, 09:43 - Razvan Voicu: should be ok
12/06/24, 09:43 - Benedetta Zini: I create tpo to go to S04 MAV
12/06/24, 09:58 - Benedetta Zini: DA STACK 52428871
12/06/24, 09:59 - Razvan Voicu: done
12/06/24, 09:59 - Razvan Voicu: please infeed it
12/06/24, 10:01 - Benedetta Zini: I have already done
12/06/24, 10:05 - Benedetta Zini: DA stack is on inbound
12/06/24, 10:05 - Adrian Cindea: waiting for timeout/pair
12/06/24, 10:06 - Adrian Cindea: on crane
12/06/24, 10:08 - Adrian Cindea: stored ...
12/06/24, 10:08 - Adrian Cindea: make a retrieval for it
12/06/24, 10:08 - Benedetta Zini: 🙏
12/06/24, 10:08 - Adrian Cindea: it is important to unblocked stored DA from
HBW1 ... after retrieval test is done
12/06/24, 10:09 - Adrian Cindea: to be used for destackers ...
12/06/24, 10:10 - Adrian Cindea: for HRA01 only :)
12/06/24, 10:12 - Adrian Cindea: release pallet from NOK please
12/06/24, 10:14 - Benedetta Zini: I prefer to unlock them after we update all
aisles
12/06/24, 10:14 - Benedetta Zini: Tomorrow morning
12/06/24, 10:14 - Adrian Cindea: k
12/06/24, 10:16 - Benedetta Zini: now we update 2, 3 and 4
12/06/24, 10:16 - Benedetta Zini: tomorrow morning 5, 6, 7,8
12/06/24, 10:17 - Razvan Voicu: Ok, great. Thanks for your help. See you
tomorrow then
12/06/24, 10:17 - Benedetta Zini: yes
12/06/24, 10:17 - Benedetta Zini: from tomorrow we can start using CR
12/06/24, 10:23 - Razvan Voicu: Great. Waiting with champagne&ice, ready to open
🥂
12/06/24, 10:24 - Adrian Cindea: DA stack is out ...
12/06/24, 10:24 - Adrian Cindea: crane 1 is tested successfully
12/06/24, 10:25 - Benedetta Zini: VID-20240612-WA0003.mp4 (file allegato)
12/06/24, 10:26 - Adrian Cindea: crane 1-3 are already updated on PLC .. maybe 4
is almost done
12/06/24, 10:27 - Adrian Cindea: 4 done too ...
12/06/24, 10:39 - Benedetta Zini: all aisle are update 😎
12/06/24, 10:41 - Benedetta Zini: VID-20240612-WA0004.mp4 (file allegato)
12/06/24, 14:35 - Benedetta Zini: IMG-20240612-WA0005.jpg (file allegato)
Hi, I was trying to discharge 60464465, but it appears an error message
12/06/24, 14:35 - Benedetta Zini: java.lang.IllegalStateException

12/06/24, 14:38 - Adrian Cindea: discharge one by one ...
12/06/24, 14:38 - Adrian Cindea: we will check the issue
12/06/24, 14:38 - Adrian Cindea: refresh and in details discharge amount one by
one ...
12/06/24, 14:38 - Adrian Cindea: to solve the issue on the spot
12/06/24, 14:38 - Benedetta Zini: I can't discharge them one by one...
12/06/24, 14:38 - Benedetta Zini: IMG-20240612-WA0006.jpg (file allegato)
12/06/24, 14:39 - Benedetta Zini: due to broken boxes... but in this case we don't
have broken boxes
12/06/24, 14:40 - Benedetta Zini: IMG-20240612-WA0007.jpg (file allegato)
12/06/24, 14:40 - Adrian Cindea: maybe it is a wrong check
12/06/24, 14:41 - Adrian Cindea: it is an issue on our side
12/06/24, 14:41 - Adrian Cindea: i marked broken boxes and discharged them
12/06/24, 14:41 - Adrian Cindea: temporary
12/06/24, 14:43 - Adrian Cindea: we will work tomorrow to fix it
12/06/24, 14:44 - Adrian Cindea: IMG-20240612-WA0008.jpg (file allegato)
12/06/24, 14:45 - Adrian Cindea: broken boxes as now ... allow pieces and when
it is checked -> not allow pieces?
12/06/24, 14:45 - Benedetta Zini: okay thank you
12/06/24, 14:46 - Adrian Cindea: to be sure all checks working properly ...
12/06/24, 14:46 - Benedetta Zini: okay okay
12/06/24, 14:46 - Adrian Cindea: please let me know your expectation ....
12/06/24, 14:47 - Adrian Cindea: it is important to understand broken boxes flag
from MD017
12/06/24, 14:47 - Benedetta Zini: if broken boxes is flagged, wamas should not
let user discharge quantities with piceces
12/06/24, 14:47 - Benedetta Zini: but only a multiple of boxes
12/06/24, 14:47 - Adrian Cindea: clear ...
12/06/24, 14:48 - Adrian Cindea: we will check all the time to be the same check
...
12/06/24, 14:48 - Benedetta Zini: okay
12/06/24, 14:48 - Benedetta Zini: are you set again the flag in MD017?
12/06/24, 14:48 - Adrian Cindea: it was not flagged
12/06/24, 14:49 - Adrian Cindea: we can see in view changes
12/06/24, 14:49 - Benedetta Zini: no wait maybe I get confused... let me check my
notes
12/06/24, 14:50 - Adrian Cindea: IMG-20240612-WA0009.jpg (file allegato)
12/06/24, 14:50 - Adrian Cindea: i set what was before <Questo messaggio è stato
modificato>
12/06/24, 14:56 - Benedetta Zini: if "broken boxes" check is active, I can't
discharge quantities with pieces if wamas has already sent #24 whereas yes if
wamas has not sent #24...
if "broken boxes" check is deactive, user can discharge quantities with pieces
12/06/24, 14:57 - Adrian Cindea: it is exactly what you said before
12/06/24, 14:57 - Benedetta Zini: yes yes, but I had a doubt
12/06/24, 15:01 - Benedetta Zini: so now broken boxes is not active
12/06/24, 15:02 - Adrian Cindea: yes
12/06/24, 15:02 - Adrian Cindea: but there is a wrong check .. we will analyze
to fix it ...
12/06/24, 15:03 - Benedetta Zini: yes thank you
12/06/24, 21:27 - Tommaso Guizzardi, Lavoro: IMG-20240612-WA0010.jpg (file
allegato)
Vuole mettere la pila nonostante logicamente risulti già piena la locazione
13/06/24, 14:34 - Benedetta Zini: Hello!
13/06/24, 14:34 - Benedetta Zini: could you please discharge it?
13/06/24, 14:34 - Benedetta Zini: IMG-20240613-WA0000.jpg (file allegato)
13/06/24, 14:34 - Benedetta Zini: 52645227
13/06/24, 14:34 - Benedetta Zini: I can't do it
13/06/24, 14:37 - Adrian Cindea: i will try ...
13/06/24, 14:50 - Adrian Cindea: i did it manually excepting mssage 27
13/06/24, 14:51 - Adrian Cindea: 1 piece for all items has to be adjusted on
HOST side

```

13/06/24, 14:51 - Adrian Cindea: on Monday it will work
13/06/24, 14:51 - Adrian Cindea: i can not make any trick in case of pieces
13/06/24, 14:52 - Adrian Cindea: to simulate 27 is not easy manually ... only inhouse (but takes time to generate stock with the same batch, picked and discharge)
13/06/24, 14:52 - Adrian Cindea: please adjust on HOST side ... +1 piece
13/06/24, 14:53 - Adrian Cindea: please manage discharge with mobile terminal (no unpicking order for it)
13/06/24, 14:57 - Benedetta Zini: Okay thank you very much! 🙏
13/06/24, 15:20 - Benedetta Zini: @Support Technician 12 or @Support Technician 21 can I ask you to remove block from DA stack that are inside HBW1?
13/06/24, 15:22 - Adrian Cindea: i will do it
13/06/24, 15:25 - Adrian Cindea:
HRA03X128Y18Z11;HRA08X104Y18Z11;HRA07X005Y18Z11;HRA02X005Y18Z21;HRA08X119Y18Z21;
HRA01X005Y18Z21;HRA06X011Y18Z21;HRA06X029Y18Z11;HRA02X032Y18Z21;HRA0
13/06/24, 15:25 - Adrian Cindea: no total block for DA/HA
13/06/24, 15:25 - Adrian Cindea: but ...
13/06/24, 15:25 - Adrian Cindea: IMG-20240613-WA0002.jpg (file allegato)
13/06/24, 15:25 - Adrian Cindea: there are others blockages ...
13/06/24, 15:25 - Adrian Cindea: please check and remove/keep them
13/06/24, 15:27 - Benedetta Zini: yes, I will take a look
13/06/24, 15:28 - Adrian Cindea: i removed specific with reason DA/HA ...
13/06/24, 15:28 - Adrian Cindea: i checked directly in database and no others found
13/06/24, 15:29 - Adrian Cindea: i removed block for locations with DA/HA -> no others overall for DA/HA <Questo messaggio è stato modificato>
13/06/24, 15:35 - Benedetta Zini: I removed other blocks
13/06/24, 17:06 - Benedetta Zini: @Support Technician 12 one question... Should I wait to test A110 and A119? or can I do it?
13/06/24, 21:55 - Adrian Cindea: on Monday ... it is much better
13/06/24, 21:55 - Adrian Cindea: after deploy
14/06/24, 08:51 - Benedetta Zini: okay thank you!
14/06/24, 15:49 - Benedetta Zini: Hello! Could you please discharge 52502219? I can't do it
14/06/24, 16:15 - Benedetta Zini: VID-20240614-WA0004.mp4 (file allegato)
14/06/24, 16:53 - Benedetta Zini: we have to prepare again the order...
14/06/24, 17:03 - Benedetta Zini: another question... could you please check if DAD are active? Because I switch parameter to "true" but I'm not sure it works
14/06/24, 17:41 - Support Technician 15: Hello, could this wait for Monday or it is urgent to be solved now?
14/06/24, 18:04 - Benedetta Zini: Okay for Monday
17/06/24, 08:40 - Adrian Cindea: 52502219 was discharged using workaround with client with broken boxes temporary and discharge amount ...
17/06/24, 08:41 - Adrian Cindea: 01030265 has 78 stock items on it (being the only one shipment LU form OBD) can be done after deploy?
17/06/24, 08:43 - Adrian Cindea: *good morning
17/06/24, 09:16 - Benedetta Zini: good morning! Yes we can do it after deploy
17/06/24, 10:12 - Benedetta Zini: Have you check this?
17/06/24, 10:13 - Adrian Cindea: @Support Technician 21 please check ...
17/06/24, 10:15 - Razvan Voicu: one moment
17/06/24, 10:50 - Razvan Voicu: Yes indeed, it is not working
17/06/24, 10:50 - Razvan Voicu: since 24 apr
17/06/24, 10:52 - Razvan Voicu: IMG-20240617-WA0002.jpg (file allegato)
I believe because of this
17/06/24, 10:53 - Razvan Voicu: IMG-20240617-WA0003.jpg (file allegato)
17/06/24, 10:53 - Benedetta Zini: oooh... I didn't remember this 😞
17/06/24, 10:55 - Razvan Voicu: From what I remember, we had
DA D *
17/06/24, 10:56 - Benedetta Zini: Now I remember... I changed into D in order to be sure that no DA on picking stations
17/06/24, 10:56 - Benedetta Zini: because cranes didn't work
17/06/24, 10:56 - Benedetta Zini: now I set again DA and D/ HA and H
17/06/24, 10:57 - Razvan Voicu: Ok
17/06/24, 10:57 - Razvan Voicu: lets see if it works now

17/06/24, 10:57 - Benedetta Zini: IMG-20240617-WA0004.jpg (file allegato)
17/06/24, 10:58 - Benedetta Zini: thank you for checking
17/06/24, 12:25 - Benedetta Zini: In 5 min I'm going to set agvDisable = true
17/06/24, 12:34 - Benedetta Zini: You can start with deploy
17/06/24, 12:38 - Benedetta Zini: let me know when you are going to start
17/06/24, 12:38 - Support Technician 10: We are deploying the new location and after that we start with the normal deploy
17/06/24, 12:39 - Benedetta Zini: okay great
17/06/24, 12:46 - Adrian Cindea: standard dploy will start soon
17/06/24, 12:50 - Benedetta Zini: okay
17/06/24, 12:52 - Adrian Cindea: deploy is started
17/06/24, 12:52 - Adrian Cindea: we will announce when it is finished
17/06/24, 13:06 - Adrian Cindea: mfs start is in progress
17/06/24, 13:08 - Adrian Cindea: system is up but we will make standard checking procedure
17/06/24, 13:09 - Benedetta Zini: yes sure we wait
17/06/24, 13:14 - Support Technician 10: Deploy is done
17/06/24, 13:15 - Adrian Cindea: 01030265 was discharged <Questo messaggio è stato modificato>
17/06/24, 13:16 - Benedetta Zini: perfect thank you!
17/06/24, 13:23 - Benedetta Zini: Could you please tell me where I can find the list of fog graphs and their short ID?
17/06/24, 13:24 - Adrian Cindea: fog or category goods?
17/06/24, 13:25 - Adrian Cindea: wh047 fog, client MD017 goods category
17/06/24, 13:26 - Adrian Cindea: it is about good categories ... md017
17/06/24, 13:26 - Adrian Cindea: v
17/06/24, 13:26 - Adrian Cindea: IMG-20240617-WA0005.jpg (file allegato)
17/06/24, 13:26 - Benedetta Zini: In MD017 there are registration
17/06/24, 13:27 - Benedetta Zini: IMG-20240617-WA0006.jpg (file allegato)
🤔🤔
17/06/24, 13:27 - Benedetta Zini: I don't see them... and I would like to see them...
17/06/24, 13:30 - Benedetta Zini: Now we are going on lunch ... after lunch we wi start testing something
17/06/24, 13:30 - Adrian Cindea: enjoy your meal!
17/06/24, 13:30 - Benedetta Zini: Please send me the final list of deploy
17/06/24, 13:31 - Benedetta Zini: Thank you😊
17/06/24, 14:58 - Benedetta Zini: After deploy we can't see user
17/06/24, 14:58 - Benedetta Zini: IMG-20240617-WA0007.jpg (file allegato)
17/06/24, 14:58 - Benedetta Zini: only HBW03 and HBW10
17/06/24, 14:59 - Benedetta Zini: IMG-20240617-WA0009.jpg (file allegato)
17/06/24, 14:59 - Benedetta Zini: IMG-20240617-WA0008.jpg (file allegato)
17/06/24, 14:59 - Benedetta Zini: but users are logged
17/06/24, 15:05 - Adrian Cindea: i set them active on station
17/06/24, 15:05 - Adrian Cindea: we will see at next login <Questo messaggio è stato modificato>
17/06/24, 15:06 - Benedetta Zini: okay thank you
17/06/24, 15:33 - Benedetta Zini: one question about HA destack
17/06/24, 15:33 - Benedetta Zini: IMG-20240617-WA0010.jpg (file allegato)
HA parameter is set FALSE
17/06/24, 15:33 - Benedetta Zini: IMG-20240617-WA0012.jpg (file allegato)
but WAMAS consider it for empty request
17/06/24, 15:34 - Benedetta Zini: IMG-20240617-WA0011.jpg (file allegato)
this is the reason? I have to put H instead of HA?
17/06/24, 16:02 - Adrian Cindea: to send pallets from HBW1 to destacker = true <Questo messaggio è stato modificato>
17/06/24, 16:03 - Adrian Cindea: what do you want to obtain?
17/06/24, 16:04 - Adrian Cindea: MD500 is used for picking (empty request creation rules)
17/06/24, 16:05 - Adrian Cindea: i will cancel a lot of trasnport orders soon (i will inform you when i will do it due too high number)
17/06/24, 16:08 - Benedetta Zini: yes, the optimistic replanishment...
17/06/24, 16:10 - Benedetta Zini: the parameter
com.wamas.mfs.core.common.AGVHADestack.active regards the use or not at picking

station...

17/06/24, 16:11 - Benedetta Zini: ??

17/06/24, 16:11 - Adrian Cindea: it is used to provide stacks to destacker (nothing more)

17/06/24, 16:12 - Benedetta Zini: not pallet to pick stations?

17/06/24, 16:12 - Adrian Cindea: destackers remain empty

17/06/24, 16:12 - Adrian Cindea: it is false -> no HA/DA at station (though empty request contains them)

17/06/24, 16:12 - Benedetta Zini: mmh okay, I got confused

17/06/24, 16:13 - Adrian Cindea: parameter is to send stacks to destacker, MD500 is to create empty request with DA/HA <Questo messaggio è stato modificato>

17/06/24, 16:14 - Benedetta Zini: okay now it is clear for (I understand)

17/06/24, 16:27 - Benedetta Zini: Problem on broken boxes

17/06/24, 16:27 - Benedetta Zini: IMG-20240617-WA0013.jpg (file allegato)

17/06/24, 16:27 - Benedetta Zini: 52482395

17/06/24, 16:27 - Benedetta Zini: IMG-20240617-WA0014.jpg (file allegato)

17/06/24, 16:28 - Adrian Cindea: 1 PZ

17/06/24, 16:28 - Benedetta Zini: IMG-20240617-WA0015.jpg (file allegato)

host quantity is 1 piece

17/06/24, 16:28 - Adrian Cindea: talk to host than

17/06/24, 16:28 - Adrian Cindea: because SC (8 PZ)

17/06/24, 16:28 - Adrian Cindea: 1-7 as request ... is less than 1 SC

17/06/24, 16:29 - Adrian Cindea: it is not 1 PZ ... it is any value from 1 - 7 ...

17/06/24, 16:29 - Adrian Cindea: this issue is not solved

17/06/24, 16:29 - Adrian Cindea: solution is to change temporary the broken boxes

17/06/24, 16:30 - Adrian Cindea: 1-7 PZ is not multiple of SC (8 PZ)

17/06/24, 16:30 - Adrian Cindea: it is needed a solution as I wrote ...

17/06/24, 16:30 - Adrian Cindea: in case HOST does not send multiple of box to ignore broken boxes flag

17/06/24, 16:31 - Adrian Cindea: 1 PZ is a particular case ... but theoretical any value from 1-7 is in the same case ...

17/06/24, 16:33 - Adrian Cindea: 2 PZ from HOST for SC(8 PZ) is the same situation ...

17/06/24, 16:34 - Adrian Cindea: solution is what I said no multiple for host no check ...

17/06/24, 16:34 - Benedetta Zini: No...

17/06/24, 16:34 - Adrian Cindea: 9 from HOST (1 SC + 1 PZ) how to handle it? <Questo messaggio è stato modificato>

17/06/24, 16:35 - Benedetta Zini: the line is in pieces so I can discharge all

17/06/24, 16:35 - Adrian Cindea: what means 1 PZ for you?

17/06/24, 16:36 - Benedetta Zini: 1 piece = 1 PZ <Questo messaggio è stato modificato>

17/06/24, 16:36 - Adrian Cindea: 1 PZ in OBD line, one extra piece + x boxes ...?

17/06/24, 16:37 - Adrian Cindea: in case of 2 pieces ... it is allowed or not?

17/06/24, 16:37 - Adrian Cindea: HOST sends 2 pieces, SC(8 PZ) ... it is allowed to discharge or not?

17/06/24, 16:38 - Benedetta Zini: yes because the host send the order line in pieces

17/06/24, 16:38 - Adrian Cindea: it is not multiple, because all the time HOST send amounts in pieces

17/06/24, 16:38 - Benedetta Zini: whereas, if host send 2 boxes (1 box = 4 pieces) but I prepare 1 box + 2 pieces --> no discharge

17/06/24, 16:39 - Adrian Cindea: multiple of boxes ...

17/06/24, 16:39 - Benedetta Zini: okay that it is not a multiple, but it doesn't matter because the host sends the order line in pieces

17/06/24, 16:39 - Benedetta Zini: not in boxes

17/06/24, 16:40 - Adrian Cindea: the idea is multiple to be checked not 1 PZ

17/06/24, 16:40 - Adrian Cindea: in case HOST sends multiple of boxes + broken boxes = no allow to discharge pieces

17/06/24, 16:41 - Adrian Cindea: we need to clarify by email to not generate other issues

17/06/24, 16:41 - Adrian Cindea: in this moment no check for 1 PZ
18/06/24, 08:58 - Adrian Cindea: good morning
18/06/24, 08:59 - Adrian Cindea: A173 (too many TPOs to HBW1) - i started to cancel them to be able to monitor the situation after yesterday deploy
18/06/24, 09:00 - Adrian Cindea: just to know (i hope no side effects - i did it from MF014 - inly in status NEW for some specific items)
19/06/24, 12:22 - Benedetta Zini: IMG-20240619-WA0001.jpg (file allegato)
19/06/24, 12:22 - Benedetta Zini: Could you please check why in BP04 S02 there is a slaved pallet D with the slave B_DA?
19/06/24, 12:23 - Benedetta Zini: 60704761 master LU
01030652 D LU
19/06/24, 12:23 - Benedetta Zini: 😞😞
19/06/24, 12:35 - Adrian Cindea: yes
19/06/24, 12:43 - Benedetta Zini: I changed the cubature... but I think you can check logs...
19/06/24, 12:51 - Adrian Cindea: IMG-20240619-WA0002.jpg (file allegato)
it becomes empty ...
19/06/24, 12:52 - Adrian Cindea: IMG-20240619-WA0003.jpg (file allegato)
19/06/24, 12:52 - Adrian Cindea: 01030652 became empty and confirmed as empty
19/06/24, 12:52 - Adrian Cindea: it seems normal flow so far
19/06/24, 12:53 - Adrian Cindea: it seems an issue about TPO execution from station
19/06/24, 14:43 - Benedetta Zini: 60704761 was B_DA, but 01030652 was a D
19/06/24, 14:43 - Benedetta Zini: 60704761 had to be a B_D
19/06/24, 15:02 - Adrian Cindea: please open a ticket
19/06/24, 15:02 - Adrian Cindea: cubature is not computed properly
19/06/24, 15:22 - Chiara Lodesani, Lavoro: done
19/06/24, 15:42 - Adrian Cindea: thx
19/06/24, 15:55 - Benedetta Zini: Hai eliminato questo messaggio.
19/06/24, 15:55 - Benedetta Zini: @Support Technician 12 can I test A110 and A119 or I have to wait fix for A176?
20/06/24, 07:07 - Adrian Cindea: Test them
20/06/24, 07:08 - Adrian Cindea: A176 needs to be check in specification
20/06/24, 07:08 - Adrian Cindea: To decide bug or improvement
20/06/24, 07:16 - Giacomo Trivieri, Lavoro: IMG-20240620-WA0000.jpg (file allegato)
20/06/24, 07:19 - Giacomo Trivieri, Lavoro: Good morning unfortunately benedetta and chiara have yet to arrive at work.
20/06/24, 07:20 - Giacomo Trivieri, Lavoro: Can you solve the problem or do you necessarily need our help?
20/06/24, 07:34 - Support Technician 10: Hello I fixed the que now it should work
20/06/24, 07:39 - Giacomo Trivieri, Lavoro: Great guys let's keep an eye on the situation and catch up!
20/06/24, 07:39 - Giacomo Trivieri, Lavoro: 🤔
20/06/24, 07:43 - Benedetta Zini: A176 is an old bug....
20/06/24, 08:10 - Adrian Cindea: i need to check specification because there is no implementation related to host quantity only to delivered quantity and confirmation to host (message 24 is sent) ... (feature pieces from HOST)
20/06/24, 08:11 - Adrian Cindea: A176 is a bug, but "pieces from HOST" feature needs to be checked in specification
20/06/24, 08:12 - Adrian Cindea: we fixed A176 based on broken boxes flag and multiple of boxes (nothign related to pieces because it was never imeplemented)
20/06/24, 08:14 - Adrian Cindea: this is the reason to check specification (it is stange to not be implemented) even more to deicide specification of "pieces from HOST" feature after some years from going live ... i know there were many other issues during project phase
20/06/24, 08:15 - Adrian Cindea: any email about this topic from project phase will help us to clarify it
20/06/24, 08:41 - Benedetta Zini: It is inside specs, I will send you the paragraph
20/06/24, 08:41 - Adrian Cindea: please and thx ... and we will fix it
20/06/24, 08:44 - Benedetta Zini: IMG-20240620-WA0001.jpg (file allegato)
20/06/24, 08:44 - Benedetta Zini: IMG-20240620-WA0002.jpg (file allegato)

20/06/24, 08:44 - Adrian Cindea: i will check it right now
20/06/24, 08:44 - Benedetta Zini: thank you
20/06/24, 08:52 - Adrian Cindea: it is a bug
20/06/24, 08:52 - Adrian Cindea: thx for clarification
20/06/24, 08:54 - Benedetta Zini: thank you!
20/06/24, 12:30 - Andrea Brunetti: IMG-20240620-WA0011.jpg (file allegato)
20/06/24, 12:30 - Andrea Brunetti: IMG-20240620-WA0015.jpg (file allegato)
20/06/24, 12:30 - Andrea Brunetti: IMG-20240620-WA0013.jpg (file allegato)
20/06/24, 12:31 - Nicola Bernardi: houston we have a problem
20/06/24, 12:31 - Benedetta Zini: ☐☐
20/06/24, 12:32 - Nicola Bernardi: Can you check this please? 🙏
20/06/24, 12:32 - Benedetta Zini: IMG-20240620-WA0016.jpg (file allegato)
wamas created it on CU*126
20/06/24, 12:54 - Nicola Bernardi: is anyone watching?
20/06/24, 13:08 - Nicola Bernardi: N ticket: 01369898
20/06/24, 13:25 - Support Technician 7: I'll check
20/06/24, 13:38 - Support Technician 7: What does udc mean? Lu id?
20/06/24, 13:51 - Nicola Bernardi: 60701729
20/06/24, 13:52 - Nicola Bernardi: IMG-20240620-WA0017.jpg (file allegato)
20/06/24, 14:14 - Support Technician 7: Problem fixed
20/06/24, 14:15 - Support Technician 7: But we sent the LU to nok just to be sure
20/06/24, 14:34 - Nicola Bernardi: 🙌👍
25/06/24, 10:21 - Benedetta Zini: Hello! We will test A110 and A119 when the "broken boxes" issue will be resolved. I hope after next deploy
01/07/24, 17:14 - Support Technician 7: Hello
01/07/24, 17:16 - Support Technician 7: Regarding ticket 01371921, the station 3 is in EXPRESS_COURIER kind, but item needed for pick order 4465762 iz normal type
01/07/24, 17:16 - Support Technician 7: You have to change station kind
01/07/24, 17:27 - Chiara Lodesani, Lavoro: Hello, I don't think that is the problem because a station in express_courier can work also with normale type
01/07/24, 17:34 - Support Technician 7: INFO | [lp91] Picking order PickingOrder(4465762;WAMAS) cannot be started. Reason: is an express courier one, skip it.
01/07/24, 17:34 - Support Technician 7: from the logs
01/07/24, 17:34 - Support Technician 7: try to change station kind and see if picking order starts
01/07/24, 17:48 - Chiara Lodesani, Lavoro: Ok
01/07/24, 18:02 - Chiara Lodesani, Lavoro: I have tried to do it, but nothing is changed..
01/07/24, 18:43 - Support Technician 7: I'll check in a moment
01/07/24, 19:00 - Support Technician 7: I think the problem is now that there are 2 users conected on station 3 and wamas started picking order 4468176
01/07/24, 19:03 - Chiara Lodesani, Lavoro: the order is linked to the user 'lp91' and this is a problem because now this user isn't in site..
01/07/24, 19:04 - Chiara Lodesani, Lavoro: I try to assign the order to the user that is now at work station
01/07/24, 19:06 - Chiara Lodesani, Lavoro: nothing change
01/07/24, 19:14 - Support Technician 7: Yeah, I think you have to finish the new pick order
01/07/24, 19:14 - Support Technician 7: 4468176
01/07/24, 19:21 - Chiara Lodesani, Lavoro: He has already finished it..
01/07/24, 19:24 - Support Technician 7: I still see user "lp91" assigned to 4465762
01/07/24, 19:24 - Chiara Lodesani, Lavoro: yes, because the order seems blocked..I can't do nothing..
01/07/24, 19:25 - Chiara Lodesani, Lavoro: we'll check it tomorrow
01/07/24, 19:25 - Support Technician 7: Wait, let me try
01/07/24, 19:26 - Support Technician 7: User mmop101?
01/07/24, 19:27 - Chiara Lodesani, Lavoro: He is now at work station
01/07/24, 19:27 - Support Technician 7: Let me try change to him
01/07/24, 19:28 - Support Technician 7: Maybe now?
01/07/24, 19:39 - Chiara Lodesani, Lavoro: Nothing change. We'll check tomorrow

08/07/24, 20:07 - Tommaso Guizzardi, Lavoro: IMG-20240708-WA0000.jpg (file allegato)
08/07/24, 20:28 - Tommaso Guizzardi, Lavoro: Non it seems all okay
08/07/24, 21:34 - Giuseppe Romano, Lavoro: IMG-20240708-WA0001.jpg (file allegato)
08/07/24, 21:52 - Support Technician 15: Hello
08/07/24, 21:52 - Giuseppe Romano, Lavoro: Hello
08/07/24, 21:53 - Support Technician 15: It is working now correctly?
08/07/24, 21:53 - Giuseppe Romano, Lavoro: Yes, in this moment it seems all ok
08/07/24, 21:54 - Giuseppe Romano, Lavoro: Thanks you
08/07/24, 21:54 - Support Technician 15: Ok. You're welcome!
10/07/24, 09:21 - Benedetta Zini: Hello! Sorry for disturbing you but we have problems with TPOs with mobile terminal
10/07/24, 09:22 - Benedetta Zini: If an user want to move a pallet that have a TPO, wamas reply with "no transport order"
10/07/24, 09:23 - Benedetta Zini: IMG-20240710-WA0002.jpg (file allegato)
10/07/24, 09:24 - Benedetta Zini: Hai eliminato questo messaggio.
10/07/24, 09:24 - Benedetta Zini: Hai eliminato questo messaggio.
10/07/24, 09:43 - Benedetta Zini: Hai eliminato questo messaggio.
10/07/24, 09:44 - Razvan Voicu: Do you still have this problem?
10/07/24, 09:50 - Benedetta Zini: Hi Razvan! I'm checking with the other guys and it seems not anymore...
10/07/24, 09:50 - Benedetta Zini: Hai eliminato questo messaggio.
10/07/24, 10:48 - Razvan Voicu: Can we stop/start station 3?
10/07/24, 10:48 - Benedetta Zini: let me ask
10/07/24, 10:48 - Razvan Voicu: IMG-20240710-WA0004.jpg (file allegato)
Indeed, something is not right. Last pallet on D01 was 4 hours ago
10/07/24, 10:49 - Benedetta Zini: yes I know.... 😞
10/07/24, 10:49 - Benedetta Zini: you can proceed
10/07/24, 10:50 - Razvan Voicu: ok, he can login again <Questo messaggio è stato modificato>
10/07/24, 10:50 - Benedetta Zini: okay
10/07/24, 10:51 - Razvan Voicu: IMG-20240710-WA0005.jpg (file allegato)
10/07/24, 10:51 - Razvan Voicu: let's see if this gets here
10/07/24, 10:51 - Benedetta Zini: 🙏
10/07/24, 10:52 - Benedetta Zini: it seemed that only one destination was available
10/07/24, 10:53 - Razvan Voicu: yes, very weird
10/07/24, 10:54 - Benedetta Zini: it seems it doesn't work...
10/07/24, 10:55 - Benedetta Zini: there is one pallet on BP03 D02
10/07/24, 10:56 - Benedetta Zini: and this one is in waiting...
10/07/24, 10:56 - Benedetta Zini: but BP03 D01 is empty...
10/07/24, 10:59 - Razvan Voicu: give it a bit of time, I think it's waiting for other pick orders
10/07/24, 10:59 - Benedetta Zini: mmh
10/07/24, 10:59 - Benedetta Zini: I'm not sure
10/07/24, 11:08 - Razvan Voicu: Me neither, lets wait and see 😞
10/07/24, 11:41 - Benedetta Zini: and..?
10/07/24, 11:42 - Benedetta Zini: it is still waiting
10/07/24, 12:02 - Razvan Voicu: Checking now
10/07/24, 12:19 - Razvan Voicu: IMG-20240710-WA0006.jpg (file allegato)
On a side note, you have almost 800 compartments blocked that most likely are ok and can be unblocked
10/07/24, 12:19 - Benedetta Zini: yes yes we know
10/07/24, 12:19 - Razvan Voicu: Ok
10/07/24, 12:25 - Razvan Voicu: Someone canceled its TPO
10/07/24, 12:25 - Razvan Voicu: but is station 3 blocked now?
10/07/24, 12:26 - Razvan Voicu: It has 3 POs assigned, two of them are from two hours ago
10/07/24, 12:26 - Razvan Voicu: Is noone working at the station or is the station blocked <Questo messaggio è stato modificato>
10/07/24, 12:28 - Benedetta Zini: me no
10/07/24, 12:28 - Benedetta Zini: I don't know who canceled tpo...
10/07/24, 12:28 - Razvan Voicu: IMG-20240710-WA0007.jpg (file allegato)

10/07/24, 12:29 - Benedetta Zini: now there is a LU
 10/07/24, 12:29 - Benedetta Zini: pointing BP03
 10/07/24, 12:30 - Benedetta Zini: As you can see now
 10/07/24, 12:30 - Benedetta Zini: pick #3 has a pallet on D02
 10/07/24, 12:30 - Benedetta Zini: two LUs are pointing D01
 10/07/24, 12:30 - Benedetta Zini: But both TPOs are in status new
 10/07/24, 12:31 - Benedetta Zini: IMG-20240710-WA0008.jpg (file allegato)
 10/07/24, 12:32 - Razvan Voicu: IMG-20240710-WA0009.jpg (file allegato)
 8957 is a negative with TEMP6843 at buffer. Probably when BP03 S* will be empty, TEMP will move from buffer to source and 8957 will move to D01
 10/07/24, 12:32 - Razvan Voicu: but nevermind this
 10/07/24, 12:32 - Razvan Voicu: let's talk about the orders at station 3. Can the user do the pick for the other POs?
 10/07/24, 12:33 - Razvan Voicu: IMG-20240710-WA0010.jpg (file allegato)
 Is anyone working at station 3? This PO is active for 2 hours
 10/07/24, 12:33 - Benedetta Zini: but why can't it go now? I mean pallet inside HBW1
 10/07/24, 12:33 - Razvan Voicu: Honestly, I don't know
 10/07/24, 12:33 - Benedetta Zini: user told me that he is using pick #3
 10/07/24, 12:33 - Razvan Voicu: There are so many rules and exceptions and not sure which one is blocking it, if any
 10/07/24, 12:34 - Benedetta Zini: okay
 10/07/24, 12:34 - Razvan Voicu: I didn't see any pick progression at station for the last half hour
 10/07/24, 12:36 - Benedetta Zini: but if the destination is empty the pallet has to go
 10/07/24, 12:36 - Razvan Voicu: probably you are right
 10/07/24, 12:37 - Razvan Voicu: But I want to see that if the user finishes this PO and the next PO comes, if the pallet goes or not
 10/07/24, 12:37 - Benedetta Zini: okay
 10/07/24, 12:37 - Benedetta Zini: you are right
 10/07/24, 12:38 - Razvan Voicu: To narrow down my search
 10/07/24, 12:39 - Razvan Voicu: From what I remember we have some checks so we don't block the station
 10/07/24, 12:39 - Razvan Voicu: And cause a deadlock, where a destination pallet arrives, but the source has no empty location and this blocks it
 10/07/24, 12:42 - Benedetta Zini: are you available this afternoon starting from 14:30?
 10/07/24, 12:43 - Benedetta Zini: To take a look together at pick #3
 10/07/24, 12:45 - Razvan Voicu: It depends a little, I'm on a business trip, but I can check it. If not, I will ask someone else
 10/07/24, 12:45 - Razvan Voicu: But still, I see no pick progress at station 3
 10/07/24, 12:45 - Razvan Voicu: if the station is blocked and the user can't work, then it's another problem
 10/07/24, 12:47 - Benedetta Zini: the user can work but he is in another pick station at the moment...
 10/07/24, 12:47 - Razvan Voicu: Line 145434: INFO 2024-07-10 12:41:57.606 [Worker-Transport-HBW1-142][005c01] - AMALLOC(#1221901|1|51958957): canEnterSequence group=PICK3_TARGET checked=51958957 loc=HRA01X035Y11Z11 comparedSequence=[PICK3_TARGET:4476696|0] max=2 rawSeqs=[TuSequeunceLoad [name=TEMP6818 tu=TEMP6818 loc=PDS03L02 sequence=null], TuSequeunceLoad [name=VIRTUAL-32-1 sequence=[PICK3_TARGET:32|1]], TuSequeunceLoad [name=VIRTUAL-4476632-1 sequence=[PICK3_TARGET:4476632|1]], TuSequeunceLoad [name=51958957 tu=51958957 loc=HRA01X035Y11Z11 sequence=[PICK3_TARGET:4476696|0]]] sameSeq=[TuSequeunceLoad [name=51958957 tu=51958957 loc=HRA01X035Y11Z11 sequence=[PICK3_TARGET:4476696|0]]] allowed=[TEMP6818, VIRTUAL-32-1] notAllowed=[VIRTUAL-4476632-1, 51958957] is allowed=false [PHASE=checkTuHasToWait] [PrjSequenceManager]

At the moment, because of the sequence release, 58957 is not allowed to enter the sequence (4476632 and 4476623 are in front of it)

10/07/24, 12:47 - Razvan Voicu: then let's wait for him to finish the pick order and then I can check more
 10/07/24, 12:50 - Benedetta Zini: IMG-20240710-WA0011.jpg (file allegato)

10/07/24, 12:50 - Benedetta Zini: But why there isn't no empty LU request for 4476632
10/07/24, 12:51 - Benedetta Zini: LU is already in a source location, whereas in OG525 no empty pallet is assigned
10/07/24, 12:53 - Benedetta Zini: in OG525 you can see:
TEMP6818 --> 4476623 (already at pick #3)
TEMP6843 --> 4476696 (waiting negative pallet)
.... --> 4476632 (no empty pallet assigned)
=
pick #3 is slow down
10/07/24, 12:54 - Benedetta Zini: so WAMAS has to send either LU of negative pick for PO 4476696 or empty LU for PO 4476632
10/07/24, 12:55 - Benedetta Zini: without waiting for the end of PO 4476623, because pick #3 has a destination location empty
10/07/24, 12:55 - Benedetta Zini: let me know if I explain my self well
10/07/24, 13:43 - Razvan Voicu: because it already has 2 empty requests for station. From what I remeber the limit is 2
10/07/24, 13:54 - Razvan Voicu: Ok, I see pick was done from D01
10/07/24, 13:54 - Razvan Voicu: I forced the LU to move there
10/07/24, 13:54 - Razvan Voicu: let's see if the problem persists
10/07/24, 14:24 - Benedetta Zini: okay so base on your message, LU for negative pick of PO 4476696 should have been at pick station
10/07/24, 14:46 - Razvan Voicu: yeah, probably.
10/07/24, 14:46 - Razvan Voicu: I forced it to go to station and now I think all is ok
10/07/24, 14:46 - Razvan Voicu: maybe that LU caused the station issues
10/07/24, 14:46 - Benedetta Zini: let's see how it behaves now...
10/07/24, 14:46 - Razvan Voicu: IMG-20240710-WA0012.jpg (file allegato)
10/07/24, 14:47 - Benedetta Zini: mmh I don't know... because it has been weeks that pick station #3 behaves like this morning
10/07/24, 14:49 - Benedetta Zini: It happens again now
10/07/24, 14:49 - Benedetta Zini: IMG-20240710-WA0013.jpg (file allegato)
TEMP6656 is on its way to go to pick station #3
72100675 (for negative picking) is in waiting mode
10/07/24, 14:50 - Benedetta Zini: IMG-20240710-WA0015.jpg (file allegato)
both destination are empty
10/07/24, 14:51 - Benedetta Zini: IMG-20240710-WA0014.jpg (file allegato)
empty pallet for negative pick is already at picking station #3
10/07/24, 14:58 - Razvan Voicu: ok
10/07/24, 14:58 - Razvan Voicu: i check
10/07/24, 15:09 - Razvan Voicu: □
10/07/24, 15:09 - Razvan Voicu: found problem
10/07/24, 15:10 - Razvan Voicu: There was a HA empty request leftover we created when we tested the CR which was not consumed
10/07/24, 15:10 - Razvan Voicu: and this was seen in the sequence of PICK3_TARGET
10/07/24, 15:10 - Razvan Voicu: and blocked other TUs
10/07/24, 15:16 - Benedetta Zini: VID-20240710-WA0017.mp4 (file allegato)

10/07/24, 15:16 - Benedetta Zini: no good..... □□
10/07/24, 15:17 - Benedetta Zini: please check if there is an empty request leftover on other pick stations
10/07/24, 15:59 - Razvan Voicu: seems ok
10/07/24, 16:55 - Benedetta Zini: Okay thank you
11/07/24, 01:27 - Tommaso Guizzardi, Lavoro: IMG-20240711-WA0000.jpg (file allegato)
We have a problem
11/07/24, 01:29 - Tommaso Guizzardi, Lavoro: All sources can't be sent away from pick stations
11/07/24, 01:30 - Support Technician 15: Hi, i am checking
11/07/24, 01:39 - Support Technician 15: It is still the same ?
11/07/24, 01:39 - Tommaso Guizzardi, Lavoro: It seems like in some picking station is working now
11/07/24, 01:40 - Support Technician 15: Yes I see

11/07/24, 01:41 - Tommaso Guizzardi, Lavoro: Now is all working
11/07/24, 01:42 - Support Technician 15: Great
11/07/24, 01:42 - Support Technician 15: Can I close the ticket now?
11/07/24, 01:42 - Tommaso Guizzardi, Lavoro: Is there something I could do to avoid that problem?
11/07/24, 01:43 - Tommaso Guizzardi, Lavoro: Yes it seems all okay
11/07/24, 01:46 - Support Technician 15: Not really. It seemed like mfsPalQueue got stuck. But now should be fine
11/07/24, 01:46 - Tommaso Guizzardi, Lavoro: Good
11/07/24, 08:38 - Benedetta Zini: Hello! Why did this happen? It is the second night that we have problems with the system
11/07/24, 10:59 - Benedetta Zini: VID-20240711-WA0001.mp4 (file allegato)
11/07/24, 12:12 - Benedetta Zini: regarding ticket 01373354 why the system send AF pallet inside HBW1 and why the system wanted to use AF for negative picking?
11/07/24, 12:13 - Benedetta Zini: AF pallet can't go inside HBW1 and AF is not use as a source pallet!
11/07/24, 12:13 - Benedetta Zini: why did you have to add a parameter regarding the stack of AF pallet?
12/07/24, 08:11 - Adrian Cindea: 01373354 - as empty pallet was sent in HBW1 being put on a B ...
12/07/24, 08:12 - Adrian Cindea: it crashed MFS and i added a parameter for it ... to avoid MFS to crash due to missing parameter
12/07/24, 08:13 - Adrian Cindea: it was an empty AF sent to HBW1 ... systme tried to put on B and crashed
12/07/24, 08:14 - Adrian Cindea: it is clear AF has no stock for picking ... but for unpikcing it can be used ...
12/07/24, 08:14 - Adrian Cindea: it is my mistake ... related to negative picking
12/07/24, 08:16 - Adrian Cindea: the idea was to not crash MFS anymore
12/07/24, 08:31 - Adrian Cindea: 89509224 - was in station based on CC015 and it was reported as AF by PLC at wunderwuzzi
12/07/24, 08:51 - Benedetta Zini: AF pallet can't be used for negative picking... AF pallet is used only for picking <700 kg
12/07/24, 10:02 - Benedetta Zini: Hello! we have problems with TPOs again...
12/07/24, 10:02 - Benedetta Zini: could you please help me? because we have all trucks blocked
12/07/24, 10:02 - Benedetta Zini: I'm going to send you an example
12/07/24, 10:03 - Razvan Voicu: Sure
12/07/24, 10:08 - Razvan Voicu: I will need 1-2 barcodes and the mobile terminal id (or the user logged) from which you are trying to create TPO <Questo messaggio è stato modificato>
12/07/24, 10:11 - Benedetta Zini: I found the problem...
12/07/24, 10:11 - Benedetta Zini: IMG-20240712-WA0008.jpg (file allegato)
12/07/24, 10:11 - Benedetta Zini: and user can't move the pallet
12/07/24, 10:11 - Benedetta Zini: 😞😞
12/07/24, 10:11 - Benedetta Zini: I don't know if we have another cases like this inside HBW1...
12/07/24, 10:11 - Benedetta Zini: maybe a leftover of an old bug
12/07/24, 10:13 - Razvan Voicu: I will check
12/07/24, 10:13 - Razvan Voicu: What's the actual pallet type? D or DA?
12/07/24, 10:13 - Benedetta Zini: D
12/07/24, 10:13 - Benedetta Zini: 52374866 is a D
12/07/24, 10:13 - Benedetta Zini: DA can't go inside HBW1
12/07/24, 10:15 - Razvan Voicu: Questo messaggio è stato eliminato.
12/07/24, 10:15 - Razvan Voicu: could it be possible that when user created, he pressed DA instead of D?
12/07/24, 10:15 - Razvan Voicu: Maybe people still getting used that there's only one D option and now it's DA and D?
12/07/24, 10:16 - Razvan Voicu: edited it
12/07/24, 10:16 - Benedetta Zini: 😞😞😞
12/07/24, 10:17 - Razvan Voicu: Or it might be A177 bug, we committed fix, just needs to be deployed
12/07/24, 10:19 - Razvan Voicu: IMG-20240712-WA0010.jpg (file allegato)
we have 4 more

12/07/24, 10:21 - Razvan Voicu: you want me to edit them to D?
 12/07/24, 10:21 - Benedetta Zini: yes please 🙏
 12/07/24, 10:22 - Benedetta Zini: okay let see after deploy of patch A177
 12/07/24, 10:22 - Razvan Voicu: IMG-20240712-WA0011.jpg (file allegato)
 12/07/24, 10:23 - Razvan Voicu: same problem with HA
 12/07/24, 10:23 - Razvan Voicu: I will edit them too
 12/07/24, 10:24 - Benedetta Zini: okay thank you
 12/07/24, 10:24 - Benedetta Zini: thanks for checking
 15/07/24, 14:55 - Benedetta Zini: Hello, why for PO 4481453 WAMAS doesn't assign an empty request DA;D but only D? the total weight is 473,6 Kg < 500 Kg
 15/07/24, 14:56 - Benedetta Zini: IMG-20240715-WA0000.jpg (file allegato)
 15/07/24, 15:12 - Adrian Cindea: hi
 15/07/24, 15:12 - Adrian Cindea: wait a second
 15/07/24, 15:19 - Adrian Cindea: IMG-20240715-WA0001.jpg (file allegato)
 15/07/24, 15:20 - Adrian Cindea: it seems more than 500 kg
 15/07/24, 15:20 - Adrian Cindea: i dont know yet why
 15/07/24, 15:24 - Adrian Cindea: it is the weight of source pallets ... i will check the logs ...
 15/07/24, 15:26 - Benedetta Zini: I will check too...
 15/07/24, 15:30 - Adrian Cindea: 473 + 32 (D)?
 15/07/24, 15:30 - Adrian Cindea: > 500 kg
 15/07/24, 15:30 - Adrian Cindea: did you consider D?
 15/07/24, 15:31 - Adrian Cindea: i will check in the software how it is computed the PO weight
 15/07/24, 15:31 - Benedetta Zini: I do not consider the D 😞
 15/07/24, 15:31 - Adrian Cindea: i dont know if it is done to be honest
 15/07/24, 15:31 - Adrian Cindea: i will check it who weight is computed ...
 15/07/24, 15:42 - Adrian Cindea: it is not included ... but it due to rounding up ...
 15/07/24, 15:43 - Adrian Cindea: 6.5 SC = 7 SC
 15/07/24, 15:43 - Adrian Cindea: 3.5 SC = 4 SC
 15/07/24, 15:43 - Adrian Cindea: -> 11 SC instead of 10 SC ... > 500 kg
 15/07/24, 15:44 - Adrian Cindea: 13/2 = 6.5 roundup with half = 7 SC -> 14 PZ
 15/07/24, 15:44 - Adrian Cindea: the same for 7/2 = 4 -> 8 PZ
 15/07/24, 15:45 - Adrian Cindea: total 22 PZ > 500 KG
 15/07/24, 16:04 - Benedetta Zini: Mmh okay I understand...
 16/07/24, 10:39 - Benedetta Zini: Hello!
 16/07/24, 10:40 - Benedetta Zini: It is happening now issue N44 at pick #1 and #4
 16/07/24, 10:40 - Benedetta Zini: IMG-20240716-WA0003.jpg (file allegato)
 16/07/24, 10:40 - Benedetta Zini: I marked it "need to be checked live" so I kindly ask you to take a look asap
 16/07/24, 10:41 - Benedetta Zini: LUs are:
 52402639 BP04 D01
 52560170 BP01 D02

TPOs on wamas but no mission on Cway

16/07/24, 10:42 - Support Technician 10: Hello I will check
 16/07/24, 10:43 - Benedetta Zini: thank you!
 16/07/24, 10:43 - Benedetta Zini: IMG-20240716-WA0004.jpg (file allegato)
 as you can see here... #57 is BP04 D01 on Cway but inside the list marked in blue there isn't #57
 16/07/24, 10:43 - Benedetta Zini: same thing for BP01 D02
 16/07/24, 11:19 - Benedetta Zini: any news?
 16/07/24, 11:19 - Support Technician 10: I am looking over the logs now
 16/07/24, 11:20 - Support Technician 10: The telegram for one of the Lu looks strange
 16/07/24, 11:24 - Benedetta Zini: oh okay...
 16/07/24, 11:24 - Benedetta Zini: let me know
 16/07/24, 11:25 - Support Technician 10: I think we can cancel the tpo and recreate them for it to work but it's strange how we got here
 16/07/24, 11:25 - Benedetta Zini: please proceed with both LUs
 16/07/24, 11:42 - Support Technician 10: It seems that doesn't work
 16/07/24, 11:42 - Benedetta Zini: 😞😞

16/07/24, 11:45 - Benedetta Zini: we have to move them manually?
16/07/24, 11:46 - Support Technician 10: I will try something else let me 10 more minute
16/07/24, 11:46 - Benedetta Zini: okay thank you
16/07/24, 11:48 - Support Technician 10: On Lu 52402639 is Lu 01048932?
16/07/24, 11:49 - Benedetta Zini: yes
16/07/24, 11:57 - Support Technician 10: Ok it seems that we generate 2 request to the agv and one gets deleted when agv gets it can we keep the pallets more or you need them?
16/07/24, 11:59 - Benedetta Zini: yes, you can keep them
16/07/24, 12:00 - Benedetta Zini: (great that you found something! 🙏)
16/07/24, 12:00 - Support Technician 10: Ok I will do some more test with the tpo to see what the issue is
16/07/24, 12:00 - Benedetta Zini: okay thank you
16/07/24, 12:19 - Benedetta Zini: 52545179 isn't at BP01 D01 anymore...
16/07/24, 12:19 - Support Technician 10: Ok now both Lu have a tpo on hive
16/07/24, 12:19 - Benedetta Zini: ATX 03 pick it up, but LU still logically in BP01 D01..
16/07/24, 12:20 - Support Technician 10: Checking
16/07/24, 12:23 - Support Technician 10: It seems that the system took 639 are you sure that is not the tu on the agv?
16/07/24, 12:24 - Benedetta Zini: Now yes... but before it took BP01 D01 and wamas didn't update the location
16/07/24, 12:25 - Benedetta Zini: 52560170 no order on Cway
16/07/24, 12:48 - Support Technician 10: Ok now the pallet it's moving
16/07/24, 14:09 - Benedetta Zini: Great
16/07/24, 14:09 - Benedetta Zini: Did you find the issue?
16/07/24, 14:10 - Support Technician 10: Yes on one of the pallets the issue was clear on another I am still looking over the code
16/07/24, 15:03 - Benedetta Zini: Okay thank you!
16/07/24, 15:07 - Adrian Cindea: Testart is in progress
16/07/24, 15:07 - Adrian Cindea: I did not have any soubf
16/07/24, 15:07 - Adrian Cindea: Sound
16/07/24, 15:08 - Benedetta Zini: hope that you have now 🙏
16/07/24, 15:08 - Adrian Cindea: Starting in progress
16/07/24, 15:09 - Chiara Lodesani, Lavoro: Hello, as this morning, we have a LU 52545615 on BP12 D02 without TPO, can you check please?
16/07/24, 15:34 - Chiara Lodesani, Lavoro: @Support Technician 10 can you check please?
16/07/24, 15:52 - Support Technician 10: Yes I will check
16/07/24, 16:08 - Support Technician 10: It's now on on the s46 but I don't think it will got to the final destination
16/07/24, 16:16 - Chiara Lodesani, Lavoro: have you done something? when I checked there wasn't TPO on Cway
16/07/24, 16:17 - Support Technician 10: Yea I cancels the tpo in Wamas and delete the order from agv pool
16/07/24, 16:17 - Support Technician 10: But the issue is with how we create the tpo I am still looking into that
16/07/24, 16:17 - Chiara Lodesani, Lavoro: ok
16/07/24, 17:44 - Benedetta Zini: IMG-20240716-WA0011.jpg (file allegato)
16/07/24, 17:45 - Benedetta Zini: we have problems with all TPOs (manual area with manual allocation and spontaneous) for example LU 52105377
16/07/24, 17:45 - Benedetta Zini: another example 52545549
16/07/24, 17:45 - Benedetta Zini: could you please check?
16/07/24, 17:56 - Benedetta Zini: also foiling tpos are blocked
16/07/24, 17:56 - Benedetta Zini: 😞
16/07/24, 18:01 - Benedetta Zini: IMG-20240716-WA0012.jpg (file allegato)
16/07/24, 18:02 - Benedetta Zini: but it has a tpo
16/07/24, 18:09 - Benedetta Zini: we can't move pallet in manual area, whereas for example at foiling area I can move pallet from NOK to CU295 but I can't move a pallet from NOK to S95 A02
16/07/24, 18:10 - Benedetta Zini: I'm trying to call Helpdesk in order to open a ticket but no one answer me 😞
16/07/24, 18:11 - Benedetta Zini: I've been waiting for 10 minutes

16/07/24, 18:11 - Support Technician 10: I am not near my laptop I will ask cc to open a ticket on our side
16/07/24, 18:12 - Benedetta Zini: thank youuu
16/07/24, 18:13 - Benedetta Zini: because the helpdesk seems to be disappeared... no one answer me
16/07/24, 18:13 - Support Technician 10: I think you guys call the cc in Italy I don't know nothing about that 😊
16/07/24, 18:13 - Benedetta Zini: yes 😊
16/07/24, 18:14 - Benedetta Zini: but I think it is a problem of terminal vehicle
16/07/24, 18:22 - Support Technician 10: They will create a ticket with you as contact person and will announce the person on call
16/07/24, 18:22 - Benedetta Zini: oookay
16/07/24, 18:22 - Benedetta Zini: thank you
16/07/24, 18:30 - Benedetta Zini: Also TPOs at loading
16/07/24, 18:38 - Support Technician 7: Hi, can you check tpos now?
16/07/24, 18:38 - Benedetta Zini: yes sure
16/07/24, 18:41 - Benedetta Zini: they are not working at loading area
16/07/24, 18:41 - Benedetta Zini: user is kick out from the mobile terminal
16/07/24, 18:41 - Benedetta Zini: IMG-20240716-WA0014.jpg (file allegato)
16/07/24, 18:42 - Benedetta Zini: manual area is not working
16/07/24, 18:42 - Support Technician 7: Yup, give me a sec I think I found the problem
16/07/24, 18:42 - Benedetta Zini: okay great
16/07/24, 18:43 - Benedetta Zini: example at loading --> 70648061, user frammaccal
16/07/24, 18:53 - Benedetta Zini: did you find the problem?
16/07/24, 19:00 - Benedetta Zini: @Support Technician 7 ?
16/07/24, 19:02 - Support Technician 7: Can you check now?
16/07/24, 19:02 - Benedetta Zini: yessssss
16/07/24, 19:04 - Benedetta Zini: it doesn't work 😞😞😞😞😞😞😞😞😞😞
16/07/24, 19:05 - Support Technician 7: Yeah, the queue for mobile terminal gets stuck because of a problem with LU 5254615
16/07/24, 19:05 - Support Technician 7: Let me try and fix problem on this LU
16/07/24, 19:06 - Benedetta Zini: mmh LU with 7 number? 😊 it is not possible...
16/07/24, 19:07 - Support Technician 7: I forgot one number 🤔
16/07/24, 19:07 - Support Technician 7: This one
16/07/24, 19:19 - Support Technician 7: Did you do something?
16/07/24, 19:25 - Benedetta Zini: we move out the LU....
16/07/24, 19:25 - Benedetta Zini: and now loading area and foiling area are okay
16/07/24, 19:25 - Support Technician 7: Looks like its working now
16/07/24, 19:25 - Benedetta Zini: I'm waiting a feedback from manual area
16/07/24, 19:26 - Benedetta Zini: yes... but why?
16/07/24, 19:26 - Support Technician 7: Because that LU was blocking the messaging queue for mobile
16/07/24, 19:27 - Benedetta Zini: but why?? 😞😞
16/07/24, 19:27 - Benedetta Zini: it was in automatic area... why is it blocked the massaging queue for mobile?
16/07/24, 19:31 - Support Technician 7: Hm, good question
16/07/24, 19:32 - Support Technician 7: Could somebody scan it by mistake in the mobile terminal?
16/07/24, 19:36 - Support Technician 7: We can do further investigations tomorrow, during office hours, if you want to
16/07/24, 20:01 - Benedetta Zini: Yes please
17/07/24, 08:19 - Adrian Cindea: good morning
17/07/24, 08:40 - Chiara Lodesani, Lavoro: hello
17/07/24, 08:58 - Benedetta Zini: do have update about ticket 01374938?
17/07/24, 11:10 - Adrian Cindea: it is related to i we will prepare an email soon
17/07/24, 11:10 - Adrian Cindea: with explanation ...
17/07/24, 11:12 - Adrian Cindea: yesterday issues .. they are retaled for FH0411/12 - which are not physically and in WAMAS there were unblocked yesterday (and now they are blocked) ...
17/07/24, 11:12 - Adrian Cindea: it takes some time ... but we are working on it

...

17/07/24, 11:13 - Adrian Cindea: NON SBLOCCARE! BYPASS PER PASSAGGIO AGV - for HF0411 and FH0412

17/07/24, 11:13 - Adrian Cindea: FH0401-06 - bagno!

17/07/24, 11:14 - Adrian Cindea: as blockage reason

17/07/24, 11:14 - Adrian Cindea: IMG-20240717-WA0007.jpg (file allegato)

17/07/24, 11:15 - Adrian Cindea: FH0407-FH0410

17/07/24, 11:15 - Adrian Cindea: 4 (FH0407-1FH0410) are physically and others (FH0401-FH0406 and FH0411, FH0412) must be blocked in WAMAS

17/07/24, 12:12 - Benedetta Zini: IMG-20240717-WA0008.jpg (file allegato) this one?

17/07/24, 12:41 - Adrian Cindea: yes ...

17/07/24, 12:41 - Adrian Cindea: FH04 - 12 locations in WAMAS and 4 are used (others must be kept blocked)

17/07/24, 12:46 - Benedetta Zini: Yes I know, but really the reason of Yesterday blocked is because plcreparto5 unlocked FH0412 at 6am?

17/07/24, 12:48 - Adrian Cindea: IMG-20240717-WA0009.jpg (file allegato)

17/07/24, 12:49 - Adrian Cindea: hive does not have these locations

17/07/24, 12:49 - Adrian Cindea: IMG-20240717-WA0010.jpg (file allegato)

17/07/24, 12:49 - Benedetta Zini: Okay... right... I understand

17/07/24, 12:50 - Benedetta Zini: I have to find plcreparto5 and ask him why unlocked FH0412 location 😞

17/07/24, 12:50 - Adrian Cindea: destination is unknown for AGV(cway)

17/07/24, 12:51 - Benedetta Zini: but WAMAS is still very sensible

17/07/24, 12:51 - Adrian Cindea: automation stops in unknown conditions ..

17/07/24, 12:52 - Benedetta Zini: clear...

17/07/24, 12:52 - Adrian Cindea: due to possible side effects ...

17/07/24, 12:53 - Benedetta Zini: okay... I have definitely find plcreparto5

17/07/24, 12:53 - Benedetta Zini: 😊😊

17/07/24, 13:10 - Adrian Cindea: IMG-20240717-WA0011.jpg (file allegato)

17/07/24, 14:31 - Benedetta Zini: yes i know...

18/07/24, 09:08 - Benedetta Zini: Good morning (not for us....)

We have problems with mobile terminal 😞

18/07/24, 09:09 - Benedetta Zini: User is kicked out of the mobile terminal while is trying to recognize and load a LU

18/07/24, 09:09 - Support Technician 10: Hello can you provide an barcode

18/07/24, 09:09 - Adrian Cindea: in general or it is for a specific barcode?

18/07/24, 09:10 - Benedetta Zini: yes I'm waiting an LU from loading area

18/07/24, 09:11 - Benedetta Zini: general

18/07/24, 09:13 - Benedetta Zini: It seems to working now...

18/07/24, 09:14 - Benedetta Zini: I don't know what happened because all users were kicked out from mobile terminal...

18/07/24, 09:15 - Benedetta Zini: I keep monitoring the situation

18/07/24, 09:26 - Adrian Cindea: maybe a network issue

18/07/24, 09:26 - Benedetta Zini: maybe yes..

19/07/24, 10:27 - Support Technician 10: Hello for the new ticket regarding the station 4 you want to change the Lu from type Z to type HA right?

19/07/24, 10:29 - Chiara Lodesani, Lavoro: IMG-20240719-WA0005.jpg (file allegato)

Hello. No, now at pick station #4 there is an HA and we want to change it in AF/F

19/07/24, 10:31 - Chiara Lodesani, Lavoro: IMG-20240719-WA0006.jpg (file allegato)

I don't know why at pick station there is this message referring to pallet Z..

19/07/24, 10:49 - Razvan Voicu: Here you have source 58799805 selected which is type Z and you selected destination 52409640 which is HA. Wamas informs that HA is not compatible with Z

19/07/24, 10:49 - Razvan Voicu: You have a HA pallet at destination and you want to change it's load aid to AF/F?

19/07/24, 10:50 - Chiara Lodesani, Lavoro: oh, yes.. right

19/07/24, 10:50 - Chiara Lodesani, Lavoro: yes!

19/07/24, 10:51 - Razvan Voicu: you have to go in SM023 and edit the LU

19/07/24, 10:51 - Razvan Voicu: Although I would not recommend it, because if physically it's a HA, but logically you change it to AF/F, you might have

problems

19/07/24, 10:55 - Chiara Lodesani, Lavoro: IMG-20240719-WA0007.jpg (file allegato)

The system gives an HA because the first line order has the format 120x120. but now order lines have 50x120 and usually we ask to change pallet and use an AF/F (depends from the weight)

19/07/24, 11:05 - Support Technician 10: Yea but we can't request a new target cause we don't have the compatibility between Z and HA

19/07/24, 11:25 - Support Technician 10: Maybe we can finalize the PO and release it again so we can calculate the right target

19/07/24, 11:33 - Chiara Lodesani, Lavoro: IMG-20240719-WA0008.jpg (file allegato)

mm..we have to pick from BP04 S03 and BP04 S02 that there are pallets type z. We ask to change pallet HA with a pallet type AF/F that is compatible with type Z

19/07/24, 11:34 - Support Technician 10: Yes but the system sees that right now we can't change the HA because it's not compatible with the Z so it won't get to the creation of another empty Lu request

19/07/24, 11:35 - Support Technician 10: We can change the load aid and then request a new one but we need to be careful with the HA

19/07/24, 11:36 - Support Technician 10: That logically will be a AF

19/07/24, 11:37 - Chiara Lodesani, Lavoro: maybe is it a bug? usually we can always change pallet type in this situation, the import is that the pallet requested is compatible with the pallet from we have to do picking

19/07/24, 11:38 - Support Technician 10: I am not sure we need to investigate more but the block on the station needs some manual intervention

19/07/24, 11:39 - Support Technician 10: We can open a problem ticket after for investigation 🙄

19/07/24, 11:41 - Chiara Lodesani, Lavoro: ok. Now can you force the system and create an empty pallet request of type AF?

19/07/24, 11:42 - Support Technician 10: I can change the type of the HA to AF and then you can request a new target that will hopefully be AF

19/07/24, 11:42 - Support Technician 10: But we need to be careful with the HA that will be logically AF

19/07/24, 11:44 - Support Technician 10: Maybe after the agv takes it we cancel the TPO and book it to lost and found and change the load aid back

19/07/24, 11:45 - Chiara Lodesani, Lavoro: ok

19/07/24, 11:45 - Support Technician 10: Ok I will change it to AF

19/07/24, 11:46 - Support Technician 10: Now refresh the station and try again

19/07/24, 11:48 - Chiara Lodesani, Lavoro: done

19/07/24, 11:48 - Chiara Lodesani, Lavoro: I have requested an empty pallet F

19/07/24, 11:49 - Support Technician 10: Ok the system send the pallet to S46 is that ok?

19/07/24, 11:49 - Chiara Lodesani, Lavoro: yes

19/07/24, 11:49 - Support Technician 10: Yea we created a request for f

19/07/24, 11:50 - Support Technician 10: Ok after the tpo is finished I will change the load aid back

19/07/24, 11:53 - Chiara Lodesani, Lavoro: ok

19/07/24, 11:58 - Chiara Lodesani, Lavoro: tpo is finished

19/07/24, 11:59 - Chiara Lodesani, Lavoro: the pallet is assigned to another pick station, change the load aid please 🙏

19/07/24, 12:00 - Support Technician 10: Now I am working on it

19/07/24, 12:01 - Chiara Lodesani, Lavoro: good, thank you

19/07/24, 12:01 - Chiara Lodesani, Lavoro: please, investigate the problem

19/07/24, 12:05 - Support Technician 10: Ok now the aid is changed

19/07/24, 12:07 - Chiara Lodesani, Lavoro: Thank you

19/07/24, 13:00 - Support Technician 10: Found the issue made some changes and now I am testing @Company Employee 9

19/07/24, 14:40 - Chiara Lodesani, Lavoro: good news!

19/07/24, 15:04 - Chiara Lodesani, Lavoro: what is the problem?

19/07/24, 15:05 - Adrian Cindea: empty HA ... could not be managed as empty LU from picking station ...

19/07/24, 15:06 - Adrian Cindea: no destination found for it ... missing a configuration at the 1st glance ... but current fix to add it ... it will be tested

19/07/24, 15:46 - Chiara Lodesani, Lavoro: ok, thank you
19/07/24, 15:48 - Adrian Cindea: have a nice week end !
22/07/24, 18:35 - Benedetta Zini: Hello! Please take care of 01376009 because we have 2 pick stations blocked
22/07/24, 18:36 - Benedetta Zini: pleaseeee 🙏
22/07/24, 18:36 - Benedetta Zini: VID-20240722-WA0022.mp4 (file allegato)
22/07/24, 18:42 - Benedetta Zini: I kindly ask you to
1. finalize PO 4490676
2. delete LU 52409776 that is at pick station #6 but it is connected to ADBATL000031492 --> PO 4490676
by doing so you can unblocked both pick stations

After that I ask you to investigate about this issue
22/07/24, 18:43 - Support Technician 10: Ok I will fix them
22/07/24, 18:43 - Benedetta Zini: as soon as you have delete LU, please write here so maintenance guys can remove phisically pallet from BP06 D01
22/07/24, 18:43 - Benedetta Zini: thank you very muchhhh
22/07/24, 19:23 - Support Technician 10: Order is finished
22/07/24, 19:23 - Support Technician 10: Now I am booking the Lu to lost and found
22/07/24, 19:25 - Support Technician 10: @Company Employee 11 the Lu is on lost and found
22/07/24, 19:45 - Benedetta Zini: Did you remove also the connetction between the Lu and order?
22/07/24, 19:46 - Support Technician 10: No
22/07/24, 19:47 - Benedetta Zini: Please do it
22/07/24, 19:47 - Support Technician 10: Done
22/07/24, 19:51 - Benedetta Zini: Thank you
22/07/24, 19:51 - Support Technician 10: Do you want me to release the obd again?
22/07/24, 19:52 - Benedetta Zini: Yes please
22/07/24, 19:52 - Support Technician 10: Ok
22/07/24, 19:54 - Support Technician 10: The order is released
22/07/24, 19:56 - Benedetta Zini: Great
22/07/24, 20:03 - Support Technician 10: Can I help with anything else?
22/07/24, 20:03 - Support Technician 10: Or we can investigate tomorrow
22/07/24, 20:05 - Benedetta Zini: I'm waiting a feedback from maintenance
22/07/24, 20:06 - Support Technician 10: Ok
22/07/24, 20:06 - Benedetta Zini: You can investigate tomorrow
22/07/24, 20:29 - Benedetta Zini: Pick 4 is okay
22/07/24, 20:29 - Benedetta Zini: Pick 6 seems empty
22/07/24, 20:30 - Alex Ardilli, Personale: Now It seems it Is ok
22/07/24, 20:30 - Support Technician 10: Ok
22/07/24, 20:31 - Benedetta Zini: Thank you!

23/07/24, 17:25 - Support Technician 7: Hello,
Regarding ticket 01376234, could you cancel the order and recreate them please?
23/07/24, 17:25 - Support Technician 7: And see if after that, they work
23/07/24, 17:29 - Chiara Lodesani, Lavoro: hello, we have already tried to do this with order number ADBATL000034281 but nothing changes
23/07/24, 17:31 - Chiara Lodesani, Lavoro: now we try with ADBATL000035256...
23/07/24, 17:34 - Chiara Lodesani, Lavoro: nothing changes also in this case
23/07/24, 17:43 - Razvan Voicu: Hi
23/07/24, 17:44 - Razvan Voicu: Can we try to do some testing
23/07/24, 17:44 - Razvan Voicu: Create 3 OBDs
23/07/24, 17:45 - Razvan Voicu: one with one item (lets say itemA) from OBD that's in error
one with one item (lets say itemB) from OBD that can be released
one with both itemA and itemB and see what happens?
23/07/24, 17:45 - Razvan Voicu: @Company Employee 9
23/07/24, 18:25 - Chiara Lodesani, Lavoro: we have done some tests and seems that the problem is with items number with FOG 'GRANDILASTRE'
23/07/24, 18:26 - Support Technician 10: I saw that too but for goods category
23/07/24, 18:30 - Chiara Lodesani, Lavoro: yes, sorry, goods category
23/07/24, 18:39 - Chiara Lodesani, Lavoro: we'll check better tomorrow.

Benedetta'll contact you. thank you

23/07/24, 18:40 - Support Technician 10: Thank you I will put the ticket on hold for tomorrow

23/07/24, 18:41 - Support Technician 10: It seems that is connected to the fog to from what I see in code but I need to go to every method and check to see exactly what

23/07/24, 18:41 - Support Technician 10: We will look into it more tomorrow

23/07/24, 18:41 - Chiara Lodesani, Lavoro: ok

24/07/24, 12:17 - Benedetta Zini: Hello! We have problems with spontaneous tpos. User are kicking out from mobile terminal

24/07/24, 12:22 - Adrian Cindea: hello

24/07/24, 12:22 - Adrian Cindea: the issue still persists?

24/07/24, 12:24 - Benedetta Zini: Let me ask to my colleagues

24/07/24, 12:27 - Benedetta Zini: They told me that now it works

24/07/24, 12:27 - Adrian Cindea: thx for feedback

24/07/24, 12:27 - Benedetta Zini: But they are afraid that in 10 minutes it will stop working again

24/07/24, 12:32 - Benedetta Zini: They said that it doesn't working again

24/07/24, 12:36 - Benedetta Zini: <Media omessi>

24/07/24, 12:37 - Benedetta Zini: It is slow

24/07/24, 12:40 - Adrian Cindea: but it is slow overall?

24/07/24, 12:40 - Adrian Cindea: in other part of warehouse there is the same complaint ...?

24/07/24, 12:42 - Benedetta Zini: IMG-20240724-WA0006.jpg (file allegato)

24/07/24, 12:42 - Benedetta Zini: now also manual area and loading are

24/07/24, 12:43 - Benedetta Zini: area

24/07/24, 12:43 - Benedetta Zini: this is the error message, do you think is the network?

24/07/24, 12:43 - Adrian Cindea: it seems to be related

24/07/24, 12:43 - Adrian Cindea: try to ping the server

24/07/24, 12:43 - Adrian Cindea: please check network first ...

24/07/24, 12:44 - Benedetta Zini: we are checking

24/07/24, 12:44 - Adrian Cindea: dialogs in WAMAS client are fast enough

24/07/24, 12:45 - Benedetta Zini: I ping them

24/07/24, 12:51 - Benedetta Zini: also release for picking is slow,...

24/07/24, 12:54 - Benedetta Zini: now I will send you orders

24/07/24, 12:54 - Benedetta Zini: that are still waiting for release for picking

24/07/24, 12:54 - Benedetta Zini: ADBATLATL000033225

ADBATLATL000033229

ADBATLATL000033248

24/07/24, 12:55 - Benedetta Zini: for example

24/07/24, 12:57 - Benedetta Zini: I noticed this two LUs... they are in black hole with two pointing S28

24/07/24, 12:58 - Benedetta Zini: IMG-20240724-WA0007.jpg (file allegato)

24/07/24, 12:58 - Benedetta Zini: are they blocking some queues?

24/07/24, 12:59 - Benedetta Zini: I can't finalize TPOs or modify stock locations...

24/07/24, 13:02 - Adrian Cindea: IMG-20240724-WA0008.jpg (file allegato)

24/07/24, 13:02 - Adrian Cindea: no TPO for them

24/07/24, 13:02 - Benedetta Zini: Now yes

24/07/24, 13:02 - Benedetta Zini: Did you fix them?

24/07/24, 13:02 - Adrian Cindea: OBD0000867171 is 90%

24/07/24, 13:02 - Adrian Cindea: ADBATLATL000033225

24/07/24, 13:03 - Adrian Cindea: no

24/07/24, 13:04 - Adrian Cindea: i only started to check them

24/07/24, 13:04 - ~ Oriol SSI ha abbandonato.

24/07/24, 13:04 - Adrian Cindea: what is current situation?

24/07/24, 13:04 - Adrian Cindea: with mobile terminals

24/07/24, 13:09 - Adrian Cindea: please feedback ...

24/07/24, 13:12 - Benedetta Zini: I asked for a feedback

24/07/24, 13:24 - Benedetta Zini: It seems work!

24/07/24, 13:24 - Adrian Cindea: IMG-20240724-WA0009.jpg (file allegato)

24/07/24, 13:25 - Benedetta Zini: No more this error

24/07/24, 13:25 - Adrian Cindea: this message seems to be from mobile terminal

(no from WAMAS application)

24/07/24, 13:25 - Benedetta Zini: Okay... i was not sue

24/07/24, 13:25 - Benedetta Zini: Sure

24/07/24, 13:25 - Adrian Cindea: it seems an network issue (wifi signal issue)

24/07/24, 13:26 - Benedetta Zini: In fact as i told you before i asked it to check network

27/07/24, 19:41 - Tommaso Guizzardi, Lavoro: Hello, I don't know if you can help me

But right now, the sistem it seems very slow and agv are not taking mission

<Questo messaggio è stato modificato>

30/07/24, 16:38 - Support Technician 10: Hello @Company Employee 11 for case 01377558 regarding the cross docking order that is at 15% is this urgent or we can check it tomorrow?

30/07/24, 16:40 - Benedetta Zini: You can check also Tomorrow morning

30/07/24, 16:41 - Support Technician 10: Ok thanks

30/07/24, 20:29 - Support Technician 10: Hello can I know what the user sees on station 7

30/07/24, 20:29 - Support Technician 10: Cause I see that we have a po assigned with the pallet in station

31/07/24, 08:37 - Benedetta Zini: Hello! Have you check this ticket?

31/07/24, 08:40 - Benedetta Zini: Could you please give me more information about ticket 01377594 ?

31/07/24, 08:41 - Support Technician 10: Hello last night when I was looking over ticket 594 I saw something connected with the stock object still investigating

31/07/24, 08:43 - Benedetta Zini: which stock object?

31/07/24, 08:43 - Support Technician 10: On this one on station 7 we had a order that had all the station full and the station tried to allocate an order that was in hbw and for station 9 we had an empty pallet that was in a source location that was not connected with any order still looking into that

31/07/24, 08:44 - Support Technician 10: Not sure still looking into it

31/07/24, 08:44 - Support Technician 10: It dose not say in the log

31/07/24, 08:44 - Benedetta Zini: Okay, let me know when you know more about it

31/07/24, 08:47 - Benedetta Zini: and this one?

31/07/24, 08:48 - Support Technician 10: .

31/07/24, 08:48 - Support Technician 10: This is what I saw regarding the cross docking

31/07/24, 08:49 - Benedetta Zini: sorry, you confused me because you wrote ticket 594 but it is ticket 558 😊

31/07/24, 08:50 - Support Technician 10: I was looking for the root cause of 594 and saw something regarding 558 😊

31/07/24, 08:51 - Benedetta Zini: ☐☐

31/07/24, 08:51 - Benedetta Zini: okay I think I got it 😊

01/08/24, 16:43 - Giuseppe Romano, Lavoro: Questo messaggio è stato eliminato.

01/08/24, 18:32 - Benedetta Zini: Hello! Sorry for disturbing you but there is 52645405 HRA06X017Y18Z21 a DA stack of empty pallet in HBW1 with TPO in status NEW with "WAIT FOR ROUTE NOT FOUND"... very strange problem. It is the last stack of DA pallet inside HBW1

01/08/24, 18:32 - Benedetta Zini: IMG-20240801-WA0005.jpg (file allegato) could you please take a look?

02/08/24, 15:17 - Adrian Cindea: hello

02/08/24, 15:17 - Adrian Cindea: what is the issue at workstation 2?

02/08/24, 15:21 - Benedetta Zini: the issue I sent this morning?

02/08/24, 15:21 - Adrian Cindea: yes

02/08/24, 15:21 - Adrian Cindea: both stations are working?

02/08/24, 15:21 - Benedetta Zini: pick station #2 was blocked by DAF 04

02/08/24, 15:22 - Benedetta Zini: yes, as soon as I canceled TEMP5590

02/08/24, 15:23 - Razvan Voicu: I sent a mail about this

02/08/24, 15:23 - Razvan Voicu: right now

02/08/24, 15:25 - Benedetta Zini: I saw it, great thank you!

05/08/24, 10:04 - Benedetta Zini: Good morning! recurrent issue N44 --> 52403055

05/08/24, 11:37 - Support Technician 10: I sent an email with explanation regarding n44

05/08/24, 11:45 - Benedetta Zini: thank you

08/08/24, 11:02 - Benedetta Zini: Hi All! Could you please check issue H64 named "LU in wait for storage failed even if there is an empty locations suitable for it"? I sent an email

08/08/24, 11:03 - Benedetta Zini: we have to load truck but I would like you to take a look at this issue...

08/08/24, 11:04 - Benedetta Zini: Is there someone on duty? If not I will try to unlock it by myself...

08/08/24, 11:04 - Benedetta Zini: ticket number 01379226

08/08/24, 11:24 - Support Technician 15: Hi! have you done something to it? I see the LU is on S04 MAV now

08/08/24, 11:24 - Benedetta Zini: I solved it..

08/08/24, 11:25 - Support Technician 15: oh ok

08/08/24, 11:25 - Benedetta Zini: Hello! Yes... I changed destination location..

08/08/24, 11:25 - Benedetta Zini: Because It was really urgent at loading 😞 sorry...

08/08/24, 11:26 - Support Technician 15: no worries. 😊

26/08/24, 10:54 - Benedetta Zini: Hello, ready for today deploy?

26/08/24, 10:55 - Razvan Voicu: Hello. Yes, I will do it :)

26/08/24, 11:28 - Adrian Cindea: yes

26/08/24, 11:28 - Adrian Cindea: i will send the list again asap

26/08/24, 11:50 - Adrian Cindea: email was sent with deploy list (the same as last time with some explanation for cross docking issue A184)

26/08/24, 12:15 - Benedetta Zini: great! Thank you

26/08/24, 12:28 - Benedetta Zini: I set agvDisable = true

26/08/24, 12:34 - Razvan Voicu: Ok

26/08/24, 12:34 - Razvan Voicu: WEe start

26/08/24, 12:34 - Benedetta Zini: You can start now

26/08/24, 12:34 - Razvan Voicu: Let us know when missions done

26/08/24, 12:34 - Benedetta Zini: no more missions

26/08/24, 12:34 - Benedetta Zini: now :)

26/08/24, 13:01 - Razvan Voicu: Done

26/08/24, 13:02 - Benedetta Zini: Great

26/08/24, 13:02 - Razvan Voicu: AgvDisable set to false by me <Questo messaggio è stato modificato>

26/08/24, 13:03 - Benedetta Zini: perfect thank you

26/08/24, 13:03 - Benedetta Zini: is everything okay by your side?

26/08/24, 13:03 - Razvan Voicu: Looks like it

26/08/24, 13:04 - Benedetta Zini: okay great

26/08/24, 13:05 - Benedetta Zini: Lets see 👁👁

26/08/24, 15:33 - Adrian Cindea: current status? so far so good?

26/08/24, 15:34 - Benedetta Zini: Yes, we are going to test discharged patches

26/08/24, 15:35 - Benedetta Zini: and in the meantime we found an error message when you discharge a quantity but I couldn't read the details...

26/08/24, 15:48 - Benedetta Zini: I found something strange

26/08/24, 15:49 - Benedetta Zini: could you please check host order line 340 ADBATLATL000048279 OBD0000884112? I can't finalize the line

26/08/24, 15:49 - Benedetta Zini: IMG-20240826-WA0002.jpg (file allegato)

26/08/24, 15:49 - Benedetta Zini: java.lang.NullPointerException

26/08/24, 15:51 - Adrian Cindea: it is planned
26/08/24, 15:51 - Adrian Cindea: it is an issue ... i will check it
26/08/24, 15:52 - Benedetta Zini: IMG-20240826-WA0003.jpg (file allegato)
I set broken boxes
26/08/24, 15:53 - Adrian Cindea: did you try to finalize the OBD? <Questo
messaggio è stato modificato>
26/08/24, 15:53 - Benedetta Zini: no...
26/08/24, 15:53 - Benedetta Zini: But I removed "broken boxes" and no error
message...
26/08/24, 15:53 - Adrian Cindea: the line?
26/08/24, 15:53 - Benedetta Zini: IMG-20240826-WA0004.jpg (file allegato)
26/08/24, 15:53 - Adrian Cindea: it is a bug
26/08/24, 15:53 - Adrian Cindea: in the check
26/08/24, 15:54 - Benedetta Zini: okay
26/08/24, 15:54 - Adrian Cindea: it will be fixed at next deploy

```

26/08/24, 15:54 - Adrian Cindea: not possible on the spot because it is needed a new deploy
26/08/24, 15:54 - Benedetta Zini: okay thank you
26/08/24, 15:54 - Adrian Cindea: test other cases ... this is an issue
26/08/24, 15:54 - Benedetta Zini: I will remove "broken boxes" flag until next deploy
26/08/24, 15:55 - Benedetta Zini: yes sure.. this is an issue of A174 right?
26/08/24, 15:55 - Adrian Cindea: wait to check
26/08/24, 15:55 - Benedetta Zini: just to update my file and send an email to you
26/08/24, 15:59 - Adrian Cindea: maybe i try to finalize the OBD?
26/08/24, 16:00 - Adrian Cindea: there are 2 line sin new ... 340 and 580
26/08/24, 16:00 - Benedetta Zini: I removed broken boxes
26/08/24, 16:00 - Benedetta Zini: I try again
26/08/24, 16:01 - Benedetta Zini: done without problems
26/08/24, 16:02 - Adrian Cindea: but it does not work, line 580 remains new
26/08/24, 16:03 - Benedetta Zini: it worked for 340
26/08/24, 16:03 - Benedetta Zini: We have to prepare line 580
26/08/24, 16:03 - Benedetta Zini: so I don't finalize it
26/08/24, 16:03 - Adrian Cindea: k
26/08/24, 16:05 - Adrian Cindea: issue was found and it will be fixed this week
26/08/24, 16:05 - Benedetta Zini: great thank you!
26/08/24, 16:06 - Benedetta Zini: I have another thing to point you out
26/08/24, 16:07 - Benedetta Zini: IMG-20240826-WA0005.jpg (file allegato)
ADBATL000045840 has 12 boxes of ATLA0QN
26/08/24, 16:07 - Benedetta Zini: we prepared LUs 52544641 (8 sc + 2 pz) and 52535952 (3 sc + 4 pz) --> 1 sc = 6 pz <Questo messaggio è stato modificato>
26/08/24, 16:08 - Benedetta Zini: IMG-20240826-WA0009.jpg (file allegato)
26/08/24, 16:09 - Benedetta Zini: IMG-20240826-WA0008.jpg (file allegato)
26/08/24, 16:10 - Benedetta Zini: okay, I can't discharge single LU because does not respect broken boxes
26/08/24, 16:10 - Benedetta Zini: IMG-20240826-WA0007.jpg (file allegato)
okay that if I select both I can discharge quantity
26/08/24, 16:11 - Benedetta Zini: IMG-20240826-WA0006.jpg (file allegato)
but I can do it if I try to discharge quantity from detail
26/08/24, 16:12 - Benedetta Zini: in this case wamas let user discharge quantity even if "broken boxes" is not respect
26/08/24, 16:13 - Adrian Cindea: one second
26/08/24, 16:14 - Adrian Cindea: try to discharge from detail
26/08/24, 16:15 - Adrian Cindea: broken boxes to be activated
26/08/24, 16:15 - Adrian Cindea: it will be not allowed (check is done during action)
26/08/24, 16:21 - Adrian Cindea: so ... broken boxes active + press button from details or SM022 ... a message will be raised (not allowed)
26/08/24, 16:21 - Adrian Cindea: but during the action (not from disable action from menu)
26/08/24, 16:22 - Adrian Cindea: menu is enable but action is not allowed
<Questo messaggio è stato modificato>
26/08/24, 16:25 - Benedetta Zini: oh okay
26/08/24, 16:25 - Adrian Cindea: try and confirm - as a check
26/08/24, 16:25 - Benedetta Zini: so I will see "discharge" clickable, but it will appear an error message if i click it
26/08/24, 16:25 - Benedetta Zini: right?
26/08/24, 16:25 - Adrian Cindea: yes
26/08/24, 16:25 - Benedetta Zini: okay I'm going to try
26/08/24, 16:25 - Benedetta Zini: give me 1 min
26/08/24, 16:26 - Adrian Cindea: pls set the parameter
26/08/24, 16:26 - Benedetta Zini: yes yes
26/08/24, 16:31 - Benedetta Zini: I change the order because I see that the previous one is on loading 😊
26/08/24, 16:31 - Benedetta Zini: IMG-20240826-WA0010.jpg (file allegato)
26/08/24, 16:31 - Adrian Cindea: and?
26/08/24, 16:31 - Benedetta Zini: I can discharge only 7 sc
26/08/24, 16:31 - Benedetta Zini: 📱

26/08/24, 16:31 - Adrian Cindea: 2 PZ is not allowed <Questo messaggio è stato modificato>
26/08/24, 16:32 - Adrian Cindea: only multiple is alloed
26/08/24, 16:32 - Adrian Cindea: 3 or 6 PZ
26/08/24, 16:32 - Benedetta Zini: no sorry
26/08/24, 16:33 - Benedetta Zini: i can discharge 7 pieces
26/08/24, 16:33 - Adrian Cindea: did you press?
26/08/24, 16:33 - Benedetta Zini: 2 *3 pieces = 6 pieces + 1 piece --> 7
26/08/24, 16:33 - Adrian Cindea: press on OK button
26/08/24, 16:34 - Benedetta Zini: IMG-20240826-WA0011.jpg (file allegato)
26/08/24, 16:34 - Adrian Cindea: and let me know the result (7 PZ)
26/08/24, 16:34 - Benedetta Zini: you are rightttt 😊 
26/08/24, 16:34 - Adrian Cindea: put 3 or 6 .. it will be allowed <Questo messaggio è stato modificato>
26/08/24, 16:36 - Benedetta Zini: yes
26/08/24, 16:37 - Adrian Cindea: discharge both LUs or SC (multiple of SC in PZ)
26/08/24, 16:37 - Benedetta Zini: it works
26/08/24, 16:37 - Benedetta Zini: I can do it
26/08/24, 16:38 - Benedetta Zini: 📌
26/08/24, 16:38 - Adrian Cindea: test what you consider, send us any issue and we will provide support in case somethign is unclear
26/08/24, 16:38 - Benedetta Zini: yes
26/08/24, 16:38 - Benedetta Zini: I have to send an email for the first one I pointed out?
26/08/24, 16:39 - Adrian Cindea: i will tested soon... and we open a ticket tomorrow for it
26/08/24, 16:39 - Benedetta Zini: does it refer to A176? "wrong check of broken boxes"? <Questo messaggio è stato modificato>
26/08/24, 16:39 - Adrian Cindea: yes
26/08/24, 16:39 - Benedetta Zini: okay thank you
26/08/24, 23:43 - Support Technician 15: Hello
26/08/24, 23:43 - Support Technician 15: Regarding issue at bay 11 can you tell me a status now?
26/08/24, 23:53 - Tommaso Guizzardi, Lavoro: Hello, now it seems working
26/08/24, 23:56 - Support Technician 15: Ok. I didn't do anything. As I was checking I saw that is working
27/08/24, 00:17 - Tommaso Guizzardi, Lavoro: I don't know why, it Was blocked since 19
27/08/24, 01:49 - Tommaso Guizzardi, Lavoro: Now we are having more problems
27/08/24, 02:24 - Tommaso Guizzardi, Lavoro: IMG-20240827-WA0000.jpg (file allegato)
Pult 7 seems in automatic mode off but it's actually on, I have a red light flashing pult but I can't see the error on lighthouse
27/08/24, 02:25 - Tommaso Guizzardi, Lavoro: Even If I finically switch to automatic off and then on, it didn't work
27/08/24, 02:55 - Support Technician 15: have anyone checked those point? because I see they are not SOC available
27/08/24, 02:55 - Support Technician 15: they have lock on MFS side
27/08/24, 02:55 - Support Technician 15: IMG-20240827-WA0001.jpg (file allegato)
27/08/24, 03:14 - Tommaso Guizzardi, Lavoro: They are these 3 pallet
27/08/24, 03:16 - Tommaso Guizzardi, Lavoro: But this area its in auto off
27/08/24, 03:16 - Tommaso Guizzardi, Lavoro: And i can't understand why, because no one switched nothing
27/08/24, 03:18 - Tommaso Guizzardi, Lavoro: IMG-20240827-WA0002.jpg (file allegato)
Now it's like this
27/08/24, 03:18 - Tommaso Guizzardi, Lavoro: IMG-20240827-WA0003.jpg (file allegato)
27/08/24, 03:19 - Support Technician 15: Yes, I am doing a mfsPal restart
27/08/24, 03:20 - Tommaso Guizzardi, Lavoro: Okay
27/08/24, 03:40 - Support Technician 15: Can you try to put in automatic on?
27/08/24, 03:40 - Tommaso Guizzardi, Lavoro: Yes, I'm trying but nothing
27/08/24, 03:41 - Support Technician 15: Ok . I will forward the ticket to PLC

team to check

27/08/24, 03:41 - Tommaso Guizzardi, Lavoro: Thanks
27/08/24, 04:41 - Support Technician 15: It's working now? I see it's green now.
PLC thinks that they solve it on their side
27/08/24, 04:57 - Tommaso Guizzardi, Lavoro: We found it, it's a problem we have
in a plug, inside an asi module on a motor, under picking bay 6, source 4
27/08/24, 04:58 - Support Technician 15: Yes, I have talked to him about it 👍
27/08/24, 04:59 - Support Technician 15: With Saurug Stefan
27/08/24, 09:02 - Benedetta Zini: SOS
27/08/24, 09:02 - Benedetta Zini: We have more than 600 rows inside DI004 in
status "Converted" and no records are sent to our host
27/08/24, 09:03 - Benedetta Zini: IMG-20240827-WA0004.jpg (file allegato)
27/08/24, 09:03 - Benedetta Zini: have you to reset mqSender?
27/08/24, 09:07 - Benedetta Zini: No communication between WAMAS and our host
since this morning at 3 am
27/08/24, 09:16 - Adrian Cindea: hi
27/08/24, 09:16 - Adrian Cindea: yes
27/08/24, 09:16 - Adrian Cindea: all messages were sent
27/08/24, 09:18 - Chiara Lodesani, Lavoro: ok, I sent you an email
27/08/24, 09:19 - Chiara Lodesani, Lavoro: from our side we have restarted the
server MQ..
27/08/24, 09:20 - Adrian Cindea: i did it too on WAMAS side
27/08/24, 09:21 - Adrian Cindea: i tried to reconvert it but it goes to error
27/08/24, 09:22 - Chiara Lodesani, Lavoro: ok, thank you. why wasn't the worker
working?
27/08/24, 09:23 - Adrian Cindea: i am checking
27/08/24, 09:35 - Adrian Cindea: what did you restart?
27/08/24, 09:35 - Adrian Cindea: on HOST side, did you restart the MQ or on
WAMAS side?
27/08/24, 09:40 - Chiara Lodesani, Lavoro: we did the restart of MQ on HOST side
so it was a problem from our side..
27/08/24, 09:41 - Adrian Cindea: i saw in the log MQSender was started at
03:29:49 incorrect
27/08/24, 09:41 - Adrian Cindea: and no messages were sent
27/08/24, 09:41 - Adrian Cindea: i restarted it at 09:12
27/08/24, 09:42 - Adrian Cindea: and it starts to work
27/08/24, 09:42 - Adrian Cindea: the issue was on WAMAS side for sure
27/08/24, 09:42 - Adrian Cindea: because it was not started properly
27/08/24, 09:43 - Chiara Lodesani, Lavoro: ahh ok clear
27/08/24, 10:20 - Adrian Cindea: it is side effect of night intervention (it was
done a restart of WAMAS trying to solve blockage set by PLC - due to an sensor
issue)
27/08/24, 10:20 - Adrian Cindea: MQSender did not start properly
27/08/24, 10:20 - Adrian Cindea: we will fix it to start all the time properly
27/08/24, 10:21 - Chiara Lodesani, Lavoro: great
02/09/24, 11:03 - Benedetta Zini: Hai eliminato questo messaggio.
04/09/24, 13:34 - Support Technician 15: Hello
04/09/24, 13:35 - Support Technician 15: regarding ticket 01384096, we added
manually the LUs to the OBD
04/09/24, 13:35 - Support Technician 15: can we release OG buffer ?
04/09/24, 14:38 - Benedetta Zini: could you please add them on the loading
S20240904684
04/09/24, 14:39 - Benedetta Zini: ?
04/09/24, 15:22 - Support Technician 10: I am checking
04/09/24, 15:32 - Support Technician 10: They are added to the load
04/09/24, 15:33 - Benedetta Zini: great! thank you
04/09/24, 15:33 - Benedetta Zini: we are trying to close it
06/09/24, 18:12 - Support Technician 10: Hello @Company Employee 11 regarding
the new prio B ticket A189 do you want us to stop the action?
09/09/24, 11:46 - Benedetta Zini: Good morning! At 12:30 I will put agvDisable =
true and let you know when you can proceed with deploy.
09/09/24, 12:25 - Benedetta Zini: I set agvDisable = true
09/09/24, 12:26 - Benedetta Zini: VID-20240909-WA0004.mp4 (file allegato)
ready for deploy?

09/09/24, 12:26 - Support Technician 10: Yes
09/09/24, 12:27 - Benedetta Zini: great
09/09/24, 12:27 - Benedetta Zini: I will let you know when you can start
09/09/24, 12:33 - Adrian Cindea: New locations will be added from this moment to be able to finish them asap
09/09/24, 12:34 - Benedetta Zini: okay okay
09/09/24, 12:39 - Benedetta Zini: you can start with deploy
09/09/24, 12:50 - Benedetta Zini: please let me know when you start and then finish the deploy
09/09/24, 12:51 - Support Technician 7: We started
09/09/24, 12:51 - Support Technician 7: We will let you know when we are done
09/09/24, 12:51 - Benedetta Zini: yes thank you
09/09/24, 13:09 - Support Technician 7: Deploy is done
09/09/24, 13:12 - Benedetta Zini: okay thank you
09/09/24, 13:19 - Benedetta Zini: Please send me the deploy list
10/09/24, 12:33 - Adrian Cindea: hello
10/09/24, 12:34 - Adrian Cindea: link for K89 is not available
10/09/24, 12:34 - Adrian Cindea:
https://eu01.z.antigena.com/l/xjeC7qEmny7lgcpXB~2c-cUmK_dnn89HXyN9uAE6~axzZRs53zhv46ef8dUkw0Lp_CzsdIq~imh9XxcbGIYM9E9590HVTQHXPgQYcTNdsTLyHceBY4yoMG-tgpAUyd7laz27kVZ-vRIwpDtngEQlnkRZUaoRBT~pQzgdEGmxscm89NZZloLM2REdPbw_523ym
10/09/24, 12:34 - Adrian Cindea: "This link has been locked and cannot be accessed."
10/09/24, 12:34 - Adrian Cindea: based on my investigation is needed to scan a shipping LU barcode
10/09/24, 16:30 - Benedetta Zini: what is it?
10/09/24, 16:31 - Adrian Cindea: k89
10/09/24, 16:31 - Adrian Cindea: it is a movie with mobile terminal to show us issue K89
10/09/24, 16:31 - Benedetta Zini: ooh okay
10/09/24, 16:31 - Adrian Cindea: related to loading ... could not load all LUs
10/09/24, 16:31 - Adrian Cindea: just to see the screens on mobile terminal
10/09/24, 16:33 - Benedetta Zini: okay, so we can't "load all LUs" without scan shipping LU
10/09/24, 16:33 - Benedetta Zini: right?
10/09/24, 16:33 - Adrian Cindea: yes, because the method call request a shipment LU
10/09/24, 16:33 - Adrian Cindea: not a load ...
10/09/24, 16:34 - Benedetta Zini: okay so it is a view on terminal but we can't use it
10/09/24, 16:35 - Adrian Cindea: i would like to see the steps (dialogue) on mobile terminal
10/09/24, 16:35 - Adrian Cindea: i dont know exactly flow used by you, but i checked software side and it is needed a LU to be scanned
10/09/24, 16:36 - Adrian Cindea: i check in house ... a selected the load and scanned an lu and it works
10/09/24, 16:36 - Benedetta Zini: IMG-20240910-WA0007.jpg (file allegato)
10/09/24, 16:36 - Adrian Cindea: did you scanned or press ok?
10/09/24, 16:37 - Adrian Cindea: IMG-20240910-WA0008.jpg (file allegato)
10/09/24, 16:37 - Benedetta Zini: [2] Trasporto
[7] Trasporto per caricamento
choose a load
put an LU
error message
10/09/24, 16:37 - Adrian Cindea: i am in the same panel
10/09/24, 16:38 - Benedetta Zini: <Media omessi>
10/09/24, 16:38 - Adrian Cindea: IMG-20240910-WA0009.jpg (file allegato)
10/09/24, 16:38 - Benedetta Zini: from this page works
10/09/24, 16:39 - Benedetta Zini: <Media omessi>
10/09/24, 16:39 - Benedetta Zini: from this page it doesn't work
10/09/24, 17:09 - Adrian Cindea: do you have another example?
10/09/24, 17:09 - Adrian Cindea: but not load it, try to load all and give me the barcode
10/09/24, 17:14 - Adrian Cindea: one page it is used to load all LUs and one

page is used to load one by one
10/09/24, 17:22 - Adrian Cindea: it seems there is an shipment LU (OG002) from an OBD of load which has state loading not possible
10/09/24, 17:27 - Adrian Cindea: tomorrow maybe there is a case
10/09/24, 17:27 - Adrian Cindea: please let me know to check data from system on the spot
10/09/24, 18:01 - Benedetta Zini: okay sure, Tomorrow I will provide you an example so you can check it live
10/09/24, 18:01 - Benedetta Zini: thank you for your help!
11/09/24, 08:41 - Support Technician 15: Hello
11/09/24, 08:43 - Support Technician 15: regarding case 01385324, the picking bay 6 is working now ?
11/09/24, 09:12 - Giacomo Trivieri, Lavoro: Hi robert, the picking bay 6 return to working well, Thx for your help <Questo messaggio è stato modificato>
11/09/24, 09:53 - Benedetta Zini: Hello guys! There is now A186 on pick station #2
11/09/24, 09:53 - Benedetta Zini: 'As soon as an AGV deposit an empty pallet at pick station for a certain PO, WAMAS creates a TPO towards S46 locations and another empty request in OG525 in loop
11/09/24, 09:53 - Benedetta Zini: do you want to check it live?
11/09/24, 09:54 - Benedetta Zini: IMG-20240911-WA0000.jpg (file allegato)
11/09/24, 09:55 - Benedetta Zini: wamas is generating in loop empty request for PO 4586181
11/09/24, 09:56 - Benedetta Zini: and also for PO 4586192
11/09/24, 09:57 - Benedetta Zini: IMG-20240911-WA0001.jpg (file allegato)
11/09/24, 09:57 - Benedetta Zini: IMG-20240911-WA0003.jpg (file allegato)
11/09/24, 10:00 - Benedetta Zini: let me know if there is someone available to check this issue... pick station #2 is blocked
11/09/24, 10:02 - Benedetta Zini: VID-20240911-WA0002.mp4 (file allegato)
11/09/24, 10:03 - Adrian Cindea: 4586155 was finalized
11/09/24, 10:03 - Adrian Cindea: it had no empty request, no tpos for gtp Lus.
11/09/24, 10:03 - Adrian Cindea: i finalized it ...
11/09/24, 10:03 - Adrian Cindea: pickign was activated
11/09/24, 10:03 - Adrian Cindea: it seems a priority issue
11/09/24, 10:04 - Adrian Cindea: we will check ... station consider it to be done as first but no empty request/no tpos for its source LUs
11/09/24, 10:04 - Adrian Cindea: we will check it
11/09/24, 10:04 - Adrian Cindea: please confirm station works again
11/09/24, 10:05 - Benedetta Zini: oh okay... so the problem seems to be PO 4586155 because it hadn't any empty request?
11/09/24, 10:06 - Adrian Cindea: yes + no tpos for source LUs
11/09/24, 10:06 - Benedetta Zini: Yes station is working now
11/09/24, 10:06 - Adrian Cindea: i dont know the reason .. PO are executed based on picking order (maybe priority - iwill heck in source code)
11/09/24, 10:07 - Adrian Cindea: it was the first as picking order id
11/09/24, 10:08 - Benedetta Zini: okay I understood... so WAMAS was leaving the destinations free for that PO
11/09/24, 10:08 - Adrian Cindea: exactly
11/09/24, 10:09 - Benedetta Zini: okay... strange behavior...
12/09/24, 13:52 - Adrian Cindea: hello
12/09/24, 13:52 - Adrian Cindea: do you have a new case with loading
12/09/24, 13:52 - Adrian Cindea: ?
12/09/24, 14:47 - Benedetta Zini: I can provide one this afternoon
12/09/24, 15:14 - Adrian Cindea: please, thx
12/09/24, 15:46 - Benedetta Zini: This afternoon we are going to have 6 rear loading.. so I think it is better to post pone at Tomorrow morning
12/09/24, 15:46 - Benedetta Zini: 🙏🙏
12/09/24, 15:46 - Adrian Cindea: k
13/09/24, 10:09 - Adrian Cindea: hello
13/09/24, 10:09 - Adrian Cindea: a new case for me ... related to loading ... "could not load all LUs"
13/09/24, 10:09 - Adrian Cindea: ?
13/09/24, 12:16 - Benedetta Zini: Hello
13/09/24, 12:16 - Benedetta Zini: sorry I was in a meeting and there were not

cases this morning related this ticket..

13/09/24, 12:17 - Benedetta Zini: I will let you know as soon as possibile

13/09/24, 12:17 - Adrian Cindea: thx for info

13/09/24, 12:17 - Benedetta Zini: thx for your patience

13/09/24, 15:20 - Adrian Cindea: i finalized PO and OBD was released again for picking planning ... +release for picking

13/09/24, 15:20 - Adrian Cindea: please confirm station 3 is working again

13/09/24, 15:20 - Adrian Cindea: something happens at around 1 AM

13/09/24, 15:25 - Chiara Lodesani, Lavoro: It works, thanks!

13/09/24, 15:25 - Adrian Cindea: thx for feedback

13/09/24, 15:25 - Adrian Cindea: 1 NR to pick and report as full

13/09/24, 15:26 - Adrian Cindea: very strange behavior ... shipment LU was lost -> blocking station from 1 AM

13/09/24, 15:26 - Adrian Cindea: it is needed an analyze what happened related to report as full

13/09/24, 15:28 - Adrian Cindea: 52539070 as destination LU, was in station and sent out at 01:32:51

16/09/24, 12:25 - Benedetta Zini: Hello, we are going to set agvDisable = true in five min

16/09/24, 12:30 - Benedetta Zini: did it

16/09/24, 12:38 - Benedetta Zini: you can start

16/09/24, 12:38 - Benedetta Zini: please let us know when you start and finish it

16/09/24, 13:01 - Adrian Cindea: locations were added ... deploy is still in progress

16/09/24, 13:01 - Benedetta Zini: perfect

16/09/24, 13:10 - Support Technician 7: All done

16/09/24, 13:12 - Benedetta Zini: great

16/09/24, 13:13 - Chiara Lodesani, Lavoro: the locations S87 * are ok👍

16/09/24, 13:19 - Benedetta Zini: it seems everything okay

16/09/24, 13:20 - Benedetta Zini: in the afternoon we will try to test some patches

16/09/24, 13:20 - Benedetta Zini: thank you very much

17/09/24, 12:39 - Adrian Cindea: hello

17/09/24, 12:40 - Adrian Cindea: please provide us any new loading LU with problem (could not load all LUs)?

17/09/24, 16:05 - Benedetta Zini: Hello! As soon as I have it I will send it to you

18/09/24, 15:00 - Benedetta Zini: @Support Technician 12 I have one example

18/09/24, 15:00 - Adrian Cindea: i have to go

18/09/24, 15:01 - Adrian Cindea: sorry

18/09/24, 15:01 - Adrian Cindea: it is possible to not be loaded in 1 hour

18/09/24, 15:01 - Adrian Cindea: i will be back in 40 minutes

18/09/24, 15:02 - Adrian Cindea: give me the id

18/09/24, 15:02 - Adrian Cindea: i will check later ..

18/09/24, 15:13 - Benedetta Zini: I checked better and this load have another issue.. with the user mmontanari1... I'm checking the user profile. When he put the LU, he is immediately kicked out of the load...

18/09/24, 15:36 - Adrian Cindea: k

18/09/24, 15:37 - Adrian Cindea: i am back in case you have an example

21/09/24, 12:30 - Tommaso Guizzardi, Lavoro: IMG-20240921-WA0001.jpg (file allegato)

21/09/24, 12:30 - Tommaso Guizzardi, Lavoro: IMG-20240921-WA0000.jpg (file allegato)

24/09/24, 11:50 - Benedetta Zini: @Support Technician 12 I think I have the example

24/09/24, 11:50 - Benedetta Zini: S20240924679

24/09/24, 11:53 - Benedetta Zini: I did it...

24/09/24, 14:09 - Adrian Cindea: hello

24/09/24, 14:09 - Adrian Cindea: work or not?

24/09/24, 17:04 - Benedetta Zini: With me yes it worked, but with user not... i will let you know as soon as I have another example

24/09/24, 18:44 - Razvan Voicu: Hello. I will check now art22/27

24/09/24, 18:48 - Razvan Voicu: @Company Employee 11 is the issue a blocker

now? agv's not working?
24/09/24, 18:48 - Razvan Voicu: or just a bug that you fixed at the moment?
<Questo messaggio è stato modificato>
24/09/24, 20:08 - Benedetta Zini: Hello, we have a workaround
24/09/24, 20:09 - Benedetta Zini: But I don't know if it is a Wamas problem...
maybe it is a Rocla issue...
24/09/24, 20:17 - Razvan Voicu: is it ok if we check tomorrow?
25/09/24, 09:24 - Benedetta Zini: yes sure
25/09/24, 15:07 - Adrian Cindea: TPOs were changed to error because source
locations are blocked.
25/09/24, 15:07 - Adrian Cindea: see my emial
25/09/24, 15:28 - Benedetta Zini: oh okay... I checked only the new locations
wihtout looking S11...
25/09/24, 15:28 - Benedetta Zini: sorry
01/10/24, 16:42 - Benedetta Zini: Hello! Could you please check pick station #6?
AGV deposits a pallet, wamas creates a tpo, another AGV removes pallet from puck
station in loop
01/10/24, 16:44 - Benedetta Zini: I don't remember the number of the issue
01/10/24, 16:44 - Adrian Cindea: 4630210
01/10/24, 16:44 - Adrian Cindea: this is the issue ... empty HA is not comming
01/10/24, 16:44 - Adrian Cindea: finush it ...
01/10/24, 16:45 - Benedetta Zini: Okay... i will finalize PO
01/10/24, 16:45 - Benedetta Zini: But do you have a solution to prevent this
issue?
01/10/24, 16:46 - Adrian Cindea: it is important to check empty LU request ...
01/10/24, 16:46 - Adrian Cindea: wait a second
01/10/24, 16:46 - Benedetta Zini: Yes please
01/10/24, 16:46 - Benedetta Zini: Check what is going wrong
01/10/24, 16:46 - Benedetta Zini: Thank you
01/10/24, 16:47 - Adrian Cindea: IMG-20241001-WA0007.jpg (file allegato)
01/10/24, 16:47 - Adrian Cindea: i put here a mept LU request on MFS side to be
able to analyze it later
01/10/24, 16:47 - Benedetta Zini: Okay
01/10/24, 16:48 - Benedetta Zini: Let me know when we can finalize PO
01/10/24, 16:49 - Adrian Cindea: i finalized PO
01/10/24, 16:49 - Adrian Cindea: please feedback ...
01/10/24, 16:49 - Adrian Cindea: normally pickign will start soon for others
01/10/24, 16:49 - Benedetta Zini: Okay I will let you know
01/10/24, 16:50 - Adrian Cindea: please announce call center in case issue still
persists and someone will help ypu for sure
01/10/24, 16:51 - Benedetta Zini: After the finalized of PO pick station will
work normally
01/10/24, 16:51 - Adrian Cindea: i did it last time and it worked normally
01/10/24, 16:51 - Adrian Cindea: it is important to check if source was sent out
01/10/24, 16:51 - Adrian Cindea: i dont remeber its barcode
01/10/24, 16:52 - Benedetta Zini: Okay I will check it
01/10/24, 16:52 - Adrian Cindea: i have to go out right now ...
01/10/24, 16:52 - Adrian Cindea: bye
01/10/24, 16:52 - Benedetta Zini: Don't worrry
01/10/24, 16:52 - Benedetta Zini: I will do it
01/10/24, 16:52 - Benedetta Zini: Thank you so much <Questo messaggio è stato
modificato>
02/10/24, 14:32 - Adrian Cindea: hello
02/10/24, 14:32 - Adrian Cindea: please provide us K89 examples related to close
truck ... to be able to reproduce inhouse
02/10/24, 14:40 - Chiara Lodesani, Lavoro: Hi, we'll let you know when this case
will happen again..
02/10/24, 14:41 - Adrian Cindea: thx, it is important to understand the process
of happening
03/10/24, 20:00 - Support Technician 7: Hi guys, is station 9 working now?
03/10/24, 20:12 - Andrea Brunetti: Yes
05/10/24, 11:50 - Alex Ardilli, Personale: Hi, I've Just opened a ticket (nr
01390099), these are the pictures of the actual situation
05/10/24, 11:50 - Alex Ardilli, Personale: IMG-20241005-WA0000.jpg (file

allegato)
05/10/24, 11:50 - Alex Ardilli, Personale: IMG-20241005-WA0001.jpg (file allegato)
05/10/24, 11:54 - Alex Ardilli, Personale: IMG-20241005-WA0002.jpg (file allegato)
The strange thing Is that even if i filter the orders only to view actives and news ones I can find this order that looks like a finished one but has an active line
05/10/24, 13:04 - Support Technician 7: How is station 6 looking now?
05/10/24, 13:06 - Alex Ardilli, Personale: I'm going to see
05/10/24, 13:10 - Alex Ardilli, Personale: IMG-20241005-WA0003.jpg (file allegato)
It seems It Is ok, but the HA pallet in destination 1 still hasn't the transport order. May I generate the transport order automatically in SM023?
05/10/24, 13:45 - Support Technician 7: I don't know for sure, keep working normally
05/10/24, 13:46 - Support Technician 7: Maybe it's waiting for another pick order to be picked there
05/10/24, 13:49 - Alex Ardilli, Personale: The production stopped at 12.40 😊
05/10/24, 13:49 - Alex Ardilli, Personale: And the orders is finished <Questo messaggio è stato modificato>
05/10/24, 13:53 - Support Technician 7: Are both lines from the order finished?
05/10/24, 13:59 - Alex Ardilli, Personale: I can't find It in actives orders in bay 6
05/10/24, 14:00 - Support Technician 7: You have the order number here
05/10/24, 14:00 - Support Technician 7: Could you search for this order?
05/10/24, 14:00 - Support Technician 7: In og002
05/10/24, 14:02 - Alex Ardilli, Personale: What Number have to Watch and in which field on og002 have i to put that One?
05/10/24, 14:02 - Support Technician 7: OBD*... in order number field in og002
05/10/24, 14:05 - Alex Ardilli, Personale: IMG-20241005-WA0004.jpg (file allegato)
05/10/24, 14:05 - Support Technician 7: You have the second line active
05/10/24, 14:07 - Alex Ardilli, Personale: Is that possibile that the bay told me to work in destination 2 and then i can finish the order on the destination 1? <Questo messaggio è stato modificato>
05/10/24, 14:08 - Support Technician 7: Do you still have open picking orders in station 6?
05/10/24, 14:10 - Support Technician 7: Because if you have another picking order already active and all source locations are full, you will have to finish that order first, then a new pallet regarding our order will come to station 6 and maybe you will pick on destination 1 again
05/10/24, 14:10 - Alex Ardilli, Personale: On og39 I've got 4 orders, 2 of them have active lines
05/10/24, 14:10 - Support Technician 7: That's why I am saying to work normally and see what happens
05/10/24, 14:10 - Support Technician 7: If you dont work anymore today, the work can be resumed monday or whenever you start production again
05/10/24, 14:10 - Alex Ardilli, Personale: Ok, on monday we can see if It restart working as Always
05/10/24, 14:14 - Alex Ardilli, Personale: Ok, my colleagues Will contact you on monday if we have problems anymore.
Have a nice weekend <Questo messaggio è stato modificato>
05/10/24, 14:15 - Support Technician 7: Have a nice weekend too!
07/10/24, 11:57 - Benedetta Zini: Hello, at 12:30 we will set AgvDisable = true and we will let you know when you can proceed with deploy. at the same time it is going to update totem
07/10/24, 11:57 - Benedetta Zini: after deploys, we will have to test if everything works
07/10/24, 11:57 - Adrian Cindea: hello
07/10/24, 11:57 - Adrian Cindea: Razvan will take care of it
07/10/24, 11:57 - Benedetta Zini: Great
07/10/24, 12:19 - Hai aggiunto Federico Campedelli, Lavoro.
07/10/24, 12:25 - Benedetta Zini: @Support Technician 21 I set AgvDisable = true

and I added @Company Employee 4 who is take care about the update of the totem

07/10/24, 12:26 - Razvan Voicu: Ok

07/10/24, 12:28 - Benedetta Zini: let me know when you are ready because all AGVs are in charging

07/10/24, 12:29 - Razvan Voicu: I can start now

07/10/24, 12:29 - Razvan Voicu: Waiting for AGV missions to be finished

07/10/24, 12:31 - Benedetta Zini: you can start! 🚀

07/10/24, 12:32 - Benedetta Zini: please, as Always, let me know when you are doing deploy and when deploy is finished

07/10/24, 12:32 - Razvan Voicu: I am starting now. I will let you know when it is finished

07/10/24, 13:05 - Razvan Voicu: Ok, deploy done. Parameter set back to normal

07/10/24, 13:05 - Benedetta Zini: okay thank you

07/10/24, 13:06 - Benedetta Zini: can we start testing totem?

07/10/24, 13:06 - Razvan Voicu: yes

07/10/24, 13:06 - Benedetta Zini: great

07/10/24, 13:12 - Razvan Voicu: Let us know how it's going or if you need help with anything 😊

07/10/24, 13:12 - Benedetta Zini: Yes sure

07/10/24, 13:13 - Benedetta Zini: there is LU 52755586 on CU064

07/10/24, 13:13 - Benedetta Zini: it doesn't move

07/10/24, 13:13 - Benedetta Zini: we tried suspend, resume, replanning route but nothing work

07/10/24, 13:14 - Benedetta Zini: could you please check?

07/10/24, 13:14 - Razvan Voicu: yes

07/10/24, 13:16 - Benedetta Zini: also LU 51921253

07/10/24, 13:17 - Benedetta Zini: LU 51919679

07/10/24, 13:18 - Federico Campedelli, Lavoro: We're trying the check in for booking X00088104. Did you receive any yelegram?

07/10/24, 13:18 - Adrian Cindea: message 36 is too small

07/10/24, 13:18 - Adrian Cindea: it was rejected

07/10/24, 13:18 - Adrian Cindea: 36M00002583232 X00088104TEST

2024-10-0711:13:352024-10-0714:45:00ATLSBOT00137MX00088104ADBATLATL000069024

2024-09-1810000388000

07/10/24, 13:19 - Adrian Cindea: 407 only for 36

07/10/24, 13:19 - Adrian Cindea: entire messgase has 90 characters

07/10/24, 13:20 - Federico Campedelli, Lavoro: we're checking with IT

07/10/24, 13:20 - Adrian Cindea: in the morning it has 143 ... but after deploy it is much longer

07/10/24, 13:20 - Razvan Voicu: <Media omessi>

07/10/24, 13:21 - Federico Campedelli, Lavoro: something is wrong with the message. IT is working on in, i'll come back to you as soon as I receive their feedback

07/10/24, 13:25 - Razvan Voicu: moved both palets

07/10/24, 13:26 - Benedetta Zini: also this one

07/10/24, 13:26 - Benedetta Zini: what was wrong?

07/10/24, 13:27 - Adrian Cindea: i think some sync issues ... but Razvan will inform you

07/10/24, 13:31 - Adrian Cindea: length of #36 - 407, #37 - 103, #99 - 216 (based on specification received)

07/10/24, 13:34 - Federico Campedelli, Lavoro: I've just spoken with IT. Our supplier is checking what went wrong. We could have a patch in the next 20 minutes.

07/10/24, 13:34 - Razvan Voicu: I just restarted the order from MFS. Pallet remained inactive after deploy and needed a "push"

07/10/24, 13:35 - Razvan Voicu: Done all 3 pallets

07/10/24, 13:36 - Benedetta Zini: LU 51921253 is still on BP02

07/10/24, 13:36 - Adrian Cindea: it is up to you ... we are waiting your feedback ... decision is on your side (check -> rollback or not)

07/10/24, 13:43 - Razvan Voicu: done

07/10/24, 13:46 - Federico Campedelli, Lavoro: Trying another check.in in few minutes

07/10/24, 13:54 - Benedetta Zini: Thank you

07/10/24, 13:55 - Federico Campedelli, Lavoro: Tried again, but we're having

troubles. IT is working on it.

07/10/24, 13:59 - Federico Campedelli, Lavoro: Checkin X00088104 has gone ok, load S20241007104

07/10/24, 14:00 - Federico Campedelli, Lavoro: Is it ok on your side?

07/10/24, 14:00 - Razvan Voicu: message was processed, yes

07/10/24, 14:00 - Razvan Voicu: let's see if you get the correct 99 and printed loading list

07/10/24, 14:01 - Adrian Cindea: 99 was sent

07/10/24, 14:04 - Adrian Cindea: S20241007111
S20241007104

07/10/24, 14:08 - Federico Campedelli, Lavoro: IMG-20241007-WA0001.jpg (file allegato)
Container

07/10/24, 14:08 - Federico Campedelli, Lavoro: IMG-20241007-WA0002.jpg (file allegato)

07/10/24, 14:08 - Adrian Cindea: it ok for not?

07/10/24, 14:09 - Adrian Cindea: it seems as in specification ...

07/10/24, 14:09 - Benedetta Zini: yes

07/10/24, 14:09 - Federico Campedelli, Lavoro: Everything seems to be ok

07/10/24, 14:09 - Razvan Voicu: Perfect. Thanks for your cooperation

07/10/24, 14:09 - Razvan Voicu: 🍀

07/10/24, 14:10 - Federico Campedelli, Lavoro: Thank you! We keep monitoring the situation with check-in. fingers crossed!

07/10/24, 14:10 - Benedetta Zini: thank you very much!

07/10/24, 14:51 - Benedetta Zini: After deploy we can't access to some tables on DB

07/10/24, 14:51 - Adrian Cindea: i will provie access ...

07/10/24, 14:51 - Adrian Cindea: give 5 minutes ...

07/10/24, 14:52 - Benedetta Zini: did you remove access?

07/10/24, 14:53 - Adrian Cindea: please check

07/10/24, 14:53 - Benedetta Zini: please put everything as before...
It has never happened before

07/10/24, 14:53 - Adrian Cindea: data migration ...

07/10/24, 14:53 - Adrian Cindea: we need to change some structure of tables to save new fields

07/10/24, 14:53 - Adrian Cindea: please check

07/10/24, 14:54 - Adrian Cindea: i run a script to provide access ...

07/10/24, 14:54 - Adrian Cindea: let me know your feedback

07/10/24, 14:54 - Benedetta Zini: we are checking tables

07/10/24, 14:55 - Adrian Cindea: i provided for 944 table access

07/10/24, 14:56 - Benedetta Zini: I will let you know better Tomorrow morning because we have to check history server that is running tonight

07/10/24, 14:56 - Benedetta Zini: Okay?

07/10/24, 14:56 - Adrian Cindea: k

07/10/24, 14:56 - Adrian Cindea: load table was changed

07/10/24, 14:57 - Adrian Cindea: maybe it is needed some changes on your side ... it depends on implementation ...

07/10/24, 14:57 - Adrian Cindea: but please be aware ... load table structure was changed

07/10/24, 14:57 - Benedetta Zini: did you add new fields right? <Questo messaggio è stato modificato>

07/10/24, 14:58 - Adrian Cindea: yes

07/10/24, 14:58 - Benedetta Zini: what fields? Could you give us the name?

07/10/24, 15:03 - Benedetta Zini: I found them

07/10/24, 15:03 - Adrian Cindea: :)

07/10/24, 15:07 - Benedetta Zini: This time I also forgot about new fields inside DB, but starting from next time I kindly ask you to write an email in which you will point out what tables you have to change/modify... 😊

07/10/24, 15:08 - Benedetta Zini: it is very important for us for saving data inside our HS_DB

07/10/24, 15:09 - Adrian Cindea: we will inform about data migration (table structure change) -> script to see the changes on HS_DB

07/10/24, 15:09 - Adrian Cindea: not possible to provide new fields ... but using a script they can be done easily

07/10/24, 15:11 - Benedetta Zini: Okay good and please do not change any password or permission of DB
07/10/24, 15:12 - Adrian Cindea: for sure
07/10/24, 15:12 - Benedetta Zini: thank you!
10/10/24, 05:24 - Support Technician 15: Hello
10/10/24, 05:24 - Support Technician 15: Regarding last ticket. The problem is still happening? Do you get any errors at picking station?
10/10/24, 05:26 - Andrea Brunetti: Hello
10/10/24, 05:29 - Andrea Brunetti: No we haven't errors in picking station on lighthouse. The problem appeared at 4:25 and still we are stuck
10/10/24, 05:40 - Support Technician 15: I saw a few pallets enter the picking
10/10/24, 05:40 - Support Technician 15: Still blocked?
10/10/24, 05:43 - Andrea Brunetti: We have the problem that no materiale arriveranno at the sources of the bays
10/10/24, 05:59 - Giacomo Trivieri, Lavoro: We are checking with the picking manager to see what the problem is.
10/10/24, 06:00 - Giacomo Trivieri, Lavoro: @Support Technician 15
10/10/24, 06:03 - Giacomo Trivieri, Lavoro: Now the bays are starting up again I think it was a problem with the orders, only bay 7 remains, but we will update it as soon as we are in place thank you robert
10/10/24, 06:09 - Razvan Voicu: A lot of picking plans are missing items
10/10/24, 06:09 - Razvan Voicu: and picking orders cannot be created
10/10/24, 06:09 - Razvan Voicu: IMG-20241010-WA0000.jpg (file allegato)
Station 2 has only one picking order
10/10/24, 06:13 - Giacomo Trivieri, Lavoro: Yes I think the picking manager didn't understand what the real problem was, let's wait as soon as the orders are launched so we can do picking
10/10/24, 06:14 - Razvan Voicu: Station 07 is not working because it is set on GTP Inventory, not GTP Picking
10/10/24, 06:15 - Razvan Voicu: IMG-20241010-WA0001.jpg (file allegato)
10/10/24, 06:17 - Giacomo Trivieri, Lavoro: Raizan excuse me but I am not able to understand these things, we have to wait for Benedetta or Chiara to arrive
10/10/24, 06:18 - Razvan Voicu: I just showed that station HBW07 was changed from inventory to picking one minute ago
10/10/24, 06:24 - Razvan Voicu: Ok so from what I see everything is OK, there is just not enough stock in HBW1 for picking orders to be created
10/10/24, 06:24 - Razvan Voicu: either release more PPLU's from OG025, or insert more stock
10/10/24, 06:27 - Razvan Voicu: IMG-20241010-WA0002.jpg (file allegato)
so if you look, stations HBW02/HBW04/HBW06/HBW07/HBW09 have few pick orders created.
10/10/24, 06:27 - Razvan Voicu: IMG-20241010-WA0003.jpg (file allegato)
10/10/24, 06:27 - Razvan Voicu: all of these stations are extra-size
10/10/24, 06:29 - Giacomo Trivieri, Lavoro: Yes indeed, the forklift operators are loading stocks right now
10/10/24, 06:29 - Razvan Voicu: So either release more PPLUs with extra-size or more stock
10/10/24, 06:30 - Razvan Voicu: IMG-20241010-WA0004.jpg (file allegato)
You can check in OG025 like this
10/10/24, 06:30 - Razvan Voicu: IMG-20241010-WA0005.jpg (file allegato)
and if you right click a PPLU with extra size you will see something like this:
10/10/24, 06:31 - Razvan Voicu: All extra size PPLUs protocol informs that there is no stock
10/10/24, 06:32 - Razvan Voicu: IMG-20241010-WA0006.jpg (file allegato)
10/10/24, 06:32 - Razvan Voicu: So it is not an issue. We will close ticket now
10/10/24, 06:33 - Razvan Voicu: Maybe you can swtich those stations from extra size to normal, so they can get Picking orders
10/10/24, 06:34 - Razvan Voicu: @Company Employee 10 we will log out now, if that's ok
10/10/24, 06:35 - Giacomo Trivieri, Lavoro: Yes shure, Sorry for the inconvenience
10/10/24, 06:36 - Razvan Voicu: No worries
10/10/24, 06:37 - Support Technician 15: No problem. Thanks!
14/10/24, 13:35 - Support Technician 10: Hello I will check the new prio B

ticket regarding the srm 4

14/10/24, 13:42 - Support Technician 10: Can someone check the srm now?

14/10/24, 13:49 - Giacomo Trivieri, Lavoro: Hi yes, now the crane 4 come back to work Thx

14/10/24, 13:50 - Support Technician 10: It seems that a pending event got stuck on the srm 4 que

14/10/24, 13:52 - Giacomo Trivieri, Lavoro: OK I understand I hope there will be no more problems for the next orders because it was blocking some picking bays

14/10/24, 13:52 - Support Technician 10: I am checking to see if everything is ok so if you see something not working please let me know

14/10/24, 13:54 - Giacomo Trivieri, Lavoro: Of course we'll keep an eye on it 😊, thank you very much

18/10/24, 09:59 - Benedetta Zini:  Dear All, we have a problem with TPOs inside automatic area

18/10/24, 09:59 - Razvan Voicu: i check

18/10/24, 10:00 - Benedetta Zini: thank you

18/10/24, 10:00 - Benedetta Zini: also TPOs in status active are blocked

18/10/24, 10:01 - Benedetta Zini: I have to refresh and reset

18/10/24, 10:01 - Benedetta Zini: then pallet start moving and TPOs in status NEW pass in status ACTIVE

18/10/24, 10:03 - Razvan Voicu: Are the stations also blocked to do picking?

18/10/24, 10:03 - Razvan Voicu: I see all the stations are occupied

18/10/24, 10:04 - Benedetta Zini: Yes they are blocked because all sources are occupied

18/10/24, 10:04 - Benedetta Zini: they can't send away old sources because TPOs are in status NEW

18/10/24, 10:08 - Benedetta Zini: Chiara is releasing some sources because all pick stations are blocked

18/10/24, 10:08 - Razvan Voicu: no

18/10/24, 10:08 - Razvan Voicu: wait 1 minute

18/10/24, 10:09 - Benedetta Zini: okay

18/10/24, 10:09 - Benedetta Zini: we have to stop releasing TPOs also for HBW1 and HBW2?

18/10/24, 10:10 - Benedetta Zini: also destinations of pick stations

18/10/24, 10:10 - Razvan Voicu: yes, I found the issue

18/10/24, 10:11 - Razvan Voicu: solving it now

18/10/24, 10:12 - Razvan Voicu: done

18/10/24, 10:14 - Benedetta Zini: what was the issue??

18/10/24, 10:15 - Benedetta Zini: because this morning I saw strange behaviors

18/10/24, 10:16 - Razvan Voicu: IMG-20241018-WA0006.jpg (file allegato)

18/10/24, 10:16 - Razvan Voicu: IMG-20241018-WA0007.jpg (file allegato)

18/10/24, 10:17 - Razvan Voicu: Because of these TPOs, the queue was blocked

18/10/24, 10:17 - Benedetta Zini: I do not understand...

18/10/24, 10:17 - Benedetta Zini: LUs in S50 10 were blocked the queue?

18/10/24, 10:17 - Razvan Voicu: Wamas couldn't process these TPOs

18/10/24, 10:17 - Razvan Voicu: not sure why yes

18/10/24, 10:17 - Razvan Voicu: yet*

18/10/24, 10:18 - Razvan Voicu: seems like TPOs were edited manually and destination was overridden with origin

18/10/24, 10:20 - Razvan Voicu: IMG-20241018-WA0008.jpg (file allegato)

all of these were canceled by me

18/10/24, 10:21 - Benedetta Zini: okay, they were pallets with TPOs from S50 10, right?

18/10/24, 10:21 - Razvan Voicu: From S50 10 to S50 10

18/10/24, 10:21 - Benedetta Zini: I'm going to talk with user

18/10/24, 10:22 - Benedetta Zini: can you check this strange behavior?

18/10/24, 10:22 - Razvan Voicu: IMG-20241018-WA0009.jpg (file allegato)

18/10/24, 10:22 - Benedetta Zini: IMG-20241018-WA0010.jpg (file allegato)

this F pallet want to go inside HBW1 instead of going in HBW2

18/10/24, 10:27 - Razvan Voicu: I will create ticket and I wil check

18/10/24, 10:28 - Benedetta Zini: I will send you an email

18/10/24, 10:28 - Benedetta Zini: with scrreshot

18/10/24, 10:31 - Razvan Voicu: IMG-20241018-WA0011.jpg (file allegato)

this was at nok foiling

18/10/24, 10:32 - Razvan Voicu: Maybe user created TPO to HRA01X092Y04Z1 when he released it from nok?

18/10/24, 10:32 - Razvan Voicu: I don't remember if he creates TPO manually

18/10/24, 10:32 - Razvan Voicu: or maybe he selected wrong area/hbw when creating tpo?

18/10/24, 10:33 - Razvan Voicu: IMG-20241018-WA0012.jpg (file allegato)
because initially the TPO was towards hbw2

18/10/24, 10:35 - Benedetta Zini: But it is not written in the protocol that mmoperations2 created a TPO towards HBW1 <Questo messaggio è stato modificato>

18/10/24, 10:41 - Razvan Voicu: IMG-20241018-WA0013.jpg (file allegato)

18/10/24, 10:41 - Razvan Voicu: Now, I don't know if he just presses on the NOK Station "release LU" and the TPO is created

18/10/24, 10:41 - Razvan Voicu: or if he enters an area or hbw. Not sure how he created the tpo

18/10/24, 10:42 - Razvan Voicu: user mmfoiling2

18/10/24, 10:43 - Razvan Voicu: never mind, wamas fault probably, he just presses release LU on station from what I remember <Questo messaggio è stato modificato>

18/10/24, 10:49 - Benedetta Zini: I understood what happened...

18/10/24, 10:50 - Benedetta Zini: Correct, user has to press "release LU" at NOK station and WAMAS creates automatically TPO to send it back inside automatic area...

18/10/24, 10:55 - Benedetta Zini: LU 93559630 was sent in manually at foiling area from HBW1 and then was sent into NOK due to "high"... then WAMAS replanned TPO towards HBW1...

18/10/24, 11:02 - Razvan Voicu: Yeah, you can create ticket

18/10/24, 11:03 - Razvan Voicu: might be because of the issue we had now

18/10/24, 11:03 - Razvan Voicu: Where queue was blocked, maybe the process that handles the release was not "informed" that this should only go to HBW2 due to messages being blocked in the other queue

18/10/24, 11:03 - Razvan Voicu: Have you encountered this problem before?

18/10/24, 11:04 - Benedetta Zini: I do not remember... 😊

18/10/24, 11:07 - Razvan Voicu: we can create a ticket and try to reproduce

18/10/24, 11:07 - Razvan Voicu: But this flow is tested probably daily on site

18/10/24, 11:07 - Razvan Voicu: foiling -> nok -> resolve problem -> release LU

18/10/24, 11:08 - Razvan Voicu: and this problem happened right when we had wamas blocked

18/10/24, 11:09 - Benedetta Zini: yes but LU was sent manually from HBW1 to foiling

18/10/24, 12:07 - Razvan Voicu: Where did you see that?

18/10/24, 12:08 - Benedetta Zini: User told me...

18/10/24, 12:08 - Benedetta Zini: And you can see from CC015

18/10/24, 12:09 - Razvan Voicu: So for LU 93559630

18/10/24, 12:09 - Benedetta Zini: Yes

18/10/24, 12:09 - Razvan Voicu: IMG-20241018-WA0015.jpg (file allegato)

18/10/24, 12:10 - Benedetta Zini: Yes....

18/10/24, 12:10 - Razvan Voicu: IMG-20241018-WA0016.jpg (file allegato)

18/10/24, 12:10 - Razvan Voicu: LU had TPO to pick station

18/10/24, 12:10 - Razvan Voicu: But user changed destination to HRA04 and finished it manually

18/10/24, 12:10 - Benedetta Zini: I missed this part ...

18/10/24, 12:12 - Razvan Voicu: if you check in MF014 all the TPOs for this LU

18/10/24, 12:12 - Razvan Voicu: you can find it

18/10/24, 12:12 - Razvan Voicu: no need for searching in archive

18/10/24, 12:12 - Benedetta Zini: Okay thank you

18/10/24, 12:14 - Razvan Voicu: I don't see this LU getting to the station

18/10/24, 12:15 - Razvan Voicu: maybe because it's wholeLU it's not needed for picking and goes straight to foiling?

18/10/24, 12:17 - Razvan Voicu: I'm 99% sure this is not a bug, just user intervention that made the LU go crazy 😊

18/10/24, 12:52 - Razvan Voicu: Ok so should we focus only on one ticket with the problem where Wamas queue got blocked and TPOs were not activated anymore? Or should we create a second ticket for this pallet that went from foiling to HBW1 <Questo messaggio è stato modificato>

18/10/24, 15:07 - Benedetta Zini: You can focus only on the first ticket (WAMAS queue got blocked)
18/10/24, 21:05 - Support Technician 10: Hello I just got informed about a ticket regarding pick bay 2 what exactly is the issue from what I read we see the subLU and not the master?
18/10/24, 21:06 - Support Technician 10: And how is that affecting the flow
18/10/24, 21:11 - Tommaso Guizzardi, Lavoro: Hello, what do you mean for sub and master?
Because from wamas I can see only the pallet D over the B positioned under, on the conveyor
If I search the last one, on wamas I can't find anything
18/10/24, 21:12 - Tommaso Guizzardi, Lavoro: Otherwise From lighthouse I can see only the udc of the B pallet and not the D where there is the material
22/10/24, 10:50 - Benedetta Zini: Hello! BP08 is blocked due to issue D159
22/10/24, 10:50 - Benedetta Zini: I marked it "need to check live"
22/10/24, 10:50 - Benedetta Zini: IMG-20241022-WA0007.jpg (file allegato)
22/10/24, 10:51 - Benedetta Zini: could you please check it now asap?
22/10/24, 10:52 - Benedetta Zini: BP08 has to do PO 4712348 but there isn't the empty pallet for negative picking in source locations
22/10/24, 10:53 - Benedetta Zini: IMG-20241022-WA0008.jpg (file allegato)
WAMAS can't proceed with the assignment because there isn't enough space... all source locations and buffer are full...
22/10/24, 10:54 - Benedetta Zini: let me know if you have time to check it otherwise I have to cancel order line of PO 4712348 until I create space for empty pallet
22/10/24, 11:06 - Adrian Cindea: i will check right now
22/10/24, 11:14 - Benedetta Zini: thank you
22/10/24, 11:29 - Adrian Cindea: we will finalize the PO
22/10/24, 11:30 - Adrian Cindea: no other way in this deadlock
22/10/24, 11:30 - Adrian Cindea: and we will analyze what empty LU for source location was not sent in station ...
22/10/24, 11:30 - Benedetta Zini: there was another way...
22/10/24, 11:31 - Benedetta Zini: finalize 2 order line for making space for empty LU...
22/10/24, 11:31 - Benedetta Zini: okay, please let me know what you will find
22/10/24, 11:31 - Adrian Cindea: to not have many splits
22/10/24, 11:32 - Benedetta Zini: but it was a PO with a lot of order lines... so probably user should have "report as full"... don't worry
22/10/24, 11:33 - Adrian Cindea: you are right ... a split was necessary <Questo messaggio è stato modificato>
22/10/24, 11:34 - Adrian Cindea: my goal was to send out a pallet not negative picking activity
22/10/24, 11:34 - Benedetta Zini: it is probably that when this order returns to pick station this problem arises again...
22/10/24, 11:34 - Adrian Cindea: maybe ...
22/10/24, 11:34 - Adrian Cindea: finalize negative pickign next time
22/10/24, 11:35 - Benedetta Zini: okay thank you!
22/10/24, 12:04 - Adrian Cindea: thx too
22/10/24, 12:43 - Benedetta Zini: Please
22/10/24, 12:43 - Benedetta Zini: can you check pick 8?
22/10/24, 12:44 - Adrian Cindea: i will check it
22/10/24, 12:44 - Benedetta Zini: No pallet on source locations and all tpos are in status new due to WAIT_FOR_CAPACITY_ZONE_PICK8
22/10/24, 12:44 - Benedetta Zini: very strange
22/10/24, 13:59 - Adrian Cindea: it is my fault
22/10/24, 13:59 - Adrian Cindea: i blocked buffer location trying to make space in station for empty LU ... and i forgot to remove it
22/10/24, 13:59 - Adrian Cindea: i did it ... and it starts to work
22/10/24, 14:00 - Adrian Cindea: meanwhile i tested something else ... related to blockage at station3
22/10/24, 14:00 - Adrian Cindea: i was in call with Mihai Soceanu ... this is the reason of late feedback ...
22/10/24, 14:01 - Adrian Cindea: during intervention for issue with negative picking activity at station 8 ... i tried to send a source pallet out and

blocked buffer to not be used ... but at the end i finalized PO but not removed block from buffer location

22/10/24, 14:01 - Adrian Cindea: now station 8 is workign again

22/10/24, 14:59 - Benedetta Zini: Here I am (sorry)

22/10/24, 14:59 - Adrian Cindea: it seems used was found but we will try to reproduce it inhouse and later to fix it (it is related with sequence execution - retrieval from HBW1 vs empty LU)

22/10/24, 15:00 - Benedetta Zini: Okay everything clear about pick 8, but at what blockage do you referring to?

22/10/24, 15:01 - Benedetta Zini: When there is a negative picking, right?

22/10/24, 15:01 - Adrian Cindea: IMG-20241022-WA0016.jpg (file allegato)

22/10/24, 15:01 - Benedetta Zini: I undestood the buffer

22/10/24, 15:02 - Benedetta Zini: Her you said pick 3, what was the blockage of pick 3?

22/10/24, 15:02 - Adrian Cindea: provide empty LU in source locations vs pallets from HBW1 = negative picking (in principle)

22/10/24, 15:02 - Benedetta Zini: Okay clear....

22/10/24, 15:02 - Adrian Cindea: my fault ... it was station 8

22/10/24, 15:02 - Benedetta Zini: Oooh okay, now clear as crystal

22/10/24, 15:03 - Benedetta Zini: Are you able to test it in house or do you want to check another example?

22/10/24, 15:03 - Benedetta Zini: I mean to check another case in live

22/10/24, 15:04 - Benedetta Zini: When it occurs again

22/10/24, 15:04 - Adrian Cindea: in house because we found what happened

22/10/24, 15:04 - Adrian Cindea: to be able to fix it and to test it again ...

22/10/24, 15:04 - Benedetta Zini: Great

22/10/24, 15:04 - Benedetta Zini: Good to hear that you found what happened

22/10/24, 15:06 - Adrian Cindea: pallets from HBW1 had sequence 0 and empty LU (to provide emptu LU in source location) had sequence 1... the *smaller one* is executed first ... <Questo messaggio è stato modificato>

22/10/24, 15:06 - Adrian Cindea: pallets were moved in station but not empty LU to pick - negative picking activity

22/10/24, 15:09 - Benedetta Zini: Whit "the smaller" you would mean the sequence 0 right?

22/10/24, 15:10 - Adrian Cindea: 0, 1, 2, ...

22/10/24, 15:10 - Benedetta Zini: Okay

22/10/24, 15:10 - Adrian Cindea: 0 - first

22/10/24, 15:10 - Benedetta Zini: Now clear 😊 <Questo messaggio è stato modificato>

22/10/24, 15:11 - Benedetta Zini: Sorry

22/10/24, 15:12 - Benedetta Zini: But... it has always been like this?

22/10/24, 15:19 - Adrian Cindea: it seems yes ...

22/10/24, 15:19 - Adrian Cindea: but it happens in some situations ... when there are more than 4 source LUS with sequence 0 in PO

22/10/24, 15:19 - Adrian Cindea: and negative picking inside ...

22/10/24, 15:22 - Benedetta Zini: okay so that's why it doesn't always happen

22/10/24, 15:23 - Benedetta Zini: only in some specific situations --> more that 4 source with prio 0 and negative pick with empty request

22/10/24, 15:23 - Adrian Cindea: yes ... i checked negative POs and i saw many with less than 5 lines + others with more but sequence 0 only for less than 4 source LUS

22/10/24, 15:24 - Benedetta Zini: oh okay...

23/10/24, 15:58 - Benedetta Zini: Hello! BP05 is blocked due to issue A186

23/10/24, 15:59 - Benedetta Zini: IMG-20241023-WA0007.jpg (file allegato)

I marked it "need to be check live"

23/10/24, 15:59 - Benedetta Zini: Could you please check it asap?

23/10/24, 15:59 - Adrian Cindea: i will take a look

23/10/24, 15:59 - Benedetta Zini: thank you

23/10/24, 15:59 - Benedetta Zini: if you want I can send you the POs

23/10/24, 16:01 - Benedetta Zini: User has to do PO 4719020 but WAMAS is sending to pick station empty LU for PO 4719342 in loop

23/10/24, 16:01 - Benedetta Zini: IMG-20241023-WA0008.jpg (file allegato)

23/10/24, 16:01 - Adrian Cindea: give some minutes to make some print screens

23/10/24, 16:01 - Benedetta Zini: yes sure

23/10/24, 16:01 - Benedetta Zini: thank you
23/10/24, 16:14 - Adrian Cindea: negative picking activity is finished (no clear its reason) and empty LU from source locations was sent out ... but there is an empty LU request for PO for negative picking ... so it has to be closed to create a new one for destination location
23/10/24, 16:14 - Adrian Cindea: because PO has normal picking activities
23/10/24, 16:14 - Adrian Cindea: i will delete empty LU request
23/10/24, 16:15 - Adrian Cindea: for negative picking to come a new empty LU or finalized PO 4719020.
23/10/24, 16:15 - Adrian Cindea: what do you prefer delete LU request or finalized PO?
23/10/24, 16:21 - Benedetta Zini: I think due to the blockage of one cranes
23/10/24, 16:21 - Benedetta Zini: IMG-20241023-WA0009.jpg (file allegato)
23/10/24, 16:21 - Benedetta Zini: IMG-20241023-WA0010.jpg (file allegato)
23/10/24, 16:21 - Adrian Cindea: gtp lu was disconnected
23/10/24, 16:22 - Adrian Cindea: i see in the logs
23/10/24, 16:22 - Adrian Cindea: missing implementation is to delete empty lu request
23/10/24, 16:22 - Adrian Cindea: being one .. no other is created ...
23/10/24, 16:22 - Adrian Cindea: when source LU was sent out from station
23/10/24, 16:23 - Benedetta Zini: mmmh... but I remember that wamas did it...
23/10/24, 16:23 - Adrian Cindea: TEMP1205 was in station and it was identified and moved out
23/10/24, 16:23 - Benedetta Zini: delete empty LU and create another one for normal pick
23/10/24, 16:23 - Adrian Cindea: after deletion is created
23/10/24, 16:24 - Adrian Cindea: but the second one is not created in case there is one
23/10/24, 16:24 - Adrian Cindea: may i cancel it (empty lu request)?
23/10/24, 16:24 - Benedetta Zini: ??
23/10/24, 16:24 - Benedetta Zini: temp1205 was in BP11
23/10/24, 16:25 - Benedetta Zini: yes I can try cancel request for 4719020
23/10/24, 16:25 - Benedetta Zini: do you have all the screenshots?
23/10/24, 16:25 - Adrian Cindea: yes
23/10/24, 16:26 - Benedetta Zini: i did it
23/10/24, 16:27 - Benedetta Zini: should wamas create another one?
23/10/24, 16:29 - Adrian Cindea: it does
23/10/24, 16:29 - Benedetta Zini: yesss now
23/10/24, 16:29 - Adrian Cindea: there are 2 empty requests created
23/10/24, 16:29 - Benedetta Zini: yes for both POs
23/10/24, 16:29 - Adrian Cindea: it takes a while to run the worker which created them
23/10/24, 16:29 - Adrian Cindea: the solution is to remove empty request for PO 4719020
23/10/24, 16:30 - Benedetta Zini: the workaround 😊
23/10/24, 16:30 - Adrian Cindea: automatically by software
23/10/24, 16:30 - Benedetta Zini: oh okay
23/10/24, 16:31 - Benedetta Zini: But from what I remember, wamas should do it already
23/10/24, 16:32 - Adrian Cindea: IMG-20241023-WA0011.jpg (file allegato)
23/10/24, 16:32 - Adrian Cindea: it seems identification was not done at station ...
23/10/24, 16:33 - Adrian Cindea: normally empty request is deleted when identification is done at a station .. i need to check in this situation ...
23/10/24, 16:33 - Benedetta Zini: It happened that by blocking a crane finalizes the negative pick of POs and then WAMAS deleted the empty LU request for negative pick and created another one
23/10/24, 16:33 - Adrian Cindea: something did not work properly ... we will test it locally
23/10/24, 16:34 - Benedetta Zini: ooh okay... It was a B pallet
23/10/24, 16:34 - Benedetta Zini: we have a stack of B pallet on CU121
23/10/24, 16:35 - Benedetta Zini: IMG-20241023-WA0012.jpg (file allegato)
23/10/24, 16:35 - Adrian Cindea: it has to be tested locally ... we found what happened we will see locally why empty LU request was not deleted

23/10/24, 16:35 - Adrian Cindea: i know ...
23/10/24, 16:35 - Benedetta Zini: okay thank you
23/10/24, 16:35 - Benedetta Zini: 🙏
23/10/24, 16:35 - Adrian Cindea: we can simulate it locally with a stack and empty LU request for B <Questo messaggio è stato modificato>
23/10/24, 16:36 - Benedetta Zini: yes perfect! Please let me know what happens
23/10/24, 16:36 - Benedetta Zini: thank you very much again
23/10/24, 16:37 - Benedetta Zini: do you need to take a look again inside our system? If not our IT dept is going to close the vpn connection
23/10/24, 16:38 - Benedetta Zini: they found something regarding security and they would like to update our system now
23/10/24, 16:44 - Benedetta Zini: @Support Technician 12 ?
24/10/24, 07:03 - Adrian Cindea: no
24/10/24, 07:04 - Adrian Cindea: sorry for late response
24/10/24, 10:16 - Benedetta Zini: Hello! I'm sorry for disturbing you but I have already sent an email regarding a new issue A195
24/10/24, 10:16 - Adrian Cindea: hi
24/10/24, 10:17 - Adrian Cindea: i will check and adjust qty
24/10/24, 10:17 - Benedetta Zini: Could you please check and fix them as soon as possible? we have to ship these orders ☐
24/10/24, 10:17 - Benedetta Zini: thank you very much!
24/10/24, 10:20 - Adrian Cindea: IMG-20241024-WA0001.jpg (file allegato)
24/10/24, 10:21 - Adrian Cindea: shipment LU has 4 NR .. i have changed buffer qty to 4 NR <Questo messaggio è stato modificato>
24/10/24, 10:21 - Adrian Cindea: we will check later why it happened
24/10/24, 10:23 - Benedetta Zini: okay
24/10/24, 10:24 - Benedetta Zini: please check also the other order
24/10/24, 10:24 - Benedetta Zini: some buffer orders are 0 instead of 1
24/10/24, 11:04 - Benedetta Zini: @Support Technician 12 ?
24/10/24, 11:25 - Benedetta Zini: IMG-20241024-WA0002.jpg (file allegato)
issue A195 for ADBATLATL000074212: 6 instead of 3 in buffer quantity
24/10/24, 11:27 - Benedetta Zini: IMG-20241024-WA0003.jpg (file allegato)
issue A195 for ADBATLATL000092630: 10 instead of 5 in buffer quantity
24/10/24, 11:28 - Benedetta Zini: also ADBATLATL000091738 has issue A195
24/10/24, 11:35 - Benedetta Zini: I'm sorry for bothering you but we need to ship orders 😞
24/10/24, 11:39 - Support Technician 10: I will check
24/10/24, 11:44 - Support Technician 10: Done
24/10/24, 11:44 - Support Technician 10: Done
24/10/24, 11:46 - Support Technician 10: For this one I see that we don't have buffered quantity
24/10/24, 11:53 - Support Technician 10: Done 91738
24/10/24, 11:59 - Adrian Cindea: OBD0000919784
OBD0000920545
24/10/24, 11:59 - Adrian Cindea: was fixed by me ...
24/10/24, 12:00 - Adrian Cindea: no other case with buffered amount - amount to discharge > deleivred amount
24/10/24, 12:08 - Adrian Cindea: for case .. picking was done on 01053715 at BP03 and it was moved to S50 10 at 22.10.2024 14:52:30.
24/10/24, 12:09 - Adrian Cindea: + buffer amount was increased with 4.
24/10/24, 12:09 - Adrian Cindea: its stock was moved to 01053703 (S01 MELU-01-00) from 01053715 (S50 10) - buffered amount is not decreased.
24/10/24, 12:10 - Adrian Cindea: 01053703 was moved from S01 MELU-01-00 to S50 10 (buffered qty is increased again)
24/10/24, 12:11 - Adrian Cindea: at 22.10.2024 15:09:06 ... buffered amount = 8
24/10/24, 12:12 - Adrian Cindea: stock was moved at the end on 60465154 (shipped)
24/10/24, 12:12 - Adrian Cindea: so ... it is important to understand why stock was moved from S50 10 to S01 MELU-01-00 instead to move both LUs in S50 10 and make sotck movement ...
24/10/24, 12:14 - Adrian Cindea: OBD line buffered amount is changed during LU movement (it seems partial movement of stock from a buffered LU to a non buffered LU does not decrease buffered quantity of its OBD line)
24/10/24, 12:21 - Benedetta Zini: IMG-20241024-WA0004.jpg (file allegato)

also this one

24/10/24, 12:22 - Support Technician 10: Done
24/10/24, 12:26 - Adrian Cindea: root cause: it seems to be a consolidation of buffered LU to a non buffered LU!
24/10/24, 14:26 - Benedetta Zini: oh... okay... and it double the quantity?
24/10/24, 15:10 - Adrian Cindea: any movement to buffer increases the quantity
<Questo messaggio è stato modificato>
24/10/24, 15:10 - Adrian Cindea: any movement from buffer decreases it <Questo messaggio è stato modificato>
24/10/24, 15:11 - Adrian Cindea: but stock was moved by consolidation from buffer to non buffer (not using a TPO execution)
24/10/24, 15:12 - Adrian Cindea: and stock was not decreased ... it remains 4 ... and later moving again new LU in buffer it increases again ... becoming 8
24/10/24, 15:13 - Benedetta Zini: strange behavior...
24/10/24, 15:14 - Benedetta Zini: I have never seen it before
24/10/24, 15:14 - Adrian Cindea: LU1 was moved in buffer (buffer qty = 4)
24/10/24, 15:14 - Adrian Cindea: stock from LU1 was moved on LU2 (no buffer -> buffer qty = 4)
24/10/24, 15:15 - Adrian Cindea: LU2 was moved in buffer (buffer qty = 4+4 =8)
24/10/24, 15:15 - Adrian Cindea: the idea is to not make consoliatiion between shipment LUs from buffer and no buffer location
24/10/24, 15:17 - Benedetta Zini: And WAMAS add the quantity in buffer because it sees LU2?
24/10/24, 15:17 - Adrian Cindea: becuase LU2 reahed the buffer
24/10/24, 15:17 - Benedetta Zini: because it is the same quantity and item
24/10/24, 15:17 - Adrian Cindea: becuase LU2 reached the buffer
24/10/24, 15:17 - Adrian Cindea: no, becuase the same qty ... becuase it is in buffer
24/10/24, 15:18 - Benedetta Zini: okay
24/10/24, 15:18 - Adrian Cindea: 3 LUs picked ... when each reaches buffer location -> buffer qty is incrcreased with stock on LU
24/10/24, 15:18 - Adrian Cindea: when it is scanned to be moved (buffer qty is decreased) ...
24/10/24, 15:19 - Adrian Cindea: but in our case during consolidation decrease it is not done ... buffer qty remains 4
24/10/24, 15:19 - Adrian Cindea: and later operator add LU2 (which is a new pallet in buffer) , buffer qty increased ... again with its stock ...
24/10/24, 15:20 - Benedetta Zini: okay I understand
24/10/24, 15:20 - Adrian Cindea: all stock from LU1 (S50 10) was moved on LU2 (mercu) and after that moved LU2 in S50 10
24/10/24, 15:20 - Benedetta Zini: user has to do the consolidation when LUs are in MELU, right?
24/10/24, 15:20 - Adrian Cindea: yes ...
24/10/24, 15:20 - Benedetta Zini: then move all in S50 10
24/10/24, 15:20 - Adrian Cindea: it is visible in SM003
24/10/24, 15:20 - Benedetta Zini: yes yes
24/10/24, 15:21 - Adrian Cindea: IMG-20241024-WA0005.jpg (file allegato)
24/10/24, 15:21 - Adrian Cindea: i dont know the reason ... move back to come back :)
24/10/24, 15:22 - Benedetta Zini: me neither
24/10/24, 15:22 - Adrian Cindea: it is needed a solution for this situation (it does not make sense but it can happen)
24/10/24, 15:23 - Adrian Cindea: so consolidation needs to be tested and to fix it (it is possible to move in staging locationa and so on)
24/10/24, 15:23 - Adrian Cindea: from buffer to staging -> using consolidation ...
24/10/24, 15:25 - Benedetta Zini: I have to talk with operations manager
24/10/24, 15:25 - Benedetta Zini: I agree with you...
28/10/24, 18:43 - Tommaso Guizzardi, Lavoro: IMG-20241028-WA0010.jpg (file allegato)
28/10/24, 18:44 - Tommaso Guizzardi, Lavoro: Picking 1
28/10/24, 18:44 - Tommaso Guizzardi, Lavoro: The operator can't confirm picking on d01
28/10/24, 20:43 - Giacomo Trivieri, Lavoro: IMG-20241028-WA0012.jpg (file

allegato)
28/10/24, 21:58 - Support Technician 23: Hello
Can you please restart workstation 5 and let me know if the issue is still present?
28/10/24, 21:59 - Giuseppe Romano, Lavoro: Hi, ok let me try
28/10/24, 22:01 - Giuseppe Romano, Lavoro: No, the problem is still present
28/10/24, 22:02 - Support Technician 23: please send me a picture
28/10/24, 22:02 - Giuseppe Romano, Lavoro: Ok
28/10/24, 22:04 - Giuseppe Romano, Lavoro: IMG-20241028-WA0013.jpg (file allegato)
28/10/24, 22:06 - Support Technician 23: what's the username?
28/10/24, 22:09 - Giuseppe Romano, Lavoro: Lp75
28/10/24, 22:18 - Support Technician 23: Can you please release lu 58283258 from the station?
28/10/24, 22:18 - Support Technician 23: And retry to login on the station
28/10/24, 22:19 - Giuseppe Romano, Lavoro: Ok
28/10/24, 22:21 - Giuseppe Romano, Lavoro: Now it seems ok
28/10/24, 22:22 - Support Technician 23: please continue to work and let me know if we can close the case
28/10/24, 22:25 - Giuseppe Romano, Lavoro: Ok now i will keep monitoring the work on picking station and let u know as soon as possible
28/10/24, 22:39 - Support Technician 23: can you please check if you have 2 pieces of SOLID WH.MATT 80 40x80 on 62534421 which is on BP05 D01?
28/10/24, 22:43 - Giuseppe Romano, Lavoro: I have 4 pieces of this material
28/10/24, 22:52 - Support Technician 23: is the station working fine? can we close the case
28/10/24, 22:52 - Support Technician 23: ?
28/10/24, 23:01 - Support Technician 23: @Company Employee 7
28/10/24, 23:02 - Giuseppe Romano, Lavoro: Yes for the moment it's all ok
28/10/24, 23:07 - Support Technician 23: ok, thank you
28/10/24, 23:09 - Giuseppe Romano, Lavoro: Thanks you too
30/10/24, 10:12 - Benedetta Zini: Hello! I'm sorry but I need your help because pick station #7 is blocked... there is an empty LU request but WAMAS doesn't assigned an LU
30/10/24, 10:13 - Benedetta Zini: IMG-20241030-WA0000.jpg (file allegato)
30/10/24, 10:14 - Benedetta Zini: I tried to cancel the empty request but without success
30/10/24, 10:14 - Benedetta Zini: I really do not understand why it is happening
30/10/24, 10:16 - Benedetta Zini: I don't know if you do something, but now there is the assigned LU
30/10/24, 10:16 - Benedetta Zini: IMG-20241030-WA0001.jpg (file allegato)
😊
07/11/24, 08:31 - Benedetta Zini: IMG-20241107-WA0001.jpg (file allegato)
07/11/24, 08:32 - Benedetta Zini: Hello! Could you please check what is wrong?
07/11/24, 08:32 - Benedetta Zini: 😞😞
07/11/24, 08:33 - Benedetta Zini: We have already opened a ticket
07/11/24, 09:03 - Support Technician 10: Hello I am looking into thus
07/11/24, 09:21 - Support Technician 10: Can you tell me what pallet is on the Tps for srm 2 and if any pallet is on the srm right now
07/11/24, 09:22 - Giacomo Trivieri, Lavoro: I'n going here and i tell you
07/11/24, 09:22 - Support Technician 10: Ok
07/11/24, 09:30 - Giacomo Trivieri, Lavoro: IMG-20241107-WA0002.jpg (file allegato)
07/11/24, 09:30 - Giacomo Trivieri, Lavoro: IMG-20241107-WA0003.jpg (file allegato)
07/11/24, 09:31 - Giacomo Trivieri, Lavoro: But it's already gone, now is on the tips *2061
07/11/24, 09:31 - Support Technician 10: From what I see for this pallet we had a tpo to station 4 but it was cancelled
07/11/24, 09:31 - Support Technician 10: Now I created another tpo for storage
07/11/24, 09:32 - Support Technician 10: Now all the issue should be fixed
07/11/24, 09:33 - Support Technician 10: Let me know if you have any other issues
07/11/24, 09:33 - Giacomo Trivieri, Lavoro: Perfect Thx

07/11/24, 09:33 - Giacomo Trivieri, Lavoro: Ok
14/11/24, 16:39 - Nicola Bernardi: Can you check this ticket asap?

01397946

14/11/24, 16:41 - Nicola Bernardi: We have only logical pallet on SRM01F2, can you clean the logical pallet on it?
14/11/24, 16:41 - Razvan Voicu: Hello, I can check
14/11/24, 16:41 - Razvan Voicu: give me a couple of minutes to log in <Questo messaggio è stato modificato>
14/11/24, 16:41 - Nicola Bernardi: 🤔
14/11/24, 17:06 - Razvan Voicu: I see no pallet on SRM01
14/11/24, 17:06 - Razvan Voicu: Is there phsyically a pallet there, but not in wamas?
14/11/24, 17:08 - Chiara Lodesani, Lavoro: now no, there isn't any pallet there physically
14/11/24, 17:08 - Razvan Voicu: Did you do something manually?
14/11/24, 17:09 - Chiara Lodesani, Lavoro: yes, we moved it
14/11/24, 17:09 - Razvan Voicu: Which one
14/11/24, 17:09 - Chiara Lodesani, Lavoro: 60570747
14/11/24, 17:10 - Razvan Voicu: I see that 60570747 is stored in HRA04X102Y10Z21
14/11/24, 17:10 - Razvan Voicu: This was on fork on srm1, but you moved it on TPR?
14/11/24, 17:10 - Razvan Voicu: Can you detail a bit what happened, what you moved from where to where?
14/11/24, 17:13 - Chiara Lodesani, Lavoro: si
14/11/24, 17:13 - Chiara Lodesani, Lavoro: IMG-20241114-WA0027.jpg (file allegato)
but LU remains here
14/11/24, 17:22 - Razvan Voicu: It is alive
14/11/24, 17:22 - Nicola Bernardi: <Media omessi>
14/11/24, 17:22 - Nicola Bernardi: 😂😂😂
14/11/24, 17:23 - Nicola Bernardi: Thx for all👍
14/11/24, 17:26 - Razvan Voicu: there was a contour not fit for this
14/11/24, 17:26 - Razvan Voicu: Probably pallet too big or sensor fail
14/11/24, 17:34 - Nicola Bernardi: I saw this(on SRM01 it is normal) we tried to fix this issue (we checked the sensor position) but the error stay
14/11/24, 17:36 - Razvan Voicu: I think the sensor error is on conveyor, not SRM
14/11/24, 17:36 - Razvan Voicu: at least this shows on lighthouse
14/11/24, 17:36 - Razvan Voicu: not sure what I can do here when it's sensor issue
14/11/24, 17:48 - Nicola Bernardi: On conveyor i don't have sensor for check the high (error code 14291 on wamas protocol, it is the check of SRM was make when take pallet)
14/11/24, 17:52 - Razvan Voicu: If you need help with sensor, ask PLC help from callcenter
14/11/24, 17:53 - Razvan Voicu: Last time I checked lighthouse it was "sensor b* error"
14/11/24, 17:53 - Razvan Voicu: Can you send a picture of a current error? My system is rebooting
02/12/24, 10:34 - Chiara Lodesani, Lavoro: Hello, we will update around 12:30 for the deploy
02/12/24, 12:27 - Chiara Lodesani, Lavoro: I have just put
com.wamas.mfs.core.common.agvDisable = TRUE. I'll let you know when you can start.
02/12/24, 12:27 - Chiara Lodesani, Lavoro: Plese, give me a feedback if you are ready
02/12/24, 12:27 - Support Technician 7: We are ready
02/12/24, 12:27 - Support Technician 7: Let us know when to start
02/12/24, 12:35 - Chiara Lodesani, Lavoro: you can start!
02/12/24, 12:35 - Chiara Lodesani, Lavoro: please, tell us when you finish
02/12/24, 13:05 - Support Technician 7: Deploy is done
02/12/24, 13:05 - Chiara Lodesani, Lavoro: good, thank you!
09/12/24, 10:07 - Benedetta Zini: Good morning! Today at 12:30 I'm going to set agvDisable = true and I will let you know when you can start with deploy. You

will have until 14:10 pm (italian time).

After the deploy, as you always suggest, we will check that the system works. We will mainly control TPOs, is there anything else that we have to check better?

09/12/24, 10:13 - Razvan Voicu: Hello

09/12/24, 10:14 - Razvan Voicu: Should be normal procedure on your side for deploy

09/12/24, 12:30 - Benedetta Zini: I put agvDisable = true, I will let you know

09/12/24, 12:31 - Razvan Voicu: Ok

09/12/24, 12:43 - Benedetta Zini: You can start

09/12/24, 12:45 - Benedetta Zini: I kindly ask you to update us step by step during the deploy

09/12/24, 12:46 - Razvan Voicu: Currently adding new areas in WH18

09/12/24, 12:56 - Benedetta Zini: okay perfect

09/12/24, 13:02 - Razvan Voicu: Now we are importing the locations

09/12/24, 13:31 - Razvan Voicu: restarting instance now

09/12/24, 13:37 - Support Technician 7: We are adding the new fogs now

09/12/24, 13:37 - Benedetta Zini: okay good

09/12/24, 14:05 - Adrian Cindea: system is up and running

09/12/24, 14:06 - Adrian Cindea: 11 FOGs remain unchanged and we will change them and announce you at the end

09/12/24, 14:07 - Adrian Cindea: please *dont use* the system with San Lorenzo ... to be sure no side effects <Questo messaggio è stato modificato>

09/12/24, 14:07 - Adrian Cindea: basically tomorrow tests can start

09/12/24, 14:07 - Benedetta Zini: great!

09/12/24, 14:08 - Benedetta Zini: okay

09/12/24, 14:08 - Benedetta Zini: if it is okay we can start testing San Lorenzo from Tomorrow afternoon

09/12/24, 14:09 - Benedetta Zini: which FOGS?

09/12/24, 14:09 - Benedetta Zini: and why didn't you change them?

09/12/24, 14:10 - Adrian Cindea: no time enough

09/12/24, 14:10 - Support Technician 7: We are still adding the fogs, but that is not affecting the system. So you can start working normally and we can keep adding them

09/12/24, 14:11 - Benedetta Zini: okay... can you change them on the fly without deploy?

09/12/24, 14:12 - Benedetta Zini: okay okay thank you for answering

09/12/24, 14:58 - Adrian Cindea: more 3 FOGs to be changed

09/12/24, 15:15 - Razvan Voicu: All Fogs are done

09/12/24, 15:19 - Benedetta Zini: great thank you!

09/12/24, 15:19 - Benedetta Zini: So we can start testing tomorrow

10/12/24, 16:25 - Benedetta Zini: Hello

10/12/24, 16:25 - Benedetta Zini: Can we start testing CR?

10/12/24, 17:21 - Benedetta Zini: IMG-20241210-WA0003.jpg (file allegato)

Why sBlock?

11/12/24, 10:12 - Benedetta Zini: @Support Technician 12

11/12/24, 10:13 - Adrian Cindea: it is a dummy area used to FOG definition ...

11/12/24, 10:13 - Adrian Cindea: tests were already started ...

11/12/24, 10:14 - Adrian Cindea: where we added transfer locations between SanLorenzo and current warehouse <Questo messaggio è stato modificato>

12/12/24, 09:13 - Benedetta Zini: so nothing changes

12/12/24, 09:13 - Benedetta Zini: ?

12/12/24, 09:36 - Adrian Cindea: dont touch it

12/12/24, 09:37 - Adrian Cindea: its locations are used for transfer between San Lorenzo and Spezzano ... nothin more

12/12/24, 09:41 - Benedetta Zini: nonono I don't touch it 😊

12/12/24, 09:43 - Adrian Cindea: please clarify with Marco, WH503 <Questo messaggio è stato modificato>

12/12/24, 09:43 - Adrian Cindea: because it is mandatory to know how to store pallets in C5

12/12/24, 09:44 - Adrian Cindea: i sent an email ...

12/12/24, 09:44 - Adrian Cindea: thx

12/12/24, 10:24 - Benedetta Zini: Yes

12/12/24, 10:25 - Benedetta Zini: I didn't remember either because I saw X pallet stored in C5 compartment type

12/12/24, 10:26 - Benedetta Zini: and this is because user can store X pallet in C5 but not automatically because there wasn't C5 - X inside WH503
12/12/24, 10:27 - Benedetta Zini: I didn't realize there could be that problem there
12/12/24, 10:27 - Adrian Cindea: WH503 tells to WAMAS how many ty stored in one location ... nothing
12/12/24, 10:27 - Adrian Cindea: manually it can be stored ...
12/12/24, 10:27 - Benedetta Zini: yes I know it
12/12/24, 10:27 - Benedetta Zini: yes exactly
12/12/24, 10:27 - Benedetta Zini: this get me confused
12/12/24, 10:27 - Adrian Cindea: set something for X and WAmAS will geenerate TPO for it atuomatically
12/12/24, 10:28 - Benedetta Zini: yes I did it
12/12/24, 10:28 - Adrian Cindea: i spent some hours to debug why storage is not working at my 1st test ... <Questo messaggio è stato modificato>
12/12/24, 10:28 - Benedetta Zini: and now we have to do it for all loading aids except D
12/12/24, 10:28 - Adrian Cindea: later on i announce my colleague to configure it to not waste again time <Questo messaggio è stato modificato>
12/12/24, 10:28 - Adrian Cindea: yeap
12/12/24, 10:30 - Benedetta Zini: okay ahah
12/12/24, 10:31 - Benedetta Zini: excellent, now we will remember it too
16/12/24, 08:43 - Adrian Cindea: good morning
16/12/24, 08:43 - Adrian Cindea: @Company Employee 9 deploy today?
16/12/24, 08:44 - Chiara Lodesani, Lavoro: yes, at 12:30 I'll put agvDisable = true and I will let you know when you can start
16/12/24, 08:44 - Adrian Cindea: thx
16/12/24, 12:30 - Chiara Lodesani, Lavoro: I have put agvDisable = true, I'll let you know
16/12/24, 12:39 - Chiara Lodesani, Lavoro: you can start!
16/12/24, 12:39 - Support Technician 7: Ok, thanks
16/12/24, 13:04 - Support Technician 7: Deploy is done, you can start working normally
16/12/24, 13:04 - Chiara Lodesani, Lavoro: ok, thank you
16/12/24, 13:05 - Support Technician 7: Same as last week, we will continue to add the new fogs, but that won't affect the system so you can work while we add them
16/12/24, 13:05 - Chiara Lodesani, Lavoro: ok
16/12/24, 13:05 - Adrian Cindea: locations were added, message 28 was configured ... remains some configuration to be done
16/12/24, 13:17 - Chiara Lodesani, Lavoro: I've given a fast check and it seems that there are all new stock locations. Later i'll check better.
16/12/24, 14:40 - Chiara Lodesani, Lavoro: Have you finished to add the new FOGs? <Questo messaggio è stato modificato>
16/12/24, 14:40 - Adrian Cindea: it is finished
16/12/24, 14:40 - Support Technician 7: We just finished adding them
16/12/24, 14:41 - Adrian Cindea: adding = configuring
16/12/24, 14:42 - Chiara Lodesani, Lavoro: ok, perfect
19/12/24, 18:16 - Benedetta Zini: Hello, I'm sorry for disturbing you but stations in inventory are not working...
19/12/24, 18:16 - Benedetta Zini: BP03 and BP04 are blocked
19/12/24, 18:19 - Support Technician 10: Hello I will check
19/12/24, 18:27 - Benedetta Zini: thank you
19/12/24, 18:28 - Benedetta Zini: I sent emails regarding this issue
19/12/24, 18:31 - Support Technician 10: Can you refresh the stations now?
19/12/24, 18:33 - Support Technician 10: @Company Employee 11
19/12/24, 18:34 - Benedetta Zini: how?
19/12/24, 18:34 - Support Technician 10: Close the dialog
19/12/24, 18:36 - Benedetta Zini: IMG-20241219-WA0000.jpg (file allegato)
19/12/24, 18:36 - Benedetta Zini: this is the dialog
19/12/24, 18:37 - Benedetta Zini: the problem is that there aren't LUs with TPOs towards BP03 and BP04
19/12/24, 18:37 - Support Technician 10: Ok I will connect to bp03
19/12/24, 18:37 - Benedetta Zini: It seems there is something in pending that is

blocking stations

19/12/24, 18:40 - Benedetta Zini: Hai eliminato questo messaggio.

19/12/24, 18:43 - Benedetta Zini: I have to leave the office, don't worry I will try to answer you if you need me

19/12/24, 18:43 - Support Technician 10: Ok

19/12/24, 19:00 - Support Technician 10: From what I see the lus that should go to the station already got tpos to get in storage

19/12/24, 19:00 - Support Technician 10: Can we try to finish 1 tpo to see if the Lu leaves then for inventory?

19/12/24, 19:01 - Support Technician 10: For example Lu 70636336

19/12/24, 19:01 - Support Technician 10: @Company Employee 11

19/12/24, 19:01 - Support Technician 10: And because of that the assignment can't be done
