

20/12/24, 08:40 - Benedetta Zini: Here I am sorry
20/12/24, 08:40 - Benedetta Zini: Could you please removed all rows from SM009 for inventory?
20/12/24, 08:42 - Support Technician 10: Yes
20/12/24, 08:50 - Benedetta Zini: perfect
20/12/24, 08:51 - Benedetta Zini: so we will have everything cleaned regarding inventory
20/12/24, 08:59 - Support Technician 10: Do you want me to remove the ones that ar finished?
20/12/24, 08:59 - Benedetta Zini: if you can do it, yes
20/12/24, 09:03 - Support Technician 10: I put them to delete
20/12/24, 09:04 - Benedetta Zini: perfect!
20/12/24, 09:04 - Benedetta Zini: we are going to try again with inventory orders
20/12/24, 09:05 - Support Technician 10: But try to do them from storage not from ss22
20/12/24, 09:05 - Benedetta Zini: from sS22?
20/12/24, 09:06 - Benedetta Zini: Yesterday there were inventory orders from sS22?
20/12/24, 09:06 - Support Technician 10: Yes most of the Lu's were there with tpo for storage
20/12/24, 09:06 - Support Technician 10: That caused the issue
20/12/24, 09:06 - Benedetta Zini: OH
20/12/24, 09:07 - Benedetta Zini: let me talk with user who creates the orders
20/12/24, 09:07 - Support Technician 10: Finish the tpos for them to get to storage and try to generate then a inventory
20/12/24, 09:09 - Benedetta Zini: mmmh strange
20/12/24, 09:10 - Benedetta Zini: user told me he created inventory orders for LUs that were stored inside HBW!
20/12/24, 09:10 - Benedetta Zini: HBW1
20/12/24, 09:10 - Support Technician 10: You can check the Lu that I sent
20/12/24, 09:10 - Support Technician 10: .
20/12/24, 09:10 - Support Technician 10: It was not on hb1
20/12/24, 09:22 - Benedetta Zini: I did not find the LU you sent to me in the list of LUs
20/12/24, 09:22 - Benedetta Zini:

5527854;85637835;85719867;87487888;89522595;89533087;89544061;
20/12/24, 09:22 - Benedetta Zini: 😞

20/12/24, 09:22 - Benedetta Zini: All LUs were in HBW1
20/12/24, 09:23 - Support Technician 10: Ok that is strange I found that Lu connected to a inventory
20/12/24, 09:24 - Benedetta Zini: yes...
20/12/24, 09:24 - Benedetta Zini: now BP03 is in inventory mode and there are some inventory orders...
20/12/24, 09:24 - Benedetta Zini: let's see 🙄
20/12/24, 09:24 - Support Technician 10: Ok
20/12/24, 09:29 - Benedetta Zini: no TPOs active for LUs towards BP03
20/12/24, 09:29 - Support Technician 10: Ok I will check
20/12/24, 09:29 - Benedetta Zini: I think there is something that is blocking inventory towards station...
20/12/24, 09:29 - Benedetta Zini: thank you!
20/12/24, 09:44 - Support Technician 10: From what I see in the logs the locations are blocked for example Lu 51262540
20/12/24, 09:45 - Support Technician 10: IMG-20241220-WA0011.jpg (file allegato)
20/12/24, 09:46 - Support Technician 10: @Company Employee 11
20/12/24, 09:57 - Benedetta Zini: ah
20/12/24, 09:58 - Benedetta Zini: but not for all LUs
20/12/24, 09:58 - Support Technician 10: From what I saw all the lus that the system wanted to assign were blocked
20/12/24, 09:59 - Benedetta Zini: I checked and there isn't a total block
20/12/24, 09:59 - Benedetta Zini: there is a storage block
20/12/24, 09:59 - Benedetta Zini: LU 51262540 has to leave HBW1 so it can do it
20/12/24, 10:00 - Benedetta Zini: there is a storage block, not a total block
20/12/24, 10:02 - Benedetta Zini: IMG-20241220-WA0012.jpg (file allegato)
20/12/24, 10:07 - Benedetta Zini: do you agree with me?
20/12/24, 10:17 - Support Technician 10: Yes chucking
20/12/24, 10:22 - Benedetta Zini: 📞 HELP! 📞
20/12/24, 10:22 - Benedetta Zini: IMG-20241220-WA0013.jpg (file allegato)
20/12/24, 10:22 - Benedetta Zini: IMG-20241220-WA0014.jpg (file allegato)
20/12/24, 10:24 - Support Technician 10: Checking-in
20/12/24, 10:28 - Benedetta Zini: Thabk you
20/12/24, 10:28 - Support Technician 10: Please check your side we can't connect to the server
20/12/24, 10:29 - Benedetta Zini: I'm in call with IT
20/12/24, 10:29 - Benedetta Zini: IMG-20241220-WA0015.jpg (file allegato)
20/12/24, 10:30 - Support Technician 10: It's seems to be a network issues
20/12/24, 10:31 - Benedetta Zini: It is our network issue
20/12/24, 10:31 - Support Technician 10: Ok
20/12/24, 10:33 - Support Technician 10: Can you remove the blocks on the storage location it seems that dose not matter what block it is in the Chanel the system will not let the Lu to leave
20/12/24, 10:39 - Support Technician 10: @Company Employee 11 let me know when your IT team fixes the network so I can check our side
20/12/24, 10:39 - Benedetta Zini: I think it works now!
20/12/24, 10:39 - Benedetta Zini: can you try?
20/12/24, 10:39 - Support Technician 10: Sure
20/12/24, 10:41 - Support Technician 10: It works I connected to the server
20/12/24, 10:46 - Benedetta Zini: great
20/12/24, 10:47 - Benedetta Zini: It could shut down again because the problem is not 100% solved
20/12/24, 10:49 - Support Technician 10: Ok
20/12/24, 10:49 - Benedetta Zini: so, I can't remove the storage block from HBW04 because it can't work 100%
20/12/24, 10:49 - Benedetta Zini: unfortunately it had a bad accident few weeks ago 😞
20/12/24, 10:49 - Support Technician 10: Oh
20/12/24, 10:50 - Benedetta Zini: so we can't put new LUs inside... only get them out...
20/12/24, 10:54 - Benedetta Zini: Storage block has always worked... I do not understand why it is not working with inventory
20/12/24, 12:38 - Benedetta Zini: Any news?
20/12/24, 13:04 - Support Technician 10: It's not possible to fix without deploy

20/12/24, 13:04 - Support Technician 10: We will prepare a fix for next year
20/12/24, 13:10 - Benedetta Zini: Yes sure, I wanted only to know if you are thinking of a patch to fix it
20/12/24, 13:11 - Benedetta Zini: And the answer is yess 🙏
20/12/24, 13:11 - Benedetta Zini: Thank you!
08/01/25, 16:02 - Benedetta Zini: Hello! Haappy new year! 🎉
08/01/25, 16:03 - Benedetta Zini: I need your help because is happening issue N44
08/01/25, 16:03 - Benedetta Zini: IMG-20250108-WA0008.jpg (file allegato)
08/01/25, 16:03 - Benedetta Zini: It is "need to be checked live"... Could you please check it asap? It is blocking BP07...
08/01/25, 16:04 - Benedetta Zini: In detail there is LU TEMP5674 (empty DA pallet) on location S46 33 DAD 02 with TPO towards BP07 D*
08/01/25, 16:05 - Benedetta Zini: IMG-20250108-WA0009.jpg (file allegato)
08/01/25, 16:05 - Benedetta Zini: but no mission on Cway
08/01/25, 16:05 - Benedetta Zini: IMG-20250108-WA0010.jpg (file allegato)
08/01/25, 16:06 - Benedetta Zini: Do you have time to take a look or we have to fix it by ourselves?
08/01/25, 16:07 - Benedetta Zini: just to know how we can proceed to unlock BP07 :)
08/01/25, 16:29 - Benedetta Zini: we restart pick station 07 :(
09/01/25, 15:43 - Adrian Cindea: Happy New Year!
09/01/25, 16:29 - Benedetta Zini: Dear All, I have already sent an email regarding recurrent issue A138 that is happening now and I marked it "need to be checked live"
09/01/25, 16:29 - Benedetta Zini: Do you have time to take a look? otherwise I will try to fix it
09/01/25, 16:30 - Adrian Cindea: as i remember there is an issue
09/01/25, 16:31 - Adrian Cindea: TPO for 2ns stack is created when 1st stack is new handover to AGV
09/01/25, 16:31 - Adrian Cindea: related with yesterday issue ...
09/01/25, 16:32 - Adrian Cindea: IMG-20250109-WA0003.jpg (file allegato)
09/01/25, 16:34 - Adrian Cindea: when stack reached DAD location , real barcode is destroyed and a temp LU is created ... after that 8 temp LUs are created until a new stack is comming ...
09/01/25, 16:34 - Adrian Cindea: but operator booked a real LU in a DAD location with a full stack ...
09/01/25, 16:35 - Adrian Cindea: destacking works fine until the last LU from stack ... when it could not be taken because it was unexpected to be another LU in the location
09/01/25, 16:35 - Adrian Cindea: maybe the issue is related to issue reported today
09/01/25, 16:36 - Adrian Cindea: 2nd stack was lost and booked by operator to DAD location - though physically was not possible
09/01/25, 16:37 - Adrian Cindea: i dont know yet if 52704085 was a stack of DA and WAMAS generates by mistake a TPO for it to go to the saame stacker as issue reported today
09/01/25, 16:39 - Benedetta Zini: yes sure we know
09/01/25, 16:39 - Adrian Cindea: but 52704085 was booked in that location
09/01/25, 16:39 - Benedetta Zini: no the today issue is differente
09/01/25, 16:39 - Adrian Cindea: based on CC015
09/01/25, 16:40 - Adrian Cindea: 52704085 maybe was a stack sent to destacker but it was already full
09/01/25, 16:40 - Benedetta Zini: yes, maintenance guy find the stack with LU 52704085 and booked it in *DAD location
09/01/25, 16:40 - Adrian Cindea: and operator to fix issue for 52704085
09/01/25, 16:40 - Benedetta Zini: yes but this was yesterday
09/01/25, 16:41 - Adrian Cindea: why to booked it ... it has somethign inside logically
09/01/25, 16:41 - Benedetta Zini: maybe he booked it inside DAD location because it found on AGV ready to deposit it... and he didn't realize it was in lost and found
09/01/25, 16:42 - Benedetta Zini: but now is differente...
09/01/25, 16:42 - Adrian Cindea: :)

09/01/25, 16:43 - Benedetta Zini: there is a stack of HA inside *DAH 01 (created by WAMAS), deposited by AGV and immediately wamas created another TPO for another stack of HA pallet that is now on ATX 2
09/01/25, 17:09 - Adrian Cindea: IMG-20250109-WA0004.jpg (file allegato)
09/01/25, 17:10 - Adrian Cindea: here are tpo for master LU - 6 and sub LU 5 has tpo when it is on RPF01C1201 <Questo messaggio è stato modificato>
09/01/25, 17:11 - Adrian Cindea: the second analyze and the same issue
09/01/25, 17:12 - Adrian Cindea: tpo for 2nd stack is created after some seconds when TPO for master is finished and TPO for sub LU is created (60456535, 52694189) - 2nd stack tpois created (60711398, 52694021)
09/01/25, 17:12 - Benedetta Zini: oh
09/01/25, 17:13 - Adrian Cindea: 60456535 - 1st stack has tpo crated at 15:21:40
09/01/25, 17:13 - Benedetta Zini: okay... it is an issue...
09/01/25, 17:13 - Adrian Cindea: 60711398 2nd stack has tpo created at 15:43:14
09/01/25, 17:13 - Benedetta Zini: but it does not Always happen
09/01/25, 17:14 - Adrian Cindea: it is depending og job running to create TPO from HBW to destacker
09/01/25, 17:14 - Adrian Cindea: in this period ... stack on the way is not visible by mfs ... consider destackr empty and nothing towards it
09/01/25, 17:15 - Adrian Cindea: and MFS creates TPO for a new stack from HBW having 2nd stack sent to a full stacker
09/01/25, 17:16 - Adrian Cindea: we needs to check this situation
09/01/25, 17:16 - Benedetta Zini: not great...
09/01/25, 17:16 - Benedetta Zini: 😞😞
09/01/25, 17:16 - Benedetta Zini: everything clear now
09/01/25, 17:16 - Adrian Cindea: we know ... but weneed to fix it
09/01/25, 17:16 - Benedetta Zini: yes please
09/01/25, 17:16 - Adrian Cindea: this is the reason ... maybe of issue from yesterday
09/01/25, 17:16 - Adrian Cindea: 2nd stack and destacker was full ... somehow was booked to lost and found and latr in stacker
09/01/25, 17:17 - Benedetta Zini: okay okay
09/01/25, 17:17 - Benedetta Zini: thank you for your explanation
09/01/25, 17:17 - Adrian Cindea: but root cause is 2nd stack sent to a full stacjet
09/01/25, 17:17 - Benedetta Zini: exactly
09/01/25, 17:17 - Adrian Cindea: yesterday was its side effect+ operator action
09/01/25, 17:17 - Benedetta Zini: yes..
09/01/25, 17:19 - Benedetta Zini: now I will release ATX 02 with the 2nd stack
09/01/25, 17:19 - Adrian Cindea: pls fix it
09/01/25, 17:19 - Benedetta Zini: yes
10/01/25, 09:43 - Benedetta Zini: Hello, are you doing something on WAMAS?
10/01/25, 09:59 - Adrian Cindea: hello
10/01/25, 09:59 - Adrian Cindea: only investigation ... nothing more
10/01/25, 10:04 - Adrian Cindea: what is the issue?
10/01/25, 10:41 - Benedetta Zini: exit MAV2 was freezing for some minutes... but I do not why and it resumed by itself
10/01/25, 10:42 - Benedetta Zini: Now we have again the issue of Yesterday on DAF 01... do you want to check?
10/01/25, 10:42 - Benedetta Zini: IMG-20250110-WA0000.jpg (file allegato)
10/01/25, 10:45 - Benedetta Zini: TEMP9944 daf 01
53002915 atx 07
10/01/25, 11:11 - Adrian Cindea: to reduce occurence there is only one way ... to increase time interval of job running to 5-10 minutes ...
10/01/25, 11:11 - Adrian Cindea: until a fix is done and deployed.
10/01/25, 11:12 - Adrian Cindea: there is some milliseconds when there is no TPO for DA/HA destacker when TPO for master LU is finished and TPO for sub LU (HA/DA) is created.
10/01/25, 11:13 - Benedetta Zini: this time was an AF stack
10/01/25, 11:13 - Adrian Cindea: in case job is running in this moment ... a new TPO is created unfortunately ...
10/01/25, 11:13 - Benedetta Zini: now we fix it...
10/01/25, 11:13 - Adrian Cindea: AF is on master LU
10/01/25, 11:13 - Benedetta Zini: no

10/01/25, 11:15 - Adrian Cindea: AF is not stored as a standalone stack in HBW2 it is on a master LU as i know ...
10/01/25, 11:15 - Adrian Cindea: in that case it is similar with DA/HA
10/01/25, 11:15 - Adrian Cindea: i will take a look at theis situation too
10/01/25, 11:15 - Adrian Cindea: maybe it is another case ...
10/01/25, 11:15 - Benedetta Zini: Stack of AF pallet is not on master LU and it is store in HBW1
10/01/25, 11:17 - Benedetta Zini: empty AF pallet and AF pallet with items on it are not stored in HBW1... whereas stack of AF pallet are stored in HBW1...
10/01/25, 11:20 - Adrian Cindea: sorry .. i dont know all rules (i suppoed the same case) .. i checked and they are stored as standalone stacks ... you are right <Questo messaggio è stato modificato>
10/01/25, 11:21 - Adrian Cindea: i will checked this new case for AF
10/01/25, 11:25 - Benedetta Zini: don't worry ;) thank you very much!
10/01/25, 13:06 - Adrian Cindea: more and less ... again WAMAS considers replenishment of empty stacks allowed and tpo is created ...
10/01/25, 13:07 - Adrian Cindea: we are working to fix it ...
10/01/25, 15:50 - Benedetta Zini: thank you so much!
11/01/25, 08:03 - Benedetta Zini: Good morning! Marco is going to send you an email with file
11/01/25, 08:03 - Adrian Cindea: good morning
11/01/25, 08:03 - Benedetta Zini: everything is stopped in automatic area
11/01/25, 08:05 - Adrian Cindea: k
11/01/25, 08:06 - Benedetta Zini: Let us know when you start the procedure
11/01/25, 08:06 - Adrian Cindea: 1. import brute data for analyze ... is in progress
11/01/25, 08:08 - Benedetta Zini: do you want to join us in a meeting?
11/01/25, 08:08 - Benedetta Zini: If yes I will send us the link
11/01/25, 09:14 - Adrian Cindea: do you make any tests after WAMAS restart?
11/01/25, 09:15 - Adrian Cindea: WAMAS was restarted, only final checks remain to be done ...
11/01/25, 09:15 - Benedetta Zini: yes, I think I can do it
11/01/25, 09:15 - Benedetta Zini: what kind of test I can do it?
11/01/25, 09:16 - Adrian Cindea: restart was done
11/01/25, 09:16 - Benedetta Zini: because there are not production today but I can do tests with maintenance guys
11/01/25, 09:16 - Adrian Cindea: tests = normal work ...
11/01/25, 09:16 - Adrian Cindea: k
11/01/25, 09:16 - Benedetta Zini: okay
11/01/25, 09:16 - Adrian Cindea: when production will start again?
11/01/25, 09:17 - Benedetta Zini: manual area Tomorrow morning, automatic area on monday
11/01/25, 09:22 - Benedetta Zini: Could you please run the job that send us the email with differences of stock?
11/01/25, 09:23 - Adrian Cindea: they were extracted by me from database
11/01/25, 09:23 - Adrian Cindea: all stock imported from your excel file
11/01/25, 09:23 - Adrian Cindea: it is not a job
11/01/25, 09:24 - Benedetta Zini: IMG-20250111-WA0000.jpg (file allegato)
11/01/25, 09:24 - Benedetta Zini: this one
11/01/25, 09:24 - Adrian Cindea: i will check it
11/01/25, 09:26 - Adrian Cindea: i will trigger it right now ...
11/01/25, 09:26 - Adrian Cindea: trigger was done
11/01/25, 09:27 - Benedetta Zini: thank you
11/01/25, 09:28 - Benedetta Zini: so a new mail is going to be send right?
11/01/25, 09:28 - Adrian Cindea: i will check what it does
11/01/25, 09:42 - Adrian Cindea: job is running right now
11/01/25, 09:42 - Adrian Cindea: it was finsijed
11/01/25, 09:42 - Adrian Cindea: please check if email was received
11/01/25, 09:43 - Benedetta Zini: Yes I have already received it
11/01/25, 09:43 - Benedetta Zini: thanks
11/01/25, 09:43 - Adrian Cindea: k
11/01/25, 09:44 - Adrian Cindea: you're welcome
11/01/25, 09:46 - Benedetta Zini: Start some picking
13/01/25, 10:16 - Benedetta Zini: Hello! We sent you an email with two issues

about IT-24-00725 New WH1 Transport Area

13/01/25, 10:17 - Adrian Cindea: k

13/01/25, 11:13 - Benedetta Zini: Why Whole SHIPPING LUs from S60 pointing S04 MAV instead of S95/S97 ?

13/01/25, 11:13 - Benedetta Zini: IMG-20250113-WA0000.jpg (file allegato)

13/01/25, 11:15 - Benedetta Zini: All these LUs are outgoing goods and they are pointing S04 MAV instead of S95/S97 🙄

13/01/25, 11:18 - Benedetta Zini: for this issue we can't print shipping label and packing list

13/01/25, 12:06 - Marco Taccini, Lavoro: @Support Technician 12 any news about this issue?

13/01/25, 12:19 - Adrian Cindea: no yet

13/01/25, 12:19 - Adrian Cindea: we are testing the case inhouse

13/01/25, 12:35 - Marco Taccini, Lavoro: IMG-20250113-WA0001.jpg (file allegato)

Similar to the S04 MAV, Wamas is creating REPLENISHMENT TPOs for SLAVING locations for whole OG pallets coming from San Lorenzo. This is incorrect; the TPO should be OG for S95/S97 locations. The logic is that full pallets coming from San Lorenzo do not need to pass through the HBW.

13/01/25, 12:35 - Adrian Cindea: agree

13/01/25, 12:38 - Benedetta Zini: we need to fix it as soon as possible (perhaps organizing a deploy as soon as you ready) because it is generating confusion among operators

13/01/25, 12:39 - Adrian Cindea: k

13/01/25, 12:40 - Benedetta Zini: let us know as soon as you have updates

13/01/25, 13:52 - Adrian Cindea: it is a configuration issue

13/01/25, 13:52 - Adrian Cindea: we will do some tests locally and later on add configuration in prod

13/01/25, 13:53 - Adrian Cindea: and solve tpos

13/01/25, 14:00 - Adrian Cindea: we tested locally and it work

13/01/25, 14:00 - Adrian Cindea: the issue is related to OG Area calculation ...

13/01/25, 14:01 - Adrian Cindea: we will start to configure OG area assignment in production for San Lorenzo

13/01/25, 14:06 - Marco Taccini, Lavoro: deploy is needed?

13/01/25, 14:06 - Adrian Cindea: no

13/01/25, 14:06 - Adrian Cindea: only configuration

13/01/25, 14:07 - Adrian Cindea: OG area assignment for San Lorenzo is not defined

13/01/25, 14:07 - Adrian Cindea: did you finalize tpos from San Lorenzo for shipment LUs?

13/01/25, 14:07 - Adrian Cindea: there is only one in this moment ...

13/01/25, 14:08 - Marco Taccini, Lavoro: Yes, we changed the destination manually

13/01/25, 14:09 - Marco Taccini, Lavoro: IMG-20250113-WA0002.jpg (file allegato)

13/01/25, 14:10 - Adrian Cindea: S60 was defined ... we will continue with S61-S66.

13/01/25, 14:11 - Adrian Cindea: we will announce when all are done

13/01/25, 14:16 - Marco Taccini, Lavoro: ok

13/01/25, 14:24 - Benedetta Zini: Perfect

13/01/25, 14:25 - Adrian Cindea: S60, S61, S62 are already defined ...

13/01/25, 14:28 - Benedetta Zini: So this fix is related only to the TPOs of shipping LUs or also for the fact that WAMAS takes stock LU from S60/S61/S62 for HBW replenishment?

13/01/25, 14:28 - Adrian Cindea: fix is related to shipment LUs to create properly TPOs for OG buffer

13/01/25, 14:29 - Adrian Cindea: related to replenishment to HBW ... it is based on optimum

13/01/25, 14:29 - Adrian Cindea: it is generated in case there is not enough stock on a specific batch

13/01/25, 14:29 - Adrian Cindea: in HBW1

13/01/25, 14:33 - Benedetta Zini: Yes I agree with you but this morning created tpos from S60 instead of S10/S11

EXAMPLE

ATLAJOP 1 AA6S5=

there is availability in S10/S11 , but WAMAS created 2 replenishment tpos from S60

52744879 S62 25-00-00 <Questo messaggio è stato modificato>
13/01/25, 14:35 - Benedetta Zini: Marco wrote in the email he sent to you this morning (point 2)
13/01/25, 14:46 - Adrian Cindea: configuration was defined ...
13/01/25, 14:46 - Adrian Cindea: we need to check why ... because it seems stock was enough in HBW1 at the first glance
13/01/25, 15:05 - Benedetta Zini: This works!
13/01/25, 15:05 - Benedetta Zini: yes please
13/01/25, 15:06 - Benedetta Zini: One question: how often does the job that creates replenishment run?
13/01/25, 16:44 - Benedetta Zini: please let us know :)
13/01/25, 16:46 - Adrian Cindea: at every 3 minutes for optimum LU for HBW
13/01/25, 16:46 - Adrian Cindea: related to replenishment from SL to HBW though there are LUs in S10/S11 is under investigation
13/01/25, 16:47 - Adrian Cindea: based on LU only stock from SL was available (it is needed to be check deeper)
13/01/25, 16:47 - Adrian Cindea: not reproduced locally ... locally it is generated from S10/S11 ..
13/01/25, 17:22 - Adrian Cindea: db will be exported and imported locally to test exactly issue with repl from SL vs S10/11 <Questo messaggio è stato modificato>
13/01/25, 17:22 - Benedetta Zini: thank you very much!
13/01/25, 17:39 - Benedetta Zini: IMG-20250113-WA0004.jpg (file allegato)
Could you please check why for PPLU of OBD0000970516 ATLAU8H C AB6X5 is not create a replenishment tpo from S60?
13/01/25, 17:39 - Benedetta Zini: IMG-20250113-WA0005.jpg (file allegato)
It has been active since 14:59...
13/01/25, 17:40 - Benedetta Zini: IMG-20250113-WA0006.jpg (file allegato)
15 boxes of ATLAU8H C AB6X5 are in S60 27-09-00 but without TPOs towards S04 MAV...
14/01/25, 07:13 - Adrian Cindea: optimum LU to HBW it blocked due to quality C (it is not allowed in HBW) -> solution is to create manual TPO for the moment
14/01/25, 07:15 - Adrian Cindea: issue was found ... optimum LU job is done for every FOG and there are FOGs for some items only on San Lorenzo ... and optimum LUs check only stock from HBW (not on conveyor) and WAMAS consider replenishment is needed ...
14/01/25, 07:16 - Adrian Cindea: related to issues we will try to find solution for both of them
14/01/25, 07:16 - Adrian Cindea: for the moment it is important to keep system running and to help to manage TPOs from San Lorenzo
14/01/25, 07:35 - Adrian Cindea: there are some shipments LUs: 52894135
52894424
52893666
52998329
53001569
14/01/25, 07:37 - Adrian Cindea: no TPO for them , please create from SM023 for them -> all shipment LUs have TPO created to OG area
14/01/25, 08:36 - Adrian Cindea: no need replenishment from San Lorenzo to manual areas ...
14/01/25, 08:36 - Adrian Cindea: so it is important to fix replenishment from San Lorenzo to HBW1
14/01/25, 08:58 - Benedetta Zini: I missed this part you are right and wamas works correctly... I talked with Operations manager and they always fix them manually.. so please consider it not an issue
14/01/25, 08:59 - Adrian Cindea: 1. shipment LUs - is solved (please filter shipment LU in San Lorenzo (S6*) and no TPO and create manually (there are/were 4-5 cases).
14/01/25, 08:59 - Adrian Cindea: 2. no need yet replenishment from San Lorenzo to pViazza/pCanaletto

14/01/25, 09:00 - Adrian Cindea: 3. Optimum LU for quality not used in HBW - it needs to be solved manually
14/01/25, 09:00 - Benedetta Zini: ooh clear... I did not know about this... So if we have item ATLAAAA batch 1 fog InFONDIMAVNOR1 and item ATLAAAA batch 1 fog InFONDIMAVNOR2 for WAMAS they are different?
14/01/25, 09:00 - Adrian Cindea: 4. optimum LUs for HBW - issue found working on differebt
14/01/25, 09:01 - Adrian Cindea: for is decided based on WH009 (maybe the import script set FOG in another way)
14/01/25, 09:02 - Adrian Cindea: it depends on IG area + others ...
14/01/25, 09:03 - Benedetta Zini: I do not have WH009
14/01/25, 09:03 - Adrian Cindea: but it is possible to have different fogs ...
14/01/25, 09:03 - Benedetta Zini: oh yes sure
14/01/25, 09:03 - Adrian Cindea: IMG-20250114-WA0001.jpg (file allegato)
14/01/25, 09:03 - Benedetta Zini: you mean the FOG right?
14/01/25, 09:04 - Adrian Cindea: now you can have an image of WAMAS configuration to set/.proposed the fog for an LU
14/01/25, 09:04 - Adrian Cindea: IMG-20250114-WA0002.jpg (file allegato)
14/01/25, 09:05 - Adrian Cindea: InFONDIMAVNOR(1-2-3) there are 3 FOGs
14/01/25, 09:06 - Adrian Cindea: difference is IG area to decide the fog and each fog defined storage areas
14/01/25, 09:06 - Benedetta Zini: yes I read...
14/01/25, 09:06 - Benedetta Zini: S02 PED - InFONDIMAVNOR3 whereas the Others InFONDIMAVNOR2
14/01/25, 09:06 - Adrian Cindea: i will check all open TPOs from San Lorenzo for not shipment LUS - based on optimum LU
14/01/25, 09:07 - Adrian Cindea: and InFONDIMAVNOR1 in case IG areas != IG defined (*)
14/01/25, 09:09 - Benedetta Zini: yes sure
14/01/25, 09:11 - Benedetta Zini: But why WAMAS consider FOG for optimum LU instead of just item and batch? <Questo messaggio è stato modificato>
14/01/25, 09:12 - Benedetta Zini: Hai eliminato questo messaggio.
14/01/25, 09:25 - Adrian Cindea: this is wamas implementation
14/01/25, 09:25 - Adrian Cindea: it works excepting some cases for San Lorenzo
14/01/25, 09:30 - Benedetta Zini: Okay... Is it possibile to make in manner that WAMAS consider FOG like "InFONDIMAVNOR*" instead of "InFONDIMAVNOR1/InFONDIMAVNOR2/ InFONDIMAVNOR3"?
14/01/25, 09:32 - Benedetta Zini: so we wouldn't have this problem anymore... what do you think?
14/01/25, 09:34 - Adrian Cindea: it works for sure ... but we will analyze a solution
14/01/25, 09:58 - Benedetta Zini: Okay please let us know
14/01/25, 10:04 - Benedetta Zini: We found another "issue" for us that is trasnport type for "*OUT-RIF-SAL*"... now it is "tSanlorenzo" but it is possible to change it in "*tVERSO-MAV*"? Like "CAMION-MAV" <Questo messaggio è stato modificato>
14/01/25, 10:05 - Benedetta Zini: IMG-20250114-WA0003.jpg (file allegato)
14/01/25, 10:24 - Adrian Cindea: we will check it
14/01/25, 10:24 - Benedetta Zini: Thank you!
14/01/25, 10:25 - Benedetta Zini: please let us know if it is possibile to change it without deploy :) <Questo messaggio è stato modificato>
14/01/25, 11:29 - Benedetta Zini: I forgot to ask if you can add WH009 to "DIRETTORE TECNICO", can't you? <Questo messaggio è stato modificato>
14/01/25, 14:51 - Benedetta Zini: I'm sorry for disturbing you but do you have any news?
14/01/25, 14:52 - Adrian Cindea: we are testing a fix for optimum LU from San Lorenzo <Questo messaggio è stato modificato>
14/01/25, 14:53 - Adrian Cindea: related to rights ... we will provide this week
14/01/25, 14:55 - Adrian Cindea: IMG-20250114-WA0010.jpg (file allegato)
14/01/25, 14:56 - Benedetta Zini: great thank you!
14/01/25, 14:56 - Benedetta Zini: thanks again!
14/01/25, 14:57 - Benedetta Zini: suuuper thank you!
15/01/25, 08:47 - Support Technician 10: @Company Employee 11 I provided the rights

15/01/25, 08:47 - Benedetta Zini: great! thank you!

15/01/25, 10:18 - Benedetta Zini: @Support Technician 10 I confirm you that I can access to WH009

15/01/25, 10:28 - Benedetta Zini: We are thinking about optimum LU and I have a question for you... based on how it works now if we have ITEM_1 with optimumLU = 6 and inside storage locations there are ITEM_1/BATCH_1/FOG_1 and ITEM_1/BATCH_1/FOG_2, WAMAS will create 6 TPOs for ITEM_1/BATCH_1/FOG_1 and 6 TPOs for ITEM_1/BATCH_1/FOG_2 (towards HBW1 if there aren't LUs inside) even if they are the same thing... this is an issue also for the old storage locations and not only San Lorenzo locations...

please let me know if I understood correctly

15/01/25, 10:35 - Adrian Cindea: :)

15/01/25, 10:37 - Adrian Cindea: 6 LUs per item/batch (in case of batch handling) per HBW aisle ... = 48 = 6 x 8 LUs overall in HBW.

15/01/25, 10:38 - Adrian Cindea: so ... ITEM_1/BATCH_1 = 48 LUs (fog is not related)

15/01/25, 10:39 - Adrian Cindea: computation is done based on FOG ... and a fix was tested already in house to not send pallets from San Lorenzo anymore in case there are pallets in S10,...,S29 (manual areas).

15/01/25, 10:40 - Adrian Cindea: Due to WAMAS implementation by FOG , system sends LUs from San Lorenzo though there are pallets in manual areas (we already fixed to not take in consideration LUs from San Lorenzo in case there are other LUs in manual areas)

15/01/25, 10:42 - Adrian Cindea: the issue was ... WAMAS takes for FOG1 (having LUs from SL) and WAMAS checks needed for HBW ... and send them to HBW ... and for FOG2 (LUs from manual areas) - no send no need ...

15/01/25, 11:01 - Benedetta Zini: mmh is not 6 LUs of ITEM_1/BATCH_1 for all HBW1?

15/01/25, 11:15 - Benedetta Zini: I'm not quite understand :(... supposing we have:

- optimumLU ITEM_1 = *6*
- inside HBW1 there are not LUs with ITEM_1
- in manual areas (S10...S29) there are *5* LUs ITEM_1/BATCH_1/FOG_1, *6* LUs ITEM_1/BATCH_1/FOG_2, *8* LUs ITEM_1/BATCH_2/FOG_1
- no LUs in San Lorenzo
- based on how it works, WAMAS will create *6* tpos for ITEM_1/BATCH_1/FOG_* and *6* tpos for ITEM_1/BATCH_2/FOG_1 towards HBW1 as replenishment

Right?

15/01/25, 11:16 - Benedetta Zini: soory but I'm getting confused 😞

15/01/25, 13:25 - Adrian Cindea: for optimum LU item1 = 6 per batch (wh502)

15/01/25, 13:25 - Adrian Cindea: WAMAS will move 6 LUs per item1/batch/fog

15/01/25, 13:26 - Adrian Cindea: concluding: yes

15/01/25, 13:27 - Adrian Cindea: i checked again software implementation to confirm properly (it is based on 3 criteria ITEM, BATCH and FOG)

15/01/25, 13:28 - Adrian Cindea: this is the reason of replenishment of LUs from San Lorenzo though there are stock in manual areas (different FOG)

15/01/25, 14:10 - Adrian Cindea: we prepared a solution to exclude LUs from San Lorenzo for replenishment in case there are LUs from manual areas

15/01/25, 14:36 - Benedetta Zini: So also in manual area WAMAS will move 6 LUs per item1/batch/fog? Going back to my example WAMAS will create from manual areas to HBW the following tpos:

- 6 LUs with ITEM_1/BATCH_1/FOG_1
- 6 LUs with ITEM_1/BATCH_1/FOG_2

even if phisically are the same ITEM/BATCH but for WAMAS are different because FOG is different

15/01/25, 14:37 - Benedetta Zini: Am I understand correctly?

15/01/25, 14:37 - Adrian Cindea: yes

15/01/25, 14:38 - Adrian Cindea: 6 for combination item/batch/fog

15/01/25, 14:38 - Benedetta Zini: okay good so is it possible to remove FOG from this combination?

15/01/25, 14:39 - Adrian Cindea: off off ... FOG has information about optimum LUs ...

15/01/25, 14:39 - Adrian Cindea: this is the reason of using FOG ... we will

analyze a solution ...

15/01/25, 14:41 - Adrian Cindea: this is the reason to use it ... any fog has its optimum LUs defined ...

15/01/25, 14:41 - Adrian Cindea: your expectation was/is to have 6 LUs per item/batch, right? <Questo messaggio è stato modificato>

15/01/25, 14:41 - Benedetta Zini: yes exactly <Questo messaggio è stato modificato>

15/01/25, 14:41 - Adrian Cindea: :)

15/01/25, 14:42 - Benedetta Zini: InFONDIMAVNOR1

InFONDIMAVNOR2

InFONDIMAVNOR3

Have their optimum LUs?

15/01/25, 14:43 - Benedetta Zini: even if they are part of goods category "FONDI MAV NORMAL SIZE" ?

15/01/25, 14:44 - Adrian Cindea: it is possible but in your project inherits from inHBW fog.

15/01/25, 14:45 - Adrian Cindea: the idea is to have optimum LU per item and batch in HBW ... (not on item/batch and fog)

15/01/25, 14:45 - Adrian Cindea: 100 FOG = 600 LUs ... in HBW

15/01/25, 14:51 - Benedetta Zini: exactly.....😞 <Questo messaggio è stato modificato>

15/01/25, 14:51 - Benedetta Zini: yes

15/01/25, 14:52 - Benedetta Zini: and it is possible to goods category instead of FOG? <Questo messaggio è stato modificato>

15/01/25, 14:53 - Benedetta Zini: because all items have one goods category (not more than one as for FOGs)

15/01/25, 14:56 - Adrian Cindea: implementation is starting from FOG ... because it has information about optimum LUs ...

15/01/25, 14:57 - Adrian Cindea: anyhow we will analyze ...

15/01/25, 14:57 - Benedetta Zini: 😞😞

15/01/25, 14:58 - Benedetta Zini: okay but I have one more question :)

15/01/25, 15:01 - Benedetta Zini: let's take goods category "FONDI MAV NORMAL SIZE" as an example: if we change FOGs of all LUs with items belonging to "FONDI MAV NORMAL SIZE" by putting InFONDIMAVNOR1 and delete in WH009 the Others?

15/01/25, 15:01 - Benedetta Zini: IMG-20250115-WA0003.jpg (file allegato)

15/01/25, 15:02 - Benedetta Zini: By doing so (if it works) we would have/use only one FOG for goods category = FONDI MAV NORMAL SIZE, and so on with the Others goods categories

15/01/25, 15:03 - Benedetta Zini: what do you think?

15/01/25, 15:03 - Benedetta Zini: :)

15/01/25, 16:25 - Adrian Cindea: a solution is to have one for per goods category -> one fog per item

15/01/25, 16:25 - Adrian Cindea: WH009 - change + update fog in the system ... no deploy

15/01/25, 16:26 - Adrian Cindea: we have a solution implemented and already tested

15/01/25, 16:26 - Adrian Cindea: to not care about FOGs ...

15/01/25, 16:27 - Adrian Cindea: optimum lu is based on item/batch and replenishment is done 1stly from manual areas and later from San Lorenzo

15/01/25, 16:27 - Adrian Cindea: in next 2 days we will clarify the solution

15/01/25, 16:29 - Benedetta Zini: exactly!

15/01/25, 16:29 - Benedetta Zini: okay, we will wait your feedback! 🙏🙏

15/01/25, 16:30 - Benedetta Zini: thanks!

15/01/25, 16:55 - Adrian Cindea: IMG-20250115-WA0004.jpg (file allegato)

15/01/25, 16:56 - Adrian Cindea: LUs from San Lorenzo to manual areas (demand based).

15/01/25, 16:57 - Adrian Cindea: the open issue is related to optimum LUs ... old issue -> affects replenishment from San Lorenzo before manual area (fog issue).

15/01/25, 18:46 - Benedetta Zini: correct!

16/01/25, 09:33 - Support Technician 15: Hello

Mobile terminals are working better now?

16/01/25, 09:42 - Chiara Lodesani, Lavoro: Hello, I'm asking it

16/01/25, 10:14 - Chiara Lodesani, Lavoro: It seems that mobile terminals work a

little better.. Have you done something?

16/01/25, 10:14 - Support Technician 15: just restart the DC mobile worker

16/01/25, 10:15 - Adrian Cindea: it seems related with transport area change for *OUT-RIF-SAL*... 2 days ago

16/01/25, 10:16 - Benedetta Zini: this issue?

16/01/25, 10:16 - Benedetta Zini: ☹️

16/01/25, 10:17 - Adrian Cindea: some configuration change for locations affects mobile terminals

16/01/25, 10:17 - Benedetta Zini: oh... okay...

16/01/25, 10:19 - Benedetta Zini: and for fix this "issue" we need to change again the trasport type?

16/01/25, 10:19 - Adrian Cindea: we did a restart of DC Mobile

16/01/25, 10:19 - Adrian Cindea: to load again the data

16/01/25, 10:19 - Benedetta Zini: oooooh okay

16/01/25, 10:20 - Benedetta Zini: sorry I did not understand that the restart of DC mobile fixed the issue

16/01/25, 10:20 - Benedetta Zini: so great!

16/01/25, 10:20 - Benedetta Zini: thank you1

16/01/25, 10:20 - Benedetta Zini: !*

16/01/25, 15:12 - Marco Taccini, Lavoro: IMG-20250116-WA0000.jpg (file allegato)

Hello, Wamas do not create TPOs from San Lorenzo IG area to S6*

16/01/25, 15:13 - Marco Taccini, Lavoro: IMG-20250116-WA0001.jpg (file allegato)

16/01/25, 15:17 - Adrian Cindea: i will take a look

16/01/25, 15:26 - Adrian Cindea: IMG-20250116-WA0002.jpg (file allegato)

16/01/25, 15:27 - Adrian Cindea: old issue ... :)

16/01/25, 15:27 - Adrian Cindea: F/H are not defined

16/01/25, 15:32 - Adrian Cindea: please fix them and let us know

16/01/25, 15:37 - Adrian Cindea: item ATLA67V (on X in S02 SAL1) has stack info C1 - not defined too

16/01/25, 15:37 - Adrian Cindea: clear?

16/01/25, 15:38 - Chiara Lodesani, Lavoro: Yes, clear

16/01/25, 15:38 - Adrian Cindea: the same issue as in December ...

16/01/25, 15:38 - Chiara Lodesani, Lavoro: thank you

16/01/25, 15:38 - Benedetta Zini: Yes clear

16/01/25, 15:39 - Benedetta Zini: My fault because I forgot to add it and then forgot this issue :).

16/01/25, 15:42 - Adrian Cindea: too many configuration but a lot of options (needed and unneeded)

16/01/25, 15:44 - Benedetta Zini: A lot of things to remember :)

16/01/25, 16:11 - Adrian Cindea: i sent an email about possible next deply date to fix optimum LU

16/01/25, 16:12 - Adrian Cindea: please check with production ... and let us know

16/01/25, 16:12 - Benedetta Zini: Yes absolutely

16/01/25, 16:12 - Benedetta Zini: On monday we would have time to do it

16/01/25, 16:12 - Benedetta Zini: But I will answer your email

16/01/25, 16:13 - Adrian Cindea: thx

16/01/25, 16:13 - Benedetta Zini: In the email please write also how do you fix optimum lu

16/01/25, 16:16 - Adrian Cindea: LUs are filtered by FOG/item ... we will remove FOG being filtered by item ... in this way all LUs are involved in computation

16/01/25, 16:20 - Benedetta Zini: Great! 🙏

16/01/25, 16:21 - Benedetta Zini: So from item/batch/fog to item/batch, right?

<Questo messaggio è stato modificato>

16/01/25, 16:37 - Benedetta Zini: Other question: from 12:40 to 13:10 is enough?

16/01/25, 17:03 - Adrian Cindea: that's yes

16/01/25, 17:03 - Adrian Cindea: it is a standard deply

16/01/25, 17:03 - Adrian Cindea: yes

16/01/25, 17:06 - Adrian Cindea: at deploy more time is needed to prepare system for stop and checks after deploy (real deploy takes 2-3 minutes). The system is started after deploy and we confirmed after x minutes (at least 10 minutes)

16/01/25, 17:06 - Adrian Cindea: to finish all checks and MFS to be started too (it takes about 2 minutes to start to load LUs in cache).

16/01/25, 17:10 - Benedetta Zini: Okay perfect! I'm going to confirm deploy by

email

16/01/25, 17:12 - Chiara Lodesani, Lavoro: Sorry, do you have time to check the ticket 01409138?

16/01/25, 18:44 - Benedetta Zini: Could you please check the ticket please?

17/01/25, 08:09 - Adrian Cindea: load is closed (it was marked as totem ... it had a draft OBD and a normal OBD) <Questo messaggio è stato modificato>

17/01/25, 08:10 - Adrian Cindea: i chnaged load type to normal, remove draft OBD (by explorer) and close the load

17/01/25, 08:11 - Adrian Cindea: being a totem load ... during close there is a simple action to remove OBDs expecting all to be draft and normal OBD can not be deleted simple as draft OBD and ... normal OBD could not be removed as draft OBD ... generated the error message)

17/01/25, 08:12 - Adrian Cindea: now it is fixed ...

17/01/25, 08:45 - Chiara Lodesani, Lavoro: I'm not sure to understand.. I could have done something to resolve it?

17/01/25, 08:46 - Adrian Cindea: no

17/01/25, 08:47 - Adrian Cindea: load has 2 OBDs: one normal and one for totem (draft) and load has marked as for totem ...

17/01/25, 08:47 - Adrian Cindea: in this situation load can not be closed by you

17/01/25, 08:47 - Adrian Cindea: i dont know why in the same load had mixed OBDs

17/01/25, 08:49 - Chiara Lodesani, Lavoro: Ok, understood, thank you!

20/01/25, 08:51 - Benedetta Zini: Good morning! do we need to cancel all replenishment TPOs before deploy?

20/01/25, 08:52 - Adrian Cindea: good morning

20/01/25, 08:53 - Adrian Cindea: after depkoy i will cancel extra TPOs based on optimum LU

20/01/25, 08:53 - Adrian Cindea: not all of them

20/01/25, 08:53 - Adrian Cindea: only extra TPOs ...

20/01/25, 08:55 - Benedetta Zini: okay thank you! So we do not have to do anything because you will do it after deploy

20/01/25, 08:55 - Benedetta Zini: thank you!

20/01/25, 12:20 - Support Technician 10: Hello I am working on the new ticket opened regarding the slowness of mobile terminals can this wait for the deploy we will restart the mobile worker then

20/01/25, 12:24 - Support Technician 10: This seems to be a network issue can you try in a different area till we deploy

20/01/25, 12:24 - Benedetta Zini: yes sure!

20/01/25, 12:25 - Adrian Cindea: it is on the error screen - network

20/01/25, 12:25 - Adrian Cindea: IMG-20250120-WA0000.jpg (file allegato)

20/01/25, 12:25 - Benedetta Zini: but we have it only when user does discharge

20/01/25, 12:26 - Adrian Cindea: for all terminals?

20/01/25, 12:26 - Adrian Cindea: it is important to be in another area ... to not be related to network

20/01/25, 12:27 - Adrian Cindea: the main goal is to try in another area where network is better

20/01/25, 12:27 - Benedetta Zini: I have to check

20/01/25, 12:27 - Benedetta Zini: okay I will say it to operator

20/01/25, 12:27 - Adrian Cindea: try a spontaneous tpo ... with this terminal and with another one

20/01/25, 12:27 - Adrian Cindea: in case there are differences ... it is network issue

20/01/25, 12:28 - Benedetta Zini: after deploy I will do it

20/01/25, 12:28 - Adrian Cindea: k

20/01/25, 12:29 - Benedetta Zini: I set agvDisable = true

20/01/25, 12:34 - Support Technician 10: Ok

20/01/25, 12:42 - Benedetta Zini: you can start with deploy

20/01/25, 12:42 - Support Technician 10: Ok

20/01/25, 12:43 - Benedetta Zini: please let us know when we can start working again :)

20/01/25, 12:49 - Support Technician 10: Sure

20/01/25, 13:11 - Benedetta Zini: everything okay?

20/01/25, 13:19 - Benedetta Zini: I'm sorry but... what's happening?

20/01/25, 13:19 - Adrian Cindea: deploy in progress

20/01/25, 13:19 - Adrian Cindea: i will check the status

20/01/25, 13:20 - Benedetta Zini: yes please... because we are late
20/01/25, 13:23 - Benedetta Zini: we blocked the loads until 13:15...
20/01/25, 13:32 - Benedetta Zini: VID-20250120-WA0002.mp4 (file allegato)
please let me know what is happening...
20/01/25, 13:32 - Adrian Cindea: MFS is not loading properly yet
20/01/25, 13:33 - Adrian Cindea: we are working on it
20/01/25, 13:33 - Benedetta Zini: Can we rollback and update it another time?
20/01/25, 13:34 - Benedetta Zini: I'm so sorry but we have a queue of trucks to load 😞
20/01/25, 13:34 - Benedetta Zini: we are 20 minutes late...
20/01/25, 13:34 - Benedetta Zini: IMG-20250120-WA0003.jpg (file allegato)
20/01/25, 13:35 - Benedetta Zini: 😞😞
20/01/25, 13:41 - Benedetta Zini: ??
20/01/25, 13:42 - Support Technician 10: We are tryin last time to start it
20/01/25, 13:43 - Support Technician 10: It started
20/01/25, 13:43 - Benedetta Zini: please check if everything is okay
20/01/25, 13:43 - Adrian Cindea: we will prepare a fix for this issue
20/01/25, 13:44 - Benedetta Zini: what was the issue?
20/01/25, 13:46 - Adrian Cindea: MFS did not load LUs from automatic area
20/01/25, 13:46 - Adrian Cindea: it tries to load them many times ... without success
20/01/25, 13:46 - Benedetta Zini: ☐☐
20/01/25, 13:46 - Adrian Cindea: and at the end, LUs were loaded ...
20/01/25, 13:46 - Benedetta Zini: is it for the change of optimum LUs?
20/01/25, 13:47 - Adrian Cindea: nothing related to deploy changes
20/01/25, 13:47 - Benedetta Zini: that's good 🙏
20/01/25, 13:47 - Adrian Cindea: it is pure MFS starting <Questo messaggio è stato modificato>
20/01/25, 13:47 - Benedetta Zini: oh... First time I think
20/01/25, 13:47 - Benedetta Zini: it has never happened
20/01/25, 13:47 - Adrian Cindea: it seems a very old issue
20/01/25, 13:47 - Benedetta Zini: this kind of issue I mean
20/01/25, 13:47 - Adrian Cindea: :)
20/01/25, 13:48 - Adrian Cindea: Milo for sure knows
20/01/25, 13:48 - Benedetta Zini: oh ...
20/01/25, 13:48 - Benedetta Zini: probably...
20/01/25, 13:48 - Adrian Cindea: it does not happen in the last 6 months ... but today it was a bad day (not lucky day)
20/01/25, 13:48 - Adrian Cindea: anyhow we will have a fix which will be included at next deploy
20/01/25, 13:49 - Benedetta Zini: it's blue monday
20/01/25, 13:49 - Benedetta Zini: WAMAS knows it
20/01/25, 13:50 - Benedetta Zini: okay great! Good to hear it
20/01/25, 13:51 - Benedetta Zini: everything seems working
20/01/25, 13:51 - Support Technician 10: Deploy si done everything is working
20/01/25, 13:52 - Benedetta Zini: perfect!
20/01/25, 13:52 - Benedetta Zini: thank you very much for your work and help!
20/01/25, 13:53 - Support Technician 10: Thank you for the patience?
20/01/25, 13:54 - Benedetta Zini: and sorry if I put pressure on you but we can't delay too long 😞
20/01/25, 14:18 - Support Technician 10: Any new regarding the slowness?
20/01/25, 15:06 - Benedetta Zini: I Have not asked yet the operator to try discharging
20/01/25, 17:00 - Adrian Cindea: No extra TPO from San Lorenzo to HBW1
20/01/25, 17:00 - Adrian Cindea: we will monitor next days
20/01/25, 17:01 - Adrian Cindea: related to other manual area we removed some TPOs but not all of them
20/01/25, 17:01 - Adrian Cindea: system lloks better...
20/01/25, 17:02 - Adrian Cindea: S1*;S2*;S6* - was checked ...
20/01/25, 17:13 - Adrian Cindea: i removed cancelled other TPOs and now system looks clean related to TPOs from locations S1*, S2* and S6*
20/01/25, 17:15 - Benedetta Zini: okay great!
21/01/25, 09:03 - Benedetta Zini: Hello, we tried the discharge in another area and I confirm you that is very slow

21/01/25, 09:08 - Benedetta Zini: and another thing we noticed is that now for any discharging wamas suggests S6* locations (San Lorenzo)... whereas before the deploy of San Lorenzo locations (december) the discharging suggested S10, S29, S12, ...

21/01/25, 09:09 - Adrian Cindea: we will analyze the case ...

21/01/25, 09:09 - Adrian Cindea: maybe slowness is related to San Lorenzo changes

21/01/25, 09:09 - Benedetta Zini: okay thank you... do you need an example for this?

21/01/25, 09:10 - Benedetta Zini: mmh I do not think so because it has Always been slow and now we would like to fix it permanently

21/01/25, 11:11 - Adrian Cindea: discharge was slow and becomes slower ... we will find a solution to improve it ...

21/01/25, 11:14 - Benedetta Zini: okay thank you 🙏 operators will be very happy!

22/01/25, 14:56 - Benedetta Zini: Hello! We have problems with mobile terminal... they are very very slow...

22/01/25, 14:56 - Benedetta Zini: and kick users out of WAMAS

22/01/25, 14:58 - Benedetta Zini: could you please check if there are any problems? I don't know if it is a network issue because it doesn't appear that kind of message on mobile terminal

22/01/25, 15:10 - Razvan Voicu: hello. I can check

22/01/25, 15:10 - Benedetta Zini: yes thank you

22/01/25, 15:12 - Razvan Voicu: when the user is kicked out, what's the message shown on terminal?

22/01/25, 15:12 - Razvan Voicu: can you give me a terminal ID or a recent user that was kicked out, to check the logs for that terminal?

22/01/25, 15:15 - Razvan Voicu: anything to identify problematic terminals

22/01/25, 15:16 - Benedetta Zini: yes I'm asking

22/01/25, 15:17 - Benedetta Zini: and regarding the slowness ?

22/01/25, 15:17 - Razvan Voicu: no idea, need to check a problematic terminal to see what's happening

22/01/25, 15:17 - Benedetta Zini: okay

22/01/25, 15:18 - Razvan Voicu: In what dialogs is the slowness? All dialogs or only certain dialogs (like spontaneous transport/stock management/etc)?

22/01/25, 15:22 - Benedetta Zini: Mm21

22/01/25, 15:22 - Benedetta Zini: mm21

22/01/25, 15:22 - Benedetta Zini: mm37

22/01/25, 15:22 - Adrian Cindea: i am connected

22/01/25, 15:22 - Benedetta Zini: mm42

22/01/25, 15:22 - Adrian Cindea: with simulator of mobile terminal

22/01/25, 15:22 - Adrian Cindea: i will simulate a spontaneous tpo

22/01/25, 15:23 - Adrian Cindea: and put back in the same location

22/01/25, 15:23 - Adrian Cindea: no real movement only to check speed of application

22/01/25, 15:24 - Adrian Cindea: 52957947 wroks normally

22/01/25, 15:24 - Benedetta Zini: automatic allocation

22/01/25, 15:25 - Adrian Cindea: it works

22/01/25, 15:25 - Adrian Cindea: what area?

22/01/25, 15:25 - Adrian Cindea: i am on sl

22/01/25, 15:28 - Benedetta Zini: S22

22/01/25, 15:31 - Adrian Cindea: it takes 1-2 seonds

22/01/25, 15:31 - Adrian Cindea: we will check database

22/01/25, 15:32 - Benedetta Zini: okay thank you!

22/01/25, 15:57 - Adrian Cindea: what is current stitution?

22/01/25, 15:57 - Benedetta Zini: let me ask

22/01/25, 15:58 - Benedetta Zini: did you find anything strange?

22/01/25, 15:58 - Adrian Cindea: db server load

22/01/25, 15:58 - Adrian Cindea: piking is slow on mobile?

22/01/25, 15:58 - Adrian Cindea: automatic allocation is slow?

22/01/25, 16:00 - Benedetta Zini: it is better than before

22/01/25, 16:01 - Benedetta Zini: now it is faster than a few minutes ago

23/01/25, 17:24 - Benedetta Zini:  ⚠️ Dear All, I'm sorry for disturbing you but we are observing a lot of strange behavior of the system:

1. Mobile terminal go slows at least twice in a day
2. WAMAS take a long time to turn PPLU into PO with priority 9
(ADBATLTL000012288)
3. WAMAS sometimes crashes when we change orders priorities
These behaviors started after data migration on 11.01 (but first day of prod was 13.01)
Could you please check if there is something wrong?

Thanks in advance for your help <Questo messaggio è stato modificato>

23/01/25, 18:46 - Support Technician 10: Hello @Company Employee 11 regarding the slow we found the problem but it needs a deploy
23/01/25, 18:51 - Support Technician 10: Right now we can restart the worker but the slowness will comeback
23/01/25, 18:53 - Benedetta Zini: great to know that you found the issue
23/01/25, 18:54 - Benedetta Zini: what is it?
23/01/25, 18:54 - Benedetta Zini: yes please
23/01/25, 18:55 - Support Technician 10: The query that searches for discharge location takes the San Lorenzo locations so we are a lot slower <Questo messaggio è stato modificato>
23/01/25, 18:55 - Benedetta Zini: Tomorrow I'm going to talk with Operations manager and shipping manager to organize a deploy on Monday 27.01
23/01/25, 18:55 - Benedetta Zini: oh okay....
23/01/25, 18:56 - Support Technician 10: let them know I will restart the worker and kill the sessions
23/01/25, 18:56 - Benedetta Zini: thank you
23/01/25, 18:56 - Benedetta Zini: so until Tomorrow morning we are safe
23/01/25, 18:58 - Benedetta Zini: we reported this thing... because we noticed it
23/01/25, 18:59 - Support Technician 10: I restarted the worker Now I will kill the sessions
23/01/25, 19:00 - Support Technician 10: Not sure we will be able to deploy then , we did not discus internally a deploy date
23/01/25, 19:01 - Support Technician 10: I killed the sessions let me know how the mobile terminals are moving now
23/01/25, 19:01 - Benedetta Zini: okay
23/01/25, 19:02 - Benedetta Zini: so every time mobile terminal are slow down I will let you know
23/01/25, 19:02 - Support Technician 10: Ok
23/01/25, 19:02 - Benedetta Zini: and you will do a restart
23/01/25, 19:03 - Benedetta Zini: please Tomorrow let me know when you will be able to perform a deploy so we can organize
23/01/25, 19:03 - Support Technician 10: Regarding this problems can they wait for Monday or you need me to check them tomorrow
23/01/25, 19:03 - Support Technician 10: Tomorrow is a national holiday in Romania <Questo messaggio è stato modificato>
23/01/25, 19:04 - Benedetta Zini: I think you can do it on Monday
23/01/25, 19:05 - Support Technician 10: Ok
23/01/25, 19:05 - Benedetta Zini: if it gets worse, Tomorrow I will call helpdesk
23/01/25, 19:06 - Benedetta Zini: okay so on Monday NO deploy, but you will let me know when you are ready to perform it
23/01/25, 19:07 - Support Technician 10: Maybe we can do it on Monday not sure need to speak with @Support Technician 12
23/01/25, 19:07 - Benedetta Zini: yes yes I know
23/01/25, 19:07 - Benedetta Zini: but if Tomorrow is back Holiday I don't think Adrian will let me know Tomorrow :)
23/01/25, 19:08 - Benedetta Zini: bank*
23/01/25, 19:08 - Support Technician 10: No he is not on call 🤔
23/01/25, 19:08 - Support Technician 10: On Monday he will respond
23/01/25, 19:08 - Benedetta Zini: great thanks
23/01/25, 19:08 - Benedetta Zini: If it occurs again I will call immediately helpdesk
23/01/25, 19:09 - Support Technician 10: Ok
27/01/25, 09:31 - Benedetta Zini: 🚨 Hello! Mobile terminals are slow... could you please do something?

27/01/25, 09:31 - Adrian Cindea: hello
27/01/25, 09:31 - Adrian Cindea: all flows or a specific flow?
27/01/25, 09:32 - Benedetta Zini: all flow
27/01/25, 09:33 - Adrian Cindea: for the moment i stop generation of transport orders from San Lorenzo to manual areas
27/01/25, 09:33 - Adrian Cindea: related to discharge a fix is already prepared to exclude San Lorenzo locations
27/01/25, 09:34 - Adrian Cindea: and we will prepare another solutions for transport orders from San Lorenzo to manual area
27/01/25, 09:34 - Benedetta Zini: because also these transports generate problems?
27/01/25, 09:34 - Adrian Cindea: on remote station automatic allocation is instant
27/01/25, 09:34 - Adrian Cindea: generate load on database ...
27/01/25, 09:35 - Adrian Cindea: as you observed during last analyze
27/01/25, 09:35 - Adrian Cindea: we change it to run at every hour ... but now it is stopped
27/01/25, 09:35 - Adrian Cindea: ... there is a very small number of TPOs form SL to manual areas in this mommnet
27/01/25, 09:35 - Adrian Cindea: the goal is to prepare a new deploy as soon as possible
27/01/25, 09:36 - Adrian Cindea: deadline is tomorrow (but i hope to finalize deploy today)
27/01/25, 09:36 - Adrian Cindea: please check form this moment ...
27/01/25, 09:36 - Adrian Cindea: the status of mobile terminals
27/01/25, 09:36 - Adrian Cindea:

27/01/25, 09:37 - Adrian Cindea: please provide me a status
27/01/25, 09:40 - Benedetta Zini: I'm asking
27/01/25, 09:41 - Adrian Cindea: please provide a tpo which is slow ...
27/01/25, 09:42 - Adrian Cindea: not discharge .. because it is slowly for sure due to SL locations and stock
27/01/25, 10:02 - Benedetta Zini: They work
27/01/25, 10:21 - Benedetta Zini: outgoing goods (s21 - s22)
27/01/25, 10:30 - Adrian Cindea: <Media omessi>
27/01/25, 10:31 - Adrian Cindea: i tested with mobile client emulator from PC .161
27/01/25, 10:31 - Adrian Cindea: and it works fine
27/01/25, 10:32 - Adrian Cindea: anyhow ...
27/01/25, 10:33 - Benedetta Zini: IMG-20250127-WA0002.jpg (file allegato)
27/01/25, 10:33 - Benedetta Zini: IMG-20250127-WA0003.jpg (file allegato)
27/01/25, 10:33 - Benedetta Zini: now we have this error message in San Lorenzo
27/01/25, 10:33 - Adrian Cindea: i will heck
27/01/25, 10:34 - Benedetta Zini: thank you
27/01/25, 10:37 - Benedetta Zini: this issue has been around for an hour
27/01/25, 10:38 - Adrian Cindea: Deposit location S97 CAMION0 is not a staging location.
27/01/25, 10:38 - Adrian Cindea: i have to check why it is not buffer defined in system
27/01/25, 10:38 - Adrian Cindea: S97 CAMION0
27/01/25, 10:42 - Benedetta Zini: It is okay, S97 CAMION0 doesn't have to be a staging location
27/01/25, 10:43 - Support Technician 10: It's not defined as a staging area
27/01/25, 10:43 - Benedetta Zini: whereas S97 A* LOCATIONS? <Questo messaggio è stato modificato>
27/01/25, 10:44 - Support Technician 10: No location with s97 is defined as staging area
27/01/25, 10:45 - Support Technician 10: IMG-20250127-WA0004.jpg (file allegato)
27/01/25, 10:46 - Benedetta Zini: but it is okay that S97* and S95* are not defined as staging area
27/01/25, 10:47 - Benedetta Zini: whereas S95 SCARICO and S95 EX SCARICO have to be defined as staging area (so it is okay)
27/01/25, 10:49 - Benedetta Zini: this morning everything was working
27/01/25, 10:50 - Benedetta Zini: it has been like this for 1 hour

27/01/25, 10:52 - Benedetta Zini: ⚠ one more issue... the terminal no longer prints the shipping label
27/01/25, 11:04 - Adrian Cindea: 51914195;51914197 has an issue or not?
27/01/25, 11:06 - Benedetta Zini: yes, user can't deposit them inside S97 CAMION0
27/01/25, 11:06 - Adrian Cindea: IMG-20250127-WA0006.jpg (file allegato)
27/01/25, 11:06 - Adrian Cindea: OG tpo was finalized to S97 CAMION0
27/01/25, 11:06 - Adrian Cindea: it means they are in buffer area
27/01/25, 11:09 - Adrian Cindea: the operator would like to move them from S97 CAMION0 to S97 A00?
27/01/25, 11:10 - Adrian Cindea: printing is not workikg in general or it is a specific lu involved?
27/01/25, 11:11 - Benedetta Zini: IMG-20250127-WA0007.jpg (file allegato)
user from desktop finalized them
27/01/25, 11:17 - Benedetta Zini: I did a test with LU 51341156 and I did it... I put it in S97 CAMION0
27/01/25, 11:17 - Benedetta Zini: It works...
27/01/25, 11:17 - Benedetta Zini: Hai eliminato questo messaggio.
27/01/25, 11:17 - Benedetta Zini: now
27/01/25, 11:17 - Adrian Cindea: :)
27/01/25, 11:17 - Adrian Cindea: i need to check why user did ...
27/01/25, 11:18 - Adrian Cindea: because message was location is not stagging (S97 CAMION0 is buffer location)
27/01/25, 11:18 - Adrian Cindea: it seems application expected a stagging location not a buffer location
27/01/25, 11:18 - Benedetta Zini: very strange...
27/01/25, 11:19 - Adrian Cindea: i need to understand what operator did
27/01/25, 11:21 - Benedetta Zini: Mobile terminal - transport > manual allocation > recognized LUs > print label > deposit > try to put LUs inside S97 CAMION0
27/01/25, 11:35 - Benedetta Zini: now it is working
27/01/25, 11:36 - Benedetta Zini: VID-20250127-WA0008.mp4 (file allegato)
27/01/25, 12:00 - Adrian Cindea: we are working for new deploy:
27/01/25, 12:01 - Adrian Cindea: 1. Q25 - slowness of discharge action (ready for final tests)
27/01/25, 12:01 - Adrian Cindea: 2. inventory issue - blocked storage - ready for final tests
27/01/25, 12:01 - Adrian Cindea: 3. cross docking - release buffer is not allwed in case there is pronti pallet not identified - ready for deploy <Questo messaggio è stato modificato>
27/01/25, 12:02 - Adrian Cindea: 4. mfs loading issue - ready for final tests
27/01/25, 12:03 - Adrian Cindea: 5. replenishment on demand from San Lorenzo to manual area (some minor changes + testing query in priduciton in progrees)
27/01/25, 12:03 - Adrian Cindea: the goal is to finished them as soon as possible
27/01/25, 12:05 - Benedetta Zini: Okay perfect! Please let me know when you are going to be ready so we can organize deploy
27/01/25, 14:29 - Adrian Cindea: 1, 2 and 3 - are ready for deploy ...
27/01/25, 14:41 - Benedetta Zini: okay perfect
27/01/25, 14:42 - Benedetta Zini: If you are agree I think it is better to do all above points in a unique deploy (if it is possible)
27/01/25, 14:42 - Adrian Cindea: yes ... this is the scope
27/01/25, 14:43 - Adrian Cindea: mfsloading is in tests rights now
27/01/25, 14:43 - Adrian Cindea: and later point 5 ...
27/01/25, 14:43 - Benedetta Zini: okay great!
27/01/25, 17:46 - Adrian Cindea: 4. done
27/01/25, 17:46 - Adrian Cindea: 5. minor changes done ... tesitng in progress
27/01/25, 18:36 - Adrian Cindea: all are ready for deploy
27/01/25, 18:38 - Adrian Cindea: starting with tomorrow afternoon deploy is possible ...
27/01/25, 19:08 - Benedetta Zini: Tomorrow I will talk with my colleagues
27/01/25, 19:08 - Benedetta Zini: Thank you!
28/01/25, 08:51 - Benedetta Zini: Good morning! I'm discussing with my colleagues regarding deploy date

28/01/25, 08:52 - Benedetta Zini: in the meantime I kindly ask you to restart mobile terminal because they are very slow
28/01/25, 09:06 - Benedetta Zini: please 🙏
28/01/25, 09:34 - Support Technician 10: Hello I will restart the mobile terminals
28/01/25, 09:37 - Benedetta Zini: thank you
28/01/25, 09:38 - Support Technician 10: The restart is done
28/01/25, 09:40 - Benedetta Zini: VID-20250128-WA0001.mp4 (file allegato)
28/01/25, 09:40 - Benedetta Zini: This was the situation a few minutes ago
28/01/25, 09:40 - Benedetta Zini: Thank you
28/01/25, 09:41 - Benedetta Zini: I will ask users how it goes
28/01/25, 10:06 - Benedetta Zini: <Media omessi>
28/01/25, 10:07 - Benedetta Zini: this happens now...
28/01/25, 10:13 - Support Technician 10: I can do a restart again
28/01/25, 10:15 - Benedetta Zini: yes please..
28/01/25, 10:27 - Support Technician 10: Did it
28/01/25, 10:29 - Benedetta Zini: thanks
28/01/25, 12:39 - Adrian Cindea: may i change connection data for stock comparison? <Questo messaggio è stato modificato>
28/01/25, 12:39 - Adrian Cindea: right now ...?
28/01/25, 14:51 - Benedetta Zini: Hai eliminato questo messaggio.
28/01/25, 14:55 - Benedetta Zini: I'm sorry I was at lunch
28/01/25, 14:56 - Benedetta Zini: I read your email and I'm going to talk with my IT dept
28/01/25, 15:11 - Benedetta Zini: I have already sent an email regarding issue N45 because it is happening now and I marked "need to be checked live"
28/01/25, 15:12 - Benedetta Zini: do you have time to take a look or I can fix it?
28/01/25, 16:00 - Razvan Voicu: Can you show us in cc15 the LU
28/01/25, 16:00 - Razvan Voicu: Previous location/current location
28/01/25, 16:02 - Adrian Cindea: IMG-20250128-WA0008.jpg (file allegato)
28/01/25, 16:02 - Adrian Cindea: 3 LUs in 2 places of fork
28/01/25, 16:02 - Benedetta Zini: yes because it was slaved
28/01/25, 16:03 - Benedetta Zini: IMG-20250128-WA0009.jpg (file allegato)
28/01/25, 16:04 - Benedetta Zini: but it was on CU194
28/01/25, 16:04 - Adrian Cindea: physically?
28/01/25, 16:04 - Adrian Cindea: or logically?
28/01/25, 16:04 - Benedetta Zini: IMG-20250128-WA0010.jpg (file allegato)
28/01/25, 16:04 - Benedetta Zini: logically
28/01/25, 16:04 - Adrian Cindea: it seems a PLC issue at the first glance
28/01/25, 16:05 - Benedetta Zini: mmh okay...
28/01/25, 16:05 - Adrian Cindea: no physically in that place and it is inside .. seems PLC information was not updated properly ... though it was inside
28/01/25, 16:07 - Benedetta Zini: exactly
28/01/25, 17:01 - Benedetta Zini: What kind of error did you get?
28/01/25, 17:02 - Benedetta Zini: I'm talking with IT dept and they asked my the type of error
28/01/25, 17:14 - Benedetta Zini: let me know
29/01/25, 07:30 - Adrian Cindea: good morning
29/01/25, 07:30 - Adrian Cindea: i will check the logs and reply on email
29/01/25, 08:20 - Adrian Cindea: !!! i starting archiving for protocol data !!!
29/01/25, 08:20 - Adrian Cindea: it was locked due to an error
29/01/25, 08:20 - Adrian Cindea: it will take time (about 4-5 hours or more to finish to move all data from production to archiving)
29/01/25, 08:23 - Adrian Cindea: data from 19.12.2024 ...
29/01/25, 08:29 - Benedetta Zini: What kind of error? ...
29/01/25, 08:29 - Benedetta Zini: Oh not good....
29/01/25, 08:30 - Adrian Cindea: i dont know ... but in case of strange error job is marked locked and it is not runing anymore until it is unlock manually
29/01/25, 08:43 - Benedetta Zini: Okay clear
29/01/25, 08:43 - Adrian Cindea: it will take some time ... but data are moved ...
29/01/25, 08:44 - Adrian Cindea: maybe some picking orders remain in finished longer

29/01/25, 08:44 - Benedetta Zini: Would we have noticed?
29/01/25, 08:44 - Benedetta Zini: Perfect
29/01/25, 08:52 - Benedetta Zini: would we have noticed this job error?
29/01/25, 08:53 - Adrian Cindea: i dont know if you have rights for dialog
29/01/25, 08:53 - Benedetta Zini: what is the name of the dialog?
29/01/25, 09:38 - Benedetta Zini: ??
29/01/25, 09:39 - Adrian Cindea: SE024
29/01/25, 09:40 - Benedetta Zini: we have it
29/01/25, 09:40 - Benedetta Zini: IMG-20250129-WA0000.jpg (file allegato)
29/01/25, 14:55 - Adrian Cindea: with logistica job is running right now
29/01/25, 14:55 - Adrian Cindea: :)
29/01/25, 14:57 - Benedetta Zini: I have already answered to your email :)
29/01/25, 14:57 - Benedetta Zini: Do you think it could be the fault of special character? "_"
29/01/25, 15:06 - Benedetta Zini: I will provide you a pw without special characters
29/01/25, 15:37 - Benedetta Zini: did you try with:
USER: FORETL007
pw: I0681GUMX2 <Questo messaggio è stato modificato>
29/01/25, 15:38 - Adrian Cindea: i did it
29/01/25, 15:38 - Benedetta Zini: Okay...
29/01/25, 15:38 - Adrian Cindea: i did it ... the same result
29/01/25, 15:38 - Benedetta Zini: 😞😞😞
29/01/25, 15:39 - Benedetta Zini: let me think
29/01/25, 15:39 - Adrian Cindea: SE024 - edit stock job
29/01/25, 15:39 - Adrian Cindea: set new values and schedule ... in case it is locked unlocked and save and schedule again
29/01/25, 15:39 - Adrian Cindea: it takes 1-2 minutes ...
29/01/25, 15:40 - Adrian Cindea: no work - job is locked immediately (10 seconds)
29/01/25, 15:40 - Adrian Cindea: work - not locked in 10 seconds :)
29/01/25, 15:41 - Adrian Cindea: SE026 - jobs running and status (in case you have access) <Questo messaggio è stato modificato>
29/01/25, 15:42 - Adrian Cindea: archiving: 3087028 deleted 3864619 to be deleted ...
29/01/25, 15:43 - Adrian Cindea: until tomorrow all will be archived
29/01/25, 17:11 - Benedetta Zini: @Support Technician 12 There a lot of orders in OG002 not archived...
29/01/25, 17:11 - Adrian Cindea: i know ...
29/01/25, 17:11 - Benedetta Zini: okay okay
29/01/25, 17:11 - Adrian Cindea: i will stop archiving activity protocol
29/01/25, 17:11 - Adrian Cindea: staet arhivr prodcutive data
29/01/25, 17:11 - Adrian Cindea: and reschedule activeity protocol
29/01/25, 17:13 - Adrian Cindea: IMG-20250129-WA0010.jpg (file allegato)
29/01/25, 17:13 - Adrian Cindea: i did it ...
29/01/25, 17:13 - Adrian Cindea: obd will be archived ...
29/01/25, 17:13 - Adrian Cindea: and after that archiving protocol until is finished
29/01/25, 17:14 - Adrian Cindea: 3709078 deleted > 3242569 to be deleted
29/01/25, 17:15 - Adrian Cindea: 3.24 mil rows ...
29/01/25, 17:15 - Adrian Cindea: 10 hours left ... after these hours archiving ill run normally agaon
29/01/25, 17:15 - Adrian Cindea: i stopped it 2-3 times today and start archiving for obds, pos and so on ...
29/01/25, 17:16 - Adrian Cindea: 08:00 will be back to normal - as an estimation'
29/01/25, 17:17 - Benedetta Zini: great! thank you very much!
30/01/25, 07:44 - Adrian Cindea: archiving is back to normal ...
30/01/25, 07:44 - Adrian Cindea: *good morning
30/01/25, 08:33 - Benedetta Zini: Good morning! Super
31/01/25, 11:22 - Chiara Lodesani, Lavoro: Hello, I kindly ask you to restart mobile terminal because they are very slow 🙏
31/01/25, 11:27 - Chiara Lodesani, Lavoro: I've already sent an email
31/01/25, 11:28 - Support Technician 10: Hello I will do it

31/01/25, 11:28 - Chiara Lodesani, Lavoro: ok thanks
31/01/25, 11:31 - Support Technician 10: Done
31/01/25, 11:32 - Chiara Lodesani, Lavoro: ok, I will ask my colleagues for feedback on the speed of mobile terminals and I will tell you
31/01/25, 11:55 - Chiara Lodesani, Lavoro: It seems better
31/01/25, 11:55 - Adrian Cindea: what flow were affected?
31/01/25, 11:55 - Adrian Cindea: all flows or discharge action?
31/01/25, 11:56 - Chiara Lodesani, Lavoro: all flows
03/02/25, 11:04 - Chiara Lodesani, Lavoro: Hello, ready for deploy?
03/02/25, 11:05 - Adrian Cindea: hello, at 12:40, yes
03/02/25, 11:05 - Chiara Lodesani, Lavoro: Yes, at 12:30 I will set agvDisable = true
03/02/25, 12:30 - Chiara Lodesani, Lavoro: I have set agvDisable = true
03/02/25, 12:30 - Chiara Lodesani, Lavoro: I'll let you know when you can start
03/02/25, 12:39 - Chiara Lodesani, Lavoro: you can start!
03/02/25, 12:42 - Support Technician 7: Ok, thanks
03/02/25, 13:12 - Adrian Cindea: Adding locations
03/02/25, 13:12 - Chiara Lodesani, Lavoro: ok
03/02/25, 13:19 - Chiara Lodesani, Lavoro: Have you almost done?
03/02/25, 13:25 - Adrian Cindea: locations were added (staging configuration is progress)
03/02/25, 13:25 - Adrian Cindea: WAMAS will be start soon
03/02/25, 13:38 - Adrian Cindea: deploy is done (staing configuration is still in progress)
03/02/25, 13:38 - Adrian Cindea: so ready to use the system
03/02/25, 13:39 - Chiara Lodesani, Lavoro: ok good thank you
03/02/25, 14:36 - Adrian Cindea: all locations were configured
03/02/25, 14:42 - Chiara Lodesani, Lavoro: we notice that the locations S80 CA-PZV* have a different 'transport area' from S80 CA-TET*. What consequences does this have?
03/02/25, 14:45 - Adrian Cindea: we will check it and decide next step
03/02/25, 14:51 - Chiara Lodesani, Lavoro: Ok
03/02/25, 14:56 - Adrian Cindea: all are in the same transport area tCaricoTET
03/02/25, 15:02 - Chiara Lodesani, Lavoro: ok, so nothing changes, right?
03/02/25, 15:02 - Adrian Cindea: i set them as is was requested
03/02/25, 15:03 - Adrian Cindea: maybe it is needed a mobile restart in case there are some problems are reported
03/02/25, 15:03 - Adrian Cindea: but it takes around 2-3 minutes a restart and only mobile terminals are affected (no need so far)
03/02/25, 15:03 - Adrian Cindea: transport area is used to be able to assigned automatic transport order
03/02/25, 15:03 - Adrian Cindea: based on area selected
03/02/25, 15:04 - Adrian Cindea: basically ...
03/02/25, 15:08 - Chiara Lodesani, Lavoro: IMG-20250203-WA0002.jpg (file allegato)
03/02/25, 15:08 - Chiara Lodesani, Lavoro: IMG-20250203-WA0003.jpg (file allegato)
03/02/25, 15:08 - Chiara Lodesani, Lavoro: I think that my colleague Marco asked you to deploy the new locations S80 CA-PZV* equal to S80 CA-TET*, but I saw that the transport area are different..
03/02/25, 15:08 - Adrian Cindea: i will take a llok
03/02/25, 15:09 - Chiara Lodesani, Lavoro: do you mean that tCanaletto is like tCaricoTET?
03/02/25, 15:15 - Adrian Cindea: thx, change too
03/02/25, 15:15 - Adrian Cindea: i changed to tCaricoTET
03/02/25, 15:16 - Chiara Lodesani, Lavoro: Good, thank you
03/02/25, 15:16 - Adrian Cindea: in case we observer something strange let us know and we will try to fix as soon as possible
03/02/25, 15:17 - Chiara Lodesani, Lavoro: we have a problem, my colleagues told me taht the mobile terminal are slow in all kind of action...
03/02/25, 15:17 - Adrian Cindea: restart will be done right now
03/02/25, 15:21 - Adrian Cindea: restart of mobile terminals done
03/02/25, 15:22 - Adrian Cindea: please let us know in case the slowness persists

03/02/25, 15:22 - Adrian Cindea: to analyze deeper what is the issue
 03/02/25, 15:22 - Adrian Cindea: now locations were added and changed
 03/02/25, 15:22 - Adrian Cindea: discharge action is not related to San Lorenzo locations
 03/02/25, 15:23 - Chiara Lodesani, Lavoro: Ok
 03/02/25, 16:20 - Chiara Lodesani, Lavoro: Unfortunately the mobile terminals are slow yet..
 03/02/25, 16:20 - Adrian Cindea: what flow?
 03/02/25, 16:20 - Adrian Cindea: i need to test it
 03/02/25, 16:20 - Adrian Cindea: i have mobile application open on remote PC (.161)
 03/02/25, 16:20 - Adrian Cindea: please tell me a flow
 03/02/25, 16:20 - Chiara Lodesani, Lavoro: they told me that they are slow in all flow
 03/02/25, 16:21 - Adrian Cindea: there are 6500 TPOs ...
 03/02/25, 16:21 - Adrian Cindea: please let me know the flow and i will transport it with mobile terminal
 03/02/25, 16:21 - Chiara Lodesani, Lavoro: try with full pallets
 03/02/25, 16:21 - Adrian Cindea: give me a transport unit and i will move it to destination and inform you
 03/02/25, 16:22 - Adrian Cindea: allocation is instantly
 03/02/25, 16:22 - Chiara Lodesani, Lavoro: 52894672
 52901367
 52891356
 52883615
 52883783
 52901354
 52891253
 52883646
 52891774
 52891713
 52894827
 52905139
 52903627
 52891247
 03/02/25, 16:22 - Adrian Cindea: give me one id to move it by myself logically
 03/02/25, 16:23 - Adrian Cindea: what flow is used
 03/02/25, 16:23 - Adrian Cindea: manual tpo
 03/02/25, 16:23 - Adrian Cindea: or OG with all LUs moved in one steps
 03/02/25, 16:23 - Adrian Cindea: i proposed a short meeting on teams
 03/02/25, 16:24 - Adrian Cindea: to try to the same same steps on PC
 03/02/25, 16:24 - Adrian Cindea: to check real it is slowly
 03/02/25, 16:24 - Chiara Lodesani, Lavoro: automatic allocation for these
 03/02/25, 16:24 - Adrian Cindea: i will do it ...
 03/02/25, 16:24 - Adrian Cindea: i will assign them to me
 03/02/25, 16:25 - Adrian Cindea:
 52894672;52901367;52891356;52883615;52883783;52901354;52891253;52883646;52891774
 ;52891713;52894827;52905139;52903627;52891247
 03/02/25, 16:26 - Adrian Cindea: 52905139
 52903627
 52891247
 03/02/25, 16:26 - Adrian Cindea: others are for pl162
 03/02/25, 16:28 - Chiara Lodesani, Lavoro: you can delete the assignment
 03/02/25, 16:31 - Adrian Cindea: i moved them (52905139;52903627;52891247) instantly
 03/02/25, 16:31 - Adrian Cindea: by manual TPO
 03/02/25, 16:32 - Adrian Cindea: they were not allocated to me
 03/02/25, 16:33 - Chiara Lodesani, Lavoro: IMG-20250203-WA0004.jpg (file allegato)
 03/02/25, 16:33 - Chiara Lodesani, Lavoro: This mobile terminal in San Lorenzo is blocked
 in this page
 03/02/25, 16:34 - Adrian Cindea: not possible to select the printer?
 03/02/25, 16:34 - Adrian Cindea: not possible to move down?

03/02/25, 16:34 - Chiara Lodesani, Lavoro: yes
03/02/25, 16:35 - Adrian Cindea: please try again
03/02/25, 16:35 - Adrian Cindea: reset the terminal and login again
03/02/25, 16:37 - Adrian Cindea: i moved pallet 52894672 to S95 Y00 (instantly and select 2nd printer from the list)
03/02/25, 16:37 - Adrian Cindea: IMG-20250203-WA0005.jpg (file allegato)
03/02/25, 16:37 - Adrian Cindea: this is my terminal
03/02/25, 16:38 - Adrian Cindea: IMG-20250203-WA0006.jpg (file allegato)
03/02/25, 16:38 - Chiara Lodesani, Lavoro: VID-20250203-WA0008.mp4 (file allegato)
03/02/25, 16:39 - Chiara Lodesani, Lavoro: this terminal is in loading in progress..
03/02/25, 16:45 - Chiara Lodesani, Lavoro: we have problem also with the load of the trucks 🤔
03/02/25, 16:50 - Chiara Lodesani, Lavoro: are you checking?
03/02/25, 16:51 - Adrian Cindea: so ...
03/02/25, 16:59 - Adrian Cindea: 52901367 i moved to current location S95 Y00
03/02/25, 17:42 - Adrian Cindea: any feedback related to mobile terminal
03/02/25, 17:42 - Adrian Cindea: ?
03/02/25, 17:44 - Chiara Lodesani, Lavoro: I confirm you that is a internet connection problem
03/02/25, 17:45 - Chiara Lodesani, Lavoro: also other factories of concorde group have the same problem
03/02/25, 17:45 - Chiara Lodesani, Lavoro: so no WAMAS problem
03/02/25, 18:10 - Adrian Cindea: please contact call center
03/02/25, 18:10 - Adrian Cindea: in case we need our support ...
03/02/25, 18:11 - Chiara Lodesani, Lavoro: ok, thank you Adrian
03/02/25, 18:11 - Chiara Lodesani, Lavoro: for your support
05/02/25, 23:31 - Support Technician 7: Hello
05/02/25, 23:35 - Support Technician 7: Regarding the prio A ticket, we have a pallet with 5.297 quantity on it
05/02/25, 23:36 - Alex Ardilli, Personale: In which conveyor?
05/02/25, 23:37 - Support Technician 7: Should be on BP11 S04, LUID: 52822650
05/02/25, 23:37 - Alex Ardilli, Personale: What have i to do?
05/02/25, 23:38 - Alex Ardilli, Personale: I don't know how to modify the quantity on a pallet
05/02/25, 23:39 - Alex Ardilli, Personale: IMG-20250205-WA0037.jpg (file allegato)
It's empty 🤔
05/02/25, 23:40 - Support Technician 7: Tell me what do you want me to do with it, and I can do it for you
05/02/25, 23:40 - Alex Ardilli, Personale: For me you can delete the pallet and i Will put It away
05/02/25, 23:40 - Support Technician 7: Okk
05/02/25, 23:40 - Support Technician 7: Give me a second
05/02/25, 23:41 - Alex Ardilli, Personale: Yes no problem
05/02/25, 23:43 - Support Technician 7: Done
05/02/25, 23:44 - Support Technician 7: How is the system looking?
05/02/25, 23:45 - Alex Ardilli, Personale: I'm checking but It seems ok from lighthouse
05/02/25, 23:45 - Support Technician 7: I will wait for your feedback
05/02/25, 23:47 - Alex Ardilli, Personale: Did you cancel the LUID of the pallet 52822650?
05/02/25, 23:47 - Alex Ardilli, Personale: Or only the material on It?
05/02/25, 23:47 - Support Technician 7: Deleted the entire LU
05/02/25, 23:48 - Support Technician 7: So, it's no longer in the system
05/02/25, 23:48 - Alex Ardilli, Personale: It appears on the PPF02C2671 on lighthouse
05/02/25, 23:49 - Alex Ardilli, Personale: IMG-20250205-WA0038.jpg (file allegato)
05/02/25, 23:50 - Alex Ardilli, Personale: Can i delete It?
05/02/25, 23:50 - Support Technician 7: Yes
05/02/25, 23:57 - Alex Ardilli, Personale: I delated It and i don't see It anyway

05/02/25, 23:58 - Alex Ardilli, Personale: The picking bay Is working well now, so everything has restarted 🍷🍷🍷
05/02/25, 23:58 - Support Technician 7: Good, I will close the ticket then
05/02/25, 23:58 - Support Technician 7: Have a nice evening
05/02/25, 23:59 - Alex Ardilli, Personale: Thanks, to you too
10/02/25, 11:51 - Benedetta Zini: 📞 Dear All, we have problems with TPOs in automatic area
10/02/25, 11:52 - Benedetta Zini: All TPOs are in status NEW instead of ACTIVE (similar to the case of 18/10/2024)
10/02/25, 11:52 - Benedetta Zini: I sent an email in order to open a ticket
10/02/25, 11:53 - Benedetta Zini: Now also mobile terminal in manual area are not working
10/02/25, 11:55 - Benedetta Zini: VID-20250210-WA0001.mp4 (file allegato)
10/02/25, 12:07 - Adrian Cindea: hi
10/02/25, 12:07 - Adrian Cindea: what is current status?
10/02/25, 12:07 - Benedetta Zini: We found the issueeeee
10/02/25, 12:07 - Benedetta Zini: IMG-20250210-WA0002.jpg (file allegato) this LU
10/02/25, 12:07 - Adrian Cindea: what is the issue?
10/02/25, 12:07 - Benedetta Zini: I supposed...
10/02/25, 12:07 - Benedetta Zini: Could you please check?
10/02/25, 12:08 - Benedetta Zini: Currently it seems working..
10/02/25, 12:08 - Adrian Cindea: we unblockd the system
10/02/25, 12:08 - Benedetta Zini: ah
10/02/25, 12:08 - Benedetta Zini: 😊
10/02/25, 12:08 - Adrian Cindea: it was an issue with communication between WMS and MFS
10/02/25, 12:08 - Adrian Cindea: we will check the logs
10/02/25, 12:09 - Benedetta Zini: I thought it was LU TEMP1035 pointed NOKF02C3011 from CU294
10/02/25, 12:09 - Benedetta Zini: maybe this issue cause the communication issue between wms and mfs?
10/02/25, 12:09 - Benedetta Zini: I don't know
10/02/25, 12:10 - Benedetta Zini: IMG-20250210-WA0003.jpg (file allegato) Could you please cancel them?
10/02/25, 12:10 - Benedetta Zini: I can't do it due to "obsolete data"
10/02/25, 12:16 - Benedetta Zini: thank you!
10/02/25, 12:22 - Benedetta Zini: Could you please check LU 59399140?
10/02/25, 12:22 - Benedetta Zini: It is on BP10 S03 and we can't send it back to HBW1 because TPO is in error
10/02/25, 12:34 - Support Technician 10: We are working on it
10/02/25, 12:34 - Support Technician 10: Waiting for a plc
10/02/25, 13:34 - Support Technician 10: The position is clean pallet left for the hbw
10/02/25, 14:26 - Benedetta Zini: suuper
10/02/25, 14:26 - Benedetta Zini: What was the communication issue WMS - MFS?
10/02/25, 14:28 - Support Technician 10: We are still looking into it
10/02/25, 14:29 - Benedetta Zini: okay thank you!
10/02/25, 14:58 - Adrian Cindea: a workaround was done to not stop communication between WMS and MFS (it will be included in next deploy)
10/02/25, 14:59 - Adrian Cindea: it is the same case as of 18.10.2024 (no fix on 18.10.2024 only resume the system, it seems a very old a very rare issue but block the automatization)
10/02/25, 15:01 - Adrian Cindea: we fixed for the moment its effect not its root cause ...
10/02/25, 15:04 - Benedetta Zini: okay clear...
10/02/25, 15:05 - Benedetta Zini: clear as crystal, you will fix its root cause with deploy
10/02/25, 15:05 - Benedetta Zini: Is it possible to do a deploy next Monday 17/02? If you have this patch ready and Others too
10/02/25, 15:13 - Adrian Cindea: yes ...
10/02/25, 15:14 - Benedetta Zini: great! Do you want to confirm it to me Tomorrow afternoon/Wednesday morning?
10/02/25, 15:14 - Adrian Cindea: i will check how many fixes are ready

10/02/25, 15:15 - Adrian Cindea: but one of goal is to offer and fix user deallocation for TPO started in san lorenzo in case of temporary depozit
10/02/25, 15:15 - Adrian Cindea: we are working for solution/offer ... and i hope to get feedback tomorrow at least ...
10/02/25, 15:16 - Benedetta Zini: suuuuper 🥰 thank you!
10/02/25, 15:16 - Benedetta Zini: perfect! thank you
10/02/25, 15:17 - Benedetta Zini: I will mark deploy on Monday, then we will update
11/02/25, 13:44 - Adrian Cindea: DL-R0-TIM1-CP-Atlas-Concorde <cp-atlas-concorde@ssi-schaefer.com>
11/02/25, 13:45 - Adrian Cindea: please use this email address for the future .. to reach all people involved in project/customer service - IT Romania side
11/02/25, 15:07 - Benedetta Zini: Okay thank you!
17/02/25, 12:26 - Benedetta Zini: Hello!
17/02/25, 12:27 - Benedetta Zini: I'm going to set agvDisable = true
17/02/25, 12:27 - Benedetta Zini: I will let you know when you can start with deploy
17/02/25, 12:31 - Benedetta Zini: you can start with deploy!
17/02/25, 12:31 - Support Technician 10: Hello ok tahnk you
17/02/25, 12:32 - Benedetta Zini: Please let us know as soon as finished
17/02/25, 12:40 - Benedetta Zini: we have until 13:10
17/02/25, 12:44 - Support Technician 10: We finished the adding of locations
17/02/25, 12:44 - Support Technician 10: Now we do the normal deploy
17/02/25, 12:49 - Benedetta Zini: great!
17/02/25, 13:02 - Support Technician 10: Deploy done
17/02/25, 13:03 - Support Technician 10: @Company Employee 11 please let us know if any issue apears regarding the fixes/locations
17/02/25, 13:03 - Chiara Lodesani, Lavoro: ok, thank you
17/02/25, 15:40 - Benedetta Zini: IMG-20250217-WA0002.jpg (file allegato)
17/02/25, 15:41 - Benedetta Zini: We can't put pallets from S90 CAMION to new ocations
17/02/25, 15:41 - Benedetta Zini: IMG-20250217-WA0003.jpg (file allegato)
17/02/25, 15:44 - Support Technician 10: Hello I will check
17/02/25, 15:44 - Benedetta Zini: Thank you
17/02/25, 15:45 - Benedetta Zini: Now LU is on MUL-020
17/02/25, 15:49 - Benedetta Zini: I can't update it in another location
17/02/25, 15:49 - Benedetta Zini: IMG-20250217-WA0005.jpg (file allegato)
17/02/25, 15:52 - Benedetta Zini: Now LU is in IN-PRONTI-VIAZZA1 and I tested another LU
17/02/25, 15:55 - Benedetta Zini: It works
17/02/25, 15:57 - Support Technician 10: So its working now?
17/02/25, 15:58 - Benedetta Zini: It seems yes manual allocation...
17/02/25, 15:58 - Benedetta Zini: spontaneous no
17/02/25, 15:58 - Benedetta Zini: IMG-20250217-WA0006.jpg (file allegato)
17/02/25, 15:59 - Benedetta Zini: It says that IN-PRONTI-VIAZZA1 is not a buffer location
17/02/25, 15:59 - Support Technician 10: Can you try S87 SAL1
17/02/25, 16:00 - Benedetta Zini: But it is not the same location like IN-PRONTI-VIAZZA1
17/02/25, 16:03 - Support Technician 10: The error message tells us that IN-PRONTI-VIAZZA1 is not a staging area
17/02/25, 16:04 - Benedetta Zini: okay... we need to switch into staging area...
17/02/25, 16:04 - Support Technician 10: And we only configured the S87 locations to be staging areas
17/02/25, 16:05 - Benedetta Zini: Mybe I was wrong to suggest you type of location for IN-PRONTI-VIAZZA*
17/02/25, 16:08 - Support Technician 10: I am checking now to see exaclty what was asked for IN-PRONTI-VIAZZA*
17/02/25, 16:08 - Benedetta Zini: I would like to use IN-PRONTI-VIAZZA* as a location for outgoing goods coming from S60/S61 (San Lorenzo area)
17/02/25, 16:10 - Benedetta Zini: LUS from San Lorenzo are in S90 CAMION*
17/02/25, 16:10 - Benedetta Zini: from S90 CAMION* I would like to deposit them in IN-PRONTI-VIAZZA* (both with manual allocation and spontaneous)
17/02/25, 16:11 - Benedetta Zini: then from IN-PRONTI-VIAZZA* I will put LUS

inside S95 or S97

17/02/25, 16:11 - Benedetta Zini: So, if I understood well... IN-PRONTI-VIAZZA* should be a staging area right?

17/02/25, 16:12 - Support Technician 10: Yea, that is what i found in the code

17/02/25, 16:12 - Benedetta Zini: okay clear

17/02/25, 16:13 - Benedetta Zini: So I was wrong to write you the type of locations

17/02/25, 16:13 - Benedetta Zini: 😞

17/02/25, 16:14 - Benedetta Zini: IMG-20250217-WA0007.jpg (file allegato)

could you please put it in IN-PRONTI-VIAZZA1? I can't do it...

17/02/25, 16:15 - Support Technician 10: Do we have a location that is already configured like you want IN-PRONTI-VIAZZA to work?

17/02/25, 16:18 - Benedetta Zini: mmh I think not... because It should work with OutSide and OutRear (as a FOG)

17/02/25, 16:18 - Benedetta Zini: S95 A* is similar but IT works with only OutSide <Questo messaggio è stato modificato>

17/02/25, 16:30 - Benedetta Zini: I'm thinking

17/02/25, 16:31 - Adrian Cindea: It is needed to analyze your request in case locations are changed

17/02/25, 16:31 - Adrian Cindea: Sometimes it is needed a deploy for them

17/02/25, 16:33 - Benedetta Zini: okay clear... but is it possible to make in manner that in IN-PRONTI-VIAZZA* we can deposit both Outrear/OutSide with manual and spontaneous?

17/02/25, 16:34 - Adrian Cindea: We have to check source code and to come with a feedback

17/02/25, 16:34 - Benedetta Zini: okay thank you

17/02/25, 16:34 - Benedetta Zini: I'm sorry for my misunderstanding

17/02/25, 16:34 - Benedetta Zini: 😞

17/02/25, 16:41 - Adrian Cindea: No problem

17/02/25, 17:52 - Benedetta Zini: Hai eliminato questo messaggio.

17/02/25, 17:52 - Benedetta Zini: Hai eliminato questo messaggio.

19/02/25, 16:44 - Support Technician 10: Hello for ticket 01415538 can this wait till tomorrow to be investigated or its a issue right now?

19/02/25, 16:45 - Benedetta Zini: yes sure

19/02/25, 16:45 - Support Technician 10: Ok I will decrease it to C and put it on hold tomorrow morning I will look into it

19/02/25, 16:46 - ~Federico Campedelli ha abbandonato.

20/02/25, 10:12 - Support Technician 10: Hello regarding the new ticket for load ,we cant more the consignment do to a pending action on the load

20/02/25, 10:13 - Support Technician 10: @Company Employee 11 do you have a load on where I can manually move the wrong consignments?

20/02/25, 10:22 - Benedetta Zini: No.... because they are booked for tomorrow so we do not have a truck...

20/02/25, 10:23 - Benedetta Zini: Is it not possible to remove them?

20/02/25, 10:25 - Support Technician 10: I can do that too

20/02/25, 10:26 - Support Technician 10: Done they are no longer on the load

20/02/25, 10:27 - Benedetta Zini: Great thank you

20/02/25, 10:29 - Benedetta Zini: Can you delete the truck load?

20/02/25, 10:29 - Benedetta Zini: Even if there are pending actions?

20/02/25, 10:30 - Benedetta Zini: It is old and it is a draft

20/02/25, 10:30 - Support Technician 10: I can delete the pending actions and after the load

20/02/25, 10:30 - Benedetta Zini: Yes please

20/02/25, 10:30 - Support Technician 10: We have 2 load update request

20/02/25, 10:31 - Support Technician 10: Done

20/02/25, 10:40 - Benedetta Zini: Perfect thank you!

24/02/25, 08:37 - Support Technician 10: @Company Employee 11 can you provide a new example for ticket 01415538 I did not get the chance to look at it till today and we don't have any more logs from the 19th

24/02/25, 08:47 - Benedetta Zini: Hello @Support Technician 10! Oh no 😞..... I will let you know as soon as it is occur again...

24/02/25, 08:47 - Benedetta Zini: I will mark the issue "need to be checked live"

24/02/25, 08:49 - Support Technician 10: Ok thank sorry for the inconvenience 😊

07/03/25, 07:34 - Nicola Bernardi: Can you check the ticket 01418537?
07/03/25, 07:39 - Support Technician 10: Hello I am checking
07/03/25, 07:41 - Support Technician 10: Is the pallet 52891259 there?
07/03/25, 07:43 - Support Technician 10: And is the srm full?
07/03/25, 07:45 - Support Technician 10: @Company Employee 17
07/03/25, 07:47 - Nicola Bernardi: Hi, now the system is ok, all line in and out of SRM was in error with assignment without data P1
07/03/25, 07:48 - Support Technician 10: Oh ok I only see an error on srm4 for pallet 52891259
07/03/25, 07:53 - Nicola Bernardi: When the system was in error I can't saw nothing strange... only the red bubble on lighthouse, I tried to search on wamas the problem without success
07/03/25, 07:55 - Support Technician 10: Usually this is connected to MFS; some pending event did not get consumed by MFS; you can't see them in WAMAS
07/03/25, 08:08 - Nicola Bernardi: I tried 🖱️🖱️
08/03/25, 09:56 - Support Technician 10: Hello @Company Employee 11 I deleted the inventory line for order 5216895 We will investigate why this happened on Monday
10/03/25, 08:50 - Benedetta Zini: hello! okay thank you!
11/03/25, 12:26 - Benedetta Zini: Hello! I have already sent an email regarding URGENT | ADBATL000070920 OBD0001006804
11/03/25, 12:27 - Benedetta Zini: could you please check it asap? we need to do documents
11/03/25, 12:27 - Adrian Cindea: hi
11/03/25, 12:27 - Adrian Cindea: we will check it
11/03/25, 12:27 - Benedetta Zini: thank you!
11/03/25, 12:33 - Adrian Cindea: it is finished now ...
11/03/25, 12:34 - Benedetta Zini: what did you do? □
11/03/25, 12:34 - Adrian Cindea: i changed its planning stage from shipping planning to picking planning
11/03/25, 12:34 - Adrian Cindea: + recalculat state
11/03/25, 12:35 - Benedetta Zini: mmmh... okay
11/03/25, 12:35 - Adrian Cindea: we will check why it remains in shipping planing (it was crossdocking order)
11/03/25, 12:35 - Benedetta Zini: and what was the issue?
11/03/25, 12:36 - Adrian Cindea: i dont know yet ... status was not changed to finished due to shipping planning (making to pikcing status changed to finished)
11/03/25, 12:36 - Adrian Cindea: only status was not changed to finsihed
11/03/25, 12:36 - Adrian Cindea: all others data were ok <Questo messaggio è stato modificato>
11/03/25, 12:38 - Benedetta Zini: oh strange...
11/03/25, 12:42 - Adrian Cindea: it seems as side effect of splitting: ADBATL000070920 was split from ADBATL000070920
11/03/25, 12:45 - Benedetta Zini: oh okay...
20/03/25, 15:49 - Benedetta Zini: Hello! Could you please check ticket 01420962? <Questo messaggio è stato modificato>
20/03/25, 16:56 - Razvan Voicu: Hello
20/03/25, 16:57 - Razvan Voicu: IMG-20250320-WA0000.jpg (file allegato)
20/03/25, 17:04 - Benedetta Zini: yes, but LU 53247461 will stand still until BP12 D02 or D01 is empty
20/03/25, 17:04 - Benedetta Zini: now 52088435 is on AGV towards BP12 D02
20/03/25, 17:05 - Benedetta Zini: BP12 D01 is empty, so WAMAS can send another pallet in target location (empty LU or for negative pick)
20/03/25, 17:06 - Benedetta Zini: Hai eliminato questo messaggio.
20/03/25, 17:06 - Benedetta Zini: and now 53247461 has TPO in status active because 52088435 is on AGV <Questo messaggio è stato modificato>
20/03/25, 17:08 - Razvan Voicu: I restarted the order for *7461
20/03/25, 17:08 - Razvan Voicu: it's on EMS now
20/03/25, 17:09 - Razvan Voicu: hmm, but you said TPO was already in status active when I restarted
20/03/25, 17:09 - Razvan Voicu: IMG-20250320-WA0001.jpg (file allegato)
at 17:06 it got picked up by srm
20/03/25, 17:09 - Benedetta Zini: let's check other POs
20/03/25, 17:10 - Benedetta Zini: and at 17:06 ATX picked up LU from pick 12

20/03/25, 17:10 - Benedetta Zini: IMG-20250320-WA0002.jpg (file allegato)
20/03/25, 17:10 - Razvan Voicu: I think I remember this case
20/03/25, 17:11 - Benedetta Zini: It happened when we tested HA and DA pallet last year <Questo messaggio è stato modificato>
20/03/25, 17:11 - Razvan Voicu: oh yeah
20/03/25, 17:11 - Razvan Voicu: correct
20/03/25, 17:11 - Benedetta Zini: 😊😊
20/03/25, 17:11 - Razvan Voicu: then what happened was that we had an empty request for this location
20/03/25, 17:11 - Benedetta Zini: but I can't do anything ☹️
20/03/25, 17:11 - Benedetta Zini: yes
20/03/25, 17:14 - Benedetta Zini: maybe an empty request that is blocking... but from my side everything seems okay...
20/03/25, 17:14 - Razvan Voicu: IMG-20250320-WA0003.jpg (file allegato)
we have two targets now to BP12
20/03/25, 17:16 - Benedetta Zini: yaaasssss
20/03/25, 17:17 - Benedetta Zini: what did you do?
20/03/25, 17:17 - Razvan Voicu: i canceled an empty req
20/03/25, 17:17 - Razvan Voicu: IMG-20250320-WA0004.jpg (file allegato)
20/03/25, 17:18 - Razvan Voicu: last two days we had only 2 TUs on BP12 D02
20/03/25, 17:18 - Benedetta Zini: yes...
20/03/25, 17:19 - Benedetta Zini: from where? Could I do it too?
20/03/25, 17:19 - Razvan Voicu: I did it from ACX gui
20/03/25, 17:19 - Razvan Voicu: but I think OG525 also works
20/03/25, 17:20 - Benedetta Zini: which was?
20/03/25, 17:20 - Razvan Voicu: didn't save it unfortunately
20/03/25, 17:21 - Razvan Voicu: but was something old
20/03/25, 17:21 - Benedetta Zini: okay....
20/03/25, 17:21 - Razvan Voicu: around 15.03
20/03/25, 17:23 - Benedetta Zini: probably... shift leader said that pick #12 had been working with 1 target location for a week
20/03/25, 17:23 - Benedetta Zini: thank you very much!
20/03/25, 17:24 - Razvan Voicu: IMG-20250320-WA0005.jpg (file allegato)
20/03/25, 17:24 - Razvan Voicu: yes, around this time
20/03/25, 17:26 - Razvan Voicu: IMG-20250320-WA0006.jpg (file allegato)
this Request for 5290337 looks a bit weird also
20/03/25, 17:27 - Razvan Voicu: if you can monitor it and make sure it doesn't get stuck for a long time here
20/03/25, 17:27 - Razvan Voicu: IMG-20250320-WA0007.jpg (file allegato)
20/03/25, 17:27 - Razvan Voicu: do you have send cancel to mfs?
20/03/25, 17:28 - Benedetta Zini: yes I have it
20/03/25, 17:30 - Razvan Voicu: I'm just speculating. I see that it got assigned a temp, so it's ok
20/03/25, 17:30 - Razvan Voicu: Let me know if station gets blocked again
20/03/25, 17:30 - Razvan Voicu: Thanks for the help :)
20/03/25, 17:30 - Benedetta Zini: yes sure, but now it is working ;)
20/03/25, 17:31 - Benedetta Zini: thank you for fixing it
24/03/25, 10:07 - Benedetta Zini: Hello! Is today's deploy confirmed?
24/03/25, 10:48 - Razvan Voicu: Hello. Yes
24/03/25, 12:29 - Benedetta Zini: I set AgvDisable = true
24/03/25, 12:30 - Benedetta Zini: I will let you know when you can start
24/03/25, 12:40 - Benedetta Zini: you can start with deploy
24/03/25, 12:41 - Support Technician 7: Ok, thanks
24/03/25, 13:01 - Support Technician 7: Deploy is done
24/03/25, 13:02 - Benedetta Zini: okay great!
24/03/25, 13:02 - Benedetta Zini: Everything okay?
24/03/25, 13:03 - Support Technician 7: For us, yes. Now it's your turn 🙌
24/03/25, 13:15 - Benedetta Zini: super!
24/03/25, 14:48 - Benedetta Zini: I tested IN-PRONTI-VIAZZA* locations
24/03/25, 14:48 - Benedetta Zini: IMG-20250324-WA0000.jpg (file allegato)
24/03/25, 14:49 - Benedetta Zini: IMG-20250324-WA0001.jpg (file allegato)
24/03/25, 14:49 - Benedetta Zini: patch is not working
24/03/25, 14:49 - Benedetta Zini: 52588752 S90 CAMION0
24/03/25, 14:55 - Adrian Cindea: please try again

24/03/25, 15:18 - Benedetta Zini: okay
24/03/25, 15:19 - Benedetta Zini: now it works 🤖
24/03/25, 15:53 - Adrian Cindea: it sounds good
24/03/25, 15:53 - Adrian Cindea: so CR for new locations will be closed ...
24/03/25, 15:54 - Adrian Cindea: we would like to change all S29* location to the H3 compartment
24/03/25, 15:54 - Adrian Cindea: ticket 01411708
24/03/25, 16:29 - Benedetta Zini: is it included in 01411708?
25/03/25, 09:11 - Adrian Cindea: yes
25/03/25, 09:11 - Benedetta Zini: we checked locations yesterday
25/03/25, 09:12 - Benedetta Zini: thank you!
07/04/25, 12:31 - Benedetta Zini: Hello! I set agvDisable = true
07/04/25, 12:37 - Support Technician 7: Can we start?
07/04/25, 12:38 - Benedetta Zini: now yes
07/04/25, 12:38 - Support Technician 7: Thanks
07/04/25, 13:08 - Support Technician 7: Deploy is done
07/04/25, 13:08 - Benedetta Zini: okay, everything okay?
07/04/25, 13:09 - Support Technician 7: Everything looks fine
07/04/25, 13:09 - Support Technician 7: You can start checking on your side too
07/04/25, 13:26 - Benedetta Zini: great!
14/04/25, 16:02 - Benedetta Zini: Hello, could you please take a look at ticket 01425544?
14/04/25, 16:03 - Benedetta Zini: WAMAS is not sending record 30 to host... so we have inventory mismatches between wamas and host side...
14/04/25, 16:36 - Benedetta Zini: is there someone available? 🙄
14/04/25, 16:42 - Razvan Voicu: i will check
14/04/25, 16:52 - Benedetta Zini: thank you
14/04/25, 16:53 - Benedetta Zini: let me know if you need more examples
14/04/25, 16:54 - Razvan Voicu: how did he remove?
14/04/25, 16:55 - Razvan Voicu: I think he went to sm22 and edited a stock. do you know why?
14/04/25, 16:56 - Razvan Voicu: Yeah, SM22 -> edit -> SM031 pops up-> do stuff -> save -> SM035 pops up
14/04/25, 16:57 - Benedetta Zini: yes
14/04/25, 16:58 - Benedetta Zini: he not only deleted but also added
14/04/25, 16:59 - Benedetta Zini: for example LU 52882745 he added 2 boxes of ATLA84Z <Questo messaggio è stato modificato>
14/04/25, 17:01 - Benedetta Zini: also LU 60272399 he added 1 piece of ATLAXIG
14/04/25, 17:04 - Razvan Voicu: Is this normal flow, to edit from SM022?
14/04/25, 17:05 - Benedetta Zini: I think yes
14/04/25, 17:05 - Adrian Cindea: It is important sequence of actions
14/04/25, 17:05 - Adrian Cindea: As i remember <Questo messaggio è stato modificato>
14/04/25, 17:07 - Adrian Cindea: To edit is normal but to add and edit ... or reverse order can be a problem
14/04/25, 17:07 - Adrian Cindea: Both actions in sm028
14/04/25, 17:08 - Benedetta Zini: but it has Always worked
14/04/25, 17:11 - Benedetta Zini: user told me that today he used SM023 for adding and removing quantities from LUs
14/04/25, 17:18 - Razvan Voicu: Ok, understood
14/04/25, 17:18 - Benedetta Zini: another example: ATLA64Q
14/04/25, 17:18 - Benedetta Zini: IMG-20250414-WA0003.jpg (file allegato)
14/04/25, 17:18 - Razvan Voicu: it's ok, I think I found something
14/04/25, 17:19 - Benedetta Zini: oh great!
14/04/25, 17:32 - Razvan Voicu: can I take a stockobject to test some stuff
14/04/25, 17:32 - Razvan Voicu: to add/subtract some quantities
14/04/25, 17:34 - Razvan Voicu: basically I will add 5 subtract 5, so the quantity doesnt change
14/04/25, 17:34 - Benedetta Zini: okok
14/04/25, 17:36 - Razvan Voicu: can I take any stockobject from HRA or you give me a luid?
14/04/25, 17:36 - Benedetta Zini: LU 52464813 <Questo messaggio è stato modificato>
14/04/25, 17:39 - Razvan Voicu: can't edit it, I think it s because it's ship lu

14/04/25, 17:39 - Razvan Voicu: I will take 60470366
14/04/25, 17:40 - Benedetta Zini: Okay
14/04/25, 17:40 - Razvan Voicu: weird, in SM035 I don't have the SV option to change
14/04/25, 17:40 - Benedetta Zini: 😊😊
14/04/25, 17:40 - Razvan Voicu: ah, when you add it's one posting key
14/04/25, 17:41 - Razvan Voicu: when you subtract, you have another
14/04/25, 17:41 - Benedetta Zini: oh yes
14/04/25, 17:41 - Benedetta Zini: SV remove
PV add <Questo messaggio è stato modificato>
14/04/25, 17:47 - Razvan Voicu: Ok, so I changed something, we had a difference confirmation created, it was processed, but no OutSpm (Prj30Ack) was sent
14/04/25, 17:47 - Razvan Voicu: Is there a parameter about this?
14/04/25, 17:48 - Benedetta Zini: I think yes...
14/04/25, 17:48 - Razvan Voicu: y
14/04/25, 17:48 - Razvan Voicu: IMG-20250414-WA0004.jpg (file allegato)
14/04/25, 17:48 - Razvan Voicu: yes
14/04/25, 17:49 - Razvan Voicu: IMG-20250414-WA0005.jpg (file allegato)
14/04/25, 17:49 - Razvan Voicu: ▯
14/04/25, 17:49 - Benedetta Zini: 😊😊😊
14/04/25, 17:50 - Razvan Voicu: because of this flag no Ack30 was sent in the last 7 hours. Even though the difference confirmation was created, Wamas didn't convert it into Ack30 because the flag was set to false.
14/04/25, 17:50 - Razvan Voicu: IMG-20250414-WA0006.jpg (file allegato)
14/04/25, 17:51 - Razvan Voicu: I don't know if this was intended also
14/04/25, 17:51 - Razvan Voicu: Should I check the send stockadj?
14/04/25, 17:53 - Benedetta Zini: I'm sorry I scolded the user!!! 😡
14/04/25, 17:53 - Benedetta Zini: No... he was wrong...
14/04/25, 17:54 - Benedetta Zini: what do you mean?
14/04/25, 17:54 - Razvan Voicu: I meant to check the box
14/04/25, 17:54 - Razvan Voicu: but you already did it
14/04/25, 17:54 - Benedetta Zini: Currently I flag them again
14/04/25, 17:54 - Razvan Voicu: Ok, now I don't know how to re-send the ones that were not sent
14/04/25, 17:55 - Benedetta Zini: IMG-20250414-WA0007.jpg (file allegato)
14/04/25, 17:55 - Razvan Voicu: One option would be to set the already confirmed difference confirmations to unconfirmed
14/04/25, 17:55 - Razvan Voicu: so wamas reprocesses them
14/04/25, 17:55 - Razvan Voicu: do you have a way to sync the stock on host side with wamas?
14/04/25, 17:56 - Benedetta Zini: i think no
14/04/25, 17:56 - Benedetta Zini: we have a query in which we check the stock differences
14/04/25, 17:56 - Razvan Voicu: can you give it to me?
14/04/25, 17:57 - Benedetta Zini: these are the items
ATLA5P7;ATLA4BE;ATLA4BA;ATLAHCF;ATLA523;ATLA53G;ATLAXPJ;
14/04/25, 17:58 - Razvan Voicu: IMG-20250414-WA0008.jpg (file allegato)
ok, now 30's are being sent
14/04/25, 17:58 - Razvan Voicu: I manually edited something
14/04/25, 17:58 - Benedetta Zini: IMG-20250414-WA0009.jpg (file allegato)
14/04/25, 17:59 - Benedetta Zini: suuper 😊
14/04/25, 18:01 - Benedetta Zini: do you think it is possible to re-send record 30 automatically? Or we have to do manually one by one?
14/04/25, 18:03 - Razvan Voicu: I think we can do it automatically
14/04/25, 18:03 - Razvan Voicu: but my question is, do you know what happens if we send the same 30 two times?
14/04/25, 18:04 - Benedetta Zini: we will double the quantities
14/04/25, 18:05 - Benedetta Zini: example: if you send 2 record 30 regarding 5 boxing with posting key PV (add quantity), you will send + 10 boxes on host side instead of 5 boxes
14/04/25, 18:06 - Razvan Voicu: Ok, can you generate now a report of stock difference
14/04/25, 18:06 - Benedetta Zini: no, but you can do it
14/04/25, 18:06 - Razvan Voicu: :D

14/04/25, 18:06 - Razvan Voicu: Ok, did it
 14/04/25, 18:06 - Razvan Voicu: Please check if you received the mail
 14/04/25, 18:07 - Razvan Voicu: so we have a picture of the stock difference at this moment
 14/04/25, 18:07 - Razvan Voicu: I will try to re-send the diff confs and generate then a new stock difference and see where we at
 14/04/25, 18:07 - Benedetta Zini: no email
 14/04/25, 18:09 - Razvan Voicu: maybe it takes a bit
 14/04/25, 18:12 - Razvan Voicu: done
 14/04/25, 18:15 - Razvan Voicu: did you get it?
 14/04/25, 18:15 - Benedetta Zini: yess
 14/04/25, 18:15 - Benedetta Zini: now
 14/04/25, 18:16 - Razvan Voicu: Ok, can you forward it to me please?
 14/04/25, 18:16 - Benedetta Zini: I sent it to you
 14/04/25, 18:16 - Benedetta Zini: yes yes
 14/04/25, 18:16 - Benedetta Zini: these are the items
 14/04/25, 18:17 - Razvan Voicu: I see more items in the excel
 14/04/25, 18:17 - Benedetta Zini: yes but don't worry... we have someone who every week check the quantity
 14/04/25, 18:18 - Benedetta Zini: whereas the items I sent to you are those of today
 14/04/25, 18:19 - Razvan Voicu: IMG-20250414-WA0010.jpg (file allegato)
 Ok, so basically we need to check all the diffconfs in between 11:11:39 and 17:57:44
 14/04/25, 18:20 - Benedetta Zini: yes
 14/04/25, 18:29 - Benedetta Zini: did you succeed?
 14/04/25, 18:31 - Razvan Voicu: not yet, I have to be careful
 14/04/25, 18:31 - Benedetta Zini: don't worry
 14/04/25, 18:31 - Benedetta Zini: we will do it manually tomorrow
 14/04/25, 18:31 - Benedetta Zini: okay?
 14/04/25, 18:35 - Razvan Voicu: Okay, if you want to do it manually sure
 14/04/25, 18:36 - Razvan Voicu: If you want, you can check in SM11 all the difference confirmations between

LU-id

53074454;WH1;1 14.04.2025 11:11:33 DIFF0000262372

60470366;WH1;1 14.04.2025 17:57:39 DIFF0000262481

These are the diffconfs for the outspm (DI004) :

ID

5395238 30 Finished 14.04.2025 11:11:39 14.04.2025 11:11:39

<Questo messaggio è stato modificato>

14/04/25, 18:37 - Razvan Voicu: all that have stock object as a normal LU-ID and not like 'QTYxxxxx' (that's the qty managed stock, for what I see that we don't send stockAdj)

14/04/25, 18:38 - Benedetta Zini: I talked with user and he will do it tomorrow

14/04/25, 18:38 - Razvan Voicu: punishment 😊

14/04/25, 18:38 - Razvan Voicu: Ok then, thank you

14/04/25, 18:39 - Benedetta Zini: thank you for your help!

14/04/25, 18:40 - Benedetta Zini: have a nice evening!

15/04/25, 01:29 - Giuseppe Romano, Lavoro: Hi, i have the same error again. All these 29 orders must go to foiling but, although they're empty, this orders remain in *wait for capacity zone foil* non missions are created for the agv; it is currently slowing down the picking work having this problem on all pstations

15/04/25, 01:30 - Giuseppe Romano, Lavoro: IMG-20250415-WA0000.jpg (file allegato)

15/04/25, 01:30 - Giuseppe Romano, Lavoro: IMG-20250415-WA0001.jpg (file allegato)

15/04/25, 01:31 - Giuseppe Romano, Lavoro: IMG-20250415-WA0002.jpg (file allegato)

15/04/25, 03:25 - Support Technician 10: @Company Employee 7 I check the system and I don't see any problem we release the pallets one by one when we have the capacity for it

15/04/25, 09:48 - Support Technician 10: Hello please do not create TPOs for pallets in s46 to be stored in hbw2 by hand we are investigating an issue regarding the problem from last night

15/04/25, 09:49 - Support Technician 10: This are the Lus

15/04/25, 09:49 - Support Technician 10:
71896566;60882811;58016975;60482566;52057823;60563090

15/04/25, 09:52 - Benedetta Zini: Hello!

15/04/25, 09:52 - Benedetta Zini: Okay
let us know when we can start again

15/04/25, 09:53 - Benedetta Zini: did you find the root cause?

15/04/25, 11:35 - Benedetta Zini: Hai eliminato questo messaggio.

15/04/25, 11:37 - Benedetta Zini: I understand what was the issue last night...

15/04/25, 11:53 - Benedetta Zini: We have 3 different SetUp for AGVs:

1. SetUp "0" - AGVs can do any kind of TPOs (empty LUs, shipLUs, etc..)
2. SetUp1 - ARTs cannot bring empty pallets to pick stations (from destacker, whereas can bring empty LU from S46)
3. SetUp2 - ARTs cannot bring empty pallets to pick stations (from destacker, whereas can bring empty LU from S46) and cannot bring LUs at foiling area

Yesterday night we had SetUp2, so ARTs couldn't take LUs from S46 to foiling area... there were active TPOs from S46 towards foiling that block TPOs from pick stations to foiling because ARTs were inhibited...

15/04/25, 11:53 - Benedetta Zini: IMG-20250415-WA0011.jpg (file allegato)

15/04/25, 11:54 - Benedetta Zini: these 6 TPOs blocked the other TPOs from pick stations to foiling...

15/04/25, 11:55 - Support Technician 10: Yes

15/04/25, 11:55 - Support Technician 10: That is what i saw to so the problem is the wrond mod of the agvs?

15/04/25, 11:56 - Benedetta Zini: yes and no...

15/04/25, 11:57 - Benedetta Zini: We left SetUp2 during the night because we didn't know about LUs from S46 to foiling

15/04/25, 11:57 - Benedetta Zini: and on the other side the user didn't know there was SetUp2

15/04/25, 11:57 - Support Technician 10: What is the mode of the agvs now?

15/04/25, 11:57 - Benedetta Zini: SetUp2

15/04/25, 11:58 - Benedetta Zini: Because we need ARTs at loading area (exit HBW2 or rear loading)

15/04/25, 11:59 - Support Technician 10: So we can consider this a wrong configuration of agvs and no longer investigate?

15/04/25, 12:26 - Support Technician 10: @Company Employee 11

15/04/25, 12:32 - Benedetta Zini: It is not a wrong configuration of AGVs

15/04/25, 12:33 - Benedetta Zini: You can consider a manul handling without the correct configuration of AGVs

15/04/25, 12:43 - Support Technician 10: Ok

15/04/25, 12:52 - Benedetta Zini: Thank you very much for your help!

16/04/25, 09:21 - Support Technician 7: Hello

16/04/25, 09:21 - Support Technician 7: We restarted lighthouse, now should be working

16/04/25, 09:22 - Chiara Lodesani, Lavoro: hello, yes it works!

16/04/25, 09:22 - Chiara Lodesani, Lavoro: thank you

16/04/25, 09:28 - Support Technician 7: You're welcome. I will close the ticket

22/04/25, 09:15 - Benedetta Zini: Hello! As Always at 12:30 I will set agvDisable = true and I will let you know when you can start with deploy ;)

22/04/25, 12:32 - Benedetta Zini: I set agvDisable = true

22/04/25, 12:32 - Benedetta Zini: I will let you know when you can start

22/04/25, 12:33 - Support Technician 7: Ok, thanks

22/04/25, 12:56 - Benedetta Zini: you can start!

22/04/25, 12:57 - Benedetta Zini: Sorry for being late but we encountered some difficulties...

22/04/25, 12:58 - Support Technician 7: Don't worry, it's ok

22/04/25, 12:59 - Support Technician 7: I'll try to hurry so we keep the

schedule 😊

22/04/25, 13:09 - Benedetta Zini: don't worry
22/04/25, 13:25 - Support Technician 7: Done, looks good on our side
22/04/25, 13:26 - Support Technician 7: Please let us know if you find any problems with the system
22/04/25, 13:26 - Benedetta Zini: great!
22/04/25, 13:26 - Benedetta Zini: Yes sure
22/04/25, 13:38 - Benedetta Zini: So far everything id good
22/04/25, 13:38 - Benedetta Zini: in the afternoon we are going to test patches
22/04/25, 13:38 - Benedetta Zini: Thank you very much!
22/04/25, 13:39 - Support Technician 7: You're welcome
24/04/25, 19:46 - Benedetta Zini: @Support Technician 10 sorry for late reply but it is okay to do update tomorrow at 11 (italian time)
24/04/25, 19:47 - Benedetta Zini: It was a busy day with AGVs... i read your email and forgot to answer 😊
24/04/25, 20:27 - Support Technician 10: No problem we will be ready for tomorrow @Company Employee 11
25/04/25, 10:32 - Benedetta Zini: Good morning!
25/04/25, 10:33 - Benedetta Zini: All AGVs are in charging and I set agvDisable = true
25/04/25, 10:33 - Support Technician 10: Good morning
25/04/25, 10:33 - Benedetta Zini: you can start whenever you want, but please inform me before perform the update
25/04/25, 10:33 - Benedetta Zini: after the update do not release AGVs
25/04/25, 10:33 - Benedetta Zini: i will do it from FW028
25/04/25, 10:34 - Support Technician 10: I wont touch wams we will update only the hive and lighthouse
25/04/25, 10:34 - Benedetta Zini: super!
25/04/25, 10:36 - Support Technician 10: I am checking with my colleague that is doing the lighthouse if we can start early
25/04/25, 10:37 - Support Technician 10: @Company Employee 11 I will stop the hive right now
25/04/25, 10:38 - Benedetta Zini: okay
25/04/25, 10:40 - Support Technician 10: The changes on lighthouse are starting
25/04/25, 10:45 - Support Technician 10: Deploy is done please check
25/04/25, 10:50 - Support Technician 10: You need to clean the browser by deletin the saved data in the cookis to see the changes on lighthouse @Company Employee 11
25/04/25, 10:55 - Benedetta Zini: IMG-20250425-WA0004.jpg (file allegato)
25/04/25, 10:55 - Benedetta Zini: 😊😊
25/04/25, 11:07 - Benedetta Zini: did you update everything?
25/04/25, 11:10 - Support Technician 10: Yes
25/04/25, 11:13 - Benedetta Zini: great!
25/04/25, 11:13 - Benedetta Zini: thank you
25/04/25, 11:16 - Support Technician 10: Thank you let us know if you find any problems
25/04/25, 12:02 - Benedetta Zini: yes sure
25/04/25, 13:04 - Adrian Cindea: Please let us know if LH displays AGV in charger position
25/04/25, 15:07 - Benedetta Zini: Yes yes
25/04/25, 15:07 - Benedetta Zini: It works
25/04/25, 15:13 - Benedetta Zini: IMG-20250425-WA0005.jpg (file allegato)
28/04/25, 07:19 - Benedetta Zini: Hi All! Could you please check WAMAS?
28/04/25, 07:20 - Benedetta Zini: Something is not working
28/04/25, 07:31 - Benedetta Zini: It seems that there is no connection from WAMAS side
28/04/25, 07:32 - Benedetta Zini: now AGVs are okay
28/04/25, 07:34 - Benedetta Zini: WAAMS is down
28/04/25, 07:34 - Benedetta Zini: everything in automatic area is blocked
28/04/25, 07:37 - Benedetta Zini: 🙏🙏🙏🙏
28/04/25, 07:45 - Benedetta Zini: ????
28/04/25, 07:46 - Benedetta Zini: 01427520
28/04/25, 07:46 - Benedetta Zini: Ticket number
28/04/25, 08:05 - Support Technician 10: Hi can you check agv 2

28/04/25, 08:05 - Support Technician 10: It should have an empty pallet on it
28/04/25, 08:11 - Benedetta Zini: what about hive?
28/04/25, 08:19 - Support Technician 10: The hive is back online but we cant connect with the agvs
28/04/25, 08:20 - Benedetta Zini: AGVs are offline?
28/04/25, 08:21 - Benedetta Zini: IMG-20250428-WA0001.jpg (file allegato)
it happened a similar case on 22/04/2024
28/04/25, 08:21 - Support Technician 10: Yes
28/04/25, 08:23 - Benedetta Zini: please check the port
28/04/25, 08:28 - Benedetta Zini: IMG-20250428-WA0002.jpg (file allegato)
28/04/25, 08:29 - Benedetta Zini: IMG-20250428-WA0003.jpg (file allegato)
28/04/25, 08:35 - Adrian Cindea: please restart agv server
28/04/25, 08:35 - Support Technician 10: We checked on our side everything is looking good
28/04/25, 08:35 - Adrian Cindea: hive can not communicate on 50011 with agv
28/04/25, 08:38 - Benedetta Zini: IMG-20250428-WA0005.jpg (file allegato)
28/04/25, 08:39 - Benedetta Zini: Rocla is trying with 50050
28/04/25, 08:40 - Benedetta Zini: Let my IT dept to check on wamasapp
28/04/25, 08:41 - Benedetta Zini: he is opening port 50050
28/04/25, 08:41 - Adrian Cindea: 50011 is configured on our side
28/04/25, 08:41 - Benedetta Zini: but Rocla is using 50050
28/04/25, 08:42 - Adrian Cindea: no changes on our side
28/04/25, 08:44 - Benedetta Zini: we will do it
28/04/25, 08:46 - Benedetta Zini: could you please check if the 50050 is open?
28/04/25, 08:53 - Benedetta Zini: IMG-20250428-WA0008.jpg (file allegato)
28/04/25, 08:53 - Benedetta Zini: IMG-20250428-WA0009.jpg (file allegato)
28/04/25, 08:56 - Benedetta Zini: Rocla Technician is going to restart server
28/04/25, 08:58 - Razvan Voicu: Did he not do it until now?
28/04/25, 08:59 - Adrian Cindea: the issue appeared at 6:20 first time <Questo messaggio è stato modificato>
28/04/25, 09:00 - Benedetta Zini: I am on wamasapp
28/04/25, 09:00 - Adrian Cindea: k
28/04/25, 09:00 - Benedetta Zini: He is doing now
28/04/25, 09:01 - Benedetta Zini: IMG-20250428-WA0011.jpg (file allegato)
28/04/25, 09:02 - Adrian Cindea: 50011 is used by us
28/04/25, 09:02 - Benedetta Zini: IMG-20250428-WA0013.jpg (file allegato)
28/04/25, 09:03 - Adrian Cindea: let us know when roccla did the restart to be able to connect on server to start hive
28/04/25, 09:04 - Benedetta Zini: restart only the system or the whole server?
28/04/25, 09:04 - Adrian Cindea: the system
28/04/25, 09:04 - Adrian Cindea: the application of roccla
28/04/25, 09:04 - Adrian Cindea: the application ... not OS
28/04/25, 09:07 - Benedetta Zini: did it
28/04/25, 09:07 - Adrian Cindea: we will connect on server
28/04/25, 09:07 - Benedetta Zini: okay
28/04/25, 09:11 - Benedetta Zini: then could you please check if 50050 is working on your side?
28/04/25, 09:16 - Support Technician 10: Now its woking
28/04/25, 09:16 - Adrian Cindea: it works
28/04/25, 09:16 - Support Technician 10: Did you do anything?
28/04/25, 09:16 - Adrian Cindea: no action on your side
28/04/25, 09:17 - Adrian Cindea: please ask roccla?
28/04/25, 09:17 - Adrian Cindea: we started hive and no communication and it started to work nomrally
28/04/25, 09:18 - Adrian Cindea: after 10 minutes ...
28/04/25, 09:18 - Adrian Cindea: no action on our side ...
28/04/25, 09:22 - Adrian Cindea: 50032 communication works (debug port) and 50011 communication did not work
28/04/25, 09:23 - Benedetta Zini: Rocla did a restart of server and nothing else
28/04/25, 09:23 - Benedetta Zini: The correct port is 50032?
28/04/25, 09:23 - Benedetta Zini: Now we see missions but no agvs are moving
28/04/25, 09:24 - Benedetta Zini: Is hive working?
28/04/25, 09:24 - Adrian Cindea: ask roccla why they are not moving
28/04/25, 09:25 - Adrian Cindea: there are 2 ports: 50011 and 50032 (debug port)

28/04/25, 09:25 - Benedetta Zini: He is chekcing
 28/04/25, 09:25 - Adrian Cindea: hive is working
 28/04/25, 09:25 - Adrian Cindea: and hive communicates with roccla <Questo messaggio è stato modificato>
 28/04/25, 09:27 - Support Technician 10: @Company Employee 11 are the agv moving ?
 28/04/25, 09:27 - Adrian Cindea: there are orders allocatd to agvs but not moving on LH <Questo messaggio è stato modificato>
 28/04/25, 09:29 - Benedetta Zini: Now they are moving
 28/04/25, 09:29 - Adrian Cindea: :)
 28/04/25, 09:29 - Benedetta Zini: IMG-20250428-WA0016.jpg (file allegato)
 28/04/25, 09:30 - Benedetta Zini: Only the agv 22 is waiting an okay from wamas
 28/04/25, 09:30 - Benedetta Zini: LH is working?
 28/04/25, 09:31 - Support Technician 10: We deleted the order from the pool bescuse it had an erro
 28/04/25, 09:31 - Benedetta Zini: Oh okay
 28/04/25, 09:32 - Benedetta Zini: We remove it from roccla
 28/04/25, 09:32 - Support Technician 10: We can do a restart but I dont see any movment on the agvs
 28/04/25, 09:32 - Benedetta Zini: Try
 28/04/25, 09:32 - Benedetta Zini: Now they are moving
 28/04/25, 09:34 - Benedetta Zini: Wamas is working?
 28/04/25, 09:35 - Benedetta Zini: agv 24
 28/04/25, 09:35 - Benedetta Zini: IMG-20250428-WA0018.jpg (file allegato)
 28/04/25, 09:35 - Benedetta Zini: It is waiting a wamas confirmation
 28/04/25, 09:36 - Benedetta Zini: Delete it and we will try to create again
 28/04/25, 09:36 - Support Technician 10: Restart done
 28/04/25, 09:36 - Benedetta Zini: Okay, is it work?
 28/04/25, 09:37 - Support Technician 10: Not sure I dont see any movment
 28/04/25, 09:39 - Support Technician 10: We don t have anything for this agv
 28/04/25, 09:40 - Benedetta Zini: Now it seems work
 28/04/25, 09:40 - Benedetta Zini: Working
 28/04/25, 09:40 - Benedetta Zini: 😞
 28/04/25, 09:40 - Benedetta Zini: I don't know if I want cry or laugh
 28/04/25, 09:40 - Benedetta Zini: No it is not workingggg
 28/04/25, 09:41 - Benedetta Zini: IMG-20250428-WA0020.jpg (file allegato)
 28/04/25, 09:41 - Benedetta Zini: Agv 24
 28/04/25, 09:41 - Benedetta Zini: IMG-20250428-WA0022.jpg (file allegato)
 28/04/25, 09:41 - Adrian Cindea: ask roccla ...
 28/04/25, 09:42 - Benedetta Zini: IMG-20250428-WA0024.jpg (file allegato)
 28/04/25, 09:42 - Adrian Cindea: WAMAS sends orders to Rocla using Hive as communication layer
 28/04/25, 09:42 - Benedetta Zini: Waiting confirmation message
 28/04/25, 09:42 - Adrian Cindea: allocation of orders is on Rocla side
 28/04/25, 09:42 - Adrian Cindea: ask roccla to manage it ...
 28/04/25, 09:43 - Benedetta Zini: Please delete the orders
 28/04/25, 09:43 - Adrian Cindea: what orders?
 28/04/25, 09:44 - Benedetta Zini: Sorry it is for rocal Technician
 28/04/25, 09:44 - Adrian Cindea: :)
 28/04/25, 09:46 - Adrian Cindea: we checked history for ART-24 ... the last movement was on 25.04.2025
 28/04/25, 09:46 - Adrian Cindea: 53192966
 28/04/25, 09:46 - Adrian Cindea: at 16:49:30
 28/04/25, 09:46 - Adrian Cindea: seeing on WAMAS side
 28/04/25, 09:49 - Adrian Cindea: agvs are moving physically?
 28/04/25, 09:52 - Benedetta Zini: yes
 28/04/25, 09:58 - Benedetta Zini: Could you olease check turning table?
 28/04/25, 09:58 - Benedetta Zini: At foiling
 28/04/25, 09:58 - Benedetta Zini: 30011
 28/04/25, 09:58 - Benedetta Zini: could you please check turning table at foiling?
 28/04/25, 09:58 - Benedetta Zini: *3001
 28/04/25, 09:59 - Benedetta Zini: 53193223 has to go inside HBW2 but it is not moving

28/04/25, 09:59 - Support Technician 10: Will check
 28/04/25, 09:59 - Support Technician 10: @Company Employee 11 did you check if the lighthouse was working after deploy on Friday?
 28/04/25, 10:00 - Benedetta Zini: yes and it works
 28/04/25, 10:00 - Benedetta Zini: we checked it until Friday afternoon
 28/04/25, 10:01 - Benedetta Zini: we tested the system in the afternoon and it worked
 28/04/25, 10:02 - Benedetta Zini: IMG-20250428-WA0026.jpg (file allegato)
 28/04/25, 10:04 - Benedetta Zini: something is not working
 28/04/25, 10:04 - Benedetta Zini: stacker cranes are not moving
 28/04/25, 10:04 - Benedetta Zini: foiling is blocked
 28/04/25, 10:04 - Benedetta Zini: HBW2 is not working
 28/04/25, 10:05 - Benedetta Zini: All tpos are in "wai for route not found"
 <Questo messaggio è stato modificato>
 28/04/25, 10:06 - Adrian Cindea: we are checking the logs
 28/04/25, 10:06 - Benedetta Zini: great
 28/04/25, 10:08 - Benedetta Zini: I informed @Support Technician 10 that testerday morning one of the two server shut down due to power off
 28/04/25, 10:16 - Benedetta Zini: Any news?
 28/04/25, 10:20 - Adrian Cindea: srm9-12 are in autmatic on?
 28/04/25, 10:21 - Adrian Cindea: they are not available?
 28/04/25, 10:21 - Benedetta Zini: YES
 28/04/25, 10:21 - Benedetta Zini: they are available
 28/04/25, 10:22 - Adrian Cindea: they are not available ...
 28/04/25, 10:22 - Benedetta Zini: we try to turn off and turn on
 28/04/25, 10:22 - Adrian Cindea: k
 28/04/25, 10:24 - Adrian Cindea: now it starting to work again
 28/04/25, 10:25 - Adrian Cindea: now they are available for MFS
 28/04/25, 10:26 - Benedetta Zini: I SEE
 28/04/25, 10:27 - Benedetta Zini: ❤️❤️❤️❤️
 28/04/25, 10:27 - Adrian Cindea: all 4 SRMs were not available on MFS
 28/04/25, 10:27 - Benedetta Zini: But why?
 28/04/25, 10:27 - Adrian Cindea: we will check
 28/04/25, 10:29 - Benedetta Zini: But 1, 2, 3, 4, 8 were not working this mornign
 28/04/25, 10:29 - Benedetta Zini: morning
 28/04/25, 10:29 - Adrian Cindea: 8 is not available in this moment
 28/04/25, 10:30 - Benedetta Zini: yes because it is in maintenance mode now
 28/04/25, 10:31 - Benedetta Zini: this morning you mean? or Yesterday morning?
 28/04/25, 10:36 - Benedetta Zini: did you restart the applications?
 28/04/25, 10:38 - Adrian Cindea: they (SRM09-12) are not worked today ...
 28/04/25, 10:38 - Support Technician 10: No
 28/04/25, 10:38 - Adrian Cindea: we sync with machine ... and started to work
 28/04/25, 10:39 - Adrian Cindea: and maybe your restart (turn off/on) in the same time
 28/04/25, 10:39 - Benedetta Zini: no...
 28/04/25, 10:39 - Adrian Cindea: 10:24 sync was done
 28/04/25, 10:39 - Adrian Cindea: and they become available for MFS and route was found ...
 28/04/25, 10:40 - Adrian Cindea: route not found was due to SRMs were not available for MFS.
 28/04/25, 10:40 - Benedetta Zini: what was the root cause?
 28/04/25, 10:41 - Support Technician 10: The devices were not avaiiable for the mfs
 28/04/25, 10:42 - Benedetta Zini: okay clear
 28/04/25, 10:42 - Benedetta Zini: but what caused this problem?
 28/04/25, 10:42 - Adrian Cindea: it seems related with power outage
 28/04/25, 10:43 - Benedetta Zini: okay... but it was related on only one server
 28/04/25, 11:08 - Benedetta Zini: I canceled TPO for 53103859
 28/04/25, 11:08 - Benedetta Zini: because no AGVs were going to pick up it...
 28/04/25, 11:09 - Benedetta Zini: could you please create a TPO towards BP04 D01?
 28/04/25, 11:10 - Support Technician 10: @Company Employee 11 spoke with Mihai and due to the powert outage we stop de availability of the srms so we don't

lose any telegrams between the mfs and the device controller , it needs a manual synchronization between mfs and device controller when the problem is solved

28/04/25, 11:19 - Benedetta Zini: okay... so this issue was due to the power outage because after that it needs a manual sync... Am I understand correctly?

28/04/25, 11:20 - Adrian Cindea: it is important to check ...

28/04/25, 11:22 - Adrian Cindea: IMG-20250428-WA0030.jpg (file allegato)

28/04/25, 11:22 - Benedetta Zini: can we avoid it? I mean... make in manner that it is not need a manual sync...

28/04/25, 11:22 - Adrian Cindea: mf210

28/04/25, 11:22 - Adrian Cindea: it is necessary only in special cases ...

28/04/25, 11:23 - Support Technician 10: Yes the manual sync is to check the cranes/mfs to be sure that everything is ok , we maybe had an order did not work or maybe the crane still has the pallet on ,

28/04/25, 11:25 - Benedetta Zini: Could I do it with "reset manual Handling"?

28/04/25, 11:25 - Benedetta Zini: right click on one srm and click on "reset manual Handling"?

28/04/25, 11:26 - Benedetta Zini: please check also this LU... It has to go to BP04 D01

28/04/25, 11:27 - Benedetta Zini: because this morning we tried to do it but without success...

28/04/25, 11:30 - Benedetta Zini: @Support Technician 10

28/04/25, 11:32 - Support Technician 10: Ok I will look

28/04/25, 11:33 - Benedetta Zini: I did a mess.....

28/04/25, 11:34 - Support Technician 10: Why we need it at bp04 ?

28/04/25, 11:35 - Support Technician 10: Ok I see its a negativ picking

28/04/25, 11:36 - Benedetta Zini: IMG-20250428-WA0031.jpg (file allegato)

28/04/25, 11:38 - Benedetta Zini: Could you please update the pallet on B04 D*?

28/04/25, 11:39 - Benedetta Zini: we will put physically

28/04/25, 11:39 - Support Technician 10: I can did you move it by hand?

28/04/25, 11:39 - Support Technician 10: I tried to move it from mfs

28/04/25, 11:40 - Support Technician 10: I will book it on BP04 01

28/04/25, 11:40 - Support Technician 10: @Company Employee 11 done

28/04/25, 11:41 - Benedetta Zini: yes please

28/04/25, 11:42 - Benedetta Zini: BP04 D02

28/04/25, 11:42 - Benedetta Zini: because BP04 D01 is occupied

28/04/25, 11:44 - Support Technician 10: Ok

28/04/25, 11:44 - Support Technician 10: I will move it

28/04/25, 12:16 - Benedetta Zini: @Support Technician 12 are you working on server?

28/04/25, 12:18 - Benedetta Zini: better, let me know when my IT can check on wamasapp

28/04/25, 14:08 - Support Technician 10: No only with sync with soc

28/04/25, 14:48 - Benedetta Zini: yes, Adrian told me on the phone :)

28/04/25, 14:48 - Benedetta Zini: thank you!

28/04/25, 16:44 - Adrian Cindea: now or tomorrow morning

28/04/25, 16:45 - Benedetta Zini: Okay let me know

28/04/25, 16:45 - Benedetta Zini: Because it dept wants to check something

28/04/25, 17:21 - Adrian Cindea: please do it

28/04/25, 17:22 - Benedetta Zini: Okay thank you

29/04/25, 12:17 - Adrian Cindea: hello

29/04/25, 12:17 - Adrian Cindea: what is the issue onsite?

29/04/25, 12:18 - Benedetta Zini: Hello

29/04/25, 12:18 - Benedetta Zini: The system is slow

29/04/25, 12:18 - Adrian Cindea: what part?

29/04/25, 12:18 - Benedetta Zini: It takes minutes to create tpos

29/04/25, 12:19 - Adrian Cindea: what tpos?

29/04/25, 12:19 - Benedetta Zini: No messages of pallet pronti to Host

29/04/25, 12:21 - Benedetta Zini: Pick plan LU is very slow

29/04/25, 12:21 - Adrian Cindea: there are 8 DDTs ...

29/04/25, 12:21 - Benedetta Zini: There are 212 orders that still in approvation

29/04/25, 12:23 - Benedetta Zini: All of them

29/04/25, 12:23 - Benedetta Zini: Users can't close ddt on IG511

29/04/25, 12:24 - Adrian Cindea: i will try to do it

29/04/25, 12:24 - Benedetta Zini: Okay thank you

29/04/25, 12:24 - Adrian Cindea: 4164
29/04/25, 12:24 - Benedetta Zini: Did you do?
29/04/25, 12:26 - Benedetta Zini: User ebaroni1 closed it <Questo messaggio è stato modificato>
29/04/25, 12:27 - Stefano Dall'Asta, Personale: hi, for example OBD0001045185, approved for picking at 9:49, still in waiting
29/04/25, 12:50 - Benedetta Zini: @Support Technician 12 any news?
29/04/25, 12:58 - Adrian Cindea: we are still analyze the slowness on wamas side
29/04/25, 13:00 - Benedetta Zini: Okay
29/04/25, 13:14 - Benedetta Zini: Please let us know as soon as you find something
29/04/25, 13:51 - Adrian Cindea: i would like to confirm all LUs from in pronti viazza 1
29/04/25, 13:51 - Adrian Cindea: it seems lus affect storage search
29/04/25, 13:52 - Benedetta Zini: 😞😞
29/04/25, 14:11 - Benedetta Zini: We still have problems...
29/04/25, 14:11 - Adrian Cindea: we are still searching the issue
29/04/25, 14:11 - Stefano Dall'Asta, Personale: hi, this order is very urgent; ADBATLATL000017636 OBD0001040352. Can you help us?
29/04/25, 14:16 - Adrian Cindea: gather statistics solved ig511
29/04/25, 14:16 - Adrian Cindea: in some seconds i closed 2 dtts
29/04/25, 14:16 - Adrian Cindea: i will check ... release pplu
29/04/25, 14:16 - Benedetta Zini: Okay 🙏
29/04/25, 14:16 - Adrian Cindea: solved pbd
29/04/25, 14:16 - Adrian Cindea: solved obd
29/04/25, 14:17 - Adrian Cindea: it is released
29/04/25, 14:17 - Adrian Cindea: oracle issue ... changes execution plan and gather statistics force it to recompute exectuion plan
29/04/25, 14:18 - Benedetta Zini: Oh okay.... the same issue we had months ago
29/04/25, 14:19 - Benedetta Zini: 😞😞
29/04/25, 14:19 - Benedetta Zini: Or not?
29/04/25, 14:20 - Adrian Cindea: yes
29/04/25, 16:12 - Benedetta Zini: IMG-20250429-WA0008.jpg (file allegato)
 POTENTIAL BLOCK 
29/04/25, 16:13 - Benedetta Zini: Could you please take a look asap^
29/04/25, 16:13 - Benedetta Zini: ?
29/04/25, 16:14 - Benedetta Zini: F01 completely blocked
29/04/25, 16:14 - Support Technician 10: Hello I will check
29/04/25, 16:14 - Benedetta Zini: thank you
29/04/25, 16:19 - Support Technician 10: @Company Employee 11 everything should be running now
29/04/25, 16:19 - Benedetta Zini: it seems yes
29/04/25, 16:19 - Benedetta Zini: what happened?
29/04/25, 16:21 - Support Technician 10: A pending event for a tpo got stuck
29/04/25, 16:21 - Support Technician 10: Now I'm looking into it
29/04/25, 16:24 - Benedetta Zini: okay
29/04/25, 16:56 - Adrian Cindea: lp61 found a fortune ... :)
29/04/25, 16:57 - Adrian Cindea: IMG-20250429-WA0012.jpg (file allegato)
29/04/25, 16:57 - Adrian Cindea: please fix it to not crash again...
29/04/25, 16:57 - Support Technician 10: @Company Employee 11
29/04/25, 16:58 - Benedetta Zini: I don't believe it....
29/04/25, 16:58 - Benedetta Zini: VID-20250429-WA0013.mp4 (file allegato)
29/04/25, 16:58 - Benedetta Zini: at once
07/05/25, 18:18 - Hai aggiunto Tudor, Progetto Lavoro.
07/05/25, 18:37 - Chiara Lodesani, Lavoro: Hello, we have a problem with the system.. while we are using wamas, some pages are stuck..
07/05/25, 18:37 - Chiara Lodesani, Lavoro: for example:
07/05/25, 18:37 - Chiara Lodesani, Lavoro: IMG-20250507-WA0018.jpg (file allegato)
07/05/25, 18:37 - Tudor, Progetto Lavoro: IMG-20250507-WA0019.jpg (file allegato)
07/05/25, 18:39 - Chiara Lodesani, Lavoro: another example: I tried to disconnect the fd33 and wamas frozes
07/05/25, 18:39 - Chiara Lodesani, Lavoro: IMG-20250507-WA0020.jpg (file

allegato)

07/05/25, 18:44 - Support Technician 10: This seems to be a issue with the database

07/05/25, 18:46 - Chiara Lodesani, Lavoro: also the forkliftdrivers have a problems with TPOs

07/05/25, 18:47 - Chiara Lodesani, Lavoro: the automatic area works for now

07/05/25, 18:50 - Chiara Lodesani, Lavoro: Can you disconnect the user FD33, please?

07/05/25, 18:51 - Chiara Lodesani, Lavoro: this user is on an urgent order

07/05/25, 18:54 - Chiara Lodesani, Lavoro: are you checking?

07/05/25, 18:55 - Support Technician 10: Yes

07/05/25, 18:56 - Support Technician 10: I will try

07/05/25, 19:02 - Support Technician 10: Its not working I already ran the gather statistics no improvement...

07/05/25, 19:03 - Chiara Lodesani, Lavoro: can't you disconnect the user?

07/05/25, 19:04 - Support Technician 10: No even on the server i get timeout

07/05/25, 19:06 - Chiara Lodesani, Lavoro: could be the order linked to this user the problem?

07/05/25, 19:06 - Chiara Lodesani, Lavoro: the ordernumber is ADBATLTL000027380

07/05/25, 19:11 - Support Technician 10: I dont see anything for this order in the logs or the queries on database

07/05/25, 19:12 - Chiara Lodesani, Lavoro: IMG-20250507-WA0021.jpg (file allegato)

07/05/25, 19:12 - Chiara Lodesani, Lavoro: IMG-20250507-WA0022.jpg (file allegato)

07/05/25, 19:14 - Support Technician 10: The server dose not look bad

07/05/25, 19:20 - Chiara Lodesani, Lavoro: what can we check?

07/05/25, 19:22 - Support Technician 10: I can try to kill the sessions that are waiting for more then 10 sec

07/05/25, 19:23 - Chiara Lodesani, Lavoro: ok

07/05/25, 19:28 - Support Technician 10: I see the most of the long queries are for updating some tpos

07/05/25, 19:30 - Chiara Lodesani, Lavoro: this is an example of LU blocked: 53023950

07/05/25, 19:31 - Chiara Lodesani, Lavoro: another one: 53071201

07/05/25, 19:33 - Chiara Lodesani, Lavoro: neither the forklift drive or the pc user can't move these LUs

07/05/25, 19:33 - Chiara Lodesani, Lavoro: Questo messaggio è stato eliminato.

07/05/25, 19:35 - Chiara Lodesani, Lavoro: IMG-20250507-WA0024.jpg (file allegato)

Page blocked

07/05/25, 19:36 - Support Technician 10: If the database is not responsive all dialogs are not working

07/05/25, 19:36 - Chiara Lodesani, Lavoro: so what can we do?

07/05/25, 19:38 - Support Technician 10: I am trying to find what the issue is but from what i can see the queries that are waiting are all update so not sure why we recive timeout

07/05/25, 19:45 - Chiara Lodesani, Lavoro: please, try to move these LUs (53023950;53071201) in S95 R01 <Questo messaggio è stato modificato>

07/05/25, 19:49 - Support Technician 10: Can you restart the mobile terminal for user fd33?

07/05/25, 19:49 - Support Technician 10: 5*201 is already on the forklift

07/05/25, 19:51 - Support Technician 10: I get the freez even with explore....

07/05/25, 19:51 - Chiara Lodesani, Lavoro: I know it, the problem is that we can't move it from the forklift. plesse try to put it in S95 R01

07/05/25, 19:52 - Chiara Lodesani, Lavoro: It sounds not good..

07/05/25, 19:55 - Chiara Lodesani, Lavoro: the user fd33 is not actually connect on the mobile terminal, he's only freez

07/05/25, 19:56 - Support Technician 10: Can you restart that terminal?

07/05/25, 19:56 - Support Technician 10: We can try a wamas restart

07/05/25, 19:57 - Support Technician 10: But this dose not seems like a wamas issue...

07/05/25, 19:57 - Benedetta Zini: do you want to restart the application or db?

07/05/25, 19:58 - Benedetta Zini: I'm not agree doing the restart...

07/05/25, 19:58 - Benedetta Zini: automatic area is working
07/05/25, 19:59 - Support Technician 10: I just tried and disconnected a user from the remote and its woking
07/05/25, 20:00 - Support Technician 10: For one of our users
07/05/25, 20:01 - Chiara Lodesani, Lavoro: and with fd33 it doesn't work?
07/05/25, 20:01 - Support Technician 10: No
07/05/25, 20:01 - Support Technician 10: Is there another user that i can try to disconnect?
07/05/25, 20:02 - Chiara Lodesani, Lavoro: please try to do these
07/05/25, 20:02 - Chiara Lodesani, Lavoro: try with clodesani1
07/05/25, 20:02 - Support Technician 10: Did it
07/05/25, 20:03 - Support Technician 10: Do we have a user on mobile?
07/05/25, 20:03 - Support Technician 10: Will try user msaidy1 on mul 3
07/05/25, 20:03 - Chiara Lodesani, Lavoro: try with one fd*
07/05/25, 20:04 - Support Technician 10: Only fd33 is connected to mobile..
07/05/25, 20:04 - Chiara Lodesani, Lavoro: I'm checking
07/05/25, 20:05 - Support Technician 10: For this one is working
07/05/25, 20:05 - Support Technician 10: So the issue seems to be fd33
07/05/25, 20:05 - Support Technician 10: Did you try ro restart the mobile terminal
07/05/25, 20:05 - Support Technician 10: Ok it worked
07/05/25, 20:06 - Support Technician 10: @Company Employee 9 everything seems to be back to normal
07/05/25, 20:06 - Support Technician 10: Now the creation of tpo from sm23 worked
07/05/25, 20:06 - Support Technician 10: Did not recive timeout
07/05/25, 20:06 - Support Technician 10: Can you try ro move the pallets?
07/05/25, 20:07 - Chiara Lodesani, Lavoro: did you disconnect fd33?
07/05/25, 20:07 - Support Technician 10: Yes
07/05/25, 20:08 - Chiara Lodesani, Lavoro: good, we'll try to move some LUs
07/05/25, 20:08 - Support Technician 10: 5*950 has tpo created by me
07/05/25, 20:09 - Support Technician 10: We no longer have queys that are stuck on db so its back to normal...
07/05/25, 20:11 - Support Technician 10: Why this happend i can t tell you we will look into it tomorrow
07/05/25, 20:12 - Chiara Lodesani, Lavoro: ok
07/05/25, 20:12 - Chiara Lodesani, Lavoro: we're checking that all is working
07/05/25, 20:22 - Support Technician 10: @Company Employee 9 status?
07/05/25, 20:22 - Chiara Lodesani, Lavoro: All seems ok
07/05/25, 20:23 - Support Technician 10: Ok we will check if we can find the root cause tomorrow
07/05/25, 20:23 - Chiara Lodesani, Lavoro: Ok!
07/05/25, 20:23 - Chiara Lodesani, Lavoro: Thank you
07/05/25, 20:30 - Razvan Voicu: I think one time when this happened, atlas_cust did some reports (or some stuff) and slowed the db
07/05/25, 20:30 - Razvan Voicu: If you know if something was done from atlas_cust
07/05/25, 22:01 - Benedetta Zini: I did a query at around about 17:30 in sql developer with user atlas_prod_cust
07/05/25, 22:01 - Benedetta Zini: I checked the table reportarchive and others
07/05/25, 22:01 - Benedetta Zini: But nothing else
07/05/25, 22:02 - Razvan Voicu: A query shouldn't be the problem
07/05/25, 22:02 - Benedetta Zini: I think so
07/05/25, 22:02 - Benedetta Zini: Other reports run at night
07/05/25, 22:02 - Benedetta Zini: At around about 3 am
07/05/25, 22:03 - Razvan Voicu: We'll check more tomorrow then, but everything sohuld be safe now
07/05/25, 22:03 - Benedetta Zini: Okay 🤞 finger cross
08/05/25, 08:53 - Chiara Lodesani, Lavoro: Hello, when you'll have some information about the root cause of yesterday, let us know
09/05/25, 10:15 - Chiara Lodesani, Lavoro: Hello, any news?
09/05/25, 10:16 - Support Technician 10: Hello sorry for late response we can't say for sure what caused the db to be slow or what was the fix for the issue..
12/05/25, 12:32 - Support Technician 7: Hello, are you going to let us know when

we can start with the deploy?

12/05/25, 12:32 - Benedetta Zini: Hello! We have already set agvDisable = true
12/05/25, 12:33 - Benedetta Zini: I will let you know when you can start ;)
12/05/25, 12:33 - Support Technician 7: Thanks!
12/05/25, 12:37 - Benedetta Zini: you can start 🚀
12/05/25, 12:56 - Support Technician 7: Deploy is done. Everything looks good on our side
12/05/25, 12:56 - Benedetta Zini: Okay great!
12/05/25, 13:01 - Benedetta Zini: One issue
12/05/25, 13:01 - Benedetta Zini: 53029100 is blocked near labeler of foiling area
12/05/25, 13:01 - Benedetta Zini: with SOC-ID broken
12/05/25, 13:02 - Benedetta Zini: IMG-20250512-WA0007.jpg (file allegato)
12/05/25, 13:02 - Benedetta Zini: and TPO in status error
12/05/25, 13:02 - Support Technician 7: Give me a sec to check
12/05/25, 13:02 - Benedetta Zini: IMG-20250512-WA0008.jpg (file allegato)
12/05/25, 13:02 - Benedetta Zini: yes sure
12/05/25, 13:09 - Benedetta Zini: did you find the issue?
12/05/25, 13:14 - Benedetta Zini: we have to release the conveyor...
12/05/25, 13:16 - Benedetta Zini: I think the problem is related the status broken in MF266
12/05/25, 13:22 - Benedetta Zini: it moved
12/05/25, 13:23 - Support Technician 7: It is ok now?
12/05/25, 13:23 - Benedetta Zini: yes
12/05/25, 13:30 - Adrian Cindea: IMG-20250512-WA0012.jpg (file allegato)
12/05/25, 13:31 - Adrian Cindea: is loading list sorted properly?
12/05/25, 13:31 - Adrian Cindea: cliente, nr ordine and locazione
12/05/25, 14:41 - Benedetta Zini: IMG-20250512-WA0014.jpg (file allegato)
12/05/25, 14:42 - Benedetta Zini: Field "Vett" is completely cut...
12/05/25, 14:42 - Adrian Cindea: i saw
12/05/25, 14:46 - Benedetta Zini: Regarding this topic for me it is okay but I'm waiting a feedback from my colleagues
12/05/25, 14:50 - Adrian Cindea: it is exactly width 900 and start 15, 20
12/05/25, 14:50 - Adrian Cindea: solution maybe it is to change backfeed sequence ...
12/05/25, 14:51 - Adrian Cindea: in that case before label is printed, it is moved back and after that printing is starting
12/05/25, 14:52 - Benedetta Zini: okay, like in the test...
12/05/25, 14:52 - Adrian Cindea: it can be reprinted directly ... from wamas on the same printer
12/05/25, 14:53 - Benedetta Zini: do you think change some parameters?
12/05/25, 15:10 - Adrian Cindea: <https://www.youtube.com/watch?v=lWzaibb-ueM>
12/05/25, 15:10 - Adrian Cindea: it is included in template now ...
12/05/25, 15:11 - Adrian Cindea: it is related to movement of paper in printer ...
12/05/25, 15:11 - Adrian Cindea: it is normal now ...
12/05/25, 15:14 - Benedetta Zini: we are checking
12/05/25, 15:14 - Adrian Cindea: it is overwritten by label
12/05/25, 15:14 - Benedetta Zini: IMG-20250512-WA0019.jpg (file allegato)
12/05/25, 15:14 - Adrian Cindea: it looks better
12/05/25, 15:14 - Benedetta Zini: Now it is like in the photo
12/05/25, 15:15 - Benedetta Zini: but packing list is not okay
12/05/25, 15:17 - Benedetta Zini: IMG-20250512-WA0020.jpg (file allegato)
12/05/25, 15:18 - Benedetta Zini: Q27 is okay 🤔
12/05/25, 15:18 - Benedetta Zini: I have received a feedback and it is okay
12/05/25, 15:18 - Adrian Cindea: i can reprint with backfeed sequence set to align label before ...
12/05/25, 15:19 - Adrian Cindea: to see if both label are ok ...
12/05/25, 15:20 - Benedetta Zini: it is one printer that prints both labels
12/05/25, 15:20 - Benedetta Zini: it is the one at foiling
12/05/25, 15:21 - Adrian Cindea: it is possible to make a test ... to reprint both for 53029604
12/05/25, 15:21 - Adrian Cindea: ?
12/05/25, 15:21 - Benedetta Zini: yes sure

12/05/25, 15:21 - Adrian Cindea: i need about 2-3 minutes to change layout in data an to reprint them
12/05/25, 15:21 - Adrian Cindea: i started to change layout
12/05/25, 15:21 - Benedetta Zini: give me 5 min I'm going to the printer
12/05/25, 15:22 - Benedetta Zini: don't worry
28/05/25, 14:46 - Benedetta Zini: IMG-20250528-WA0005.jpg (file allegato)
28/05/25, 14:46 - Benedetta Zini: IMG-20250528-WA0006.jpg (file allegato)
28/05/25, 14:46 - Benedetta Zini: IMG-20250528-WA0007.jpg (file allegato)
28/05/25, 14:46 - Benedetta Zini: Hello! Could you please check why it is happening?
28/05/25, 14:47 - Benedetta Zini: If you have time you can check now
28/05/25, 14:47 - Benedetta Zini: If not we will send LUs
28/05/25, 14:47 - Benedetta Zini: 😞
28/05/25, 14:55 - Razvan Voicu: AGV with stacks arrived at already occupied stacker?
28/05/25, 14:56 - Chiara Lodesani, Lavoro: Yes
28/05/25, 14:56 - Razvan Voicu: IMG-20250528-WA0008.jpg (file allegato)
28/05/25, 14:56 - Razvan Voicu: checking
28/05/25, 14:56 - Benedetta Zini: thanks
28/05/25, 14:57 - Benedetta Zini: check the location
28/05/25, 14:57 - Benedetta Zini: there is a temp
28/05/25, 14:57 - Benedetta Zini: S46 33 dad 02
28/05/25, 14:58 - Benedetta Zini: and there is another stack on ATX 08
28/05/25, 14:58 - Razvan Voicu: aah, right, blackhole is ok, when stack is stored we create temp
28/05/25, 14:58 - Razvan Voicu: 52915434
This is on atx? <Questo messaggio è stato modificato>
28/05/25, 15:01 - Benedetta Zini: exaclty
28/05/25, 15:01 - Benedetta Zini: yes
28/05/25, 15:02 - Benedetta Zini: issue A138
28/05/25, 15:07 - Razvan Voicu: It's something different, the stacker was already there from 2 PM today <Questo messaggio è stato modificato>
28/05/25, 15:22 - Benedetta Zini: Yes and wamas send another one
28/05/25, 15:22 - Benedetta Zini: more or less at the same time
28/05/25, 15:22 - Benedetta Zini: LU 52915434 at 14.30 arrived on CU120
28/05/25, 15:30 - Benedetta Zini: did you find something?
28/05/25, 15:32 - Razvan Voicu: Yeah, you are right
28/05/25, 15:33 - Razvan Voicu: 2025-05-28 14:21:18.054 [ptyStackDeamon-mfsPal-205][f57dfd] - AGVDestacker (isReplenishAllowed)
agvDestacker=S46A09X003Y01Z1
At this time Wamas saw this destacker is empty and allowed replenish
28/05/25, 15:33 - Razvan Voicu: "2025-05-28 14:21:18.026", "STARTED", "52918899", "RPF01C1201", "S46A09X003Y01Z1"
at this time 52918899 order was started to destacker
28/05/25, 15:36 - Benedetta Zini: okay... so WAMAS created another TPO but there was already a stack towards S46A09X003Y01Z1
28/05/25, 15:36 - Benedetta Zini: the stack was 52918899
28/05/25, 15:46 - Benedetta Zini: can we release the ATX 08? 😊
28/05/25, 15:47 - Razvan Voicu: Yes
30/05/25, 15:58 - Benedetta Zini: Hello
30/05/25, 15:58 - Benedetta Zini: I sent an email regarding issue A174
30/05/25, 15:58 - Benedetta Zini: could you please take a look asap?
30/05/25, 16:32 - Support Technician 10: @Company Employee 11 can you guys do the tpo for LUS *9603 and *0297
30/05/25, 16:33 - Support Technician 10: This Lus were connected to the obd but got discharged
30/05/25, 16:34 - Benedetta Zini: I'm checking
30/05/25, 16:35 - Benedetta Zini: can you please send me all number of LUs? 😊
30/05/25, 16:35 - Support Technician 10: 53429063 & 59030297
30/05/25, 16:38 - Benedetta Zini: IMG-20250530-WA0007.jpg (file allegato)
I can see only one LU
30/05/25, 16:38 - Benedetta Zini: and it is already out of the order
30/05/25, 16:38 - Benedetta Zini: so I don't think they are a problem... <Questo messaggio è stato modificato>

30/05/25, 16:44 - Support Technician 10: Well they are still connected to the obd through ogludata I just wanted to see if the quantity gets update if we move them

30/05/25, 16:44 - Benedetta Zini: I can try by moving 59030297

30/05/25, 16:45 - Benedetta Zini: But 53429063 no because there isn't in the system

30/05/25, 16:45 - Benedetta Zini: take a look at my photo <Questo messaggio è stato modificato>

30/05/25, 16:45 - Benedetta Zini: Hai eliminato questo messaggio.

30/05/25, 16:46 - Benedetta Zini: I moved it in S01 PR2

30/05/25, 16:47 - Benedetta Zini: nothing changed

30/05/25, 16:52 - Support Technician 10: Order is updated we will try to reproduce

30/05/25, 16:53 - Benedetta Zini: did you do it?

30/05/25, 16:53 - Support Technician 10: Yes

30/05/25, 16:54 - Benedetta Zini: thank you very much 🙏

30/05/25, 16:54 - Support Technician 10: You need to confirm the load

30/05/25, 16:59 - Benedetta Zini: We can't confirm the load

30/05/25, 16:59 - Benedetta Zini: IMG-20250530-WA0008.jpg (file allegato)

30/05/25, 17:01 - Support Technician 10: I meant to close the truck sorry

30/05/25, 17:02 - Benedetta Zini: oh okay

30/05/25, 17:03 - Benedetta Zini: perfect! it worked

30/05/25, 17:03 - Benedetta Zini: thanks for your help!

03/06/25, 10:10 - Benedetta Zini: Hello!

03/06/25, 10:11 - Benedetta Zini: I have already sent an email (open a ticket)

--> H67 - "Getting error "TPO has been cancelled temporarily" while picking up one LU only and exit from auto-allocation mode transports (similar to H45)"

03/06/25, 10:12 - Benedetta Zini: have you have time to check it now or not? Because otherwise I will move the LUs in the right place (now they are on MUL-052)

03/06/25, 11:08 - Benedetta Zini: Is anyone available?

03/06/25, 11:09 - Benedetta Zini: ticket 01433501

03/06/25, 11:20 - Adrian Cindea: hello

03/06/25, 11:20 - Adrian Cindea: someone will take of it soon

03/06/25, 11:27 - Benedetta Zini: okay perfect thank you!

03/06/25, 11:27 - Benedetta Zini: I won't touch the 2 LUs

03/06/25, 12:20 - Adrian Cindea: IMG-20250603-WA0003.jpg (file allegato)

03/06/25, 12:20 - Adrian Cindea: 65859909;65859912;72201928;72203961

03/06/25, 12:20 - Adrian Cindea: please check LUs on 6589

03/06/25, 12:21 - Adrian Cindea: they are booked on the same device

03/06/25, 12:22 - Adrian Cindea: i dont know where thwy are to book them and to create again tpos for them

03/06/25, 15:07 - Benedetta Zini: I did not follow you....

03/06/25, 15:44 - Adrian Cindea: my idea to is manage them manually these 4 pallets ... confirm TPO ... and move them to destination ... we will see if the issue persists (i see an exception in logs but root case was not found yet)

03/06/25, 15:45 - Benedetta Zini: oh okat

03/06/25, 15:45 - Benedetta Zini: okay

03/06/25, 15:45 - Benedetta Zini: I can confirm TPO

03/06/25, 15:47 - Benedetta Zini: oh wait... we have to print the label... for the two tpos in active

03/06/25, 15:47 - Benedetta Zini: whereas i have already confirmed manually the two tpos in status new

03/06/25, 15:48 - Adrian Cindea: og002 -> shipment LU print shipping label

03/06/25, 15:48 - Benedetta Zini: 👍

03/06/25, 15:55 - Benedetta Zini: I did it

04/06/25, 10:17 - Benedetta Zini: hello, could you please check ticket #01433693?

04/06/25, 10:20 - Support Technician 10: Hello @Company Employee 11 I am checking the issue

04/06/25, 10:21 - Benedetta Zini: thank you!

04/06/25, 10:25 - Support Technician 10: @Company Employee 11 seems that the obd was splited

04/06/25, 10:33 - Benedetta Zini: the obd or the order?

04/06/25, 10:39 - Support Technician 10: The obd
04/06/25, 10:40 - Support Technician 10: The user manually split the shipment
lus but i see that we no longer have the lus and the quantity is discharged
04/06/25, 10:42 - Support Technician 10: Not sure what the user actually did
04/06/25, 10:42 - Benedetta Zini: me too...
04/06/25, 10:42 - Benedetta Zini: I'm thinking... but I have no idea
04/06/25, 10:42 - Support Technician 10: I see some lus are loaded , some are
splited
04/06/25, 10:43 - Benedetta Zini: 70 boxes were discharge
04/06/25, 10:43 - Benedetta Zini: and 70 boxes loaded
04/06/25, 10:43 - Support Technician 10: I see that he moved 2 lus to obd
1074036
04/06/25, 10:45 - Support Technician 10: Do we know if the lus that are loaded
are the ones on the load?
04/06/25, 10:45 - Benedetta Zini: yes yes we are sure
04/06/25, 10:46 - Benedetta Zini: IMG-20250604-WA0000.jpg (file allegato)
04/06/25, 10:46 - Support Technician 10: The issue seems to be the fact that the
obd got finished by the user actions
04/06/25, 10:47 - Benedetta Zini: mmh... i don't know why...
04/06/25, 10:48 - Support Technician 10: I changed some states on the obd to
make it available again
04/06/25, 10:49 - Benedetta Zini: which OBD?
04/06/25, 10:49 - Support Technician 10: The one the ticket
04/06/25, 10:49 - Benedetta Zini: OBD0001062203 is still finalized
04/06/25, 10:49 - Support Technician 10: Yea but the state is not to be deleted
so that is good for now
04/06/25, 10:50 - Support Technician 10: I am checking now every condition to
activate the close truck action
04/06/25, 10:51 - Benedetta Zini: oh okay
04/06/25, 10:51 - Benedetta Zini: sorry
04/06/25, 10:53 - Support Technician 10: The load is closed
04/06/25, 10:54 - Support Technician 10: @Company Employee 11 can you check?
04/06/25, 11:03 - Benedetta Zini: yes it is closed
04/06/25, 11:16 - Benedetta Zini: nono wait
04/06/25, 11:16 - Benedetta Zini: you did not close the truck
04/06/25, 11:17 - Benedetta Zini: you deleted it...
04/06/25, 11:17 - Benedetta Zini: :(
04/06/25, 11:18 - Benedetta Zini: S20250604065 is empty... without LUs
04/06/25, 11:18 - Benedetta Zini: the two LUs that we loaded this morning
04/06/25, 11:28 - Support Technician 10: I pressed the close truck button
04/06/25, 11:29 - Benedetta Zini: 😞😞😞
04/06/25, 11:31 - Benedetta Zini: now LUs no longer exist :(<Questo messaggio è
stato modificato>
04/06/25, 11:33 - Support Technician 10: You want to open the truck back and add
them?
04/06/25, 11:34 - Benedetta Zini: yes please...
04/06/25, 11:34 - Benedetta Zini: and put them in OG070 because they were
loaded...
04/06/25, 11:34 - Benedetta Zini: 53164999;53426009
04/06/25, 12:46 - Adrian Cindea: OBD0001062203 was discharged
04/06/25, 13:53 - Support Technician 10: @Company Employee 11 we cant update the
load we connected the lu's to the obd in og070
04/06/25, 14:15 - Benedetta Zini: only 70 boxes out of 140
04/06/25, 14:16 - Benedetta Zini: okay thank you
04/06/25, 14:16 - Benedetta Zini: it is okay
04/06/25, 14:24 - Support Technician 10: We will test to try to reproduce the
case
04/06/25, 15:19 - Benedetta Zini: okay thank you
23/06/25, 12:03 - Benedetta Zini: Hello! At 12:30 we are going to set agvDiasble
= true <Questo messaggio è stato modificato>
23/06/25, 12:27 - Benedetta Zini: you can start with deploy
23/06/25, 12:29 - Support Technician 7: Ok, thanks
23/06/25, 12:54 - Support Technician 7: Deploy is done
23/06/25, 12:54 - Support Technician 7: Everything looks good from our side. If

you have any problems, please let us know

23/06/25, 12:57 - Benedetta Zini: okay thank you!

23/06/25, 13:16 - Adrian Cindea: please check shipping labels ...

23/06/25, 13:16 - Benedetta Zini: yes yes

23/06/25, 13:38 - Benedetta Zini: @Support Technician 12

23/06/25, 13:38 - Benedetta Zini: The barcode is not working

23/06/25, 13:38 - Benedetta Zini: 😞😞😞

23/06/25, 13:38 - Benedetta Zini: If I try to scan it nothing happened

23/06/25, 13:41 - Adrian Cindea: we will check

23/06/25, 13:43 - Benedetta Zini: It seems foiling works <Questo messaggio è stato modificato>

23/06/25, 13:44 - Benedetta Zini: I tried with mobile terminal and it doesn't work

23/06/25, 13:49 - Benedetta Zini: At foiling works!

23/06/25, 13:49 - Benedetta Zini: Maybe it is a configuration of labels near pick 1 and 2

23/06/25, 13:51 - Benedetta Zini: Maybe not all the barcode is printed

23/06/25, 13:59 - Benedetta Zini: Another problem 😞

23/06/25, 14:00 - Benedetta Zini: VID-20250623-WA0002.mp4 (file allegato)

23/06/25, 14:00 - Benedetta Zini: User is kicked out if he tries to search for stock

23/06/25, 14:00 - Adrian Cindea: please barcode

23/06/25, 14:01 - Benedetta Zini: Photo?

23/06/25, 14:02 - Adrian Cindea: wait

23/06/25, 14:05 - Adrian Cindea: related to shipping label we will prepare a new update ... for the moment type the value

23/06/25, 14:05 - Adrian Cindea: it will be ready in about 1-2 hours

23/06/25, 14:05 - Adrian Cindea: but to fix this issue on stock too

23/06/25, 14:09 - Benedetta Zini: okay thank you

23/06/25, 14:17 - Adrian Cindea: i tested and it works

23/06/25, 14:17 - Adrian Cindea: search stock from 53117671

23/06/25, 14:18 - Adrian Cindea: please let me know the version

23/06/25, 14:18 - Benedetta Zini: oh okay

23/06/25, 14:18 - Adrian Cindea: main menu (incoming, ...)

23/06/25, 14:19 - Adrian Cindea: F1 -> user infor (F4 as option)

23/06/25, 14:19 - Adrian Cindea: verssion ..

23/06/25, 14:19 - Benedetta Zini: okay

23/06/25, 14:19 - Benedetta Zini: let me check

23/06/25, 14:20 - Adrian Cindea: IMG-20250623-WA0003.jpg (file allegato)

23/06/25, 14:20 - Adrian Cindea: 08d9336 as version

23/06/25, 14:21 - Benedetta Zini: Hai eliminato questo messaggio.

23/06/25, 14:23 - Adrian Cindea: it is the same?

23/06/25, 14:25 - Benedetta Zini: I'm waiting an user

23/06/25, 14:26 - Benedetta Zini: IMG-20250623-WA0007.jpg (file allegato)

23/06/25, 14:27 - Benedetta Zini: 08d9336

23/06/25, 14:27 - Support Technician 7: Is it the same user that had the problem?

23/06/25, 14:28 - Adrian Cindea: 53117671

23/06/25, 14:28 - Benedetta Zini: yes

23/06/25, 14:30 - Benedetta Zini: on mobile terminal is not working

23/06/25, 14:31 - Benedetta Zini: search for stock is not working on mobile terminal, whereas on my pc is working

23/06/25, 14:31 - Adrian Cindea: we will check

23/06/25, 14:32 - Benedetta Zini: IMG-20250623-WA0014.jpg (file allegato)

23/06/25, 14:33 - Benedetta Zini: another thing related to shpiing buffer

23/06/25, 14:33 - Benedetta Zini: there is PZV on labels but it is not correct

23/06/25, 14:34 - Adrian Cindea: it is fixed value

23/06/25, 14:34 - Benedetta Zini: no

23/06/25, 14:34 - Adrian Cindea: it is fixed in our implementation

23/06/25, 14:34 - Benedetta Zini: it is not fixed

23/06/25, 14:35 - Adrian Cindea: i need to check specification becuase it was no in initial spec

23/06/25, 14:35 - Benedetta Zini: that field will be valued as soon as we will have the integration between waams and mercareon

23/06/25, 14:35 - Adrian Cindea: it is empty?
23/06/25, 14:35 - Benedetta Zini: so now wamas does not have the information so it should be empty
23/06/25, 14:35 - Benedetta Zini: yes
23/06/25, 14:36 - Adrian Cindea: i will remove it .. for the moment ... and fix the issue
23/06/25, 14:36 - Adrian Cindea: anyhow
23/06/25, 14:36 - Benedetta Zini: perfect! thank yoy
23/06/25, 14:36 - Benedetta Zini: you
23/06/25, 14:43 - Benedetta Zini: so do you think that in 1 or 2 hour you can solve the issue?
23/06/25, 14:44 - Adrian Cindea: yes
23/06/25, 14:44 - Benedetta Zini: super
23/06/25, 14:55 - Benedetta Zini: do you need to stop everything, right?
23/06/25, 15:02 - Adrian Cindea: yes
23/06/25, 15:02 - Adrian Cindea: please make a new test with another mobile terminal
23/06/25, 15:02 - Adrian Cindea: 53117671
23/06/25, 15:03 - Razvan Voicu: and if you can record from start to finish
23/06/25, 15:04 - Benedetta Zini: the steps you mean?
23/06/25, 15:04 - Razvan Voicu: yes
23/06/25, 15:04 - Razvan Voicu: after you login, all the buttons the user presses
23/06/25, 15:05 - Benedetta Zini: okok
23/06/25, 15:16 - Benedetta Zini: VID-20250623-WA0016.mp4 (file allegato)
23/06/25, 15:17 - Razvan Voicu: Before you press F7- Search for stock, can you try to click on the stock
23/06/25, 15:18 - Razvan Voicu: IMG-20250623-WA0017.jpg (file allegato)
23/06/25, 15:18 - Razvan Voicu: click here, to see if we can get the stock selected, with yellow background
23/06/25, 15:19 - Razvan Voicu: IMG-20250623-WA0018.jpg (file allegato)
23/06/25, 15:19 - Razvan Voicu: something like this is what we have on our mobile simulator
23/06/25, 15:20 - Benedetta Zini: me too
23/06/25, 15:21 - Benedetta Zini: on my pc works
23/06/25, 15:21 - Benedetta Zini: but on mobile terminal no
23/06/25, 15:21 - Razvan Voicu: so if you click on mobile terminal on the stock, it isn't highlighted?
23/06/25, 15:21 - Razvan Voicu: maybe not yellow, grey or something
23/06/25, 15:22 - Benedetta Zini: no wait sorry I missed your previous messages
23/06/25, 15:22 - Razvan Voicu: the thing is we try to get from MFW004 info from "selectedStockObject"
23/06/25, 15:22 - Razvan Voicu: maybe on mobile simulator the selection is done automatically
23/06/25, 15:22 - Razvan Voicu: but on the mobile terminal, the selection is not automatically
23/06/25, 15:22 - Benedetta Zini: okay clear give me 10 min and I will try again
23/06/25, 15:30 - Benedetta Zini: I talked with an user and he confirmed that for the other mobile terminal (the small one) works! because the stock is highlighted
23/06/25, 15:30 - Benedetta Zini: as you wrote
23/06/25, 15:31 - Benedetta Zini: let me try again with the other mobile terminal
23/06/25, 15:32 - Razvan Voicu: Ok
23/06/25, 15:39 - Adrian Cindea: we prepare the pack for deploy
23/06/25, 15:40 - Benedetta Zini: okay
23/06/25, 15:40 - Benedetta Zini: I have to ask first to my colleagues
23/06/25, 15:42 - Adrian Cindea: it takes 60 minutes ...
23/06/25, 15:43 - Benedetta Zini: 60 min of deploy?
23/06/25, 15:44 - Adrian Cindea: pack creation
23/06/25, 15:44 - Adrian Cindea: deploy will be maximum 15-20 minutes ...
23/06/25, 15:45 - Benedetta Zini: oh okay clear
23/06/25, 15:45 - Benedetta Zini: so it will be readu in 60 min right?
23/06/25, 15:45 - Benedetta Zini: ready
23/06/25, 15:45 - Adrian Cindea: yeap ...

23/06/25, 15:45 - Benedetta Zini: okay
23/06/25, 15:45 - Adrian Cindea: there are some internal steps before pack is crrated
23/06/25, 15:45 - Benedetta Zini: let me organize with my colleagues
23/06/25, 15:45 - Adrian Cindea: 1. find and fix the issue.
23/06/25, 15:45 - Benedetta Zini: okay okay
23/06/25, 15:46 - Adrian Cindea: 2. save ionternally and run an internal build
23/06/25, 15:46 - Adrian Cindea: 3. full bulild locally with last changes
23/06/25, 15:46 - Adrian Cindea: 4. geenrat the pack
23/06/25, 15:46 - Adrian Cindea: 5. copy and server and install it
23/06/25, 15:46 - Adrian Cindea: 6. - activation (it is what we did today)
23/06/25, 15:46 - Benedetta Zini: okay clear
23/06/25, 15:52 - Benedetta Zini: RAZAVAAAN
23/06/25, 15:53 - Benedetta Zini: VID-20250623-WA0021.mp4 (file allegato)
23/06/25, 15:53 - Benedetta Zini: It works if you select the item.
23/06/25, 15:53 - Benedetta Zini: 🙄
23/06/25, 15:55 - Benedetta Zini: It is almost correct... in case you have more than one item to check
23/06/25, 15:56 - Benedetta Zini: But if there is only one item it should be highlithed automatically
23/06/25, 15:58 - Razvan Voicu: Ok, thanks for confirming
23/06/25, 15:58 - Benedetta Zini: You are welcome
23/06/25, 16:03 - Adrian Cindea: step 4 is in progress
23/06/25, 16:04 - Benedetta Zini: okay thanks
23/06/25, 16:21 - Adrian Cindea: step 5 done
23/06/25, 16:21 - Adrian Cindea: step 6 in progress
23/06/25, 16:28 - Adrian Cindea: copy on the server in progress
23/06/25, 16:40 - Adrian Cindea: step 6 - install is in progress
23/06/25, 16:40 - Adrian Cindea: after this we are ready for activsation ...
23/06/25, 16:40 - Benedetta Zini: okay
23/06/25, 16:40 - Adrian Cindea: it means today steps ...
23/06/25, 16:40 - Benedetta Zini: let me know when I can disable AGV
23/06/25, 16:46 - Adrian Cindea: step 6 is done
23/06/25, 16:46 - Adrian Cindea: now ...
23/06/25, 16:49 - Benedetta Zini: okay I set agv disable = true
23/06/25, 16:58 - Adrian Cindea: Alex Stanis will manage next steps ... as at lunch time
23/06/25, 16:58 - Benedetta Zini: okay great
23/06/25, 16:58 - Benedetta Zini: yyou can proceed with deploy
23/06/25, 17:14 - Benedetta Zini: is deploy done?
23/06/25, 17:14 - Support Technician 7: Yeah
23/06/25, 17:14 - Support Technician 7: Are there some errors?
23/06/25, 17:14 - Benedetta Zini: yes..
23/06/25, 17:14 - Support Technician 7: Can you fix them or you want me to check?
23/06/25, 17:15 - Benedetta Zini: IMG-20250623-WA0024.jpg (file allegato)
23/06/25, 17:15 - Benedetta Zini: did you do something?
23/06/25, 17:15 - Benedetta Zini: becasue errors disappeared :)
23/06/25, 17:16 - Support Technician 7: I did nothing
23/06/25, 17:16 - Support Technician 7: But let me check
23/06/25, 17:16 - Support Technician 7: Something is not right
23/06/25, 17:16 - Benedetta Zini: 🙄🙄
23/06/25, 17:17 - Benedetta Zini: what kind of thing?
23/06/25, 17:19 - Support Technician 7: Is it back to normal?
23/06/25, 17:19 - Support Technician 7: Looks good for me, now
23/06/25, 17:20 - Benedetta Zini: yes yes
23/06/25, 17:20 - Benedetta Zini: now we have to test again
23/06/25, 17:20 - Support Technician 7: I did nothing, there was some problems with the orders for pallets
23/06/25, 17:20 - Support Technician 7: But they reseted automatically
23/06/25, 17:20 - Benedetta Zini: oh okay
23/06/25, 17:20 - Benedetta Zini: good
23/06/25, 17:20 - Benedetta Zini: hope that was nothing important
23/06/25, 17:21 - Support Technician 7: No no, it happens sometimes after a

restart, but if it got back to normal by itself is all good
23/06/25, 17:21 - Benedetta Zini: oooh okay now clear :)
23/06/25, 17:23 - Support Technician 7: I m here for the tests, let me know how they go
23/06/25, 17:23 - Support Technician 7: What do you want to test first?
23/06/25, 17:34 - Benedetta Zini: great!
23/06/25, 17:35 - Benedetta Zini: Users called me and they said that now barcode works 🤖
23/06/25, 17:35 - Benedetta Zini: also search for stock
23/06/25, 17:35 - Support Technician 7: So label is ok
23/06/25, 17:35 - Benedetta Zini: it is not highlighted but it works
23/06/25, 17:36 - Support Technician 7: Can you try some search for stock from the mobile, but for an LU with multiple stock?
23/06/25, 17:36 - Support Technician 7: And search for the first one
23/06/25, 17:36 - Support Technician 7: Just for test purpose
23/06/25, 17:37 - Benedetta Zini: yes yes we are searching LU
23/06/25, 17:43 - Benedetta Zini: it works now for the type "rugged"
23/06/25, 17:43 - Benedetta Zini: and not for the Others
23/06/25, 17:44 - Support Technician 7: What do you mean with type rugged?
23/06/25, 17:44 - Benedetta Zini: VID-20250623-WA0016.mp4 (file allegato)
23/06/25, 17:45 - Benedetta Zini: this one
23/06/25, 17:45 - Support Technician 7: Hm, ok...let me check please
23/06/25, 17:46 - Benedetta Zini: For this type now works
23/06/25, 17:47 - Benedetta Zini: VID-20250623-WA0025.mp4 (file allegato)
Whereas for this no
23/06/25, 17:47 - Benedetta Zini: Also my mobile terminal on pc
23/06/25, 17:48 - Benedetta Zini: VID-20250623-WA0026.mp4 (file allegato)
23/06/25, 17:48 - Benedetta Zini: Because all items are highlighted
23/06/25, 17:49 - Benedetta Zini: While on this type the user can select items and check stock
23/06/25, 17:50 - Benedetta Zini: This is a bug and you can fix it with another deploy (not today)
23/06/25, 17:51 - Benedetta Zini: Now it works so you can check by taking your time... the system is not blocked anymore (due to search for stock and barcode)
23/06/25, 17:52 - Support Technician 7: Yes yes, of course. The deploy was more for the shipping labels. We just thought we could fix the search stock also. But i guess it needs more investigation
23/06/25, 17:53 - Benedetta Zini: thank you very much!
23/06/25, 17:53 - Support Technician 7: We will check this further in the next days and find a fix
23/06/25, 17:53 - Benedetta Zini: perfect
23/06/25, 17:53 - Support Technician 7: Thank you for the support, too!
24/06/25, 07:08 - Adrian Cindea: Questo messaggio è stato eliminato.
24/06/25, 08:57 - Adrian Cindea: we changed the width of bars from barcode to avoid to not print all of them on some printers
24/06/25, 09:00 - Benedetta Zini: you mean that on some printers (I supposed in manual area) not all the bars of the barcode are printed?
24/06/25, 09:01 - Adrian Cindea: you told us scanning is not working -> we checked and found the barcode is not printed completed on the label (this is the reason of no scanning) <Questo messaggio è stato modificato>
24/06/25, 09:02 - Benedetta Zini: I supposed
24/06/25, 09:02 - Adrian Cindea: we decreased from 6 to 5 a value to be able to print all barcode
24/06/25, 09:03 - Adrian Cindea: we checked label on simulation tool and barcode is not printed (but it depends on the printer configuration)
24/06/25, 09:03 - Benedetta Zini: sorry I understand now
24/06/25, 09:03 - Adrian Cindea: now it is smaller and it is printed all of them <Questo messaggio è stato modificato>
24/06/25, 09:03 - Benedetta Zini: you reduce the font of the barcode
24/06/25, 09:03 - Benedetta Zini: yes yes
24/06/25, 09:04 - Benedetta Zini: It works so no more label issue
24/06/25, 09:05 - Benedetta Zini: but at foiling worked because the dimension of the barcode was smaller than in the other printers?
24/06/25, 09:16 - Adrian Cindea: the label maybe it is a little bigger and

printer configuration

24/06/25, 09:17 - Adrian Cindea: all labels had the same value for barcode initially, after deploy and no scanning we changed all of them (width of bars from barcode)

24/06/25, 09:46 - Adrian Cindea: related to stock search ... please try again

24/06/25, 09:46 - Adrian Cindea: we checked and there is no other stock available in manual area

24/06/25, 09:46 - Adrian Cindea: only in automatisation or shipment LU

24/06/25, 09:47 - Adrian Cindea: please try again and let us know for multiple items on LU

24/06/25, 09:47 - Benedetta Zini: Okay I will try on both type of mobile terminal

24/06/25, 09:47 - Adrian Cindea: or any other cases ... the goal is to find the issue and to fix it

24/06/25, 09:47 - Benedetta Zini: Give me 10 min

24/06/25, 09:47 - Adrian Cindea: thx

24/06/25, 09:47 - Adrian Cindea: it is not urgent

24/06/25, 09:47 - Benedetta Zini: Exactly

24/06/25, 15:42 - Adrian Cindea: user is filled in message #30

24/06/25, 15:42 - Adrian Cindea: i checked in DI004/DI005 + SM003

24/06/25, 15:42 - Adrian Cindea: and message is processed by host (no issue reported)

24/06/25, 15:48 - Benedetta Zini: Yes sorry

24/06/25, 15:48 - Benedetta Zini: Yesterday I forgot to tell you that it works

24/06/25, 15:49 - Benedetta Zini: My IT dept checked on Host side

24/06/25, 16:21 - Adrian Cindea: thx

26/06/25, 06:15 - Nicola Bernardi: Good morning, we have the SRM03 stopped without error, ticket n°01437128, we have a logical issue, on it we don't have any pallet physically but on wamas page SM210 can we see the pallet 53408592, can you clean the logical memorie of SRM? 🙄

26/06/25, 06:15 - Support Technician 15: Hello

26/06/25, 06:16 - Support Technician 15: Yes, I see the pending event for that pallet

26/06/25, 06:16 - Support Technician 15: I will delete it

26/06/25, 06:16 - Support Technician 15: I Don't find the pallet anymore in the system

26/06/25, 06:18 - Support Technician 15: Should be ok now

26/06/25, 06:19 - Nicola Bernardi: Yes, now is perfect 🙏

26/06/25, 06:19 - Nicola Bernardi: The pallet was a slave

26/06/25, 11:30 - Nicola Bernardi: Hi, we have another issue on SRM03

26/06/25, 11:30 - Nicola Bernardi: Ticket n°01437184

26/06/25, 11:31 - Nicola Bernardi: null

26/06/25, 11:31 - Nicola Bernardi: IMG-20250626-WA0005.jpg (file allegato)

26/06/25, 11:31 - Nicola Bernardi: IMG-20250626-WA0006.jpg (file allegato)

26/06/25, 11:31 - Nicola Bernardi: Now on the crane we have a pallet physically

26/06/25, 11:32 - Nicola Bernardi: On MF210 page I can see this error

26/06/25, 11:46 - Support Technician 15: I will check

26/06/25, 11:58 - Nicola Bernardi: Now the crane has started working

26/06/25, 11:58 - Support Technician 15: Yes, I see. I deleted the stuck message as before

26/06/25, 12:00 - Nicola Bernardi: What happened? Why are you having these problems?

26/06/25, 12:02 - Nicola Bernardi: IMG-20250626-WA0010.jpg (file allegato)

26/06/25, 12:02 - Nicola Bernardi: The exit of SRM03

26/06/25, 12:02 - Nicola Bernardi: IMG-20250626-WA0011.jpg (file allegato)

26/06/25, 12:04 - Support Technician 15: This time was something different than this morning

26/06/25, 12:06 - Nicola Bernardi: But this morning before the ticket the issue was the same, we had a SRM03 with physically pallet on it and crane stopped without error

26/06/25, 12:08 - Support Technician 15: issue from 01437128 was because the pallet 53408592 was manually booked from SRM03 to TPRF01C2111, the pallet remained logically on SRM, I had to clean that

26/06/25, 12:08 - Support Technician 15: This time I am not sure what was it, I

need to check

26/06/25, 12:13 - Nicola Bernardi: Yes before the manually booked the crane was block at the same mode
26/06/25, 12:14 - Nicola Bernardi: But now we have the last 2 pallet delivered lock on conveyors
26/06/25, 12:16 - Support Technician 15: what pallets?
26/06/25, 12:17 - Nicola Bernardi: IMG-20250626-WA0015.jpg (file allegato)
26/06/25, 12:17 - Nicola Bernardi: IMG-20250626-WA0016.jpg (file allegato)
26/06/25, 12:17 - Nicola Bernardi: On this conveyors
26/06/25, 12:18 - Nicola Bernardi: With this error
26/06/25, 12:18 - Support Technician 15: ok, will check
26/06/25, 12:18 - Nicola Bernardi: 😊
26/06/25, 12:23 - Support Technician 15: I reset the orders, should be ok now
26/06/25, 12:25 - Nicola Bernardi: Ok thanks, can you explain the issue why was blocked the crane the second time? <Questo messaggio è stato modificato>
26/06/25, 12:27 - Support Technician 15: I will have to check the logs first. I will lower the priority of the ticket and if the issue occur again you can contact us until we finish with our analysis
26/06/25, 12:27 - Support Technician 15: is that ok?
26/06/25, 12:29 - Nicola Bernardi: Yes, it's perfect. I wait your analysis for my curiosity 😊
26/06/25, 12:30 - Nicola Bernardi: And for my knowledge 🙄
30/06/25, 12:25 - Support Technician 7: Hello, are you going to let us know when we can start with the deploy?
30/06/25, 12:25 - Benedetta Zini: Hello!
30/06/25, 12:25 - Benedetta Zini: No deploy today 😊
30/06/25, 12:26 - Benedetta Zini: next Monday
30/06/25, 12:27 - Support Technician 7: Oh, ok. Adi told me we would do one today 😊 but now I saw the mails that says 7/7
30/06/25, 12:29 - Benedetta Zini: yes exactly
30/06/25, 12:29 - Benedetta Zini: 😊
30/06/25, 13:48 - Benedetta Zini: I have already opened a ticket because we are testing how to work on August during the assembly of HBW2 and closed conveyor loop nokfoiling <Questo messaggio è stato modificato>
30/06/25, 13:49 - Benedetta Zini: We want to work only with loop1 and loop 2 of ems, so we made in manner that loop3 is out
30/06/25, 13:50 - Benedetta Zini: then we opened the safety door and ems vehicles immediately stopped pick up and deposit pallets on CU
30/06/25, 13:50 - Benedetta Zini: IMG-20250630-WA0001.jpg (file allegato)
this is the "waiting message" of TPOs
30/06/25, 13:51 - Benedetta Zini: I have already talked with Pentanova/eisenmann technician and he said that the problem is the wms
30/06/25, 13:53 - Benedetta Zini: it is not okay that wms blocks all tpos as soon as I open the safety door or loop3
30/06/25, 13:53 - Benedetta Zini: it should block only TPOs of loop3
30/06/25, 13:54 - Benedetta Zini: if someone is available to check in live you have time until 15 (italian time)...
30/06/25, 13:55 - Benedetta Zini: now we closed safety door to let users work on BP01 - BP06
30/06/25, 13:55 - Benedetta Zini: ticket 01437685
30/06/25, 13:56 - Benedetta Zini: if there is someone to check we will reopen the door
30/06/25, 13:56 - Benedetta Zini: please let me know
30/06/25, 14:05 - Benedetta Zini: VID-20250630-WA0002.mp4 (file allegato)
30/06/25, 14:11 - Benedetta Zini: VID-20250630-WA0003.mp4 (file allegato)
30/06/25, 14:12 - Razvan Voicu: Hello
30/06/25, 14:12 - Benedetta Zini: 😊
30/06/25, 14:13 - Razvan Voicu: let me check
30/06/25, 14:13 - Benedetta Zini: yes thank you
30/06/25, 14:13 - Benedetta Zini: let me know if I have to explain better or you need our help
30/06/25, 14:13 - Benedetta Zini: (something that we can do on site)
30/06/25, 14:14 - Razvan Voicu: IMG-20250630-WA0004.jpg (file allegato)
this is loop 3?

30/06/25, 14:14 - Benedetta Zini: yes
30/06/25, 14:14 - Benedetta Zini: we open the door again
30/06/25, 14:14 - Benedetta Zini: so you can check what happens
30/06/25, 14:15 - Razvan Voicu: ok, let me know when yo open
30/06/25, 14:15 - Benedetta Zini: you will see a red bubble between pick 8 and 9
30/06/25, 14:15 - Benedetta Zini: more or less
30/06/25, 14:15 - Benedetta Zini: sorry, 9 and 10
30/06/25, 14:16 - Benedetta Zini: the door is open
30/06/25, 14:16 - Razvan Voicu: Ok
30/06/25, 14:16 - Razvan Voicu: Problem is that EMS is seen as a single device controller
30/06/25, 14:17 - Razvan Voicu: so when door opens, the whole device controller stops
30/06/25, 14:17 - Razvan Voicu: IMG-20250630-WA0005.jpg (file allegato)
30/06/25, 14:17 - Benedetta Zini: 😞😞
30/06/25, 14:18 - Benedetta Zini: not good
30/06/25, 14:19 - Benedetta Zini: what can we do?
30/06/25, 14:19 - Razvan Voicu: I would say there is no fast solution
30/06/25, 14:20 - Razvan Voicu: If we would split this into 3 different EMSes, that would require some analysis and most likely a CR
30/06/25, 14:20 - Benedetta Zini: 😞😞
30/06/25, 14:20 - Razvan Voicu: A workaround would be to stop these 4 stations
30/06/25, 14:20 - Razvan Voicu: to make sure nothing comes here, to loop 3
30/06/25, 14:21 - Benedetta Zini: yes but if operators have to work phisically inside loop3, loop3 should be safe
30/06/25, 14:21 - Benedetta Zini: so we need to open safety door
30/06/25, 14:22 - Razvan Voicu: EMS acts as a whole. It would require a change in how MFS communicates with the EMS, the EMS device should be split in 3 (all with different IPs)
30/06/25, 14:24 - Benedetta Zini: I would like to cry... ☹️
30/06/25, 14:25 - Benedetta Zini: can we think of a faster Solutions?
30/06/25, 14:26 - Razvan Voicu: Well anything that involves opening the door will block the EMS
30/06/25, 14:26 - Razvan Voicu: And I understand you need to door open to ensure safety
30/06/25, 14:29 - Benedetta Zini: yes
30/06/25, 14:31 - Razvan Voicu: give me some minutes, to confer with the council of the elders 😊
30/06/25, 14:32 - Benedetta Zini: no problem 😊
30/06/25, 14:47 - Benedetta Zini: ok then wms should ignore status messages from loop 3 and keep status normal. Or ems should stop sending status messages and errors from loop 3.
30/06/25, 14:48 - Benedetta Zini: A suggestion from ems technician
30/06/25, 14:50 - Razvan Voicu: Ok, you ignore it, but then what do you do with pallets that go to loop 3
30/06/25, 14:50 - Razvan Voicu: if a pallet decides at the junction point that it wants to reroute itself to loop 3
30/06/25, 14:53 - Razvan Voicu: So at the moment I cannot give you a solution. We will talk internally and come back with a solution
30/06/25, 14:54 - Benedetta Zini: only for a period
30/06/25, 14:54 - Benedetta Zini: so only for August
30/06/25, 14:54 - Benedetta Zini: then we can decide a permanent solution
30/06/25, 14:56 - Razvan Voicu: ok, I cannot give you an answer on the spot
30/06/25, 14:56 - Razvan Voicu: I saw you created a ticket, we will talk more and come back with a possible workaround
30/06/25, 14:57 - Razvan Voicu: to think of what we need to do
30/06/25, 14:57 - Benedetta Zini: yes yes sure
30/06/25, 14:58 - Benedetta Zini: maybe we have to talk all together with ems technician
01/07/25, 16:34 - Benedetta Zini: Hello! Sorry for disturbing you but regarding yesterday's ticket 01437685 we have an open issue (it has been opend since 28.01.2022), that is issue G02 "Switching off voltage on monorail maintenance track results in "no-retrieve" of all vehicles working in the loops"
01/07/25, 16:35 - Benedetta Zini: IMG-20250701-WA0001.jpg (file allegato)

01/07/25, 16:35 - Benedetta Zini: (FYI)
02/07/25, 11:14 - Benedetta Zini: Hello! OBD0001087435 has the issue A174
02/07/25, 11:15 - Benedetta Zini: I have already sent an email
I kindly ask you to fix it and check what is the issue
02/07/25, 16:09 - Benedetta Zini: Any news about ticket 01438145?
02/07/25, 16:09 - Benedetta Zini: It is urgent
02/07/25, 17:29 - Benedetta Zini: VID-20250630-WA0003.mp4 (file allegato)
02/07/25, 17:35 - Support Technician 7: Can it wait until tomorrow or do you need it today?
02/07/25, 18:09 - Benedetta Zini: is there anyone available?
03/07/25, 10:09 - Chiara Lodesani, Lavoro: Hello, could anyone fix the quantity of this OBD, please?
03/07/25, 10:11 - Support Technician 7: Hi, working on it
03/07/25, 10:15 - Support Technician 7: So, just to make sure
03/07/25, 10:16 - Support Technician 7: You want all quantities to be 1120?
03/07/25, 10:16 - Support Technician 7: Released, planned and delivered?
03/07/25, 10:20 - Chiara Lodesani, Lavoro: yes, right
03/07/25, 10:22 - Support Technician 7: Give me a second to check something please
03/07/25, 10:25 - Chiara Lodesani, Lavoro: ok
03/07/25, 10:32 - Support Technician 7: I changed them, can you check now?
03/07/25, 10:38 - Chiara Lodesani, Lavoro: sorry, also 'loaded quantity' has to be changed
03/07/25, 10:45 - Support Technician 7: Ok, changed loaded quantity to 1120 and staged quantity to 0
03/07/25, 10:50 - Chiara Lodesani, Lavoro: ok, thank you
03/07/25, 14:45 - Chiara Lodesani, Lavoro: IMG-20250703-WA0003.jpg (file allegato)
Hello, I don't know what happens but now the quantities of the order are different.. Can you fix it again?
03/07/25, 14:46 - Support Technician 7: Give me a moment please
03/07/25, 14:46 - Support Technician 7: I will let you know when it's done
03/07/25, 17:18 - Chiara Lodesani, Lavoro: Have you done something?
03/07/25, 17:22 - Support Technician 7: Should be fixed now, sorry I have another incident I had to work on
03/07/25, 18:32 - Chiara Lodesani, Lavoro: yes, it is ok now. thank you
07/07/25, 09:11 - Nicola Bernardi: Can you check the crane 3? Ticket n°01437184 now is locked in the same mode
07/07/25, 09:22 - Nicola Bernardi: We have 3 picking station stopped from Crane 3, can you check the issue? Please 🙏
07/07/25, 09:40 - Nicola Bernardi: Helloooooo
07/07/25, 09:41 - Benedetta Zini: Hi! Is there someone available to fix this issue?
07/07/25, 09:42 - Benedetta Zini: it is a recurrent issue and we want to fix it once and for all
07/07/25, 09:43 - Benedetta Zini: this is the third times this has happened in a week
07/07/25, 09:44 - Benedetta Zini: I kindly ask you to check and fix ASAP
07/07/25, 09:44 - Benedetta Zini: thank you!
07/07/25, 09:45 - Support Technician 10: Hello I will check
07/07/25, 09:45 - Nicola Bernardi: 📺
07/07/25, 09:45 - Benedetta Zini: thank you very much!!! 🙏
07/07/25, 09:48 - Support Technician 10: Is something on the crane now?
07/07/25, 09:49 - Support Technician 10: I see an error for 85675225
07/07/25, 09:50 - Nicola Bernardi: Yes, it's correct
07/07/25, 09:50 - Nicola Bernardi: I can't see the error
07/07/25, 09:52 - Support Technician 10: Its on mfs
07/07/25, 09:53 - Support Technician 10: So the crane is empty now?
07/07/25, 09:53 - Nicola Bernardi: VID-20250707-WA0000.mp4 (file allegato)
07/07/25, 09:53 - Nicola Bernardi: No the pallet is on the forks
07/07/25, 09:56 - Support Technician 10: The smr should work now
07/07/25, 09:58 - Support Technician 10: @Company Employee 17 @Company Employee 11 can you check?
07/07/25, 10:15 - Nicola Bernardi: Yes, now the crane works

07/07/25, 10:16 - Nicola Bernardi: It is possible for us to check this issue on wamas?

07/07/25, 10:22 - Support Technician 10: Its only on mfs

07/07/25, 10:26 - Nicola Bernardi: VID-20250707-WA0001.mp4 (file allegato)

07/07/25, 11:04 - Razvan Voicu: Deploy is scheduled in 90 mins, correct? <Questo messaggio è stato modificato>

07/07/25, 11:04 - Benedetta Zini: Yes, at 12:40

07/07/25, 11:05 - Benedetta Zini: at 12:30 I'm going to set AgvDisable = true

07/07/25, 11:05 - Benedetta Zini: and I will let you know when you can start deploy

07/07/25, 11:05 - Razvan Voicu: ok

07/07/25, 12:25 - Benedetta Zini: @Support Technician 21 please after deploy send me the final list

07/07/25, 12:25 - Razvan Voicu: final list of changes included?

07/07/25, 12:25 - Benedetta Zini: yes

07/07/25, 12:26 - Razvan Voicu: should be the same one that Adrian sent, the pack was done on 27 June

07/07/25, 12:27 - Benedetta Zini: - A211 (new labels)

- Fix record A5

?

07/07/25, 12:29 - Benedetta Zini: Is the issue sent by my colleague on 30/06 included?

07/07/25, 12:30 - Benedetta Zini: <Media omessi>

07/07/25, 12:30 - Benedetta Zini: IMG-20250707-WA0008.jpg (file allegato)

07/07/25, 12:31 - Razvan Voicu: I don't know

07/07/25, 12:31 - Razvan Voicu: let me check

07/07/25, 12:31 - Benedetta Zini: yes

07/07/25, 12:32 - Benedetta Zini: All AGVs are in charging so you can start with deploy

07/07/25, 12:37 - Benedetta Zini: let me know when you can start

07/07/25, 12:38 - Razvan Voicu: starting now

07/07/25, 12:47 - Support Technician 7: This is not included yet

07/07/25, 12:49 - Benedetta Zini: okok thank you

07/07/25, 12:49 - Benedetta Zini: please take into account for next deploy

07/07/25, 12:58 - Razvan Voicu: IMG-20250707-WA0009.jpg (file allegato)

You know about this EMS?

07/07/25, 13:00 - Benedetta Zini: @Company Employee 17 @Company Employee 10

07/07/25, 13:00 - Benedetta Zini: can you please check ems?

07/07/25, 13:01 - Razvan Voicu: Ok, deploy done

07/07/25, 13:01 - Giacomo Trivieri, Lavoro: Yes we go to confirm the error

07/07/25, 13:01 - Razvan Voicu: parameters set, all ready to go

07/07/25, 13:02 - Benedetta Zini: okay great!

07/07/25, 13:02 - Razvan Voicu: Looks like this, only these two

07/07/25, 13:04 - Benedetta Zini: okay thanks

07/07/25, 13:04 - Razvan Voicu: Thanks aswell. Let us know if something is not working :)

07/07/25, 16:01 - Benedetta Zini: there is something that is not working with record A5

07/07/25, 16:02 - Benedetta Zini: IMG-20250707-WA0018.jpg (file allegato)

07/07/25, 16:02 - Benedetta Zini: there are 3 messages in error with "post-elaboration error"...

07/07/25, 16:02 - Benedetta Zini: Could you please check?

07/07/25, 16:03 - Support Technician 10: I will check

07/07/25, 16:09 - Benedetta Zini: thank you

07/07/25, 16:35 - Support Technician 10: The issue is that we found multiple obds with the same obdno

07/07/25, 16:39 - Benedetta Zini: But you have to consider order not obd

07/07/25, 16:43 - Benedetta Zini: So, if WAMAS finds OBD (for the first time) it will send A5 without error... whereas if WAMAS finds OBD (that is not the first time) it will send A5 with error?

07/07/25, 16:43 - Support Technician 10: For example the last A5 you sent has 2 obds for the order number

07/07/25, 16:44 - Support Technician 10: Right now if the query that checks the order number finds more then one obd for it it will give an error

07/07/25, 16:45 - Benedetta Zini: why?
07/07/25, 16:45 - Benedetta Zini: it is not correct
07/07/25, 16:45 - Support Technician 10: That is how was implemented
07/07/25, 16:45 - Benedetta Zini: but I didn't ask for this
07/07/25, 16:45 - Support Technician 10: I already made a fix right now to allow more results but it will need a deploy <Questo messaggio è stato modificato>
07/07/25, 16:46 - Benedetta Zini: oh okay
07/07/25, 16:46 - Benedetta Zini: so order = obd --> no error message
order = obd1, obd2, obd3 --> no error message for obd1, whereas obd2 and obd3
yes
?
07/07/25, 16:47 - Benedetta Zini: did I understand correctly?
07/07/25, 16:47 - Support Technician 10: No you will get an error if the order has more than 1
07/07/25, 16:47 - Benedetta Zini: order = obd --> no error message
order = obd1, obd2, obd3 --> error message
07/07/25, 16:47 - Benedetta Zini: ?
07/07/25, 16:47 - Support Technician 10: Yes
07/07/25, 16:47 - Benedetta Zini: okay...
07/07/25, 16:48 - Benedetta Zini: not okay but okay 😞
07/07/25, 16:48 - Support Technician 10: And one more thing if we find an obd that has a different client we will return an error is that ok?
07/07/25, 16:50 - Benedetta Zini: correct! From specs:
• As soon as the WMS receipt the record type A5, it will update the related data of order header. The WMS must reject the record type A5 if:
o The order does not exist on WMS
o The order exist on WMS, but the customer name is different from the one specified on record A5
07/07/25, 16:51 - Support Technician 10: Ok so only the multiple orders is the problem
07/07/25, 16:51 - Benedetta Zini: no there is another issue
07/07/25, 16:51 - Support Technician 10: Ok
07/07/25, 16:51 - Benedetta Zini: another problem is that the value of Rif Cl (if there is) is not returned in the label
07/07/25, 16:52 - Benedetta Zini: IMG-20250707-WA0020.jpg (file allegato)
07/07/25, 16:52 - Benedetta Zini: IMG-20250707-WA0021.jpg (file allegato)
07/07/25, 16:52 - Support Technician 10: Ok I will check that too
07/07/25, 16:52 - Benedetta Zini: thank you!
07/07/25, 16:53 - Support Technician 10: Can you try an A5 with only one obd to be sure that everything else is working?
07/07/25, 16:54 - Benedetta Zini: yes, this is it
07/07/25, 16:54 - Benedetta Zini: order *79168
07/07/25, 16:55 - Benedetta Zini: IMG-20250707-WA0022.jpg (file allegato)
07/07/25, 16:59 - Support Technician 10: Last A5 worked for *42535 <Questo messaggio è stato modificato>
07/07/25, 17:00 - Benedetta Zini: okay but it is the same as *79168
07/07/25, 17:00 - Benedetta Zini: it worked for it
07/07/25, 17:00 - Benedetta Zini: but no Rif Cl on label
07/07/25, 17:01 - Benedetta Zini: as you can see from my photo
07/07/25, 17:01 - Support Technician 10: I will look to see what the problem is
07/07/25, 17:02 - Benedetta Zini: WAMAS should have print on label what is written in the field "prjreferenceorderclient"
07/07/25, 17:03 - Benedetta Zini: for example order *79168 --> PROVA RIF.CLIENTE
07/07/25, 17:03 - Benedetta Zini: But on the label the field "Rif Cl" is empty
07/07/25, 17:03 - Support Technician 10: Ok
07/07/25, 17:03 - Benedetta Zini: if you want I can try to print label for *42535 <Questo messaggio è stato modificato>
07/07/25, 17:04 - Support Technician 10: No need
07/07/25, 17:04 - Benedetta Zini: ok
07/07/25, 17:04 - Support Technician 10: If it did not work for *79168 it won't work for *42535
07/07/25, 17:05 - Support Technician 10: I will check it tomorrow and let you know most likely we can deploy the fix next Monday
07/07/25, 17:05 - Support Technician 10: But I will need to discuss with Adrian

07/07/25, 17:05 - Benedetta Zini: Okay sure
07/07/25, 17:06 - Benedetta Zini: take your time in order to solve these issues once and for all :)
07/07/25, 17:07 - Benedetta Zini: Record A5 has to behave as record 05 <Questo messaggio è stato modificato>
07/07/25, 17:07 - Benedetta Zini: ok?
07/07/25, 17:08 - Support Technician 10: Ok
07/07/25, 17:09 - Benedetta Zini: because fields refer to the order header
10/07/25, 18:04 - Benedetta Zini: @Support Technician 10 Have you had time to discuss it with Adrian? just to know if we have organize a deploy... <Questo messaggio è stato modificato>
11/07/25, 08:10 - Support Technician 10: Hello sorry for late response Adrian was on holiday till today so we did not get the chance to speak, most likely we will inform you next week regarding a deploy date
11/07/25, 08:55 - Benedetta Zini: Good morning! Okay thank you
14/07/25, 12:35 - Adrian Cindea: good morning
14/07/25, 12:36 - Adrian Cindea: A5 message handling and label issues (4 will be fixed this week and feedback with tests will be provided)
21/07/25, 10:01 - Chiara Lodesani, Lavoro: Hello, we'll be in touch later for the deploy
21/07/25, 12:31 - Chiara Lodesani, Lavoro: I've set AGV = disable
21/07/25, 12:31 - Support Technician 7: Please let me know when we can start with the deploy
21/07/25, 12:32 - Chiara Lodesani, Lavoro: yes
21/07/25, 12:48 - Chiara Lodesani, Lavoro: you can start
21/07/25, 13:10 - Support Technician 7: Deploy is done
21/07/25, 13:10 - Support Technician 7: System seems to be working fine. If you have any problems, please let us know
21/07/25, 13:12 - Chiara Lodesani, Lavoro: ok, thank you
21/07/25, 13:34 - Adrian Cindea: please check labels ...
21/07/25, 13:54 - Marco Taccini, Lavoro: IMG-20250721-WA0000.jpg (file allegato)
There are overlapped text in the label from manual area
21/07/25, 14:16 - Adrian Cindea: it is necessary a new deploy
21/07/25, 14:16 - Adrian Cindea: it will take about 1hour
21/07/25, 14:16 - Adrian Cindea: i increased the font and ther eis not enough space
21/07/25, 14:16 - Adrian Cindea: what is the biggest value?
21/07/25, 14:45 - Marco Taccini, Lavoro: IMG-20250721-WA0001.jpg (file allegato)
21/07/25, 16:25 - Adrian Cindea: i will preapre a deploy for tomorrow
21/07/25, 16:28 - Benedetta Zini: We have to talk internally
21/07/25, 16:29 - Adrian Cindea: localita is the issue
21/07/25, 16:29 - Adrian Cindea: i increased the font and its a block which was to be increased
21/07/25, 16:29 - Adrian Cindea: but it is possible 15 characters and it is 20 ...
21/07/25, 16:29 - Adrian Cindea: i will check indirizzo
21/07/25, 16:30 - Adrian Cindea: IMG-20250721-WA0002.jpg (file allegato)
21/07/25, 16:30 - Adrian Cindea: 28 indirizzo
21/07/25, 16:31 - Adrian Cindea: 15 localita
21/07/25, 16:31 - Adrian Cindea: with current font ...
21/07/25, 16:31 - Adrian Cindea: i have to reduce the font to be able 35 indirizzo and 20 locatlita
21/07/25, 16:34 - Adrian Cindea: IMG-20250721-WA0003.jpg (file allegato)
21/07/25, 16:34 - Adrian Cindea: i reduced width of font
21/07/25, 16:36 - Adrian Cindea: i will prepare the changes ...
21/07/25, 16:36 - Adrian Cindea: fix is prepared but ...
21/07/25, 17:10 - Benedetta Zini: what happened?
21/07/25, 17:10 - Adrian Cindea: Font was increased
21/07/25, 17:11 - Adrian Cindea: Localita had a space allocated and it is too small and zebra printed from the begging of space
21/07/25, 17:13 - Adrian Cindea: It was a request to increase font in that area and tests were done with short data for localita
21/07/25, 17:14 - Adrian Cindea: Now i tested all with longest value
21/07/25, 17:15 - Adrian Cindea: Pack generation takes 60 minutes al least

before the deploy + time of today deploy
21/07/25, 17:16 - Adrian Cindea: My idea is to do it asap starting from tomorrow
... pack will be ready today
21/07/25, 17:19 - Benedetta Zini: okay
21/07/25, 17:19 - Benedetta Zini: deploy will take 20 minutes?
21/07/25, 17:19 - Benedetta Zini: as usual?
21/07/25, 18:48 - Adrian Cindea: IMG-20250721-WA0004.jpg (file allegato)
21/07/25, 18:48 - Adrian Cindea: yes
21/07/25, 18:49 - Adrian Cindea: i made the last changes ... because
description, carrier issue (move next to right a tiltle) and order height issue
(decreased)
21/07/25, 18:49 - Adrian Cindea: yes, as usual (20 minutes)
21/07/25, 18:51 - Adrian Cindea: we will prepare the pack for deploy (no
installation, it will be on server side -> 5-10 minutes to install before to
stop WAMAS, normally steps are done by us before but we will do it after your
approval for deploy this time) ... and it will be up to you to decide deploy
date
21/07/25, 19:00 - Benedetta Zini: Okay thanks
21/07/25, 19:00 - Benedetta Zini: Tomorrow I will let you know
21/07/25, 19:00 - Benedetta Zini: Have a nice evening!
22/07/25, 18:23 - Hai rimosso Daniele MMOperations.
23/07/25, 08:56 - Benedetta Zini: Good morning, who should I contact on SSI side
or can you ask them to add AGV 28 to system?

AGV 28 is going to Fetch pallet, but do not receive S-message from Host (without
this AGV can not continue to Fetch)

23/07/25, 08:57 - Benedetta Zini: Hello! This message is from Rocla technician...
23/07/25, 08:57 - Benedetta Zini: Is there anyone available to talk with him?
and fix this issue?
23/07/25, 08:58 - Benedetta Zini: it is regarding new ART 28
23/07/25, 09:17 - Benedetta Zini: it is urgent 😊
23/07/25, 09:38 - Razvan Voicu: Hello
23/07/25, 09:38 - Razvan Voicu: We will look
23/07/25, 09:40 - Benedetta Zini: Can I send to him your phone number?
23/07/25, 09:41 - Razvan Voicu: Questo messaggio è stato eliminato.
23/07/25, 09:41 - Razvan Voicu: but we will need a ticket for this
23/07/25, 09:45 - Benedetta Zini: I'm opening it (by sending an email) <Questo
messaggio è stato modificato>
23/07/25, 09:45 - Benedetta Zini: give me 5 min <Questo messaggio è stato
modificato>
23/07/25, 09:47 - Adrian Cindea: it seems the HIVE restart was not done
23/07/25, 09:47 - Adrian Cindea: *hello
23/07/25, 09:47 - Benedetta Zini: ☐☐
23/07/25, 09:47 - Adrian Cindea: solution is to:
23/07/25, 09:48 - Adrian Cindea: 1. agv diable
23/07/25, 09:48 - Adrian Cindea: 2. exectue orders
23/07/25, 09:48 - Adrian Cindea: 3. hive restart
23/07/25, 09:48 - Adrian Cindea: 4. agv enable
23/07/25, 09:48 - Adrian Cindea: no WAMAS restart (AGVs are affected for about
5-10 minutes) <Questo messaggio è stato modificato>
23/07/25, 09:48 - Benedetta Zini: Clear...
23/07/25, 09:49 - Adrian Cindea: please let us know when AGV disable is
setup ... to check hive orders ... and no order we will restart it ...
23/07/25, 09:49 - Adrian Cindea: and change it by us to enable the AGV
23/07/25, 09:53 - Benedetta Zini: okay
23/07/25, 09:53 - Benedetta Zini: I put agvDisable = true
23/07/25, 09:55 - Adrian Cindea: Razvan will make restart after current orders
are executed ...
23/07/25, 09:55 - Adrian Cindea: and announce here (restart + enable AGVs) when
it is done <Questo messaggio è stato modificato>
23/07/25, 09:58 - Benedetta Zini: you can start
23/07/25, 10:00 - Razvan Voicu: ok
23/07/25, 10:03 - Razvan Voicu: done
23/07/25, 10:04 - Benedetta Zini: okay great

23/07/25, 10:04 - Razvan Voicu: AGV 28 now is in hive
23/07/25, 10:04 - Benedetta Zini: suuuper fast <Questo messaggio è stato modificato>
23/07/25, 10:04 - Razvan Voicu: but looks like it's disconnected/inactive
23/07/25, 10:04 - Benedetta Zini: yes yes
23/07/25, 10:04 - Benedetta Zini: don't worry about it
23/07/25, 10:04 - Benedetta Zini: the technician is working on it
23/07/25, 10:04 - Razvan Voicu: Ok, understood
23/07/25, 10:05 - Razvan Voicu: change back the parameter when you want
23/07/25, 10:05 - Benedetta Zini: done
23/07/25, 10:05 - Razvan Voicu: let me know if you need more help
23/07/25, 10:06 - Benedetta Zini: yes thanks <Questo messaggio è stato modificato>
23/07/25, 10:08 - Benedetta Zini: no ticket right?
23/07/25, 10:09 - Adrian Cindea: no
23/07/25, 10:09 - Adrian Cindea: it was only a short ntervention ...
23/07/25, 10:09 - Benedetta Zini: okay thank you!
23/07/25, 10:09 - Adrian Cindea: we will do it .. in case the issue persists
23/07/25, 10:10 - Benedetta Zini: I hope not 😞
23/07/25, 10:10 - Benedetta Zini: I will let you know
23/07/25, 11:30 - Adrian Cindea: do you have any estimation when ART-28 will be tested?
23/07/25, 11:31 - Benedetta Zini: I will let you know
23/07/25, 17:29 - Benedetta Zini: Agv 28 did her first order fully automatic
23/07/25, 17:30 - Support Technician 7: They grow up so fast 🤖
23/07/25, 17:30 - Benedetta Zini: Reallyyy 🤖😭 <Questo messaggio è stato modificato>
24/07/25, 08:24 - Adrian Cindea: good morning ...
24/07/25, 08:25 - Adrian Cindea: i checked tpo executed by art-28 and 4 were done and no issue found
24/07/25, 08:26 - Adrian Cindea: it seems agv 28 is functional -> CR will be closed this month in case there is no issues reported until the end of month
24/07/25, 09:31 - Benedetta Zini: Good morning! yes it seems working well
24/07/25, 09:33 - Benedetta Zini: If it is okay for you I think it is better to close CR not at the end of this month but at around about the middle of August
24/07/25, 09:33 - Benedetta Zini: just because it will be 100% operational from 01/08
24/07/25, 09:34 - Adrian Cindea: k
24/07/25, 14:42 - Adrian Cindea: @Company Employee 25 printing date (time zone of contractee)? it means 7/24/2025 in Italy and marchall island is 7/ *25*/2025?
24/07/25, 14:42 - Adrian Cindea: right?
24/07/25, 14:43 - Adrian Cindea: i though all the time is italian date ... as on old packing time
24/07/25, 14:44 - Marco Taccini, Lavoro: the date format should be "day/month/year (YYYY)" but I mean that it should consider the timezone, so if it is 23/08/2025 23:30 UTC it is already 24/08/2025 Italian Time
24/07/25, 14:45 - Adrian Cindea: clear .. i will check it ...
24/07/25, 14:45 - Marco Taccini, Lavoro: thanks
24/07/25, 15:10 - Benedetta Zini: guys! it seems there is issue N44 in progress...
24/07/25, 15:11 - Benedetta Zini: waste bin 01068078 has TPO towards BENNEPIENE01 but no mission on Cway
24/07/25, 15:11 - Benedetta Zini: IMG-20250724-WA0000.jpg (file allegato)
24/07/25, 15:11 - Benedetta Zini: I marked this issue "need to be checked live"
24/07/25, 15:12 - Benedetta Zini: is there anyone available? otherwise i will try to solve it my self
24/07/25, 15:13 - Benedetta Zini: since Yesterday early in the morning <Questo messaggio è stato modificato>
24/07/25, 15:14 - Benedetta Zini: IMG-20250724-WA0001.jpg (file allegato)
24/07/25, 15:22 - Benedetta Zini: please feedback 😞
24/07/25, 15:23 - Benedetta Zini: IMG-20250724-WA0002.jpg (file allegato)
24/07/25, 15:34 - Adrian Cindea: wait 15 minutes
24/07/25, 15:34 - Adrian Cindea: i will try to get data to find root cause

24/07/25, 15:38 - Benedetta Zini: okay thank you! 🙏
24/07/25, 15:48 - Adrian Cindea: there is an order on hive from 22.07
24/07/25, 15:48 - Adrian Cindea: but no logs for comm hive - rocla (maybe to be checked on rocla too)
24/07/25, 15:51 - Adrian Cindea: we deleted hive order and it was resent automatically and it was already assigned to agv
24/07/25, 15:51 - Adrian Cindea: please inform rocla to check on their side
24/07/25, 15:52 - Benedetta Zini: I'm going to do it immediately
24/07/25, 15:52 - Benedetta Zini: thank you for checking!
24/07/25, 15:52 - Benedetta Zini: Now it is on ART-22
24/07/25, 15:52 - Benedetta Zini: I will let you know
24/07/25, 15:56 - Adrian Cindea: normally hive order was created properly but no communication log with hive -> rocla
24/07/25, 15:57 - Adrian Cindea: please ask rocla to check ...
24/07/25, 15:57 - Adrian Cindea: after deleting in about 2-3 seconds hive order was created and agv was assigned too very fast
24/07/25, 15:57 - Adrian Cindea: but the idea is rocla to check on 22.07 13:40
24/07/25, 15:58 - Adrian Cindea: maybe it was an issue on rocla side
24/07/25, 15:58 - Adrian Cindea: there is logs for about a couple of hours
24/07/25, 15:58 - Benedetta Zini: yes exactly
24/07/25, 15:59 - Benedetta Zini: okay
24/07/25, 15:59 - Benedetta Zini: give me 5 min
24/07/25, 15:59 - Adrian Cindea: IMG-20250724-WA0003.jpg (file allegato)
24/07/25, 15:59 - Adrian Cindea: hive order from 22.07 marked in yellow
24/07/25, 16:00 - Adrian Cindea: the idea is to delete old orders from hive maybe they are recreated if there is tpo on MFS side
24/07/25, 16:01 - Adrian Cindea: 4 very old + other 3 (one was solved)
24/07/25, 16:01 - Adrian Cindea: i dont if you have access to dialog ...
24/07/25, 16:01 - Benedetta Zini: what dialog?
24/07/25, 16:02 - Adrian Cindea: from the picture above
24/07/25, 16:02 - Benedetta Zini: it is Hive
24/07/25, 16:02 - Benedetta Zini: right?
24/07/25, 16:02 - Adrian Cindea: yes
24/07/25, 16:02 - Benedetta Zini: I have never used Hive
24/07/25, 16:02 - Adrian Cindea: there are some trasnport untis (7) to be checked ...
24/07/25, 16:03 - Adrian Cindea: a cleaning of hive orders needs to be done ...
24/07/25, 16:03 - Benedetta Zini: are they old?
24/07/25, 16:03 - Adrian Cindea: please send email and someone will check them and decide with you what to do ... to have hive uptodate
24/07/25, 16:03 - Adrian Cindea: from april and 2-3 days ago
24/07/25, 16:04 - Benedetta Zini: okay sorry I was checking the green ones
24/07/25, 16:04 - Adrian Cindea: IMG-20250724-WA0004.jpg (file allegato)
24/07/25, 16:04 - Benedetta Zini: yes yes I saw
24/07/25, 16:04 - Adrian Cindea: first column is the creation time
24/07/25, 16:04 - Benedetta Zini: yes
24/07/25, 16:04 - Benedetta Zini: an email to helpdesk?
24/07/25, 16:05 - Adrian Cindea: please yes ...
24/07/25, 16:05 - Adrian Cindea: to check old order of hive
24/07/25, 16:05 - Benedetta Zini: first I would like to check the first one with rocla
24/07/25, 16:05 - Benedetta Zini: than I will send an email
24/07/25, 16:05 - Adrian Cindea: k
24/07/25, 16:05 - Benedetta Zini: or can I check on wamas and then delete on Hive?
24/07/25, 16:06 - Benedetta Zini: I have never used Hive because I'm afraid of doing messes
24/07/25, 16:06 - Adrian Cindea: for today example it is needd to check on rocla if it was an order or not
24/07/25, 16:06 - Adrian Cindea: open ticket and we will check on wamas side and fix them (now maybe there only 6 ... on some cases it is enopugh to delete them form hive)
24/07/25, 16:07 - Adrian Cindea: as we did, order was deleted and executed ...
wwe will see for each order ...

24/07/25, 16:08 - Adrian Cindea: please ask the roccla to check marked hive order (to be sure it is not an issue on their side)
24/07/25, 16:10 - Adrian Cindea: based hive orders agv5 has an order from monday
24/07/25, 16:34 - Adrian Cindea: old orders are deleted ...
24/07/25, 16:35 - Adrian Cindea: i found 3 pallets delivered ...managed by operators
24/07/25, 16:35 - Adrian Cindea: now there are orders only from today
24/07/25, 16:39 - Benedetta Zini: Okay thank you
24/07/25, 16:39 - Benedetta Zini: I investigated with roccla but he did not find anything
24/07/25, 16:39 - Benedetta Zini: 😞
24/07/25, 16:40 - Benedetta Zini: Perfect
24/07/25, 16:40 - Adrian Cindea: please talk to operators to inform us
24/07/25, 16:40 - Adrian Cindea: as soon as possible
24/07/25, 16:40 - Benedetta Zini: About this issue?
24/07/25, 16:40 - Adrian Cindea: there are communication logs hive roccla for a couple of hours
24/07/25, 16:40 - Adrian Cindea: in case missing cway orders
24/07/25, 16:41 - Benedetta Zini: Okay
24/07/25, 16:41 - Adrian Cindea: the idea is to see if order was sent or not to roccla (becuase it was on hive)
24/07/25, 16:41 - Benedetta Zini: I will inform operators to inform you as soon as they doesn't receive a pallet or other
24/07/25, 16:41 - Benedetta Zini: Okay clear
24/07/25, 16:48 - Adrian Cindea: @Company Employee 25 label was saved in database (utc) : 23-JUL-25 10.11.54 PM (yesterday) and date on label was 24/07/2025 (today as printing time) <Questo messaggio è stato modificato>
24/07/25, 16:49 - Adrian Cindea: 53401019 - LU ID <Questo messaggio è stato modificato>
24/07/25, 16:49 - Adrian Cindea: so no issue related to printing date ... it is correct as italian time
24/07/25, 18:08 - Marco Taccini, Lavoro: perfect
26/07/25, 00:30 - Alex Ardilli, Personale: Hello guys we have a problem. There Is a pallet on the conveyor *0531 that has to go out in S48 but there isn't the mission for AGVs. The S48's locations aren't occupied.
26/07/25, 00:31 - Alex Ardilli, Personale: IMG-20250726-WA0000.jpg (file allegato)
26/07/25, 00:31 - Alex Ardilli, Personale: IMG-20250726-WA0001.jpg (file allegato)
26/07/25, 00:32 - Alex Ardilli, Personale: IMG-20250726-WA0002.jpg (file allegato)
The pallet Is delegated to the conveyor and not to AGVs
26/07/25, 00:33 - Alex Ardilli, Personale: IMG-20250726-WA0003.jpg (file allegato)
The fetching points are 221 and 231 but the mission there isn't
26/07/25, 00:34 - Alex Ardilli, Personale: Usually It restarts With refresh and reset, but benedetta told US to report to you if the issue happens
26/07/25, 00:40 - Alex Ardilli, Personale: Questo messaggio è stato eliminato.
26/07/25, 00:40 - Alex Ardilli, Personale: Questo messaggio è stato eliminato.

26/07/25, 00:40 - Alex Ardilli, Personale: Questo messaggio è stato eliminato.
26/07/25, 00:41 - Alex Ardilli, Personale: Questo messaggio è stato eliminato.
26/07/25, 00:55 - Alex Ardilli, Personale: Can i do refresh and reset to unlock It or are you checking It?
26/07/25, 01:13 - Alex Ardilli, Personale: Questo messaggio è stato eliminato.
28/07/25, 09:07 - Marco Taccini, Lavoro: Good morning, I will send you a message when we are ready for the deploy.
28/07/25, 12:25 - Razvan Voicu: Hello. I will handle deploy. Let me know when you set parameter and when we can start deploy
28/07/25, 12:27 - Marco Taccini, Lavoro: agvDisable = True
28/07/25, 12:28 - Marco Taccini, Lavoro: I'll tell you when we are ready
28/07/25, 12:37 - Marco Taccini, Lavoro: You can start
28/07/25, 12:40 - Razvan Voicu: Ok

28/07/25, 12:50 - Marco Taccini, Lavoro: Can you tell us something when you start?

28/07/25, 12:53 - Razvan Voicu: This was my signal for starting 😊

28/07/25, 12:54 - Marco Taccini, Lavoro: Ah ok, because I saw lighthouse still green.. I was not sure if you started

28/07/25, 12:54 - Marco Taccini, Lavoro: thank you

28/07/25, 12:54 - Razvan Voicu: Yeah, no problem, it's ongoing, Will let you know when I'm done

28/07/25, 13:07 - Marco Taccini, Lavoro: Does the deploy include only the label changes, or is there anything else?

28/07/25, 13:08 - Razvan Voicu: Ok, deploy done

28/07/25, 13:08 - Razvan Voicu: @Support Technician 12 can help you with what's in the deploy

28/07/25, 13:09 - Razvan Voicu: But I'm guessing the deploy includes only what was agreed

28/07/25, 14:02 - Benedetta Zini: Guys!

28/07/25, 14:02 - Benedetta Zini: Me and technician of need your help

28/07/25, 14:03 - Benedetta Zini: we are testing "Switching off voltage on a part of monorail (ex. loop 3, maintenance track,) results in "no-retrieve" of all vehicles working in the loops"

28/07/25, 14:04 - Benedetta Zini: technician of Pentanova remove messages but wamas is still not see available the ems

28/07/25, 14:14 - Benedetta Zini: is there anyone available?

28/07/25, 14:38 - Adrian Cindea: hello

28/07/25, 14:38 - Adrian Cindea: we did not make any change

28/07/25, 14:39 - Adrian Cindea: we will check the device if it is connected or not

28/07/25, 14:39 - Benedetta Zini: I know

28/07/25, 14:39 - Benedetta Zini: Pentanova did it

28/07/25, 14:39 - Benedetta Zini: but without success

28/07/25, 14:40 - Adrian Cindea: it is SOC not available on our side

28/07/25, 14:40 - Benedetta Zini: Pentanova is not sending error messages

28/07/25, 14:40 - Adrian Cindea: EMS is not available MFS

28/07/25, 14:40 - Benedetta Zini: I know but why?

28/07/25, 14:40 - Benedetta Zini: Pentanova is not sending error messages

28/07/25, 14:41 - Benedetta Zini: so why from your side EMS is not available?

28/07/25, 14:44 - Adrian Cindea: IMG-20250728-WA0010.jpg (file allegato)

28/07/25, 14:45 - Adrian Cindea: i need to check with developers and PLC ...to clarify this topic

28/07/25, 14:45 - Adrian Cindea: maybe it is needed some software changes

28/07/25, 14:45 - Benedetta Zini: 😞😞😞

28/07/25, 14:46 - Adrian Cindea: i dont know what means if loop is not reachable ...

28/07/25, 14:46 - Adrian Cindea: with picking orders and transports for that stations

28/07/25, 14:46 - Benedetta Zini: so remove error messages from Pentanova side is not enough?

28/07/25, 14:47 - Adrian Cindea: it seems not enough

28/07/25, 14:47 - Benedetta Zini: maybe because we open a safety door or some other Emergency cas

28/07/25, 14:47 - Benedetta Zini: case

28/07/25, 14:47 - Adrian Cindea: yes

28/07/25, 14:47 - Adrian Cindea: the pentanova sends to mFS more information

28/07/25, 14:48 - Benedetta Zini: yes yes

28/07/25, 14:48 - Adrian Cindea: besides info stopped ...

28/07/25, 14:48 - Adrian Cindea: and MFS considered EMS only one devicde ... not 3 devices as 8 cranes

28/07/25, 14:48 - Benedetta Zini: yes yes I know

28/07/25, 14:48 - Benedetta Zini: Razvan explained me last time

28/07/25, 14:48 - Adrian Cindea: and it is needed adaptation to not retrieve pallets in case a device is not available

28/07/25, 14:49 - Benedetta Zini: first we need to find a workaround for next week...

28/07/25, 14:52 - Adrian Cindea: i dont know if it is possible

28/07/25, 14:52 - Benedetta Zini: we need to find something....
 28/07/25, 14:52 - Adrian Cindea: maybe to close the staitons
 28/07/25, 14:53 - Benedetta Zini: now they are already closed
 28/07/25, 14:53 - Benedetta Zini: from 7 to 12
 28/07/25, 14:53 - Benedetta Zini: not from 1 to 6
 28/07/25, 14:53 - Adrian Cindea: and normally monorails no need to travel in tha
 tarea
 28/07/25, 14:53 - Benedetta Zini: loop 3?
 28/07/25, 14:54 - Adrian Cindea: loop 3 has station 7-12
 28/07/25, 14:55 - Benedetta Zini: yes
 28/07/25, 14:55 - Benedetta Zini: we closed all pick stations from 7 to 12
 28/07/25, 14:55 - Adrian Cindea: fix the emrgency stop
 28/07/25, 14:55 - Benedetta Zini: how?
 28/07/25, 14:56 - Adrian Cindea: close the door
 28/07/25, 14:56 - Benedetta Zini: no
 28/07/25, 14:56 - Benedetta Zini: we need to leave the door open
 28/07/25, 14:56 - Adrian Cindea: emegenci stop means to stop
 28/07/25, 14:56 - Adrian Cindea: it is needed to not send us door is open
 temporary and station to be closed <Questo messaggio è stato modificato>
 28/07/25, 14:57 - Benedetta Zini: Pentanova tried to do it
 28/07/25, 14:58 - Adrian Cindea: close the door to see if system is up and opne
 the door ,..
 28/07/25, 14:58 - Benedetta Zini: how do you get emergency stop status? thru
 which message?
 28/07/25, 14:58 - Adrian Cindea: i need to check message exchanged
 28/07/25, 14:58 - Benedetta Zini: okya... now it is close, we are opening again
 28/07/25, 14:58 - Adrian Cindea: just to test message from pentanova
 28/07/25, 14:59 - Adrian Cindea: it seems bit for door open is still sent
 28/07/25, 15:01 - Adrian Cindea: the door is controlled by EMS?
 28/07/25, 15:01 - Adrian Cindea: do you know asking Pentanova?
 28/07/25, 15:02 - Adrian Cindea: in case it is controlled somehow by SSI,
 Pentanova changes are useless
 28/07/25, 15:04 - Benedetta Zini: I'm asking <Questo messaggio è stato
 modificato>
 28/07/25, 15:05 - Benedetta Zini: yes the doors are controlled by ems
 28/07/25, 15:06 - Hai aggiunto Jasenko Curkovic.
 28/07/25, 15:06 - Benedetta Zini: @Support Technician 12 here is @Support
 Technician 26 from ems
 28/07/25, 15:06 - Benedetta Zini: @Support Technician 12 @Support Technician 26
 now the door is opened
 28/07/25, 15:09 - Benedetta Zini: what did you do?
 28/07/25, 15:09 - Benedetta Zini: it seems working now
 28/07/25, 15:09 - Jasenko Curkovic: i made another change
 28/07/25, 15:09 - Benedetta Zini: great
 28/07/25, 15:10 - Jasenko Curkovic: can you check on wamas if there is still
 emergency stop status on ems?
 28/07/25, 15:10 - Benedetta Zini: now all LUs are waiting for EMS transfer 🚨
 28/07/25, 15:10 - Benedetta Zini: @Support Technician 12
 28/07/25, 15:15 - Jasenko Curkovic: I forced the emergency stop status to zero
 in message TT1636 <Questo messaggio è stato modificato>
 28/07/25, 15:16 - Adrian Cindea: IMG-20250728-WA0016.jpg (file allegato)
 28/07/25, 15:16 - Adrian Cindea: now it is available
 28/07/25, 15:16 - Adrian Cindea: i get 2 messages with 00000...01
 28/07/25, 15:16 - Benedetta Zini: okay greta
 28/07/25, 15:16 - Jasenko Curkovic: yes that is master control status 1 <Questo
 messaggio è stato modificato>
 28/07/25, 15:16 - Benedetta Zini: great
 28/07/25, 15:17 - Adrian Cindea: IMG-20250728-WA0017.jpg (file allegato)
 28/07/25, 15:17 - Adrian Cindea: 1st is emergency stop the others are with no
 emergency stop
 28/07/25, 15:17 - Jasenko Curkovic: should I reverse the changes for errors to
 lighthouse I did before?
 28/07/25, 15:17 - Adrian Cindea: i dont know when it was chanegd
 28/07/25, 15:18 - Adrian Cindea: yes from my point of view ... but ask customer

too

28/07/25, 15:18 - Benedetta Zini: by putting as it was before your change?
28/07/25, 15:19 - Jasenko Curkovic: Benedetta I will roll back the errors to wamas, then we will see
28/07/25, 15:19 - Jasenko Curkovic: yes
28/07/25, 15:19 - Benedetta Zini: yes please!
28/07/25, 15:19 - Benedetta Zini: thank you
28/07/25, 15:19 - Jasenko Curkovic: ok give me a moment
28/07/25, 15:19 - Adrian Cindea: now door is open ?
28/07/25, 15:19 - Benedetta Zini: yes, it is still open
28/07/25, 15:20 - Adrian Cindea: soc is available :)
28/07/25, 15:20 - Benedetta Zini: super, workaround works!
28/07/25, 15:21 - Adrian Cindea: workaround - door sensor to make it to report door closed with open phycically open :)
28/07/25, 15:22 - Benedetta Zini: ahahah I don't like 😊
28/07/25, 15:23 - Benedetta Zini: because we would still have electricity on loop3
28/07/25, 15:24 - Benedetta Zini: with door open there isn't electric current on loop 3
28/07/25, 15:24 - Jasenko Curkovic: ok i reversed changes, can you check messages on wamas? <Questo messaggio è stato modificato>
28/07/25, 15:24 - Benedetta Zini: yessss
28/07/25, 15:24 - Benedetta Zini: red dot on scada + error messages
28/07/25, 15:24 - Benedetta Zini: like it was before
28/07/25, 15:25 - Jasenko Curkovic: and ems still available for mfr?
28/07/25, 15:25 - Adrian Cindea: yes
28/07/25, 15:25 - Jasenko Curkovic: trolleys getting paletts
28/07/25, 15:25 - Adrian Cindea: LH is only visualisation
28/07/25, 15:25 - Benedetta Zini: yess
28/07/25, 15:26 - Jasenko Curkovic: ok great
28/07/25, 15:26 - Benedetta Zini: i know in fact i was checking directly on wamas
28/07/25, 15:26 - Adrian Cindea: IMG-20250728-WA0018.jpg (file allegato)
28/07/25, 15:26 - Benedetta Zini: no waiting messages
28/07/25, 15:26 - Adrian Cindea: k
28/07/25, 15:27 - Jasenko Curkovic: should I leave it so Benedatta?
28/07/25, 15:27 - Adrian Cindea: IMG-20250728-WA0019.jpg (file allegato)
28/07/25, 15:27 - Jasenko Curkovic: or roll back and then activate right before needed next week?
28/07/25, 15:27 - Adrian Cindea: please check other doors
28/07/25, 15:28 - Adrian Cindea: to be sure only this door is affected in case there are more
28/07/25, 15:28 - Adrian Cindea: it is only an idea ...
28/07/25, 15:28 - Benedetta Zini: what could be the side effects?
28/07/25, 15:29 - Jasenko Curkovic: this is general now, affects all estops
28/07/25, 15:30 - Benedetta Zini: okay
28/07/25, 15:30 - Jasenko Curkovic: I need to go deeper to isolate only door in fg3 and other to leave active
28/07/25, 15:31 - Benedetta Zini: but this message is only for wamas, right?
28/07/25, 15:32 - Jasenko Curkovic: this is for mfr only, yes
28/07/25, 15:32 - Jasenko Curkovic: safety is not affected
28/07/25, 15:32 - Benedetta Zini: yes exactly MFS, what is the reason to stop pick up/delivery pallets between conveyor and ems?
28/07/25, 15:33 - Jasenko Curkovic: but if you open the door in fg1 or fg2, mfr will not know
28/07/25, 15:33 - Jasenko Curkovic: and it will not block picking up
28/07/25, 15:34 - Benedetta Zini: and for us it is okay
28/07/25, 15:35 - Benedetta Zini: regarding pick up/delivery pallet
28/07/25, 15:36 - Jasenko Curkovic: ok, then I will leave it so till you tell me to reverse to normal
28/07/25, 15:36 - Benedetta Zini: We tried another door
28/07/25, 15:37 - Benedetta Zini: IMG-20250728-WA0020.jpg (file allegato)
28/07/25, 15:40 - Benedetta Zini: so, workaround WORKS 😊
28/07/25, 15:40 - Benedetta Zini: I'm very happy (I was like 😊 20 min ago

aahahah)

28/07/25, 15:41 - Benedetta Zini: thank you @Support Technician 26 @Support Technician 12 for your support

28/07/25, 15:41 - Jasenko Curkovic: ok you can go on with reconstruction in fg3

28/07/25, 15:41 - Benedetta Zini: yes exactly

28/07/25, 15:41 - Jasenko Curkovic: when are you starting exactly, next week?

28/07/25, 15:42 - Benedetta Zini: on 06/08 at 8 am

28/07/25, 15:45 - Hai rimosso Jasenko Curkovic.
