24/06/21, 09:40 - Tai Pham: AgV 3 is currently blocked by AGV 6. I've already asked for help checking 6

24/06/21, 09:40 - Mihai Soceanu: ok thx

24/06/21, 09:40 - Tai Pham: Yes, 2, 3 8 and 14 are blocked by 6 :(

24/06/21, 09:41 - Mihai Soceanu: ok ...

24/06/21, 09:41 - Mihai Soceanu: i just recognized that pallets are not moving for some time

24/06/21, 09:43 - Support Technician 16: Nu pare sa fie stocul, am verificat si nu este nici o problema

24/06/21, 09:44 - Tudor, Progetto Lavoro: De vreo 1 si jumătate ii vine numai câte un order

24/06/21, 09:45 - Support Technician 16: 7 si 12 sunt de acelasi tip, wamas le da fie la unul fie la altul cand poate, cand are stoc, eventual intreaba in office daca au cumva lipsa de stoc sau бага acuma

24/06/21, 09:46 - Tudor, Progetto Lavoro: Nu...la 7 este normal size...dar 12 este extra size

24/06/21, 09:47 - Support Technician 16: da, ai dreptate, unul e normal si unul extra size dar is ambele si express courier

24/06/21, 09:49 - Support Technician 16: dar ignora ce am zis, chestia e de stoc, dupa cate vad fie pentru unele nu e unde trebuie stocul fie pentru altele nu e destul

24/06/21, 10:49 - Support Technician 25: As agreed with @Company Employee 16 , we need to change the policy in the Whatsapp chat a little, new rules shall apply:

Issues reported by Atlas shall not be fixed by SSI if Atlas can self resolve it. If Atlas is not capable to do SSI can highlight (e.g. check dialogue MF12345) SSI shall not quick fix something because it's faster and easier for the daily operation. It's OK to invest 20 minutes for checking and Atlas is subsequently independent.

Issues reported by Atlas that are a real OIL shall be treated as an OIL (Excel, ITS, JIRA).

Main target is to get Atlas into the possibility to be independent, the chat will get inactivated sooner or later.

Thank you for your cooperation at both sides.

24/06/21, 10:49 - Support Technician 25: Come concordato con @Company Employee 16 , dobbiamo cambiare un po' la policy nella chat di Whatsapp, si applicheranno nuove regole:

I problemi segnalati da Atlas non verranno risolti da SSI se Atlas è in grado di risolverli autonomamente. Se Atlas non è in grado di eseguire SSI può evidenziare (ad es. controllare la finestra di dialogo MF12345)

SSI non risolverà rapidamente qualcosa perché è più veloce e più facile per le operazioni quotidiane. Va bene investire 20 minuti per il controllo e Atlas è successivamente indipendente.

I problemi segnalati da Atlas che sono un vero OIL devono essere trattati come un OIL (Excel, ITS, JIRA).

L'obiettivo principale è dare ad Atlas la possibilità di essere indipendente, la

chat verrà disattivata prima o poi.

Grazie per la collaborazione da entrambe le parti.

24/06/21, 14:15 - Giacomo Trivieri, Lavoro: @Support Technician 6 @Support Technician 21 hi guys good afternoon👋 Consulting the troubleshooting guide, we have not fought a point regarding the error "wait for storage failed" on mf200; someone could help us?

24/06/21, 14:17 - Giacomo Trivieri, Lavoro: More precisly, someone could say to us how to fix It?making in manner that we can be indipendent

24/06/21, 14:35 - Support Technician 16: @Company Employee 10 The troubleshooting guide does not contain this as this error has a very broad range that can vary from case to case. If you are experiencing problems with a specific pallet, that one needs to be investigated. @Support Technician 25 for confirmation, in case of things like this, should they do a ticket or post it here?

24/06/21, 14:52 - Capoturno Picking Progetto Lavoro: IMG-20210624-WA0005.jpg (file allegato)

24/06/21, 14:52 - Capoturno Picking Progetto Lavoro: Blocked

24/06/21, 14:57 - Support Technician 16: Please use Atlas maintainance team to check, if they can not resolved please open ticket

24/06/21, 15:03 - Giacomo Trivieri, Lavoro: @Support Technician 16 we are checking

24/06/21, 15:34 - Milo Barozzi: if we open a ticket it'll take 2 or 3 hours minimum... I suggest the channel.

24/06/21, 15:35 - Milo Barozzi: I think we should reduce the number of easy topics in the channel, but not stopping using it. In the situation we are, it's impossible to don't use it. Target is to use it less and to Atlas be more autonomous, but in case we cannot fix an issue and it's blocking something, I think channel is the best way. more precisely, this is the aim of this channel 😊

24/06/21, 15:38 - Support Technician 14: Hi Milo, as agreed we'll use the scope of this channel first week of July inclusive. After that we should post only critical issues(of course a minor can become critical if not solved on a specific time but first you should try all the hints that you have)

24/06/21, 15:39 - Support Technician 14: and if issue is not a bug it will be treated accordingly

24/06/21, 15:43 - Milo Barozzi: @Support Technician 14 exactly. For more clarity for all. Let's start in the different way from 12th July. Right?

24/06/21, 15:44 - Support Technician 14: 👍

24/06/21, 15:45 - Milo Barozzi: Thank you!

24/06/21, 17:10 - Milo Barozzi: IMG-20210624-WA0010.jpg (file allegato)

 dear All... I think we have an issue with empty pallets supply... no picking station is working an in OG525 I saw this 4 lines with no data... could it be this the issue? 

24/06/21, 17:13 - Milo Barozzi: IMG-20210624-WA0011.jpg (file allegato)

also AF destacker has the last pallet and no TPO for empty stacker seem to be created:

24/06/21, 17:22 - Milo Barozzi: I see now something is moving... I'm really curious if you did something or not? 😊

24/06/21, 17:23 - Giacomo Trivieri, Lavoro: IMG-20210624-WA0012.jpg (file allegato)

Cu384 @Support Technician 25

24/06/21, 17:24 - Support Technician 25: Pallet seems well aligned

24/06/21, 17:24 - Support Technician 25: I suspect rigid foil at back of pallet?

24/06/21, 17:27 - Support Technician 16: Hi, no, those have no problem, the issue pallets are waiting to enter Wuzzi, it is due to the fact that the issue highlighthed by Ufficio Colli at 4 PM(RO time), you managed to resolve it, but the damage from what I see, it waas done from 2:30 PM your time, by someone

named plcrepartol, LU-ID, 59209320, he did a manual TPO from what I understand is was an empty stack? I know that you during the intervention did a manual TPO for the pallet? Anyway, this bloked silently the Wuzi part for a good amount of time until Uffico noticed and the boys from maintainance and you fixed it, also for the AF, he was also waiting to go through Wuzi

24/06/21, 17:29 - Support Technician 16: We did nothing

24/06/21, 17:32 - Support Technician 16: <Media omessi>

24/06/21, 17:33 - Milo Barozzi: ah damn it... so resolution was "just waiting" all the traffic accumulated on that time was passing.. right?

24/06/21, 17:34 - Support Technician 16: exactly

24/06/21, 17:34 - Milo Barozzi: ok, thanks for checking. in other terms, if the wuzzi is stucked, we're.... f\*\*\*ed! 🤔

24/06/21, 17:35 - Support Technician 16: it is the central point of movements where most pallets have to pass, so... yes.

24/06/21, 17:39 - Capoturno Picking Progetto Lavoro: Station n.7 blocked

24/06/21, 17:40 - Support Technician 16: Waiting for Wuzi, as described above

24/06/21, 17:51 - Capoturno Picking Progetto Lavoro: Station n.7 D02 plt F does not ho away

24/06/21, 17:51 - Capoturno Picking Progetto Lavoro: go

24/06/21, 17:57 - Mihai Soceanu: hi

24/06/21, 17:57 - Mihai Soceanu: we need to send pallets to S46

24/06/21, 17:57 - Mihai Soceanu: this is a bug @Company Employee 16 plsease open a ticket for this

24/06/21, 17:58 - Mihai Soceanu: if pallet is really empty pls cancel current TPO and send it to S46

24/06/21, 17:58 - Mihai Soceanu: as for now

24/06/21, 17:58 - Mihai Soceanu: 85071527=station 7 and 85094334= station 10

24/06/21, 18:20 - Milo Barozzi: bug is: empty pallet sent away be "release source LU"/"release destination LU" button is not going to S46?

24/06/21, 18:23 - Capoturno Picking Progetto Lavoro: IMG-20210624-WA0013.jpg (file allegato)

24/06/21, 18:28 - Mihai Soceanu: yes pls

24/06/21, 18:28 - Mihai Soceanu: that is the bug

24/06/21, 18:28 - Mihai Soceanu: but i need to mention that the user has to be 100% sure that pallet is empty when he confirms it

24/06/21, 18:29 - Mihai Soceanu: not to send empty pallets to S46 which are not really empty

24/06/21, 18:31 - Capoturno Picking Progetto Lavoro: Questo messaggio è stato eliminato.

24/06/21, 18:37 - Milo Barozzi: Sorry to say, but this bug is issue D122, already highlighted to CSS on 10.06. JIRA is <https://jira.ssi-schaefer.com/browse/IT1400016-3675>

24/06/21, 18:38 - Mihai Soceanu: that one was a D pallet

24/06/21, 18:38 - Mihai Soceanu: this one was a F pallet

24/06/21, 18:38 - Mihai Soceanu: :(

24/06/21, 19:04 - Company Employee 18: IMG-20210624-WA0017.jpg (file allegato)

@Support Technician 21 @Support Technician 6 hi guys we have an error very particular can you check the reason?

24/06/21, 19:05 - Razvan Voicu: I can check in 5 minutes

24/06/21, 19:06 - Mihai Soceanu: do you have the pallet barcode pls

24/06/21, 19:06 - Mihai Soceanu: ?

24/06/21, 19:08 - Company Employee 18: 59961073

24/06/21, 19:10 - Mihai Soceanu: this is the same case as in the morning

24/06/21, 19:10 - Mihai Soceanu: with the F pallet

24/06/21, 19:10 - Mihai Soceanu: was at station 8

24/06/21, 19:11 - Mihai Soceanu: as far as i see but i check

24/06/21, 19:12 - Mihai Soceanu: was release from sttaion 8 as an empty pallet

24/06/21, 19:13 - Company Employee 18: Ok understand but the system I think should be not do this right?

24/06/21, 19:13 - Mihai Soceanu: i will check if i can check the pallt if is really empty when is passing the shape control

24/06/21, 19:13 - Mihai Soceanu: at wunderwuzzi

24/06/21, 19:14 - Mihai Soceanu: pls create a ticket  
 24/06/21, 19:14 - Mihai Soceanu: but the user should not do that ...  
 24/06/21, 19:14 - Company Employee 18: Ok I call the hot line and I create a ticket  
 24/06/21, 19:15 - Mihai Soceanu: thank you  
 24/06/21, 19:15 - Giacomo Trivieri, Lavoro: System should see and block this kind of "error"..i hope  
 24/06/21, 19:15 - Mihai Soceanu: and now we need to take it out manuallu  
 24/06/21, 19:16 - Giacomo Trivieri, Lavoro: Now Giacomo Is on telephone with help desk  
 24/06/21, 19:16 - Mihai Soceanu: i need to check what i can do  
 24/06/21, 19:16 - Giacomo Trivieri, Lavoro: @Support Technician 6 @Support Technician 21  
 24/06/21, 19:16 - Mihai Soceanu: or we can do  
 24/06/21, 19:16 - Mihai Soceanu: but this pallet has to be taken out manually  
 24/06/21, 19:16 - Mihai Soceanu: ...  
 24/06/21, 19:16 - Mihai Soceanu: srry  
 24/06/21, 19:16 - Giacomo Trivieri, Lavoro: Ok we Will move It using CTOP  
 24/06/21, 19:17 - Giacomo Trivieri, Lavoro: But in front of him there Is already another empty pellet (on cu120)  
 24/06/21, 19:17 - Mihai Soceanu: thx  
 24/06/21, 19:17 - Mihai Soceanu: if is really empty we can send to S46  
 24/06/21, 19:17 - Mihai Soceanu: to release the area  
 24/06/21, 19:17 - Mihai Soceanu: but  
 24/06/21, 19:18 - Mihai Soceanu: IMG-20210624-WA0018.jpg (file allegato)  
 24/06/21, 19:18 - Mihai Soceanu: this 2 pallets should not continue  
 24/06/21, 19:18 - Giacomo Trivieri, Lavoro: Can we out that two conveyors in manual with ctop?  
 24/06/21, 19:19 - Giacomo Trivieri, Lavoro: Put\*  
 24/06/21, 19:19 - Mihai Soceanu: we can try  
 24/06/21, 19:19 - Mihai Soceanu: first put those 2 in manual  
 24/06/21, 19:19 - Giacomo Trivieri, Lavoro: Ok Just a sec  
 24/06/21, 19:19 - Mihai Soceanu: then switch target to S46 for the B pallet  
 24/06/21, 19:20 - Mihai Soceanu: then take out the 1073  
 24/06/21, 19:31 - Mihai Soceanu: put only 117 in manual  
 24/06/21, 19:31 - Giacomo Trivieri, Lavoro: @Support Technician 6 we are trying to switch target for the B empty pellet but when we write in the window "create TO",wamas ask to us a precise location of S46 and also write a precise location in "grafo flusso merci" but we dont know which location of grafo flusso merci Is correct. Can you help us and maybe also explain whic Is the correct One?  
 24/06/21, 19:31 - Mihai Soceanu: yes  
 24/06/21, 19:32 - Mihai Soceanu: IMG-20210624-WA0019.jpg (file allegato)  
 24/06/21, 19:32 - Mihai Soceanu: done  
 24/06/21, 19:34 - Company Employee 18: To is created  
 24/06/21, 19:34 - Company Employee 18: Perfect we wait an agv  
 24/06/21, 19:35 - Mihai Soceanu: AGV27 should come  
 24/06/21, 19:37 - Giacomo Trivieri, Lavoro: To solve this kind of error, recreating a new TO, have we to put Always "sS46" in the dialog "strategic warehouse's area?  
 24/06/21, 19:37 - Giacomo Trivieri, Lavoro: @Support Technician 6  
 24/06/21, 19:37 - Mihai Soceanu: yes  
 24/06/21, 19:37 - Mihai Soceanu: and system will decide where to send it  
 24/06/21, 19:37 - Mihai Soceanu: but only in this case  
 24/06/21, 19:37 - Mihai Soceanu: and always check if pallet is really empty  
 24/06/21, 19:37 - Mihai Soceanu: pls  
 24/06/21, 19:39 - Giacomo Trivieri, Lavoro: S46 keep also full pellets so why the reason that we have to check Always that Is really empty?@Support Technician 6  
 24/06/21, 19:39 - Mihai Soceanu: because if flag empty is marked  
 24/06/21, 19:39 - Mihai Soceanu: as for this one  
 24/06/21, 19:39 - Mihai Soceanu: so it has no stock  
 24/06/21, 19:40 - Mihai Soceanu: system will send it to a small location  
 24/06/21, 19:40 - Giacomo Trivieri, Lavoro: Aaaa ok get it👍  
 24/06/21, 19:41 - Giacomo Trivieri, Lavoro: With cu 117 in manual, AGV won't

take down the B empty pellet  
24/06/21, 19:42 - Giacomo Trivieri, Lavoro: @Support Technician 6  
24/06/21, 19:42 - Mihai Soceanu: then use ctop to move pallet from destacker  
24/06/21, 19:43 - Mihai Soceanu: IMG-20210624-WA0020.jpg (file allegato)  
24/06/21, 19:43 - Giacomo Trivieri, Lavoro: IMG-20210624-WA0021.jpg (file allegato)  
24/06/21, 19:43 - Mihai Soceanu: cool  
24/06/21, 19:43 - Mihai Soceanu: already there  
24/06/21, 19:43 - Mihai Soceanu: then book it to LDF01C1181  
24/06/21, 19:44 - Mihai Soceanu: and send it to MDP05L01  
24/06/21, 19:44 - Giacomo Trivieri, Lavoro: It was already there also before this incident  
24/06/21, 19:45 - Mihai Soceanu: ok then just rebook to LDF01C1181 and create Transport to MDP05L01  
24/06/21, 19:45 - Giacomo Trivieri, Lavoro: How can i rebook It?  
24/06/21, 19:46 - Mihai Soceanu: first cancel existing transport  
24/06/21, 19:46 - Giacomo Trivieri, Lavoro: Ok and then?  
24/06/21, 19:46 - Giacomo Trivieri, Lavoro: Did it  
24/06/21, 19:46 - Mihai Soceanu: IMG-20210624-WA0022.jpg (file allegato)  
24/06/21, 19:46 - Mihai Soceanu: oh ok  
24/06/21, 19:46 - Giacomo Trivieri, Lavoro: After that?  
24/06/21, 19:47 - Mihai Soceanu: IMG-20210624-WA0023.jpg (file allegato)  
then  
24/06/21, 19:47 - Mihai Soceanu: transport is not canceled  
24/06/21, 19:48 - Mihai Soceanu: you cancelled for 59961072  
24/06/21, 19:48 - Mihai Soceanu: this is 59961073  
24/06/21, 19:49 - Giacomo Trivieri, Lavoro: We kept that pellet manually too slow now sorry  
24/06/21, 19:50 - Mihai Soceanu: is ok we will recreate transport for 59961072  
24/06/21, 19:50 - Mihai Soceanu: so first cancel for 59961073  
24/06/21, 19:50 - Mihai Soceanu: then edit  
24/06/21, 19:50 - Mihai Soceanu: and put in location LDF01C1181  
24/06/21, 19:52 - Mihai Soceanu: you do it manually ?  
24/06/21, 19:55 - Giacomo Trivieri, Lavoro: IMG-20210624-WA0024.jpg (file allegato)  
24/06/21, 19:55 - Giacomo Trivieri, Lavoro: Yes did It manually  
24/06/21, 19:56 - Giacomo Trivieri, Lavoro: Next time Will try using wamas but for now Is at least 40 minutes of out pick guys are blocked  
24/06/21, 19:56 - Giacomo Trivieri, Lavoro: Our\*  
24/06/21, 19:57 - Giacomo Trivieri, Lavoro: Can you fix the logical part?now pishical part Is ok  
24/06/21, 19:57 - Giacomo Trivieri, Lavoro: @Support Technician 6  
24/06/21, 19:58 - Mihai Soceanu: Give me 1 sec  
24/06/21, 19:58 - Giacomo Trivieri, Lavoro: Ok  
24/06/21, 19:59 - Mihai Soceanu: 59961073 i will book to lost and found  
24/06/21, 19:59 - Giacomo Trivieri, Lavoro: Ok  
24/06/21, 20:00 - Giacomo Trivieri, Lavoro: Can we put wuzzi in auto?  
24/06/21, 20:00 - Giacomo Trivieri, Lavoro: To make works our pick guys?  
24/06/21, 20:00 - Mihai Soceanu: 59961072 same  
24/06/21, 20:00 - Giacomo Trivieri, Lavoro: Ok same treatment Is ok  
24/06/21, 20:01 - Mihai Soceanu: now put in auto pls  
24/06/21, 20:25 - Giacomo Trivieri, Lavoro: IMG-20210624-WA0025.jpg (file allegato)  
@Support Technician 6 can you check this?i have created a T0 destonated to PSF01C0461 but It won't move  
24/06/21, 20:25 - Giacomo Trivieri, Lavoro: I dont know how to do with that specifico error  
24/06/21, 20:29 - Mihai Soceanu: it is an empty pallet correct  
24/06/21, 20:29 - Mihai Soceanu: ?  
24/06/21, 20:35 - Mihai Soceanu: so you took it off manually  
24/06/21, 20:35 - Mihai Soceanu: :)  
24/06/21, 20:35 - Mihai Soceanu: ok  
25/06/21, 07:02 - Mihai Soceanu: IMG-20210625-WA0000.jpg (file allegato)  
25/06/21, 07:02 - Mihai Soceanu: is this an empty pallet

25/06/21, 07:02 - Mihai Soceanu: ?  
25/06/21, 07:04 - Andrea Brunetti: No Is a B pallet  
25/06/21, 07:04 - Mihai Soceanu: is it empty  
25/06/21, 07:04 - Mihai Soceanu: ?  
25/06/21, 07:06 - Andrea Brunetti: IMG-20210625-WA0004.jpg (file allegato)  
25/06/21, 07:06 - Andrea Brunetti: IMG-20210625-WA0003.jpg (file allegato)  
25/06/21, 07:08 - Mihai Soceanu: ok thx  
25/06/21, 07:09 - Andrea Brunetti: Thanks  
25/06/21, 07:09 - Andrea Brunetti: Okay, thank you so much, how did you do that  
25/06/21, 07:37 - Mihai Soceanu: is it ok if i restart hive will take 1 minute  
25/06/21, 07:48 - Stefano Dall'Asta, Lavoro: Only automatico?  
25/06/21, 07:48 - Mihai Soceanu: yes  
25/06/21, 07:48 - Stefano Dall'Asta, Lavoro: Ok so  
25/06/21, 07:49 - Mihai Soceanu: thx  
25/06/21, 07:49 - Support Technician 25: Hive is AGV controller between WAMAS and AGV  
25/06/21, 07:51 - Mihai Soceanu: done thx  
25/06/21, 07:51 - Mihai Soceanu: yep only AGV  
25/06/21, 08:01 - Support Technician 25: Power Outage?  
25/06/21, 08:04 - Company Employee 18: IMG-20210625-WA0005.jpg (file allegato)  
What happen?  
25/06/21, 08:05 - Support Technician 25: No idea...  
25/06/21, 08:05 - Andrea Brunetti: 🤔  
25/06/21, 08:05 - Mihai Soceanu: IMG-20210625-WA0006.jpg (file allegato)  
25/06/21, 08:06 - Stefano Dall'Asta, Lavoro: Of it matters manual part Is fine  
25/06/21, 08:06 - Mihai Soceanu: there is no problem in wamas  
25/06/21, 08:06 - Support Technician 25: No 🗣️ sounds like a mixture of E-Stop triggered and Power Cut of Crane supply?  
25/06/21, 08:35 - Support Technician 25: @Company Employee 18 @Company Employee 12 everything allight? Still E-Stop and 8 Cranes down?  
25/06/21, 08:35 - Milo Barozzi: They're looking on it  
25/06/21, 08:35 - Milo Barozzi: no E-Stop was triggered  
25/06/21, 08:35 - Milo Barozzi: Cranes it's a mistery right now, Andrea is looking into it  
25/06/21, 08:37 - Milo Barozzi: F02 is now fine  
25/06/21, 08:38 - Support Technician 25: IMG-20210625-WA0007.jpg (file allegato)  
Did Foiling trigger an E-Stop?  
25/06/21, 08:39 - Milo Barozzi: from what I understood from Giacomo and Andrea, no E-Stop was pressed  
25/06/21, 08:40 - Support Technician 25: Any indication on a Power Spike or Voltage Drop?  
25/06/21, 08:43 - Milo Barozzi: some more pieces of info. Due to a communication error between two foiling machines, Profinet of foiling machines was automatically triggered (it's a safe measure, when both machines are in automated mode) and that was the "E-Stop"  
25/06/21, 08:45 - Milo Barozzi: Stacker cranes in error it's a different story. Giacomo and Andrea told me that they were doing some other things while they started seeing red spots appearing at all stacker cranes with no reason... it's a different issue... they're just resetting all machines, but we don't know what happened... if you have some more clues...  
25/06/21, 08:49 - Milo Barozzi: It's happening again  
25/06/21, 08:57 - Support Technician 25: IMG-20210625-WA0008.jpg (file allegato)  
maybe that helps?  
25/06/21, 08:59 - Company Employee 18: Federico ask at the production if there is something at the electrical power  
25/06/21, 08:59 - Support Technician 25: Because F01 and EMS are working fine. Issues are related to F02, MAV1, MAV2 Cranes...  
25/06/21, 09:04 - Milo Barozzi: found the issue  
25/06/21, 09:04 - Support Technician 25: cuoris what?  
25/06/21, 09:04 - Milo Barozzi: just a second  
25/06/21, 09:18 - Support Technician 25: Don't make too thrilling...  
25/06/21, 09:19 - Milo Barozzi: here I am.. It's real a technical topic but.. from energy power supply there have been two failures in a distance of 15mins on a single phase, not on the entire supply

25/06/21, 09:19 - Milo Barozzi: this caused a spike in voltage  
25/06/21, 09:20 - Milo Barozzi: in this case, our co-generation system (we have a naval motor producing energy and ensuring we can work in the plant even there's no supply) cannot act. It self protect itselfs.  
25/06/21, 09:20 - Support Technician 25: so my suspicion was correct  
25/06/21, 09:21 - Milo Barozzi: at the very end of the story... stacker cranes, who are the most sensitive machines (due to inverters) self protect theirselves  
25/06/21, 09:21 - Support Technician 25: was a single phase of the 3L+N+PE caused the issue  
25/06/21, 09:21 - Milo Barozzi: and that's it  
25/06/21, 09:21 - Milo Barozzi: yep  
25/06/21, 09:21 - Support Technician 25: So safety device of SSI working :)  
25/06/21, 09:21 - Support Technician 25: and I assume that foiling is as sensitive and caused and E-Stop in F02?  
25/06/21, 09:21 - Support Technician 25: that's why F01 and EMS are not affected...they're tougher guys :D  
25/06/21, 09:26 - Milo Barozzi: same circuit, yes  
25/06/21, 09:26 - Milo Barozzi: it seems so  
25/06/21, 09:43 - Support Technician 25: Crane1 driving speed is down to 70%  
25/06/21, 09:43 - Support Technician 25: it did not pass break test  
25/06/21, 09:45 - Milo Barozzi: what does it mean? do we have to do smtg?  
25/06/21, 09:45 - Milo Barozzi: sorry, not so expert in those topics  
25/06/21, 09:46 - Support Technician 25: pls read manual 😊  
25/06/21, 09:47 - Support Technician 25: EXYZ, Chapter 5 are all error messages  
25/06/21, 09:47 - Milo Barozzi: I'm not a maintainer... 🤖  
25/06/21, 09:48 - Support Technician 25: IMG-20210625-WA0009.jpg (file allegato)  
25/06/21, 09:49 - Milo Barozzi: dankeschon  
25/06/21, 09:50 - Company Employee 18: Thx  
25/06/21, 09:51 - Support Technician 25: @Company Employee 18 I suppose you need to make Automatic Off, Automatic On, than Crane is doing "rutine di ascensione". If the Warning (Attention, it's a warning, not an error in LH) is still there I'd suggest to contact Helpdesk and say you have had power issues and since than the warning is appearing  
25/06/21, 09:54 - Company Employee 18: Ok matthias  
25/06/21, 09:56 - Company Employee 18: Can you check now @Support Technician 25  
25/06/21, 09:57 - Company Employee 18: The percentual?  
25/06/21, 09:57 - Support Technician 25: --> you see it in LH  
25/06/21, 09:57 - Company Employee 18: Ok I go to see  
25/06/21, 09:57 - Support Technician 25: Warnings are empty, so I suppose break test is passed and now running at 100%  
25/06/21, 14:35 - Giacomo Trivieri, Lavoro: IMG-20210625-WA0014.jpg (file allegato)  
@Support Technician 4 @Support Technician 6 hi guys how can i solve this error?  
25/06/21, 14:49 - Company Employee 18: We have fix  
25/06/21, 15:54 - Giacomo Trivieri, Lavoro: IMG-20210625-WA0016.jpg (file allegato)  
@Support Technician 6 @Support Technician 4 @Support Technician 25 another time that art 23 goes in "waiting wamas" (i have Just cleaned all sensors but error remain)  
25/06/21, 16:36 - Support Technician 25: Sorry I can't help  
25/06/21, 20:48 - Giacomo Trivieri, Lavoro: Guys for monday morning someone has to check why (like today that It has been an hell with AGV)some agv's are blocked for AGV 7 that Is not in the system; we know also that AGV 7 won't come back in the system for an unknown problem but for this strange kind of issue, other agvs cannot continue their missions cause they see It somewhere; we have also understand why (mostly ART) TOO MANY times we have to restart them pushing start Button cause during the Road to complete their Mission they sees some "Ghost presence" and automatically goes in block;  
25/06/21, 20:54 - Giacomo Trivieri, Lavoro: @Support Technician 4 @Support Technician 5  
28/06/21, 06:17 - Giacomo Trivieri, Lavoro: @Support Technician 13 @Support Technician 6 hi guys good morning someone cuold help us on cc44? We have tried to solve It but we are in a dead point now..question: why if we have a T0 Active at 55% pellet remains stopper? Normally when we see on Mf14 or SM23 the

situation about T0, (if all Is ok logically and pishically)55% Is the correct value

28/06/21, 06:39 - Support Technician 13: good morning, i'll check in a moment

28/06/21, 06:41 - Giacomo Trivieri, Lavoro: Hi andor👍👏thanks

28/06/21, 06:41 - Giacomo Trivieri, Lavoro: I want to ask you also how to create a logical occupancy on lighthouse because using mf266 we can only delete it

28/06/21, 06:41 - Giacomo Trivieri, Lavoro: @Support Technician 13

28/06/21, 06:45 - Support Technician 13: IMG-20210628-WA0000.jpg (file allegato)  
can you send me picture from here?

28/06/21, 06:46 - Company Employee 18: Ok I go

28/06/21, 06:46 - Company Employee 18: IMG-20210628-WA0002.jpg (file allegato)

28/06/21, 06:47 - Company Employee 18: IMG-20210628-WA0001.jpg (file allegato)

28/06/21, 06:48 - Support Technician 13: if pallet has no TPO in wamas --> create TPO  
if pallet has TPO in wamas --> resume TPO in wamas (if in error) or Reset transport order from MF200

28/06/21, 06:50 - Support Technician 13: IMG-20210628-WA0003.jpg (file allegato)  
B=59982589? H=89175992?

28/06/21, 06:52 - Giacomo Trivieri, Lavoro: I have tryied all of this procedures but nothing happens

28/06/21, 06:52 - Giacomo Trivieri, Lavoro: Correct

28/06/21, 06:56 - Valerio Montanari, MMOperations: Hi everyone!  
Picking Station BP02, BP03, BP04 and BP06 are blocked from 30 minutes more or less.. Could someone help us?

28/06/21, 06:56 - Support Technician 13: in this case the problem is that pallet is on CU042, not on CU044 (position 1)

28/06/21, 06:57 - Support Technician 13: conveyor system sees the pallet on CU044, so you need to delete occupancy from there with Ctop

28/06/21, 06:59 - Support Technician 13: or move pallet with ctop from CU042 to CU044

28/06/21, 06:59 - Support Technician 13: where it is in lighthouse

28/06/21, 06:59 - Giacomo Trivieri, Lavoro: I check if there Is because there was not befor

28/06/21, 07:00 - Giacomo Trivieri, Lavoro: So have i to move this One on cu44?

28/06/21, 07:01 - Support Technician 13: IMG-20210628-WA0004.jpg (file allegato)  
yes

28/06/21, 07:01 - Giacomo Trivieri, Lavoro: More better like this Is impossible👍😞

28/06/21, 07:12 - Giacomo Trivieri, Lavoro: Now pishical situation is like this pic

28/06/21, 07:14 - Support Technician 13: pallet is on CU044 chain or on lift conveyor CU043?

28/06/21, 07:14 - Giacomo Trivieri, Lavoro: Cu43 right now

28/06/21, 07:15 - Giacomo Trivieri, Lavoro: Have i to put It on cu44?

28/06/21, 07:15 - Support Technician 13: yes please

28/06/21, 07:15 - Giacomo Trivieri, Lavoro: Ok Just a sec

28/06/21, 07:17 - Giacomo Trivieri, Lavoro: Did it

28/06/21, 07:20 - Support Technician 13: IMG-20210628-WA0005.jpg (file allegato)  
just as an information: in LH you can check the exact position of the pallet by going to the "Details" tab

28/06/21, 07:22 - Mihai Soceanu: hi

28/06/21, 07:22 - Company Employee 18: Ok perfect thx

28/06/21, 07:22 - Mihai Soceanu: please let me if i can restart mfsPal\

28/06/21, 07:22 - Mihai Soceanu: will not incleunce automation

28/06/21, 07:22 - Support Technician 13: if you check with ctop, do you still have occupation on CU42?

28/06/21, 07:23 - Mihai Soceanu: we found a issue durring the wekend and i was not able to restart because we errors on conveyor

28/06/21, 07:23 - Mihai Soceanu: then

28/06/21, 07:23 - Mihai Soceanu: we need to see the phisical situation in fron of crane 1

28/06/21, 07:23 - Mihai Soceanu: we have a temp09551 without TPO

28/06/21, 07:24 - Giacomo Trivieri, Lavoro: Yes It Is still there

28/06/21, 07:24 - Giacomo Trivieri, Lavoro: I delete it

28/06/21, 07:24 - Giacomo Trivieri, Lavoro: @Support Technician 13  
28/06/21, 07:25 - Giacomo Trivieri, Lavoro: IMG-20210628-WA0006.jpg (file allegato)  
28/06/21, 07:25 - Giacomo Trivieri, Lavoro: I delete occupancy on cu42 and i put occupancy on cu44 ok?@Support Technician 13  
28/06/21, 07:26 - Support Technician 13: yes, but on CU44 pos 1  
28/06/21, 07:26 - Giacomo Trivieri, Lavoro: Ok👍  
28/06/21, 07:27 - Giacomo Trivieri, Lavoro: I cannot confirm error from pult  
28/06/21, 07:29 - Support Technician 13: occupation ok now?  
28/06/21, 07:30 - Giacomo Trivieri, Lavoro: I dont know why but Ctop sees 3 occupancy  
28/06/21, 07:31 - Giacomo Trivieri, Lavoro: IMG-20210628-WA0007.jpg (file allegato)  
28/06/21, 07:31 - Giacomo Trivieri, Lavoro: I delete occupancy on cu43  
28/06/21, 07:31 - Support Technician 13: please remove the one from CU043  
28/06/21, 07:31 - Giacomo Trivieri, Lavoro: Yes  
28/06/21, 07:33 - Giacomo Trivieri, Lavoro: Doing that, It has taken out also occupancy on cu44😞😞  
28/06/21, 07:34 - Support Technician 13: 😞. ok, put back occupancy on CU044 pos 1  
28/06/21, 07:34 - Giacomo Trivieri, Lavoro: Ok  
28/06/21, 07:34 - Support Technician 13: after go to MF200 and reset transport order for pallet 59982589  
28/06/21, 07:34 - Giacomo Trivieri, Lavoro: Same strange issue  
28/06/21, 07:35 - Giacomo Trivieri, Lavoro: I had putted occupancy on cu44 and occupancy on cu43 Is reappeared  
28/06/21, 07:35 - Giacomo Trivieri, Lavoro: IMG-20210628-WA0008.jpg (file allegato)  
28/06/21, 07:35 - Giacomo Trivieri, Lavoro: Ok i Will do It  
28/06/21, 07:35 - Support Technician 13: please send a picture of CU043-044  
28/06/21, 07:36 - Valerio Montanari, MMOperations: News? Sorry but BP02, BP03, P06 are still blocked  
28/06/21, 07:36 - Mihai Soceanu: we need to fix TEMP after restart  
28/06/21, 07:36 - Support Technician 13: pallet is completely on CU044 chains?  
28/06/21, 07:36 - Giacomo Trivieri, Lavoro: IMG-20210628-WA0009.jpg (file allegato)  
28/06/21, 07:36 - Giacomo Trivieri, Lavoro: Yes itbis  
28/06/21, 07:36 - Giacomo Trivieri, Lavoro: It Is\*  
28/06/21, 07:36 - Mihai Soceanu: @Company Employee 10 pallet barcoe  
28/06/21, 07:36 - Mihai Soceanu: barcode ?  
28/06/21, 07:36 - Mihai Soceanu: \*2589?  
28/06/21, 07:37 - Giacomo Trivieri, Lavoro: Exactly  
28/06/21, 07:37 - Support Technician 13: @Company Employee 10 you moved pallet to CU044 pos 2 :)  
28/06/21, 07:39 - Mihai Soceanu: pls restart  
28/06/21, 07:39 - Mihai Soceanu: i move the pallet  
28/06/21, 07:39 - Giacomo Trivieri, Lavoro: IMG-20210628-WA0010.jpg (file allegato)  
This One Is cu44 P1?  
28/06/21, 07:39 - Mihai Soceanu: reset conveyor  
28/06/21, 07:39 - Giacomo Trivieri, Lavoro: Ok  
28/06/21, 07:40 - Support Technician 13: yes, but now Mihai solved the situation because we need an MFS restart  
28/06/21, 07:40 - Giacomo Trivieri, Lavoro: Ok Watch this andor  
28/06/21, 07:41 - Giacomo Trivieri, Lavoro: Is gone there was 2 occupancy on cu44 p2  
28/06/21, 07:41 - Giacomo Trivieri, Lavoro: Empty B pellet Is still there on cu44 p2  
28/06/21, 07:48 - Support Technician 13: ok, H was taken by AGV14, yes?  
28/06/21, 07:49 - Support Technician 13: try to reset pult 2  
28/06/21, 07:49 - Giacomo Trivieri, Lavoro: Ok Just a sec  
28/06/21, 07:50 - Giacomo Trivieri, Lavoro: I dont know the precise Number of AGV but yes H pellet Is gone away  
28/06/21, 07:50 - Support Technician 13: that's ok

28/06/21, 07:51 - Giacomo Trivieri, Lavoro: B empty pellet is still on cu 44p2  
 28/06/21, 07:51 - Support Technician 13: reset not working?  
 28/06/21, 07:51 - Giacomo Trivieri, Lavoro: Exactly  
 28/06/21, 07:53 - Support Technician 13: is the position of the empty B correct on conveyor?  
 28/06/21, 07:54 - Support Technician 13: try another pult reset  
 28/06/21, 07:54 - Giacomo Trivieri, Lavoro: IMG-20210628-WA0011.jpg (file allegato)  
 28/06/21, 07:55 - Giacomo Trivieri, Lavoro: Seems all correct also Ctop sees the pellet on cu 44p2  
 28/06/21, 08:05 - Mihai Soceanu: i will restart mfsPal in 1 min  
 28/06/21, 08:05 - Mihai Soceanu: i wait for AGV missions  
 28/06/21, 08:07 - Company Employee 18: Ok  
 28/06/21, 08:07 - Giacomo Trivieri, Lavoro: Ok  
 28/06/21, 08:12 - Mihai Soceanu: i stop  
 28/06/21, 08:19 - Mihai Soceanu: i restart now  
 28/06/21, 08:30 - Support Technician 13: IMG-20210628-WA0012.jpg (file allegato) please check if you have pallet on CU198  
 28/06/21, 08:35 - Mihai Soceanu: As @Support Technician 13 mentions the occupancy on 198 is very important  
 28/06/21, 08:35 - Mihai Soceanu: we need to take care now  
 28/06/21, 08:37 - Giacomo Trivieri, Lavoro: @Support Technician 13 @Support Technician 6 im on craine 1  
 28/06/21, 08:37 - Mihai Soceanu: ok\  
 28/06/21, 08:37 - Giacomo Trivieri, Lavoro: Do you Need barcode of pellets cu 197 198?  
 28/06/21, 08:37 - Mihai Soceanu: when you have time let us know what pallet we have  
 28/06/21, 08:38 - Mihai Soceanu: we need to know if there is any pallet  
 28/06/21, 08:38 - Mihai Soceanu: and the type of the pallets  
 28/06/21, 08:38 - Mihai Soceanu: pls  
 28/06/21, 08:38 - Giacomo Trivieri, Lavoro: Give me 1 second  
 28/06/21, 08:38 - Mihai Soceanu: thank you very much  
 28/06/21, 08:38 - Giacomo Trivieri, Lavoro: You are welcome!  
 28/06/21, 08:40 - Giacomo Trivieri, Lavoro: @Support Technician 13 @Support Technician 6 on cu 197 and 198 there are two stacks of B pellets  
 28/06/21, 08:41 - Giacomo Trivieri, Lavoro: On cu197 First barcode Is 59852048  
 28/06/21, 08:42 - Giacomo Trivieri, Lavoro: On cu198 First barcode Is 60027430  
 28/06/21, 08:47 - Mihai Soceanu: ok  
 28/06/21, 08:47 - Mihai Soceanu: we send first to QC  
 28/06/21, 08:48 - Support Technician 13: IMG-20210628-WA0013.jpg (file allegato) there were some manual interventions done here. i'll send them out to QC  
 28/06/21, 08:51 - Giacomo Trivieri, Lavoro: Ok👍  
 28/06/21, 08:57 - Giacomo Trivieri, Lavoro: First stack Is gone👍  
 28/06/21, 09:04 - Mihai Soceanu: when you have time pls chec 70149472  
 28/06/21, 09:04 - Mihai Soceanu: on location HRA05X108Y01Z21, SRM says it can not retrieve  
 28/06/21, 09:06 - Mihai Soceanu: Crane 1 is unraparable ?  
 28/06/21, 09:06 - Mihai Soceanu: is it possible to fix it  
 28/06/21, 09:06 - Mihai Soceanu: ?  
 28/06/21, 09:08 - Support Technician 25: it's working, just with 70% speed  
 28/06/21, 09:08 - Support Technician 25: that's how I understand the error message  
 28/06/21, 09:36 - Mihai Soceanu: ok  
 28/06/21, 09:43 - Company Employee 18: Goodmorning Matthias We have try to fix like the manual but we need to call the customer service of SSI Schäfer incas  
 28/06/21, 09:44 - Support Technician 25: Sure, pls. do that  
 28/06/21, 10:37 - Stefano Dall'Asta, Lavoro: Ho everyone, can you kindly check OBD0000209024? It doesnt get approved  
 28/06/21, 10:37 - Stefano Dall'Asta, Lavoro: Thank you  
 28/06/21, 10:47 - Support Technician 16: IMG-20210628-WA0014.jpg (file allegato) @Stefano one of your pallets has errors  
 28/06/21, 10:49 - Support Technician 16: There was a issue before where you could move pallets from nok with errors, it should not happen anymore, can you

please check and fix the errors on the pallet?

28/06/21, 10:50 - Stefano Dall'Asta, Lavoro: Perfect, now it is fine! Thanks!

28/06/21, 11:33 - Support Technician 13: IMG-20210628-WA0015.jpg (file allegato)  
@Company Employee 10 can you please check why are these AGVs standing there?

28/06/21, 11:37 - Giacomo Trivieri, Lavoro: Yes Just a sec

28/06/21, 11:40 - Giacomo Trivieri, Lavoro: All this AGV are moving now but benedetta said to me that there was only an ART blocked

28/06/21, 11:42 - Support Technician 13: ok, do you know the reason?

28/06/21, 11:45 - Support Technician 5: I think ARTs need some scanner cleaning

28/06/21, 12:28 - Davide Montanari: Hi, for stock object A40S DE4S aren't created TO, for WH502 we have 8 LUM but we have only 2 stock object in SH1.

28/06/21, 12:32 - Support Technician 16: Hi, let me have a look

28/06/21, 12:44 - Davide Montanari: Ok, Thank you.

28/06/21, 14:25 - Mihai Soceanu: for pallet 70141828

28/06/21, 14:25 - Mihai Soceanu: please delete the transport to HBW2

28/06/21, 14:25 - Mihai Soceanu: someone added it

28/06/21, 14:26 - Mihai Soceanu: IMG-20210628-WA0016.jpg (file allegato)

28/06/21, 14:31 - Support Technician 16: IMG-20210628-WA0017.jpg (file allegato)  
@Company Employee 26 Is this fog correct? Because this is a fog for manual and the items are automatic

28/06/21, 14:32 - Nicola Bernardi: It's start👍 thanks

28/06/21, 14:33 - Mihai Soceanu: thx

28/06/21, 15:38 - Support Technician 16: I have updated the fog's myself, please be careful when making pallets to match the items with the fog, now it's working properly

28/06/21, 16:18 - Davide Montanari: Thank you very much, sorry if I didn't answer you in time.

28/06/21, 16:19 - Support Technician 16: You are welcome, no problem. 😊

29/06/21, 06:52 - Support Technician 13: IMG-20210629-WA0000.jpg (file allegato)  
good morning, this pallet has no order now. please be careful what orders are canceled manually by users

29/06/21, 06:53 - Support Technician 13: IMG-20210629-WA0001.jpg (file allegato)

29/06/21, 06:53 - Company Employee 18: Ok I need to create a new order for cken the buffer?

29/06/21, 06:53 - Company Employee 18: Clean

29/06/21, 06:54 - Support Technician 13: yes

29/06/21, 06:54 - Company Employee 18: Ok I send to sh1?

29/06/21, 06:56 - Support Technician 13: yes, you can send it there

29/06/21, 06:56 - Company Employee 18: Perfect created

29/06/21, 06:56 - Support Technician 13: 👍.

29/06/21, 08:36 - Company Employee 18: IMG-20210629-WA0002.jpg (file allegato)

29/06/21, 08:37 - Company Employee 18: @Support Technician 13 I have this destacker D blocked is possible in wamas unlock this situation?

29/06/21, 08:43 - Support Technician 13: I'll check

29/06/21, 08:43 - Support Technician 13: or was it fixed?

29/06/21, 08:43 - Company Employee 18: Just a moment

29/06/21, 08:45 - Company Employee 18: IMG-20210629-WA0003.jpg (file allegato)

29/06/21, 08:45 - Company Employee 18: This is the situation

29/06/21, 08:46 - Company Employee 18: The first not start

29/06/21, 08:49 - Support Technician 13: I'm checking

29/06/21, 08:49 - Company Employee 18: Ok

29/06/21, 08:49 - Company Employee 18: But now physically the situation is this

29/06/21, 08:50 - Company Employee 18: IMG-20210629-WA0004.jpg (file allegato)

29/06/21, 08:51 - Support Technician 13: where did the empty D go from under it?

29/06/21, 08:51 - Company Employee 18: In automatic

29/06/21, 08:54 - Support Technician 13: IMG-20210629-WA0005.jpg (file allegato)  
the solution would have been to drive pallet from CU411 to CU412. since wamas and conveyor saw pallet on 412, not on 411

29/06/21, 08:55 - Support Technician 13: but now we have different situation, 1 moment

29/06/21, 08:58 - Support Technician 13: IMG-20210629-WA0006.jpg (file allegato)  
you have these 2 pallet in wamas, that are physically not there anymore. can you delete them?

29/06/21, 08:58 - Company Employee 18: Ok I wait you

29/06/21, 08:59 - Company Employee 18: In wamas you mean?  
29/06/21, 08:59 - Support Technician 13: yes  
29/06/21, 09:00 - Support Technician 13: after data from conveyor has to be cleaned too  
29/06/21, 09:00 - Company Employee 18: Ok  
29/06/21, 15:04 - Davide Montanari: Hi guys, we have slf\*011 and slf\*071 with 2 temp... could you check please? Thank you  
29/06/21, 15:31 - Davide Montanari: Solved

hi, please check these AGV groups, they are standing there for some time  
30/06/21, 11:04 - Support Technician 13: IMG-20210630-WA0001.jpg (file allegato)  
please keep in mind: if TPO was created from pick station source --> push the release button.  
30/06/21, 11:04 - Support Technician 13: For example pick1 is waiting for line 1 to be released for more then an hour  
30/06/21, 11:05 - Company Employee 18: I am here I have fix the problem  
30/06/21, 11:05 - Company Employee 18: I go to check  
30/06/21, 11:06 - Support Technician 13: 👍.  
30/06/21, 11:08 - Company Employee 18: I have fix but here we no have any picking guy operator  
30/06/21, 11:14 - Support Technician 13: ok :)  
30/06/21, 12:10 - Giacomo Trivieri, Lavoro: IMG-20210630-WA0002.jpg (file allegato)  
@Tai @Henna Work fortunatly Luciano has fought this One and he has blocked It before the incident  
30/06/21, 12:10 - Giacomo Trivieri, Lavoro: @Support Technician 4 @Support Technician 5  
30/06/21, 12:15 - Support Technician 5: Is that D pallet?  
30/06/21, 12:28 - Support Technician 5: When this happen, we should get the info that from which conveyor these pallets are from, because I think this is the same problem than before with the different result. That the forks are touching the baseleg and dragging the pallet out.  
30/06/21, 12:31 - Support Technician 25: @Company Employee 10 pls provide barcode - thank you  
30/06/21, 12:47 - Benedetta Zini: Hi Henna, this D pallet came from CU375, ART-23 put it in S46 37-01-05 and few minutes ago, as you can see from the photo, ART-22 put it in S48 00-04-01  
30/06/21, 12:48 - Benedetta Zini: barcode is 60428159  
30/06/21, 12:53 - Support Technician 5: What station is CU375? 😊  
30/06/21, 12:54 - Benedetta Zini: IMG-20210630-WA0003.jpg (file allegato)  
this one  
30/06/21, 12:55 - Support Technician 5: Ok, so conv 11  
30/06/21, 12:55 - Support Technician 5: Damn  
30/06/21, 12:58 - Support Technician 25: Is the pallet correctly manufactured?

30/06/21, 15:46 - Benedetta Zini: On CU388  
30/06/21, 16:16 - Stefano Dall'Asta, Lavoro: Ho everyone, pallet are going to S48 very very slowly.. there Is something you can do to make the process faster?  
30/06/21, 16:30 - Razvan Voicu: @Company Employee 15 could you help me with some info about CARICO 29170 with pallet 60331729 ?  
30/06/21, 16:30 - Razvan Voicu: This pallet is logically still on RPF01C0321 as a hierarchial LU  
30/06/21, 16:30 - Razvan Voicu: this needs to be loaded, it needs to be split on QC and then sent to S87  
30/06/21, 16:31 - Stefano Dall'Asta, Lavoro: Ok let me check  
30/06/21, 16:36 - Stefano Dall'Asta, Lavoro: I see that every LU of the load Is loaded  
30/06/21, 16:38 - Razvan Voicu: Ok, it was solved meanwhile  
30/06/21, 16:38 - Razvan Voicu: Sorry for the false alarm :)

30/06/21, 16:38 - Razvan Voicu: and thanks for the help  
 30/06/21, 16:38 - Stefano Dall'Asta, Lavoro: Better this way!  
 30/06/21, 16:40 - Stefano Dall'Asta, Lavoro: Can you help me with the transport to S48?  
 30/06/21, 16:59 - Razvan Voicu: What transport?  
 30/06/21, 16:59 - Stefano Dall'Asta, Lavoro: Ho everyone, pallet are going to S48 very very slowly.. there Is something you can do to make the process faster?  
 30/06/21, 17:00 - Stefano Dall'Asta, Lavoro: This message i sent you before  
 30/06/21, 17:04 - Razvan Voicu: All pallets or specific pallets?  
 30/06/21, 17:04 - Razvan Voicu: They take a long time to go out from HBW2 to S48?  
 30/06/21, 17:06 - Razvan Voicu: <Media omessi>  
 probably takes a long time because of this  
 30/06/21, 17:13 - Andrea Brunetti: IMG-20210630-WA0013.jpg (file allegato)  
 30/06/21, 17:27 - Razvan Voicu: @Company Employee 15  
 "Hi,  
 can you cchek OBD0000208539?"

Regarding this, we only had 2 pallets in HBW and only 1 had enough stock for that PPLU

30/06/21, 17:27 - Razvan Voicu: IMG-20210630-WA0014.jpg (file allegato)

 30/06/21, 17:29 - Razvan Voicu: The pallet \*1734 pallet was already reserved , I canceled thi reservation so the above OBD can go on with picking  
 30/06/21, 18:12 - Stefano Dall'Asta, Lavoro: Thank you  
 01/07/21, 05:52 - Giacomo Trivieri, Lavoro: <Media omessi>  
 @Support Technician 25  
 01/07/21, 07:25 - Stefano Dall'Asta, Lavoro: Hi can you check OBD000013469? It remains in wait for picking approval, its urgente the truck Is coming at 8.  
 Thank you!  
 01/07/21, 08:34 - Razvan Voicu: I wil check  
 01/07/21, 08:47 - Stefano Dall'Asta, Lavoro: I launch the order again now is OBD0000212476  
 01/07/21, 08:47 - Stefano Dall'Asta, Lavoro: Thank you!  
 01/07/21, 09:10 - Razvan Voicu: OBD000013469 i think it's finishe already  
 01/07/21, 09:11 - Razvan Voicu: OBD0000212476 is there a problem?  
 01/07/21, 09:11 - Stefano Dall'Asta, Lavoro: Yep  
 01/07/21, 09:19 - Razvan Voicu: what problem  
 01/07/21, 09:19 - Stefano Dall'Asta, Lavoro: I doent generate full pallets  
 01/07/21, 09:29 - Razvan Voicu: If you check in OG25 and filter after the OBD, you see all PPLUS  
 01/07/21, 09:29 - Razvan Voicu: and then if you right click a pplu -> protocol, you can see the LU assigned  
 01/07/21, 09:30 - Razvan Voicu: IMG-20210701-WA0001.jpg (file allegato)  
 01/07/21, 09:30 - Razvan Voicu: IMG-20210701-WA0002.jpg (file allegato)  
 01/07/21, 09:30 - Razvan Voicu: I tried some of this LUs and they are in S22  
 01/07/21, 09:31 - Support Technician 16: @Support Technician 21 are these related to OBD's with OBDL #4?  
 01/07/21, 09:31 - Razvan Voicu: No  
 01/07/21, 09:31 - Support Technician 16: is there any LU with errors on it among the list?  
 01/07/21, 09:33 - Razvan Voicu: no  
 01/07/21, 09:35 - Support Technician 16: IMG-20210701-WA0003.jpg (file allegato)  
 yes, there is  
 01/07/21, 09:35 - Support Technician 16: @Company Employee 15 please resolve errors on the pallet and then you should be good to go  
 01/07/21, 09:36 - Support Technician 16: in case of this scenario happening again, please check all your pallets if they have errors, there was an issue in the past where people were able to move pallets from nok locations with spontaneous without resolving the errors, and these pallets are before the fix  
 01/07/21, 09:38 - Support Technician 16: @Company Employee 15 in order to fast check this issue, you should go to the OBD with problem -> Shipment Lu's -> select all of the barcodes  
 01/07/21, 09:38 - Support Technician 16: IMG-20210701-WA0004.jpg (file allegato)

01/07/21, 09:39 - Support Technician 16: And use this list of LU's in Sm023 to check if any pallet has errors  
01/07/21, 09:39 - Support Technician 16: IMG-20210701-WA0005.jpg (file allegato) like so  
01/07/21, 09:55 - Stefano Dall'Asta, Lavoro: Thank you so much, next time ill be Independent 🙏  
01/07/21, 09:58 - Stefano Dall'Asta, Lavoro: Anothe help for OBD0000211067, the protocol says that a LU has been proceeded but cant be use.. i have no more info and i dont understand wich LU Is  
01/07/21, 10:00 - Support Technician 16: where do you have this information shown? can you give me a screenshot please?  
01/07/21, 10:03 - Stefano Dall'Asta, Lavoro: IMG-20210701-WA0006.jpg (file allegato)  
01/07/21, 10:06 - Support Technician 16: Ohhh, you means the PPLU for pStations, from a first glance, it seems that you do not have the whole quantity needed for that PPLU in the HBW1  
01/07/21, 10:07 - Stefano Dall'Asta, Lavoro: Yes but to me it seems that i have everything inside, can you check?  
01/07/21, 10:07 - Support Technician 16: IMG-20210701-WA0007.jpg (file allegato) you can check the protocol of each line  
01/07/21, 10:08 - Support Technician 16: from what I see, looking at lines, one of them is giving you this  
01/07/21, 10:08 - Support Technician 16: IMG-20210701-WA0008.jpg (file allegato)  
01/07/21, 10:09 - Support Technician 16: IMG-20210701-WA0009.jpg (file allegato)  
01/07/21, 10:09 - Support Technician 16: you stock is in manual area... and it's the only pallet  
01/07/21, 10:10 - Support Technician 16: please follow thse steps in the future, to check this case 😊  
01/07/21, 10:45 - Support Technician 5: Is there now a pallet at foiling line 12 where ATX 15 is waiting?  
01/07/21, 10:46 - Giacomo Trivieri, Lavoro: <Media omessi>  
@Support Technician 25 hi Matthias can you Watch this video?  
01/07/21, 10:46 - Giacomo Trivieri, Lavoro: Yes there is  
01/07/21, 10:46 - Support Technician 5: Ok good  
01/07/21, 11:41 - Support Technician 25: @Company Employee 10 pls provide serial number/dentification of the non working tablets  
01/07/21, 12:22 - Giacomo Trivieri, Lavoro: Ok i Will do It  
01/07/21, 12:23 - Giacomo Trivieri, Lavoro: @Support Technician 6 @Support Technician 13 ho guys can you check situation on cu193/194? Error says: error free time  
01/07/21, 12:30 - Support Technician 13: @Company Employee 10 hi, it says: Alignement timeout, on CU193. looks like position of the B pallet 58952961 might not be correct. can you check it? also the sensors  
01/07/21, 12:35 - Giacomo Trivieri, Lavoro: Already did It with Giacomo but seems all ok @Support Technician 13  
01/07/21, 12:35 - Giacomo Trivieri, Lavoro: IMG-20210701-WA0010.jpg (file allegato)  
@Support Technician 25 Is It fine like this?  
01/07/21, 12:37 - Support Technician 13: try to reset pult 8  
01/07/21, 12:43 - Giacomo Trivieri, Lavoro: Ok Just a sec  
01/07/21, 12:46 - Giacomo Trivieri, Lavoro: Did It but nothing happens  
01/07/21, 12:48 - Support Technician 13: after the reset SRM1 tried to take them, but conveyor gave the error again  
01/07/21, 12:48 - Giacomo Trivieri, Lavoro: Exactly  
01/07/21, 12:49 - Support Technician 13: i think the position on CU193 is the problem, some sensor might not be triggered. can you send a picture?  
01/07/21, 12:49 - Giacomo Trivieri, Lavoro: Before that let me try One thing  
01/07/21, 12:50 - Giacomo Trivieri, Lavoro: IMG-20210701-WA0011.jpg (file allegato)  
01/07/21, 12:52 - Giacomo Trivieri, Lavoro: I ve tryied to pull a Little bit back the pellet but nothing happens also in this way  
01/07/21, 12:59 - Support Technician 13: IMG-20210701-WA0012.jpg (file allegato) i don't know what is the correct position from the B pallet there. can you check in some documentation if the yellow flaps should be triggered or not?

01/07/21, 13:00 - Support Technician 13: or did it reach the yellow stopper on its other side?

01/07/21, 13:12 - Nicola Bernardi: The position for the type B pallet Is correct

01/07/21, 13:12 - Nicola Bernardi: On wamas the type pallet Is correct

01/07/21, 13:13 - Nicola Bernardi: I'm going to check the sensor for safety

01/07/21, 13:26 - Nicola Bernardi: @Support Technician 25 when I'm going to SRM01 the SRM02 goes in error with the forck out from the side to SRM01, why the order from SRM02 Isn't finished?

01/07/21, 13:35 - Support Technician 25: Did you wait long enough till SRM02 finished the cycle and light is steady?

01/07/21, 13:37 - Nicola Bernardi: I'm going to SRM01 when the White light lamp slow and i press the button to go inside

01/07/21, 14:25 - Support Technician 13: IMG-20210701-WA0013.jpg (file allegato) same alignment issue at SRM5, also with an F and a B pallet

01/07/21, 14:29 - Nicola Bernardi: I'm on SRM01

01/07/21, 14:30 - Nicola Bernardi: One pallet on forks was on lighthouse without code

01/07/21, 14:30 - Nicola Bernardi: And sensor not in good position

01/07/21, 14:31 - Nicola Bernardi: When i finish on 01 I'm going to 05 🤔👉

01/07/21, 14:31 - Support Technician 13: 👍.

01/07/21, 14:35 - Nicola Bernardi: IMG-20210701-WA0014.jpg (file allegato)

01/07/21, 14:35 - Nicola Bernardi: IMG-20210701-WA0015.jpg (file allegato)

01/07/21, 14:38 - Nicola Bernardi: The pallet with barcode 59849859 It isn't on CU182

01/07/21, 14:39 - Nicola Bernardi: Can you check the last deposit on SRM05?

01/07/21, 14:40 - Nicola Bernardi: SRM05F2P1

01/07/21, 14:41 - Support Technician 13: ok, different situation: CU182 did not confirm that pallet was taken, so it was rebooked from aisle 5 location to CU182

01/07/21, 14:41 - Support Technician 13: known issue, ticket exists

01/07/21, 14:42 - Nicola Bernardi: ☐

01/07/21, 14:42 - Support Technician 13: <Media omessi> physically it's here

01/07/21, 14:43 - Nicola Bernardi: I put It on real location

01/07/21, 14:43 - Support Technician 13: ok

01/07/21, 14:53 - Nicola Bernardi: Ok i Can't reset the lock on location for this pallet

01/07/21, 15:00 - Support Technician 13: when error from conv is gone, lock is gone also

01/07/21, 15:01 - Nicola Bernardi: I remove It now from WH093

01/07/21, 15:03 - Support Technician 13: lock was for the rack location or conveyor location?

01/07/21, 15:04 - Nicola Bernardi: Rack

01/07/21, 15:05 - Support Technician 13: then it's ok 👍

01/07/21, 15:07 - Nicola Bernardi: I try to create a T0 for put pallet in the correct location, but with the lock on rack i Can't create the T0

01/07/21, 15:07 - Nicola Bernardi: 🤔

01/07/21, 18:52 - Andrea Brunetti: @Support Technician 25

01/07/21, 18:53 - Nicola Bernardi: Can you check this ASAP?

01/07/21, 19:02 - Support Technician 13: fixed, i will check the reason

01/07/21, 19:02 - Andrea Brunetti: Ok

01/07/21, 19:03 - Support Technician 13: IMG-20210701-WA0024.jpg (file allegato) is this pallet here?

01/07/21, 19:03 - Nicola Bernardi: I see a pallet I'm going to see the barcode

01/07/21, 19:04 - Nicola Bernardi: Yes It Is here

02/07/21, 06:04 - Giacomo Trivieri, Lavoro: @Support Technician 6 @Support Technician 13 good morning guys someone of you Is available? Looking on OG025, Active orders are 200 more or less but for now only pick station 3 and 9 are working..no others pick station Is working

02/07/21, 06:13 - Giacomo Trivieri, Lavoro: I have called the helpdesk for this; they have opened a ticket

02/07/21, 06:59 - Razvan Voicu: We will check

02/07/21, 06:59 - Razvan Voicu: Hello

02/07/21, 07:07 - Giacomo Trivieri, Lavoro: Good morning @Support Technician 21 can you also check situation on IG area?there Is something wrongs with codes

02/07/21, 07:08 - Giacomo Trivieri, Lavoro: LH and wamas have different positioning

02/07/21, 07:09 - Giacomo Trivieri, Lavoro: After that can you explain us how do you solved the situation?thanks in advance

02/07/21, 07:12 - Support Technician 13: good morning, i'll check this. please send me a picture of the IG area

02/07/21, 07:13 - Support Technician 13: IMG-20210702-WA0006.jpg (file allegato) are these pallet positions correct?

02/07/21, 07:15 - Company Employee 18: IMG-20210702-WA0005.jpg (file allegato)

02/07/21, 07:15 - Company Employee 18: Phisically is this the situation

02/07/21, 07:16 - Company Employee 18: Do you need the barcode?

02/07/21, 07:16 - Support Technician 13: what barcode is on CU012?

02/07/21, 07:16 - Company Employee 18: IMG-20210702-WA0004.jpg (file allegato)

02/07/21, 07:20 - Support Technician 13: sdallasta1 had a good idea to update the location, but it's the wrong one

02/07/21, 07:22 - Company Employee 18: We have try to fix us the problem can you show what is the correct position?

02/07/21, 07:23 - Support Technician 13: IMG-20210702-WA0003.jpg (file allegato) do you have access to this?

02/07/21, 07:24 - Company Employee 18: I try to see

02/07/21, 07:24 - Company Employee 18: IMG-20210702-WA0002.jpg (file allegato)

02/07/21, 07:24 - Company Employee 18: No Andor

02/07/21, 07:28 - Support Technician 13: ok, so the correct location for 71270947 is TT08PC012 (i updated this)

02/07/21, 07:28 - Company Employee 18: Ok perfect

02/07/21, 07:28 - Support Technician 13: pallet went away?

02/07/21, 07:29 - Company Employee 18: No is in stop here

02/07/21, 07:29 - Company Employee 18: On the 12

02/07/21, 07:31 - Company Employee 18: IMG-20210702-WA0001.jpg (file allegato)

02/07/21, 07:31 - Company Employee 18: This is the situation

02/07/21, 07:32 - Support Technician 13: i have to correct it again, i moment

02/07/21, 07:35 - Support Technician 23: @Company Employee 10 can you please confirm that the picking stations are fine now ? Orders are assigned

02/07/21, 07:37 - Company Employee 18: Perfect Darius I go to confirm the pult

02/07/21, 07:39 - Company Employee 18: @Support Technician 13 thx for the support in this case I update the position from MF 014 and everithing start?

02/07/21, 07:40 - Support Technician 13: complete solution in this case should be:

- update pallet location in MF14;
- check conveyor order in MF266, if conveyor position is incorrect, delete it;
- in MF200 refresh from DB + reset order for the pallet;

02/07/21, 07:40 - Company Employee 18: Sorry I misunderstood

02/07/21, 07:41 - Company Employee 18: Ok perfect thx

02/07/21, 07:42 - Giacomo Trivieri, Lavoro: @Support Technician 23 hi darius👋im looking on LT and i can see that some pellets are arrived at surgent destination so i think that Is ok now but what was the problem?

02/07/21, 07:43 - Support Technician 23: there was no problem

02/07/21, 07:46 - Giacomo Trivieri, Lavoro: @Support Technician 23 how Is It possible?only 2 pick guys had work on 8 since now

02/07/21, 07:50 - Stefano Dall'Asta, Lavoro: Hi everyone pallet are not going to S48

02/07/21, 07:50 - Stefano Dall'Asta, Lavoro: This Is the error message

02/07/21, 07:51 - Stefano Dall'Asta, Lavoro: <Media omessi>

02/07/21, 07:51 - Stefano Dall'Asta, Lavoro: Can you check ASAP?

02/07/21, 07:51 - Stefano Dall'Asta, Lavoro: Se have the trucks waiting!  
02/07/21, 07:51 - Stefano Dall'Asta, Lavoro: Thank you!  
02/07/21, 08:05 - Company Employee 18: IMG-20210702-WA0011.jpg (file allegato)  
S48 00  
02/07/21, 08:05 - Giacomo Trivieri, Lavoro: @Support Technician 13 andor can you check situation on cu191? Assigment without data at P1. In trying to create a TO but i cant.jowdo you solve this situation?  
02/07/21, 08:05 - Giacomo Trivieri, Lavoro: How do you\*  
02/07/21, 08:08 - Stefano Dall'Asta, Lavoro: For other LU that has to go to S48 there Is this error message  
02/07/21, 08:08 - Stefano Dall'Asta, Lavoro: IMG-20210702-WA0012.jpg (file allegato)  
02/07/21, 08:09 - Support Technician 16: @Company Employee 15 as the name suggesstes, those zones are full of pallets and need to be freed until new pallets can move through it  
02/07/21, 08:11 - Support Technician 13: i'll check  
02/07/21, 08:13 - Stefano Dall'Asta, Lavoro: Ok, i ask because It was the same error of before and nothing was moving or waiting in that zone  
02/07/21, 08:14 - Support Technician 16: Please tell me which pallets still are waiting  
02/07/21, 08:18 - Support Technician 13: IMG-20210702-WA0013.jpg (file allegato) what pallet is physically there? 71270947 was logically moved there  
02/07/21, 08:18 - Support Technician 13: from pick2 target location, BP02 D02  
02/07/21, 08:30 - Giacomo Trivieri, Lavoro: Becuase It Is pishically on cu191  
02/07/21, 08:32 - Giacomo Trivieri, Lavoro: Here there Is 65657378  
02/07/21, 08:34 - Support Technician 13: then it needs only a TP0 in wamas  
02/07/21, 08:53 - Giacomo Trivieri, Lavoro: @Support Technician 23 could you give me an answer about this?  
02/07/21, 09:06 - Support Technician 16: Hi Matteo, we checked the logs and you either had the stock in the wrong location or you did not have enough of it in HBW1, please keep in mind that if the pallet is not in HBW1 or there is not enough for the whole PPLU, your PPLu will not be made into a Picking Order, if you have a counter example to what I described please tell us  
02/07/21, 10:22 - Company Employee 18: <Media omessi>  
@Support Technician 25 goodmorning check this videos  
02/07/21, 10:22 - Company Employee 18: IMG-20210702-WA0014.jpg (file allegato)  
02/07/21, 10:58 - Stefano Dall'Asta, Lavoro: Ho everyone, can you check OBD0000088228? For As400 the order Is finished (ACB) but for wamas not. It Is a cross docking order  
02/07/21, 11:19 - Stefano Dall'Asta, Lavoro: Hi everyone, UDC 59900717 has been moved from a mav location to a staging location..It Is Stil inside HB2..now can i logically but It back there without causing issues?  
02/07/21, 11:19 - Stefano Dall'Asta, Lavoro: Real location:  
02/07/21, 11:19 - Stefano Dall'Asta, Lavoro: IMG-20210702-WA0015.jpg (file allegato)  
02/07/21, 11:20 - Support Technician 16: If you know for certain the location, you can edit from SM023 directly  
02/07/21, 11:22 - Support Technician 16: I do not understand, what do you mean finished?  
02/07/21, 11:22 - Stefano Dall'Asta, Lavoro: Ok perfect  
02/07/21, 11:23 - Stefano Dall'Asta, Lavoro: No It should be at 85%  
02/07/21, 11:25 - Support Technician 16: I understand, let me look  
02/07/21, 11:27 - Support Technician 16: Was something picked for this order?  
02/07/21, 11:46 - Stefano Dall'Asta, Lavoro: No It came here as pallet pronti  
02/07/21, 11:46 - Stefano Dall'Asta, Lavoro: Cross docking  
02/07/21, 11:48 - Support Technician 16: IMG-20210702-WA0016.jpg (file allegato)  
02/07/21, 11:49 - Support Technician 16: do you know what this user did? he managed to get the obd back to 15%  
02/07/21, 11:49 - Stefano Dall'Asta, Lavoro: He Is a forklift driver  
02/07/21, 11:51 - Support Technician 25: Forklift Driver = Superuser? 😊  
02/07/21, 11:53 - Stefano Dall'Asta, Lavoro: No no default user 🙄  
02/07/21, 12:05 - Support Technician 16: This OBD is from 2 months ago, so no logs, but wanted to see what he did to see what happened, why the obd is like that

05/07/21, 06:02 - Nicola Bernardi: IMG-20210705-WA0000.jpg (file allegato)  
Good morning, all infeed line are locked for a temp pallets and i Can't reset for this problem

05/07/21, 06:53 - Support Technician 25: Did you execute this "aggiornamento"?  
05/07/21, 06:55 - Nicola Bernardi: When you close wamas and re-open It the "aggiornamento" start automatically

05/07/21, 07:14 - Support Technician 25: How did you solve it? IG looks empty?  
05/07/21, 07:16 - Nicola Bernardi: PC change, after a few minutes

05/07/21, 09:15 - Andrea Brunetti: IMG-20210705-WA0001.jpg (file allegato)

05/07/21, 14:38 - Support Technician 25: Guys, what's wrong with EMS?!

05/07/21, 14:40 - Company Employee 18: We go to check  
05/07/21, 14:40 - Support Technician 25: @Company Employee 18 is turntable in the correct position?

05/07/21, 14:41 - Company Employee 18: IMG-20210705-WA0003.jpg (file allegato)  
05/07/21, 14:41 - Company Employee 18: The number 7 is in error but lighthouse don't show us the issue

05/07/21, 14:41 - Support Technician 25: What's the issue?  
05/07/21, 15:01 - Company Employee 18: We check  
05/07/21, 15:05 - Company Employee 18: The trolley remain in emergency don't restart

05/07/21, 15:05 - Support Technician 25: What's the error message on trolley?  
05/07/21, 15:05 - Company Employee 18: IMG-20210705-WA0004.jpg (file allegato)  
05/07/21, 15:06 - Company Employee 18: Errore tramite la rotaia 6

05/07/21, 15:19 - Company Employee 18: IMG-20210705-WA0006.jpg (file allegato)  
05/07/21, 15:21 - Giacomo Trivieri, Lavoro: @Support Technician 25 we are calling the hotline for this.. EMS error Is "offline"

05/07/21, 15:22 - Support Technician 25: ER112 is related to the VAHLE system I guess  
05/07/21, 15:23 - Support Technician 25: and ER112 is related to barcode on the rail/ barcode reader on trolley

05/07/21, 15:36 - Support Technician 25: Heureka  
05/07/21, 15:36 - Support Technician 25: What was finally the issue?  
05/07/21, 15:36 - Company Employee 18: Matthias we have found the issues  
05/07/21, 15:36 - Company Employee 18: Yes  
05/07/21, 15:37 - Company Employee 18: A cable broken of signal to the position  
05/07/21, 15:38 - Support Technician 25: Do you have pic? Broken or just disconnected?

05/07/21, 15:38 - Company Employee 18: Broken and disconnected now we call in maintence and try to repair it  
05/07/21, 15:42 - Support Technician 25: Pls send me a pic of the broken cable, just for my knowledge. I assume it was a cable from "conductor rail gripper"?  
05/07/21, 15:42 - Company Employee 18: IMG-20210705-WA0007.jpg (file allegato)  
05/07/21, 15:42 - Company Employee 18: IMG-20210705-WA0008.jpg (file allegato)  
05/07/21, 15:44 - Support Technician 25: Jep, so Trolley did not get the E-Stop "Ping" singal and went into error I suppose

06/07/21, 08:03 - Support Technician 25: FYI, I'll temporarily leave this channel from 13.07 - 02.08 due to vacation

06/07/21, 08:49 - Stefano Dall'Asta, Lavoro: Hi everyone  
06/07/21, 08:51 - Stefano Dall'Asta, Lavoro: Can you check why i cant see article ANXS in WH502? I have to upload the LU minimum Number but i cant  
06/07/21, 08:52 - Support Technician 16: Hi Stefano, ANXS? can you show me in MD001 the item you are reffering to?  
06/07/21, 08:59 - Support Technician 16: Found it, you have over 1000 items in Wh502, please, and it shows only 1000, please customize your search to have more that 1000

06/07/21, 08:59 - Support Technician 16: <Media omessi>  
06/07/21, 08:59 - Stefano Dall'Asta, Lavoro: Grest!  
06/07/21, 08:59 - Support Technician 16: You should have received initially a warning stating that you have over 1000 and the list will be limited

06/07/21, 08:59 - Stefano Dall'Asta, Lavoro: Great  
06/07/21, 10:34 - Andrea Brunetti: IMG-20210706-WA0003.jpg (file allegato)

06/07/21, 10:39 - Support Technician 5: Can you tell me which conv this pallet is originally from?  
06/07/21, 10:40 - Support Technician 5: And how does the pallets baselegs look? Can you please take a pic of those?  
06/07/21, 10:55 - Andrea Brunetti: IMG-20210706-WA0002.jpg (file allegato)  
The pallet we've already taken it away, and the turn of the pallet and this  
06/07/21, 11:17 - Support Technician 25: IMG-20210706-WA0001.jpg (file allegato)  
Is it possible to reduce the left/right bottom runner? Less wood = less costs for Atlas (and less errors)  
06/07/21, 11:28 - Milo Barozzi: Already tried a few months ago. Unfortunately width it's not standard if we reduce it, means more costs for atlas even less material 🙄  
06/07/21, 11:32 - Support Technician 5: It's just that when D pallet is so narrow, with baselegs this width the pallets falling down to floor will most likely happen.  
06/07/21, 11:33 - Support Technician 5: And all D pallets are not that bad but that in pic is way too much  
06/07/21, 14:45 - Company Employee 18: Picking station 12  
06/07/21, 14:45 - Company Employee 18: IMG-20210706-WA0007.jpg (file allegato)  
Hi guys can you check this pallet on cu 262 we have the picking guys blocked because this pallet remain there can you help me? @Support Technician 6 @Support Technician 21

06/07/21, 18:45 - Mihai Soceanu: order for the pallet looks correct  
06/07/21, 18:46 - Mihai Soceanu: i can try to resend the order to PLC  
06/07/21, 18:46 - Company Employee 18: Yes I know but I don't know why don't exit can you show the solution?  
06/07/21, 18:46 - Mihai Soceanu: i try and then i check if you have access to do it  
06/07/21, 18:47 - Mihai Soceanu: i will ask my colleagues tomorrow  
06/07/21, 18:47 - Company Employee 18: Ok thx  
06/07/21, 18:48 - Company Employee 18: It start  
06/07/21, 18:48 - Mihai Soceanu: done  
06/07/21, 18:48 - Mihai Soceanu: i cancelled the step then reset the order  
06/07/21, 18:49 - Mihai Soceanu: i will come back tomorrow  
06/07/21, 18:49 - Mihai Soceanu: and i will let you know how you can do it in WAMAS  
06/07/21, 18:50 - Company Employee 18: Perfect thx Mihai

06/07/21, 23:49 - Milo Barozzi: Come on Andor! IT 🇦🇩🙌  
07/07/21, 00:43 - Capoturno Picking Progetto Lavoro: but everything stopped, shuttles stopped  
07/07/21, 00:45 - Capoturno Picking Progetto Lavoro: mav input stopped with

empty plts above

07/07/21, 06:12 - Support Technician 25: It's celebrating 🥳  
07/07/21, 06:29 - Support Technician 5: Congrats to Italy 🇮🇹👏 What a game 🍷

07/07/21, 11:29 - Support Technician 5: This is a known problem. We can't do anything to that before the front plate of conveyor is cutten lower. Before that there is no limit at all to low the forks more down.  
07/07/21, 13:33 - Razvan Voicu: 🇷🇴  
07/07/21, 13:37 - Milo Barozzi: Don't provoke 😡  
07/07/21, 13:57 - Support Technician 25: @Company Employee 12 @Company Employee 17 can you cut the front plate?  
07/07/21, 13:57 - Support Technician 25: IMG-20210707-WA0013.jpg (file allegato)  
07/07/21, 14:02 - Valerio Montanari, MMOperations: Hi everyone!  
Picking Station 3 is blocked, all the location are full, but no available orders  
07/07/21, 14:10 - Support Technician 16: Hi, i can take a look  
07/07/21, 14:14 - Support Technician 16: IMG-20210707-WA0014.jpg (file allegato)  
07/07/21, 14:14 - Support Technician 16: it is full but just because he did not release one of the targets  
07/07/21, 14:14 - Support Technician 16: there is a empty pallet that wants to come on a free location for him to continue the order he is now working on  
07/07/21, 14:34 - Valerio Montanari, MMOperations: On MF014 the error on BP03 D01 is "WAIT FOR EMPTY MASTER"  
07/07/21, 14:35 - Support Technician 16: IMG-20210707-WA0015.jpg (file allegato)  
@Company Employee 16 @Company Employee 15 we have again a case intervention from office user where he finalized a tpo from the automated zone manually  
07/07/21, 14:36 - Stefano Dall'Asta, Lavoro: Ok i speak to them  
07/07/21, 14:36 - Valerio Montanari, MMOperations: How can we do?  
07/07/21, 14:36 - Support Technician 16: IMG-20210707-WA0016.jpg (file allegato)  
@Company Employee 3 yes, it is waiting for TEMP 5207 to move, but as i mentioned above, this user moved the pallet manually and the temp is still waiting for it  
07/07/21, 14:37 - Support Technician 16: Please discuss with the maintainance people to fix this pallet stuck there  
07/07/21, 14:45 - Giacomo Trivieri, Lavoro: We have sent this pellet in HBW  
07/07/21, 14:46 - Giacomo Trivieri, Lavoro: @Support Technician 16  
07/07/21, 14:48 - Support Technician 16: Not good, the pallet that just arrived wanted to use that temp  
07/07/21, 14:52 - Support Technician 16: You will have to take down that pallet as it is a H and that one can not enter HBW like that  
07/07/21, 14:54 - Giacomo Trivieri, Lavoro: Now we have 2 pellets blocked  
07/07/21, 14:54 - Giacomo Trivieri, Lavoro: IMG-20210707-WA0017.jpg (file allegato)  
07/07/21, 14:55 - Support Technician 16: IMG-20210707-WA0018.jpg (file allegato)  
Please take down  
07/07/21, 14:55 - Giacomo Trivieri, Lavoro: Manually?  
07/07/21, 14:55 - Support Technician 16: yes  
07/07/21, 14:56 - Giacomo Trivieri, Lavoro: And After that?  
07/07/21, 14:58 - Support Technician 16: @Support Technician 13 can you please help guide them into resolving this issue?  
07/07/21, 14:58 - Giacomo Trivieri, Lavoro: Sorry but we are learning on field  
07/07/21, 15:06 - Support Technician 13: please take it down, and after delete it from the system  
07/07/21, 15:07 - Company Employee 18: Now I have remove  
07/07/21, 15:07 - Company Employee 18: IMG-20210707-WA0019.jpg (file allegato)  
07/07/21, 15:07 - Company Employee 18: This is the situation now  
07/07/21, 15:07 - Support Technician 13: after you will have to delete the conveyor order also from MF266  
07/07/21, 15:08 - Company Employee 18: I delete in mf266 the barcode 59877317?  
07/07/21, 15:10 - Support Technician 13: yes, but first delete it from wamas or book it to "lost and found"

07/07/21, 15:12 - Company Employee 18: I delete or I book to lost and found? 🙄  
07/07/21, 15:12 - Company Employee 18: Is the same thing?  
07/07/21, 15:13 - Support Technician 13: it's better to book it to lost&found  
07/07/21, 15:16 - Company Employee 18: Ok now is in lost and found  
07/07/21, 15:16 - Company Employee 18: Now what I do?  
07/07/21, 15:18 - Support Technician 13: now "cancel request" from MF266, to delete the conveyor order for CU125  
07/07/21, 15:18 - Company Employee 18: Ok done  
07/07/21, 15:18 - Support Technician 13: 👍.  
07/07/21, 15:22 - Company Employee 18: Ok for understand thia temp now wait a pallet right? When the pallet are put on this slave B a transport order will be created?  
07/07/21, 15:23 - Support Technician 13: yes, AGV04 is putting the D on it now  
07/07/21, 15:23 - Company Employee 18: Ok perfect thx  
07/07/21, 15:23 - Support Technician 13: welcome!  
07/07/21, 18:48 - Giacomo Trivieri, Lavoro: IMG-20210707-WA0021.jpg (file allegato)  
07/07/21, 18:48 - Giacomo Trivieri, Lavoro: Guys please fix this ASAP  
07/07/21, 18:49 - Giacomo Trivieri, Lavoro: @Support Technician 13 @Support Technician 6 @Support Technician 21  
07/07/21, 18:52 - Support Technician 25: Is it a bug or an operational error?  
07/07/21, 18:58 - Giacomo Trivieri, Lavoro: I think It Is a bug or system error  
07/07/21, 18:58 - Mihai Soceanu: i will check  
07/07/21, 18:58 - Mihai Soceanu: now is ok  
07/07/21, 19:02 - Support Technician 16: Did you intervene in any way or was it already ok by the time you checked?  
07/07/21, 19:10 - Giacomo Trivieri, Lavoro: I have not done anything  
07/07/21, 19:12 - Support Technician 16: No no, the question was for Mihai 😊  
07/07/21, 19:43 - Giacomo Trivieri, Lavoro: @Support Technician 16 😂😂 Sorry my fault 😊  
07/07/21, 19:59 - Support Technician 25: @Support Technician 6 be careful if you ever come onsite, they'll burn you on the pyre because of accusing you as a wizzard or magicin with all you Voodoo stuff 🙄  
07/07/21, 20:00 - Mihai Soceanu: ahahahahah  
07/07/21, 20:04 - Mihai Soceanu: i did smth in MFS, we will expose that functionality in WAMAS also  
07/07/21, 20:04 - Mihai Soceanu: nothing voodoo :)  
08/07/21, 11:08 - Support Technician 13: IMG-20210708-WA0001.jpg (file allegato)  
hi, what is the issue with AGV01? it's standing there for more then 30min and blocking the Ww exit  
08/07/21, 11:23 - Support Technician 25: It's singing Elton John - I'm still standing 🎤  
08/07/21, 11:27 - Nicola Bernardi: IMG-20210708-WA0002.jpg (file allegato)  
The pallet wasn't in a good position  
08/07/21, 15:33 - Giacomo Trivieri, Lavoro: IMG-20210708-WA0004.jpg (file allegato)  
@Support Technician 13 @Support Technician 6 @Support Technician 21 hi guys can someone of you check this problem?i dont know how to solve it  
08/07/21, 15:36 - Giacomo Trivieri, Lavoro: Ok thanks for your help now the pellet Is gone but i would like to know how do you solve It  
08/07/21, 15:47 - Support Technician 13: hi, we are checking this situation  
08/07/21, 15:49 - Giacomo Trivieri, Lavoro: Ok if you want to explain us results of researches It woulb be really appreciate  
08/07/21, 16:11 - Support Technician 13: in MF14 the TPO of pallet had 2 targets: 1.HBW1 (ok) 2.CU04 (unreachable from CU149). The 2nd target had to be canceled and pallet "refreshed from DB" in MF200  
08/07/21, 16:48 - Giacomo Trivieri, Lavoro: Ok other question Is: why T0 has 2 targets? Just One target is normal right?  
08/07/21, 17:01 - Support Technician 13: TPOs can have 1 or many targets. they're usually ok. this is an exception and you don't have to worry about it, we will check it if it happens again  
09/07/21, 06:57 - Nicola Bernardi: IMG-20210709-WA0002.jpg (file allegato)  
Can you help me for this?  
09/07/21, 06:59 - Nicola Bernardi: It is in this situation from long time 😊

09/07/21, 06:59 - Mihai Soceanu: pallets are not in the palce any longer  
 09/07/21, 06:59 - Mihai Soceanu: ?  
 09/07/21, 06:59 - Mihai Soceanu: phisically  
 09/07/21, 06:59 - Mihai Soceanu: ?  
 09/07/21, 07:00 - Mihai Soceanu: is smth else  
 09/07/21, 07:01 - Mihai Soceanu: there was manual intervention in the crane before  
 09/07/21, 07:01 - Mihai Soceanu: and MFS forced it in manual stop  
 09/07/21, 07:02 - Mihai Soceanu: in MFS we have the posibility to reset the crane, i will ask Andor if possible from wamas  
 09/07/21, 07:02 - Nicola Bernardi: I know, I'm going inside for try to restart the crane  
 09/07/21, 07:02 - Mihai Soceanu: nono  
 09/07/21, 07:02 - Mihai Soceanu: all ok now  
 09/07/21, 07:02 - Nicola Bernardi: 😞  
 09/07/21, 07:03 - Nicola Bernardi: <Media omessi>  
 09/07/21, 07:03 - Mihai Soceanu: i fixed it from MFS side, as i said i will ask team if we can do it also from WMS  
 09/07/21, 07:05 - Nicola Bernardi: I found the T0 in error, I try to restart from MF014, and I refresh and restart it on MF200  
 09/07/21, 07:05 - Mihai Soceanu: yes your handling was ok  
 09/07/21, 07:05 - Mihai Soceanu: but missing one step which i am not sure if you can do as of now  
 09/07/21, 07:06 - Nicola Bernardi: But it isn't gone 🤔  
 09/07/21, 07:06 - Nicola Bernardi: □

 Pallet seemed well aligned  
 09/07/21, 11:45 - Support Technician 25: If you look at the video the forks have hit something after entering the fork pockets  
 09/07/21, 11:46 - Support Technician 25: IMG-20210709-WA0014.jpg (file allegato)  
 Still all fine, fork position in relation to pallet looks very good  
 09/07/21, 11:46 - Support Technician 25: after 2/3 of entering it hit something  
 09/07/21, 11:46 - Support Technician 25: IMG-20210709-WA0015.jpg (file allegato)

 @Company Employee 17 say "Cheeeeeeeese"  
 09/07/21, 11:52 - Support Technician 25: @Company Employee 17 ⚠️⚠️ If you add another pallet the height/height class might chance and the pallet might get stuck in the rack level ....  
 09/07/21, 11:53 - Nicola Bernardi: I take out this pallet  
 09/07/21, 11:53 - Support Technician 25: WAMAS does not know how high the pallet is  
 09/07/21, 11:53 - Support Technician 25: ok, very good  
 09/07/21, 11:54 - Nicola Bernardi: Because the pallet is very dangerous on the rack  
 09/07/21, 11:54 - Support Technician 25: Good decision! Do you know where/why the forks have hit the pallet?  
 09/07/21, 12:05 - Nicola Bernardi: After the work for take out pallet I try to found the problem  
 09/07/21, 13:09 - Support Technician 25: FYI, EMS Loop3 is blocked since 12:30 with gap sensor  
 09/07/21, 13:09 - Support Technician 25: Pickstation 10  
 09/07/21, 13:13 - Nicola Bernardi: Siamo stati fino a 5 minuti fa nel traslo 5 per sistemare una fotocellula rotta a causa di un prelievo sbagliato  
 09/07/21, 14:10 - Giacomo Trivieri, Lavoro: @Support Technician 13 @Support Technician 6 hi guys good afternoon can you help me with pellet on BP04 S02? It

won't go away but all things in T0 seems ok  
09/07/21, 14:19 - Support Technician 13: hi, was the release button pressed?  
09/07/21, 14:19 - Support Technician 13: pallet on CU74?  
09/07/21, 14:33 - Support Technician 13: IMG-20210709-WA0017.jpg (file allegato)  
there was some user intervention before  
09/07/21, 14:33 - Support Technician 13: now it should be ok.  
09/07/21, 14:35 - Support Technician 13: conveyor did not accept the order  
because of this. i had to cancel request from MF266, and after reset order from  
MF200  
09/07/21, 14:38 - Support Technician 16: @Company Employee 16 @Company Employee  
15 please tell once again the users to not finish manually tpo's in the  
automated zone...unless they are 100% sure of what they are doing will not  
affect  
09/07/21, 14:42 - Stefano Dall'Asta, Lavoro: Yes, i Will do it  
09/07/21, 14:43 - Tudor, Progetto Lavoro: Buongiorno ragazzi..scusate ma chi sta  
usando l'utente plcreparto4?  
09/07/21, 14:43 - Stefano Dall'Asta, Lavoro: Credevo foste voi su  
09/07/21, 14:45 - Tudor, Progetto Lavoro: No...  
09/07/21, 14:46 - Tudor, Progetto Lavoro: Alla 7 bis sono rimasto loggato con  
l'utente plcreparto4.  
11/07/21, 23:58 - Davide Montanari: It s coming .... ROMEEEEEEEEEEEEEE  
11/07/21, 23:58 - Support Technician 13: Viva it 😊  
12/07/21, 08:13 - Giacomo Trivieri, Lavoro: Hi guys  
Good morning i have a question for you: why if a rebook pellet 59720566 in  
PPF01C0561, lighthouse doesn t sees it?current error at surgent 2.3 Is "data  
without assignment" and i think It Is very strange this case  
12/07/21, 08:14 - Giacomo Trivieri, Lavoro: @Support Technician 13 @Support  
Technician 6  
12/07/21, 08:19 - Giacomo Trivieri, Lavoro: @Support Technician 25 we are trying  
to solve "stato del carico non plausibile" on shuttle 12 and we have already  
tried to do all routine operations (using the EMS display to delete the logical  
occupancy on EMS) but they dont works. I think we Need to see somewhere of there  
Is still a T0 regarding the EMS but on wh004, EMS 12 Is empty  
12/07/21, 08:34 - Support Technician 13: Hi Matteo, i see that 59720566 is  
logically on EMS vehicle, where is it physically?  
12/07/21, 08:35 - Support Technician 13: if nothing is on CU056 you might have  
to clear the false occupancy with Ctop  
12/07/21, 08:36 - Support Technician 13: or have you tried to reset the pult?  
12/07/21, 08:38 - Giacomo Trivieri, Lavoro: Hi andor👉where did you see It?cause  
i have rebooked It to cu56  
12/07/21, 08:39 - Giacomo Trivieri, Lavoro: Is pishically on cu56 P1  
12/07/21, 08:39 - Giacomo Trivieri, Lavoro: Already did It and already tried to  
put occupancy at P1 using CTOP  
12/07/21, 08:39 - Company Employee 18: IMG-20210712-WA0000.jpg (file allegato)  
@Support Technician 13 Is here  
12/07/21, 08:52 - Support Technician 13: IMG-20210712-WA0001.jpg (file allegato)  
in SM23 it's on EMS\_V12, you need to rebook it to CU056 position 1  
12/07/21, 08:56 - Giacomo Trivieri, Lavoro: Already did It at least 20 minutes  
ago, i dont know why now It is on EMS 12😞😞😞  
12/07/21, 09:00 - Support Technician 13: looks like the problem was the false  
occupancy on EMS\_V12, that rebooked the pallet on vehicle  
12/07/21, 09:00 - Support Technician 13: you can try again now  
12/07/21, 09:08 - Giacomo Trivieri, Lavoro: Try again to reset pult you mean?  
12/07/21, 09:13 - Support Technician 13: no, to rebook pallet to conveyor  
12/07/21, 09:14 - Company Employee 18: We will do it now  
12/07/21, 09:17 - Company Employee 18: Ok I have book con the conveyor cu 056  
12/07/21, 09:19 - Support Technician 13: now reset order from MF200  
12/07/21, 09:20 - Company Employee 18: Ok  
12/07/21, 09:21 - Company Employee 18: Ok done  
12/07/21, 09:22 - Support Technician 13: wait, it need TPO in wamas  
12/07/21, 09:23 - Company Employee 18: Before reset T0 we need to create a T0  
right?  
12/07/21, 09:24 - Support Technician 13: yes :)  
12/07/21, 09:25 - Support Technician 13: no reset is needed in this case, only

the TPO

12/07/21, 09:28 - Company Employee 18: Ok now I go to reset the pult and after that I think if we do to reinsert the trolley 12 to the system

12/07/21, 09:28 - Company Employee 18: Right?

12/07/21, 09:31 - Support Technician 13: yes, you can put 12 back into system

12/07/21, 09:44 - Company Employee 18: Perfect i do

12/07/21, 09:47 - Valerio Montanari, MMOperations: Hi everyone! Picking Station 4 seems to be blocked, we're waiting for a empty pallet on BP04 D02 for 45 minutes..

12/07/21, 09:48 - Valerio Montanari, MMOperations: How could we do? How can we know which udc (temp) has to arrive?

12/07/21, 09:55 - Support Technician 16: IMG-20210712-WA0002.jpg (file allegato)  
Hi Valerio, this is the dialog you should check

12/07/21, 09:57 - Support Technician 16: IMG-20210712-WA0003.jpg (file allegato)  
In your case, from what I see and understand this would be your empty pallet request, do not worry that it states the first destination, mfs will update this

12/07/21, 09:58 - Support Technician 16: IMG-20210712-WA0004.jpg (file allegato)  
You can also check the protocol by right clicking -> Protocol on the request in cae you do not see an Lu-ID, in your case

12/07/21, 09:58 - Support Technician 16: it seems a D pallet cannot be provided, can you please confirm if this is not the case?

12/07/21, 10:00 - Valerio Montanari, MMOperations: Ok thank you

12/07/21, 10:01 - Valerio Montanari, MMOperations: But the empty location is D02.. I don't see any order

12/07/21, 10:01 - Support Technician 16: as i stated 'do not worry that it states the first destination, mfs will update this'

12/07/21, 10:01 - Support Technician 16: please search after your picking order rather than the destination

12/07/21, 10:02 - Giacomo Trivieri, Lavoro: @Support Technician 25 on SRM08 we still have the error "errore di esecuzione programma" have we to open a ticket for this?

12/07/21, 10:04 - Razvan Voicu: @Company Employee 18 regarding the printer ticket, we can't do anything

12/07/21, 10:04 - Razvan Voicu: It's "labeler not in home position". Maybe PLC can take a look and do something?

12/07/21, 10:06 - Giacomo Trivieri, Lavoro: @Support Technician 13 EMS 12 Is still in "stato del carico non plausibile" even After did all procedures like @Support Technician 25 has said.

12/07/21, 10:10 - Giacomo Trivieri, Lavoro: @Support Technician 13 i think we have to open a new urgent ticket for that

12/07/21, 10:14 - Support Technician 13: i don't know what was the solution proposed by Matthias. if it's not working conform documentation please try Eisenmann hotline

12/07/21, 10:15 - Support Technician 25: @Company Employee 10 how was it now resolved?

12/07/21, 10:15 - Support Technician 25: ah, EMS12 is in maintenance area...

12/07/21, 10:19 - Support Technician 25: @Company Employee 10 yes, pls open a ticket for documentation purpose. I have in parallel adressed it internally.

12/07/21, 10:22 - Company Employee 18: IMG-20210712-WA0005.jpg (file allegato)  
I have see in the details of lighthouse on this trolley there is the last code book I try to cancel

12/07/21, 10:26 - Company Employee 18: Ok we open a ticket because every operation find in the documentation we have try but don't work

12/07/21, 10:28 - Giacomo Trivieri, Lavoro: Ok i Will do it

12/07/21, 10:41 - Valerio Montanari, MMOperations: @Support Technician 16 sorry I hadn't read yet.

Yes the problem is this one.

12/07/21, 10:42 - Valerio Montanari, MMOperations: Last question: how can we see where D pallet are located inside MAV?

12/07/21, 10:43 - Support Technician 16: you mean stacks of empty pallets?

12/07/21, 10:43 - Valerio Montanari, MMOperations: Yes

12/07/21, 10:49 - Support Technician 16: IMG-20210712-WA0010.jpg (file allegato)  
you can search based on the type of pallets

12/07/21, 10:49 - Support Technician 16: IMG-20210712-WA0009.jpg (file allegato)

these are all the options

12/07/21, 11:43 - Valerio Montanari, MMOperations: Thank you @Support Technician 16

12/07/21, 13:35 - Support Technician 16: IMG-20210712-WA0012.jpg (file allegato)  
Can someone please tell me if the user at pick station 6 is able to make this picking?

12/07/21, 17:34 - Milo Barozzi: Shall somebody remove the flag "loaded" to this LU: 60055863?

It was a masterLU for a hierarchicalLU loaded before fixing a bug, but I cannot unload it and I don't have the function "explore"...

Thank you!

13/07/21, 06:35 - Giacomo Trivieri, Lavoro: Good morning guys can someone help us at cu203? There Is 59049259 on It but we dont know how to create a logical pellet; we only know how to delete a logical pellet.

@Support Technician 6 @Support Technician 13

13/07/21, 06:37 - Support Technician 13: morning, i'll check

13/07/21, 06:40 - Support Technician 13: it has no TPO in wamas. if you create it it should go away

13/07/21, 06:41 - Giacomo Trivieri, Lavoro: I cant create a TO in wamas @Support Technician 13

13/07/21, 06:45 - Giacomo Trivieri, Lavoro: IMG-20210713-WA0000.jpg (file allegato)

@Support Technician 13

13/07/21, 06:46 - Support Technician 13: hmm... yes i see that now. i'll have to check it with WMS team

13/07/21, 06:46 - Giacomo Trivieri, Lavoro: Ok let me know any piece of news👍

13/07/21, 07:37 - Company Employee 18: IMG-20210713-WA0002.jpg (file allegato)

@Support Technician 13 hi can you check this type of issue is very strange this 2 pallet for wamas and lighthouse are here but phisically in not here! Where are those pallet?

13/07/21, 07:39 - Company Employee 18: <Media omessi>

@Support Technician 25

13/07/21, 07:46 - Support Technician 25: @Company Employee 18 @Company Employee 10 what's the issue now? Freezing panel or just a broken button?

13/07/21, 07:48 - Company Employee 18: Is this ctop because I have try with another and work weel

13/07/21, 07:48 - Company Employee 18: Well

13/07/21, 07:48 - Support Technician 25: ok

13/07/21, 07:54 - Support Technician 13: was there any user intervention on these pallets? logically they are there, but where are they physically?

13/07/21, 07:58 - Company Employee 18: Me and Matteo we don t do any operation for show you what issue are happened

13/07/21, 08:01 - Support Technician 13: look like user error, i'll book them to S02 MAV and clear the data from the conveyors

13/07/21, 08:03 - Company Employee 18: When you are ready I go to check the situation to remove the warning on lighthouse

13/07/21, 08:07 - Support Technician 13: please reset the pult there, thx

13/07/21, 08:09 - Company Employee 18: Ok thx

13/07/21, 08:10 - Company Employee 18: Ok confirmed

13/07/21, 08:11 - Company Employee 18: The cu071 now it is ok?

13/07/21, 08:13 - Company Employee 18: IMG-20210713-WA0003.jpg (file allegato)

@Support Technician 13 for this issue you have find the resolution?

13/07/21, 08:14 - Support Technician 16: I am looking into it right now

13/07/21, 08:14 - Company Employee 18: Ok thx we wait your news thx

13/07/21, 08:25 - Support Technician 16: Unfortunately the pallet could not be moved manually so I had to finalize de PO for it, and now the pallet should go back to hbw1, please tell if it's ok

13/07/21, 08:31 - Giacomo Trivieri, Lavoro: @Support Technician 16 Sorry for the question but what Is P0?

13/07/21, 08:33 - Support Technician 16: Picking Order

13/07/21, 08:34 - Giacomo Trivieri, Lavoro: Ok thanks👍

13/07/21, 08:34 - Support Technician 16: You're welcome

13/07/21, 08:35 - Giacomo Trivieri, Lavoro: @Support Technician 16 pellet Is gone i think It Is ok now

13/07/21, 08:40 - Milo Barozzi: Good morning everybody!  
Shall somebody remove the flag "loaded" to this LU: 60055863?  
It was a masterLU for a hierarchicalLU loaded before fixing a bug, but I cannot unload it and I don't have the function "explore"...  
Thank you!

13/07/21, 08:49 - Support Technician 16: Good morning, i will check  
13/07/21, 08:59 - Milo Barozzi: Working now! thank you so much!  
13/07/21, 09:08 - Milo Barozzi: Probably you were already informed about that, but we are having some troubles with pick station #7.  
More in detail:  
- on BP07 D01 we have an empty pallet, but we have no chance to make any picking, neither to switch the destination pallet for another OBD; LU is 59903662 and it's not a shipLU (no shipLU flag) and it's not linked to any OBD even it has FOG "OutSide";  
- on BP07 D02 a pallet is coming and leaving in loop, AGV are depositing and retrieving it in loop and we have no change to make anything.

Do you have any idea of why this is happening and how to solve?

13/07/21, 09:08 - Milo Barozzi: Thank you  
13/07/21, 09:20 - Razvan Voicu: @Company Employee 18 is this problem fixed?  
"Ticket details:  
Bay 1 blocked and picking very slow  
"

13/07/21, 09:22 - Company Employee 18: I go to check  
13/07/21, 09:23 - Company Employee 18: Ok the picking station 1 go fast excellent 😊  
13/07/21, 09:30 - Milo Barozzi: sorry to bother you.. any news on pick station #7?  
13/07/21, 09:30 - Mihai Soceanu: we are checking  
13/07/21, 09:30 - Mihai Soceanu: 59762885 just left  
13/07/21, 09:30 - Mihai Soceanu: from target 2  
13/07/21, 09:32 - Milo Barozzi: exactly.. it seems that a process (maybe: declared pallet as full, bring a new one) is trying to bring BP07 D02 a pallet, and another process is saying "no, that location should be kept free!" and it creates TPO for make that pallet leaving...  
13/07/21, 09:32 - Milo Barozzi: could be something like this @Support Technician 6 ?  
13/07/21, 09:34 - Mihai Soceanu: seems that pallet is brought in the station and imedaitelly has a TPO created back to S46  
13/07/21, 09:35 - Milo Barozzi: exactly  
13/07/21, 09:36 - Milo Barozzi: @Support Technician 6 what if we move away empty AF from BP07 D01? in this way we have 2 destination location free and we can see if the pallet from BP07 D02 is sent away to S46 again...  
13/07/21, 09:45 - Support Technician 16: IMG-20210713-WA0004.jpg (file allegato)  
13/07/21, 09:47 - Support Technician 16: 59903662 was a pallet that got yesturday am not empty error, someone cancelled the tpo and the system send this pallet with the error in S46  
13/07/21, 09:47 - Support Technician 16: and when he came back to station remained the error, resolving the error on the pallet seems to fix the pallet that was not a shipment LU  
13/07/21, 09:49 - Support Technician 16: we have a logic that makes space for pallets, but having this pallet with error occupying a space ment that he was doing back and forth with S46 because he was trying to make space  
13/07/21, 09:50 - Support Technician 16: The main solution here would be that if a person decides to manually intervene to also check errors on the pallet and not move pallets with errors on them  
13/07/21, 09:56 - Milo Barozzi: Clear as crystal... thanks Adrian! Very difficult to discover 😊  
13/07/21, 11:27 - Milo Barozzi: IMG-20210713-WA0005.jpg (file allegato)  
one very important info.... do somebody know which device (IP address) is triggering this even in Lighthouse?  
13/07/21, 11:29 - Milo Barozzi: We're investigating about connection drops and we want to monitor it. Since all the team is here now...  
13/07/21, 11:29 - Support Technician 25: This is from monorail

13/07/21, 11:30 - Support Technician 25: 10.32.0.191  
13/07/21, 11:31 - Support Technician 25: and 10.32.0.192 as CAN Gateway (CAN from Conductor Rail to CPU I think)  
13/07/21, 11:34 - Milo Barozzi: thanks  
13/07/21, 11:34 - Milo Barozzi: @Support Technician 25 we constantly pinged 10.32.0.191 and 10.32.0.192 during a "connection lost" event, but ping was always answering properly. No package was lost...  
13/07/21, 11:35 - Milo Barozzi: how is the system working? I mean... how monorail is telling Lighthouse connection was lost?  
13/07/21, 11:40 - Support Technician 25: IMG-20210713-WA0006.jpg (file allegato)  
For S46 buffer, just for clarity, new setup will sacrifice the ground floor locations to a single one  
13/07/21, 11:41 - Support Technician 25: It is an error generated inside the EMS system  
13/07/21, 11:47 - Milo Barozzi: can you provide me a contact in Eisenmann with which we can deepen this?  
13/07/21, 11:59 - Support Technician 25: yes, sent mail..  
13/07/21, 12:02 - Milo Barozzi: very good! Thanks!  
13/07/21, 12:55 - Support Technician 25: I'm leaving the chat my vacation because I'm not reading it anyway. If there are important topics related to the initial scope please highlight via mail and I'll deal with it after my return on 2nd August  
13/07/21, 14:10 - ~Matthias Neuroth ha abbandonato.  
14/07/21, 08:34 - Mihai Soceanu: Hi, question do you know what is wrong with crane 8  
14/07/21, 08:34 - Mihai Soceanu: ?  
14/07/21, 08:34 - Mihai Soceanu: :(  
14/07/21, 08:35 - Milo Barozzi: I know only that @Company Employee 18 called the support...  
14/07/21, 08:35 - Mihai Soceanu: ok thx  
14/07/21, 08:46 - Company Employee 18: I'm talk with SSI technician to solve the issue

When the Crain want take the pallet going in collision with the top to the pallet from this morning we have do 3 times same issue and I decide to call the hotline I hope to solve the problem too fast possible  
14/07/21, 08:47 - Mihai Soceanu: ok thx for info  
14/07/21, 09:04 - Mihai Soceanu: pls check AGV7 is in error  
14/07/21, 09:04 - Mihai Soceanu: and is blocking station 5  
14/07/21, 09:05 - Mihai Soceanu: IMG-20210714-WA0006.jpg (file allegato)  
14/07/21, 09:05 - Mihai Soceanu: has to take pallet from RPF01C0531  
14/07/21, 09:05 - Mihai Soceanu: @Support Technician 5 is it possible to assigne another AGV in this case ?  
14/07/21, 09:19 - Mihai Soceanu: another thing  
14/07/21, 09:19 - Mihai Soceanu: pallet from RPF01C0531 wa assigned to agv 4  
14/07/21, 09:20 - Mihai Soceanu: after 30 min  
14/07/21, 09:20 - Mihai Soceanu: but pallet from RPF01C0671 was assigned to AGV7  
14/07/21, 09:21 - Mihai Soceanu: even if AGV7 is in error  
14/07/21, 09:22 - Mihai Soceanu: IMG-20210714-WA0007.jpg (file allegato)  
14/07/21, 09:24 - Mihai Soceanu: @Support Technician 5 pls check the last one also  
14/07/21, 09:43 - Valerio Montanari, MMOperations: IMG-20210714-WA0008.jpg (file allegato)  
Hi everyone, an agv has put a new pallet where there was already another one.. He was waiting for a pallet change  
14/07/21, 10:30 - Valerio Montanari, MMOperations: IMG-20210714-WA0010.jpg (file allegato)  
Picking Station 7 is blocked, we can't confirm the express order ("full pallet")..  
14/07/21, 10:30 - Valerio Montanari, MMOperations: <Media omessi>  
14/07/21, 10:35 - Support Technician 16: I will check  
14/07/21, 10:35 - Valerio Montanari, MMOperations: Thanks 🙏  
14/07/21, 10:40 - Milo Barozzi:  Dear All, stacker crane 8 is off and we're waiting for SSI-INCAS help. Several pick stations are waiting due to this. Issue

is that pick stations already picked up a line of these OBDs and therefore we cannot finalize them 

Shall you kindly help us?

14/07/21, 10:41 - Milo Barozzi: Pick stations with this issue are 3, 4, 6, 12

14/07/21, 10:41 - Valerio Montanari, MMOperations: IMG-20210714-WA0012.jpg (file allegato)

One more problem, picking station 3.. It doesn't allow us to change the type of the pallet .. We haven't any options

14/07/21, 10:41 - Milo Barozzi: I'm in videoconference and I cannot act/leave it

14/07/21, 10:45 - Support Technician 16: At what hour did you last try full pallet? can you please give me a hour + minute?

14/07/21, 10:47 - Valerio Montanari, MMOperations: The first time we try it was more or less 10:25 .. The last time it was 10:30 when I sent the video

14/07/21, 11:04 - Milo Barozzi: Sorry for bothering. Any news on this?

14/07/21, 11:04 - Milo Barozzi: shall u kindly help?

14/07/21, 11:07 - Milo Barozzi: we cannot do release source LU for that picking stations to manage correctly the issue...

14/07/21, 11:20 - Support Technician 16: IMG-20210714-WA0013.jpg (file allegato) this pallet is in HBW08 which has the crane blocked, can you please finalize the line and try again the pallet full?

14/07/21, 11:23 - Milo Barozzi: finalized

14/07/21, 11:23 - Milo Barozzi: @Company Employee 3 try again at pick station 7 declaring pallet full. it should work

14/07/21, 11:24 - Support Technician 16: @Company Employee 16 please open a ticket also for this, because, it should have worked without us needing to finalize the line

14/07/21, 11:25 - Valerio Montanari, MMOperations: IMG-20210714-WA0014.jpg (file allegato)

It works 🙏

14/07/21, 11:25 - Milo Barozzi: title should be "pallet full button is not working if a line of that OBD is still in status new"?

14/07/21, 11:25 - Valerio Montanari, MMOperations: Thank you

14/07/21, 11:25 - Milo Barozzi: or was "box full" button?

14/07/21, 11:26 - Support Technician 16: Yes, exactly, full pallet, box full worked

14/07/21, 11:26 - Milo Barozzi: I'll do it! thanks for underlining...

14/07/21, 11:37 - Support Technician 16: We checked, and this is an issue that would require investigation and code fix, can you work without changing the type of the pallet for this example? @Company Employee 16 please open a ticket for this

14/07/21, 11:37 - Milo Barozzi: @Support Technician 16 mail sent for Pallet full button is not working if a line of that OBD (kind EX) is still in status "New" issue

14/07/21, 11:38 - Milo Barozzi: I'll do it immediately

14/07/21, 11:42 - Support Technician 16: @Company Employee 3 Just to understand here, So you wanted to change the target which is a type D, and the checks for the compatibility is for the first source Lu which is also a D, so based on MD500, D is compatible only with a D, you selected the third source which is a H, and you expected to have compatibility with H, not D?

14/07/21, 11:44 - Support Technician 16: @Company Employee 16 how was this logic agreed? based on the first source Lu or based on the selected one?

14/07/21, 11:49 - Milo Barozzi: @Support Technician 16 I think the topic is this: order is a mixture of tiles needing D and tiles needing H. Next pick order line to be picked was for a D type pallet, but source was inside aisle 8 HBW1, i.e. blocked. They can do other lines, but they need an H pallet and it's not possible to request it.

14/07/21, 12:10 - Giacomo Trivieri, Lavoro: IMG-20210714-WA0015.jpg (file allegato)

@Support Technician 13 hi andor there Is an ART blocked in that location

14/07/21, 12:10 - Giacomo Trivieri, Lavoro: What Is This?

14/07/21, 12:21 - Support Technician 13: there will be upcoming change regarding the ground locations, all of them need to be freed

14/07/21, 12:21 - Support Technician 13: block was put by me, but only for storage. please check why AGV can't pick it up

14/07/21, 12:23 - Support Technician 13: IMG-20210714-WA0016.jpg (file allegato)  
it's blocking also the majority of ART AGVs  
14/07/21, 12:28 - Giacomo Trivieri, Lavoro: That location Is pishically empty  
but for wamas there Is a pellet there  
14/07/21, 12:33 - Giacomo Trivieri, Lavoro: @Support Technician 13  
14/07/21, 12:33 - Support Technician 13: ok, is this the location: S46 24-01-00?  
14/07/21, 12:34 - Support Technician 13: i need to book it to lost and found, in  
this case  
14/07/21, 12:35 - Support Technician 13: i canceled the TP0, please remove AGV  
and clear order if it still has one after  
14/07/21, 12:35 - Giacomo Trivieri, Lavoro: Ok for this  
14/07/21, 12:36 - Giacomo Trivieri, Lavoro: Ok also for this  
14/07/21, 12:36 - Giacomo Trivieri, Lavoro: Exactly  
14/07/21, 12:36 - Support Technician 13: 👍.  
14/07/21, 12:42 - Giacomo Trivieri, Lavoro: @Support Technician 13 ART 22 TO  
deleted  
14/07/21, 12:44 - Support Technician 13: ok, thanks  
14/07/21, 12:45 - Support Technician 13: what about AGV23, location is also  
empty there? S46 26-00-00  
14/07/21, 12:45 - Giacomo Trivieri, Lavoro: Exactly  
14/07/21, 12:47 - Support Technician 13: ok, please remove AGV23 also. TP0 was  
canceled from wamas  
14/07/21, 12:53 - Giacomo Trivieri, Lavoro: @Support Technician 13 done it  
14/07/21, 12:58 - Support Technician 13: can you please check also locations S46  
30-00-00, S46 34-01-00?  
14/07/21, 12:58 - Support Technician 13: if there is a pallet on these one or  
not  
14/07/21, 14:01 - Support Technician 13: IMG-20210714-WA0020.jpg (file allegato)  
please check these AGVs when possible  
14/07/21, 14:13 - Tudor, Progetto Lavoro: Salut....va rog sa verificați stația  
3.... cineva a finalizat un order activ în stație...la moment stația este  
blocată. Mersi mult  
14/07/21, 14:34 - Milo Barozzi: @Support Technician 16 it's the order for which  
we finalized picking activity...the one with H/D pallet issue  
14/07/21, 14:40 - Milo Barozzi: I found the issue, when I finalized one picking  
activity, WAMAS finalized the entire pick order, i.e. now we have one order with  
a picking activity in status "active" but picking order is "finalized"..  
14/07/21, 14:42 - Support Technician 16: IMG-20210714-WA0021.jpg (file allegato)  
Sorry but smoeone did try to finalize the whole PO, and it was not you.  
14/07/21, 14:42 - Support Technician 16: the active one remained as it cannot be  
finalized no matter how hard the person tried  
14/07/21, 14:42 - Milo Barozzi: IMG-20210714-WA0023.jpg (file allegato)  
yes and no...  
14/07/21, 14:43 - Milo Barozzi: IMG-20210714-WA0022.jpg (file allegato)  
@Support Technician 16 as you can see, it has the same timestamp of finalize  
done on pick activity  
14/07/21, 14:46 - Support Technician 16: so, there is a total of 4 Picking  
activities of type PICK, one you finalized, one plcreparto1 finalized, one is  
still active and one was picked, so there seems not to be a case of one picking  
activity finalization being the cause of the whole Picking Order finalization  
14/07/21, 14:53 - Support Technician 16: it should just let you identify the  
temp, I am looking as to why it does not want to  
14/07/21, 14:56 - Support Technician 16: @Company Employee 27 ii apare ceva la  
statia 3?  
14/07/21, 14:58 - Support Technician 16: @Company Employee 16 I resolved it fast  
by removing the 'Finalized' mark of the Picking Order, the interesting case was  
that, the station would not make the new Deposit Activity if you had the Picking  
Order marked as 'Finalized'  
14/07/21, 15:01 - Milo Barozzi: clear as crystal...  
14/07/21, 15:01 - Milo Barozzi: @Support Technician 16 shall we try to finalize  
one picking activity on a pick order to see if the whole pick order gets the  
flag "finalized"?  
14/07/21, 15:01 - Support Technician 16: can you please open a ticket?  
14/07/21, 15:01 - Support Technician 16: If it does not bother you, please do

14/07/21, 15:02 - Tudor, Progetto Lavoro: La moment este in aşteptare  
14/07/21, 15:03 - Support Technician 16: Am vazut ca a indetificat si terminat order-ul, creca asteapta dupa urmatorul  
14/07/21, 15:04 - Tudor, Progetto Lavoro: Da ...aştepta paleta din S46.....🤖  
🤖🤖  
14/07/21, 15:05 - Milo Barozzi: open a ticket without trying?  
Or are you already sure that it's flagging the whole pick order as finalized in case only a picking activity is finalized?  
14/07/21, 15:06 - Support Technician 16: ohh no, open a ticket for: 'Picking order marked as finalized with a still active picking activity and no deposit can not receive a new deposit activity'  
14/07/21, 15:07 - Support Technician 16: The part of a picking activity triggering a whole Picking Order finalization, from what I know, If you select only one it should not do it, unless it's the last one that needs to be finalized, please try to see if I am right  
14/07/21, 15:10 - Milo Barozzi: oooh sorry! I misunderstood. Sure! I'll report it immediately  
14/07/21, 15:28 - Milo Barozzi: tested. unfortunately is like I supposed. I'm sending an email...  
14/07/21, 15:29 - Support Technician 16: that's not good, please send, thank you for testing  
14/07/21, 15:33 - Milo Barozzi: You're welcome.. Let's see if I need your help to "unlock" the pick station due to that test 😊  
14/07/21, 15:33 - Support Technician 16: can you please tell me the picking order on which you tested?  
14/07/21, 15:34 - Milo Barozzi: sure: it's OBD0000222424 - Finalized pick activity #2 > 14.07.2021 15:27:35 ATLAME6 BOOST WHITE 75RT 75X75RT  
Normal 0 SC (2) 0 SC (2) 1 AA6S8= 59903999  
14/07/21, 15:34 - Milo Barozzi: Shall you kindly "fix" it?  
14/07/21, 15:39 - Milo Barozzi: @Support Technician 16 e-mail sent. Issue D142  
14/07/21, 15:39 - Milo Barozzi: please, fix it when you finished analysis, since pick station #10 is now blocked due to this. Thank you  
14/07/21, 15:41 - Support Technician 16: it's done, it just need the pallet to come from s46  
14/07/21, 15:42 - Milo Barozzi: perfect! thank you.. in fact we have no "deposit" activity there because the empty pallet did not come yet

good morning, TPO was canceled by user for this pallet and hierarchical LU split. any reason for this?  
15/07/21, 10:43 - Support Technician 13: based on conveyor info, pallet was recreated as a simple B.

15/07/21, 10:57 - Stefano Dall'Asta, Lavoro: Hi, how can i see more than 1000 results in Page WH502? Last week i find the settings now i cant find It anymore.thank you  
15/07/21, 11:01 - Support Technician 16: Hi Stefano, seems that it is due to a recent fix during the last deploy, can you open a ticket please as we can not do anything without a change in code. thank you  
15/07/21, 11:03 - Benedetta Zini: I have already opened a ticket👍  
15/07/21, 11:04 - Support Technician 16: When did you open it?  
15/07/21, 11:06 - Benedetta Zini: Monday 12/07  
15/07/21, 11:07 - Support Technician 16: can you please push this to the persons you opened the ticket, I did not receive it from them

please keep an eye on the NOK location MDP05L01, especially when sending pallets there from pick station source location. Wunderwuzzi exit is blocked by pallet waiting to go to NOK

15/07/21, 12:10 - Benedetta Zini: For the issue F74 "No settings bottom in WH502" I haven't a jira link so I don't know the person who received this ticket

15/07/21, 12:12 - Milo Barozzi: @Company Employee 3 per favore date un'occhiata alla NOK GtP e risolvetes il pallet che è lì in errore per favore

15/07/21, 12:13 - Support Technician 16: the issue is we did not receive the ticket you created on our side, please send them again a ticket stating that you already send one previously

15/07/21, 12:13 - Valerio Montanari, MMOperations: Risolto adesso, la postazione è libera

15/07/21, 12:14 - Milo Barozzi: grazie mille

15/07/21, 12:15 - Milo Barozzi: We'll do it Adrian, but why CSS support is not creating tickets? We're doing quite an hard job to send you detailed mail for issues and you're always in the "send to" list, but if tickets are not opened... it's all work for nothing 🙄

15/07/21, 12:16 - Milo Barozzi: I think the issue was generated from the fact that at a first time helpdesk was not in copy, then it was put in copy by Lucian.. probably they missed it due to this

15/07/21, 12:20 - Support Technician 16: I am not sure what the situation is. @Support Technician 14 can you help us with this?

16/07/21, 08:24 - Mihai Soceanu: ?

16/07/21, 08:25 - Mihai Soceanu: phisically in the rack locations

16/07/21, 09:06 - Milo Barozzi: Dear All, we have TEMP7752 and TEMP7753 in S46 waiting to go to pick stations #1 and #5 which both have a free location, but they're not retrieved...

16/07/21, 09:07 - Milo Barozzi: TEMP7752 as a TPO pointing BP01 D01, but BP01 D01 while BP01 D02 is occupied... the same for TEMP7753

16/07/21, 09:07 - Milo Barozzi: poiting BP05 D02, which is occupied but BP05 D01 is free

16/07/21, 09:25 - Milo Barozzi: IMG-20210716-WA0003.jpg (file allegato)

we're having this issue in many pick stations.. most of them waiting for an empty pallet. I checked OG525 and found that, for instance, TEMP7795 assigned for pick order 1781847 at picking station #1 is already there!

regarding the P0this is the second one, so you are still working on the other one 1776522

16/07/21, 09:53 - Support Technician 16: @Support Technician 6 can you have a look at TEMP7752, why it does not want to move please?

16/07/21, 09:56 - Milo Barozzi: yes, sure, but pallet is not going to pick station anyway, while it should

16/07/21, 09:57 - Support Technician 5: Hi all, is it okay if about 10:30 I will

block all vehicles for about 15min to transfer new layout and restart the system so I can start testing new ATX ground stations?

16/07/21, 09:58 - Milo Barozzi: Hi Henna, please find my message in private. 😊

16/07/21, 10:32 - Support Technician 16: Are the pallets moving to the stations? It might be due to the restart of the system that there orders were like this, we will investigate further to be sure, please tell us if it happens to other transport orders please

16/07/21, 11:44 - Milo Barozzi: Dear All, Henna will start soon an AGV layout update. This will keep AGVs off for more or less 15-20 mins.

16/07/21, 11:50 - Milo Barozzi ha aggiunto Daniele MMOperations.

16/07/21, 11:56 - Daniele MMOperations: Hi everyone. B12 D02 there is an empty PLT, but the AGV is trying to put another empty PLT. The First PLT is a Temp.

16/07/21, 11:56 - Milo Barozzi: New layout for AGV transfer is close to start. AGV are driving home. Once there, they'll be updated.

16/07/21, 12:15 - Milo Barozzi: AGV back on track!

19/07/21, 08:25 - Nicola Bernardi: Hi all, we have a little problem with ART-24, on wamas it have a pallet on forks, the pallet is 60077942, on CC015 I can see only when the pallet was create on the forks, on FW027 I can see the same, but the ART 24 run good and it take a new order without problems, the mysterious pallet have material on it but the material was on picking stations and the order blocked the picking on it, can you help for this problem?

19/07/21, 09:32 - Support Technician 16: Hi, this seems to be a error due to the restart of the system, is it possible for you to put this pallet to lost and found?

19/07/21, 09:33 - Nicola Bernardi: I know the location of this pallet, but on it there isn't the material

19/07/21, 09:34 - Nicola Bernardi: @Support Technician 16

19/07/21, 09:38 - Support Technician 16: what is the physical location?

19/07/21, 09:40 - Nicola Bernardi: S46 12-02-06

19/07/21, 09:41 - Nicola Bernardi: IMG-20210719-WA0010.jpg (file allegato)

19/07/21, 09:50 - Support Technician 16: IMG-20210719-WA0011.jpg (file allegato)

I understand, can you update the location or should I do it, the stock being empty needs to be confirmed by the user as logically he confirmed the movement of stock

19/07/21, 09:50 - Support Technician 16: The material confirmed was only 1 piece

19/07/21, 09:52 - Benedetta Zini: I saw that this piece is on 60077943 on location BP03 D01

19/07/21, 09:54 - Benedetta Zini: and in that location on WAMAS there is a TEMP9098 but i think is 60077942

19/07/21, 09:55 - Benedetta Zini: IMG-20210719-WA0012.jpg (file allegato)

but i'm not sure

TEMP9098

19/07/21, 09:56 - Support Technician 16: from what I see the one in the picture is the TEMP9098 logically at S46

19/07/21, 10:08 - Support Technician 16: Erased TEMP9098, Updated 60077942 on S46 12-02-06, I saw that bzini1 requested the pallet to QC, please move the amount to be physically synchronized with logically

19/07/21, 10:10 - Benedetta Zini: Yes sure

19/07/21, 10:10 - Support Technician 16: Thank you

19/07/21, 10:11 - Benedetta Zini: you're welcome

19/07/21, 17:30 - Mihai Soceanu: please check retrieval point from cran 10

19/07/21, 17:30 - Mihai Soceanu: crane reports that it can not put the pallet  
19/07/21, 17:30 - Mihai Soceanu: maybe is as last time when we had a broken  
senzor  
19/07/21, 17:30 - Mihai Soceanu: and no error  
19/07/21, 17:30 - Mihai Soceanu: ...  
19/07/21, 17:41 - Company Employee 18: Ok I go to check  
19/07/21, 19:28 - Mihai Soceanu: any news about crane 10 ?

19/07/21, 19:29 - Company Employee 18: I have check the sensor and I have fix  
19/07/21, 19:30 - Company Employee 18: Now the issue still? 😞  
19/07/21, 19:30 - Mihai Soceanu: yes  
19/07/21, 19:30 - Mihai Soceanu: :(  
19/07/21, 19:30 - Company Employee 18: I'm going to check  
19/07/21, 19:30 - Mihai Soceanu: thx  
19/07/21, 19:32 - Mihai Soceanu: when you are ready pls let me know so i can  
trigger a transport  
19/07/21, 19:36 - Company Employee 18: Can you check now  
19/07/21, 19:36 - Company Employee 18: For me it is ok  
19/07/21, 19:36 - Company Employee 18: @Support Technician 6  
19/07/21, 19:39 - Mihai Soceanu: i check  
19/07/21, 19:39 - Company Employee 18: Ok  
19/07/21, 19:41 - Mihai Soceanu: i guess problem is i conveyor 334  
19/07/21, 19:41 - Company Employee 18: Yes I have seee  
19/07/21, 19:45 - Company Employee 18: Perfect i think now it is ok  
19/07/21, 19:46 - Mihai Soceanu: you are the best !!!

19/07/21, 19:52 - Company Employee 18: Thx Mihai But is my work! Thx for  
telling me the problem on crane 10 from lighthouse I don't saw anything 😊  
19/07/21, 19:53 - Mihai Soceanu: no problem i am happy is working and it did not  
become urgent

reflection 😊😊  
19/07/21, 20:05 - Company Employee 18: 👍  
19/07/21, 21:30 - Support Technician 5: I'm going to restart the system soon  
19/07/21, 21:43 - Support Technician 5: Is there still someone working from  
maintenance? Just thinking because one vehicle is blocking many. You know that  
when AGVs are driving there always need to be someone with them solving possible  
errors. They can't be left driving alone.

@Company Employee 16 for OBD0000209469 we have a ticket stating the order  
comment issue, but we deployed the CR,  
<https://jira.ssi-schaefer.com/browse/IT1400016-3718>, which would allow you guys  
to release og buffer(the person made a manual tpo for the pallet and finished it  
manually and the obd is stuck), are the people not used to use this feature?

26/07/21, 08:44 - Razvan Voicu: @Company Employee 18 are there any more problems on picking stations regarding ticket 535176  
"wamas blocked no orders coming out" ?  
I took a look at picking station and pallets seem to come and go  
26/07/21, 08:45 - Razvan Voicu: Ok, I asked my call center to redirect the ticket to them again  
26/07/21, 08:47 - Company Employee 18: For now we have only 1 picking station blocked is the number 3  
26/07/21, 08:48 - Company Employee 18: The other are working well  
26/07/21, 08:49 - Razvan Voicu: Why is 3 blocked? I see he has pallets on source and on destination location  
26/07/21, 08:49 - Razvan Voicu: Is the picking screen empty?  
26/07/21, 08:50 - Daniele MMOperations: The picking screen is ok, we are waiting for the PLT on D01  
26/07/21, 08:50 - Milo Barozzi: @Support Technician 21 I'm looking at it, please don't do nothing for now  
26/07/21, 08:51 - Razvan Voicu: Ok, I won't touch it  
26/07/21, 08:51 - Milo Barozzi: Issue was generated by WAMAS while switching pick station #3 from picking mode to unpicking mode. Seems WAMAS didn't allowed the picker to finish the last picking order and immediately wanted to make the unpicking, but this lead to a deadlock  
26/07/21, 08:52 - Milo Barozzi: Now I have the picking station with only OBD0000228261 active but for which there was not empty destination pallet and no source pallet for the active pick order line  
26/07/21, 08:52 - Milo Barozzi: I sent to pick station 59041673 (source) and I sent TEMP0531 (empty H - destination)...  
26/07/21, 08:52 - Milo Barozzi: empty H is on the way, let's see if it unlocks the pick station or not.. 🤖  
26/07/21, 08:52 - Milo Barozzi: if not > We definitely need your help there!  
26/07/21, 08:54 - Razvan Voicu: Ok  
26/07/21, 08:54 - Razvan Voicu: I see TEMP0531 on D01  
26/07/21, 08:54 - Milo Barozzi: me too, waiting for Daniele's feedback  
26/07/21, 08:56 - Razvan Voicu: Ok, maybe also trying to close-reopen the dialog could help  
26/07/21, 09:02 - Milo Barozzi: Questo messaggio è stato eliminato.  
26/07/21, 09:03 - Milo Barozzi: @Support Technician 21 we picked the material but deposit picking activity for OBD0000228261 is still in status new. Shall you kindly make in manner it passes in status "Finished" so unpicking activites can start there  
26/07/21, 09:03 - Razvan Voicu: Yes sure  
26/07/21, 09:13 - Razvan Voicu: Picking order finished  
26/07/21, 09:13 - Razvan Voicu: 60475550 arrived back for unpick  
26/07/21, 09:13 - Razvan Voicu: seems ok now  
26/07/21, 09:56 - Milo Barozzi: @Support Technician 21 shall you kindly 60477203? it's in S46 with a TPO to exit, but TPO stays 0%..... any idea why? no location blocked, no errors on LU...nothing... S48 has space...  
26/07/21, 09:56 - Milo Barozzi: \*S48 02  
26/07/21, 10:05 - Razvan Voicu: I will check  
26/07/21, 10:05 - Milo Barozzi: thanks

26/07/21, 10:11 - Support Technician 16: Hi MIlo, can you please tell me 'and immediately wanted to make the unpicking' how did you come to this conclusion? was there a change in the Picking order states? or anything?

26/07/21, 10:14 - Milo Barozzi: IMG-20210726-WA0007.jpg (file allegato)  
I was not @work on Friday evening, however from what they reported me, they selected "next process: unpicking" and the pick station should have finished all pick orders before, but for the last one, the situation at pick station dialog was the following, basically asking to pick but no empty pallet in destination location

26/07/21, 10:16 - Support Technician 16: This seems like a problem with the picking order in question and at first glance should not be related to the unpick order switch, can you please tell at what hour was that picture taken? This dialog looks overall weird as I can see you can confirm but have to target on any of the destinations

26/07/21, 10:16 - Milo Barozzi: sure: from 18:30 to 18:50 more or less

26/07/21, 10:18 - Milo Barozzi: IMG-20210726-WA0008.jpg (file allegato)  
OBD was this one: OBD0000228261, order line was this one

26/07/21, 10:19 - Support Technician 16: thank you, we will investigate and come back with an answer asap

26/07/21, 10:20 - Milo Barozzi: I think the issue was that no empty pallet came to pick station. We forced sending one empty H to destination location, but when it arrived at pick station destination position it did not took the "shipLU" status. Deposit activity was in status New and once confirmed the "pick" activity it posted the material on the previous shipLU that at the moment was in S46 rack...

26/07/21, 10:21 - Milo Barozzi: Any piece of news? Sorry to stress, but truck is waiting...

26/07/21, 10:24 - Support Technician 16: yes, we are looking into exactly that, as it seems the culprit

26/07/21, 10:26 - Milo Barozzi: @Company Employee 11 told me that actually no empty H was assigned to that pick station from OG525. I don't know if this can help you

26/07/21, 10:28 - Razvan Voicu: it seems s48 02 is full

26/07/21, 10:28 - Razvan Voicu: checking

26/07/21, 10:44 - Support Technician 16: We investigated and it seems that actually the switch of the process from picking to unpick was the culprit, more exactly the switching of the process considered the pallet not good for unpick even though you are still working in the pick process so he considered that it would be appropriate to send away the pallet to S46. Please open a ticket for this as we will need a fix for this to never happen in the future

26/07/21, 11:02 - Giacomo Trivieri, Lavoro: Sorry for disturb but could someone tell me why there are some pellets blocked for the error: wait for capacity slave zone?there Is no pellet on cu125 and that Is the problem..i cant get why

26/07/21, 11:11 - Milo Barozzi: we'll do it! Thanks for investigating

26/07/21, 11:12 - Milo Barozzi: @Support Technician 16 we switched now pick station #9 from picking to unpicking (normal size items). It seems we have the same issue. Would you like to investigate it on the fly?

26/07/21, 11:21 - Milo Barozzi: @Support Technician 16 issue is that material (empty pallets and pallets with material) for unpicking are arriving to pick station before needed pallets for finishing pick order have arrived yet

26/07/21, 11:21 - Milo Barozzi: we're observing it right now.

26/07/21, 11:21 - Support Technician 16: Could you please instruct people to not go directly from Picking to Unpick but rather to Stop and only after the last pick, to go to unpick?

26/07/21, 11:21 - Support Technician 16: Yes, it's the same scenario

26/07/21, 11:22 - Milo Barozzi: Sure, but it's a workaround only for now, right? In the past switching on the fly always worked.

26/07/21, 11:22 - Support Technician 16: Yes, it's a workaround until we make the fix and deploy it

26/07/21, 11:22 - Milo Barozzi: 👍

26/07/21, 11:23 - Milo Barozzi: So, for solving now... My suggestion is: switching back pick station to picking and select "stop" as next process.

26/07/21, 11:23 - Milo Barozzi: send back all pallets for unpicking process (manually)

26/07/21, 11:23 - Milo Barozzi: with your help, check that all empty pallets supposed to go there are addressed there and all picking activities will follow the normal flow

26/07/21, 11:23 - Milo Barozzi: shall you assist us in this, please?

26/07/21, 11:24 - Support Technician 16: Yes, we will assist, please proceed with what you wrote

26/07/21, 11:25 - Milo Barozzi: thanks

26/07/21, 11:26 - Milo Barozzi: DONE

26/07/21, 11:26 - Milo Barozzi: we're not allowed to create TPOs for these pallets.... shall you kindly move them back to HBW2, please?

26/07/21, 11:27 - Milo Barozzi: for 60027430 and 60388768 we need definitely your help

26/07/21, 11:27 - Support Technician 16: we will send back to hbw2

26/07/21, 11:28 - Milo Barozzi: thanks!

26/07/21, 11:29 - Milo Barozzi: 60386499;TEMP0906;TEMP0902;TEMP0928 are the empty pallets for unpicking... 60386499 I sent it back to S46, for TEMP0928 I cancelled TPO, but for the remaining two... I cannot do more

26/07/21, 11:29 - Milo Barozzi: TEMP0906 is on a EMS trolley. need to wait..

26/07/21, 11:30 - Milo Barozzi: to continue working on active pick order, user needs an empty pallet, but from OG525 no empty pallet has been assigned yet. Shall you kindly do it, pls?

26/07/21, 11:35 - Milo Barozzi: @Support Technician 16 I need to join a meeting now. Benedetta will take the lead. I'll try to help you from the meeting, but I cannot ensure fast replies

26/07/21, 11:35 - Support Technician 16: No problem, I send back the 2 pallets

26/07/21, 11:36 - Support Technician 16: as soon as the targets will be freed the OG525 should make requests, we will look if everything goes smooth

26/07/21, 11:37 - Benedetta Zini: Thank you!

26/07/21, 11:38 - Support Technician 16: @Company Employee 11 please tell if pallets can leave the station, the 2 on the destination and if there are problems

26/07/21, 11:40 - Benedetta Zini: yes sure

26/07/21, 11:41 - Support Technician 16: IMG-20210726-WA0011.jpg (file allegato) @Company Employee 11 please inform the user at 9 to use the unlock mechanism for the destination, also are the people aware of the blocks and resolve them when possible?

26/07/21, 11:44 - Benedetta Zini: Yes people are aware of the blocks and resolve them

26/07/21, 11:45 - Benedetta Zini: Now it's okay ... No block on BP09 D02

26/07/21, 11:45 - Support Technician 16: that's great

26/07/21, 11:45 - Support Technician 16: thank you

26/07/21, 11:47 - Support Technician 16: 60408895 i will also move this as it's for unpick

26/07/21, 11:50 - Benedetta Zini: Okay thanks

26/07/21, 12:04 - Benedetta Zini: Picking station 9 seems to work good 🍊

26/07/21, 14:18 - Support Technician 16: IMG-20210726-WA0013.jpg (file allegato) @Support Technician 5 I saw a scenario and wanted to know if this is normal, there was this group of 4 AGV's, 022, 002, 025, 006. 022 wanted to go but had his location blocked, and was staying there until the location was freed, but this way he blocked the other 3 until he had space. Can a AGV block a major point in the layout for other AGV's if he himself, has his destination blocked by someone else? Is this scenario accounted for in any way?

26/07/21, 15:00 - Support Technician 5: It depends what route Route optimizer has reserved for that AGV and what was its destination and where were the other AGVs going. If it is possible Route optimizer will calculate new routes for other AGVs if it is possible.

26/07/21, 15:05 - Support Technician 16: But if the destination is occupied by another AGV will the AGV wanting to go not move from his spot until the destination/route is free? Is there any 'low impact' point, where agv's that can not move for a certain amount of time, go to not be in the way of other AGV's?

26/07/21, 15:07 - Milo Barozzi: @Support Technician 16 @Support Technician 5 I suggest to open an apposite channel just to discuss about this in manner to keep track of everything without flooding Atlas/SSI group. I'll create it and Henna and Adrian will be declared as administrators in manner they can add anyone they

want

26/07/21, 16:39 - Tudor, Progetto Lavoro: Salut...va rog sa verificați stația 9...

26/07/21, 16:41 - Tudor, Progetto Lavoro: Este in disacantonament...paletele care trebuie sa vina in stație nu au ordine de transport

26/07/21, 16:44 - Support Technician 16: Ceau, verific acum

26/07/21, 16:51 - Support Technician 16: IMG-20210726-WA0019.jpg (file allegato)  
Unul e aici, spune-le te rog sa il bage inapoi, o fost o chestie azi si e cauzat de aia paletul

26/07/21, 16:54 - Support Technician 16: IMG-20210726-WA0020.jpg (file allegato)  
Altul ii la S04 MAV, la fel, de azi cum so facut problema aia, o ajuns pe te mir unde, spune-le sa il bage inapoi

26/07/21, 16:56 - Support Technician 16: IMG-20210726-WA0021.jpg (file allegato)  
Verifica aici pls pentru ele, si le iei dupa data daca au aceeasi prioritate, ei vor sa iti vina dar or iesit prin zona manuala si acum vor sa intre inapoi

26/07/21, 17:02 - Tudor, Progetto Lavoro: Perfect....mersi mult...acum le încarcă inapoi

26/07/21, 18:20 - Tudor, Progetto Lavoro: IMG-20210726-WA0022.jpg (file allegato)

Operatorul a facut jumate de order dar acum a rămas blocat..

26/07/21, 19:16 - Stefano Dall'Asta, Lavoro: IMG-20210726-WA0023.jpg (file allegato)

26/07/21, 19:16 - Stefano Dall'Asta, Lavoro: Mi co dai un occhio tudor? E in Lost found

26/07/21, 19:17 - Tudor, Progetto Lavoro: Ok

27/07/21, 06:18 - Giacomo Trivieri, Lavoro: Good morning all of you there Is someone on work?we are blocked and we dont know why; at the Moment we have 31 Active orders but for some unknown reason we are blocked..can you help us?other thing Is when i create a TO for pellet in manual deslaving zone wamas has not flags on approved and Active for MFS

27/07/21, 06:46 - Razvan Voicu: Morning

27/07/21, 06:46 - Razvan Voicu: Logging in now

27/07/21, 06:47 - Giacomo Trivieri, Lavoro: Hi razvan we have already called the helpdesk

27/07/21, 06:49 - Razvan Voicu: <Media omessi>

27/07/21, 06:50 - Giacomo Trivieri, Lavoro: 😂😂😂😂

27/07/21, 06:56 - Razvan Voicu: "Wait until the job is available"

Where is this error shown? On picking station dialog?

27/07/21, 06:56 - Giacomo Trivieri, Lavoro: Yes It is

27/07/21, 06:56 - Razvan Voicu: Have you tried to close/reopen wamas?

27/07/21, 06:57 - Razvan Voicu: Because of update, maybe dialogs stuck with old code version

27/07/21, 06:57 - Razvan Voicu: and needs restart

27/07/21, 06:58 - Razvan Voicu: Or can you please give me a printscreen/photo of the picking screen dialog?

27/07/21, 06:59 - Giacomo Trivieri, Lavoro: Can we try to close It to see what happens?

27/07/21, 06:59 - Giacomo Trivieri, Lavoro: Just in One PC to see the result

27/07/21, 07:00 - Razvan Voicu: sure

27/07/21, 07:00 - Giacomo Trivieri, Lavoro: Ok Just a sec

27/07/21, 07:06 - Giacomo Trivieri, Lavoro: @Support Technician 17 Always the same message even After re opening wamas

27/07/21, 07:06 - Giacomo Trivieri, Lavoro: IMG-20210727-WA0003.jpg (file allegato)

27/07/21, 07:06 - Razvan Voicu: well sation 9 is the only one with no orders :D

27/07/21, 07:06 - Razvan Voicu: can you try another one?

27/07/21, 07:07 - Razvan Voicu: station 9 is also in GTP UNPICK

27/07/21, 07:07 - Razvan Voicu: IMG-20210727-WA0002.jpg (file allegato)

27/07/21, 07:12 - Razvan Voicu: Other stations work

27/07/21, 07:12 - Razvan Voicu: ?

27/07/21, 07:14 - Giacomo Trivieri, Lavoro: Ok got It i try now to do It in another one

27/07/21, 07:23 - Giacomo Trivieri, Lavoro: @Support Technician 21 same message

also on pick station 5

27/07/21, 07:29 - Milo Barozzi: @Support Technician 21 Flaviu struggled a lot after deploy yesterday. Please get in touch with him. Maybe he can help

27/07/21, 07:29 - Razvan Voicu: From what I see, agv's are not coming to pick pallets

27/07/21, 07:29 - Razvan Voicu: for stations

27/07/21, 07:30 - Razvan Voicu: stations have no empties

27/07/21, 07:41 - Milo Barozzi: Something definitely messed up in mfs > agv mission delivery

27/07/21, 07:41 - Milo Barozzi: It happened also 2 weeks ago

27/07/21, 07:42 - Milo Barozzi: Please, get in touch with Mfs specialists

27/07/21, 07:42 - Milo Barozzi: The should be able to solve like they did last time

27/07/21, 07:45 - Razvan Voicu: Ok

27/07/21, 07:47 - Milo Barozzi: Please do as fast as you can since we have the whole plant not productive. 12 workers paid for nothing.

27/07/21, 07:53 - Razvan Voicu: Can you please remove TEMP2073 from RPF01C1361

27/07/21, 07:53 - Razvan Voicu: and book it to lost and found

27/07/21, 07:54 - Razvan Voicu: IMG-20210727-WA0001.jpg (file allegato)

27/07/21, 07:54 - Company Employee 18: Ok we remove

27/07/21, 07:58 - Giacomo Trivieri, Lavoro: @Support Technician 21 wamas does not make me able to change the location from RPF1361 to Lost and found. Can you check?

27/07/21, 07:59 - Razvan Voicu: ok I moved it

27/07/21, 07:59 - Razvan Voicu: to lost and found

27/07/21, 07:59 - Razvan Voicu: hope you removed it

27/07/21, 07:59 - Razvan Voicu: from conveyor

27/07/21, 08:00 - Razvan Voicu: @Company Employee 10

27/07/21, 08:00 - Giacomo Trivieri, Lavoro: Yes conveyor Is empty

27/07/21, 08:02 - Company Employee 18: @Support Technician 21 can you check the IG area we have all pallet on the conveyor in stop

27/07/21, 08:05 - Company Employee 18: IMG-20210727-WA0005.jpg (file allegato)

@Support Technician 21 the position of the pallet are correct but in wamas I check the code and is not active for mfs

27/07/21, 08:05 - Support Technician 16: we will check

27/07/21, 08:23 - Giacomo Trivieri, Lavoro: @Support Technician 21 ⚠️⚠️⚠️ seems that all pellet on S48 (00,01,02) are not Active for MFS and forklifter cannot shot them to take them out from the Gravity highbays. Can you check?

27/07/21, 08:25 - Support Technician 16: @Company Employee 10 there is an issue due to the last deploy regarding transport orders

27/07/21, 08:28 - Giacomo Trivieri, Lavoro: @Support Technician 16 ok got it and also we are still blocked with pick station

27/07/21, 08:59 - Support Technician 16: A new deploy will begin, users will be kicked out

27/07/21, 09:02 - Support Technician 16: Manual part and office users, please check if you can access wamas and continue work

27/07/21, 09:02 - Daniele MMOperations: I'll let you know soon

27/07/21, 09:03 - Milo Barozzi: loading WAMAS Desktop. I'll let you know ASAP it opens

27/07/21, 09:04 - Milo Barozzi: "writing objects"...

27/07/21, 09:08 - Milo Barozzi: logged in! it's working on my desktop

27/07/21, 09:08 - Milo Barozzi: 👍

27/07/21, 09:11 - Support Technician 16: Automated zone should be shortly back up, waiting for MFS to fully start

27/07/21, 09:13 - Milo Barozzi: ok Adrian, thanks for informing. All pick station PCs were restarted and all of them are in "waiting for" screen right now

27/07/21, 09:14 - Support Technician 16: MFS has been succesfully started, please tell if any TPO, pallet is not ok

27/07/21, 09:14 - Support Technician 16: AGV's should start getting orders

27/07/21, 09:16 - Company Employee 18: IMG-20210727-WA0006.jpg (file allegato)

27/07/21, 09:16 - Company Employee 18: @Support Technician 16 can you check this 2 pallet?

27/07/21, 09:17 - Support Technician 16: TPO is in error, did you try to resume?

27/07/21, 09:17 - Company Employee 18: Ok I do

27/07/21, 09:18 - Milo Barozzi: some pick stations already started to work  
27/07/21, 09:18 - Milo Barozzi: seems we're back on a right track.... 🐼  
27/07/21, 09:19 - Support Technician 16: very good  
27/07/21, 09:22 - Razvan Voicu: thank you  
27/07/21, 09:28 - Milo Barozzi: I can state that we're back on the right track. AGVs are running here and there to deliver empty pallets and when the pick stations are receiving empty pallets users can work  
27/07/21, 09:29 - Milo Barozzi: we can concentrate on the next issue I think.. pick station #9 in unpick mode  
27/07/21, 09:29 - Support Technician 16: yes, who can aid us into telling us, as we try to fix the moment it's fixed?  
27/07/21, 09:31 - Milo Barozzi: @Company Employee 11 for sure  
27/07/21, 09:43 - Support Technician 16: @Company Employee 11 for pick station 9, we will move the pallets from source 1 and 2, please release them from station  
27/07/21, 09:45 - Benedetta Zini: yes sure  
27/07/21, 09:47 - Daniele MMOperations: Done  
27/07/21, 09:48 - Support Technician 16: @Company Employee 11 Unpick order disappeared, did the user manage to do it?  
27/07/21, 09:53 - Milo Barozzi: if it was unpick order #801 from 60475550 I think everything went fine. It's in S46 now  
27/07/21, 09:55 - Benedetta Zini: It seems yess  
27/07/21, 10:07 - Stefano Dall'Asta, Lavoro: Hi everyone se have a problemi with transport orders for outgoing goods.even if there are a lot of transport no One Is shown in automatic allocation  
27/07/21, 10:08 - Support Technician 16: Hi, can you please give me an example of TPO?  
27/07/21, 10:08 - Stefano Dall'Asta, Lavoro: Sure  
27/07/21, 10:09 - Stefano Dall'Asta, Lavoro: 2919277  
27/07/21, 10:09 - Stefano Dall'Asta, Lavoro: 2903346  
27/07/21, 10:09 - Stefano Dall'Asta, Lavoro: 2913304  
27/07/21, 10:10 - Support Technician 16: is the problem only for auto allocation or also for manual allocation?  
27/07/21, 10:12 - Support Technician 16: IMG-20210727-WA0009.jpg (file allegato) I tried now and it allocated  
27/07/21, 10:12 - Support Technician 16: with auto allocation  
27/07/21, 10:13 - Support Technician 16: but I can see that manual allocation really does not work on that tpo you mentioned  
27/07/21, 10:14 - Milo Barozzi: @Support Technician 16 pick station #1 seems still blocked.... shall you kindly check it with @Company Employee 24, pls?  
27/07/21, 10:14 - Support Technician 16: Ok, managed to make the TPO work, it's due to the restart, what you need to do is to suspend + resume the TPOS  
27/07/21, 10:14 - Support Technician 16: @Company Employee 15 can you please try that?  
27/07/21, 10:15 - Stefano Dall'Asta, Lavoro: <Media omessi>  
27/07/21, 10:16 - Stefano Dall'Asta, Lavoro: Done  
27/07/21, 10:16 - Stefano Dall'Asta, Lavoro: Now it seems it Is working  
27/07/21, 10:16 - Support Technician 16: Great, thank you  
27/07/21, 10:17 - Milo Barozzi: @Support Technician 16 Benedetta checked it and pick station #1 is blocked because it has no empty pallet to fulfil that pick order. it's a know and highlighted issue: D145 from 20.07  
27/07/21, 10:18 - Support Technician 16: I will have a look  
27/07/21, 10:19 - Milo Barozzi: thanks  
27/07/21, 10:44 - Support Technician 16: We found the issue, in short terms, MFS did not want to assign due to it thinking it was not in sequence, but this was triggered by a old empty request that remained in the system and would constantly tell this one that he needs to wait for him, but that one was from an already finished PO, thank you for observing the case and letting us properly investigate, we will make sure in the future that this does not happen with a fix attached to D145  
27/07/21, 10:44 - Milo Barozzi: 🙏  
27/07/21, 10:45 - Milo Barozzi: very good piece of news! Great @Support Technician 16 !  
27/07/21, 10:45 - Milo Barozzi: according to this, pick station #1 should be back on track in a while, right?

27/07/21, 10:45 - Support Technician 16: yes  
27/07/21, 10:47 - Benedetta Zini: Thank you 🙏  
27/07/21, 10:48 - Support Technician 16: IMG-20210727-WA0011.jpg (file allegato)  
Please check, pallet waiting for a while for capacity  
27/07/21, 11:40 - Milo Barozzi: I think we have an issue with location "SLAVING" at Wuzzi  
all pallets pointing there are saying "WAIT FOR CAPACITY ZONE SLAVING" but that location is completely free  
27/07/21, 11:41 - Milo Barozzi: IMG-20210727-WA0015.jpg (file allegato)  
I saw two not existing pallets pointing there:  
27/07/21, 11:42 - Milo Barozzi: IMG-20210727-WA0016.jpg (file allegato)  
all pallets pointing to "SLAVING" are in "WAIT FOR CAPACITY ZONE SLAVING" mode:  
27/07/21, 11:42 - Milo Barozzi: this is influencing 9 pick stations among 12 😞  
27/07/21, 11:52 - Support Technician 16: The 2 TPO's in question were for non existing pallets due to a manual intervention they were erased, slaving zone should now work correctly, we will keep an eye on it  
27/07/21, 11:52 - Milo Barozzi: thank you!  
27/07/21, 12:12 - Milo Barozzi: IMG-20210727-WA0017.jpg (file allegato)  
Dear All, today there's something which is not working. All pallets in monorail buffers are not moving to pick stations even they're waited and even there's an empty location for them:  
27/07/21, 12:12 - Milo Barozzi: this was an issue that Mihai resolved and patch worked until today.  
27/07/21, 12:12 - Milo Barozzi: shall you kindly check it? it's blasting the picking performance...  
27/07/21, 12:21 - Support Technician 14: we're on it  
27/07/21, 12:23 - Milo Barozzi: tried suspend / resume but no benefit... 😞  
27/07/21, 12:23 - Support Technician 14: it's a remainder of restart  
27/07/21, 12:23 - Support Technician 14: ..  
27/07/21, 12:24 - Support Technician 14: don't do anything  
27/07/21, 12:34 - Milo Barozzi: 👍  
27/07/21, 12:34 - Milo Barozzi: ok, tell when fixed pls  
27/07/21, 12:38 - Support Technician 16: IMG-20210727-WA0018.jpg (file allegato)  
resolved the pallets, please tell if any more problematic, also please fix  
27/07/21, 13:40 - Tudor, Progetto Lavoro: IMG-20210727-WA0021.jpg (file allegato)  
Salut...stația 9 așteaptă o paletă tipo 9...dar in sistem nu exista asa tip de paletă.  
27/07/21, 13:42 - Support Technician 16: IMG-20210727-WA0022.jpg (file allegato)  
@Tudor asa e facut item-ul, cineva din office nu ti-o facut update  
27/07/21, 13:44 - Tudor, Progetto Lavoro: Cum pot sa fac acum?  
27/07/21, 13:45 - Support Technician 16: Cerele sa trimita o telegrama de update la item sau sa foloseasca MD503 sa puna ceva compatibil cu 9  
27/07/21, 13:46 - Tudor, Progetto Lavoro: 😞 mersi mult  
27/07/21, 14:06 - Tudor, Progetto Lavoro: Vă rog sa verificați stația 8/10/...așteaptă palete pentru a finaliza ordinele..  
27/07/21, 14:07 - Tudor, Progetto Lavoro: IMG-20210727-WA0023.jpg (file allegato)  
27/07/21, 14:08 - Support Technician 16: imediat, sunt blocate din cauza deploy-ului de ieri, rezolv acum  
27/07/21, 14:08 - Tudor, Progetto Lavoro: Mersi mult  
27/07/21, 14:12 - Support Technician 16: cu placere, ar trebui sa iti vina acum la ambele statii paletii, daca mai ai de genul, te rog sa spui si rezolvam  
27/07/21, 14:12 - Tudor, Progetto Lavoro: acum sunt ok  
27/07/21, 14:47 - Support Technician 16: IMG-20210727-WA0024.jpg (file allegato)  
@Company Employee 16 i saw the e-mail regarding unpick, as I told Tudor, loading aid 9 is the one you have defined on the item, and you have no compatible one defined in MD503  
27/07/21, 14:49 - Milo Barozzi: sorry Adrian, which item? If the item as '9' as loading aid and the pallet entered with loading aid '9' there's another issue, since 9 means "not defined"....  
27/07/21, 14:50 - Support Technician 16: AT LAPSS from the pallet 59325840  
27/07/21, 14:50 - Support Technician 16: The pallet is of type F  
27/07/21, 14:50 - Milo Barozzi: exactly

27/07/21, 14:51 - Milo Barozzi: IMG-20210727-WA0025.jpg (file allegato)  
but in the item we have 9...  
27/07/21, 14:51 - Milo Barozzi: damn it....  
27/07/21, 14:51 - Milo Barozzi: if I changed it on AS400? will it be updated?  
27/07/21, 14:52 - Support Technician 16: yep...Yes, if you change it we can  
resolve the problem. I told Tudor to ask an item update an hour ago, did no one  
make it?  
27/07/21, 14:53 - Milo Barozzi: He has no access on AS400  
27/07/21, 14:54 - Milo Barozzi: changed  
27/07/21, 14:54 - Support Technician 16: no no, I guided him to make a request  
to a office user  
27/07/21, 14:54 - Milo Barozzi: is it an issue only for unpicking or can be also  
for picking?  
27/07/21, 14:54 - Milo Barozzi: he cannot do it unfortunately  
27/07/21, 14:55 - Support Technician 16: ohhh, my bad, I did not know  
27/07/21, 14:55 - Support Technician 16: only for unpick  
27/07/21, 14:56 - Support Technician 16: IMG-20210727-WA0026.jpg (file allegato)  
New Empty request seems to be already made, all seems good  
27/07/21, 14:58 - Milo Barozzi: yes it is  
27/07/21, 14:59 - Milo Barozzi: that's a good news  
27/07/21, 14:59 - Milo Barozzi: sorry for curiosity: why for picking is not an  
issue? because it looks at loading aid of the source and it cannot be 9?  
27/07/21, 15:11 - Support Technician 16: IMG-20210727-WA0027.jpg (file allegato)  
picking from what I know, looks at MD500  
28/07/21, 09:04 - Support Technician 16: IMG-20210728-WA0000.jpg (file allegato)  
Someone from maintainance, please check this situation.  
28/07/21, 09:04 - Company Employee 18: We are here to solve thx 😊  
28/07/21, 09:06 - Company Employee 18: Fixed 🧑  
28/07/21, 09:07 - Support Technician 16: that was very fast, thank you 😊  
28/07/21, 09:59 - Support Technician 16: @Company Employee 11 can the person at  
pick station 4 work? is he presented with the scanning of the destination  
screen?  
28/07/21, 10:01 - Benedetta Zini: Hi! Yes He said to me that he works  
28/07/21, 10:04 - Support Technician 16: Great! Thank you  
28/07/21, 10:13 - Benedetta Zini: You're welcome!  
29/07/21, 06:52 - Giacomo Trivieri, Lavoro: Hi guys good morning can someone  
help us with pick station 7?pick guys Need to makes his Active orders (negative  
pick)but for some unknown reason empty pellet does not comes at the surgent.  
Can you kindly check?  
29/07/21, 08:25 - Support Technician 16: Hi, yes, we can check, is the problem  
still existent?  
29/07/21, 08:25 - Company Employee 18: Hi goodmorning Ok we check with the  
picking guys  
29/07/21, 08:30 - Company Employee 18: The guy restart wamas and retry to start  
the workstation in wamas  
29/07/21, 08:32 - Giacomo Trivieri, Lavoro: @Support Technician 16 hi vecliuc  
good morning at pick station 7 we have the same message even After restarting  
"wait until the work Will be available"  
29/07/21, 08:37 - Support Technician 16: @Company Employee 10 we made a new  
empty request for the station, it was assigned one this, time, you should  
reeive one now  
29/07/21, 08:42 - Giacomo Trivieri, Lavoro: @Support Technician 16 ok let see  
what happen  
29/07/21, 08:50 - Milo Barozzi: @Support Technician 16 for pick station #7 I  
solved on my own 😊  
29/07/21, 12:17 - Milo Barozzi: 60066640 is on BPF02C2611 and not going to pick  
station #12 even it's needed..... I don't think is something remained from  
deploy however... 😊 shall somebody of you have a look at it, pls?  
29/07/21, 12:29 - Support Technician 16: No, it's not a remainder, please open a  
ticket, I will have a look at the pallet  
29/07/21, 12:34 - Support Technician 16: Pallet resolved  
29/07/21, 12:39 - Milo Barozzi: damn it! I'll reopen the ticket but I'll have no  
clues since you resolved. I'll mention 60066640 waiting on BPF02C2611 and some  
screens...

29/07/21, 12:54 - Support Technician 16: yes please, it's enough for us  
29/07/21, 12:56 - Milo Barozzi: 👍  
29/07/21, 12:56 - Milo Barozzi: I'll do it after lunch 😊  
30/07/21, 09:49 - Milo Barozzi: IMG-20210730-WA0001.jpg (file allegato)  
@Support Technician 16 is this normal?  
30/07/21, 09:50 - Milo Barozzi: we have 15 EMS vehicles with an empty F... 😞😞  
30/07/21, 09:56 - Milo Barozzi: Anyone available? We have all picking station waiting an F blocked and EMS system full of F empty pallet (15 vehicles have an F)!

30/07/21, 10:35 - Milo Barozzi: IMG-20210730-WA0005.jpg (file allegato)  
We have another issue now. Pick station #1 is not receiving any empty pallet for continueing the order. 59852361 was occupying the location (no order was bound to it) and we sent it away to S46. now 59852361 is at pick station #5 for another order but for OG525 is still assigned to pick station 1 order. Shall you kindly check/solve, pls?

30/07/21, 10:35 - Milo Barozzi: we need a pallet for OBD0000234085 at pick station #1 but it's not assigned yet from OG525  
30/07/21, 10:51 - Support Technician 16: Questo messaggio è stato eliminato.  
30/07/21, 10:54 - Support Technician 16: Hi Milo, Please do not send manually pallets from the station as they have a sequence that they follow and manual interventions do not sit well with it, 59852361 was for order 1915106, as you can see in Og525, even if it's not visibly 'bound' as shipement LU, wamas still knows it's for him  
30/07/21, 10:55 - Support Technician 16: I understand that the pallet came back to station 5, so it does not agree with you moving it  
30/07/21, 10:56 - Support Technician 16: Regarding station 1, from what i see a pallet is coming  
30/07/21, 10:58 - Milo Barozzi: ok sorry  
30/07/21, 10:58 - Milo Barozzi: I saw it was not bound to that order and thought it was fine to release it from pick station  
30/07/21, 10:58 - Milo Barozzi: what you did? because it was waiting for an empty pallet I think from 2 hours minimum  
30/07/21, 10:59 - Support Technician 16: just releasing it from the destination, and having in Og525 the request still active means that wamas just thinks, at the next iteration of the workstation checking his status, that his pallet did not come  
30/07/21, 10:59 - Support Technician 16: so he just comes back  
30/07/21, 11:00 - Support Technician 16: we cancelled the empty request for the pallet that arrived at station 5 and was actually for station 1  
30/07/21, 11:03 - Milo Barozzi: so there was something wrong in empty pallet assignment strategy  
30/07/21, 11:03 - Milo Barozzi: because no empty pallet for the order we were executing was released until the request for empty pallet of the next picking order in line to be executed was cancelled...  
30/07/21, 11:06 - Milo Barozzi: @Support Technician 16 (consider that we cannot cancel requests from OG525. We do not have the rights for it  
30/07/21, 11:06 - Milo Barozzi: )  
30/07/21, 11:07 - Support Technician 16: yes, this can be considered an issue, please open a ticket  
30/07/21, 11:07 - Milo Barozzi: we'll do it. thank you

Sorry for disturbing you at this time on Saturday, but this morning I was reported that yesterday exactly 1 minute after midnight monorail system completely stopped. From what I see, there should be no such blocker to impede monorail system to work...I wrote also to helpdesk, it looks very strange and it's the second time we're having this issue. Exactly at Friday midnight, like last time.

31/07/21, 15:50 - Milo Barozzi: From what I saw from Lighthouse, it seems that yesterday at round about 9PM F01+P01 went out from complete automated mode and after a certain time, also other pulsts did the same...  
31/07/21, 19:02 - Razvan Voicu: Hello Milo  
31/07/21, 19:02 - Razvan Voicu: Did you create a ticket? Did you contact CC yesterday or today?  
31/07/21, 19:26 - Razvan Voicu: Are we sure there is not a physical problem on the EMS line?  
31/07/21, 19:42 - Razvan Voicu: from my perspective it looks ok, maybe you should call CC and ask for EMS assistance from the 3rd party  
31/07/21, 19:42 - Razvan Voicu: better to call, from mails it's a slower flow  
31/07/21, 22:20 - Milo Barozzi: Created a ticket and css support replied you took it in charge  
31/07/21, 22:20 - Milo Barozzi: Please, report to CSS that we need a 3rd party support, ticket is the same. Thank you  
31/07/21, 23:14 - Support Technician 14: From what was seen it looks like an EMS issue  
31/07/21, 23:15 - Support Technician 14: We'll talk on Monday when also Matthias will be available  
31/07/21, 23:29 - Support Technician 14: I will try to reach Eisenmann support tomorrow  
01/08/21, 11:07 - Milo Barozzi ha aggiunto ~Matthias Neuroth.  
01/08/21, 11:11 - Milo Barozzi: We have a unique contact number which is SSI Schafer Italy and that number has to decide to whom report our issue and whom has to solve..  
01/08/21, 11:11 - Milo Barozzi: It's not our duty to contact eisenmann rocla IT or PLC..  
01/08/21, 11:19 - Milo Barozzi: Federico will be onsite today from 15.30.. he told me he can do some checks if needed. Please instruct him..  
01/08/21, 11:31 - Razvan Voicu: Ok thanks. I think he should check if there are any physical problems there or as Matthias said in the last mail, to check the door/push the vehicle to see what happens  
01/08/21, 11:31 - Razvan Voicu: if nothing works pls let us know asap and we will redirect it to whoever is responsible with high priority  
01/08/21, 11:33 - Milo Barozzi: 👍  
01/08/21, 11:58 - Support Technician 25: Hi,  
Step 1: Federico should check my suggestions per mail  
Step 2: I will call Federico at ~ 15:30 to see if my suggestions where correct or not.  
Step 3: If EMS is still now working, pls call again the Helpdesk number, highlighting to contact Eisemann/pentanova so that they can check directly. Also increase ticket priority, currently is Prio C, which is not true as EMS Loop is vital for Automation System, so increase to Prio A  
I am available on mobile phone if necessary  
01/08/21, 12:01 - Support Technician 25: I assume that it's a dedicated EMS related topic. First vehicle in the queue is empty, so I think we can exclude any TPO/WAMAS error. Either access was requested without opening the door or the EMS VE006 is "confused" where to go  
01/08/21, 12:01 - Support Technician 25: IMG-20210801-WA0004.jpg (file allegato)  
01/08/21, 12:01 - Milo Barozzi: I don't know why they selected prio C 🤖 I thought was pretty clear from my mail that whole plant was stopped... 🤖🤖  
01/08/21, 12:02 - Milo Barozzi: I'm pretty sure it's EMS issue 👍  
01/08/21, 12:02 - Support Technician 25: IMG-20210801-WA0005.jpg (file allegato)  
Just by judging remote it seems that EMS went into the "controlled stop" patter due to fire evacuation routes. This emphasis my idea about door access  
01/08/21, 12:04 - Milo Barozzi: 🤖 we'll know in a couple of hours when SWAT team (Federico) will introduce into the plant...  
01/08/21, 15:52 - Support Technician 25: @Company Employee 13 I tried to call you several times, did you receive them? What was the issue? EMS is moving now...  
01/08/21, 19:36 - Support Technician 25: Seems to be some issue with EMS VE006, it's now in maintenance area and investigation shall be tomorrow. Ticket will stay at Prio C

02/08/21, 08:46 - Milo Barozzi: Dear All, shall you kindly make a general check on the system please? Printer at foiling is not working 100% fine, at pick station while confirming one line of the order, sometimes, all other pallets for that order are sent back to HBW1 automatically, at infeed we had pallets blocking on fork clearance with no "Active for MFS" flag on WAMAS... it seems too many things altogether.....

02/08/21, 09:42 - Milo Barozzi: Is anybody there? 🙋 we sent some mails also to helpdesk..

02/08/21, 10:32 - Support Technician 25: Ciao ragazzi, somebody here from maintenance? Any feedback on EMS VE006 and the conductor issue from yesterday?

03/08/21, 08:19 - Support Technician 16: Can you please give me an example of pallet that he tried spontaneous and did not manage so i can try?

03/08/21, 08:24 - Milo Barozzi: @Company Employee 15 will provide soon

03/08/21, 09:09 - Support Technician 16: @Company Employee 16 @Company Employee 15 I see the person has whole Lu's with automatic items in the buffer area S97, without load, what are they trying to do?

03/08/21, 09:10 - Stefano Dall'Asta, Lavoro: They are trying to move them to another S97 location

03/08/21, 09:21 - Milo Barozzi: @Support Technician 16 it's like relocating that pallet to another shipping buffer location

03/08/21, 09:32 - Support Technician 16: @Company Employee 16 @Company Employee 15 Thank you, all the 'problematic' pallets seem to have the same OBD as base, is the problem also to other pallets from other OBD's or just this one? Just to be sure to further narrow the cause

03/08/21, 09:33 - Stefano Dall'Asta, Lavoro: Other pallets too, even stock LU

03/08/21, 09:34 - Support Technician 16: give me please also a stock LU that I can check

03/08/21, 09:44 - Stefano Dall'Asta, Lavoro: Adrian these are some examples

03/08/21, 09:49 - Benedetta Zini: Physically is empty

03/08/21, 09:50 - Support Technician 25: I know :) Logically? what has happened?

03/08/21, 09:55 - Support Technician 16: Questo messaggio è stato eliminato.

03/08/21, 09:56 - Support Technician 13: IMG-20210803-WA0005.jpg (file allegato) hi. there was some manual intervention done with SRM7 yesterday, 2021-08-02 18:35:46.055 for pallets 59771266 and 60586907. Because of this the conveyors did not delete the old orders

03/08/21, 09:56 - Support Technician 16: Thank you

03/08/21, 09:57 - Support Technician 13: to solve the situation you have to go to MF266 and cancel the request for pallets 59771266;60586907 .

03/08/21, 09:59 - Support Technician 13: also check with Ctop if occupancy is still there on CU151 and 152

03/08/21, 10:01 - Support Technician 16: @Company Employee 16 the fix for <https://jira.ssi-schaefer.com/browse/IT1400016-3590> seems to have not been perfect and should cover these cases, the cases are for whole Lu's with automatic items in the manual zone and you want to make spontaneous

03/08/21, 10:02 - Benedetta Zini: Thanks for advice we have already did it and

now Nicola is checking with Ctop

03/08/21, 10:03 - Benedetta Zini: Now everything seems to be okay ;)

03/08/21, 10:06 - Support Technician 13: 👍

03/08/21, 10:21 - Stefano Dall'Asta, Lavoro: Adrian what we can do?

03/08/21, 10:37 - Benedetta Zini: Hai eliminato questo messaggio.

03/08/21, 11:23 - Support Technician 16: Unfortunately you can only make the Tpo's from office for the users until the fix is done

03/08/21, 11:24 - Milo Barozzi: is it possible to deploy that patch in today's evening deploy?

03/08/21, 11:40 - Support Technician 16: We already started working on a fix, but unfortunately, I can not promise anything

03/08/21, 11:54 - Milo Barozzi: ok. If possible, it'll be very important since having no change to do spontaneous TPO is really a mess for us. consider that right now more than 600 pallets are exiting HBW area everyday and they're moved with spontaneous TPO close to loading area... today those 600 pallets have to be moved manually by an office user... 😞

03/08/21, 11:55 - Milo Barozzi: I would not be in his trousers today... 😞

03/08/21, 13:14 - Support Technician 25: @Company Employee 17 is the SRM05, LHD2 netwrk camera fixed?

03/08/21, 13:15 - Support Technician 25: Regarding the non working NTOP, we can only send it to Siemens for checking. If you want I can take them with me tomorrow...

03/08/21, 14:23 - Milo Barozzi: Nicola ended shift at 13 now Giacomo and Matteo are onsite

03/08/21, 14:51 - Milo Barozzi: Hi All, we observed that after the block of monorail we had on Friday-Saturday-solved on Sunday afternoon both shifts are producing 100 pick orders line less than last week... People is the same, we didn't observe nothing strange... is there some remaining from that block?

03/08/21, 15:13 - Support Technician 25: "Remaining"? EMS is working as usual, VE006 is in maintenance but capacity is more than enough. Trolley are cycling empty

03/08/21, 15:17 - Milo Barozzi: I know, but maybe there's some "dust" in the system, some pending TPOs in error or something similar, limiting performances

03/08/21, 15:19 - Milo Barozzi: I mean, people is the same, no deploy done, we're doing more or less 150-200 order lines less than last week..

03/08/21, 15:21 - Milo Barozzi: also in manual area are happening strange things from Sunday. Some strange events/errors here and there and not repeated.. I think something "made the system dirty" somehow and it's causing slow speed here and there...

03/08/21, 15:23 - Milo Barozzi: IMG-20210803-WA0015.jpg (file allegato)

Also CPU load of WAMASAPP machines seems some % more used...

03/08/21, 15:23 - Milo Barozzi: maybe it's not, we don't have clear proofs, but something smells not good...

03/08/21, 15:26 - Support Technician 25: I smell Gnocco Fritto tomorrow evening 😊

03/08/21, 15:30 - Giacomo Trivieri, Lavoro: Hi @Support Technician 25 i think It Is ok and It Will be very helpfull for us 😊👍

03/08/21, 15:31 - Support Technician 25: @Company Employee 10 how many NTOP are havin those issues?

03/08/21, 15:35 - Giacomo Trivieri, Lavoro: 3 CTOP at the Moment. Two of them dont work and the other One has brokn the dead man button

03/08/21, 15:35 - Milo Barozzi: That's a different topic, but system is not behaving like last week, both in manual and automated area. I think it should be seriously investigated why

03/08/21, 15:36 - Milo Barozzi: I think it'll be very important for you also looking forward to Thursday afternoon meeting onsite

03/08/21, 15:36 - Support Technician 25: @Company Employee 10 I don't think the broken button will be replaced under warranty? The other 2 I can take with me

03/08/21, 15:40 - Giacomo Trivieri, Lavoro: I dont know about It but i think that It should be (if we cannot using It to make operations)

04/08/21, 07:11 - Capoturno Picking Progetto Lavoro: Si

04/08/21, 07:13 - Milo Barozzi: Ok grazie

04/08/21, 07:13 - Milo Barozzi: Stations working now

04/08/21, 07:39 - Capoturno Picking Progetto Lavoro: plt H TEMP4751 does not start me with ord of tradp at 55% it stops me n.2station 3 and 12

04/08/21, 07:44 - Nicola Bernardi: Carlo ci sto guardando

04/08/21, 07:53 - Razvan Voicu: @Company Employee 15 hi stefano. Is there a problem with mobile terminals or pickijg stations?

04/08/21, 07:55 - Stefano Dall'Asta, Lavoro: Hi, i dont know yet about picking station, on manual part we have several problems with loading but i still dont know exactly

04/08/21, 07:57 - Razvan Voicu: our terminals are locked, when trying to log in, the following message appears on the display

this message

"Retry connection request?"

Logout will discard all changes

Ticket 537657 Prio B

04/08/21, 07:57 - Razvan Voicu: I waa talking abiut this ticket

04/08/21, 07:57 - Razvan Voicu: But now I see it was set as solved

04/08/21, 07:58 - Stefano Dall'Asta, Lavoro: Ok Sorry, for that topic Is ok now, spontaneous transport seems ti work too

04/08/21, 07:59 - Razvan Voicu: Ok

04/08/21, 08:43 - Milo Barozzi: these issue was arisen from bad deploy done yesterday evening

04/08/21, 08:44 - Milo Barozzi: usually deploy should end at 21.10 but due to issues Flaviu succeeded in restart the system only at 22:40. People in manual area were not informed about that and sent the ticket request

04/08/21, 14:19 - Mihai Soceanu: hi

04/08/21, 14:20 - Mihai Soceanu: who can help pls with AF destacker

04/08/21, 14:20 - Mihai Soceanu: we have a leftover from a fix from yesteday

04/08/21, 14:20 - Mihai Soceanu: is related to AF standalone destaker

04/08/21, 14:21 - Mihai Soceanu: i would like to know the phisicall situation

04/08/21, 14:21 - Mihai Soceanu: pls

04/08/21, 14:38 - Benedetta Zini: Giacomo is going to check 👍

04/08/21, 14:41 - Benedetta Zini: IMG-20210804-WA0003.jpg (file allegato)

04/08/21, 14:41 - Benedetta Zini: this is the phisically situation on AF destacker

04/08/21, 14:44 - Mihai Soceanu: ok thx

04/08/21, 14:57 - Mihai Soceanu: all clear

04/08/21, 14:57 - Mihai Soceanu: thx for helping

04/08/21, 15:05 - Benedetta Zini: You're welcome ☺

04/08/21, 18:45 - Giacomo Trivieri, Lavoro: @Support Technician 25 are you still in the warehouse?

04/08/21, 18:46 - Support Technician 25: Yes sala controllo

04/08/21, 19:55 - Giacomo Trivieri, Lavoro: @Support Technician 25 before you leaving tell me something that i can give you broken CTOPS

04/08/21, 19:56 - Support Technician 25: Sure, tomorrow afternoon

04/08/21, 20:06 - Giacomo Trivieri, Lavoro: Ok no prob have a nice evening👍

04/08/21, 20:06 - Support Technician 25: Thx u 2

05/08/21, 08:50 - Support Technician 25: IMG-20210805-WA0001.jpg (file allegato)

05/08/21, 08:52 - Milo Barozzi: NOT OK. that pallet is not existing for the system...

05/08/21, 08:53 - Milo Barozzi: @Support Technician 25 asked Nicola to remove it whenever possible

05/08/21, 08:54 - Milo Barozzi: thanks for checking

05/08/21, 08:54 - Support Technician 25: 👍

05/08/21, 17:23 - Support Technician 25: Can I pls have the "non-working" CTOP?

05/08/21, 17:40 - Giacomo Trivieri, Lavoro: Yes sure Just a sec

06/08/21, 13:55 - Support Technician 25: Did the I/O Blocking AGV/PCS happen

again? @Support Technician 4 did the „disconnection“ message in Kepserver occur since you change?  
If not we can consider it solved?!

06/08/21, 13:56 - Support Technician 5: I just checked. It hasn't happened since 3rd of august.

06/08/21, 13:58 - Support Technician 25: That's when the change was done...@Company Employee 16 can you check with the team but it seems solved (Y05 I think?!)

06/08/21, 14:51 - Milo Barozzi: I can't considered it as solved because occurrency was not 10 times in a day, but some times some day. I'll prefer to set it "ready to test" and keep it under observation one week more

06/08/21, 14:51 - Support Technician 25: Ok

06/08/21, 14:52 - Milo Barozzi: 👍 marked "ready to test"

06/08/21, 14:52 - Milo Barozzi: I'll let you know before end next week

06/08/21, 15:18 - Support Technician 25: 👍

06/08/21, 15:31 - Milo Barozzi: Shall somebody from WAMAS IT Team help us, pls?

06/08/21, 15:32 - Milo Barozzi: We have a lot of pallets need to enter from Wuzzi but all of them are saying "WAIT FOR CAPACITY SLAVING"

06/08/21, 15:32 - Milo Barozzi: blocking several pick stations

06/08/21, 15:32 - Milo Barozzi: thank you in advance

06/08/21, 15:40 - Milo Barozzi: SOS SOS TEMP1061 is there from 15:02 and no pallet is entering, blocking 4/5 pick stations because they're waiting for an empty pallet coming from there SOS SOS

06/08/21, 15:42 - Mihai Soceanu: i will check why TEMP1061 was send to SLF

06/08/21, 15:47 - Mihai Soceanu: i will send TEMP1061 back to stacker

06/08/21, 15:47 - Mihai Soceanu: to unblock the flow

06/08/21, 15:47 - Mihai Soceanu: we have 2 pallets which need to go to HBW

06/08/21, 15:47 - Mihai Soceanu: and need slaving

06/08/21, 15:47 - Milo Barozzi: I saw the same

06/08/21, 15:47 - Milo Barozzi: I was trying to understand from where the deadlock was originated

06/08/21, 16:02 - Milo Barozzi: TEMP0248 is now in "WAIT\_FOR\_WAIT\_FOR\_PLG\_ANNOUNCE"....

06/08/21, 16:02 - Milo Barozzi: I did "reset transport order" from MF200

06/08/21, 16:02 - Milo Barozzi: for it

06/08/21, 16:11 - Rolando Miranda, Progetto Lavoro: 4x100 campioni olimpici !!!

06/08/21, 17:24 - Benedetta Zini: Hi! We have picking station #1 blocked because for OBD0000236266 it is waiting empty E pallet... Could someone help us?

06/08/21, 17:29 - Benedetta Zini: It is blocked from 1 pm

06/08/21, 17:29 - Milo Barozzi: @Support Technician 21 are you online? I got in touch with Adrain and he's not anymore in office..

06/08/21, 17:29 - Mihai Soceanu: i can try

06/08/21, 17:29 - Mihai Soceanu: one sec pls

06/08/21, 17:30 - Milo Barozzi: 👍 thanks Mihai. Issue is that OG525 allocated an empty E to that pick order, but E is not an admittable LA as destination LU

06/08/21, 17:31 - Milo Barozzi: issue D151

06/08/21, 17:31 - Mihai Soceanu: it generated again an E

06/08/21, 17:31 - Mihai Soceanu: :(

06/08/21, 17:31 - Support Technician 16: Reseting the empty request will not work as it is based on configuration

06/08/21, 17:33 - Mihai Soceanu: can we change the configuration

06/08/21, 17:33 - Mihai Soceanu: ?

06/08/21, 17:34 - Milo Barozzi: IMG-20210806-WA0006.jpg (file allegato)  
it should be already fine. Isn't it?

06/08/21, 17:37 - Mihai Soceanu: maybe @Support Technician 21 can help

06/08/21, 17:37 - Mihai Soceanu: :)

06/08/21, 17:37 - Razvan Voicu: Hello

06/08/21, 17:37 - Milo Barozzi: 🙏 @Support Technician 21 you're our last hope.....

06/08/21, 17:38 - Razvan Voicu: Give me  
A sec  
To read

06/08/21, 17:38 - Milo Barozzi: it's issue from e-mail D151. Issue is that OG525 allocated an empty E to that pick order, but E is not an admittable LA as

destination LU. configuration in MD500 seems fine  
06/08/21, 17:40 - Razvan Voicu: ok, on it  
06/08/21, 17:42 - Milo Barozzi: I think the issue is that maybe WAMAS sees that it's a negative picking line (even the next one is a normal picking) and there's no compatibility in MD500 for negative picking  
06/08/21, 17:43 - Milo Barozzi: I mean, the next line to be done it's a normal picking, but report as full was reported after confirming the negative picking line... I don't know if it's bound to that...  
06/08/21, 17:44 - Milo Barozzi: IMG-20210806-WA0007.jpg (file allegato)  
I added this:  
06/08/21, 17:45 - Support Technician 16: @Support Technician 21 reset please the order now that Milo changed the md500  
06/08/21, 17:45 - Support Technician 16: The empty request  
06/08/21, 17:48 - Milo Barozzi: seems it didn't make any effect unfortunately..  
06/08/21, 17:49 - Support Technician 16: Actually, \* means anything so that might not be the issue  
06/08/21, 17:49 - Support Technician 16: Yeah, its not due to that  
06/08/21, 17:49 - Milo Barozzi: I thought the same thing, but then I thought it was looking at source loading aid..  
06/08/21, 17:49 - Milo Barozzi: I'll bring it back to "factory set"  
06/08/21, 17:50 - Razvan Voicu: one moment  
06/08/21, 17:50 - Milo Barozzi: IMG-20210806-WA0008.jpg (file allegato)  
06/08/21, 17:59 - Razvan Voicu: you want F  
06/08/21, 17:59 - Razvan Voicu: instead of E?  
06/08/21, 18:02 - Razvan Voicu: or AF?  
06/08/21, 18:05 - Benedetta Zini: I think F  
06/08/21, 18:17 - Milo Barozzi: now the request is ok, but it's not flagged as "active for MFS"  
06/08/21, 18:18 - Milo Barozzi: IMG-20210806-WA0009.jpg (file allegato)  
06/08/21, 18:20 - Razvan Voicu: Ok right now it's and F  
06/08/21, 18:20 - Razvan Voicu: but it doesn't have any free location at station 1  
06/08/21, 18:20 - Razvan Voicu: need to wait for 60591998 to be picked up by AGV  
06/08/21, 18:23 - Milo Barozzi: IMG-20210806-WA0010.jpg (file allegato)  
All other sources are E... I don't know if it matters somehow.. @Support Technician 21  
06/08/21, 18:28 - Razvan Voicu: I don't know either, let's hope all the pickign will be done on the incoming F  
06/08/21, 18:28 - Razvan Voicu: wwuzi look busy  
06/08/21, 18:28 - Razvan Voicu: and by busy I mean stuck  
06/08/21, 18:29 - Milo Barozzi: in OG525 is still not flagged as "delivered to MFS"..  
06/08/21, 18:29 - Razvan Voicu: yes because it cannot go out, because wuzzi stuck  
06/08/21, 18:29 - Razvan Voicu: 60593302 wants to go to NOK and no NOK free location  
06/08/21, 18:29 - Razvan Voicu: shall I send it to MDP02  
06/08/21, 18:30 - Milo Barozzi: We're doing it  
06/08/21, 18:30 - Razvan Voicu: ok  
06/08/21, 18:31 - Milo Barozzi: done  
06/08/21, 18:40 - Razvan Voicu: can you do something at station 1 now?  
06/08/21, 18:40 - Razvan Voicu: maybe switch P0?  
06/08/21, 18:48 - Razvan Voicu: TEMP9685 this is coming toward station 1  
06/08/21, 18:52 - Razvan Voicu: Is station 1 ok now?  
06/08/21, 18:52 - Razvan Voicu: @Company Employee 16  
06/08/21, 18:53 - Daniele MMOperations: It's ok, ready to work  
06/08/21, 18:53 - Razvan Voicu: Ok great. problem solved. thank you guys!  
06/08/21, 18:55 - Milo Barozzi: thank you so much!  
06/08/21, 19:15 - Daniele MMOperations: @Support Technician 21 i think we ha ve the same problem in the wuzzi  
06/08/21, 19:15 - Daniele MMOperations: IMG-20210806-WA0014.jpg (file allegato)  
06/08/21, 19:16 - Razvan Voicu: I wil lcheck  
06/08/21, 19:18 - Razvan Voicu: yes you are right  
06/08/21, 19:18 - Razvan Voicu: The nok has to be emptied so the pallet can go

there

06/08/21, 19:18 - Mihai Soceanu: 59815661

06/08/21, 19:18 - Mihai Soceanu: waits for nok

06/08/21, 19:18 - Mihai Soceanu: oh you responded

06/08/21, 19:18 - Mihai Soceanu: :)

06/08/21, 19:18 - Razvan Voicu: Or the pallet that wants to go to nok should be redirected to other location

06/08/21, 19:19 - Razvan Voicu: It's up to you guys 👍

06/08/21, 19:42 - Giacomo Trivieri, Lavoro: What we can do in this case?right now wuzzi Is full but we have this error also when wuzzi Is empty and i think that Is not normal @Support Technician 21 @Support Technician 6

06/08/21, 19:46 - Mihai Soceanu: The other one is a bit different than this one

06/08/21, 19:46 - Mihai Soceanu: When MD is full

06/08/21, 19:47 - Mihai Soceanu: I did a fix for the other one from morning

06/08/21, 19:47 - Mihai Soceanu: What is happening now will be fixed after CR related to parking

06/08/21, 19:48 - Mihai Soceanu: Now someone needs to clear MD

06/08/21, 19:54 - Giacomo Trivieri, Lavoro: What Is CR? about MD we have 2 stacks on them and i think that If we want to clean those locations we must create a TO whit another destination but Is only a temporarily solution

06/08/21, 19:56 - Giacomo Trivieri, Lavoro: I Will send them to sS46

06/08/21, 19:56 - Giacomo Trivieri, Lavoro: @Support Technician 6

06/08/21, 20:09 - Mihai Soceanu: We will do a change so if on MD locations are occupied and pallet is on NOK, pallet from NOK will be buffered in S46 automatically

06/08/21, 20:11 - Giacomo Trivieri, Lavoro: Ok It seems a very good idea

06/08/21, 20:12 - Giacomo Trivieri, Lavoro: Already done It with the 2 stacks on MD

06/08/21, 20:30 - Mihai Soceanu: super

06/08/21, 20:40 - Giacomo Trivieri, Lavoro: All warehouse now It Is working but wuzzi deadlock has to be checked

06/08/21, 20:40 - Giacomo Trivieri, Lavoro: Anyway thanks for your support👍😊

06/08/21, 20:40 - Mihai Soceanu: already did and found a gap

06/08/21, 20:40 - Mihai Soceanu: also i increased the capacity to 2

06/08/21, 20:40 - Mihai Soceanu: so 2 agvs will travel at same time to wuzzi infeed

06/08/21, 20:41 - Mihai Soceanu: i have seen that flow is better

06/08/21, 20:41 - Mihai Soceanu: :)

06/08/21, 20:41 - Giacomo Trivieri, Lavoro: Well done👍

07/08/21, 11:06 - Tudor, Progetto Lavoro: Questo messaggio è stato eliminato.

07/08/21, 11:39 - Razvan Voicu: hello @Company Employee 10

07/08/21, 11:39 - Razvan Voicu: what's wrong

07/08/21, 11:41 - Milo Barozzi: I think our it did something on Vodafone network and all terminals have fallen down..

07/08/21, 11:41 - Razvan Voicu: You get an error on terminal? What error

07/08/21, 11:41 - Milo Barozzi: They're checking

07/08/21, 11:41 - Razvan Voicu: Ok

07/08/21, 11:41 - Milo Barozzi: IMG-20210807-WA0000.jpg (file allegato)

07/08/21, 11:41 - Milo Barozzi: IMG-20210807-WA0001.jpg (file allegato)

07/08/21, 11:41 - Razvan Voicu: So nothing wamas related

07/08/21, 11:42 - Razvan Voicu: I can disconnect all active sessions on wamas

07/08/21, 11:42 - Milo Barozzi: I don't know if the drop of connection kept stuck all terminals in WAMAS

07/08/21, 11:42 - Razvan Voicu: So maybe you don't have problems with locked logins

07/08/21, 11:42 - Milo Barozzi: Let me ask

07/08/21, 11:42 - Razvan Voicu: Ok

07/08/21, 11:42 - Milo Barozzi: @Company Employee 27 posso far buttare giù tutte le sessioni di wamas attive?

07/08/21, 11:42 - Razvan Voicu: Judging by this photo yeah, it's network problem, it cannot even connect to wamas server

07/08/21, 11:43 - Tudor, Progetto Lavoro: Certo

07/08/21, 11:45 - Milo Barozzi: @Support Technician 21 please kick all them out

07/08/21, 11:47 - Razvan Voicu: done

07/08/21, 11:49 - Milo Barozzi: Thanks  
07/08/21, 11:58 - Milo Barozzi: Mobile terminals back on track  
07/08/21, 11:59 - Razvan Voicu: ok  
07/08/21, 11:59 - Razvan Voicu: so problem solved?  
07/08/21, 12:02 - Milo Barozzi: Solved  
07/08/21, 12:02 - Milo Barozzi: Thanks for helping  
07/08/21, 12:02 - Razvan Voicu: Ok thanks you as well  
07/08/21, 12:02 - Razvan Voicu: It was network problem on your side?  
07/08/21, 12:02 - Milo Barozzi: Yes  
07/08/21, 12:02 - Razvan Voicu: Ok, have a nice weekend :)  
07/08/21, 12:03 - Milo Barozzi: 👍 you too  
09/08/21, 08:30 - Mihai Soceanu: hi  
09/08/21, 08:30 - Mihai Soceanu: we have a problem related to destacker F  
09/08/21, 08:30 - Mihai Soceanu: i checked the case  
09/08/21, 08:31 - Mihai Soceanu: and is related to stack/destack at the same time  
09/08/21, 08:31 - Mihai Soceanu: i am in discussion with PLC to prevent this issue in future  
09/08/21, 08:31 - Mihai Soceanu: but now i need the real situation  
09/08/21, 08:31 - Mihai Soceanu: i guess 59815102 is on 1/32/1  
09/08/21, 08:31 - Mihai Soceanu: under the stack  
09/08/21, 08:32 - Mihai Soceanu: and we have also an ongoing destacking  
09/08/21, 08:32 - Mihai Soceanu: i would like to route the 59815102 out  
09/08/21, 08:32 - Mihai Soceanu: but i need your help pls  
09/08/21, 08:36 - Mihai Soceanu: Question  
09/08/21, 08:36 - Mihai Soceanu: what are you doing on wuzzi infeed  
09/08/21, 08:36 - Mihai Soceanu: i see that TEMP2459 was deleted  
09/08/21, 08:37 - Mihai Soceanu: may you pls explain the problem  
09/08/21, 08:37 - Mihai Soceanu: ?  
09/08/21, 08:37 - Company Employee 18: Yes because thia is the situation  
09/08/21, 08:37 - Company Employee 18: IMG-20210809-WA0000.jpg (file allegato)  
09/08/21, 08:37 - Mihai Soceanu: so pallet is not there  
09/08/21, 08:37 - Company Employee 18: Yes not exist  
09/08/21, 08:38 - Company Employee 18: IMG-20210809-WA0016.jpg (file allegato)  
09/08/21, 08:38 - Company Employee 18: Is here not here  
09/08/21, 08:38 - Company Employee 18: IMG-20210809-WA0010.jpg (file allegato)  
09/08/21, 08:39 - Mihai Soceanu: in MFS i see that pallet traveled there correct  
09/08/21, 08:39 - Mihai Soceanu: smth is not alligned correct  
09/08/21, 08:40 - Company Employee 18: Smth?  
09/08/21, 08:40 - Mihai Soceanu: l;ogicallyu  
09/08/21, 08:40 - Mihai Soceanu: logically  
09/08/21, 08:40 - Mihai Soceanu: somethig  
09/08/21, 08:40 - Mihai Soceanu: ok  
09/08/21, 08:40 - Mihai Soceanu: pls solve the issue then i wait  
09/08/21, 08:40 - Mihai Soceanu: for the next opne  
09/08/21, 08:40 - Company Employee 18: I need to do something? To help us to solve the problem  
09/08/21, 08:41 - Mihai Soceanu: fix it now  
09/08/21, 08:41 - Company Employee 18: Ok thx  
09/08/21, 08:41 - Mihai Soceanu: allow B to go to be slaved  
09/08/21, 08:41 - Company Employee 18: Ok I do  
09/08/21, 08:43 - Mihai Soceanu: we have another 2 D's to come  
09/08/21, 08:43 - Mihai Soceanu: so we have example  
09/08/21, 08:44 - Company Employee 18: Ok now i have 2pallet but the secondo not have a code it is possible to create?  
09/08/21, 08:45 - Company Employee 18: IMG-20210809-WA0002.jpg (file allegato)  
09/08/21, 08:45 - Company Employee 18: IMG-20210809-WA0001.jpg (file allegato)  
09/08/21, 08:46 - Mihai Soceanu: from where it came this one  
09/08/21, 08:46 - Mihai Soceanu: ?  
09/08/21, 08:46 - Mihai Soceanu: because in LH i did not see movement  
09/08/21, 08:46 - Mihai Soceanu: did you place manually  
09/08/21, 08:46 - Mihai Soceanu: ?  
09/08/21, 08:46 - Company Employee 18: Yes  
09/08/21, 08:47 - Company Employee 18: I remove?

09/08/21, 08:47 - Mihai Soceanu: that is not ok  
09/08/21, 08:47 - Mihai Soceanu: please take it off  
09/08/21, 08:47 - Mihai Soceanu: yes  
09/08/21, 08:47 - Company Employee 18: Ok  
09/08/21, 08:47 - Mihai Soceanu: then remove the occupancy  
09/08/21, 08:47 - Mihai Soceanu: from PLC  
09/08/21, 08:47 - Company Employee 18: Ok  
09/08/21, 08:47 - Mihai Soceanu: and allow TEMP2514 to go  
09/08/21, 08:47 - Company Employee 18: Ok  
09/08/21, 08:48 - Company Employee 18: I understand  
09/08/21, 08:48 - Mihai Soceanu: IMG-20210809-WA0008.jpg (file allegato)  
09/08/21, 08:48 - Mihai Soceanu: thx  
09/08/21, 08:48 - Mihai Soceanu: if we place manually the pallet, MFS does not know about it and will not continue correctly :(  
09/08/21, 08:48 - Company Employee 18: Done  
09/08/21, 08:48 - Company Employee 18: IMG-20210809-WA0003.jpg (file allegato)  
09/08/21, 08:49 - Mihai Soceanu: move back AGV  
09/08/21, 08:49 - Company Employee 18: Ok I do  
09/08/21, 08:49 - Mihai Soceanu: conveyor is locked by AGV  
09/08/21, 08:50 - Mihai Soceanu: now cancel occupancy  
09/08/21, 08:50 - Company Employee 18: Ok  
09/08/21, 08:50 - Mihai Soceanu: IMG-20210809-WA0005.jpg (file allegato)  
09/08/21, 08:51 - Company Employee 18: If we cancel the occupancy with the agv on fronte of the trigger wamas don't cancel the pallet right?  
09/08/21, 08:52 - Mihai Soceanu: we need to take out the occupancy manually from conveyor  
09/08/21, 08:52 - Mihai Soceanu: wamas will not do anything because there is no pallet in wamas  
09/08/21, 08:53 - Mihai Soceanu: IMG-20210809-WA0004.jpg (file allegato)  
09/08/21, 08:53 - Mihai Soceanu: we still have a TPO in PLC  
09/08/21, 08:53 - Mihai Soceanu: i will take it out  
09/08/21, 08:54 - Company Employee 18: Ok now it start  
09/08/21, 08:54 - Company Employee 18: I put the agv in automatic  
09/08/21, 08:54 - Mihai Soceanu: now pls allow AGV26 to continuye  
09/08/21, 08:54 - Mihai Soceanu: thx  
09/08/21, 08:56 - Company Employee 18: I think it now it is ok?  
09/08/21, 08:56 - Mihai Soceanu: now we see  
09/08/21, 08:56 - Mihai Soceanu: should be  
09/08/21, 08:57 - Company Employee 18: IMG-20210809-WA0006.jpg (file allegato)  
09/08/21, 08:57 - Company Employee 18: The first is correct  
09/08/21, 08:58 - Milo Barozzi: Good morning to All, I'm struggling to let 60478874 exit from S46... Maybe it's a silly thing, but I cannot understand why this pallet is not leaving to S46. TPO is 0% and no other pallets are occupying S48 00\* from which it should exit...  
09/08/21, 08:58 - Mihai Soceanu: one sec pls  
09/08/21, 08:58 - Mihai Soceanu: we are checking the wuzzi infeed  
09/08/21, 08:58 - Mihai Soceanu: ok i understand the case  
09/08/21, 08:59 - Milo Barozzi: sure, no problem. It can wait after wuzzi infeed. Wuzzi infeed really put us in troubles last days of last week, so it's good to understand why it had issues 😊  
09/08/21, 09:04 - Company Employee 18: @Support Technician 6 the pallet is here in stop don't start are you work on this problem now?  
09/08/21, 09:05 - Company Employee 18: IMG-20210809-WA0007.jpg (file allegato)  
09/08/21, 09:05 - Mihai Soceanu: yes  
09/08/21, 09:05 - Mihai Soceanu: we are working on it  
09/08/21, 09:05 - Mihai Soceanu: and pallet before was the same  
09/08/21, 09:05 - Mihai Soceanu: we understand the problem  
09/08/21, 09:05 - Company Employee 18: Ok perfect i am here in case you need of my help  
09/08/21, 09:06 - Company Employee 18: What happened?  
09/08/21, 09:11 - Company Employee 18: It's started @Support Technician 6  
09/08/21, 09:11 - Mihai Soceanu: yep  
09/08/21, 09:12 - Company Employee 18: Excellent thx  
09/08/21, 09:14 - Mihai Soceanu: now F destacker

09/08/21, 09:17 - Mihai Soceanu: 59815102 i tried to add intermediar target  
 09/08/21, 09:18 - Mihai Soceanu: can someone sit next to the F destacker not to make any problems  
 09/08/21, 09:18 - Mihai Soceanu: ?  
 09/08/21, 09:18 - Mihai Soceanu: i need to cancel the order from 59815102  
 09/08/21, 09:18 - Mihai Soceanu: and resend  
 09/08/21, 09:18 - Mihai Soceanu: and i hope that when i cancel conveyor will not release the pallet from stack  
 09/08/21, 09:22 - Gionata Evangelisti: Questo messaggio è stato eliminato.  
 09/08/21, 09:22 - Gionata Evangelisti: Questo messaggio è stato eliminato.  
 09/08/21, 09:30 - Mihai Soceanu: so  
 09/08/21, 09:31 - Mihai Soceanu: who can help pls with F destacker  
 09/08/21, 09:31 - Mihai Soceanu: is killing prod  
 09/08/21, 09:31 - Mihai Soceanu: @Company Employee 16 pallet 60478874 is solved  
 09/08/21, 09:31 - Milo Barozzi: Thank you so much Mihai! how you solved?  
 09/08/21, 09:31 - Mihai Soceanu: it is a special situation in which have lost the order  
 09/08/21, 09:32 - Mihai Soceanu: and then i solved in MFS by forcing resend the order to hive  
 09/08/21, 09:33 - Milo Barozzi: ah damn it.. so it's something I cannot solve on my own...  
 09/08/21, 09:33 - Mihai Soceanu: no  
 09/08/21, 09:33 - Mihai Soceanu: :(  
 09/08/21, 09:34 - Mihai Soceanu: but is very special case and very rare is first time when i see it  
 09/08/21, 09:34 - Mihai Soceanu: i will check the code to see if i can do anything special  
 09/08/21, 09:34 - Mihai Soceanu: but i really need help with F destacker  
 09/08/21, 09:34 - Mihai Soceanu: it is like this from 07:09 in the morning  
 09/08/21, 09:37 - Milo Barozzi: THANK YOU  
 09/08/21, 09:37 - Milo Barozzi: @Company Employee 18 puoi aiutare tu Mihai con il decatastatore degli F?  
 09/08/21, 09:37 - Company Employee 18: Certo si vado subito  
 09/08/21, 09:39 - Company Employee 18: @Support Technician 6 I am here on the wonderwuzzi to help you  
 09/08/21, 09:39 - Company Employee 18: IMG-20210809-WA0011.jpg (file allegato)  
 09/08/21, 09:39 - Company Employee 18: This is the situation  
 09/08/21, 09:39 - Mihai Soceanu: ok  
 09/08/21, 09:39 - Mihai Soceanu: so there is a pallet on the bottom  
 09/08/21, 09:40 - Mihai Soceanu: is it possible to move that one in front with one position  
 09/08/21, 09:40 - Mihai Soceanu: ?  
 09/08/21, 09:40 - Mihai Soceanu: :-??  
 09/08/21, 09:40 - Company Employee 18: Yes  
 09/08/21, 09:40 - Mihai Soceanu: i do not want to break anything  
 09/08/21, 09:40 - Mihai Soceanu: cook\  
 09/08/21, 09:40 - Mihai Soceanu: cool\*  
 09/08/21, 09:40 - Mihai Soceanu: thx  
 09/08/21, 09:40 - Company Employee 18: IMG-20210809-WA0015.jpg (file allegato)  
 09/08/21, 09:40 - Mihai Soceanu: just one postion pls  
 09/08/21, 09:41 - Mihai Soceanu: yep also logically empty  
 09/08/21, 09:41 - Company Employee 18: IMG-20210809-WA0012.jpg (file allegato)  
 09/08/21, 09:41 - Company Employee 18: I need to move out the Last pallet?  
 09/08/21, 09:42 - Mihai Soceanu: IMG-20210809-WA0014.jpg (file allegato)  
 09/08/21, 09:42 - Mihai Soceanu: yes  
 09/08/21, 09:42 - Mihai Soceanu: only one position pls  
 09/08/21, 09:42 - Company Employee 18: Ok I do with the ctop  
 09/08/21, 09:42 - Mihai Soceanu: thx  
 09/08/21, 09:47 - Company Employee 18: Ok this is the situation

I remove the precence of the pallet under the stacker and I create a presence on the cu 136?

09/08/21, 09:47 - Company Employee 18: IMG-20210809-WA0013.jpg (file allegato)  
 09/08/21, 09:47 - Mihai Soceanu: just put in auto

09/08/21, 09:47 - Company Employee 18: Ok  
09/08/21, 09:47 - Company Employee 18: Now is in auto  
09/08/21, 09:55 - Mihai Soceanu: back on track  
09/08/21, 09:56 - Mihai Soceanu: thx  
09/08/21, 09:56 - Company Employee 18: Perfect thx  
09/08/21, 10:43 - Giacomo Trivieri, Lavoro: @Support Technician 6 hi Mihai good morning there Is an empty B pellet un cu129. Have i to put only occupancy using CTOP?  
09/08/21, 10:48 - Giacomo Trivieri, Lavoro: No It Is not enough  
09/08/21, 10:50 - Mihai Soceanu: one sec  
09/08/21, 10:50 - Mihai Soceanu: i check  
09/08/21, 10:52 - Mihai Soceanu: ah  
09/08/21, 10:52 - Mihai Soceanu: this is from morning  
09/08/21, 10:52 - Mihai Soceanu: in MFS the D pallet went to NOK without being slaved  
09/08/21, 10:53 - Mihai Soceanu: is it possible to remove manually  
09/08/21, 10:53 - Mihai Soceanu: '?  
09/08/21, 10:53 - Mihai Soceanu: the B pallet  
09/08/21, 10:53 - Mihai Soceanu: if not we need to create a new B pallet there  
09/08/21, 10:55 - Giacomo Trivieri, Lavoro: Ok i ll do It  
09/08/21, 10:55 - Giacomo Trivieri, Lavoro: There Is another strange issue regarding 60587360. Can you check It?  
09/08/21, 10:56 - Milo Barozzi: @Support Technician 6 just sent issue D152 which I think you'll really enjoy it...  
09/08/21, 11:02 - Mihai Soceanu: 60587360 why is strange ?  
09/08/21, 11:02 - Mihai Soceanu: i will check  
09/08/21, 11:03 - Mihai Soceanu: D152  
09/08/21, 11:07 - Milo Barozzi: no stress, I already did a workaround and we're out of blocking situation, but I think it's one of the issues that maybe is cutting out some performances at picking stations / increasing waiting times  
09/08/21, 11:07 - Mihai Soceanu: did you see it often  
09/08/21, 11:07 - Mihai Soceanu: ?  
09/08/21, 11:09 - Milo Barozzi: it happens sometimes that people at picking station are telling me "there's a pallet on buffer which is not moving".. I always thought they were wrong (because that bug should be fixed, right)... today I took the time to observe and recognized that issue. I think it's happening at least 3-4 times each shift, e.g. 7-8 times a day. today it messed 1,5 hrs for pick station #8 so....  
09/08/21, 11:10 - Mihai Soceanu: ok  
09/08/21, 11:10 - Mihai Soceanu: so pls write here when you see it  
09/08/21, 11:10 - Mihai Soceanu: it is easier to check it live  
09/08/21, 11:10 - Mihai Soceanu: i will check the logs for what you send to me  
09/08/21, 11:10 - Mihai Soceanu: :)  
09/08/21, 11:11 - Milo Barozzi: ok, I'll try.. but it's not so easy to catch it... I'll do my best, but if you're able from the logs.. it'll be better. What happened basically was that empty LU needed for picking order wanted to go to source location, but until the buffer was full, it was not going there and reporting error with the buffer (which was in front of free source location, maybe is for that)  
09/08/21, 11:12 - Milo Barozzi: when I freed the buffer, pallet was not delivered to buffer, but to source location directly!  
09/08/21, 11:12 - Mihai Soceanu: ok, i will check  
09/08/21, 11:12 - Mihai Soceanu: thx  
09/08/21, 11:12 - Milo Barozzi: you're almost welcome. Thanks 4 checking  
09/08/21, 11:51 - Mihai Soceanu: please check destacker of H  
09/08/21, 11:51 - Mihai Soceanu: IMG-20210809-WA0019.jpg (file allegato)  
09/08/21, 11:51 - Company Employee 18: I check  
09/08/21, 11:52 - Mihai Soceanu: thx  
09/08/21, 11:53 - Company Employee 18: IMG-20210809-WA0020.jpg (file allegato)  
09/08/21, 11:53 - Company Employee 18: This is the situation  
09/08/21, 11:58 - Mihai Soceanu: What is that metal profile bar ?  
09/08/21, 11:59 - Mihai Soceanu: IMG-20210809-WA0021.jpg (file allegato)  
09/08/21, 12:00 - Mihai Soceanu: order in MFS is ok  
09/08/21, 12:01 - Mihai Soceanu: IMG-20210809-WA0022.jpg (file allegato)

09/08/21, 12:02 - Mihai Soceanu: conveyor under stack  
09/08/21, 12:02 - Mihai Soceanu: is not ready to take over  
09/08/21, 12:06 - Support Technician 13: is the H pallets position correct on the destacker? are the sensors correctly triggered?  
09/08/21, 12:32 - Giacomo Trivieri, Lavoro: @Support Technician 13 hi andor i have solved It only putting pellet correctly on the grey metal bar (It was a Little bit moved > strange case 😞)  
09/08/21, 12:35 - Support Technician 13: 👍.  
09/08/21, 13:55 - Tudor, Progetto Lavoro: IMG-20210809-WA0029.jpg (file allegato)  
Salut ..ii posibil ca pentru 12 stații active sa nu fie nevoie de paleturi goale?  
09/08/21, 14:28 - Tudor, Progetto Lavoro: Di acest motiv am toate stațiile blocate  
09/08/21, 14:36 - Milo Barozzi: @Support Technician 16 @Support Technician 14 @Support Technician 21 @Support Technician 6 @Support Technician 13 we sent urgent request since we have no empty pallets request in OG525 and all stations are blocked.   
09/08/21, 14:38 - Support Technician 25: We can't connect via VPN right now. We restarted our end of VPN connection but without success  
09/08/21, 14:40 - Support Technician 14: @Company Employee 16 can you please check?  
09/08/21, 14:40 - Milo Barozzi: Let me ask IT  
09/08/21, 14:43 - Milo Barozzi: @matt0@Support Technician 14 with which user/pw are you logging to VPN?  
09/08/21, 14:44 - Milo Barozzi: @Support Technician 25  
09/08/21, 14:44 - Milo Barozzi: If you want our IT can create an "anydesk" connection towards you to check if something's wrong and what's wrong  
09/08/21, 14:45 - Milo Barozzi: 🙋 are you there?  
09/08/21, 14:48 - Milo Barozzi: They told me that are working with also Zandmiralvand Pariya (Pariya.Zandmiralvand@ssi-schaefer.com) to change VPN parameters, it was an agreed change  
09/08/21, 14:48 - Milo Barozzi: Both INCAS and SSI were informed  
09/08/21, 14:49 - Milo Barozzi: meanwhile, can I be your eyes/hands onsite? do you want to start a skype connection with me and let me join with one of your users to check what needed?  
09/08/21, 14:55 - Milo Barozzi: 🙋 is anyone reading? 🙋  
09/08/21, 15:01 - Support Technician 14: yes  
09/08/21, 15:02 - Support Technician 14: just a moment  
09/08/21, 15:03 - Support Technician 14: teams?  
09/08/21, 15:10 - Milo Barozzi: I don't have teams anymore  
09/08/21, 15:10 - Milo Barozzi: skype?  
09/08/21, 15:10 - Milo Barozzi: zoom?  
09/08/21, 15:11 - Support Technician 14: can we takeover of your PC on zoom?  
09/08/21, 15:12 - Milo Barozzi: don't like it too much  
09/08/21, 15:13 - Milo Barozzi: let me check with one PC of SALA CONTROLLO  
09/08/21, 15:14 - Milo Barozzi: let's make with teamviewer  
09/08/21, 15:15 - Milo Barozzi: Nicola is installing teamviewer now on one PC of the plant, the one in AGV maintenance area  
09/08/21, 15:15 - Milo Barozzi: he'll write the access code in a couple of minutes  
09/08/21, 15:16 - Nicola Bernardi: IMG-20210809-WA0033.jpg (file allegato)  
09/08/21, 15:18 - Nicola Bernardi: It Is a free licenze, try to Connect, I'm here to help us for it  
09/08/21, 15:19 - Support Technician 14: connection is back  
09/08/21, 15:20 - Milo Barozzi: ok thank you  
09/08/21, 15:24 - Milo Barozzi: <Media omessi>  
09/08/21, 15:24 - Milo Barozzi:  in manual part people is not able to make Transports   
09/08/21, 15:29 - Milo Barozzi:  Nicola is saying that Wuzzi is having the same issue than today in the morning   
09/08/21, 15:30 - Mihai Soceanu: i check 1 sec pls  
09/08/21, 15:30 - Nicola Bernardi: 🙋  
09/08/21, 15:31 - Mihai Soceanu: i created the M0 for the empty B pallet

09/08/21, 15:32 - Mihai Soceanu: we fixed the issue but will be available in the next build :(

09/08/21, 15:32 - Mihai Soceanu: it is an empty B correct

09/08/21, 15:32 - Mihai Soceanu: ?

09/08/21, 15:33 - Nicola Bernardi: Yes it's correct

09/08/21, 15:33 - Nicola Bernardi: IMG-20210809-WA0036.jpg (file allegato)

09/08/21, 15:33 - Mihai Soceanu: ok

09/08/21, 15:33 - Mihai Soceanu: i sent it to S46

09/08/21, 15:38 - Support Technician 16: It was due to the unpick station, i blocked for now to start the flow of empty pallets back on track

09/08/21, 15:38 - Support Technician 16: Please do not unblock the station 7

09/08/21, 15:38 - Milo Barozzi: ok

09/08/21, 16:11 - Nicola Bernardi: @Support Technician 6 the same problem on wuzzi

09/08/21, 16:11 - Nicola Bernardi: 🙄

09/08/21, 16:11 - Mihai Soceanu: shit...

09/08/21, 16:11 - Mihai Soceanu: srry

09/08/21, 16:11 - Mihai Soceanu: i help

09/08/21, 16:11 - Mihai Soceanu: ...

09/08/21, 16:11 - Nicola Bernardi: 🤔🙄

09/08/21, 16:13 - Mihai Soceanu: and now we will have a side effect related to slaving of AGVs

09/08/21, 16:13 - Mihai Soceanu: ...

09/08/21, 16:13 - Nicola Bernardi: yes

09/08/21, 16:14 - Mihai Soceanu: one sec i try to send an empty B

09/08/21, 16:14 - Nicola Bernardi: I put the pallet on CU129 on CU125

09/08/21, 16:14 - Mihai Soceanu: nono

09/08/21, 16:14 - Mihai Soceanu: will not work

09/08/21, 16:14 - Mihai Soceanu: one sec pls

09/08/21, 16:14 - Nicola Bernardi: Okok

09/08/21, 16:19 - Mihai Soceanu: pls move back AGV\

09/08/21, 16:28 - Nicola Bernardi: @Support Technician 6 the same

09/08/21, 16:30 - Mihai Soceanu: ...

09/08/21, 16:30 - Mihai Soceanu: fixed

09/08/21, 16:31 - Mihai Soceanu: i will try to keep an eye

09/08/21, 16:31 - Mihai Soceanu: and fix the problem befor it happens

09/08/21, 20:55 - Support Technician 14: you can put the devices in automatic

09/08/21, 21:43 - Nicola Bernardi: @Support Technician 14 all sistem are down can you check?

09/08/21, 21:44 - Support Technician 14: automation is still in progress

09/08/21, 21:45 - Mihai Soceanu: in 2-3 min will start

09/08/21, 21:47 - Milo Barozzi: @Company Employee 17 se devi andare vai pure, non preoccuparti

09/08/21, 21:49 - Mihai Soceanu: up

09/08/21, 21:49 - Nicola Bernardi: 🙌🙌🙌🙌

09/08/21, 21:52 - Milo Barozzi: 👍👍

09/08/21, 21:53 - Milo Barozzi: Thank you! Tomorrow 1000 pick order lines? 😊

09/08/21, 21:53 - Mihai Soceanu: F02 i see it greyed out

09/08/21, 21:53 - Support Technician 14: can you pls check if F02 is ok?

09/08/21, 21:53 - Support Technician 14: it appears grey in lighthouse

09/08/21, 21:53 - Support Technician 14: communication is ok

09/08/21, 21:53 - Milo Barozzi: Nobody onsite anymore

09/08/21, 21:53 - Nicola Bernardi: Yes I know

09/08/21, 21:53 - Nicola Bernardi: I'm here

09/08/21, 21:54 - Milo Barozzi: Nicola's lives in hbw1..

09/08/21, 21:54 - Milo Barozzi: 👤

09/08/21, 21:54 - Nicola Bernardi: 🤔

09/08/21, 21:55 - Support Technician 14: ▯

09/08/21, 21:55 - Nicola Bernardi: All green now 🙌

09/08/21, 21:55 - Mihai Soceanu: <Media omessi>

09/08/21, 21:55 - Nicola Bernardi: 🤔

09/08/21, 21:58 - Support Technician 14: F02 seems ok also in Lighthouse

09/08/21, 21:58 - Support Technician 14: good night!

09/08/21, 21:58 - Nicola Bernardi: 🙌🙌 thanks

09/08/21, 21:59 - Mihai Soceanu: <Media omessi>  
09/08/21, 22:00 - Milo Barozzi: Good night everybody and thanks to all  
09/08/21, 22:00 - Mihai Soceanu: thx the same  
09/08/21, 22:01 - Nicola Bernardi: You are my idol 🤔🤔🤔🤔  
09/08/21, 22:03 - Milo Barozzi: <Media omessi>  
09/08/21, 22:04 - Mihai Soceanu: 😊😊😊😊😊😊😊😊  
09/08/21, 22:04 - Mihai Soceanu: :)))  
09/08/21, 22:04 - Mihai Soceanu: tomorrow 1000+  
09/08/21, 22:04 - Nicola Bernardi: 🤔🤔  
09/08/21, 22:05 - Milo Barozzi: After project closure and pandemic gone, big barbecue at Nicola's place, ok @Company Employee 17 ?  
09/08/21, 22:07 - Milo Barozzi: IMG-20210810-WA0011.jpg (file allegato)  
09/08/21, 22:07 - Milo Barozzi: We already have the chicken...  
09/08/21, 22:21 - Nicola Bernardi: 🤔🤔🤔🤔🤔🤔  
09/08/21, 22:21 - Mihai Soceanu: coool :o directly from field ?  
10/08/21, 05:48 - Company Employee 18: Goodmorning guys we have 59740572 with 'wait for slaving'  
what it means? because the picking station guys on the BP04 are blocked  
10/08/21, 06:43 - Support Technician 13: IMG-20210810-WA0010.jpg (file allegato)  
good morning. i see in wamas that 60355123 should be on CU125, and that is why everything else is in waiting  
10/08/21, 06:44 - Support Technician 13: IMG-20210810-WA0005.jpg (file allegato)  
LH shows it empty. is there anything physically there?  
10/08/21, 06:44 - Giacomo Trivieri, Lavoro: Im going check  
10/08/21, 06:46 - Giacomo Trivieri, Lavoro: IMG-20210810-WA0002.jpg (file allegato)  
10/08/21, 06:46 - Giacomo Trivieri, Lavoro: Since this morning there was already another One over there  
10/08/21, 06:47 - Support Technician 13: what barcode is that one on conveyor?  
10/08/21, 06:48 - Support Technician 13: position looks incorrect... also it's not in LH  
10/08/21, 06:48 - Company Employee 18: @Support Technician 13 can you check after that the conveyor cu 295 we have try to remove the temp because we have try with Matteo in mf266 but don't work  
10/08/21, 06:48 - Support Technician 13: ok  
10/08/21, 06:52 - Giacomo Trivieri, Lavoro: Exactly  
10/08/21, 06:52 - Giacomo Trivieri, Lavoro: 60369333  
10/08/21, 06:54 - Support Technician 13: IMG-20210810-WA0001.jpg (file allegato)  
for CU295, when you have pallet only in LH, you have to check the 'transport order index' number  
10/08/21, 06:55 - Support Technician 13: IMG-20210810-WA0000.jpg (file allegato)  
and after cancel it from MF266  
10/08/21, 06:57 - Support Technician 13: in wamas this is on MDP05L01. is there a pallet there now?  
10/08/21, 06:58 - Giacomo Trivieri, Lavoro: Ok thanks for advice It Will be very usefull for the next times  
10/08/21, 06:59 - Giacomo Trivieri, Lavoro: Right now on MDP05L01 there Is 60355123  
10/08/21, 07:04 - Company Employee 18: Perfect i ve done work well  
10/08/21, 07:05 - Support Technician 13: possible mix up from deploy... by the time of it. i will rebook them to correct locations  
10/08/21, 07:07 - Giacomo Trivieri, Lavoro: Ok i Will wait you  
10/08/21, 07:11 - Support Technician 13: IMG-20210810-WA0009.jpg (file allegato)  
ok, please pull the empty X pallet back to CU125 sensor. it should start moving after again after  
10/08/21, 07:14 - Giacomo Trivieri, Lavoro: Ok  
10/08/21, 07:15 - Giacomo Trivieri, Lavoro: It Is working  
10/08/21, 07:18 - Support Technician 13: great 🤔  
10/08/21, 07:23 - Giacomo Trivieri, Lavoro: @Support Technician 13 can you check 60593349 and 60355123?  
10/08/21, 07:24 - Giacomo Trivieri, Lavoro: The First One has wait for reason "wait for slaving" and the second One has "PLC announce"  
10/08/21, 07:25 - Support Technician 13: for 60355123 it should say the same now, please refresh the dialog

10/08/21, 07:27 - Daniele MMOperations: Stilo "slaving"  
10/08/21, 07:30 - Support Technician 13: IMG-20210810-WA0008.jpg (file allegato)  
yes, that is correct. the name of the entering zone to wunderwuzzi is SLAVING  
(the naming is a little bit confusing :) )  
10/08/21, 07:31 - Support Technician 13: all looks ok there, but there are a lot  
of pallet waiting to enter  
10/08/21, 07:32 - Giacomo Trivieri, Lavoro: Ok that's why  
10/08/21, 07:34 - Giacomo Trivieri, Lavoro: Have you seen also situation at  
MDP05L02?  
10/08/21, 07:34 - Giacomo Trivieri, Lavoro: @Support Technician 13  
10/08/21, 07:36 - Support Technician 13: it's also waiting to enter Ww to go to  
HBW1. i don't see anything else  
10/08/21, 07:37 - Giacomo Trivieri, Lavoro: Ok got it👍  
10/08/21, 08:02 - Giacomo Trivieri, Lavoro: IMG-20210810-WA0007.jpg (file  
allegato)  
@Support Technician 13 ART want to depositate an X pellet on an X pellet😞😞😞  
10/08/21, 08:05 - Mihai Soceanu: this is ok because we increased the capacity to  
2 to have more performance  
10/08/21, 08:05 - Support Technician 13: it's only checking the location. it  
should be ok as soon as error is solved on cu126  
10/08/21, 08:05 - Mihai Soceanu: pallet on conveyor is not moving because IO  
blocked  
10/08/21, 08:05 - Mihai Soceanu: ...  
10/08/21, 08:06 - Mihai Soceanu: @Support Technician 13 is correct  
10/08/21, 08:06 - Mihai Soceanu: :)  
10/08/21, 08:09 - Giacomo Trivieri, Lavoro: Ok good to know i ask to @Support  
Technician 13 only to have support😊😊  
10/08/21, 08:43 - Giacomo Trivieri, Lavoro: IMG-20210810-WA0004.jpg (file  
allegato)  
@Support Technician 13 @Support Technician 6 Is It normal stopped there?  
10/08/21, 08:56 - Support Technician 13: still there? what barcode is it?  
10/08/21, 08:56 - Support Technician 13: it should not stop there  
10/08/21, 08:58 - Support Technician 13: IMG-20210810-WA0003.jpg (file allegato)  
are the agv detection sensors on CU125 triggered somehow?  
10/08/21, 09:01 - Giacomo Trivieri, Lavoro: 59841895  
10/08/21, 09:02 - Giacomo Trivieri, Lavoro: No i dont think so. They are working  
well  
10/08/21, 09:04 - Support Technician 13: ok, still on Cu125 in wamas. only time  
i saw this behavior when something triggered one of those side sensors, please  
double check them  
10/08/21, 09:08 - Support Technician 13: please push the empty pallet back to  
CU125 sensors. it should start  
10/08/21, 09:09 - Giacomo Trivieri, Lavoro: Done It👍they are working well  
10/08/21, 09:09 - Giacomo Trivieri, Lavoro: Immediately  
10/08/21, 09:10 - Giacomo Trivieri, Lavoro: Is on cu125 now  
10/08/21, 09:10 - Giacomo Trivieri, Lavoro: Now\*  
10/08/21, 10:53 - Daniele MMOperations: Hi everyone, we have a problem in  
picking station 4, D01, when we try to start the picking the dialog shows an  
error message  
10/08/21, 10:53 - Daniele MMOperations: IMG-20210810-WA0016.jpg (file allegato)  
This one  
10/08/21, 10:54 - Daniele MMOperations: We tried to change UDC, but still not  
working  
10/08/21, 10:54 - Support Technician 16: Hi Dani, yes, we will look right now  
10/08/21, 10:54 - Support Technician 13: please put AGV26 back into the system,  
to let it continue the order  
10/08/21, 10:54 - Daniele MMOperations: Thanks a lot  
10/08/21, 11:00 - Support Technician 13: IMG-20210810-WA0017.jpg (file allegato)  
please check also AGV27  
10/08/21, 11:08 - Support Technician 16: @Company Employee 24 can you please  
give me a picture of the empty pallet you tried to scan?  
10/08/21, 11:10 - Daniele MMOperations: IMG-20210810-WA0018.jpg (file allegato)  
10/08/21, 11:18 - Support Technician 16: @Company Employee 24 i see in the  
picture you scanned a different barcode than the one seen in the picture, can you

please retry with the barcode of the pallet?

10/08/21, 11:19 - Daniele MMOperations: My fault this is D02

10/08/21, 11:19 - Daniele MMOperations: IMG-20210810-WA0019.jpg (file allegato)

This is D01

10/08/21, 11:20 - Support Technician 16: also please try to refresh the dialog, by using the x button

10/08/21, 11:21 - Daniele MMOperations: IMG-20210810-WA0020.jpg (file allegato)

It's ok now

10/08/21, 11:21 - Daniele MMOperations: Thanks!

10/08/21, 11:21 - Support Technician 16: you are most welcome!

10/08/21, 16:05 - Milo Barozzi:  All AGVs are not moving  Shall you kindly make a check, pls?

10/08/21, 16:06 - Milo Barozzi: IMG-20210810-WA0022.jpg (file allegato)

10/08/21, 16:07 - Mihai Soceanu: 1 sec pls

10/08/21, 16:13 - Milo Barozzi: yes

10/08/21, 16:16 - Mihai Soceanu: we are checking

10/08/21, 16:27 - Mihai Soceanu: done

10/08/21, 16:27 - Mihai Soceanu: back on track

10/08/21, 16:30 - Milo Barozzi: @Support Technician 6 what was the issue? do we need to open a ticket for ti?

10/08/21, 16:31 - Milo Barozzi: \*it?

10/08/21, 16:31 - Mihai Soceanu: yes

10/08/21, 16:32 - Support Technician 16: @Company Employee 16 yes, please open a ticket named: 'Problematic gtp inspection order behavior during TPO cancelling'

10/08/21, 16:35 - Milo Barozzi: ok, I'll do it. Shall you shortly explain me what was the problematic thing and what caused?

10/08/21, 16:39 - Support Technician 16: The problem was a combination of order that required the pallets to receive an inspection order automatically, and the TPO of the pallet being cancelled behaves in a not ok manner for the worker that was processing the inspection orders, and the inspection worker was trying it's best to process the now bad situation without succes

10/08/21, 16:40 - Support Technician 16: we identified the problem and will provide a fix for the ticket you make so that this does not happen anymore

10/08/21, 17:03 - Milo Barozzi: ok, thanks for explaining. I was asking in manner to understand how check if the problem is happening again after your fix will be deployed

10/08/21, 17:15 - Milo Barozzi: created issue A58 and sent to helpdesk

10/08/21, 21:53 - Support Technician 17 ha abbandonato.

11/08/21, 12:52 - Company Employee 18: Hi guys I have a problem after the foiling line everithing is correct but the pallet don't go foward

11/08/21, 12:52 - Company Employee 18: IMG-20210811-WA0002.jpg (file allegato)

11/08/21, 12:54 - Company Employee 18: @Support Technician 13 @Support Technician 6

11/08/21, 12:54 - Company Employee 18: I try to update the position but Don't go

11/08/21, 13:03 - Support Technician 13: hi, location of the pallet is incorrect in wamas. it should be on CU296, not CU196

11/08/21, 13:04 - Support Technician 13: now it's ok 

11/08/21, 13:04 - Milo Barozzi: solved by me and Giacomo 

11/08/21, 13:04 - Milo Barozzi: thanks for helping Andor

11/08/21, 13:05 - Company Employee 18: Yes sorry Andor I have fix with milo

11/08/21, 13:05 - Support Technician 13: no problem :)

11/08/21, 16:48 - Milo Barozzi: Dear ALL, systems seems very slow.

11/08/21, 16:48 - Milo Barozzi: for instance TEMP6872 is already delivered to station by ATX-15 (physically) but it's still on ATX-15 for WAMAS

11/08/21, 16:48 - Milo Barozzi: also pick station dialogs are slowing

11/08/21, 16:48 - Milo Barozzi: shall you kindly check?

11/08/21, 16:48 - Milo Barozzi: 

11/08/21, 16:51 - Milo Barozzi: ghosts on both infeed lines for foiling lines!

11/08/21, 16:52 - Milo Barozzi: it seems also no AGV moving

11/08/21, 16:53 - Milo Barozzi: IMG-20210811-WA0003.jpg (file allegato)

Atx9

11/08/21, 16:54 - Milo Barozzi: agvs moving now

11/08/21, 18:15 - Support Technician 25: Was there some intervention from us?

11/08/21, 18:17 - Support Technician 14: the system managed it by itself

11/08/21, 18:17 - Support Technician 14: there was a disabled database constraint from the last deploy which I enabled it but I don't think that mattered

11/08/21, 18:18 - Milo Barozzi: 😞

12/08/21, 21:04 - Support Technician 14: you can start the machines

12/08/21, 21:06 - Nicola Bernardi: P👉

12/08/21, 21:17 - Milo Barozzi: Tutto regolare Nick?

12/08/21, 21:18 - Mihai Soceanu: up

12/08/21, 21:18 - Nicola Bernardi: Per ora si

12/08/21, 21:18 - Andrea Brunetti: Partito adesso 👍

12/08/21, 21:20 - Milo Barozzi: Grazie a tutti, buona serata!

Thanks to all, wish u all a nice evening!

12/08/21, 21:21 - Support Technician 14: Have a nice evening!

12/08/21, 21:24 - Nicola Bernardi: Have a problem with infeed and conveyor on crane infeed

12/08/21, 21:25 - Mihai Soceanu: i see

12/08/21, 21:25 - Mihai Soceanu: MFS did not get message that EMS is available

12/08/21, 21:25 - Mihai Soceanu: available

12/08/21, 21:25 - Mihai Soceanu: can you maybe reset EMS

12/08/21, 21:26 - Mihai Soceanu: all good

12/08/21, 21:26 - Nicola Bernardi: CU157

CU199

12/08/21, 21:26 - Mihai Soceanu: pls do not do anything

12/08/21, 21:26 - Mihai Soceanu: related to EMS

12/08/21, 21:26 - Mihai Soceanu: i check

12/08/21, 21:27 - Nicola Bernardi: Thanks

12/08/21, 21:28 - Mihai Soceanu: all good

12/08/21, 21:28 - Mihai Soceanu: :)

12/08/21, 21:28 - Mihai Soceanu: no red

12/08/21, 21:28 - Mihai Soceanu: only greeb

12/08/21, 21:28 - Mihai Soceanu: green\*

12/08/21, 21:28 - Mihai Soceanu: I wish you a nice evening

12/08/21, 21:28 - Nicola Bernardi: 📶📶📶🤔🤔

12/08/21, 21:29 - Nicola Bernardi: To you too👉

13/08/21, 08:35 - Milo Barozzi: Dear All, I see monorail is not moving.. is there something wrong? 📶

13/08/21, 16:49 - Milo Barozzi: Can somebody support me in testing change clamp procedure? I have an Extra size pick station that I'd like to switch to normal size. Pick station is arrested. I pressed "change clamp" and confirmed. Then I select picking again. but nothing is moving. It's pick station HBW12 and in HBW1 I have an E pallet with SO CLAMP\_NORMAL\_12 and a D over B with SO CLAMP EXTRA SIZE

13/08/21, 16:49 - Milo Barozzi: Am I missing something?

13/08/21, 16:49 - Milo Barozzi: TPOs for the two LUs for clamp change are not created yet...

13/08/21, 16:52 - Milo Barozzi: probably the D has to have no SO on it?

13/08/21, 17:08 - Mihai Soceanu: IMG-20210813-WA0002.jpg (file allegato)

13/08/21, 17:20 - Milo Barozzi: rail exchange is blocked

13/08/21, 17:20 - Milo Barozzi: Nicola and Andrea are dealing with it now

13/08/21, 17:20 - Mihai Soceanu: ok

13/08/21, 17:41 - Milo Barozzi: managed. thanks anyway

13/08/21, 17:42 - Mihai Soceanu: np

13/08/21, 18:35 - Nicola Bernardi: Can you check the infeed line?

13/08/21, 18:35 - Nicola Bernardi: All EMS go without Take pallet

13/08/21, 18:36 - Milo Barozzi: @Company Employee 17 prova a mettere in manuale il convogliatore e poi di nuovo in automatico

13/08/21, 18:37 - Milo Barozzi: same issue occurred in the morning after an EMS vehicle stopped with an error in HBW1 area

13/08/21, 18:37 - Mihai Soceanu: seems to be related to pillar weight check

13/08/21, 18:37 - Nicola Bernardi: WAIT FOR STORAGE FAIL

13/08/21, 18:38 - Mihai Soceanu: i allowed difference of 30% between pillars

13/08/21, 18:38 - Mihai Soceanu: now will work

13/08/21, 18:39 - Nicola Bernardi: Thanks

13/08/21, 18:39 - Mihai Soceanu: np

13/08/21, 18:40 - Mihai Soceanu: @Company Employee 16 pls let me know if you agree that difference between pillars can be 30%

13/08/21, 18:43 - Milo Barozzi: you mean between one compartment and another compartment inside the same HBW1 aisle?

13/08/21, 18:43 - Milo Barozzi: how much was it before?

13/08/21, 18:43 - Mihai Soceanu: 20%

13/08/21, 19:01 - Milo Barozzi: uhm.. let's leave to 30% and I'll check again if it's ok on W34 when I'll return from holidays

13/08/21, 19:54 - Mihai Soceanu: ok

23/08/21, 13:43 - Capoturno Picking Progetto Lavoro: Station 11 blocked

23/08/21, 13:44 - Mihai Soceanu: i check

23/08/21, 13:46 - Mihai Soceanu: TEMP0713

23/08/21, 13:46 - Mihai Soceanu: is at infeed wunderwuzi

23/08/21, 13:46 - Mihai Soceanu: logically

23/08/21, 13:47 - Mihai Soceanu: if physically is not there

23/08/21, 13:47 - Mihai Soceanu: means that someone removed it manually

23/08/21, 13:48 - Mihai Soceanu: do we have anything on wunderwuzzi infeed ?

23/08/21, 13:48 - Mihai Soceanu: IMG-20210823-WA0003.jpg (file allegato)

23/08/21, 14:24 - Nicola Bernardi: Hi, no now is empty

23/08/21, 14:25 - Nicola Bernardi: IMG-20210823-WA0004.jpg (file allegato)

23/08/21, 14:29 - Mihai Soceanu: IMG-20210823-WA0005.jpg (file allegato)

23/08/21, 14:29 - Mihai Soceanu: you also need to book on lost and found

23/08/21, 14:29 - Mihai Soceanu: or black hole

23/08/21, 14:30 - Mihai Soceanu: it will still occupy capacity

23/08/21, 14:30 - Capoturno Picking Progetto Lavoro: Station 01Temp 0510 wait for slaving

23/08/21, 14:30 - Mihai Soceanu: yes

23/08/21, 14:31 - Mihai Soceanu: no capacity

23/08/21, 14:31 - Nicola Bernardi: OK can you clean the CU now?

23/08/21, 14:31 - Mihai Soceanu: ok

23/08/21, 14:32 - Mihai Soceanu: done

23/08/21, 14:34 - Nicola Bernardi: Thanks

23/08/21, 17:54 - Razvan Voicu: Hello @Company Employee 16

23/08/21, 17:54 - Razvan Voicu: I enabled acces for RM019 for the users mentioned

23/08/21, 17:54 - Razvan Voicu: Can you please confirm they can use it?

23/08/21, 17:54 - Milo Barozzi: thank you!

23/08/21, 17:54 - Razvan Voicu: Manutenzione Responsabile EXT

these 2 roles didn't have acces to RM019, I enabled it

23/08/21, 17:54 - Milo Barozzi: let me check, pls

23/08/21, 17:55 - Razvan Voicu: and also let us know if this is temporary change or permanently

23/08/21, 18:05 - Milo Barozzi: IMG-20210823-WA0007.jpg (file allegato) tried but not working. I mean we can access RM019:

23/08/21, 18:06 - Milo Barozzi: IMG-20210823-WA0008.jpg (file allegato) BUT when pressing "print" we got the following error:

23/08/21, 18:07 - Milo Barozzi: "Cannot generate LU label. Contact administrator", while with my profile everything's working

23/08/21, 18:07 - Milo Barozzi: permanent change pls

23/08/21, 18:15 - Razvan Voicu: did you restart desktop?

23/08/21, 18:16 - Milo Barozzi: sure

23/08/21, 18:17 - Razvan Voicu: please tell me the ID of the terminal you get the error

23/08/21, 18:18 - Milo Barozzi: 3907 - user gtrivieri1

23/08/21, 18:21 - Razvan Voicu: so for the same report, for your user works and for the other it doesn't?

23/08/21, 18:22 - Milo Barozzi: exactly

23/08/21, 18:22 - Milo Barozzi: mbarozzi1 terminal 3907 works, gtrivieri1 terminal 3907 > error

23/08/21, 18:22 - Razvan Voicu: mind blowing

23/08/21, 18:23 - Razvan Voicu: need a couple of more minutes

23/08/21, 18:37 - Razvan Voicu: can you please tell me the whole flow you are

trying?

23/08/21, 18:37 - Razvan Voicu: from what dialog you start?

23/08/21, 18:38 - Razvan Voicu: e.g: OG002 -> right click OBD -> print -> print label -> RM019 opens

23/08/21, 18:38 - Razvan Voicu: is it sm046? sm048? sm023?

23/08/21, 18:38 - Milo Barozzi: SM023 > right click > print > RM019 > re-print

23/08/21, 18:40 - Razvan Voicu: can I login with his user to try it myself?

23/08/21, 18:40 - Razvan Voicu: I want to see what error is in the back

23/08/21, 18:45 - Milo Barozzi: sure, please do it

23/08/21, 18:49 - Razvan Voicu: he didn't have acces to the dialog that appeared next :D

23/08/21, 18:50 - Razvan Voicu: ok, now seems to be working, Please restart desktop and try again

23/08/21, 18:50 - Milo Barozzi: ok, give me 5 mins pls

23/08/21, 18:50 - Razvan Voicu: sure

23/08/21, 18:57 - Milo Barozzi: works 🤖

23/08/21, 18:57 - Milo Barozzi: thank you

23/08/21, 19:00 - Razvan Voicu: no problemo

23/08/21, 19:10 - Milo Barozzi: @Support Technician 16 @Support Technician 6 if today deploy is confirmed please write it on this chat in manner @Company Employee 17 and @Company Employee 10 can put machines in manual mode a 15 minutes before MFS is disconnected and so we limit the potential issue from deploys.

When MFS is disconnected, pls tell them in manner they can re-put machines in auto and leave site (their shift is ending at 9 PM Italian time).

thank you everybody for your kind cooperation

23/08/21, 20:58 - Nicola Bernardi: Can I put all warehorse in automatic?

23/08/21, 20:59 - Nicola Bernardi: Warehouse\*

23/08/21, 21:00 - Milo Barozzi: @Support Technician 16 @Support Technician 6 any news about deploy state?

23/08/21, 21:04 - Milo Barozzi: Nicola and Matteo need to leave now. They'll put all the system in automatic mode in a couple of minutes

23/08/21, 21:05 - Mihai Soceanu: Flaviu did not answer, i think today no deploy

23/08/21, 21:05 - Mihai Soceanu: Yes pls put in auto

24/08/21, 10:44 - Milo Barozzi: IMG-20210824-WA00001.jpg (file allegato)

24/08/21, 10:44 - Milo Barozzi: IMG-20210824-WA00003.jpg (file allegato)

24/08/21, 10:44 - Milo Barozzi: IMG-20210824-WA00002.jpg (file allegato)

24/08/21, 10:44 - Milo Barozzi: @Support Technician 25 @Support Technician 4 @Support Technician 5 look there! 📍 It's part of the fork which collapsed

down... 😞

24/08/21, 10:45 - Mihai Soceanu: omg :o

24/08/21, 10:45 - Andrea Brunetti: Number 21

24/08/21, 10:45 - Mihai Soceanu: pallet was too heavy or

24/08/21, 10:45 - Mihai Soceanu: ?

24/08/21, 10:46 - Andrea Brunetti: IMG-20210824-WA00004.jpg (file allegato)

No

24/08/21, 10:47 - Milo Barozzi: it's just 484 kg > LU 60595269

24/08/21, 10:47 - Support Technician 25: What "collapsed" down? the whole for or a flashing?

24/08/21, 11:01 - Milo Barozzi: @Company Employee 12 told me it's the "lower part of the fork"

24/08/21, 11:02 - Support Technician 25: Looks like a flashing to cover the cables of the sensors inside the forks.

24/08/21, 11:12 - Milo Barozzi: It's exactly that. This cover is fixed with two screws on the front and two screws on the back. AGV probably arrived with forks too low and heads of screws were truncated by the conveyor protection. Now the forks are stucked inside with no head and we'll have to work a little to fix them. But cause seems to be: forks approached too low (ART-21)

24/08/21, 11:15 - Support Technician 25: The fron conveyor plate could also be cut by a few mm

24/08/21, 11:16 - Milo Barozzi: I think it's easier to set up correctly AGV software 😊

24/08/21, 12:58 - Tai Pham: This issue we've mentioned many times before suggesting that the front plate should be cut. Chaging software at the moment is

not a good idea as the issue might happen with other AGVs.  
24/08/21, 12:59 - Tai Pham: As the tolerance there is very small.  
24/08/21, 13:00 - Milo Barozzi: @Support Technician 4 thanks for clarifying.  
@Support Technician 25 how much we can cut it?  
24/08/21, 13:00 - Tai Pham: You're welcome.  
24/08/21, 13:07 - Razvan Voicu: Hi Milo  
24/08/21, 13:07 - Razvan Voicu: Regarding the not consistent OBDs  
24/08/21, 13:08 - Razvan Voicu: I think it's ok for you to just send  
here/private message all the cases, without creating a ticket for each one of  
them  
24/08/21, 13:08 - Razvan Voicu: I can use the already created tickets for  
tracking of all the future OBDs you will find  
24/08/21, 13:09 - Razvan Voicu: If that's ok for you aswell  
24/08/21, 13:11 - Milo Barozzi: Ok Razvan, its perfect for me thank you  
24/08/21, 13:19 - Support Technician 25: @Company Employee 16 give it a try  
with 3mm at the position where the fork enter.  
24/08/21, 13:20 - Support Technician 25: I suppose you'll see the scrap paint on  
those areas  
24/08/21, 13:21 - Support Technician 25: IMG-20210824-WA0005.jpg (file allegato)  
24/08/21, 14:36 - Milo Barozzi: 3mm is quite surgical cut..  
24/08/21, 14:36 - Milo Barozzi: I'll soak with maintenance team to understand  
what we can do  
24/08/21, 14:40 - Support Technician 25: I suppose if you grind the spots where  
forks are entering it should be fine  
24/08/21, 14:49 - Milo Barozzi: When done, pls tell me something in manner I can  
keep track of solved ones. Thank you!  
24/08/21, 14:55 - Milo Barozzi: @Support Technician 21 last case is  
OBD00000175698 which is 95% Active, while it should be 100% Finished. Cause is  
that 59939970 is loaded but not related to any truck load. Anyway, order in  
AS400 is already fine, therefore, if you want, you can flag as shipped 59939970  
and force Finished 100% the whole OBD not considering the records that have to  
be sent to AS400 since everything's already fine AS400-side  
24/08/21, 14:59 - Razvan Voicu: Ok  
24/08/21, 15:00 - Razvan Voicu: All 5 OBDs are set to finished  
ADBATLATL0000026784  
ADBATLATL0000049833  
ADBATLATL0000049470  
ADBATLATL0000068760  
ADBATLATL0000085899  
24/08/21, 15:00 - Razvan Voicu: if there are any more, let me know  
24/08/21, 15:02 - Milo Barozzi: GREAT!  
24/08/21, 15:03 - Milo Barozzi: Regarding the fact that obd line of  
OBD00000181670 is still "new 0%"... can this be an obstacle for archiving?  
24/08/21, 15:03 - Milo Barozzi: @Support Technician 21 to avoid any risks, shall  
you kindly force it to finished 100% please?  
24/08/21, 15:09 - Razvan Voicu: Ok, just did  
24/08/21, 15:09 - Razvan Voicu: but the retention period is 3 days  
24/08/21, 15:09 - Razvan Voicu: so we have to wait 3 days for them to archive :)  
24/08/21, 15:09 - Milo Barozzi: thank you very much, up to now, all known not-ok  
OBDs are fixed  
24/08/21, 15:10 - Milo Barozzi: this is not excluding that I'll find more in the  
future, but... 😊  
24/08/21, 15:10 - Milo Barozzi: yes yes, no worries. that's not a problem.  
24/08/21, 15:10 - Razvan Voicu: Or we can change the retention period to 5  
minutes, trigger the archive job and then change it back to 3d  
24/08/21, 15:11 - Milo Barozzi: no no no! please leave 3 days. Disadvantages  
will be more than advantages in doing so  
24/08/21, 15:11 - Razvan Voicu: Ok  
25/08/21, 13:42 - Capoturno Picking Progetto Lavoro: Station n.1 blocked  
25/08/21, 13:44 - Mihai Soceanu: 60374926 on the way  
25/08/21, 13:44 - Mihai Soceanu: 60393014 and 92812384  
25/08/21, 13:44 - Mihai Soceanu: waiting for SRM3 to be fixed  
25/08/21, 15:20 - Nicola Bernardi: @Company Employee 16 @Support Technician 6  
now i have 1 pallet stopped on CU300 H Type

25/08/21, 15:20 - Mihai Soceanu: i check\  
25/08/21, 15:20 - Nicola Bernardi: 59209039  
25/08/21, 15:21 - Mihai Soceanu: yep  
25/08/21, 15:21 - Mihai Soceanu: no location available in S46  
25/08/21, 15:21 - Mihai Soceanu: :(  
25/08/21, 15:22 - Milo Barozzi: Really? 😞  
25/08/21, 15:22 - Mihai Soceanu: give me 2 sec  
25/08/21, 15:24 - Milo Barozzi: can't it go to  
S46 11-07-01  
S46 12-03-01  
S46 12-05-01  
S46 12-07-01  
for instance? They are ATLAS\_AGV\_S\_1700\_H\_1550 kind  
25/08/21, 15:25 - Mihai Soceanu: IMG-20210825-WA0008.jpg (file allegato)  
25/08/21, 15:25 - Mihai Soceanu: H does not matter  
25/08/21, 15:25 - Mihai Soceanu: in this case  
25/08/21, 15:25 - Mihai Soceanu: lenght and width  
25/08/21, 15:25 - Mihai Soceanu: i try to see if we have any location  
25/08/21, 15:26 - Milo Barozzi: ATLAS\_AGV\_S\_1700\_H\_1550 mean lenght 1700, so  
it's fitting  
25/08/21, 15:26 - Milo Barozzi: 'S' I don't know what does it mean...  
25/08/21, 15:26 - Milo Barozzi: S means H is not allowed I think...  
25/08/21, 15:29 - Mihai Soceanu: IMG-20210825-WA0009.jpg (file allegato)  
25/08/21, 15:29 - Mihai Soceanu: not fitting in 880  
25/08/21, 15:29 - Mihai Soceanu: needs bigger  
25/08/21, 15:30 - Milo Barozzi: I think that you're right, no free locations,  
but I saw that there are some D pallets which can fit in 'S' locations that are  
in "M/L" locations  
25/08/21, 15:30 - Milo Barozzi: maybe I can create some "relocation" TPOs for  
that LUS  
25/08/21, 15:30 - Milo Barozzi: ?  
25/08/21, 15:30 - Mihai Soceanu: pls try  
25/08/21, 15:31 - Mihai Soceanu: i made a fix in the next build to choose the  
location based on the optim space we use  
25/08/21, 15:31 - Mihai Soceanu: square meters  
25/08/21, 15:31 - Milo Barozzi: create TPO for 60363492 (D in S46 11-00-04, kind  
ATLAS\_AGV\_M/L\_1700\_H\_650) with strategic area SS46  
25/08/21, 15:31 - Milo Barozzi: it's pointing now to S46 11-00-04  
25/08/21, 15:31 - Mihai Soceanu: will be in next deploy  
25/08/21, 15:32 - Mihai Soceanu: ok cool  
25/08/21, 15:32 - Milo Barozzi: what do you mean exactly?  
25/08/21, 15:32 - Mihai Soceanu: for example D could use from beginnign  
S46A08X002Y03Z2  
25/08/21, 15:33 - Mihai Soceanu: and leave unoccupied bigger locations for other  
pallets  
25/08/21, 15:33 - Mihai Soceanu: like H  
25/08/21, 15:33 - Mihai Soceanu: first will be Height of course  
25/08/21, 15:33 - Mihai Soceanu: then minimum space  
25/08/21, 15:34 - Milo Barozzi: aaaah I see  
25/08/21, 15:34 - Milo Barozzi: because now how location was choosen? looking  
only at height and weight?  
25/08/21, 15:34 - Mihai Soceanu: yes :(  
25/08/21, 15:35 - Milo Barozzi: damn it! So D were going in wide locations even  
small locations were free  
25/08/21, 15:35 - Milo Barozzi: ?  
25/08/21, 15:41 - Nicola Bernardi: @Support Technician 6 do you need the pallet  
on CU300 stopped here?  
25/08/21, 15:41 - Mihai Soceanu: no  
25/08/21, 15:41 - Mihai Soceanu: all clear for me  
25/08/21, 15:42 - Nicola Bernardi: Thanks 🙌  
25/08/21, 15:42 - Mihai Soceanu: Thank you  
26/08/21, 09:24 - Mihai Soceanu: IMG-20210826-WA0004.jpg (file allegato)  
26/08/21, 09:24 - Mihai Soceanu: IMG-20210826-WA0003.jpg (file allegato)  
26/08/21, 09:25 - Mihai Soceanu: as far as i understand

26/08/21, 09:25 - Mihai Soceanu: they are blocking each other  
26/08/21, 09:25 - Mihai Soceanu: @Support Technician 4 can you pls check  
26/08/21, 09:25 - Mihai Soceanu: ?  
26/08/21, 09:31 - Mihai Soceanu: question  
26/08/21, 09:32 - Mihai Soceanu: how allocation in AGV works ? meaning which order is allocated first to an AGV ?  
26/08/21, 09:32 - Mihai Soceanu: time based  
26/08/21, 09:32 - Mihai Soceanu: ?  
26/08/21, 09:34 - Mihai Soceanu: IMG-20210826-WA0002.jpg (file allegato)  
26/08/21, 09:35 - Mihai Soceanu: AGV 1 is going to handover location  
26/08/21, 09:35 - Mihai Soceanu: but station 5 needs a pallet from RP 120  
26/08/21, 09:35 - Milo Barozzi: I think it's the old one goes first to AGV which is closer to the pick up location, but I don't want to say something not ok, maybe Tai can be more precise  
26/08/21, 09:35 - Mihai Soceanu: IMG-20210826-WA0001.jpg (file allegato)  
26/08/21, 09:35 - Mihai Soceanu: currently no agv allocated  
26/08/21, 09:36 - Support Technician 16: @Company Employee 16 I think the agv related things should be better discussed on the group you did before for AGV, please add Mihai there and continue the discussion there so that we do not flood this channel  
26/08/21, 09:36 - Mihai Soceanu: i understand but we need to prioritize picking and release conveyors like wuzi, printers  
26/08/21, 09:36 - Mihai Soceanu: @Support Technician 16 ok :)  
26/08/21, 09:36 - Milo Barozzi: I totally agree with you 😊  
26/08/21, 09:37 - Milo Barozzi: sure, adding Mihai in a while  
26/08/21, 09:37 - Milo Barozzi: Mihai is in 😊  
26/08/21, 09:45 - Mihai Soceanu: :P  
26/08/21, 10:48 - Support Technician 5: Could someone restart the ART 21 for getting correct date and time to it, please.  
26/08/21, 11:41 - Milo Barozzi: @Company Employee 12 appena riesci puoi riavviare ART 21 per favore?  
26/08/21, 12:03 - Andrea Brunetti: Okay perfetto  
26/08/21, 12:07 - Milo Barozzi: thank you very much  
26/08/21, 12:08 - Andrea Brunetti: You welcome  
26/08/21, 12:13 - Support Technician 5: Thank you, and please check from display that the time is right after restarting 😊  
26/08/21, 13:18 - Mihai Soceanu: IMG-20210826-WA0009.jpg (file allegato)  
26/08/21, 13:18 - Mihai Soceanu: AGV 13 can not deliver  
26/08/21, 13:31 - Stefano Dall'Asta, Lavoro: Hi everyone we have a problems with orders in OG025 that dont get assigned to the picking stations, can you check?  
26/08/21, 13:41 - Support Technician 16: Hi, of course, it seems now that you received orders, we will keep a close eye on it  
26/08/21, 13:42 - Stefano Dall'Asta, Lavoro: Yes, thank you!  
26/08/21, 13:50 - Support Technician 5: Did someone restart 21 earlier?  
26/08/21, 13:53 - Nicola Bernardi: Yes Matteo, you need 21 stopped?  
26/08/21, 13:54 - Support Technician 5: Hmm... can you check what time and date it have on display  
26/08/21, 13:55 - Support Technician 5: Cway haven't got any events from that vehicle after 11  
26/08/21, 13:59 - Mihai Soceanu: pls check agv13  
26/08/21, 13:59 - Mihai Soceanu: why it can not deliver D pallet over B pallet  
26/08/21, 14:02 - Nicola Bernardi: Yes I'm going to see that  
26/08/21, 14:04 - Nicola Bernardi: IMG-20210826-WA0018.jpg (file allegato)  
26/08/21, 14:04 - Nicola Bernardi: It's ok👍  
26/08/21, 14:13 - Mihai Soceanu: thx  
26/08/21, 14:13 - Mihai Soceanu: what was the issue ?  
26/08/21, 14:15 - Nicola Bernardi: I piece of foil on sensor  
26/08/21, 14:16 - Support Technician 5: Can someone please stop Agv 21 when it's not loaded and let me know then. I will try something to get events back working  
26/08/21, 14:32 - Giacomo Trivieri, Lavoro: IMG-20210826-WA0025.jpg (file allegato)  
@Support Technician 5  
26/08/21, 14:33 - Support Technician 5: Ok, wait a moment  
26/08/21, 14:33 - Support Technician 5: But can you stop it

26/08/21, 14:33 - Support Technician 5: So it will stay still while i update it  
26/08/21, 14:34 - Support Technician 5: Because the date and time is totally wrong  
26/08/21, 14:35 - Nicola Bernardi: @Support Technician 6 can you Create a T0 for this pallet? 59160623  
26/08/21, 14:36 - Nicola Bernardi: I delete the old T0👉👉😁  
26/08/21, 14:38 - Mihai Soceanu: one sc  
26/08/21, 14:38 - Mihai Soceanu: 59160623 is on EMS  
26/08/21, 14:38 - Nicola Bernardi: I see the T0 was create automatically, now is good  
26/08/21, 14:38 - Mihai Soceanu: and gors to station 5  
26/08/21, 14:38 - Mihai Soceanu: ok cool  
26/08/21, 14:39 - Nicola Bernardi: 🙌  
26/08/21, 14:41 - Support Technician 5: Can someone go to check 21 now please  
26/08/21, 14:41 - Support Technician 5: IMG-20210826-WA0026.jpg (file allegato)  
26/08/21, 14:43 - Nicola Bernardi: I'm going  
26/08/21, 14:44 - Support Technician 5: Ok, please check the date, if it's not correct, shut down the vehicle and take battery out for moment and then back on  
26/08/21, 14:45 - Nicola Bernardi: IMG-20210826-WA0027.jpg (file allegato)  
26/08/21, 14:45 - Support Technician 5: Yeah it's wrong  
26/08/21, 14:46 - Support Technician 5: Shut it down and take the battery out for a moment  
26/08/21, 14:52 - Nicola Bernardi: IMG-20210826-WA0028.jpg (file allegato)  
26/08/21, 15:00 - Support Technician 5: Ok thank you, now 21 seems to be all good 🤔😊  
26/08/21, 16:00 - Mihai Soceanu: please fix AGV14  
26/08/21, 16:00 - Mihai Soceanu: is killing the flows  
26/08/21, 16:00 - Mihai Soceanu: IMG-20210826-WA0029.jpg (file allegato)  
26/08/21, 17:55 - Giacomo Trivieri, Lavoro: @Support Technician 16 @Support Technician 6 hi guys i want to ask you if you Will make a deploy this evening  
26/08/21, 17:59 - Support Technician 16: @Company Employee 10 Unfortunately we do not know, please ask Flaviu  
26/08/21, 18:00 - Giacomo Trivieri, Lavoro: @Support Technician 16 ok got It thanks for advice  
26/08/21, 18:58 - Milo Barozzi: @Company Employee 10 @Support Technician 16 @Company Employee 17 I spoke with Flaviu and there'll be deploy today. Flaviu or somebody from SSI will tell maintenance team when machines can return in auto-mode. I kindly beg SSI Team to make in manner machines can return in auto mode as early as possible since Nicola and Matteo are ending their shift at 9PM Italian time and it's not so nice for them to stay so long. Thank you very much to all!  
26/08/21, 21:02 - Mihai Soceanu: on 22:05 i will stop the system  
26/08/21, 21:02 - Mihai Soceanu: grrr  
26/08/21, 21:02 - Mihai Soceanu: 21:05  
26/08/21, 21:03 - Nicola Bernardi: 🤔  
26/08/21, 21:03 - Mihai Soceanu: in Ro is 22:05 :))  
26/08/21, 21:03 - Nicola Bernardi: I know 🤔  
26/08/21, 21:05 - Nicola Bernardi: When you put down the system can you write me? We will put all system in auto after that 🤔  
26/08/21, 21:05 - Mihai Soceanu: stopped  
26/08/21, 21:11 - Nicola Bernardi: All auto buttons has been pressed🙌  
26/08/21, 21:11 - Mihai Soceanu: seems that AGVs are starting  
26/08/21, 21:11 - Mihai Soceanu: but MFS is not up yet  
26/08/21, 21:13 - Nicola Bernardi: I know  
26/08/21, 21:13 - Nicola Bernardi: I see that  
26/08/21, 21:13 - Mihai Soceanu: we will see  
26/08/21, 21:13 - Mihai Soceanu: how it reacts  
26/08/21, 21:13 - Nicola Bernardi: This is not good  
26/08/21, 21:13 - Milo Barozzi: Is deploy still in progress?  
26/08/21, 21:14 - Mihai Soceanu: yes  
26/08/21, 21:14 - Nicola Bernardi: Il problema è che gli agv vanno fatti ripartite dopo l'aggiornamento  
26/08/21, 21:14 - Mihai Soceanu: maybe we need to leave agv stopped until we also start MFS

26/08/21, 21:15 - Nicola Bernardi: Perché gli agv hanno già le missioni in pancia @Company Employee 16  
26/08/21, 21:15 - Milo Barozzi: How much time remaining?  
26/08/21, 21:18 - Milo Barozzi: Manual part is blaming to restart...  
26/08/21, 21:18 - Milo Barozzi: 😞  
26/08/21, 21:21 - Milo Barozzi: Are not Agv acknowledgement messages going into a queue that'll be read by mfs as soon it is back online?  
26/08/21, 21:22 - Mihai Soceanu: yes should be  
26/08/21, 21:22 - Mihai Soceanu: i prepared a fix for that but not sure if will take effect with this restart or only with next one  
26/08/21, 21:22 - Milo Barozzi: Ah ok  
26/08/21, 21:22 - Milo Barozzi: Otherwise any time AGV system as a drop of connection we loose a package...  
26/08/21, 21:23 - Milo Barozzi: 🙏  
26/08/21, 21:23 - Nicola Bernardi: Noi siamo qui che stiamo aspettando riparta tutto  
26/08/21, 21:24 - Milo Barozzi: Dobbiamo cambiar metodo perché questo vi inchioda al MAV per troppo tempo e troppo tardi  
26/08/21, 21:24 - Mihai Soceanu: will be installed as soon as possibile ...  
26/08/21, 21:24 - Nicola Bernardi: Possiamo anche far partire da remoto gli agv  
26/08/21, 21:26 - Milo Barozzi: How much time is needed to restart manual area?  
26/08/21, 21:27 - Support Technician 14: 10 minutes  
26/08/21, 21:27 - Support Technician 14: tops  
26/08/21, 21:27 - Support Technician 14: but I think 5 minutes  
26/08/21, 21:28 - Milo Barozzi: 🙏  
26/08/21, 21:39 - Support Technician 14: manual can start  
26/08/21, 22:00 - Mihai Soceanu: IMG-20210827-WA0000.jpg (file allegato)  
26/08/21, 22:00 - Mihai Soceanu: is as i drawn ?  
26/08/21, 22:02 - Nicola Bernardi: We went home, sorry  
26/08/21, 22:03 - Mihai Soceanu: ok  
26/08/21, 22:03 - Mihai Soceanu: i wish you a nice evening'  
26/08/21, 22:10 - Support Technician 14: Have a nice evening!  
26/08/21, 22:15 - Nicola Bernardi: Thanks  
27/08/21, 06:20 - Milo Barozzi: 📞 AGV blocked, they don't go to pick stations to catch pallets. I think issue is deploy from yesterday, maybe mfs is not speaking properly with Rocla or a transport is stuck and blocking all others. All pick stations blocked. Please fix ASAP 📞  
27/08/21, 06:24 - Mihai Soceanu: I will check asap  
27/08/21, 06:24 - Milo Barozzi: Thanks  
27/08/21, 06:25 - Milo Barozzi: If you need support from site contact @Company Employee 12 (maintenance) or @Company Employee 24 (pick stations shift leader) because I'll be not onsite before 8.30  
27/08/21, 06:28 - Andrea Brunetti: You create many temps in the inputs and some I can not remove  
27/08/21, 06:29 - Andrea Brunetti: <Media omessi>  
All like this  
27/08/21, 06:52 - Razvan Voicu: done  
27/08/21, 06:52 - Razvan Voicu: let me know if it happens  
27/08/21, 06:54 - Razvan Voicu: @Company Employee 12 is everything ok?  
27/08/21, 06:55 - Razvan Voicu: @Company Employee 24  
27/08/21, 06:56 - Mihai Soceanu: the refresh between MFS and WMS wa  
27/08/21, 06:56 - Mihai Soceanu: was down  
27/08/21, 06:56 - Mihai Soceanu: due to a Transport  
27/08/21, 06:56 - Mihai Soceanu: i am checking the TPO now  
27/08/21, 06:56 - Andrea Brunetti: All the agv have started  
27/08/21, 06:56 - Andrea Brunetti: Okay  
27/08/21, 06:57 - Daniele MMOperations: Seems ti be ok now, AGV started and some picking station are working  
27/08/21, 06:58 - Andrea Brunetti: Yes  
27/08/21, 07:11 - Daniele MMOperations: AGV n.9 is trying to put a PLT in BP09 D01, but there is already another PLT  
27/08/21, 07:12 - Daniele MMOperations: IMG-20210827-WA0001.jpg (file allegato)  
27/08/21, 07:13 - Mihai Soceanu: yes :(  
27/08/21, 07:13 - Mihai Soceanu: because of the missing refresh

27/08/21, 07:13 - Mihai Soceanu: MFS did not see at the moment that there is a pallet there  
27/08/21, 07:13 - Mihai Soceanu: ..  
27/08/21, 07:13 - Mihai Soceanu: also station 3 is the same  
27/08/21, 07:22 - Mihai Soceanu: 60209342 pls check if is empty or not  
27/08/21, 07:22 - Mihai Soceanu: and if needed to be send to HBW  
27/08/21, 07:23 - Daniele MMOperations: Not empty, 2 pieces  
27/08/21, 07:23 - Daniele MMOperations: Sent away  
27/08/21, 07:23 - Mihai Soceanu: ok  
27/08/21, 07:25 - Mihai Soceanu: 60209343 from station 5  
27/08/21, 07:25 - Mihai Soceanu: ?  
27/08/21, 07:26 - Daniele MMOperations: Going to check  
27/08/21, 07:27 - Mihai Soceanu: thx  
27/08/21, 07:27 - Daniele MMOperations: Is going back, 2 boxes on it  
27/08/21, 07:30 - Mihai Soceanu: ok thx  
27/08/21, 07:31 - Mihai Soceanu: i will send it to HBW1  
27/08/21, 07:31 - Mihai Soceanu: ok ?  
27/08/21, 07:31 - Daniele MMOperations: Ok  
27/08/21, 07:31 - Mihai Soceanu: and then seem all in place  
27/08/21, 07:32 - Mihai Soceanu: i keep an eye on the suystem  
27/08/21, 07:32 - Daniele MMOperations: Thanks... if i see something strange, i'll tell you  
27/08/21, 07:34 - Mihai Soceanu: thx the same  
27/08/21, 07:34 - Mihai Soceanu: and srry for the morning problem  
27/08/21, 07:34 - Mihai Soceanu: ...  
27/08/21, 08:12 - Mihai Soceanu: foiling line 1 is broken ? :(  
27/08/21, 08:12 - Mihai Soceanu: the infeed  
27/08/21, 08:12 - Mihai Soceanu: ?  
27/08/21, 08:37 - Mihai Soceanu: IMG-20210827-WA0003.jpg (file allegato)  
27/08/21, 08:37 - Mihai Soceanu: may you pls check  
27/08/21, 08:37 - Mihai Soceanu: ?  
27/08/21, 08:48 - Milo Barozzi: changing foil roll now  
27/08/21, 08:53 - Milo Barozzi: @Support Technician 6 @Company Employee 12  
foiling line #1 fixed and working now 🍷 let's invade it with pallets!! 🧑🧑🧑  
27/08/21, 08:53 - Mihai Soceanu: iuhuuuu  
27/08/21, 09:46 - Milo Barozzi: @Support Technician 6 from site they told me that AGVs are not going to pick station to retrieve pallets. Shall u kindly check if MFS/Rocla side is everything fine, pls?  
27/08/21, 09:47 - Mihai Soceanu: we have orders  
27/08/21, 09:47 - Mihai Soceanu: i see no problem  
27/08/21, 09:48 - Milo Barozzi: thx, I think the issue is another one.. all AGVs are with pallet but not moving close to destackers  
27/08/21, 09:48 - Milo Barozzi: I think the issue is AGV1 is blocked by AGV2, which is blocked by AGV3, etc etc  
27/08/21, 09:48 - Milo Barozzi: This is something should be investigated during optimization week in my opinion  
27/08/21, 09:49 - Milo Barozzi: AGV system should self-solve/avoid this kind of situations in my opinion  
27/08/21, 09:49 - Mihai Soceanu: IMG-20210827-WA0005.jpg (file allegato)  
27/08/21, 09:50 - Milo Barozzi: exactly  
27/08/21, 10:21 - Mihai Soceanu: i agree, it is strictly related to fleet control and i think WAMAS can not help...  
27/08/21, 10:22 - Mihai Soceanu: can someone pls check why AGV14 can not deliver to AGV handover location  
27/08/21, 10:22 - Mihai Soceanu: ?  
27/08/21, 10:23 - Daniele MMOperations: <Media omessi>  
27/08/21, 10:25 - Daniele MMOperations: Picking station 1, every time we get this. We tried ti close and reopen Wamas several times but the dialog stays like this.  
27/08/21, 10:25 - Milo Barozzi: @Support Technician 16 shall you check what Daniele reported, pls?  
27/08/21, 10:29 - Support Technician 16: @Company Employee 16 yes, we will look into it

27/08/21, 10:32 - Support Technician 16: @Company Employee 24 can you please tell me the user and station this happens on?  
27/08/21, 10:34 - Milo Barozzi: mmop103 station #1  
27/08/21, 10:35 - Support Technician 16: and can you please tell a time where he tried?  
27/08/21, 10:36 - Milo Barozzi: in the video I see 10:17 in the clock of PC...  
27/08/21, 10:37 - Daniele MMOperations: Yes, he noticed it around 10:10 and then he called me  
27/08/21, 10:41 - Support Technician 16: You are asked to pick 5 SC and 1 PZ but you actually have only 4 SC on the source so that is why it does not let you do it  
27/08/21, 10:42 - Support Technician 16: IMG-20210827-WA0006.jpg (file allegato) how much did he pick actually from the source?  
27/08/21, 10:42 - Daniele MMOperations: I'm going to ask  
27/08/21, 10:45 - Support Technician 16: IMG-20210827-WA0007.jpg (file allegato) i see he did a stock adjustment for that amount missing in wamas  
27/08/21, 10:45 - Daniele MMOperations: Before we had more SC than 4, he said  
27/08/21, 10:45 - Support Technician 16: yes but i see he adjusted the amount himself  
27/08/21, 10:45 - Daniele MMOperations: Yes he told me, he broke 1 piece  
27/08/21, 10:48 - Support Technician 16: hmmm so he adjusted the stock because he broke some pieces but the picking activity still tells you to pick the old amount correct?  
27/08/21, 10:49 - Mihai Soceanu: SRM2 is blocking a lot of stations  
27/08/21, 10:49 - Mihai Soceanu: is it a big problem with it  
27/08/21, 10:49 - Mihai Soceanu: ?  
27/08/21, 10:49 - Mihai Soceanu: :(  
27/08/21, 10:49 - Mihai Soceanu: IMG-20210827-WA0008.jpg (file allegato)  
27/08/21, 10:50 - Milo Barozzi: I think Andrea is on it, but it's alone today so he cannot do miracles 😊  
27/08/21, 10:50 - Mihai Soceanu: :( ok  
27/08/21, 10:50 - Milo Barozzi: the only thing I can do is to block stacker crane 2  
27/08/21, 10:50 - Mihai Soceanu: leave it as it is  
27/08/21, 10:51 - Milo Barozzi: but I prefer first to understand from Andrea how much time is needed to restore SRM02  
27/08/21, 10:51 - Mihai Soceanu: will be unblocked at one moment  
27/08/21, 10:51 - Mihai Soceanu: yep  
27/08/21, 10:54 - Daniele MMOperations: Exactly  
27/08/21, 10:56 - Support Technician 16: seems this is a bug due to having on the same pallet multiple picking activities and having the need of inventory  
27/08/21, 10:57 - Milo Barozzi: need to open a ticket I suppose 😊  
27/08/21, 10:57 - Support Technician 16: @Company Employee 16 please open a ticket for this, the explanation is: multiple Picking activities on same pallet and inventory needed between the activities, does not take into account the sum of remaining activities rather than as separate  
27/08/21, 10:57 - Milo Barozzi: exactly! I'll do it ASAP  
27/08/21, 10:58 - Support Technician 16: for this activity what would you like for us to help you make of it?  
27/08/21, 11:00 - Milo Barozzi: pls make in manner the operator at picking station can work... unfortunately I'm in a meeting now and I cannot operate on WAMAS directly  
27/08/21, 11:01 - Support Technician 16: ok, i will reset the state of the activity and finalize it so that it can be post picked the order  
27/08/21, 11:03 - Support Technician 16: @Company Employee 24 please send away the source pallet and tell me if the user can continue to work  
27/08/21, 11:04 - Daniele MMOperations: Pallet gone, now it works. Thank you!!  
27/08/21, 11:05 - Support Technician 16: Thank you also!  
27/08/21, 11:07 - Milo Barozzi: stacker crane 2 back on track  
27/08/21, 11:28 - Mihai Soceanu: 60477056\  
27/08/21, 11:28 - Mihai Soceanu: was unloaded manually  
27/08/21, 11:28 - Mihai Soceanu: ?  
27/08/21, 11:55 - Stefano Dall'Asta, Lavoro: It seems so  
27/08/21, 12:05 - Mihai Soceanu: question would be where

27/08/21, 12:12 - Mihai Soceanu: this does not seem ok  
27/08/21, 12:12 - Mihai Soceanu: ...  
27/08/21, 12:13 - Mihai Soceanu: IMG-20210827-WA0009.jpg (file allegato)  
27/08/21, 12:13 - Mihai Soceanu: IMG-20210827-WA0010.jpg (file allegato)  
27/08/21, 12:13 - Mihai Soceanu: closer look  
27/08/21, 12:13 - Mihai Soceanu: @Support Technician 5 help ?  
27/08/21, 12:13 - Mihai Soceanu: or maybe you can see smth in the systne  
27/08/21, 12:14 - Mihai Soceanu: system\*  
27/08/21, 12:15 - Mihai Soceanu: also here  
27/08/21, 12:15 - Mihai Soceanu: IMG-20210827-WA0011.jpg (file allegato)  
27/08/21, 12:16 - Mihai Soceanu: 9 and 6 needs to go to S48  
27/08/21, 19:18 - Nicola Bernardi: @Support Technician 6 can you check the CU212?  
27/08/21, 19:19 - Mihai Soceanu: yes  
27/08/21, 19:19 - Mihai Soceanu: 1 sec pls  
27/08/21, 19:21 - Mihai Soceanu: fixed  
27/08/21, 19:22 - Mihai Soceanu: MFS could not find a proper route, i will check it  
27/08/21, 19:23 - Nicola Bernardi: What is the problem?  
27/08/21, 19:24 - Mihai Soceanu: i have a logic in which pallets that need printing and wrapping can use any lane to go out  
27/08/21, 19:24 - Mihai Soceanu: if it is printing required only, then it should go out only via the rear lanes  
27/08/21, 19:25 - Mihai Soceanu: because only those ones have printer  
27/08/21, 19:25 - Mihai Soceanu: this pallet did not required wrapping  
27/08/21, 19:25 - Mihai Soceanu: but because there is another condition not to use rear lanes for station 7-12  
27/08/21, 19:25 - Mihai Soceanu: MFS did not found a proper route  
27/08/21, 19:25 - Mihai Soceanu: i will fix it  
27/08/21, 19:25 - Mihai Soceanu: is a bug  
27/08/21, 19:26 - Mihai Soceanu: and we will have it for next week  
27/08/21, 19:27 - Nicola Bernardi: 🙏 thanks 🙏🙏  
27/08/21, 19:32 - Mihai Soceanu: np  
28/08/21, 07:21 - Support Technician 8 ha abbandonato.  
28/08/21, 13:38 - Riccardo Barozzi ha abbandonato.  
30/08/21, 07:51 - Davide Montanari ha abbandonato.  
30/08/21, 07:47 - Giacomo Trivieri, Lavoro: @Support Technician 6 @Support Technician 13 hi guys good morning can someone help me both Infeed Lines and cu3001 After foiling Lines? At infeed Lines on cu011 when forklifter puts the pellet on conveyor,wamas creates Always a temp; instead at cu3001 error on mf200 Is: WAIT FOR AM ALLOCATION RETRY  
30/08/21, 07:53 - Support Technician 13: good morning. on CU300 the H pallet has problem with storage in S46, probably no free space for big pallets  
30/08/21, 07:57 - Giacomo Trivieri, Lavoro: @Support Technician 13 have you maked some kind of operation about H pellet on cu300? Because now It Is gone  
30/08/21, 07:58 - Support Technician 13: <Media omessi> on CU001 is there a pallet?  
30/08/21, 07:58 - Giacomo Trivieri, Lavoro: Just a sec  
30/08/21, 07:58 - Support Technician 13: no, i did not.  
30/08/21, 08:01 - Giacomo Trivieri, Lavoro: @Support Technician 13 ok got It. About cu011 there Is 59982781  
30/08/21, 08:03 - Support Technician 13: ok. conveyor order from MF266 had to be canceled  
30/08/21, 08:04 - Giacomo Trivieri, Lavoro: Ok got It but sometimes when i delete order using mf266 pellet doest restarts even After refresh and reset on mf200  
30/08/21, 08:09 - Support Technician 13: let us know when it happens next time.  
30/08/21, 08:11 - Giacomo Trivieri, Lavoro: Ok thanks a lot👍 @Support Technician 13  
30/08/21, 08:13 - Support Technician 13: "At infeed Lines on cu011 when forklifter puts the pallet on conveyor,wamas creates Always a temp" --> this is correct, if wamas does not have the pallet with TPO booked on infeed conveyor (possibly deposit was not made yet by mobile terminal)  
30/08/21, 08:15 - Support Technician 13: welcome 👍

30/08/21, 15:03 - Milo Barozzi: @Support Technician 21 shall you kindly force to 100% Finished OBD0000237561? I think it's part of old "nuclear waste" due to some old bugs 😊 thank you!

30/08/21, 15:29 - Razvan Voicu: Sure, will do

30/08/21, 15:30 - Milo Barozzi: thank you Razvan!

30/08/21, 15:50 - Razvan Voicu: done, no problem :)

30/08/21, 15:52 - Milo Barozzi: thank you

31/08/21, 17:55 - Milo Barozzi: @Support Technician 21 OBD0000246755 is 100% finished, but line is new 0%. Shall you kindly force OBDline to 0 qty and 100 Finished, pls? thanks

31/08/21, 18:06 - Razvan Voicu: Hi milo. I can't right now, will do tomorrow :)

31/08/21, 18:15 - Milo Barozzi: tomorrow is fine, please just let me done when you did it 😊

01/09/21, 06:35 - Capoturno Picking Progetto Lavoro: Station 8 there are no plt to the sources

01/09/21, 06:58 - Capoturno Picking Progetto Lavoro: BP08D02 plt without shipping order

01/09/21, 07:38 - Milo Barozzi: Dear All, we have several issues. Picking stations 2-3-5-9-12 are in "wait for" dialog and not switching. I saw there are still the old users active "mmop\*\*" instead of lp\*\* but I don't know if this is the main cause or not

01/09/21, 07:38 - Milo Barozzi: I tried logging in with mmop108 on pick station 12 and make "disconnect" and then log in with my user but nothing change

01/09/21, 07:38 - Milo Barozzi: shall you kindly fix them ASAP?

01/09/21, 07:38 - Milo Barozzi: all these 5 pick stations are not working from 5:30

01/09/21, 07:40 - Milo Barozzi: I'm not in office now and cannot operate.

@Support Technician 16 @Support Technician 21 please have a look at that, I'll be in office in 1h from now, so really to late. @Company Employee 10 is onsite if you need direct assistance onsite, please contact him if needed

01/09/21, 07:44 - Milo Barozzi: It doesn't seem to be a user session related issue...maybe unpicking process messed something?!

01/09/21, 07:53 - Support Technician 16: IMG-20210901-WA0007.jpg (file allegato)

Hi Milo, seems there is a lock with maintainance in it's name

01/09/21, 07:57 - Support Technician 16: IMG-20210901-WA0006.jpg (file allegato)

All the pallets are not coming because of this, please resolve it

01/09/21, 07:58 - Support Technician 16: IMG-20210901-WA0005.jpg (file allegato)

01/09/21, 08:08 - Giacomo Trivieri, Lavoro: @Support Technician 16 hi vecliuc good morning👋 can you check now if srm 01 and 03 can works?i have putted srm2 in maintenance mode so now others crains should works

01/09/21, 08:09 - Mihai Soceanu: all ok now

01/09/21, 08:09 - Support Technician 16: @Company Employee 10 good morning, yes, 01 and 03 are working

01/09/21, 08:15 - Giacomo Trivieri, Lavoro: @Support Technician 16 @Support Technician 6 good;i have seen now that there Is not error srm2 routing lock for craine 1 and 3 at least

01/09/21, 08:17 - Giacomo Trivieri, Lavoro: @Support Technician 16 @Support Technician 6 could you kindly check situation about pick station 8?

01/09/21, 08:25 - Support Technician 16: IMG-20210901-WA0004.jpg (file allegato)

it's requesting an empty pallet of type 9

01/09/21, 08:26 - Support Technician 16: IMG-20210901-WA0003.jpg (file allegato)

01/09/21, 08:28 - Capoturno Picking Progetto Lavoro: you empty and I have a plt stands at destination 2 with a box on top without transport orfine

01/09/21, 08:30 - Support Technician 16: Questo messaggio è stato eliminato.

01/09/21, 08:30 - Support Technician 16: sorry? i do not understand

01/09/21, 08:37 - Giacomo Trivieri, Lavoro: @Support Technician 16 Carlo has said that on BP08 D02 there Is an AF pellet with 1 box of tiles on It but the strange thing Is that on wamas there are no green flags for that UDC

01/09/21, 08:40 - Milo Barozzi: sorry Adrian, I did not undestand completely what was the issue. Aisle 2 was fully blocked from yesterday from WH078. It can influence stacker crane #3 operations anyway?

01/09/21, 08:47 - Milo Barozzi: IMG-20210901-WA0001.jpg (file allegato)

@Support Technician 16 the issue with picking station #8 is the following

01/09/21, 08:47 - Milo Barozzi: I think it's a master data related issue

01/09/21, 08:47 - Milo Barozzi: I'm checking  
01/09/21, 08:48 - Support Technician 16: @Company Employee 16 yes, that is  
01/09/21, 08:50 - Milo Barozzi: I corrected master data, shall you kindly cancel the request for the empty pallet 9 / modify it for an empty pallet F?  
01/09/21, 08:50 - Milo Barozzi: I cannot do that "trick", do not have enough rights...  
01/09/21, 08:51 - Support Technician 16: Done  
01/09/21, 11:47 - Milo Barozzi: Dear All, pls have a look at issue D163 as soon as possible since it's blocking pick station #4. Thank you!  
01/09/21, 16:12 - Mihai Soceanu: hi pls check if there is a pallet on TPS from crane 4  
01/09/21, 16:12 - Mihai Soceanu: if not pls remove the order from conveyor  
02/09/21, 11:21 - Giacomo Trivieri, Lavoro: @Support Technician 13 @Support Technician 6 @Support Technician 16 hi guys good morning can you help me with craine1? LAM 1 and 2 are empty; 89146154 Is on cu195 and 59446496 Is on cu196  
02/09/21, 11:21 - Giacomo Trivieri, Lavoro: Thanks in advance foto your help  
02/09/21, 11:21 - Giacomo Trivieri, Lavoro: For\*  
02/09/21, 11:22 - Mihai Soceanu: i will rebook  
02/09/21, 11:22 - Giacomo Trivieri, Lavoro: Thanks i have another very urgent work to do before  
02/09/21, 11:26 - Giacomo Trivieri, Lavoro: I can see pellet on cu195 still blocked @Support Technician 6  
02/09/21, 11:35 - Giacomo Trivieri, Lavoro: @Support Technician 6 @Support Technician 16 could you kindly make a T0 for those two pellets? 60075722 and 58058903; starting from srm04, directly to QC  
02/09/21, 12:06 - Mihai Soceanu: tehy are on TPS  
02/09/21, 12:06 - Mihai Soceanu: crane is in manual  
02/09/21, 12:06 - Mihai Soceanu: can not deliver those pallets to QC  
02/09/21, 12:29 - Giacomo Trivieri, Lavoro: IMG-20210902-WA0004.jpg (file allegato)  
@Support Technician 6 can you send those 2 pellets to the QC and also clean the logical part?  
02/09/21, 12:29 - Mihai Soceanu: they are on TPR  
02/09/21, 12:29 - Mihai Soceanu: ?  
02/09/21, 12:30 - Mihai Soceanu: ?  
02/09/21, 12:30 - Mihai Soceanu: IMG-20210902-WA0005.jpg (file allegato)  
02/09/21, 12:30 - Giacomo Trivieri, Lavoro: TPR?  
02/09/21, 12:30 - Giacomo Trivieri, Lavoro: Yeah i know becuae there were on 174 and 173  
02/09/21, 12:30 - Mihai Soceanu: which is on which  
02/09/21, 12:31 - Mihai Soceanu: ?  
02/09/21, 12:31 - Mihai Soceanu: 60075722 = 175 ?  
02/09/21, 12:31 - Mihai Soceanu: 58058903 = 176  
02/09/21, 12:31 - Mihai Soceanu: ?  
02/09/21, 12:31 - Giacomo Trivieri, Lavoro: Turned 😞  
02/09/21, 12:31 - Giacomo Trivieri, Lavoro: 58058903 on 175  
02/09/21, 12:31 - Mihai Soceanu: i had 50/50 chance  
02/09/21, 12:31 - Mihai Soceanu: ok  
02/09/21, 12:31 - Mihai Soceanu: :))  
02/09/21, 12:32 - Giacomo Trivieri, Lavoro: 😂😂😂 too funny  
02/09/21, 12:36 - Giacomo Trivieri, Lavoro: @Support Technician 6 i Will delete the old occupancies  
02/09/21, 12:36 - Mihai Soceanu: ok  
02/09/21, 12:37 - Giacomo Trivieri, Lavoro: Done it  
02/09/21, 12:38 - Mihai Soceanu: thx  
02/09/21, 12:38 - Giacomo Trivieri, Lavoro: To you 🍷🍷🍷  
02/09/21, 13:19 - Milo Barozzi: IMG-20210902-WA0006.jpg (file allegato)  
02/09/21, 13:19 - Milo Barozzi: 🙏 @Support Technician 25 we just had i/o blocking issue with all 4 AGVs from these conveyors. Shall you kindly check black boxes with Rocla? @Support Technician 4 @Support Technician 5  
02/09/21, 17:15 - Milo Barozzi: Hi All, is there somebody that can check LU 59209087? Is in S46 rack, TPO exists, no waiting reason, AGVs available but.... LU is not leaving S46! Thank you!  
02/09/21, 17:15 - Mihai Soceanu: i check

02/09/21, 17:16 - Milo Barozzi: thanks!

03/09/21, 06:55 - Giacomo Trivieri, Lavoro: @Support Technician 13 @Support Technician 16 @Support Technician 6 hi guys good morning could you kindly help us?i think that there Is something wrong with productivity and T0's. Pick stations are not working  

03/09/21, 06:56 - Mihai Soceanu: I check in 1 min

03/09/21, 06:56 - Giacomo Trivieri, Lavoro: @Support Technician 6 ok thank you so much

03/09/21, 07:04 - Mihai Soceanu: i see no pending events

03/09/21, 07:04 - Mihai Soceanu: and the queues are ok

03/09/21, 07:04 - Giacomo Trivieri, Lavoro: Also with destackers?

03/09/21, 07:05 - Giacomo Trivieri, Lavoro: Cause no agvs go to take empty pellet and there are some pellet with no errors on wamas that don t go away

03/09/21, 07:06 - Mihai Soceanu: i check

03/09/21, 07:07 - Giacomo Trivieri, Lavoro: @Support Technician 6 ok thank you keep me updated 🙏

03/09/21, 07:21 - Giacomo Trivieri, Lavoro: @Support Technician 6 did you find anything strange?i can see a Little bit flow

03/09/21, 07:21 - Mihai Soceanu: i am chkecing

03/09/21, 07:21 - Giacomo Trivieri, Lavoro: Ok forgive me 😊

03/09/21, 07:29 - Mihai Soceanu: no no no problem

03/09/21, 07:33 - Mihai Soceanu: i think we are nack on track

03/09/21, 07:34 - Mihai Soceanu: we are back\* on track

03/09/21, 07:39 - Giacomo Trivieri, Lavoro: Yes i can see a normal flow now

03/09/21, 07:40 - Mihai Soceanu: i am checking the logs what happened

03/09/21, 07:42 - Giacomo Trivieri, Lavoro: @Support Technician 6 ok keep me updated 👍

03/09/21, 08:51 - Support Technician 25: Can you pls check AGV 5?

03/09/21, 08:51 - Support Technician 25: Why is it in User Stop?

03/09/21, 08:54 - Giacomo Trivieri, Lavoro: All normal about It @Support Technician 5 @Support Technician 4 already knows why..It goes for 5 minutes and then goes in block for unknown reason so Is better keep It blocked

03/09/21, 08:55 - Support Technician 25: pls take it out of the system, it blocks the route for the other 2 AGV

03/09/21, 08:55 - Support Technician 25: IMG-20210903-WA0000.jpg (file allegato)

03/09/21, 08:55 - Support Technician 25: AGV 10 and AGV4 cannot leave due to AGV 5

03/09/21, 08:56 - Support Technician 25: - 14% capacity

03/09/21, 08:58 - Giacomo Trivieri, Lavoro: Ok we Will do It in a Moment

03/09/21, 08:59 - Support Technician 25: Thank you :)

03/09/21, 09:05 - Giacomo Trivieri, Lavoro: Welcome 👍

03/09/21, 09:06 - Giacomo Trivieri, Lavoro: @Support Technician 6 what was the reason about block of this morning?

03/09/21, 09:19 - Milo Barozzi: Also interesting me.. 😞😞

03/09/21, 09:25 - Support Technician 16: We are still investigating, at first glance it seems like an user used a button in Mf266 yesturday at around 9PM-10PM that should not be part of the allowed ones

03/09/21, 09:26 - Milo Barozzi: 😞 at 9-10PM nobody from our should be still onsite

03/09/21, 09:30 - Support Technician 16: This hour is up to debate, as i am still looking into more clear details, @Support Technician 6 can you give me a picture of the button in question

03/09/21, 09:31 - Mihai Soceanu: yes

03/09/21, 09:31 - Mihai Soceanu: it was around 20:19

03/09/21, 09:32 - Mihai Soceanu: IMG-20210903-WA0001.jpg (file allegato)

03/09/21, 09:32 - Milo Barozzi: Ah ok, it was absolutely possible...

03/09/21, 09:32 - Mihai Soceanu: is easy to press it by mistake :(

03/09/21, 09:33 - Support Technician 16: Can the maintainance people confirm if they see this button please?

03/09/21, 09:33 - Milo Barozzi: Sure he pressed by mistake...

03/09/21, 09:33 - Milo Barozzi: They can see it 100%

03/09/21, 09:33 - Milo Barozzi: Exactly

03/09/21, 09:33 - Mihai Soceanu: yes it can happen this is why we need to remove it

03/09/21, 09:34 - Milo Barozzi: If we don't need it please hide it, also for superusers if there's no case in which we should use it..

03/09/21, 09:34 - Milo Barozzi: 👍

03/09/21, 10:04 - Giacomo Trivieri, Lavoro: @Support Technician 6 @Support Technician 13 could you check situation at cu 285 and 295?

03/09/21, 10:05 - Giacomo Trivieri, Lavoro: I cannot alone 😞

03/09/21, 10:06 - Mihai Soceanu: i check

03/09/21, 10:07 - Mihai Soceanu: on SLF02C2951 we have no pallet logically

03/09/21, 10:08 - Giacomo Trivieri, Lavoro: Neither pishically but using mf266 It doesnt go away from LH 🤔🤔🤔🤔

03/09/21, 10:17 - Mihai Soceanu: pls move AGV01 a bit back

03/09/21, 10:22 - Capoturno Picking Progetto Lavoro: there are no plt to the sources

03/09/21, 10:22 - Giacomo Trivieri, Lavoro: Done It but does not function

03/09/21, 10:23 - Giacomo Trivieri, Lavoro: Pellet Is still blocked on 285

03/09/21, 10:30 - Mihai Soceanu: i see it works now

03/09/21, 10:30 - Mihai Soceanu: related to 285

03/09/21, 10:34 - Giacomo Trivieri, Lavoro: Yes It worked 🙌🙌

03/09/21, 10:37 - Giacomo Trivieri, Lavoro: @Support Technician 6 but i think that distance was not the guilty cause when i have moved back the AGV, pellet was still there blocked; have you maked other different operations to solve It?

03/09/21, 10:41 - Mihai Soceanu: i cancelled the T0000000000\_1 step

03/09/21, 10:41 - Mihai Soceanu: from that position

03/09/21, 11:24 - Giacomo Trivieri, Lavoro: @Support Technician 6 can you kindly check why only few pick station are working now? 📞

03/09/21, 11:24 - Mihai Soceanu: we check

03/09/21, 11:26 - Giacomo Trivieri, Lavoro: Thank you 🙏

03/09/21, 11:37 - Support Technician 16: @Company Employee 10 there seems to be that stations are given a small amount of orders because there are only a few valid pplu and the Pplu in og025 is quite low, is there any problem on the order side or is there a slower day today?

03/09/21, 11:39 - Stefano Dall'Asta, Lavoro: I launch more than 100 orders now

03/09/21, 11:40 - Support Technician 16: Yes, now orders are coming to stations

03/09/21, 11:40 - Support Technician 16: Very good, thank you

03/09/21, 11:41 - Support Technician 16: Po's for stations are at 39 in total, stations should get work very soon

03/09/21, 12:22 - Giacomo Trivieri, Lavoro: @Support Technician 16 thanks for your help 👍👍

03/09/21, 14:57 - Stefano Dall'Asta, Lavoro: Hi everyone, we a problem with Lu 60339320 and 60369794. they have to go to S48 but the T0s dont start. yesterday mihai and Milo talked about a bug, can you check?

03/09/21, 15:24 - Stefano Dall'Asta, Lavoro: Any news? We have the trucks waiting 😞

03/09/21, 15:46 - Stefano Dall'Asta, Lavoro: Hi everyone, another problem, we have T0s from stacker Crane Number 6 that go in error status, physically It seems ok and in wamas It seems to be ok too, can you have a look?

03/09/21, 16:08 - Stefano Dall'Asta, Lavoro: Anyone?

03/09/21, 16:13 - Support Technician 16: @Company Employee 15 please use the ticketing service

03/09/21, 16:14 - Stefano Dall'Asta, Lavoro: Already done

03/09/21, 16:20 - Mihai Soceanu: srry

03/09/21, 16:20 - Mihai Soceanu: i check now

03/09/21, 16:21 - Stefano Dall'Asta, Lavoro: Thank you mihai i think the problem Is on LU 60345792 too

03/09/21, 16:45 - Mihai Soceanu: all fixed

03/09/21, 16:45 - Stefano Dall'Asta, Lavoro: Great! Thank you Mihai!

03/09/21, 16:46 - Mihai Soceanu: no problem, i am working for a bug fix for this

03/09/21, 18:18 - Company Employee 18: Hi guys it is possible create a T0 for this udc 60603886 in another e crane because the crane 6 are blocked for this udc @Support Technician 6

03/09/21, 18:23 - Company Employee 18: IMG-20210903-WA0002.jpg (file allegato) 60603886 the udc is on the TPRF01C1451

03/09/21, 18:24 - Company Employee 18: We need to update with mfs because it blocked the exit of crane 6

03/09/21, 18:25 - Mihai Soceanu: ok  
03/09/21, 18:27 - Mihai Soceanu: 60603886 is in a storage location  
03/09/21, 18:29 - Company Employee 18: We know sorry but we have put this pallet here to check what is the issue for this to error T0 can you update?  
03/09/21, 18:29 - Mihai Soceanu: yes  
03/09/21, 18:32 - Mihai Soceanu: 65705338  
03/09/21, 18:32 - Mihai Soceanu: is on the crane  
03/09/21, 18:32 - Mihai Soceanu: can you resume the TPO if pshisically there  
03/09/21, 18:32 - Mihai Soceanu: ?  
03/09/21, 18:33 - Company Employee 18: Yes we go to check  
03/09/21, 18:33 - Mihai Soceanu: thx  
03/09/21, 18:33 - Company Employee 18: Thanks mihai sorry for this problem  
03/09/21, 18:33 - Mihai Soceanu: 65705338 is out  
03/09/21, 18:38 - Andrea Brunetti: Thanks  
05/09/21, 07:08 - Support Technician 25: Good Morning 😊  
If possible can you withhold some orders from Monday to Tuesday/Wednesday?  
We should have as much movements as possible while being onsite.  
Thank you very much, enjoy you weekend 🌈🏔️  
06/09/21, 06:30 - Daniele MMOperations: Good morning everyone! We have an issue in picking station 12, the dialog tell us to start the work and confirm the PLT in d01, but is empty  
06/09/21, 08:29 - Milo Barozzi: Sure, we'll do our best hoping the commercial dept. will help inserting a lot of orders today..... 🙏  
06/09/21, 08:42 - Support Technician 16: Hi @Company Employee 24 does this problem still occure at station 12?  
06/09/21, 08:48 - Daniele MMOperations: Not anymore!  
06/09/21, 08:49 - Support Technician 16: @Company Employee 24 can you please tell me what happened to be fixed or what did the user do?  
06/09/21, 08:51 - Daniele MMOperations: For Wamas there was an empty PLT in that spot, but it was empty. We deleted the PLT and another one came, now it works  
06/09/21, 08:51 - Support Technician 16: in understand, thank you  
06/09/21, 09:21 - Milo Barozzi: sent TEMP8649 from Cu125 to B-stacker because I recognized the same issue from last Thursday (empty B with no slave pallet to be infeeded and all other pallets need to enter through CU125 blocked due to this)  
06/09/21, 09:21 - Milo Barozzi: Hope I didn't mess up something, but pretty sure it was the same case  
06/09/21, 09:21 - Milo Barozzi: 😊  
06/09/21, 11:37 - Mihai Soceanu: hi  
06/09/21, 11:37 - Mihai Soceanu: IMG-20210906-WA0003.jpg (file allegato)  
06/09/21, 11:37 - Mihai Soceanu: is empty  
06/09/21, 11:37 - Mihai Soceanu: ?  
06/09/21, 11:37 - Daniele MMOperations: Going to check  
06/09/21, 11:38 - Daniele MMOperations: Yes, empty  
06/09/21, 11:40 - Mihai Soceanu: ok thx  
06/09/21, 15:34 - Support Technician 25: Can somebody check Pickstation 3 pls?  
06/09/21, 15:43 - Support Technician 16: yes, of course, there are 2 pallets at destination and one with TPO  
06/09/21, 15:43 - Support Technician 16: can it not exit?  
06/09/21, 15:46 - Support Technician 16: IMG-20210906-WA0004.jpg (file allegato)  
this is the core reason, a person fiished the TPO  
06/09/21, 15:46 - Support Technician 16: IMG-20210906-WA0005.jpg (file allegato)  
and this one is waiting for him  
06/09/21, 15:49 - Support Technician 16: There is already a OIL opened on this:  
<https://jira.ssi-schaefer.com/browse/IT1400016-3839>  
06/09/21, 15:50 - Milo Barozzi: yes, recognized by me last week and checked with Mihai  
06/09/21, 15:51 - Milo Barozzi: it's S15 by memory...  
06/09/21, 15:51 - Support Technician 16: yes, that's correct, we are working on a fix  
06/09/21, 15:52 - Milo Barozzi: 👍😊  
06/09/21, 15:54 - Support Technician 25: ok, thx  
07/09/21, 10:37 - Support Technician 25: @Company Employee 12 @Company Employee 18 pls check AGV #6, it is frequently loosing navigation. Please check navigation scanner

07/09/21, 11:24 - Support Technician 25: Can you pls tell us when you release shipping orders for Rear Loading pls?

07/09/21, 11:25 - Support Technician 25: @Company Employee 16 @Company Employee 15

07/09/21, 11:47 - Razvan Voicu: monorail blocke

07/09/21, 11:48 - Razvan Voicu: IMG-20210907-WA0000.jpg (file allegato)

07/09/21, 11:48 - Razvan Voicu: ah, andrea on it. nevermid :)

07/09/21, 11:48 - Company Employee 18: Andrea is here

07/09/21, 11:48 - Company Employee 18: 😊👍

07/09/21, 12:00 - Milo Barozzi: Andrea and Giacomo are like octopus... they have hands everywhere 🦑

07/09/21, 12:05 - Razvan Voicu: IMG-20210907-WA0003.jpg (file allegato)  
monorail blocked again i guess

07/09/21, 12:22 - Stefano Dall'Asta, Lavoro: Hi, for rear loading we have a few containers today

07/09/21, 12:29 - Support Technician 25: Ok, when would you launch it?

07/09/21, 12:29 - Support Technician 25: We're out to lunch, returning at 13:15 approx?

07/09/21, 12:31 - Stefano Dall'Asta, Lavoro: Next 2 at 14... I Hope they Will arrive

07/09/21, 12:45 - Support Technician 25: Ok, excellent pls tell us a little bit in advance

07/09/21, 13:27 - Support Technician 25: IMG-20210907-WA0004.jpg (file allegato)  
1st one here 😊

07/09/21, 13:28 - Stefano Dall'Asta, Lavoro: Yes i was writing 🧐

07/09/21, 13:47 - Support Technician 25: @Company Employee 17 AGV 6 has some navigation issues. I suppose Andrea and Giacomo did not check it in the morning shift. If you have time pls check it. System says AGV#6 has frequently navigation disconnections

07/09/21, 13:53 - Stefano Dall'Asta, Lavoro: Next container Is going to enter in about 10 minutes

07/09/21, 13:59 - Support Technician 25: ok, thx

07/09/21, 13:59 - Support Technician 25: @Company Employee 17 can you come to CU301 (NOK after foiling) to regulate one sensor?!

07/09/21, 14:00 - Nicola Bernardi: I'm going on traslo 8

07/09/21, 14:01 - Support Technician 25: OK

07/09/21, 14:28 - Support Technician 25: IMG-20210907-WA0005.jpg (file allegato)  
Not good

07/09/21, 14:28 - Support Technician 25: IMG-20210907-WA0006.jpg (file allegato)

07/09/21, 15:37 - Support Technician 25: @Company Employee 17 help with AGV 26

07/09/21, 15:37 - Support Technician 25: at S48-01

07/09/21, 16:05 - Support Technician 25: We would like to do an update on the AGV routes. Can we shut AGV system down? @Company Employee 16 @Company Employee 15

07/09/21, 16:05 - Milo Barozzi: for how much time?

07/09/21, 16:05 - Stefano Dall'Asta, Lavoro: How long Is going to take?

07/09/21, 16:06 - Support Technician 25: stop order allocation, stop AGV make update... 15-20 minutes just on AGV part

07/09/21, 16:06 - Milo Barozzi: @Company Employee 15 give you the last word, for me it doesn't matter

07/09/21, 16:09 - Stefano Dall'Asta, Lavoro: If we have to do it please do it now because i have 2 Trucks coming in in 10 minutes with a lot of Lu 🧐

07/09/21, 16:09 - Support Technician 25: OK, we shut AGV down now

07/09/21, 16:09 - Milo Barozzi: pls make in manner all AGV are parked before updating otherwise will be a mess on MFS side...

07/09/21, 16:11 - Support Technician 25: yes, we send all of them to a home location

07/09/21, 16:11 - Milo Barozzi: 👍👍👍

07/09/21, 16:11 - Support Technician 25: It will get silent in the building

07/09/21, 16:11 - Milo Barozzi: 🧐

07/09/21, 16:11 - Milo Barozzi: usually silent meant total block.... 🧐

07/09/21, 16:22 - Support Technician 25: AGV Update is done, now restarting

07/09/21, 16:27 - Milo Barozzi: restart complete

07/09/21, 16:41 - Razvan Voicu: I think monorail dead

07/09/21, 16:42 - Razvan Voicu: IMG-20210907-WA0009.jpg (file allegato)  
07/09/21, 16:42 - Nicola Bernardi: I know, but the pallet is on CU  
07/09/21, 16:43 - Nicola Bernardi: The sensor of trolley are free 🤖  
07/09/21, 16:51 - Mihai Soceanu: IMG-20210907-WA0010.jpg (file allegato)  
07/09/21, 16:51 - Mihai Soceanu: this is interesting case  
07/09/21, 16:51 - Mihai Soceanu: will they get out by themselvs  
07/09/21, 16:51 - Mihai Soceanu: ?  
07/09/21, 16:51 - Mihai Soceanu: or will wait for AGV in error  
07/09/21, 16:51 - Mihai Soceanu: ?  
07/09/21, 16:53 - Mihai Soceanu: i think all are blocked  
07/09/21, 16:53 - Mihai Soceanu: IMG-20210907-WA0011.jpg (file allegato)  
07/09/21, 18:44 - Support Technician 25: how did it resolve?  
08/09/21, 07:11 - Company Employee 18: Goodmorning guys can you check this udc?  
60601313 i have the error "wait for storage failed"

Now block the infeed of srm 3

08/09/21, 07:11 - Mihai Soceanu: I CHECK  
08/09/21, 07:11 - Mihai Soceanu: srry  
08/09/21, 07:12 - Mihai Soceanu: i check  
08/09/21, 07:12 - Company Employee 18: Thx  
08/09/21, 07:25 - Mihai Soceanu: all big heights in aisle 3 are occupied,  
another pallet came in the back side and because at one point 60601313 was in  
error it took the last big location, i will solve this issue manually by forcing  
60601313 to another available aisle  
08/09/21, 07:50 - Support Technician 25: Good morning @Company Employee 15  
@Company Employee 16 😊 How is the order pool today? Are there some Rear & Side  
Loading orders? Can you launch 2-3 Side Loading order to several racks in the  
same time?  
08/09/21, 07:50 - Company Employee 18: Ok thx Mihai  
08/09/21, 08:10 - Support Technician 25: IMG-20210908-WA0000.jpg (file allegato)  
Don't fill them up too much  
08/09/21, 08:14 - Stefano Dall'Asta, Lavoro: Hi mathis some LUs are now going to  
S48 01, for S48 00 the next truck Is at 9 am but It can arrive earlier. A  
container Is going to enter in a few minutes  
08/09/21, 10:03 - Support Technician 25: IMG-20210908-WA0002.jpg (file allegato)  
TU is standing there for 1,5 hrs already can somebody check it?  
08/09/21, 10:03 - Support Technician 25: IMG-20210908-WA0003.jpg (file allegato)  
08/09/21, 10:05 - Company Employee 18: I go  
08/09/21, 11:32 - Razvan Voicu: There is not enough stock for the released  
PPLUs, not all stations have POs assigned  
08/09/21, 11:34 - Stefano Dall'Asta, Lavoro: I launch more than 100 orders 2 Min  
ago  
08/09/21, 11:35 - Razvan Voicu: now we have orders :)  
08/09/21, 12:09 - Milo Barozzi: @Support Technician 21 @Support Technician 6  
there was "error" lamp activated in srm09  
08/09/21, 12:09 - Milo Barozzi: I confirmed error from cabinet panel but still  
not moving  
08/09/21, 12:09 - Milo Barozzi: IMG-20210908-WA0005.jpg (file allegato)  
08/09/21, 12:10 - Razvan Voicu: ok  
08/09/21, 12:10 - Razvan Voicu: let me check  
08/09/21, 12:10 - Razvan Voicu: ah  
08/09/21, 12:10 - Milo Barozzi: IMG-20210908-WA0004.jpg (file allegato)  
This one is flashing  
08/09/21, 12:10 - Razvan Voicu: it's in manual state  
08/09/21, 12:10 - Razvan Voicu: put it in automatic please :)  
08/09/21, 12:10 - Milo Barozzi: Don't know if matters  
08/09/21, 12:11 - Milo Barozzi: Should be now.....  
08/09/21, 12:11 - Milo Barozzi: It's moving  
08/09/21, 12:11 - Milo Barozzi: 🤖  
08/09/21, 12:12 - Razvan Voicu: Amazing  
08/09/21, 13:08 - Support Technician 25: @Company Employee 12 pls help 😊  
08/09/21, 15:50 - Milo Barozzi: IMG-20210908-WA0007.jpg (file allegato)  
Agv 22 shutted down by itself during charging and blocked 7 others....  
08/09/21, 15:57 - Milo Barozzi: IMG-20210908-WA0008.jpg (file allegato)

no good

08/09/21, 16:05 - Andrea Brunetti: Can you help me at the infeed line ?  
08/09/21, 17:06 - Razvan Voicu: IMG-20210908-WA0010.jpg (file allegato)  
08/09/21, 17:06 - Razvan Voicu: Foiling  
08/09/21, 17:14 - Razvan Voicu: It's gonna cause pick stations block soon  
08/09/21, 17:15 - Milo Barozzi: @Company Employee 12 riesci a farci un salto per favore?  
08/09/21, 17:16 - Andrea Brunetti: Si sono qui  
09/09/21, 09:59 - Razvan Voicu: Station 2 and 3 no orders 🤖  
09/09/21, 09:59 - Razvan Voicu: More orders released required I think  
09/09/21, 10:00 - Milo Barozzi: few order of extra size items...  
09/09/21, 10:03 - Razvan Voicu: Oh, ok  
09/09/21, 11:03 - Razvan Voicu: IMG-20210909-WA0000.jpg (file allegato)  
09/09/21, 11:03 - Razvan Voicu: pallets are misplaced  
09/09/21, 11:03 - Razvan Voicu: nee forklift I guess  
09/09/21, 11:03 - Razvan Voicu: or two strong men  
09/09/21, 11:06 - Milo Barozzi: or @Company Employee 12... which acts for two  
👉👉  
09/09/21, 17:28 - Milo Barozzi: Very curious thing.....  
09/09/21, 17:29 - Milo Barozzi: D destacker is empty and 151 stacks of empty Ds in HBW1 have all TPO to go there!!!! 😬😬😬😬😬  
09/09/21, 17:31 - Mihai Soceanu: i have seen  
09/09/21, 17:31 - Mihai Soceanu: SLF02C4091 was blocked  
09/09/21, 17:31 - Mihai Soceanu: and because MFS created one and it could not go out  
09/09/21, 17:31 - Mihai Soceanu: it tried with all of them  
09/09/21, 17:31 - Mihai Soceanu: i cancelled all TPOs to SLF02C4091  
09/09/21, 17:31 - Mihai Soceanu: and unblocked PSF02C4111  
09/09/21, 17:32 - Milo Barozzi: 😬  
09/09/21, 17:32 - Milo Barozzi: We must say WAMAS is never giving up 😊  
09/09/21, 17:32 - Mihai Soceanu: nevertheless  
09/09/21, 17:32 - Mihai Soceanu: just as example  
09/09/21, 17:32 - Mihai Soceanu: MFS would have done this  
09/09/21, 17:32 - Mihai Soceanu: IMG-20210909-WA0004.jpg (file allegato)  
09/09/21, 17:33 - Mihai Soceanu: will put in waiting  
09/09/21, 17:33 - Milo Barozzi: exactly, or "WAIT FOR ROUTING LOCKED"... something similar  
09/09/21, 17:33 - Milo Barozzi: I'll open a ticket, ok?  
09/09/21, 17:34 - Mihai Soceanu: yes  
09/09/21, 17:34 - Mihai Soceanu: pls open  
09/09/21, 17:34 - Milo Barozzi: I'll do it immediately  
09/09/21, 17:34 - Milo Barozzi: good to have recognized it! 😊  
09/09/21, 17:34 - Mihai Soceanu: i wanted to continue with nevertheless pls open a ticket  
09/09/21, 17:34 - Milo Barozzi: thanks for prompt support Mihai  
09/09/21, 17:34 - Milo Barozzi: 😭😭 we're on the same wavelenght  
09/09/21, 17:35 - Mihai Soceanu: on SLF02C4091we had a lock because AGV could not deliver  
09/09/21, 17:35 - Milo Barozzi: yep yep, I saw it  
09/09/21, 17:35 - Milo Barozzi: from today in the morning and we didn't recognized it before now 😬  
09/09/21, 17:35 - Mihai Soceanu: not sure if is a good ideeaa to put that lock on those locations  
09/09/21, 17:35 - Milo Barozzi: on one hand side is bad, on the other hand side is good since it gave have the chance to discover this issue  
09/09/21, 17:36 - Mihai Soceanu: agree  
09/09/21, 17:36 - Milo Barozzi: if AGV tries to put there a stack of pallet, because in WAMAS there's no stack, but physically there is.. maybe it's good AGV tries only once there  
09/09/21, 17:36 - Mihai Soceanu: Giovanni recognized  
09/09/21, 17:36 - Milo Barozzi: so good idea to put the block, d'you agree?  
09/09/21, 17:37 - Mihai Soceanu: yes it is  
09/09/21, 17:37 - Milo Barozzi: 😊  
09/09/21, 17:37 - Mihai Soceanu: MFS should not do weird stuff

09/09/21, 17:37 - Mihai Soceanu: but i will solve  
09/09/21, 17:37 - Milo Barozzi: one point for him 😊 1  
09/09/21, 17:38 - Milo Barozzi: sure of it  
09/09/21, 18:09 - Razvan Voicu: Also this lock could be caused by the morning problem of the middle stacker  
09/09/21, 18:09 - Razvan Voicu: the error was solved only on conveyor and not in wamas also  
09/09/21, 18:09 - Razvan Voicu: the timing seems about right  
10/09/21, 15:35 - Company Employee 8: @Company Employee 15 we have a problem with a lu with 'mappe' whose cubature was manipulated with your user. can we switch the cubature back to it's value? the luid is 59694300  
10/09/21, 15:36 - Company Employee 8: the srm cannot pick it up with the wrong cubature, and it is needed at picking station  
10/09/21, 15:37 - Stefano Dall'Asta, Lavoro: Done  
10/09/21, 15:42 - Company Employee 8: thx  
13/09/21, 06:28 - Nicola Bernardi: Good morning, can you check this? The pallet is on rack of SRM07, I try to fix it without success 🤖 ( after your check can you explain me how to fix that?)  
13/09/21, 06:28 - Nicola Bernardi: IMG-20210913-WA0000.jpg (file allegato)  
13/09/21, 06:29 - Nicola Bernardi: IMG-20210913-WA0005.jpg (file allegato)  
13/09/21, 07:43 - Mihai Soceanu: hi  
13/09/21, 07:43 - Mihai Soceanu: did you try cancel SOC order and imput the number of PLC ordere  
13/09/21, 07:43 - Mihai Soceanu: meaning 260  
13/09/21, 07:43 - Mihai Soceanu: in F01  
13/09/21, 07:43 - Mihai Soceanu: ?  
13/09/21, 07:44 - Mihai Soceanu: in MF266  
13/09/21, 07:45 - Nicola Bernardi: I don't found the soc 260  
13/09/21, 07:46 - Mihai Soceanu: IMG-20210913-WA0004.jpg (file allegato)  
13/09/21, 07:46 - Mihai Soceanu: IMG-20210913-WA0003.jpg (file allegato)  
13/09/21, 07:47 - Mihai Soceanu: grrr  
13/09/21, 07:47 - Nicola Bernardi: IMG-20210913-WA0002.jpg (file allegato)  
13/09/21, 07:47 - Mihai Soceanu: second picture is from FA02  
13/09/21, 07:48 - Mihai Soceanu: but you can still cancel soc request by right c'clock and insert the order id from PLC conveyor  
13/09/21, 07:48 - Mihai Soceanu: in F01  
13/09/21, 07:48 - Mihai Soceanu: like  
13/09/21, 07:48 - Mihai Soceanu: this  
13/09/21, 07:48 - Mihai Soceanu: IMG-20210913-WA0001.jpg (file allegato)  
13/09/21, 07:49 - Nicola Bernardi: 📄  
13/09/21, 07:49 - Mihai Soceanu: worked  
13/09/21, 07:49 - Mihai Soceanu: worked\* :)  
13/09/21, 07:50 - Nicola Bernardi: I hadn't thought about that 😊  
13/09/21, 07:51 - Mihai Soceanu: now you know it :) cancel soc order is not stricltly linked to the selected row  
13/09/21, 07:51 - Mihai Soceanu: but always be carefull to select the correct controller  
13/09/21, 07:52 - Nicola Bernardi: Yes👍 thanks for your patience 😊  
13/09/21, 09:55 - Milo Barozzi: @Support Technician 21 good morning! Was the trip to home fine? Hope yes. Shall u kindly make in manner OBDs OBD0000245487 OBD0000247343 became fully shipped, all pallets loaded and OBDs Finished 100%, please?  
13/09/21, 12:39 - Milo Barozzi: IMG-20210913-WA0009.jpg (file allegato)  
13/09/21, 12:39 - Milo Barozzi: Dear All, we have this "NO READ" at CU299 that won't to move  
13/09/21, 12:39 - Milo Barozzi: any idea why?  
13/09/21, 12:39 - Milo Barozzi: IMG-20210913-WA0010.jpg (file allegato)  
13/09/21, 12:40 - Milo Barozzi: LU is this one 📄  
13/09/21, 12:40 - Mihai Soceanu: i am checking right now  
13/09/21, 12:40 - Milo Barozzi: thanks Mihai. Awaiting for your pieces of news 😊  
13/09/21, 12:47 - Milo Barozzi: Saw it moved. What was the issue? Need to open a ticket?  
13/09/21, 12:47 - Mihai Soceanu: i will check the log files

13/09/21, 12:47 - Milo Barozzi: 👍  
13/09/21, 12:47 - Milo Barozzi: thx  
13/09/21, 13:05 - Support Technician 25: Just for curiosity, I assume at 13:00 is shift change?  
13/09/21, 13:05 - Support Technician 25: IMG-20210913-WA0011.jpg (file allegato) at 13:05 NOK is jamming Foiling Lines  
13/09/21, 13:17 - Support Technician 25: IMG-20210913-WA0012.jpg (file allegato) 13:16 flow is released 😊  
13/09/21, 14:19 - Milo Barozzi: Shift 1 ending at 13  
13/09/21, 14:19 - Milo Barozzi: Shift 2 starting at 13.10  
13/09/21, 20:12 - Company Employee 18: @Support Technician 6 can you help me at the destacker D  
13/09/21, 20:13 - Company Employee 18: I have an issue  
13/09/21, 20:21 - Mihai Soceanu: hi  
13/09/21, 20:22 - Mihai Soceanu: is there any pallet under the stack  
13/09/21, 20:22 - Mihai Soceanu: ?  
13/09/21, 20:22 - Company Employee 18: I take picture  
13/09/21, 20:23 - Company Employee 18: IMG-20210914-WA0000.jpg (file allegato)  
13/09/21, 20:23 - Company Employee 18: This is the situation but I see on wh004 there is 2 temp  
13/09/21, 20:23 - Company Employee 18: I think it is this the reason why the pallet don't start  
13/09/21, 20:27 - Mihai Soceanu: one is the stack  
13/09/21, 20:27 - Mihai Soceanu: one was actual destack  
13/09/21, 20:27 - Mihai Soceanu: and one booked to lost and found  
13/09/21, 20:27 - Mihai Soceanu: i cancelled the one on lost and found  
13/09/21, 20:27 - Mihai Soceanu: rebooked the destcked one  
13/09/21, 20:27 - Mihai Soceanu: and i think we are back on track  
13/09/21, 20:28 - Company Employee 18: Ok thx Mihai  
13/09/21, 20:28 - Mihai Soceanu: no problem you are welcomed  
13/09/21, 20:33 - Mihai Soceanu: IMG-20210914-WA0001.jpg (file allegato)  
13/09/21, 20:33 - Mihai Soceanu: smth is wrong with AGV02  
14/09/21, 12:03 - Milo Barozzi: IMG-20210914-WA0003.jpg (file allegato)  
@Support Technician 25 @Support Technician 4 @Support Technician 5 not good  
14/09/21, 12:03 - Milo Barozzi: IMG-20210914-WA0004.jpg (file allegato)  
14/09/21, 12:03 - Milo Barozzi: IMG-20210914-WA0005.jpg (file allegato)  
14/09/21, 12:19 - Support Technician 25: Did somebody check AGV#6 since last week?  
14/09/21, 13:15 - Daniele MMOperations: Hi everyone! No AGV is working, they 're all stucked in their locatin  
14/09/21, 13:16 - Daniele MMOperations: Number 8 and 6 started now  
14/09/21, 13:30 - Mihai Soceanu: i see crane 4 is not working  
14/09/21, 13:32 - Mihai Soceanu: and we have 21 orders from it  
14/09/21, 13:34 - Company Employee 18: I go to unlock  
14/09/21, 13:36 - Mihai Soceanu: thx  
14/09/21, 16:13 - Milo Barozzi: @Support Technician 6 seems stacker crane #1 is not moving because it sees delivery conveyors full... but they're not. Shall u kindly put an eye on it, pls?  
14/09/21, 16:13 - Milo Barozzi: IMG-20210914-WA0012.jpg (file allegato)  
14/09/21, 16:13 - Milo Barozzi: they're empty, both for WAMAS and LHouse..  
14/09/21, 16:18 - Milo Barozzi: Shall somebody else help us please? 📞  
14/09/21, 16:46 - Milo Barozzi: Now SRM01 restarted. Shall u kindly tell us what you did, please?  
14/09/21, 16:46 - Mihai Soceanu: hi srry  
14/09/21, 16:46 - Mihai Soceanu: i just saw what you wrote  
14/09/21, 16:47 - Mihai Soceanu: i reset manual handling for SRM i need to check if is possible in WAMAS  
14/09/21, 16:48 - Milo Barozzi: because logically everything was fine, physically also, we tried moving the stacker crane in semi-auto to a location and it worked, no blocked locations  
14/09/21, 16:48 - Mihai Soceanu: IMG-20210914-WA0013.jpg (file allegato)  
14/09/21, 16:48 - Milo Barozzi: I checked also its son, wife, daughter until the very first generation but nothing...  
14/09/21, 16:48 - Milo Barozzi: we cannot access MF210 😞🤖

14/09/21, 16:49 - Mihai Soceanu: after SRM is put in manual pls check dialog above  
14/09/21, 16:49 - Mihai Soceanu: then create a ticket pls  
14/09/21, 16:49 - Milo Barozzi: for having access to it?  
14/09/21, 16:50 - Milo Barozzi: we have to check runtime status? if it's running it's ok, otherwise we need to reset manual handling?  
14/09/21, 16:52 - Mihai Soceanu: yes pls  
14/09/21, 16:53 - Milo Barozzi: consider it done. Is it possible to perform the same operation from control cabinet in front of the aisle?  
14/09/21, 16:53 - Milo Barozzi: we also tried to reset it by switching it from manual to automated again, but nothign  
14/09/21, 16:53 - Milo Barozzi: \*nothing  
14/09/21, 16:53 - Mihai Soceanu: i do not know :-??  
14/09/21, 16:53 - Milo Barozzi: 😞 @Support Technician 25 do you know if it's possible?  
14/09/21, 16:55 - Support Technician 25: No, I don't know :(  
14/09/21, 16:56 - Milo Barozzi: thank you anyway  
14/09/21, 16:56 - Milo Barozzi: everyday we discover something new.. in 7 months, this was never happened even we switched in manual SRMs dozens of times  
15/09/21, 07:44 - Nicola Bernardi: @Support Technician 6 good morning, can you check this issue? Now the pallet on forks blocked the infeed conveyor of SRM08 when on conveyors are full  
15/09/21, 07:45 - Nicola Bernardi: <Media omessi>  
15/09/21, 07:45 - Nicola Bernardi: <Media omessi>  
15/09/21, 07:46 - Nicola Bernardi: This issue has been around for a long time  
15/09/21, 08:15 - Mihai Soceanu: hi  
15/09/21, 08:15 - Mihai Soceanu: did you try resume for 60391043?  
15/09/21, 08:16 - Nicola Bernardi: No, I didn't do anything  
15/09/21, 08:16 - Mihai Soceanu: i will resome the TPO  
15/09/21, 08:16 - Nicola Bernardi: When I reset the TO the pallet start  
15/09/21, 08:17 - Mihai Soceanu: yes, it started  
15/09/21, 08:17 - Nicola Bernardi: But this issue block the SRM without signal on lighthouse  
15/09/21, 08:19 - Nicola Bernardi: The signal is when the picking station are blocked (too late)  
15/09/21, 08:20 - Nicola Bernardi: Can you check this issue and try to solve definitely? 🙏🙏🙏  
15/09/21, 08:20 - Mihai Soceanu: yep, you are right, i will take this internally with my colleagues and see how we can pop up errors in time  
15/09/21, 08:21 - Mihai Soceanu: i am checking this particular case  
15/09/21, 08:21 - Nicola Bernardi: 📄  
15/09/21, 08:22 - Milo Barozzi: 'morning Mihai, do I need to open a ticket for this? Thanks  
15/09/21, 08:23 - Mihai Soceanu: hi, not necessarily now, we need to see what we can do and come up with a suggestion, i have an idea but first i would like to take it internally  
15/09/21, 08:25 - Milo Barozzi: 👍  
15/09/21, 08:25 - Milo Barozzi: ok, thank you  
15/09/21, 16:52 - Milo Barozzi: Hi everybody. Did someone from SSI Team cancelled all blocks from WH093?  
15/09/21, 16:57 - Support Technician 16: Hi Milo, no one from our side should have touched them. Is there any protocol in WH093 that can point to a specific person?  
15/09/21, 17:00 - Milo Barozzi: I already check  
15/09/21, 17:00 - Milo Barozzi: and found the "guilty"  
15/09/21, 17:00 - Milo Barozzi: thank you anyway  
15/09/21, 17:03 - Razvan Voicu: bring the forks and the torches 😈  
15/09/21, 17:05 - Milo Barozzi: <Media omessi>  
15/09/21, 19:13 - Milo Barozzi: Dear All  
59774900 is planned to go to AF destackers but TPO always going into error  
I cleared TPO for it and created a new one for another AF stack, but 59774900 is still "booking" capacity on DESTACKER\_STANDALONE\_AF  
15/09/21, 19:13 - Milo Barozzi: shall u kindly fix it? Why is still occupying capacity? it should not....

15/09/21, 19:13 - Milo Barozzi: thanks for helpign  
15/09/21, 19:17 - Milo Barozzi: managed by myself! Sorry  
15/09/21, 19:18 - Milo Barozzi: @Support Technician 14, @Company Employee 18 will be your support onsite for deploy  
15/09/21, 19:19 - Milo Barozzi: @Support Technician 14 please stick to 20:30 starting time of deploy since @Company Employee 18 is ending shift at 21:00 and I'd not like him to be forced to stay much longer. Thanks for understanding  
15/09/21, 20:35 - Milo Barozzi: @Support Technician 14 is deploy started?  
15/09/21, 20:36 - Support Technician 14: yes  
15/09/21, 20:36 - Milo Barozzi:   
15/09/21, 20:54 - Support Technician 14: manual area can resume activity  
15/09/21, 20:54 - Support Technician 14: automation will shortly start  
15/09/21, 21:09 - Milo Barozzi: Fully back on track? 😊  
15/09/21, 21:15 - Support Technician 14:   
15/09/21, 21:15 - Support Technician 14: Agvs may be put in auto mode  
15/09/21, 21:15 - Support Technician 14: Have a nice evening!  
15/09/21, 21:15 - Company Employee 18: Ok I start with agv  
15/09/21, 21:17 - Company Employee 18: Agv are in automatic   
15/09/21, 21:18 - Mihai Soceanu: nice thx  
15/09/21, 21:18 - Company Employee 18: I wait you for the F01 AND 2 EISEMANN OK?  
15/09/21, 21:19 - Milo Barozzi: Conveyors and monorail can go auto mode now?  
15/09/21, 21:21 - Mihai Soceanu: yes  
15/09/21, 21:22 - Company Employee 18: Ok perfect i start everithing  
15/09/21, 21:23 - Mihai Soceanu: thank you  
15/09/21, 21:31 - Mihai Soceanu: what pallets do we have  
15/09/21, 21:31 - Mihai Soceanu: on the infeed of foiling lines  
15/09/21, 21:31 - Mihai Soceanu: ?  
15/09/21, 21:32 - Company Employee 18: I go to see  
15/09/21, 21:32 - Company Employee 18: I give the barcode  
15/09/21, 21:34 - Company Employee 18: The first don't have Barcode 😞  
15/09/21, 21:34 - Company Employee 18: IMG-20210916-WA0000.jpg (file allegato)  
15/09/21, 21:34 - Company Employee 18: IMG-20210916-WA0047.jpg (file allegato)

15/09/21, 21:35 - Company Employee 18: On the foiling 1 I have this barcode  
15/09/21, 21:35 - Company Employee 18: IMG-20210916-WA0045.jpg (file allegato)  
15/09/21, 21:36 - Mihai Soceanu: ok  
15/09/21, 21:38 - Mihai Soceanu: does AGV4 has smth on it?  
15/09/21, 21:39 - Company Employee 18: Perfect  
15/09/21, 21:39 - Company Employee 18: The other i have removed  
15/09/21, 21:39 - Mihai Soceanu: the thing is that i had to restart Hive  
15/09/21, 21:39 - Company Employee 18: Can you clean?  
15/09/21, 21:39 - Mihai Soceanu: and some orders remained on the AGVs :(  
15/09/21, 21:39 - Mihai Soceanu: s\*\*\*  
15/09/21, 21:40 - Company Employee 18: IMG-20210916-WA0044.jpg (file allegato)  
15/09/21, 21:40 - Company Employee 18: Clean this conveyor from the temp in this WY the avg 3 go out  
15/09/21, 21:41 - Mihai Soceanu: ok  
15/09/21, 21:41 - Company Employee 18: Thx  
15/09/21, 21:41 - Mihai Soceanu: i will crete a temp and send to nok  
15/09/21, 21:42 - Company Employee 18: Ok ok perfect  
15/09/21, 21:44 - Company Employee 18: Is gone  
15/09/21, 21:44 - Company Employee 18: Now I have another temp on the 811  
15/09/21, 21:44 - Company Employee 18: IMG-20210916-WA0043.jpg (file allegato)  
15/09/21, 21:44 - Company Employee 18: This is the code can you update?  
15/09/21, 21:45 - Mihai Soceanu: line 1 ?  
15/09/21, 21:45 - Company Employee 18: Yes   
15/09/21, 21:47 - Mihai Soceanu: line 2  
15/09/21, 21:47 - Mihai Soceanu: ?  
15/09/21, 21:47 - Company Employee 18: IMG-20210916-WA0042.jpg (file allegato)  
15/09/21, 21:50 - Company Employee 18: I think now is back on track 😊  
15/09/21, 21:50 - Mihai Soceanu: AGVs 6, 10 and 9 will have problems  
15/09/21, 21:50 - Mihai Soceanu: ...  
15/09/21, 21:50 - Company Employee 18: He update I go to check

15/09/21, 21:51 - Company Employee 18: No but I see what happen  
 15/09/21, 21:52 - Company Employee 18: Foil 2 is  
 15/09/21, 21:52 - Company Employee 18: IMG-20210916-WA0041.jpg (file allegato)  
 15/09/21, 21:52 - Company Employee 18: Foil 1 is  
 15/09/21, 21:52 - Company Employee 18: IMG-20210916-WA0040.jpg (file allegato)  
 15/09/21, 21:56 - Mihai Soceanu: and AGV 9  
 15/09/21, 21:56 - Company Employee 18: IMG-20210916-WA0001.jpg (file allegato)  
 15/09/21, 21:56 - Company Employee 18: Now it put on the foil 1  
 15/09/21, 21:58 - Mihai Soceanu: Thank you very very much for the help  
 15/09/21, 21:58 - Mihai Soceanu: and srry for the trouble  
 15/09/21, 21:59 - Company Employee 18: No problem thx for your support  
 15/09/21, 22:00 - Mihai Soceanu: now it seems to be back on track  
 15/09/21, 22:05 - Company Employee 18: Yes 👍 thx  
 15/09/21, 22:05 - Mihai Soceanu: than you :)  
 15/09/21, 22:10 - Mihai Soceanu: seems that 59943693 is the pallet which we send to NOK as Temp  
 15/09/21, 22:10 - Mihai Soceanu: can you pls check station 12  
 15/09/21, 22:10 - Mihai Soceanu: position 2  
 16/09/21, 06:46 - Mihai Soceanu: hi  
 16/09/21, 06:47 - Mihai Soceanu: pls let me know the status of station 12  
 16/09/21, 06:47 - Nicola Bernardi: Good morning 🙌  
 16/09/21, 06:47 - Mihai Soceanu: i think pallet 59943693 is not there  
 16/09/21, 06:47 - Mihai Soceanu: problem from yesterday  
 16/09/21, 06:48 - Mihai Soceanu: also i see  
 16/09/21, 06:48 - Mihai Soceanu: IMG-20210916-WA0039.jpg (file allegato)  
 16/09/21, 06:48 - Mihai Soceanu: they are just waiting  
 16/09/21, 06:49 - Nicola Bernardi: When i have 2 min i do this info  
 16/09/21, 06:49 - Mihai Soceanu: thx  
 16/09/21, 06:49 - Nicola Bernardi: I know, i put in manual a CU  
 16/09/21, 06:49 - Nicola Bernardi: IMG-20210916-WA0038.jpg (file allegato)  
 16/09/21, 06:49 - Nicola Bernardi: 😊😊  
 16/09/21, 06:49 - Milo Barozzi: @Support Technician 6 Nicola reporter me that some pallets (2/3) today had some issues on cu 384. Physically they're on cu384 but for wamas and lighthouse they're still on cu383 and tpo goes into error In Nicola's opinion it happens when s48 is full..  
 16/09/21, 06:50 - Milo Barozzi: @Support Technician 6 that's the case...  
 16/09/21, 06:57 - Mihai Soceanu: i need some barcodes pls  
 16/09/21, 06:58 - Nicola Bernardi: Please give me some minute 😊  
 16/09/21, 06:59 - Nicola Bernardi: IMG-20210916-WA0037.jpg (file allegato)

 16/09/21, 07:01 - Milo Barozzi: @Support Technician 25 🙌😞😞  
 16/09/21, 07:02 - Mihai Soceanu: EMS transfer  
 16/09/21, 07:02 - Mihai Soceanu: :((((  
 16/09/21, 07:02 - Mihai Soceanu: ?  
 16/09/21, 07:02 - Nicola Bernardi: No the gate on exit SRM08  
 16/09/21, 07:03 - Mihai Soceanu: ...  
 16/09/21, 07:03 - Nicola Bernardi: IMG-20210916-WA0002.jpg (file allegato)

 16/09/21, 07:09 - Mihai Soceanu: thx i check  
 16/09/21, 07:09 - Nicola Bernardi: 🙌  
 16/09/21, 07:11 - Mihai Soceanu: IMG-20210916-WA0034.jpg (file allegato)  
 16/09/21, 07:12 - Mihai Soceanu: i see nothing wrong :( may you pls check why is not picking up  
 16/09/21, 07:12 - Nicola Bernardi: Yes I know 😊  
 16/09/21, 07:12 - Nicola Bernardi: The 24 is in I/O blocking  
 16/09/21, 07:13 - Nicola Bernardi: IMG-20210916-WA0033.jpg (file allegato)

 16/09/21, 07:14 - Mihai Soceanu: :(  
 16/09/21, 07:14 - Mihai Soceanu: s\*\*\*  
 16/09/21, 07:14 - Nicola Bernardi: I'm not solo in this morning 🙌  
 16/09/21, 07:15 - Mihai Soceanu: Han Solo (Starwars)  
 16/09/21, 07:15 - Mihai Soceanu: :)

16/09/21, 07:15 - Nicola Bernardi: @Support Technician 6 can I try to unlock this situation?  
16/09/21, 07:15 - Mihai Soceanu: yes pls  
16/09/21, 07:15 - Mihai Soceanu: in MFS i can not do anything  
16/09/21, 07:16 - Mihai Soceanu: IMG-20210916-WA0030.jpg (file allegato)  
16/09/21, 07:16 - Mihai Soceanu: this one after those because is blocking the other retrieval line near to it  
16/09/21, 07:41 - Mihai Soceanu: did you have time to check station 12 pls  
16/09/21, 07:41 - Mihai Soceanu: ?  
16/09/21, 07:43 - Nicola Bernardi: I'm going to see  
16/09/21, 07:43 - Mihai Soceanu: thx  
16/09/21, 07:44 - Nicola Bernardi: Can you check the CU199?  
16/09/21, 07:48 - Nicola Bernardi: Picking station 12

12.2  
16/09/21, 07:49 - Nicola Bernardi: 😞  
16/09/21, 07:50 - Mihai Soceanu: the ones on the other side  
16/09/21, 07:50 - Nicola Bernardi: D01/D02?  
16/09/21, 07:50 - Mihai Soceanu: yes pls  
16/09/21, 07:50 - Mihai Soceanu: sriry for missundersnading  
16/09/21, 07:50 - Mihai Soceanu: :(  
16/09/21, 07:50 - Nicola Bernardi: IMG-20210916-WA0027.jpg (file allegato)

16/09/21, 07:50 - Mihai Soceanu: cool  
16/09/21, 07:50 - Mihai Soceanu: thx  
16/09/21, 07:50 - Nicola Bernardi: 🙌no problem  
16/09/21, 07:51 - Mihai Soceanu: 59943693  
16/09/21, 07:51 - Mihai Soceanu: is from yesterday  
16/09/21, 07:51 - Mihai Soceanu: and i send it to NOKF02C2881 as temp  
16/09/21, 07:51 - Mihai Soceanu: i will book it to NOKF02C2881  
16/09/21, 07:51 - Nicola Bernardi: Do you need other from the pick12?  
16/09/21, 07:52 - Mihai Soceanu: all good thx  
16/09/21, 07:57 - Mihai Soceanu: IMG-20210916-WA0025.jpg (file allegato)  
16/09/21, 07:57 - Mihai Soceanu: are you checking this one ?  
16/09/21, 08:00 - Nicola Bernardi: I'm going  
16/09/21, 08:03 - Nicola Bernardi: IMG-20210916-WA0024.jpg (file allegato)  
16/09/21, 08:14 - Mihai Soceanu: thank you  
16/09/21, 09:06 - Mihai Soceanu: IMG-20210916-WA0004.jpg (file allegato)  
16/09/21, 09:06 - Mihai Soceanu: is standing there for some minutes  
16/09/21, 09:06 - Mihai Soceanu: may you pls check  
16/09/21, 09:06 - Mihai Soceanu: ?  
16/09/21, 09:14 - Mihai Soceanu: IMG-20210916-WA0007.jpg (file allegato)  
16/09/21, 09:14 - Mihai Soceanu: pls check also this situation  
16/09/21, 09:24 - Mihai Soceanu: did someone do anything with AGV 11 and 21  
16/09/21, 09:45 - Mihai Soceanu: please check  
16/09/21, 09:46 - Milo Barozzi: @Support Technician 16 @Support Technician 6 we have printers maintenance onsite. Is it possible to temporarily block one exit for rear loadings in manner this is not influencing WAMAS logics and blocking no pick station, loads, etc?  
16/09/21, 09:46 - Mihai Soceanu: IMG-20210916-WA0008.jpg (file allegato)  
16/09/21, 09:47 - Nicola Bernardi: IMG-20210916-WA0009.jpg (file allegato)  
I/O BLOCKING  
16/09/21, 09:50 - Mihai Soceanu: i think we will block station 1 and 2 retrieval from HBW  
16/09/21, 09:50 - Mihai Soceanu: because that route is specialized for station 1 and 2  
16/09/21, 09:50 - Mihai Soceanu: i can try to do smth  
16/09/21, 09:50 - Mihai Soceanu: and see if we have side efects  
16/09/21, 09:55 - Mihai Soceanu: i blocked TPF01C0641 from WH004

16/09/21, 09:55 - Mihai Soceanu: and reduced capacity of right line to 0  
16/09/21, 09:56 - Mihai Soceanu: IMG-20210916-WA0021.jpg (file allegato)  
16/09/21, 09:56 - Mihai Soceanu: realted to AF destacker  
16/09/21, 09:57 - Nicola Bernardi: 🙄  
16/09/21, 09:58 - Milo Barozzi: but in this way pick station 2 (1 is not active) will not receive pallets?  
16/09/21, 09:59 - Mihai Soceanu: will receive via wunderwuzzi  
16/09/21, 09:59 - Mihai Soceanu: i keep an eye on it  
16/09/21, 09:59 - Milo Barozzi: ok  
16/09/21, 09:59 - Mihai Soceanu: AF destacker does it have a pallet phsically ?  
16/09/21, 09:59 - Milo Barozzi: yes please 🙏  
16/09/21, 10:03 - Nicola Bernardi: IMG-20210916-WA0010.jpg (file allegato)  
16/09/21, 10:04 - Mihai Soceanu: ok  
16/09/21, 10:04 - Mihai Soceanu: and AGV can not pick it up  
16/09/21, 10:04 - Mihai Soceanu: ?  
16/09/21, 10:04 - Nicola Bernardi: Can I go on printer?  
16/09/21, 10:05 - Mihai Soceanu: whgat happens after you reset the conveyor  
16/09/21, 10:05 - Mihai Soceanu: ?  
16/09/21, 10:05 - Mihai Soceanu: you can go if is necessary  
16/09/21, 10:05 - Mihai Soceanu: but stations will wait for AF :(  
16/09/21, 10:06 - Nicola Bernardi: Andrea is On this issue  
16/09/21, 10:06 - Mihai Soceanu: ok thx  
16/09/21, 10:07 - Nicola Bernardi: For the printer i have a technical maintenance  
16/09/21, 10:08 - Milo Barozzi: può già lavorare sulla linea che dicevamo Nick  
16/09/21, 10:08 - Nicola Bernardi: Grazie @Support Technician 6 @Company Employee 16  
16/09/21, 10:09 - Milo Barozzi: prego!  
16/09/21, 10:10 - Milo Barozzi: IMG-20210916-WA0011.jpg (file allegato)  
@Support Technician 6 shall you check this please? TEMP4380 doesn't have TPO to go to F destacker  
16/09/21, 10:10 - Milo Barozzi: maybe there's an empty F that should come there... I don't know...  
16/09/21, 10:11 - Milo Barozzi: better one more check 🤔  
16/09/21, 10:11 - Milo Barozzi: probably TEMP5199 from pick station #12 should go there  
16/09/21, 10:11 - Milo Barozzi: ?  
16/09/21, 10:13 - Mihai Soceanu: we have 3 unreleased  
16/09/21, 10:13 - Mihai Soceanu: this is why i asked after picking please release pallet  
16/09/21, 10:14 - Mihai Soceanu: please aldways release pallet from station after picking  
16/09/21, 10:14 - Mihai Soceanu: else we either reach this problem  
16/09/21, 10:14 - Mihai Soceanu: or we create waves from SRM to bring to pick station  
16/09/21, 10:14 - Mihai Soceanu: to sources  
16/09/21, 10:15 - Mihai Soceanu: will help the system a bit  
16/09/21, 10:15 - Milo Barozzi: I already told shift leader  
16/09/21, 10:15 - Mihai Soceanu: thank you :)  
16/09/21, 10:17 - Milo Barozzi: you're welcome  
16/09/21, 10:26 - Milo Barozzi: @Support Technician 6 I'm seldomly checking pick station #2 and it seems working...  
16/09/21, 10:26 - Milo Barozzi: 🙏  
16/09/21, 10:40 - Mihai Soceanu: cool thx  
16/09/21, 11:19 - Milo Barozzi: IMG-20210916-WA0016.jpg (file allegato)  
16/09/21, 11:19 - Milo Barozzi: picking something is not there..... interesting...  
16/09/21, 11:19 - Milo Barozzi: 😞  
16/09/21, 11:20 - Mihai Soceanu: we need the AGV number  
16/09/21, 11:20 - Mihai Soceanu: to check  
16/09/21, 11:20 - Nicola Bernardi: 22  
16/09/21, 11:20 - Mihai Soceanu: ok thx  
16/09/21, 11:20 - Milo Barozzi: LU 60345530  
16/09/21, 11:22 - Milo Barozzi: if it can help ART-25 deposited it there

yesterday evening at 20:44

16/09/21, 11:23 - Mihai Soceanu: i see it deposited on 2021-09-09 20:44:18.318  
16/09/21, 11:23 - Mihai Soceanu: on 09  
16/09/21, 11:24 - Mihai Soceanu: and it tried first to go to S46A11X018Y07Z1  
16/09/21, 11:24 - Mihai Soceanu: and now is on S46A11X014Y07Z1  
16/09/21, 11:25 - Mihai Soceanu: because AGV said rack not available  
16/09/21, 11:25 - Nicola Bernardi: I need to clear the agv T0, but on wamas the pallet have the T0 active, can I delete the T0 on wamas for cleaning the AGV T0?  
16/09/21, 11:26 - Mihai Soceanu: yes pls try  
16/09/21, 11:27 - Mihai Soceanu: this might be related to a bug which i fixed in this deploy  
16/09/21, 11:28 - Milo Barozzi: ok, so do you think physically this pallet should be in S46A11X018Y07Z1?  
16/09/21, 11:28 - Mihai Soceanu: S46A11X024Y07Z1  
16/09/21, 11:28 - Mihai Soceanu: check this one first pls  
16/09/21, 11:30 - Milo Barozzi: yes, it's there  
16/09/21, 11:30 - Milo Barozzi: and for WAMAS it's empty  
16/09/21, 11:30 - Milo Barozzi: shall I change storage location in WAMAS for that plt?  
16/09/21, 11:31 - Mihai Soceanu: yes pls  
16/09/21, 11:31 - Milo Barozzi: doing  
16/09/21, 11:31 - Milo Barozzi: done  
16/09/21, 11:32 - Mihai Soceanu: thx  
16/09/21, 11:32 - Mihai Soceanu: is related to a bug which we found before and i fixed it in this deploy  
16/09/21, 11:33 - Milo Barozzi: I tried first by killing TPO and updating storage location, but I cannot. Therefore I recreated TPO and update storage location from MF014  
16/09/21, 11:33 - Milo Barozzi: I think one AGV will go to the wrong location again  
16/09/21, 11:34 - Mihai Soceanu: yes...  
16/09/21, 11:34 - Milo Barozzi: Nicola is there checking directly  
16/09/21, 11:37 - Mihai Soceanu: IMG-20210916-WA0018.jpg (file allegato)  
16/09/21, 11:38 - Mihai Soceanu: can somen one check AGV6  
16/09/21, 11:38 - Mihai Soceanu: in S47  
16/09/21, 11:38 - Mihai Soceanu: it tries to deliver the pallet  
16/09/21, 11:38 - Mihai Soceanu: but it always receive RACK occupied...  
16/09/21, 11:41 - Milo Barozzi: it blocked 13 locations. Maybe film is in front of fork scanners. I removed blocks from WH093  
16/09/21, 11:42 - Mihai Soceanu: ok thx  
16/09/21, 12:07 - Milo Barozzi: Damn it, I was occupied in other things and I missed what happened to TEMP6125 on SLAVING position at wuzzi  
16/09/21, 13:56 - Mihai Soceanu: who can check pls  
16/09/21, 13:56 - Mihai Soceanu: IMG-20210916-WA0048.jpg (file allegato)  
16/09/21, 13:57 - Mihai Soceanu: 8 and 21  
16/09/21, 13:57 - Mihai Soceanu: pls  
16/09/21, 13:57 - Mihai Soceanu: and 14  
16/09/21, 13:58 - Mihai Soceanu: IMG-20210916-WA0049.jpg (file allegato)  
16/09/21, 13:59 - Mihai Soceanu: this is a funny barcode  
16/09/21, 13:59 - Mihai Soceanu: IMG-20210916-WA0050.jpg (file allegato)  
16/09/21, 14:08 - Mihai Soceanu: i see pickers release pallets after each pick  
16/09/21, 14:08 - Mihai Soceanu: tahnk you very much  
16/09/21, 14:08 - Mihai Soceanu: :)  
16/09/21, 14:22 - Daniele MMOperations: Hi all! This is just arrived at foiling, should i do something different than normal?  
16/09/21, 14:22 - Daniele MMOperations: IMG-20210916-WA0053.jpg (file allegato)  
16/09/21, 14:27 - Milo Barozzi: Never seen before  
16/09/21, 14:27 - Mihai Soceanu: me neither...  
16/09/21, 14:28 - Milo Barozzi: Do you figure how it should be possible?  
16/09/21, 14:34 - Support Technician 16: Can someone take a picture of the barcode that is on the pallet and use a scanner to see what it reads?  
16/09/21, 14:53 - Daniele MMOperations: IMG-20210916-WA0055.jpg (file allegato)  
This one  
16/09/21, 14:54 - Daniele MMOperations: I have a TPO in error for PLT 70151239,

we cant resolve it. can someone check pls?

16/09/21, 14:55 - Support Technician 16: Can you please scan this with a terminal and tell us what it reads?

16/09/21, 14:56 - Mihai Soceanu: SRM reports source not available so someone needs to go in the aisle and check

16/09/21, 14:56 - Daniele MMOperations: Tells that it doesnt exist in WH1

16/09/21, 14:57 - Mihai Soceanu: Error occurred in transport order. Reason: 'Booking(SRM04:ERROR\_SOURCE\_NOT\_AVAILABLE|Ack.Code=14212)'

16/09/21, 14:57 - Mihai Soceanu: either not accesable

16/09/21, 14:57 - Mihai Soceanu: or it is not in that location any longer :(

16/09/21, 14:57 - Mihai Soceanu: ah was related to the other topic □

16/09/21, 15:02 - Support Technician 16: I understand, thank you

16/09/21, 15:19 - Mihai Soceanu: IMG-20210916-WA0060.jpg (file allegato)

16/09/21, 15:19 - Mihai Soceanu: pls check AGV27

16/09/21, 15:20 - Mihai Soceanu: i do not see any reason why is not moving ... : (

16/09/21, 15:20 - Milo Barozzi: could it be the rope?

16/09/21, 15:20 - Mihai Soceanu: don't know..

16/09/21, 15:20 - Mihai Soceanu: can be

16/09/21, 15:54 - Support Technician 25: @Company Employee 18 please send me a big of the broken chain

16/09/21, 15:54 - Support Technician 25: and the situation right now

16/09/21, 15:54 - Support Technician 25: thank you

16/09/21, 15:56 - Milo Barozzi: IMG-20210916-WA0062.jpg (file allegato)

16/09/21, 15:56 - Milo Barozzi: I think it's this one.....

16/09/21, 15:58 - Support Technician 25: Did is break or jump out of the guied?

16/09/21, 15:58 - Support Technician 25: \*guide\*

16/09/21, 16:04 - Support Technician 25: IMG-20210916-WA0063.jpg (file allegato)

What is this piece?

16/09/21, 16:04 - Milo Barozzi: Rib of Adam..... 😂😂😂

16/09/21, 16:22 - Milo Barozzi: Dear All,

16/09/21, 16:22 - Milo Barozzi: Dear All, pick station #12 has all sources physically empty but no pallet is going there... shall you kindly check what's happening there, pls? Thank you

16/09/21, 16:24 - Milo Barozzi: Cancel it, I know why.... F\*\*K!!!!!!!!!!!!

16/09/21, 16:24 - Support Technician 25: ??

16/09/21, 16:25 - Mihai Soceanu: Srm 7

16/09/21, 16:25 - Milo Barozzi: 😡😡😡

16/09/21, 17:05 - Milo Barozzi: I see all AGVs went to charging.... what's happening?!??? 😱😱😱😱

16/09/21, 17:07 - Mihai Soceanu: station 7 is full

16/09/21, 17:08 - Mihai Soceanu: and pallets need to be delivered to AGV\_TO\_MERC but nothing available

16/09/21, 17:11 - Mihai Soceanu: same for one position from station 4

16/09/21, 17:12 - Mihai Soceanu: srry

16/09/21, 17:12 - Mihai Soceanu: station 12

16/09/21, 17:18 - Mihai Soceanu: pls remove crane 7 from maintenance mode

16/09/21, 17:18 - Mihai Soceanu: i think we can put it in a mode in which will not affect adjacent aisles

16/09/21, 17:19 - Mihai Soceanu: srry i think i did not see it :)

16/09/21, 17:19 - Mihai Soceanu: is ok

16/09/21, 17:19 - Mihai Soceanu: forget it

16/09/21, 17:54 - Milo Barozzi: AGV blocked locations AGVMERCH and they were not unlocked from nobody

16/09/21, 17:55 - Milo Barozzi: now I unloacked them

16/09/21, 17:55 - Mihai Soceanu: ok thx

16/09/21, 18:03 - Milo Barozzi: I see stacker/destacker of Bs is empty... it smells not good....

16/09/21, 18:04 - Mihai Soceanu: i check

16/09/21, 18:05 - Milo Barozzi: thanks

16/09/21, 18:05 - Milo Barozzi: there's one stack in the buffer inside monorail but it has no TPO...

16/09/21, 18:06 - Mihai Soceanu: 60598970 is a left over from a manual

intervention

16/09/21, 18:06 - Mihai Soceanu: on 1/44/1  
16/09/21, 18:07 - Mihai Soceanu: IMG-20210916-WA0070.jpg (file allegato)  
16/09/21, 18:07 - Mihai Soceanu: can i delete  
16/09/21, 18:07 - Mihai Soceanu: 60598970 is planned to go to B destacker  
16/09/21, 18:07 - Mihai Soceanu: ...  
16/09/21, 18:08 - Milo Barozzi: yes please  
16/09/21, 18:19 - Daniele MMOperations: Bp08 cant release plt in s01, s02 and s04, we dont need it anymore  
16/09/21, 18:22 - Company Employee 18: Is my error I'm not remove the pallet from wamas sorry guys  
16/09/21, 18:24 - Milo Barozzi: @Support Technician 6 shall you put an eye on that pls?  
16/09/21, 18:25 - Mihai Soceanu: pallets from station 8 are not going out ?  
16/09/21, 18:26 - Daniele MMOperations: No they still here  
16/09/21, 18:26 - Milo Barozzi: @Support Technician 6 I'm going there personally  
16/09/21, 18:26 - Milo Barozzi: @Company Employee 24 they're going out  
16/09/21, 18:27 - Milo Barozzi: @Support Technician 6 70215482 unexpected not empty error  
16/09/21, 18:27 - Daniele MMOperations: Same problem in bp10, s1 s3 and s4  
16/09/21, 18:28 - Milo Barozzi: BP08 S03: @Company Employee 24 pallet is physically empty?  
16/09/21, 18:28 - Daniele MMOperations: 59 box  
16/09/21, 18:29 - Milo Barozzi: IMG-20210916-WA0071.jpg (file allegato)  
ha prelevato 56 scatole poco fa, il pallet è vuoto per il sistema  
16/09/21, 18:30 - Milo Barozzi: @Support Technician 6 I think it's user bad handling  
16/09/21, 18:31 - Mihai Soceanu: ok  
16/09/21, 18:31 - Mihai Soceanu: thx  
16/09/21, 18:46 - Company Employee 18: @Support Technician 6 I have this udc605872285 on the BP 03 S03 don't go away can you help me?  
16/09/21, 18:47 - Company Employee 18: Remain this error  
16/09/21, 18:47 - Mihai Soceanu: i check  
16/09/21, 18:47 - Company Employee 18: IMG-20210916-WA0072.jpg (file allegato)  
16/09/21, 18:49 - Company Employee 18: The pallet is a B-D empty  
16/09/21, 18:49 - Mihai Soceanu: B on D 60587285  
16/09/21, 18:49 - Mihai Soceanu: ?  
16/09/21, 18:49 - Company Employee 18: B  
16/09/21, 18:50 - Mihai Soceanu: it does not have a D on it in WMS  
16/09/21, 18:50 - Company Employee 18: Ok I remove  
16/09/21, 18:51 - Mihai Soceanu: IMG-20210916-WA0073.jpg (file allegato)  
16/09/21, 18:51 - Mihai Soceanu: ah you will remove the D  
16/09/21, 18:51 - Mihai Soceanu: ok  
16/09/21, 18:53 - Company Employee 18: Yes  
16/09/21, 18:54 - Mihai Soceanu: i see it worked  
16/09/21, 18:54 - Milo Barozzi: it wored  
16/09/21, 18:54 - Milo Barozzi: worked  
16/09/21, 18:54 - Milo Barozzi: what you did? because user handled correctly in my opinion  
16/09/21, 18:55 - Mihai Soceanu: i did nothing  
16/09/21, 18:55 - Mihai Soceanu: user split the pallet  
16/09/21, 18:55 - Milo Barozzi: user did nothing  
16/09/21, 18:55 - Mihai Soceanu: and in MFS we know was a B  
16/09/21, 18:55 - Mihai Soceanu: without a D  
16/09/21, 18:55 - Milo Barozzi: in WAMAS it came back because of wrong height...  
16/09/21, 18:55 - Mihai Soceanu: pls see above the picture  
16/09/21, 18:56 - Mihai Soceanu: came back because front and back errors  
16/09/21, 18:56 - Milo Barozzi: Strange case  
16/09/21, 18:57 - Mihai Soceanu: IMG-20210916-WA0074.jpg (file allegato)  
16/09/21, 18:58 - Mihai Soceanu: not strage because in MFS was only a B MFS send to PLC to control the shape for a B type not a B on D  
16/09/21, 18:58 - Mihai Soceanu: and if you check picture above pallet was split  
16/09/21, 18:59 - Milo Barozzi: user reported broken source, WAMAS asked to continue picking, he did, WAMAS brought a new pallet to move boxes remained on

the pallet, user confirmed and on source position it remained only the empty B  
16/09/21, 18:59 - Milo Barozzi: all done via WAMAS pick station dialog  
16/09/21, 18:59 - Milo Barozzi: no manual / special intervention  
16/09/21, 18:59 - Milo Barozzi: sent back the pallet and it came back to pick station with error front/back  
16/09/21, 18:59 - Milo Barozzi: sent back again (without doing nothing) and it worked...  
16/09/21, 18:59 - Milo Barozzi: 🤖🤖🤖  
16/09/21, 19:00 - Mihai Soceanu: ah ok i undestand what you mean and what i mean, i was saying user but did not know that only station was used srly  
16/09/21, 19:00 - Milo Barozzi: no problem  
16/09/21, 19:00 - Mihai Soceanu: they remove the D above  
16/09/21, 19:00 - Milo Barozzi: 😊  
16/09/21, 19:01 - Milo Barozzi: sure, physically they removed since it was broken  
16/09/21, 19:01 - Mihai Soceanu: aaaaaaaaaaaaaaaaaaaaaah  
16/09/21, 19:01 - Mihai Soceanu: wait  
16/09/21, 19:01 - Mihai Soceanu: they removed the pallet as far as i understood last time when it worked  
16/09/21, 19:01 - Mihai Soceanu: or ?  
16/09/21, 19:03 - Milo Barozzi: they removed it from the beginning  
16/09/21, 20:12 - Support Technician 25: <Media omessi>  
Ciao ragazzi, what's wrong with that UDC? AF stack is waiting in the queue I suppose?  
16/09/21, 20:13 - Company Employee 18: @Support Technician 6 can you check?  
16/09/21, 20:14 - Support Technician 25: he's offline  
16/09/21, 20:14 - Support Technician 25: Somebody from Sala Controllo should check?  
16/09/21, 20:14 - Company Employee 18: I am alone Matthias I don't have any idea to check them 🤔  
16/09/21, 20:16 - Company Employee 18: I go to check the T0 and I try to fix  
16/09/21, 20:19 - Company Employee 18: I have wait for capacity zone MD right  
16/09/21, 20:19 - Company Employee 18: What is MD right?  
16/09/21, 20:19 - Support Technician 25: Merchandising?  
16/09/21, 20:24 - Mihai Soceanu: MD  
16/09/21, 20:24 - Mihai Soceanu: is manual deslaving  
16/09/21, 20:24 - Mihai Soceanu: Pls check the nok near wuzzi  
16/09/21, 20:24 - Company Employee 18: I understand  
16/09/21, 20:24 - Mihai Soceanu: And send the pallet away  
16/09/21, 20:26 - Company Employee 18: The MD now is free  
16/09/21, 20:30 - Mihai Soceanu: Pallts are moving ?  
16/09/21, 20:35 - Support Technician 25: IMG-20210917-WA0000.jpg (file allegato)  
Yes, looks fine?!  
16/09/21, 20:36 - Company Employee 18: Yes now we are back on track 🍊  
17/09/21, 05:55 - Nicola Bernardi: IMG-20210917-WA0009.jpg (file allegato)  
17/09/21, 06:58 - Support Technician 25: Let me guess... I/O Blocking?  
17/09/21, 06:59 - Nicola Bernardi: yes  
17/09/21, 07:44 - Mihai Soceanu: hi  
17/09/21, 07:44 - Mihai Soceanu: we have TEMP5199  
17/09/21, 07:44 - Mihai Soceanu: in station 12 from yesterday  
17/09/21, 07:44 - Mihai Soceanu: can i delete it ?  
17/09/21, 07:44 - Mihai Soceanu: it is from the test to see if a TEMP can return from station to destacker  
17/09/21, 08:14 - Nicola Bernardi: @Support Technician 6 can you Take out the block on this ?  
17/09/21, 08:14 - Nicola Bernardi: IMG-20210917-WA0008.jpg (file allegato)  
17/09/21, 08:14 - Mihai Soceanu: ok  
17/09/21, 08:14 - Mihai Soceanu: give me 1 min  
17/09/21, 08:14 - Nicola Bernardi: And create a new block on this?  
17/09/21, 08:15 - Nicola Bernardi: IMG-20210917-WA0001.jpg (file allegato)  
17/09/21, 08:15 - Mihai Soceanu: ok  
17/09/21, 08:16 - Mihai Soceanu: pls put 64 in auto  
17/09/21, 08:18 - Nicola Bernardi: IMG-20210917-WA0007.jpg (file allegato)  
😞

17/09/21, 08:18 - Nicola Bernardi: On CU65 there is a pallet on lighthouse  
17/09/21, 08:19 - Mihai Soceanu: in MFS there is none  
17/09/21, 08:19 - Mihai Soceanu: i check PLC orders  
17/09/21, 08:19 - Mihai Soceanu: conveyor is empty correct  
17/09/21, 08:19 - Mihai Soceanu: /  
17/09/21, 08:19 - Mihai Soceanu: ?  
17/09/21, 08:19 - Nicola Bernardi: IMG-20210917-WA0004.jpg (file allegato)  
17/09/21, 08:19 - Nicola Bernardi: Yes is empty  
17/09/21, 08:19 - Mihai Soceanu: ok  
17/09/21, 08:20 - Mihai Soceanu: pls reset  
17/09/21, 08:21 - Mihai Soceanu: after we see this one working i will block the other one  
17/09/21, 08:35 - Mihai Soceanu: what is the status of the right line  
17/09/21, 08:35 - Mihai Soceanu: ?  
17/09/21, 08:38 - Support Technician 25: IMG-20210917-WA0002.jpg (file allegato)  
@Company Employee 17 pls let me know if this is a block/deadlock or an AGV in error that is not shown in LH?  
17/09/21, 08:38 - Support Technician 25: ah, now it's moving, did somebody do something?  
17/09/21, 09:14 - Mihai Soceanu: .  
17/09/21, 09:14 - Mihai Soceanu: i will block the left line  
17/09/21, 09:15 - Mihai Soceanu: done  
17/09/21, 09:16 - Mihai Soceanu: pls clen Manual Deslaving  
17/09/21, 09:16 - Mihai Soceanu: pick station 7 needs to deliver a pallet there  
17/09/21, 09:59 - Milo Barozzi: 60672884 is on 60672884, wants to go to SH2, but not moving... 😞😞  
17/09/21, 09:59 - Milo Barozzi: it's there from 09:55:52 (5 minutes)  
17/09/21, 10:00 - Nicola Bernardi: IMG-20210917-WA0003.jpg (file allegato)  
This 2 pallets don't run can you check?  
17/09/21, 10:05 - Milo Barozzi: now 60672884 moved. Did you do something on it?  
17/09/21, 10:06 - Mihai Soceanu: we had an exception in MFM queue  
17/09/21, 10:06 - Mihai Soceanu: i fixed it  
17/09/21, 10:06 - Mihai Soceanu: now i am cheking why is happeing  
17/09/21, 10:07 - Milo Barozzi: do I need to open a ticket meanwhile?  
17/09/21, 10:07 - Mihai Soceanu: yes pls  
17/09/21, 10:07 - Milo Barozzi: I'll do it... I think it happened already and a ticket should already exist.. I'll check it  
17/09/21, 10:07 - Milo Barozzi: thanks  
17/09/21, 10:07 - Mihai Soceanu: now we should be back on track  
17/09/21, 10:09 - Milo Barozzi: it is  
17/09/21, 10:09 - Milo Barozzi: it moved at 10:04  
17/09/21, 10:09 - Milo Barozzi: no ticket for it already existing, I'll create a new one  
17/09/21, 10:09 - Milo Barozzi: soon  
17/09/21, 10:18 - Mihai Soceanu: thx  
17/09/21, 10:18 - Mihai Soceanu: 85146510 is a whole LU and because we blocked the middle line MFS can not take it out  
17/09/21, 10:18 - Mihai Soceanu: :(  
17/09/21, 10:20 - Mihai Soceanu: pls open a ticket so i will check if a route is blocked and pallet is whole LU MFS will push over the other line  
17/09/21, 10:23 - Mihai Soceanu: i deactivated specialized routes over the printing line to stations  
17/09/21, 10:24 - Mihai Soceanu: until pallet to station 5 will travel there  
17/09/21, 10:31 - Milo Barozzi: ok  
17/09/21, 10:32 - Milo Barozzi: Doing it  
17/09/21, 10:33 - Mihai Soceanu: thx  
17/09/21, 10:33 - Milo Barozzi: you're welcome. Thanks for noticing!  
17/09/21, 10:35 - Milo Barozzi: pls reactivate it ASAP  
17/09/21, 10:37 - Mihai Soceanu: ok  
17/09/21, 10:37 - Milo Barozzi: thx  
17/09/21, 10:37 - Mihai Soceanu: but we will not deliver pallet whole LU to station 3 to 6  
17/09/21, 10:38 - Mihai Soceanu: 85146510  
17/09/21, 10:39 - Mihai Soceanu: done

17/09/21, 10:41 - Milo Barozzi: thank you! ticket sent!  
 17/09/21, 11:07 - Capoturno Picking Progetto Lavoro: Questo messaggio è stato eliminato.  
 17/09/21, 11:14 - Mihai Soceanu: question on infeed conveyor  
 17/09/21, 11:14 - Mihai Soceanu: we have 60664272 on conveyor 7  
 17/09/21, 11:14 - Mihai Soceanu: and 60664265 on conveyor 1 ?  
 17/09/21, 11:15 - Gionata Evangelisti: Yes  
 17/09/21, 11:15 - Mihai Soceanu: ok i check  
 17/09/21, 11:16 - Mihai Soceanu: conveyors are clear  
 17/09/21, 11:16 - Mihai Soceanu: and is related to what it happened 1 hour ago  
 17/09/21, 11:16 - Gionata Evangelisti: Thx  
 17/09/21, 11:17 - Mihai Soceanu: pls notice me when infeed has problems  
 17/09/21, 11:17 - Mihai Soceanu: i had to suspend and resume the TPOs  
 17/09/21, 11:17 - Gionata Evangelisti: Perfect  
 17/09/21, 11:36 - Gionata Evangelisti: We have the same problem at the infeed  
 @Support Technician 6  
 17/09/21, 11:38 - Mihai Soceanu: i check give me 2 min pls  
 17/09/21, 12:15 - Milo Barozzi: RIGHT line (rear loading): one ART in IO  
 Blocking  
 17/09/21, 12:21 - Gionata Evangelisti: It happens again  
 17/09/21, 12:22 - Support Technician 16: are these TPO's made with spontaneous?  
 17/09/21, 12:23 - Mihai Soceanu: may you pls suspend and resume the TPO from MF14 ?  
 17/09/21, 12:23 - Mihai Soceanu: we have a lead related to spontaneous TPOs  
 17/09/21, 12:23 - Mihai Soceanu: from S04 MAV  
 17/09/21, 12:31 - Gionata Evangelisti: Done  
 17/09/21, 12:32 - Gionata Evangelisti: Yes  
 17/09/21, 12:32 - Mihai Soceanu: ok thx for info  
 17/09/21, 12:33 - Support Technician 16: @Company Employee 16 can someone make instead of a spontaneous from mobile the TPo from desktop and then let the user make the TPo with the mobile please?  
 17/09/21, 12:38 - Gionata Evangelisti: We have done in this way  
 17/09/21, 12:38 - Gionata Evangelisti: In type of TPO is written Trasferimento  
 17/09/21, 13:01 - Mihai Soceanu: who can help with checking why AGV 7 can not deliver to station 7  
 17/09/21, 13:01 - Mihai Soceanu: position 1  
 17/09/21, 13:01 - Mihai Soceanu: logically is empty  
 17/09/21, 14:31 - Daniele MMOperations: Hi! BP12 s03 seems to be locked, nothing comes.  
 17/09/21, 14:33 - Mihai Soceanu: TEMP5199  
 17/09/21, 14:33 - Mihai Soceanu: is on that location from yesterday  
 17/09/21, 14:35 - Mihai Soceanu: IMG-20210917-WA0013.jpg (file allegato)  
 17/09/21, 14:35 - Mihai Soceanu: can somenone check what is happening  
 17/09/21, 14:35 - Mihai Soceanu: ?  
 17/09/21, 14:43 - Milo Barozzi: i removed from WAMAS and was physically removed by Andrea  
 17/09/21, 14:44 - Mihai Soceanu: IMG-20210917-WA0014.jpg (file allegato)  
 17/09/21, 14:44 - Mihai Soceanu: :(  
 17/09/21, 14:44 - Mihai Soceanu: i will delete  
 17/09/21, 14:44 - Milo Barozzi: thx  
 17/09/21, 14:44 - Mihai Soceanu: done  
 17/09/21, 14:47 - Mihai Soceanu: what was the problem related to the AGVS ?  
 17/09/21, 14:58 - Daniele MMOperations: 1 of them needed a reset and a restart  
 17/09/21, 14:59 - Mihai Soceanu: ...  
 17/09/21, 14:59 - Mihai Soceanu: ok thx for info  
 17/09/21, 16:29 - Daniele MMOperations: In BP02 we need the PLT in the buffer, S04 is empty but it wont come...  
 17/09/21, 16:30 - Mihai Soceanu: 59920882 is in crane 1  
 17/09/21, 16:30 - Mihai Soceanu: which was down for a while :(  
 17/09/21, 16:30 - Mihai Soceanu: will come  
 17/09/21, 16:30 - Mihai Soceanu: ...  
 17/09/21, 16:31 - Daniele MMOperations: We need also 59916339  
 17/09/21, 16:32 - Mihai Soceanu: 59916339 is with bigger sequence  
 [[PICK2:2193349|0]]

17/09/21, 16:33 - Mihai Soceanu: than 59956756 = [[PICK2:2193130|0]]  
 17/09/21, 16:33 - Mihai Soceanu: this is why it waits on buffer  
 20/09/21, 08:32 - Support Technician 25: Good morning. Please download the error video from Crane 4, this is a very good example for training lessons  
 20/09/21, 10:12 - Daniele MMOperations: Hi everyone! We have a problem in picking station number 10, is waiting a PLT that's on the buffer to complete the order, we have s01 and s02 free but it wont come, and the PS is blocked.  
 20/09/21, 10:14 - Daniele MMOperations: Nothing, is coming  
 20/09/21, 10:15 - Support Technician 25: IMG-20210920-WA0000.jpg (file allegato)  
 Is your problem still existing or can it be solved by a Keyuser?  
 20/09/21, 10:15 - Daniele MMOperations: Solved, thank you  
 20/09/21, 10:15 - Daniele MMOperations: I only had to wait a bit  
 20/09/21, 10:15 - Support Technician 25: Who solved it? Atlas ?  
 20/09/21, 10:16 - Daniele MMOperations: Solved by itself  
 20/09/21, 10:17 - Daniele MMOperations: The PLT was on the buffer, we waited a little more than usual  
 21/09/21, 07:37 - Milo Barozzi: IMG-20210921-WA0006.jpg (file allegato)  
 21/09/21, 07:37 - Milo Barozzi: IMG-20210921-WA0007.jpg (file allegato)  
 21/09/21, 07:37 - Mihai Soceanu: Hi  
 21/09/21, 07:38 - Milo Barozzi: Good morning to all, orders are put on lower levels even they should not. Please, block all "narrow" location on the floor to avoid this otherwise we have a lot of agv blocks  
 21/09/21, 07:38 - Mihai Soceanu: I do not understand how it can happen :o because i added condition not to do that  
 21/09/21, 07:39 - Mihai Soceanu: F...  
 21/09/21, 07:39 - Mihai Soceanu: Do you have some barcodes pls ?  
 21/09/21, 07:39 - Mihai Soceanu: The narrow locations where also unblocked ? :(  
 21/09/21, 07:40 - Mihai Soceanu: Because we have to keep only the big ones ..  
 21/09/21, 07:46 - Milo Barozzi: Yes  
 21/09/21, 07:46 - Milo Barozzi: Pls can you block the narrow one please ?I'm not onsite yet  
 21/09/21, 07:46 - Mihai Soceanu: yes  
 21/09/21, 07:47 - Mihai Soceanu: i will also deactivate the rerote for the moment  
 21/09/21, 07:47 - Milo Barozzi: That's a misunderstanding due to the fact that locations were not renamed  
 21/09/21, 07:47 - Mihai Soceanu: yes...  
 21/09/21, 07:47 - Milo Barozzi: Please lock them as "only retrieval allowed"  
 21/09/21, 07:54 - Mihai Soceanu: i locked them already with reason obsolete  
 21/09/21, 07:54 - Mihai Soceanu: i send the unneeded pallets to other S46  
 21/09/21, 08:01 - Milo Barozzi: 👍thx  
 21/09/21, 08:02 - Mihai Soceanu: np, i have to say sorry due to this missundersnatding....  
 21/09/21, 08:14 - Mihai Soceanu: i will activate agian the rerouting  
 21/09/21, 08:16 - Mihai Soceanu: question why is AGV5 and AGV12 out of the system from yesterday morning  
 21/09/21, 08:16 - Mihai Soceanu: ?  
 21/09/21, 08:20 - Milo Barozzi: No problem  
 21/09/21, 08:21 - Milo Barozzi: We have 2 AGVs with some broken parts but I don't remember their numbers...  
 21/09/21, 08:21 - Mihai Soceanu: :(  
 21/09/21, 08:24 - Milo Barozzi: one has a damaged hydrauilc pump, the other one I don't remember  
 21/09/21, 08:25 - Mihai Soceanu: 5 and 12 is affecting us a bit, when do you think we can get the spare parts ?  
 21/09/21, 08:25 - Milo Barozzi: I think the pump we have, the other one I don't know... maybe maintenance can be more precise...  
 21/09/21, 08:30 - Mihai Soceanu: ok, thx for info  
 21/09/21, 08:30 - Mihai Soceanu: S46 is back on track  
 21/09/21, 08:31 - Milo Barozzi: 🙏thank you  
 21/09/21, 08:44 - Company Employee 18: Yes the 5 have a problem of navigation and the 12 we have fix the pump and I think if Andrea is fast he return into the system  
 21/09/21, 08:44 - Mihai Soceanu: iupiii

21/09/21, 08:44 - Mihai Soceanu: thx  
21/09/21, 08:45 - Company Employee 18: 🙄🔧🙄🔧  
21/09/21, 09:12 - Daniele MMOperations: Hi all! We have an issue at Picking station n.2, there is a PLT in the buffer that we need, udc 60372726, blocked there  
21/09/21, 09:13 - Daniele MMOperations: Same problem at Picking station 3, PLT in the buffer and s04 empty  
21/09/21, 09:13 - Mihai Soceanu: Give me 2 min pls  
21/09/21, 09:17 - Mihai Soceanu: 65521028  
21/09/21, 09:17 - Mihai Soceanu: station 2 is waiting for 65521028 which is in HBW2  
21/09/21, 09:18 - Mihai Soceanu: ERROR\_SOURCE\_NOT\_AVAILABLE  
21/09/21, 09:18 - Milo Barozzi: HBW2? 🙄  
21/09/21, 09:18 - Mihai Soceanu: srty  
21/09/21, 09:19 - Mihai Soceanu: HRA02X006Y03Z21  
21/09/21, 09:19 - Mihai Soceanu: aisle 2  
21/09/21, 09:19 - Milo Barozzi: ah ok, HBW1 aisle 2 😓  
21/09/21, 09:19 - Support Technician 16: you nearly gave us a hearth attack 😂  
21/09/21, 09:19 - Milo Barozzi: I had an heart attack...  
21/09/21, 09:19 - Milo Barozzi: 🚑  
21/09/21, 09:19 - Mihai Soceanu: :))))  
21/09/21, 09:19 - Mihai Soceanu: station 3 is waiting for 59152047  
21/09/21, 09:20 - Mihai Soceanu: from HBW4 (jk) HRA04X093Y06Z21  
21/09/21, 09:20 - Daniele MMOperations: Yes, the tpo keeps going on error  
21/09/21, 09:20 - Mihai Soceanu: is sequencing  
21/09/21, 09:20 - Milo Barozzi: removed the blcok for it and resumed tpo  
21/09/21, 09:20 - Milo Barozzi: let's see....  
21/09/21, 09:20 - Milo Barozzi: error again  
21/09/21, 09:20 - Mihai Soceanu: pls ask somenone to check if it can not be picked by SRM  
21/09/21, 09:21 - Mihai Soceanu: these are real errors  
21/09/21, 09:22 - Milo Barozzi: but 65521028 was needed by which station? I tought to finalize pick order for it but I can't see it...  
21/09/21, 09:28 - Milo Barozzi: removed block from HRA04X093Y06Z21 (59152047) and resumed TPO and it worked  
21/09/21, 09:34 - Milo Barozzi: we have 60372726 in BP02 BUFF01 that is needed for OBD0000260731 and not moving even it has TPO and we have BP02 S04 empty. Shall you kindly check, pls? pick station 2 is blocked right now 🚨  
21/09/21, 09:37 - Milo Barozzi: @Support Technician 16 @Support Technician 6 👉 shall you help me with that, pls?  
21/09/21, 09:43 - Mihai Soceanu: we have 65521028 with sequence [[PICK2:2198323|0]]  
21/09/21, 09:43 - Mihai Soceanu: in HBW02\*  
21/09/21, 09:43 - Mihai Soceanu: in buffer we have 60590135 with sequence [[PICK2:2198323|3]]  
21/09/21, 09:44 - Milo Barozzi: but it's not needed by any pick order at that pick station!  
21/09/21, 09:44 - Milo Barozzi: 🙄  
21/09/21, 09:44 - Milo Barozzi: IMG-20210921-WA0013.jpg (file allegato)  
21/09/21, 09:44 - Mihai Soceanu: 65521028 ?  
21/09/21, 09:44 - Mihai Soceanu: it has a TPO  
21/09/21, 09:44 - Mihai Soceanu: to that station  
21/09/21, 09:44 - Milo Barozzi: IMG-20210921-WA0014.jpg (file allegato)  
21/09/21, 09:44 - Milo Barozzi: IMG-20210921-WA0015.jpg (file allegato)  
21/09/21, 09:45 - Milo Barozzi: look at the three screenshots there.. there's no 65521028 requested from pick order linked to station 2...  
21/09/21, 09:46 - Support Technician 16: Who made the tpo for that pallet to the station?  
21/09/21, 09:49 - Milo Barozzi: MfmReleaseTransportOrderWorkerTask  
21/09/21, 09:49 - Milo Barozzi: IMG-20210921-WA0020.jpg (file allegato)  
21/09/21, 09:49 - Milo Barozzi: shall I cancel that TPO in manner station can work?  
21/09/21, 09:50 - Support Technician 16: Yes, cancel it  
21/09/21, 09:50 - Milo Barozzi: done

21/09/21, 09:51 - Milo Barozzi: thx  
21/09/21, 09:51 - Milo Barozzi: now 60372726 on 60590135 should move to BP02  
S04....  
21/09/21, 09:51 - Support Technician 16: Please open a ticket on this subject  
21/09/21, 09:52 - Milo Barozzi: sure, I'll do it  
21/09/21, 09:52 - Milo Barozzi: monorail vehicles are passing in front of BP02  
BUFF01 but not bridging the pallet to pick station....  
21/09/21, 09:53 - Mihai Soceanu: 59587653 will come  
21/09/21, 09:53 - Mihai Soceanu: we suspect that when rack is blocked WAMAS will  
only delete rezervation but will not cancel the TPO  
21/09/21, 09:54 - Milo Barozzi: rack = aisle?  
21/09/21, 09:54 - Mihai Soceanu: but as Adrian said pls open a ticket  
21/09/21, 09:54 - Milo Barozzi: I'll do it for sure  
21/09/21, 09:54 - Mihai Soceanu: rack = location in aisle  
21/09/21, 09:54 - Milo Barozzi: aaaaaah I see now  
21/09/21, 09:55 - Mihai Soceanu: :)  
21/09/21, 09:56 - Milo Barozzi: sorry guys, but 59587653 arrived to pick station  
2 but is not needed for any order....  
21/09/21, 09:56 - Support Technician 16: Please use move away for him  
21/09/21, 09:57 - Milo Barozzi: ah no no sorry it's an empty one  
21/09/21, 09:57 - Milo Barozzi: it's correct that is there...  
21/09/21, 09:57 - Milo Barozzi: now pick station2 is working  
21/09/21, 09:57 - Milo Barozzi: correct  
21/09/21, 16:31 - Mihai Soceanu: IMG-20210921-WA0043.jpg (file allegato)  
21/09/21, 16:31 - Mihai Soceanu: pls check if anything wrong  
21/09/21, 16:42 - Mihai Soceanu: IMG-20210921-WA0044.jpg (file allegato)  
21/09/21, 16:42 - Mihai Soceanu: printer in error  
21/09/21, 16:42 - Mihai Soceanu: :(  
21/09/21, 16:43 - Mihai Soceanu: IMG-20210921-WA0045.jpg (file allegato)  
21/09/21, 16:43 - Mihai Soceanu: F destacker  
21/09/21, 17:07 - Mihai Soceanu: crane 8 is in error

OBD#257842 not possible to release OG buffer. Any idea of why?  
21/09/21, 17:12 - Mihai Soceanu: IMG-20210921-WA0048.jpg (file allegato)  
21/09/21, 17:12 - Mihai Soceanu: pls check AGV 3 and 27  
22/09/21, 09:50 - Mihai Soceanu: hi 60584950 was put on 285 without cleaning the  
errors  
22/09/21, 09:50 - Mihai Soceanu: who can check foiling line 2 to see if there is  
any pallet phisically  
22/09/21, 09:50 - Mihai Soceanu: pls  
22/09/21, 09:51 - Mihai Soceanu: ok thre is none  
22/09/21, 10:01 - Benedetta Zini: now it's okay  
22/09/21, 10:01 - Benedetta Zini: thanksss  
22/09/21, 10:02 - Mihai Soceanu: thank you  
22/09/21, 11:21 - Mihai Soceanu: pls check AGV22  
22/09/21, 11:23 - Daniele MMOperations: @Company Employee 18 is checking  
22/09/21, 11:27 - Company Employee 18: 22 it's OK  
22/09/21, 11:34 - Mihai Soceanu: pls check AGV8  
22/09/21, 11:34 - Mihai Soceanu: in front of station 2  
22/09/21, 11:43 - Mihai Soceanu: AGV2 and 10 are not getting missions  
22/09/21, 11:43 - Milo Barozzi: are them in charging stations?  
22/09/21, 11:43 - Company Employee 18: The 8 I fix the problem  
22/09/21, 11:43 - Company Employee 18: The 10 I go to check  
22/09/21, 11:43 - Milo Barozzi: I think some AGVs have low battery level....  
22/09/21, 11:44 - Mihai Soceanu: yes 15%  
22/09/21, 11:44 - Company Employee 18: The 10 is in the station of charge  
22/09/21, 11:44 - Milo Barozzi: 4 of them are in charge and 2 out of service  
22/09/21, 11:44 - Company Employee 18: IMG-20210922-WA0007.jpg (file allegato)  
22/09/21, 11:44 - Mihai Soceanu: pfff  
22/09/21, 17:36 - Nicola Bernardi: @Support Technician 25 @Support Technician 4  
@Support Technician 5 Could it be that the latest layout update was not loaded  
onto a vehicle because it was turned off at that time?  
23/09/21, 07:28 - Daniele MMOperations: Good morning everyone! we have all

picking station waiting for PLTs on destination, but nothing is coming... can you kindly check what's happening? Thanks

23/09/21, 07:47 - Mihai Soceanu: hi

23/09/21, 07:47 - Mihai Soceanu: i see nothing wrong

23/09/21, 07:49 - Daniele MMOperations: Me neither, but nothing is moving, or is moving reaaaally slow...

23/09/21, 07:52 - Daniele MMOperations: IMG-20210923-WA0000.jpg (file allegato)  
Could it be?

23/09/21, 07:54 - Mihai Soceanu: only one pallet should go out from there

23/09/21, 07:57 - Support Technician 16: @Dani please discuss these matters with your maintainance people please first to confirm its not a mechanical issue, this chat should be used only for emergencies

23/09/21, 11:55 - Benedetta Zini: Hi @Support Technician 6 we have a ghost pallet at foiling infeed line CU281 and we have an issue open about it <https://jira.ssi-schaefer.com/browse/IT1400016-3757> ... Could you check it?

24/09/21, 07:54 - Company Employee 18: IMG-20210924-WA0000.jpg (file allegato)

24/09/21, 07:54 - Mihai Soceanu: what AGV is it

24/09/21, 07:54 - Mihai Soceanu: ?

24/09/21, 07:55 - Company Employee 18: Hi guys can you check why some agv have an T0 but don't complete the delivery

24/09/21, 07:55 - Company Employee 18: Is the 9 - and the 8

24/09/21, 07:55 - Company Employee 18: It blocked the other agv and we don't have any message in lighthouse 🙄

24/09/21, 07:57 - Mihai Soceanu: AGV9 and AGV8

24/09/21, 07:57 - Mihai Soceanu: ?

24/09/21, 07:57 - Mihai Soceanu: or which AGVs can not deliver

24/09/21, 07:57 - Mihai Soceanu: ?

24/09/21, 07:58 - Mihai Soceanu: i see 8 and 9 working

24/09/21, 07:59 - Company Employee 18: Both two

24/09/21, 08:00 - Company Employee 18: But now I have fix the error

24/09/21, 08:00 - Mihai Soceanu: but they are working

24/09/21, 08:00 - Mihai Soceanu: ah ok

24/09/21, 08:00 - Mihai Soceanu: before

24/09/21, 08:00 - Company Employee 18: We see if the problem still ok?

24/09/21, 08:00 - Mihai Soceanu: do you have any barcodes

24/09/21, 08:00 - Mihai Soceanu: ?

24/09/21, 08:00 - Mihai Soceanu: if it happens again pls let us know

24/09/21, 08:03 - Company Employee 18: Ok I do if it happens thx for your support

24/09/21, 08:03 - Mihai Soceanu: thx

24/09/21, 08:10 - Company Employee 18: It is happen now

24/09/21, 08:10 - Company Employee 18: Number 13

24/09/21, 08:11 - Company Employee 18: IMG-20210924-WA0003.jpg (file allegato)

24/09/21, 08:12 - Mihai Soceanu: in Hive and MFS all is ok\

24/09/21, 08:12 - Mihai Soceanu: @Support Technician 4

24/09/21, 08:12 - Mihai Soceanu: can you have a look pls

24/09/21, 08:12 - Mihai Soceanu: AGV says has no order or

24/09/21, 08:12 - Mihai Soceanu: ?

24/09/21, 08:14 - Mihai Soceanu: i am getting some message that order was deleted

24/09/21, 08:14 - Mihai Soceanu: MFS send it again

24/09/21, 08:17 - Mihai Soceanu: same pick up point was before also ?

24/09/21, 08:17 - Mihai Soceanu: 120 ?

24/09/21, 08:18 - Company Employee 18: IMG-20210924-WA0005.jpg (file allegato)

24/09/21, 08:19 - Company Employee 18: Yes this is in waiting

24/09/21, 08:19 - Mihai Soceanu: and AGV9 and AGV8 same pick up point ?

24/09/21, 08:20 - Mihai Soceanu: now was picked up correct ?

24/09/21, 08:20 - Company Employee 18: Yes

24/09/21, 08:20 - Company Employee 18: Yes the same point

24/09/21, 08:21 - Mihai Soceanu: ok, i have a lead

24/09/21, 08:21 - Mihai Soceanu: pls send a ticket

24/09/21, 08:21 - Mihai Soceanu: pls mention following

24/09/21, 08:21 - Mihai Soceanu: pallet 59944723 H could not be picked up from RP 120

24/09/21, 08:22 - Milo Barozzi: @Company Employee 18 I'll open the ticket, don't worry. Stay focused on field please

24/09/21, 08:22 - Mihai Soceanu: also other 2 pallets where in the same case

24/09/21, 08:28 - Milo Barozzi: I'm sending the ticket

24/09/21, 08:28 - Milo Barozzi: shall you make an "hotfix"?

24/09/21, 08:29 - Milo Barozzi: performance is a nightmare now.. 40%... 😞

24/09/21, 08:30 - Mihai Soceanu: omg...

24/09/21, 08:31 - Mihai Soceanu: i found that was related to preloads

24/09/21, 08:31 - Mihai Soceanu: and i deactivated the preload

24/09/21, 08:31 - Mihai Soceanu: on 120

24/09/21, 08:31 - Mihai Soceanu: we need to follow if it happens again

24/09/21, 08:40 - Milo Barozzi: so battle plan is to leave preload deactivated and see if it happens again for a certain period?

24/09/21, 08:40 - Milo Barozzi: If not, reactivate it and see?

24/09/21, 08:40 - Milo Barozzi: Strange thing is that preload is active from 15.09 and we are facing the issue today after 9 days... 🤖😞

24/09/21, 08:41 - Mihai Soceanu: yes, i am checking the code

24/09/21, 08:41 - Mihai Soceanu: to see what i can do

24/09/21, 08:43 - Milo Barozzi: 👍

24/09/21, 08:43 - Milo Barozzi: if we can help somehow, we're fully available for helping. just let us know.

24/09/21, 08:48 - Mihai Soceanu: thank yiu

24/09/21, 08:48 - Mihai Soceanu: you\*

24/09/21, 10:57 - Milo Barozzi: IMG-20210924-WA0014.jpg (file allegato)

Dear All, something seems not looking fine now. Shall you kindly check?

24/09/21, 11:01 - Milo Barozzi: there are 947 orders in the system... it's quite impossible we have at least not 1 order for each of the ten pick stations

24/09/21, 11:02 - Milo Barozzi: 📞

24/09/21, 11:30 - Milo Barozzi: 📞 Are you looking at the issue?

24/09/21, 11:30 - Milo Barozzi: I also opened a ticket since it's a mess if we don't get out of this situation

24/09/21, 11:31 - Milo Barozzi: one more hint: it seems this situation (no orders assigned) is happening when we have a lot of orders with priority 8 o 9

24/09/21, 11:31 - Milo Barozzi: I don't know if it matters or not, but it's a suspicious we have

24/09/21, 11:37 - Support Technician 16: "[HBW01-Ass (Picking)] Unable to process clamp handling for station HBW01. Picking order is not created. No other PPLUs will be considered for station. - GtpPickingOrderCreator'

24/09/21, 11:37 - Support Technician 16: you are trying to change clamp on station 1 without having a clamp available

24/09/21, 11:38 - Support Technician 16: you have set a normal one and are trying to change with a extra size one

24/09/21, 11:40 - Support Technician 16: I reverted your clamp change

24/09/21, 11:40 - Support Technician 16: Picking orders back on track

24/09/21, 11:45 - Support Technician 16: Would be possible to have clamps available at all time in the warehouse so that this does not happen again?

24/09/21, 11:49 - Milo Barozzi: But who tried to change clamp and when?

24/09/21, 11:53 - Support Technician 16: we are not sure as Work Stations are not provided with protocol as of standard wamas

24/09/21, 11:54 - Support Technician 16: Would you agree to a 'fix' that when selecting 'Change Clamp' action from the station, we also check if you have that kind of clamp in the HBW01 and if you do not have give you an error message and deny the change?

24/09/21, 11:59 - Milo Barozzi: That's exactly what I was thinking about!

24/09/21, 12:00 - Support Technician 16: Great, we will make it as part of the ticket you opened today, please update your excel accordingly

24/09/21, 12:19 - Milo Barozzi: Sure! Thank you very much!

24/09/21, 12:31 - Andrea Brunetti: IMG-20210924-WA0015.jpg (file allegato)

Srm01 Is stopped from many time and the Page mf210 don't run @Support Technician 6 can you check

24/09/21, 12:31 - Andrea Brunetti: This?

24/09/21, 12:32 - Andrea Brunetti: <Media omessi>

24/09/21, 12:54 - Nicola Bernardi: IMG-20210924-WA0016.jpg (file allegato)

On SRM01 the pallet on CU194 would goes on a SH1 01-D-311-11, but on this

location I have 2 order, can you check the pallet on CU194 and CU193 ? It's ASAP, this crane is locked since long time thanks

24/09/21, 12:57 - Mihai Soceanu: IMG-20210924-WA0017.jpg (file allegato)

24/09/21, 12:57 - Mihai Soceanu: crane is in manual mode

24/09/21, 12:57 - Mihai Soceanu: did you try to reset

24/09/21, 12:57 - Mihai Soceanu: as i mentioned last time

24/09/21, 13:02 - Andrea Brunetti: IMG-20210924-WA0018.jpg (file allegato)

24/09/21, 13:02 - Nicola Bernardi: 😞 it's start , can you explain me the solution of this issue?@Support Technician 6

24/09/21, 13:06 - Mihai Soceanu: in MF210 you have the option to reset manual handling

24/09/21, 13:08 - Andrea Brunetti: I have tried to make the same thing but it doesn't work (reset manual handling )

24/09/21, 13:08 - Nicola Bernardi: <Media omessi>

24/09/21, 13:10 - Nicola Bernardi: @Support Technician 6 I tried to abrunetti1, abrunetti2, nbernardi1 and nbernardi2 to reset manual handling and in all profiles not work (you can see the error on video)

24/09/21, 13:12 - Mihai Soceanu: :(

24/09/21, 13:19 - Nicola Bernardi: I wanted to try the magic button

24/09/21, 13:23 - Milo Barozzi: But you missed to use the magic word... ☐

24/09/21, 13:23 - Milo Barozzi: Apart from jokes, I'll reopen "magic button issue" or maintenance is now allowed to use it and also superusers? @Support Technician 6

24/09/21, 13:30 - Mihai Soceanu: ok

24/09/21, 13:30 - Mihai Soceanu: yes pls

24/09/21, 13:53 - Milo Barozzi: 👍

24/09/21, 17:22 - Nicola Bernardi: @Support Technician 6 can you check the SRM08? On forks it is a pallet 58093462 but doesn't go away

24/09/21, 17:22 - Mihai Soceanu: one sec

24/09/21, 17:23 - Nicola Bernardi: And it is blocking all picking station's orders

24/09/21, 17:23 - Mihai Soceanu: i will push it to S46

24/09/21, 17:33 - Nicola Bernardi: Have you find the issue?

24/09/21, 17:33 - Mihai Soceanu: yes it could not find target in S48

24/09/21, 17:33 - Mihai Soceanu: ...

27/09/21, 05:53 - Mihai Soceanu: hi

27/09/21, 05:53 - Mihai Soceanu: 60363728

27/09/21, 05:53 - Mihai Soceanu: pls let me know if we have anything on 120

27/09/21, 05:54 - Mihai Soceanu: the wunderwuzzi retrieval point

27/09/21, 06:08 - Giacomo Trivieri, Lavoro: @Support Technician 6 hi mihai good morning👋cu120 is empty

27/09/21, 06:09 - Mihai Soceanu: ok thx

27/09/21, 06:10 - Giacomo Trivieri, Lavoro: @Support Technician 6 have i to make something?

27/09/21, 06:11 - Mihai Soceanu: in the morning when pallet was picked up by AGV 09. AGV 09 entered in error was handled

27/09/21, 06:12 - Mihai Soceanu: but always pls keep in mind to remove the order from PLC if it is still there

27/09/21, 06:12 - Mihai Soceanu: i removed it

27/09/21, 06:12 - Mihai Soceanu: 60363728 is on 125 correct

27/09/21, 06:12 - Mihai Soceanu: ?

27/09/21, 06:13 - Giacomo Trivieri, Lavoro: No It is not; on cu125 there is 60586693

27/09/21, 06:13 - Giacomo Trivieri, Lavoro: Sorry my mistake😞yes It is correct 60363728 is on cu125

27/09/21, 06:14 - Mihai Soceanu: ok thx

27/09/21, 07:22 - Mihai Soceanu: IMG-20210927-WA0000.jpg (file allegato)

27/09/21, 07:22 - Mihai Soceanu: pls check why AGV25 is not picking up

27/09/21, 07:22 - Mihai Soceanu: from station 6

27/09/21, 07:24 - Nicola Bernardi: I know, the operator has created a wrong order, he has to fix that (the order)

27/09/21, 07:24 - Mihai Soceanu: ok thx

27/09/21, 07:51 - Mihai Soceanu: pls check following pallets, they are in HBW with source not available and need to go to stations as mentioned in

paranthesis: 59587434(Station 9 target), 59841179(station 9 source) and 70151239(station 10 source)

27/09/21, 08:06 - Giacomo Trivieri, Lavoro: Why those sources are not available?

27/09/21, 08:07 - Mihai Soceanu: Crane gave error

27/09/21, 08:07 - Mihai Soceanu: When tried to pick them up

27/09/21, 08:07 - Mihai Soceanu: I can not tell the phisical situation

27/09/21, 08:09 - Giacomo Trivieri, Lavoro: Ok got It we are checking

27/09/21, 08:09 - Mihai Soceanu: Thx

27/09/21, 14:44 - Milo Barozzi: IMG-20210927-WA0010.jpg (file allegato)

@Support Technician 16 strange case for you I think. U destacker is empty, no more Us in the system so it's ok that's empty, but F is compatible with U, therefore system should send Fs instead of Us. It seems pick station #1 is not getting empty pallets assigned to it and I believe it's for this. Can it be?

27/09/21, 14:57 - Support Technician 16: @Company Employee 16 sorry, I am not following, what do you mean by the sentence F is compatible with U?

27/09/21, 15:00 - Milo Barozzi: IMG-20210927-WA0011.jpg (file allegato)

I mean this:

27/09/21, 15:00 - Milo Barozzi: so WAMAS should send Fs instead of Us if there are no Us in the system and source loading aid type is U

27/09/21, 15:00 - Support Technician 16: but your station 1 is full at the destinations...

27/09/21, 15:01 - Support Technician 16: IMG-20210927-WA0012.jpg (file allegato)

27/09/21, 15:02 - Milo Barozzi: I was not told about it and had no opportunity to check sorry... so AGVs retrieval time was the issue again...

27/09/21, 15:02 - Milo Barozzi: thanks Adrian and sorry for that

27/09/21, 15:02 - Support Technician 16: no problem, yes, retrieval time is the issue

27/09/21, 15:03 - Milo Barozzi: sooner or later, we'll fix also that... 

27/09/21, 18:15 - Company Employee 18: Hi guys can you check the infeed of the crane 5 because the situation is correct on lighthouse and on wamas but the conveyor don't moving to go in place and the crane don't take the pallet

27/09/21, 18:15 - Company Employee 18: @Support Technician 6

27/09/21, 18:24 - Company Employee 18: @Support Technician 21

27/09/21, 18:25 - Razvan Voicu: Hi giacom, I am not near a computer right now. If you need help, please contact CC

27/09/21, 18:26 - Mihai Soceanu: i reset the manual handling

27/09/21, 18:26 - Mihai Soceanu: all ok

27/09/21, 18:27 - Company Employee 18: I have see thx Mihai

27/09/21, 18:28 - Andrea Brunetti: MF 210 don't working if the last time

27/09/21, 18:28 - Andrea Brunetti: <Media omessi>

27/09/21, 18:48 - Mihai Soceanu: We know :( we have a bug...

27/09/21, 18:53 - Milo Barozzi: Ciao Andre, confermo: bug segnalato ma sarà risolto con il prossimo aggiornamento del sistema

27/09/21, 18:54 - Andrea Brunetti: Okay perfetto basta solo che si sa , grazie mille 

28/09/21, 07:23 - Tudor, Progetto Lavoro: IMG-20210928-WA0001.jpg (file allegato)

Buna dimineata

28/09/21, 07:23 - Tudor, Progetto Lavoro: Va rog sa verificați de ce nu sunt ordine în og039

28/09/21, 08:17 - Nicola Bernardi: IMG-20210928-WA0008.jpg (file allegato)

28/09/21, 08:17 - Nicola Bernardi: IMG-20210928-WA0009.jpg (file allegato)

28/09/21, 08:17 - Nicola Bernardi: Can you check this?

28/09/21, 08:17 - Nicola Bernardi: IMG-20210928-WA0010.jpg (file allegato)

28/09/21, 08:17 - Nicola Bernardi: 60592206

28/09/21, 08:30 - Nicola Bernardi: Can I have a feedback of your checking? Because the AGV are stopped in infeed conveyor of foiling

28/09/21, 08:44 - Milo Barozzi: IMG-20210928-WA0014.jpg (file allegato)

Dear All, issue from Nicola is F63 for which we need "enforce" button that we don't have right now. I kindly ask you to solve this now and to speed up as fast as possible giving us the chance of the "ENFORCE" button

28/09/21, 08:50 - Support Technician 16: @Company Employee 16 is the pallet working now?

28/09/21, 08:50 - Milo Barozzi: yep, what you did?

28/09/21, 08:50 - Support Technician 16: IMG-20210928-WA0015.jpg (file allegato)  
28/09/21, 08:51 - Milo Barozzi: It was not that. I stroke that button 200 times 😊  
28/09/21, 08:51 - Support Technician 16: weird, I did nothing else, maybe I have the magic finger 😊  
28/09/21, 08:52 - Nicola Bernardi: Only you 200, I pressed it 500 times in 30 minutes 🤔  
28/09/21, 08:52 - Milo Barozzi: does "refresh from DB" work only when TPO is Active 10% or more? because before (when we tried 200+500= 700 times) it was New 0%  
28/09/21, 08:54 - Support Technician 16: no, I will talk with Mihai when he will be available to see what really happened and what was the 'magic' solution  
28/09/21, 08:54 - Milo Barozzi: yes, please. I'm really curious to know it  
28/09/21, 08:55 - Nicola Bernardi: Me too  
28/09/21, 11:22 - Mihai Soceanu: do we have an empty pallet on the 404 location ?  
28/09/21, 11:22 - Mihai Soceanu: AF standalone destacker  
28/09/21, 11:22 - Mihai Soceanu: ?  
28/09/21, 11:26 - Nicola Bernardi: IMG-20210928-WA0021.jpg (file allegato)  
28/09/21, 11:27 - Mihai Soceanu: ok thx  
28/09/21, 12:05 - Milo Barozzi: Dear All, sorry to bother you but orders in OG039 are significantly decreasing now  
28/09/21, 12:05 - Milo Barozzi: SOS  
28/09/21, 12:05 - Milo Barozzi: I'll send a ticket also, but first wanted to "trigger" observation from you in line and hopefully a fix  
28/09/21, 12:06 - Milo Barozzi: stations #1, #7, #9 and #12 have just one pick order assigned and even not too big  
28/09/21, 12:06 - Milo Barozzi: IMG-20210928-WA0023.jpg (file allegato)  
some examples:  
28/09/21, 12:07 - Milo Barozzi: IMG-20210928-WA0024.jpg (file allegato)  
28/09/21, 12:07 - Milo Barozzi: IMG-20210928-WA0025.jpg (file allegato)  
28/09/21, 12:08 - Milo Barozzi: IMG-20210928-WA0026.jpg (file allegato)  
5th order in line in OG025 seems to be "executable" but it's not going to be assigned yet:  
28/09/21, 12:08 - Milo Barozzi: OBD0000264105  
28/09/21, 12:15 - Support Technician 16: orders are back to normal without intervention from our side, we will look  
28/09/21, 12:30 - Milo Barozzi: 😊 thank you Adrian  
28/09/21, 14:01 - Company Employee 18: Hi guys can you check why Picking station 6 no have empty pallet on D01 - D02?  
28/09/21, 14:03 - Mihai Soceanu: 6 is waiting for a F  
28/09/21, 14:03 - Mihai Soceanu: and for a negative from HBW  
28/09/21, 14:06 - Support Technician 16: the empty F is on ATX-03  
28/09/21, 14:07 - Company Employee 18: Ok thx  
28/09/21, 14:25 - Daniele MMOperations: Hi guys, in BP9 S03 we have a PLT, 60591502. We dont need it, it's here from yesterday. If i try to create a TPO it doesnt move from here. Could you pls check? Thanks  
28/09/21, 14:26 - Support Technician 16: did you use the move away logic?  
28/09/21, 14:28 - Support Technician 16: because from what I see you are trying to move the pallet to an already occupied location  
28/09/21, 14:28 - Support Technician 16: IMG-20210928-WA0029.jpg (file allegato)  
28/09/21, 14:29 - Support Technician 16: IMG-20210928-WA0030.jpg (file allegato)  
28/09/21, 14:29 - Milo Barozzi: @Company Employee 24 prova "fai rientrare le udc"  
28/09/21, 14:30 - Daniele MMOperations: Già provato, nulla  
28/09/21, 14:33 - Daniele MMOperations: IMG-20210928-WA0031.jpg (file allegato)  
28/09/21, 14:33 - Support Technician 16: first please cancel the existing TPO...  
28/09/21, 14:33 - Daniele MMOperations: Same problem in picking station 4,7,8 and 12  
28/09/21, 14:33 - Daniele MMOperations: Done  
28/09/21, 14:34 - Support Technician 16: and now try move away  
28/09/21, 14:35 - Support Technician 16: what problem?  
28/09/21, 14:36 - Daniele MMOperations: Order done, we dont need the PLTs anymore, but they are stuck in the location

28/09/21, 14:36 - Milo Barozzi: sourceLUS not needed for picking that don't go away  
 28/09/21, 14:38 - Support Technician 16: IMG-20210928-WA0032.jpg (file allegato)  
 28/09/21, 14:39 - Milo Barozzi: IMG-20210928-WA0033.jpg (file allegato)  
 it's due to this  
 28/09/21, 14:40 - Support Technician 16: ohh...  
 28/09/21, 14:49 - Milo Barozzi: @Company Employee 24 are pick station fine now?  
 28/09/21, 14:49 - Milo Barozzi: \*stations  
 28/09/21, 14:54 - Daniele MMOperations: Yes, everything was released  
 28/09/21, 14:54 - Daniele MMOperations: Still taking a lot of time for empty PLTs  
 28/09/21, 15:03 - Mihai Soceanu: we are working on prio update  
 28/09/21, 15:04 - Mihai Soceanu: and we hope we will have the correct behaviour  
 28/09/21, 15:59 - Daniele MMOperations: Manual deslaving has some PLTs that wont ho away

 28/09/21, 16:29 - Andrea Brunetti: Questo messaggio è stato eliminato.  
 28/09/21, 16:51 - Company Employee 18: Hi guys can you check this udc 6591502 is on the picking station 9 S03

The pallet don't return in sh1

28/09/21, 16:51 - Mihai Soceanu: yes  
 28/09/21, 16:56 - Company Employee 18: Is gone thx Mihai  
 28/09/21, 16:56 - Mihai Soceanu: np  
 28/09/21, 16:56 - Company Employee 18: What is the problem?  
 28/09/21, 16:56 - Company Employee 18: Is strange!  
 28/09/21, 16:56 - Company Employee 18: Everithing for me was correct  
 28/09/21, 16:58 - Mihai Soceanu: not strage, due to crashes and reset of EMS it lost the order  
 28/09/21, 16:58 - Mihai Soceanu: :(  
 28/09/21, 16:58 - Mihai Soceanu: and i needed to resend  
 28/09/21, 16:58 - Mihai Soceanu: i am checking the other ones  
 28/09/21, 16:58 - Mihai Soceanu: if they need the same  
 28/09/21, 16:58 - Mihai Soceanu: ...  
 28/09/21, 16:59 - Company Employee 18: Ok I understand i hope to fix this issues  
 28/09/21, 17:00 - Mihai Soceanu: the rest seems to be ok  
 28/09/21, 17:00 - Company Employee 18: Ok perfect 👍  
 28/09/21, 17:59 - Daniele MMOperations: Picking station n.8 is waiting a lot of time for an empty PLT, on Wamas i cant see the number... is sonething wrong?  
 Thanks  
 28/09/21, 20:17 - Mihai Soceanu: hi what is the phisicall situation on destacker F ?  
 28/09/21, 20:20 - Company Employee 18: I go to see

 28/09/21, 20:23 - Company Employee 18: Now I think it is ok  
 28/09/21, 20:23 - Mihai Soceanu: yes  
 28/09/21, 20:24 - Company Employee 18: Perfect 👍  
 28/09/21, 20:25 - Company Employee 18: @Support Technician 6 5 minutes and send every agv in charge for the update ok?  
 28/09/21, 20:25 - Mihai Soceanu: ok  
 28/09/21, 20:26 - Company Employee 18: When are all in charging mode I inform you to start ok?  
 28/09/21, 20:26 - Mihai Soceanu: yes  
 28/09/21, 20:26 - Mihai Soceanu: i am checking LH  
 28/09/21, 20:26 - Mihai Soceanu: :)  
 28/09/21, 20:26 - Company Employee 18: Excellent 😊

 28/09/21, 20:35 - Mihai Soceanu: these are the remaining orders  
 28/09/21, 20:35 - Mihai Soceanu: just to have them as a hint  
 28/09/21, 20:36 - Mihai Soceanu: i will stop Hive  
 28/09/21, 20:36 - Milo Barozzi: 9 not assigned, not the best condition ever, but keep fingers crossed...🤞  
 28/09/21, 20:38 - Company Employee 18: Ok Mihai start ⚡⚡  
 28/09/21, 20:38 - Mihai Soceanu: up  
 28/09/21, 20:38 - Mihai Soceanu: start  
 28/09/21, 20:39 - Mihai Soceanu: you can start AGVs  
 28/09/21, 20:39 - Milo Barozzi: 8 mins, that's a new Guinness world record!  
 28/09/21, 20:39 - Mihai Soceanu: hehe  
 28/09/21, 20:39 - Company Employee 18: 😬😬  
 28/09/21, 20:39 - Company Employee 18: Perfect i start the agv  
 28/09/21, 20:39 - Milo Barozzi: Go go go

 28/09/21, 20:43 - Mihai Soceanu: :)))  
 28/09/21, 20:43 - Milo Barozzi: @Support Technician 6 and what about the other AGVs?  
 28/09/21, 20:43 - Milo Barozzi: Transport orders are working?  
 28/09/21, 20:43 - Mihai Soceanu: yes  
 28/09/21, 20:44 - Milo Barozzi: Also the ones which were pending?

 28/09/21, 20:44 - Mihai Soceanu: we are back on track  
 28/09/21, 20:44 - Mihai Soceanu: i do not see any consequence  
 28/09/21, 20:44 - Mihai Soceanu: at least so far  
 28/09/21, 20:44 - Mihai Soceanu: i activated both prio increase4  
 28/09/21, 20:45 - Mihai Soceanu: leaving and entering station  
 28/09/21, 20:45 - Milo Barozzi: Good!  
 28/09/21, 20:45 - Mihai Soceanu: both are working  
 28/09/21, 20:46 - Milo Barozzi: 😊😊  
 28/09/21, 20:47 - Milo Barozzi: If you are 99% sure and for you there's no drawback... you can leave leaving and entering priority features activated  
 28/09/21, 20:47 - Milo Barozzi: So tomorrow when we are onsite...We can look at numbers and understand if there are any benefits... 🤖🤖🤖  
 28/09/21, 20:48 - Mihai Soceanu: 99 not yest  
 28/09/21, 20:48 - Mihai Soceanu: yet\*  
 28/09/21, 20:48 - Gionata Evangelisti ha abbandonato.  
 28/09/21, 20:48 - Mihai Soceanu: i wait for delivery to foiling  
 28/09/21, 20:48 - Mihai Soceanu: at least some of them  
 28/09/21, 20:49 - Mihai Soceanu: if you ask about the increse prio logic i am 99% sure is working  
 28/09/21, 20:49 - Milo Barozzi: To stay on the safe side, deactivate them when you leave from watching system now and reactivate it tomorrow morning when you're back on track  
 28/09/21, 20:49 - Milo Barozzi: I'm asking about leaving/entering prio logics

28/09/21, 20:50 - Mihai Soceanu: yep  
 28/09/21, 20:50 - Mihai Soceanu: ok i will deactivate when i am out  
 28/09/21, 20:50 - Mihai Soceanu: and activate tomorrow  
 28/09/21, 20:52 - Milo Barozzi: 👍👍 better not ask too much to luck  
 28/09/21, 20:52 - Milo Barozzi: 😊  
 28/09/21, 20:52 - Mihai Soceanu: i agree defenetly  
 28/09/21, 20:52 - Milo Barozzi: 👍👍  
 28/09/21, 20:52 - Milo Barozzi: What's status of hive now?  
 28/09/21, 20:52 - Mihai Soceanu: all ok  
 28/09/21, 20:53 - Milo Barozzi: Goood  
 28/09/21, 20:53 - Mihai Soceanu: i see no errors  
 28/09/21, 20:53 - Mihai Soceanu: pallets are delivered  
 28/09/21, 20:53 - Milo Barozzi: Is also "level 2 prio" inside hive now but not active?  
 28/09/21, 20:53 - Mihai Soceanu: yes  
 28/09/21, 20:53 - Milo Barozzi: Also new orders out of the ones already present in the system?  
 28/09/21, 20:54 - Milo Barozzi: Nice tomorrow we'll have fun in trying all these features  
 28/09/21, 20:54 - Mihai Soceanu: all seems to be ok  
 28/09/21, 20:54 - Milo Barozzi: Thanks to everybody and goodnight to All! 👍  
 28/09/21, 20:54 - Mihai Soceanu: from what i can see  
 28/09/21, 20:54 - Mihai Soceanu: thank you so much the same  
 28/09/21, 20:54 - Mihai Soceanu: and maaany thanks to maintenance team !!!  
 28/09/21, 20:55 - Mihai Soceanu: i will deactivate prio updates  
 28/09/21, 20:57 - Milo Barozzi: 👍  
 29/09/21, 06:34 - Mihai Soceanu: morning  
 29/09/21, 06:34 - Mihai Soceanu: prio increase is active  
 29/09/21, 06:34 - Mihai Soceanu: we can start sampling from 07:00 (IT) time  
 29/09/21, 06:53 - Mihai Soceanu: IMG-20210929-WA0000.jpg (file allegato)  
 29/09/21, 06:53 - Mihai Soceanu: pls check why AGV21 is ot picking up  
 29/09/21, 06:53 - Mihai Soceanu: i can not see any issue in MFS/Hive  
 29/09/21, 07:25 - Mihai Soceanu: IMG-20210929-WA0001.jpg (file allegato)  
 29/09/21, 07:25 - Mihai Soceanu: pls check turn table after foiling  
 29/09/21, 07:25 - Mihai Soceanu: why the pallet can nnot go to NOK  
 29/09/21, 07:26 - Mihai Soceanu: MFS sent the telegram and PLC has it  
 29/09/21, 07:33 - Milo Barozzi: 👍  
 29/09/21, 07:41 - Giacomo Trivieri, Lavoro: @Support Technician 6 give us a couple of minutes  
 29/09/21, 07:41 - Mihai Soceanu: all is ok now  
 29/09/21, 07:41 - Mihai Soceanu: NOK is sloved  
 29/09/21, 07:41 - Mihai Soceanu: AGV21 is back on track  
 29/09/21, 08:49 - Mihai Soceanu: IMG-20210929-WA0004.jpg (file allegato)  
 29/09/21, 08:49 - Mihai Soceanu: pls let us know why theseAGVs are blocking each other

 29/09/21, 13:55 - Mihai Soceanu: ok  
 29/09/21, 13:55 - Mihai Soceanu: pls cancel step for 59694306  
 29/09/21, 13:56 - Mihai Soceanu: and book it back to HRA07X077Y12Z11  
 29/09/21, 13:57 - Company Employee 18: Ok perfect i need to do something for crane 7?  
 29/09/21, 13:57 - Mihai Soceanu: no  
 29/09/21, 13:57 - Company Employee 18: Ok thx for the help  
 29/09/21, 13:58 - Mihai Soceanu: np  
 29/09/21, 13:58 - Mihai Soceanu: i can give you dirrections if you need

29/09/21, 15:04 - Benedetta Zini: We can't fix crane 7 with mf210  
29/09/21, 15:18 - Benedetta Zini: @Mihai Soceanu Could you fix crane 7? Because 60601302 on CU150 doesn't go on ...  
29/09/21, 15:24 - Milo Barozzi: @Support Technician 6 I think "magic button" is needed to "reset manual handling"  
29/09/21, 15:36 - Mihai Soceanu: i check  
29/09/21, 15:37 - Mihai Soceanu: IMG-20210929-WA0019.jpg (file allegato)  
29/09/21, 15:38 - Mihai Soceanu: telegram was send by MFS  
29/09/21, 15:38 - Mihai Soceanu: IMG-20210929-WA0020.jpg (file allegato)  
29/09/21, 15:39 - Mihai Soceanu: IMG-20210929-WA0021.jpg (file allegato)  
29/09/21, 15:39 - Mihai Soceanu: pls remove occupancy  
29/09/21, 15:53 - Andrea Brunetti: Okay perfect  
29/09/21, 16:07 - Mihai Soceanu: IMG-20210929-WA0022.jpg (file allegato)  
29/09/21, 16:07 - Mihai Soceanu: these 2 are charging ?  
29/09/21, 16:32 - Company Employee 18: No the number 2 and the 3 have mission  
29/09/21, 17:45 - Mihai Soceanu: IMG-20210929-WA0026.jpg (file allegato)  
29/09/21, 17:45 - Mihai Soceanu: i do not see them mopving for a long time  
29/09/21, 17:45 - Mihai Soceanu: and i see no mission for them  
29/09/21, 17:45 - Mihai Soceanu: may you pls check  
29/09/21, 17:45 - Mihai Soceanu: /  
29/09/21, 17:45 - Mihai Soceanu: ?  
29/09/21, 18:02 - Company Employee 18: Yes we check  
29/09/21, 18:59 - Mihai Soceanu: pls check AGV11  
29/09/21, 19:00 - Mihai Soceanu: i think is blocking locations in S46  
29/09/21, 19:00 - Company Employee 18: Yes we check  
29/09/21, 19:00 - Mihai Soceanu: it delivered  
29/09/21, 19:00 - Mihai Soceanu: thnak you  
30/09/21, 10:35 - Support Technician 25: Ciao ragazzi, who is on maintenance shift right now?!  
30/09/21, 10:36 - Milo Barozzi: Hi Matthias it's Nicola and Matteo  
30/09/21, 13:01 - Nicola Bernardi: @Support Technician 6 can you check the manual handling of Crane11?  
30/09/21, 13:01 - Mihai Soceanu: ok  
30/09/21, 13:02 - Mihai Soceanu: i reset  
30/09/21, 18:41 - Company Employee 18: Hi guys we have a big problem with lighthouse! We don't see the scada! We are blind now! Can you help us?  
30/09/21, 18:42 - Milo Barozzi: Lighthouse is not visible  
30/09/21, 18:42 - Milo Barozzi:   
30/09/21, 18:55 - Support Technician 14: up and running  
30/09/21, 18:57 - Milo Barozzi: thanks Flaviu  
30/09/21, 18:57 - Milo Barozzi: what was the issue? 😞  
30/09/21, 18:57 - Milo Barozzi: today we're missing aliens and asteroids.. than everything happened  
30/09/21, 18:58 - Support Technician 14: The service eas stopped..  
30/09/21, 18:58 - Andrea Brunetti: IMG-20210930-WA0019.jpg (file allegato)  
Yeah 🙌👉👈  
30/09/21, 18:58 - Support Technician 14: We'll check more tomorro  
01/10/21, 11:14 - Support Technician 16: @Company Employee 16 can someone please give me a barcode for a pallet that received today an upside down label?  
01/10/21, 11:42 - Nicola Bernardi: IMG-20211001-WA0012.jpg (file allegato)  
@Support Technician 6 can you check this? Is stopped from one hour  
01/10/21, 11:42 - Milo Barozzi: I'm onsite, I'll try to catch one on the fly...2 mins please  
01/10/21, 11:43 - Support Technician 16: thank you very much  
01/10/21, 11:44 - Mihai Soceanu: oh shit is problem from morning with 8005...  
01/10/21, 11:44 - Mihai Soceanu: on esec  
01/10/21, 11:45 - Milo Barozzi: Unfortunately no rear loading pallets at the moment. A old one is fine anyway?  
01/10/21, 11:46 - Support Technician 16: yes  
01/10/21, 11:46 - Milo Barozzi: IMG-20211001-WA0013.jpg (file allegato)  
This is from June @Support Technician 16  
01/10/21, 11:47 - Support Technician 16: sorry can not see, what is the barcode of the pallet?

01/10/21, 11:47 - Milo Barozzi: IMG-20211001-WA0014.jpg (file allegato)

01/10/21, 11:48 - Milo Barozzi: Sorry, I was searching for barcode pictures 🤔  
01/10/21, 11:51 - Support Technician 25: Is tis Applicator #3 or #5 ?  
01/10/21, 11:54 - Support Technician 16: No problem, thank you very much, if you find any from today please also tell me  
01/10/21, 11:55 - Milo Barozzi: #4  
01/10/21, 11:56 - Milo Barozzi: the one applied correctly is #4. on one side (applicator #4) it's correct, on side #5 is upside down  
01/10/21, 12:06 - Mihai Soceanu: can you pls help  
01/10/21, 12:06 - Mihai Soceanu: we need to take off manually D pallet and H pallet  
01/10/21, 12:06 - Mihai Soceanu: from destacker  
01/10/21, 12:06 - Mihai Soceanu: the AF, U and X i managed  
01/10/21, 12:06 - Mihai Soceanu: ...  
01/10/21, 12:07 - Milo Barozzi: @Company Employee 17 @Company Employee 10 riuscite voi ad aiutare Mihai? vanno rimossi il pallet D e H che sono stati "sfogliati" dal destacker  
01/10/21, 12:09 - Nicola Bernardi: Yes give me 2 min  
01/10/21, 12:22 - Nicola Bernardi: IMG-20211001-WA0016.jpg (file allegato)  
@Support Technician 6  
01/10/21, 12:23 - Mihai Soceanu: thx  
01/10/21, 12:24 - Mihai Soceanu: all ok ?  
01/10/21, 12:25 - Mihai Soceanu: on MFS level looks ok  
01/10/21, 12:29 - Support Technician 25: @Company Employee 17 can you give it a try on Printer #5??  
01/10/21, 12:29 - Support Technician 25: IMG-20211001-WA0017.jpg (file allegato)  
01/10/21, 12:30 - Milo Barozzi: @Company Employee 17 vengo io sul campo a farlo, non preoccuparti  
01/10/21, 12:30 - Milo Barozzi: @Company Employee 17 tempo 10 minuti che mando una mail e arrivo a fare la prova  
01/10/21, 12:35 - Nicola Bernardi: For now yes👍  
01/10/21, 12:35 - Nicola Bernardi: Grazie  
01/10/21, 12:35 - Mihai Soceanu: Thx so much for helping  
01/10/21, 12:36 - Nicola Bernardi: Thank you too  
01/10/21, 12:52 - Nicola Bernardi: @Support Technician 6 can you check the crane 6 for manual handling?  
01/10/21, 12:52 - Mihai Soceanu: yes  
01/10/21, 12:54 - Mihai Soceanu: i reset  
01/10/21, 12:55 - Nicola Bernardi: Do you know when the "magic button" will be usable?  
01/10/21, 12:55 - Mihai Soceanu: i hope we can have it for next deploy  
01/10/21, 12:56 - Milo Barozzi: me too, maintenance guys also 🤖  
01/10/21, 14:30 - Company Employee 18: Hi guys can you check why the AF stacker is empty? @Support Technician 6 🤔  
01/10/21, 14:30 - Mihai Soceanu: yes  
01/10/21, 14:32 - Mihai Soceanu: leftover from morning  
01/10/21, 14:32 - Mihai Soceanu: ...  
01/10/21, 14:32 - Mihai Soceanu: 60597288  
01/10/21, 14:32 - Mihai Soceanu: i will delete  
01/10/21, 14:34 - Mihai Soceanu: 60597336 will come  
01/10/21, 14:35 - Company Employee 18: Ok thx Mihai  
01/10/21, 15:11 - Milo Barozzi: dear All, sorry, somebody finalized TPO for 59847097 while it was on a conveyor and now we cannot create a TPO for it ... shall you kindly remedy, pls?  
01/10/21, 15:12 - Milo Barozzi: it should go to pick station #6  
01/10/21, 15:13 - Milo Barozzi: maybe if I finalise pick order which requires it, it'll go away autonomously  
01/10/21, 15:14 - Support Technician 16: if you finalize the pick order you will be able to create the tpo based on fog  
01/10/21, 15:14 - Milo Barozzi: I'll do it  
01/10/21, 17:44 - Mihai Soceanu: IMG-20211001-WA0030.jpg (file allegato)

01/10/21, 17:44 - Mihai Soceanu: do we have a pallet on wunderwuzzi infeed  
01/10/21, 17:44 - Mihai Soceanu: ?  
01/10/21, 17:44 - Mihai Soceanu: physicaly ?  
01/10/21, 17:47 - Daniele MMOperations: It's empty  
01/10/21, 17:48 - Mihai Soceanu: ok thx  
01/10/21, 17:48 - Mihai Soceanu: pls book TEMP9971  
01/10/21, 17:48 - Mihai Soceanu: to lost and found  
01/10/21, 17:48 - Mihai Soceanu: because remained oin SLF  
01/10/21, 17:49 - Mihai Soceanu: SLF01C1251  
01/10/21, 17:50 - Milo Barozzi: I'll cancel it  
01/10/21, 17:50 - Milo Barozzi: otherwise we have plenty of pallets in  
LOST\_AND\_FOUND  
01/10/21, 17:50 - Milo Barozzi: TEMPx can be directly cancelled if they have no  
stock on them  
01/10/21, 17:50 - Mihai Soceanu: remove it from location  
01/10/21, 17:50 - Mihai Soceanu: delete it yes  
01/10/21, 17:51 - Milo Barozzi: deleted  
01/10/21, 17:51 - Milo Barozzi: 😊  
01/10/21, 17:58 - Mihai Soceanu: thx  
01/10/21, 18:46 - Company Employee 18: @Support Technician 6 hi can you help us  
with this udc 60688555  
In in the TT08PC056  
01/10/21, 18:46 - Mihai Soceanu: i check  
01/10/21, 18:47 - Company Employee 18: Phisically is here crane 11 exit  
01/10/21, 18:47 - Company Employee 18: IMG-20211001-WA0040.jpg (file allegato)  
01/10/21, 18:48 - Mihai Soceanu: i will add S46 as target, it lost storage  
target in S48  
01/10/21, 18:49 - Company Employee 18: Mmm we are able to do that?  
01/10/21, 18:49 - Mihai Soceanu: TPO was suspended  
01/10/21, 18:50 - Company Employee 18: Ok I understand but you have fix with mfs  
right?  
01/10/21, 18:51 - Mihai Soceanu: in case we suspend TPO and pallet is losing  
target to S48  
01/10/21, 18:51 - Mihai Soceanu: and S48 is full  
01/10/21, 18:51 - Mihai Soceanu: then pallet will give storage failed  
01/10/21, 18:51 - Mihai Soceanu: but this time was only TPO suspended  
01/10/21, 18:52 - Mihai Soceanu: and i did not see at first  
01/10/21, 18:52 - Mihai Soceanu: ...  
01/10/21, 18:54 - Company Employee 18: Ok ok perfect i understand what happen  
thx Mihai  
01/10/21, 18:55 - Mihai Soceanu: no problem  
01/10/21, 19:13 - Company Employee 18: @Support Technician 6 can you check why  
some picking station are in stop?  
01/10/21, 19:28 - Company Employee 18: ?  
01/10/21, 19:28 - Mihai Soceanu: stations do not receive pallers  
01/10/21, 19:28 - Mihai Soceanu: ?  
01/10/21, 19:28 - Mihai Soceanu: pallets ?  
01/10/21, 19:28 - Company Employee 18: 8  
01/10/21, 19:28 - Company Employee 18: 9  
01/10/21, 19:28 - Company Employee 18: 5  
01/10/21, 19:28 - Company Employee 18: 6  
01/10/21, 19:29 - Mihai Soceanu: pls check crane 8  
01/10/21, 19:29 - Company Employee 18: Ok I go  
01/10/21, 19:29 - Company Employee 18: We check the sensor?  
01/10/21, 19:30 - Company Employee 18: Because we don't have any error  
01/10/21, 19:30 - Mihai Soceanu: TPO is in erro  
01/10/21, 19:30 - Mihai Soceanu: can i resume  
01/10/21, 19:30 - Mihai Soceanu: ?  
01/10/21, 19:30 - Company Employee 18: Yes try  
01/10/21, 19:31 - Company Employee 18: It is ok  
01/10/21, 19:31 - Mihai Soceanu: is ok now  
01/10/21, 19:31 - Company Employee 18: Perfect i stay here near the crane 8 and  
I see if there is something of strange  
01/10/21, 19:38 - Mihai Soceanu: pallets are going to stations

01/10/21, 19:39 - Company Employee 18: Perfect i see  
04/10/21, 05:23 - Mihai Soceanu: ?  
04/10/21, 05:23 - Mihai Soceanu: IMG-20211004-WA0000.jpg (file allegato)  
is this empty  
04/10/21, 05:24 - Company Employee 18: I go to check  
04/10/21, 05:24 - Company Employee 18: Goodmorning Mihai  
04/10/21, 05:25 - Company Employee 18: IMG-20211004-WA0009.jpg (file allegato)  
04/10/21, 05:25 - Company Employee 18: Yes empty 👍  
04/10/21, 05:26 - Mihai Soceanu: morning , we have 85125825 on 285 from friday  
morning can i book to lost and found  
04/10/21, 05:26 - Mihai Soceanu: ?  
04/10/21, 05:27 - Mihai Soceanu: 65570038 is in crane HRA01X122Y08Z21 and TPO in  
error can you pls check  
04/10/21, 05:27 - Mihai Soceanu: it needs to go to station 8  
04/10/21, 05:35 - Company Employee 18: I go to check the pallet  
04/10/21, 05:38 - Mihai Soceanu: 85125825 made conveyor to eneter in error  
04/10/21, 05:39 - Mihai Soceanu: i will put it to lost and found  
04/10/21, 05:49 - Company Employee 18: I check everithing it. Is ok  
04/10/21, 05:49 - Company Employee 18: Can you unlock the location from wamas?  
04/10/21, 05:50 - Mihai Soceanu: ok, then we need to resume TPO  
04/10/21, 05:50 - Company Employee 18: Perfect  
04/10/21, 05:50 - Company Employee 18: I stay here near the crane 1 to check  
04/10/21, 05:51 - Company Employee 18: If the pallet going to the station 8  
04/10/21, 05:52 - Mihai Soceanu: ok  
04/10/21, 05:55 - Company Employee 18: IMG-20211004-WA0008.jpg (file allegato)  
04/10/21, 05:55 - Mihai Soceanu: cool is put  
04/10/21, 05:55 - Company Employee 18: Is already gone 👍😊  
04/10/21, 05:56 - Mihai Soceanu: is out\*  
04/10/21, 05:56 - Mihai Soceanu: thx  
04/10/21, 05:56 - Company Employee 18: Cooperation team 😊  
04/10/21, 05:56 - Company Employee 18: Thx  
04/10/21, 05:57 - Mihai Soceanu: 🙏  
04/10/21, 07:39 - Company Employee 18: @Support Technician 6 sometimes some  
pallet don't return in hb01 can you check why?

04/10/21, 07:42 - Company Employee 18: Is strange is a problem from eisemann  
04/10/21, 07:42 - Company Employee 18: Right?  
04/10/21, 07:43 - Mihai Soceanu: seems to be some senzor issue or smth like this  
04/10/21, 07:43 - Mihai Soceanu: phisical  
04/10/21, 07:43 - Company Employee 18: Ok I understand  
04/10/21, 07:43 - Mihai Soceanu: i can try to force again the order  
04/10/21, 07:43 - Mihai Soceanu: lets see  
04/10/21, 07:44 - Company Employee 18: Ok now you cancel and recreate the order?

04/10/21, 07:44 - Mihai Soceanu: yes  
04/10/21, 07:44 - Company Employee 18: Ok perfect  
04/10/21, 07:45 - Company Employee 18: Can you check after that problem the problem at the stacker D?

04/10/21, 07:46 - Company Employee 18: This is the physical situation  
04/10/21, 07:46 - Company Employee 18: I think it lost 1 pallet 😞  
04/10/21, 07:49 - Mihai Soceanu: i see all is ok  
04/10/21, 07:49 - Mihai Soceanu: only the destacker is red  
04/10/21, 07:49 - Mihai Soceanu: logically i see nothing wrong  
04/10/21, 07:50 - Company Employee 18: Ok I try to confirm  
04/10/21, 07:53 - Company Employee 18: Ok fixed  
04/10/21, 08:22 - ~ Henna Mustola ha abbandonato.  
04/10/21, 13:52 - Giacomo Trivieri, Lavoro: @Support Technician 6 hi Mihai good afternoon can you help us with a problem regarding H destacker? We have already tried to delete the pellet on cu426 using mf266 and It has worked but somehow even if there is not a logical unit on ctop, system still sees something and tries to take the pellet with the Yellow arms  
04/10/21, 13:52 - Mihai Soceanu: i check  
04/10/21, 13:52 - Giacomo Trivieri, Lavoro: Ok thanks a lot👍  
04/10/21, 13:56 - Mihai Soceanu: in MFS all is clear  
04/10/21, 13:56 - Mihai Soceanu: as far as i see  
04/10/21, 13:56 - Mihai Soceanu: physically the destacker is empty  
04/10/21, 13:56 - Mihai Soceanu: ?  
04/10/21, 13:59 - Giacomo Trivieri, Lavoro: Yes It is  
04/10/21, 14:00 - Mihai Soceanu: and pallet behind can not enter  
04/10/21, 14:00 - Mihai Soceanu: ?  
04/10/21, 14:00 - Mihai Soceanu: i am not 100% sure  
04/10/21, 14:00 - Mihai Soceanu: but seems that you need to contact PLC  
04/10/21, 14:00 - Mihai Soceanu: :(  
04/10/21, 14:05 - Nicola Bernardi: @Support Technician 6 can I try to put logically and physically the pallet behind?  
04/10/21, 14:06 - Mihai Soceanu: we can try  
04/10/21, 14:14 - Nicola Bernardi: @Support Technician 6 on picking station 12 on BP12 S04 I have a negative picking, can you check why the pallet is gone away on lighthouse? is it David Copperfield's fault?🤔  
04/10/21, 14:15 - Mihai Soceanu: 60439536 ?  
04/10/21, 14:16 - Mihai Soceanu: IMG-20211004-WA0025.jpg (file allegato)

04/10/21, 14:17 - Mihai Soceanu: ok in MFS pallet is correct but on conveyor we have sensor fault  
04/10/21, 14:18 - Nicola Bernardi: The sensor is ok, is on reading  
06/10/21, 19:13 - Nicola Bernardi: @Support Technician 6 can you check why all CU near to foiling block agv with i/o blocking?  
06/10/21, 19:19 - Nicola Bernardi: I need to restart the system  
06/10/21, 19:26 - Mihai Soceanu: Io blocking is not related to mfs...  
06/10/21, 19:33 - Nicola Bernardi: Ah OK, is it an AGV's issue?  
06/10/21, 19:57 - Mihai Soceanu: I can not say, IO blocking was also smth related to network 😊  
06/10/21, 19:58 - Mihai Soceanu: I see nothing wrong in wamas, mfs or hive  
07/10/21, 13:55 - Tudor, Progetto Lavoro: IMG-20211007-WA0012.jpg (file allegato)

07/10/21, 13:59 - Mihai Soceanu: i check one sec  
07/10/21, 14:01 - Nicola Bernardi: I tried to fix this but I don't understand the issue, after your check can you explain me the solution?  
07/10/21, 14:01 - Mihai Soceanu: yes  
07/10/21, 14:08 - Mihai Soceanu: EMS reported TU\_TYPE\_MISMATCH  
07/10/21, 14:08 - Mihai Soceanu: first time  
07/10/21, 14:08 - Tudor, Progetto Lavoro: Mersi mult  
07/10/21, 14:08 - Mihai Soceanu: then i resend the order and it worked  
07/10/21, 14:08 - Mihai Soceanu: Cu placere :)  
07/10/21, 14:13 - Nicola Bernardi: On MF014? O you have delete and recreated the

order on SM023?

07/10/21, 14:13 - Mihai Soceanu: in MFS i search to see if you can do it in WAMAS

07/10/21, 14:15 - Nicola Bernardi: 🙏 thanks 🙌🙌

I have this pallet lock in this position from long time, can you check @Support Technician 6 ?

07/10/21, 16:10 - Nicola Bernardi: I try to use the reset on MF210 but don't run 😞

07/10/21, 16:13 - Mihai Soceanu: i check

07/10/21, 20:52 - Nicola Bernardi: All system is ready to be upgraded 🙌

07/10/21, 20:54 - Support Technician 14: system upgraded

07/10/21, 20:57 - Nicola Bernardi: Can you inform us when we can restart the system? ( AGV and EMS)

07/10/21, 20:57 - Mihai Soceanu: 2-3 min pls

07/10/21, 20:58 - Nicola Bernardi: I will wait your order 🙏

07/10/21, 20:59 - Mihai Soceanu: pls start

07/10/21, 21:05 - Nicola Bernardi: All EMS not taking the pallets

07/10/21, 21:05 - Mihai Soceanu: i solve now

07/10/21, 21:05 - Nicola Bernardi: 😊🙌

07/10/21, 21:09 - Mihai Soceanu: back on track

07/10/21, 21:15 - Nicola Bernardi: 🙌

07/10/21, 21:19 - Mihai Soceanu: is there anyone on site to free up the NOK after foiling ? :-s

07/10/21, 21:20 - Nicola Bernardi: No one

07/10/21, 21:21 - Mihai Soceanu: □ □ □ □

08/10/21, 06:41 - Daniele MMOperations: IMG-20211008-WA0001.jpg (file allegato)

Good morning everyone! We have an issue in picking station 1, we have completed an express order, but it's stuck on D02, on Wamas and phisically locations are empty... could you pls help us? Thanks

08/10/21, 06:59 - Daniele MMOperations: Ok now it's working

08/10/21, 10:55 - Stefano Dall'Asta, Lavoro: Hi everyone. can you check LU 60643124? Its almost 30 minutes that It has to be picked up

08/10/21, 12:11 - Benedetta Zini: Hi @Support Technician 6 Could you check CU144 and CU143 (crane 6)? We have done everything but pallets don't want move 😞

08/10/21, 12:12 - Mihai Soceanu: crane 6 always have problems i will check

08/10/21, 12:13 - Benedetta Zini: thank you

08/10/21, 12:13 - Mihai Soceanu: no problem

08/10/21, 12:18 - Benedetta Zini: What did you do?

08/10/21, 12:19 - Mihai Soceanu: refresh and reset for TU on pos 144

08/10/21, 12:21 - Benedetta Zini: Okay... thanks

08/10/21, 19:27 - Giacomo Trivieri, Lavoro: @Support Technician 6 SOS SOS hi Mihai there Is something wrong with mf266 and mf200 because if we try to charge 59961655 on cu268,they dont function and all ems that arrives near that cu goes in block SOS SOS can you check?

08/10/21, 19:28 - Mihai Soceanu: ok

08/10/21, 19:28 - Giacomo Trivieri, Lavoro: Thanks

08/10/21, 19:30 - Mihai Soceanu: IMG-20211008-WA0025.jpg (file allegato)

08/10/21, 19:31 - Mihai Soceanu: i see diaogs working  
08/10/21, 19:31 - Mihai Soceanu: what do you need to to with LU ?  
08/10/21, 19:31 - Giacomo Trivieri, Lavoro: Ok but i dont know why on LT doesnt compare the logical unit  
08/10/21, 19:33 - Giacomo Trivieri, Lavoro: Right now Nicola Is moving all ems manually cause they goes in block in front of cu268  
08/10/21, 19:33 - Mihai Soceanu: ok but why ?  
08/10/21, 19:33 - Mihai Soceanu: is there any problem with LU on 268  
08/10/21, 19:33 - Mihai Soceanu: ?  
08/10/21, 19:34 - Giacomo Trivieri, Lavoro: We dont know the reason but probably becuase there Is a specific trolley that It has to take the pellet on cu268  
08/10/21, 19:34 - Giacomo Trivieri, Lavoro: No there Is not It Is an empty pellet  
08/10/21, 19:34 - Mihai Soceanu: i try to move pallet back  
08/10/21, 19:34 - Giacomo Trivieri, Lavoro: Ok  
08/10/21, 19:37 - Mihai Soceanu: also order in EMS is cancelled  
08/10/21, 19:37 - Mihai Soceanu: try push again  
08/10/21, 19:38 - Mihai Soceanu: if problem persist you need to contact someone from EMS :(  
08/10/21, 19:39 - Nicola Bernardi: I push all trolley for 2 time 🤖🤖

Wait another 2 months and you will see what happens 🤖🤖🤖🤖🤖  
09/10/21, 16:00 - Andrea Brunetti: I automatically put off F01 E F02  
09/10/21, 16:00 - Andrea Brunetti: ?  
09/10/21, 16:00 - Mihai Soceanu: I would say no need  
09/10/21, 16:01 - Mihai Soceanu: I will be able to do the restart only in 2 hours srry  
09/10/21, 16:01 - Mihai Soceanu: Did you succed to clean up foiling ?  
09/10/21, 16:02 - Andrea Brunetti: Unfortunately not because there are Incas mechanics inside the small stekercrane  
09/10/21, 16:04 - Mihai Soceanu: Oh but then maybe in 2 hours they are finushed  
09/10/21, 16:04 - Mihai Soceanu: I do not need conveyors in manual  
09/10/21, 16:04 - Mihai Soceanu: For restarr  
09/10/21, 16:08 - Andrea Brunetti: Okay  
09/10/21, 16:31 - Andrea Brunetti: @Support Technician 6 Give me 10 minutes and empty the foiling if you want  
09/10/21, 16:31 - Mihai Soceanu: No hurry  
09/10/21, 16:31 - Mihai Soceanu: If after 18 is empty is perfect  
09/10/21, 16:33 - Andrea Brunetti: Okay va bene  
09/10/21, 16:34 - Mihai Soceanu: 85146484 is on 285  
09/10/21, 16:34 - Mihai Soceanu: and 60040350 on 281  
09/10/21, 16:35 - Mihai Soceanu: maybe when Osmo unloaded manually  
09/10/21, 17:47 - Mihai Soceanu: Wow system looks nice thank you  
09/10/21, 17:47 - Mihai Soceanu: I will prepare and restart in 10 min

09/10/21, 18:02 - Mihai Soceanu: starting  
09/10/21, 18:07 - Mihai Soceanu: all is up  
09/10/21, 18:08 - Mihai Soceanu: 60040350 remained logically on 281  
09/10/21, 18:08 - Mihai Soceanu: if somenoen still on site maybe can check  
09/10/21, 18:08 - Mihai Soceanu: if not  
09/10/21, 18:08 - Mihai Soceanu: pls keep in mind for monmday

09/10/21, 18:09 - Mihai Soceanu: or i can book now to L&F  
09/10/21, 18:16 - Mihai Soceanu: all seems ok in rest  
09/10/21, 18:16 - Mihai Soceanu: thank you  
09/10/21, 18:16 - Mihai Soceanu: and have a nice evening  
09/10/21, 18:41 - Milo Barozzi: No please. Let Monday morning team check it please  
09/10/21, 18:41 - Mihai Soceanu: ok  
09/10/21, 18:41 - Mihai Soceanu: :)  
09/10/21, 18:41 - Mihai Soceanu: also the locks on foiling lines are still active  
09/10/21, 18:41 - Mihai Soceanu: we have parked 14 pallets  
09/10/21, 18:42 - Mihai Soceanu: but should not be a problem  
09/10/21, 18:42 - Milo Barozzi: Locks? On which line?  
09/10/21, 18:43 - Milo Barozzi: 14 not but locks is important to know where and of they're style necessary

Hi guys, I'm seeing more often a Runtime Error on that conveyor. Any issue there?  
11/10/21, 11:57 - Mihai Soceanu: who can help with destacker F  
11/10/21, 11:57 - Mihai Soceanu: ?  
11/10/21, 11:57 - Mihai Soceanu: pls  
11/10/21, 12:25 - Milo Barozzi: don't know honestly.. @Company Employee 10 qual era il problema qui? C'è stata una frequenza maggiore di questo problema oggi rispetto agli altri giorni?  
11/10/21, 12:29 - Support Technician 25: Not only "oggi" but also during "ultimi settimane"  
11/10/21, 12:29 - Milo Barozzi: spoke on the phone with them. They told me: "it's a pallet sometimes"  
11/10/21, 12:30 - Support Technician 25: OK :)

I've done this, but the error wont go  
12/10/21, 15:25 - Daniele MMOperations: Then in SM023  
12/10/21, 15:26 - Daniele MMOperations: <Media omessi>  
12/10/21, 15:26 - Support Technician 16: thank you, let me have a look  
12/10/21, 15:35 - Support Technician 16: Fixed, database was corrupted, should

not happen again

12/10/21, 15:36 - Milo Barozzi: no need to open a ticket so?

12/10/21, 15:41 - Support Technician 16: No need, the pallet had bad data from a long time ago where a manual intervention was done by one of our guys

12/10/21, 15:42 - Milo Barozzi: perfect!

12/10/21, 15:42 - Milo Barozzi: thanks Adrian

12/10/21, 15:42 - Daniele MMOperations: Thank you!

12/10/21, 15:55 - Support Technician 16: @Company Employee 24 you received the same 'Contour error below - clearance wood'

12/10/21, 16:10 - Support Technician 16: IMG-20211012-WA0011.jpg (file allegato)

@Company Employee 16 now that the pallet is coming back to the nok, isn't this the flow agreed to be made by the users as part of I06?

12/10/21, 20:30 - Mihai Soceanu: hi, if anyone on site

12/10/21, 20:30 - Mihai Soceanu: pls ask to take down pallets from F01 conveyor 32

12/10/21, 20:30 - Mihai Soceanu: QC place

12/10/21, 20:43 - Company Employee 18: Ok I talk with the forklift driver

12/10/21, 20:44 - Mihai Soceanu: is there a reason

12/10/21, 20:44 - Mihai Soceanu: that around 100 TPOs where created to QC ?

12/10/21, 20:45 - Company Employee 18: What 😞😞

12/10/21, 20:45 - Mihai Soceanu: then i have an idea

12/10/21, 20:45 - Company Employee 18: 100 TO from qc why?

12/10/21, 20:45 - Mihai Soceanu: do not take off

12/10/21, 20:46 - Company Employee 18: Ok

12/10/21, 20:46 - Mihai Soceanu: IMG-20211012-WA0018.jpg (file allegato)

i see

12/10/21, 20:46 - Mihai Soceanu: do not take off and we see in the morning

13/10/21, 07:46 - Milo Barozzi: Yes, Stefano is retrieving pallets from there instead from agv side to avoid agv blocking and therefore miss of charge during the day

13/10/21, 07:47 - Mihai Soceanu: oh ok i did not know it :) thx

13/10/21, 11:26 - Nicola Bernardi: @Support Technician 6 can you check SRM06?

13/10/21, 11:27 - Mihai Soceanu: i check

13/10/21, 11:28 - Mihai Soceanu: done

13/10/21, 11:29 - Nicola Bernardi: What was the problem?

13/10/21, 11:30 - Mihai Soceanu: one senzor was in error

13/10/21, 11:30 - Mihai Soceanu: then i needed to refresh from DB and reset order

13/10/21, 11:31 - Nicola Bernardi: Ah ok👍 thx😎

13/10/21, 18:42 - Andrea Brunetti: SLF\*011 in auto

14/10/21, 07:57 - Nicola Bernardi: Don't go

14/10/21, 07:58 - Mihai Soceanu: i check

14/10/21, 08:00 - Mihai Soceanu: done, thx

14/10/21, 08:01 - Nicola Bernardi: What was the problem?

14/10/21, 08:01 - Mihai Soceanu: i ahve seen info conveyor locked

14/10/21, 08:01 - Mihai Soceanu: then order was not send any more in PLC when AGV was moved back  
14/10/21, 08:02 - Mihai Soceanu: i will check a bit deeper

19/10/21, 08:15 - Mihai Soceanu: 60326956 is left on conveyor 285 from &:20  
19/10/21, 08:15 - Mihai Soceanu: 7:20  
19/10/21, 08:15 - Mihai Soceanu: pls book it to NOK or some other place  
19/10/21, 08:42 - Milo Barozzi: I booked it to NOKF02C3011  
19/10/21, 08:42 - Milo Barozzi: thanks for recognizing  
19/10/21, 08:48 - Mihai Soceanu: thx  
19/10/21, 09:01 - Company Employee 18: Goodmorning @Support Technician 25 we have some news for our Ctop of Siemens in service? Because we need like water! 😞😞  
19/10/21, 14:41 - Razvan Voicu: Hello. @Company Employee 16 or anybody else, we received a ticket for load \*18396 that can't be closed.

19/10/21, 14:42 - Razvan Voicu: Could you ask for feedback, if it works now? I understood the problem is pretty urgent  
19/10/21, 14:42 - Milo Barozzi: I think was @Company Employee 15 or Andrea Mazzoli?  
19/10/21, 14:42 - Razvan Voicu: Andrea  
19/10/21, 14:43 - Milo Barozzi: I'll involve him directly  
19/10/21, 14:43 - Milo Barozzi ha aggiunto Andrea Mazzoli.  
19/10/21, 14:43 - Milo Barozzi: @Company Employee 14 chiede Razvan se questo carico è ok ora. Hai news?  
19/10/21, 15:11 - Razvan Voicu: If you get any updates, let me know  
19/10/21, 15:35 - Andrea Mazzoli: Come segnalato anche nelle mail ci sono 3 udc dell'ordine 70259 in qui risulta il picking attivo.  
59764197  
59764202  
59764198  
19/10/21, 16:07 - Milo Barozzi: @Support Technician 21 I don't know if you translated what Andrea said, but there are the following LUS  
59764197  
59764202  
59764198  
for which picking is active  
19/10/21, 16:09 - Razvan Voicu: Oh ok, I will check  
19/10/21, 16:10 - Milo Barozzi: thx  
19/10/21, 16:19 - Razvan Voicu: @Company Employee 16 @Company Employee 14 are these LUS already picked and loaded?  
19/10/21, 16:29 - Milo Barozzi: @Company Employee 14 riesci a dare riscontro tu a Razvan, io non ne so niente 😞  
19/10/21, 16:29 - Razvan Voicu: @Company Employee 14 try again please  
19/10/21, 16:37 - Andrea Mazzoli: Thanks a lot  
Problem solved  
19/10/21, 16:38 - Razvan Voicu: thank you  
19/10/21, 17:33 - Milo Barozzi: IMG-20211019-WA0034.jpg (file allegato)  
this image was a long time I did not see it anymore...  
19/10/21, 17:34 - Milo Barozzi: IMG-20211019-WA0035.jpg (file allegato)  
also mobiles!  
19/10/21, 17:36 - Milo Barozzi: now mobile emulator works  
19/10/21, 17:36 - Mihai Soceanu: give me 2 min pls  
19/10/21, 17:37 - Milo Barozzi: Benedetta was at conveyors after foiling today in the afternoon and she reported me that sometimes before one pallets was handed over to another conveyor, sometimes, the pallet was staying stop on a conveyor for 5-6 seconds...  
19/10/21, 17:37 - Milo Barozzi: it was not the whole afternoon with this behaviour, sometimes yes, some other times not..  
19/10/21, 17:39 - Milo Barozzi: it seems system is somehow restored more or less now..  
19/10/21, 17:41 - Mihai Soceanu: we are checking what was the cause  
19/10/21, 17:41 - Support Technician 14: we had a memory spike possible due to a memory script that was not working  
19/10/21, 17:42 - Support Technician 14: we'll check logs tomorrow  
19/10/21, 17:43 - Milo Barozzi: IMG-20211019-WA0036.jpg (file allegato)  
confirmed, this is data from WAMASAPP machine  
19/10/21, 17:43 - Milo Barozzi: do I have to open a ticket?  
19/10/21, 17:43 - Milo Barozzi: are we safe from now until tomorrow?  
19/10/21, 17:44 - Support Technician 14: I can say we are safe  
19/10/21, 17:44 - Milo Barozzi: IMG-20211019-WA0037.jpg (file allegato)  
here is anyway more evident the spike:  
19/10/21, 17:45 - Milo Barozzi: script was disabled now?  
19/10/21, 17:45 - Milo Barozzi: or should not run anymore before tomorrow same time?  
19/10/21, 17:45 - Support Technician 14: until tomorrow morning when also Adrian is available there is no issue  
19/10/21, 17:46 - Milo Barozzi: perfect!  
19/10/21, 17:46 - Support Technician 14: I made just for safety a stop start of the replenishment/reporting services

19/10/21, 17:46 - Milo Barozzi: thank you for fast intervention  
 19/10/21, 17:46 - Support Technician 14: to empty the allocated memory  
 19/10/21, 17:46 - Support Technician 14: thank you  
 19/10/21, 17:46 - Milo Barozzi: 👍  
 19/10/21, 17:46 - Milo Barozzi: you're welcom  
 19/10/21, 17:46 - Milo Barozzi: \*welcome

 20/10/21, 13:42 - Mihai Soceanu: i check  
 20/10/21, 13:42 - Nicola Bernardi: I tryed all but the pallet is blocked on it 😞  
 20/10/21, 13:49 - Mihai Soceanu: 60762026 is it ok i send it to QC ?  
 20/10/21, 13:50 - Nicola Bernardi: Yes  
 20/10/21, 13:50 - Mihai Soceanu: ok  
 20/10/21, 15:16 - Mihai Soceanu: can anyone pls check AGV9 in front of station 6  
 20/10/21, 15:16 - Mihai Soceanu: pls  
 20/10/21, 15:18 - Nicola Bernardi: IMG-20211020-WA0005.jpg (file allegato)  
 20/10/21, 15:18 - Mihai Soceanu: 😊 thx  
 20/10/21, 19:20 - Mihai Soceanu: hi, I would like to pospone the restart for today  
 20/10/21, 19:20 - Mihai Soceanu: i found an issue and i solved it from DB  
 20/10/21, 19:21 - Mihai Soceanu: for the purpose to see if i really found the mistake i would leave the system as it is now  
 20/10/21, 19:59 - Milo Barozzi: Ok Mihai!  
 20/10/21, 19:59 - Milo Barozzi: NO UPDATE toady  
 20/10/21, 19:59 - Milo Barozzi: Today  
 20/10/21, 19:59 - Mihai Soceanu: thx for understading  
 21/10/21, 08:06 - Support Technician 25: Yesterday ~ 1.470 lines?  
 21/10/21, 09:26 - Benedetta Zini: hI @Support Technician 6 Could you enforce TEMP on CU281?  
 21/10/21, 09:27 - Mihai Soceanu: In 1 min pls  
 21/10/21, 09:27 - Benedetta Zini: Yes thankss  
 21/10/21, 13:48 - Mihai Soceanu: hi  
 21/10/21, 13:48 - Mihai Soceanu: 60591472  
 21/10/21, 13:48 - Mihai Soceanu: has errors left on it  
 21/10/21, 13:48 - Mihai Soceanu: on 281  
 21/10/21, 13:48 - Mihai Soceanu: i will send it to NOK  
 21/10/21, 13:49 - Mihai Soceanu: but somenone has to pick up 60751838 from 284  
 21/10/21, 13:49 - Mihai Soceanu: pls  
 21/10/21, 13:58 - Support Technician 25: Issue on CU385, A81 is changed in PLC  
 21/10/21, 13:59 - Support Technician 25: Please make a test with artificial queue

21/10/21, 17:29 - Mihai Soceanu: MFS gets back wrong type from crane  
21/10/21, 17:30 - Milo Barozzi: @Company Employee 17 @Company Employee 10 riuscite a vedere per favore se questo pallet è davvero un B?=  
21/10/21, 17:30 - Nicola Bernardi: Stiamo cambiando una bobina  
21/10/21, 17:32 - Milo Barozzi: ok, non appena possibile naturalmente 😊  
21/10/21, 17:32 - Milo Barozzi: @Support Technician 6 they're changing a foil roll... need to wait 15-20 mins I think  
21/10/21, 17:53 - Nicola Bernardi: Si è un B  
21/10/21, 17:53 - Milo Barozzi: it's a B pallet  
21/10/21, 17:53 - Milo Barozzi: grz  
21/10/21, 17:53 - Mihai Soceanu: is not a D on B  
21/10/21, 17:53 - Mihai Soceanu: ?  
21/10/21, 17:54 - Nicola Bernardi: <Media omessi>  
21/10/21, 17:54 - Nicola Bernardi: Yes is a D on B

21/10/21, 17:57 - Mihai Soceanu: can it be some senzoric issue ?  
21/10/21, 17:57 - Mihai Soceanu: :-??  
21/10/21, 18:11 - Nicola Bernardi: We are on foiling line for chance an other foil  
21/10/21, 18:14 - Milo Barozzi: @Company Employee 17 @Company Employee 10 purtroppo si è bloccata una navetta Eisenmann anche...  
21/10/21, 18:14 - Nicola Bernardi: Siamo già qui  
21/10/21, 18:14 - Milo Barozzi: ☐  
21/10/21, 18:14 - Milo Barozzi: top!  
21/10/21, 18:33 - Nicola Bernardi: All sensor are good  
21/10/21, 19:52 - Mihai Soceanu: Strange...  
21/10/21, 19:52 - Mihai Soceanu: SRM does not allow pick up ...  
21/10/21, 19:57 - Nicola Bernardi: Have you recreate a T0?  
21/10/21, 19:57 - Mihai Soceanu: Give me 5 min

21/10/21, 19:58 - Mihai Soceanu: I did not try  
 21/10/21, 20:00 - Mihai Soceanu: i try now  
 21/10/21, 20:01 - Mihai Soceanu: is the same  
 21/10/21, 20:01 - Mihai Soceanu: ...  
 21/10/21, 20:01 - Nicola Bernardi: 😊  
 21/10/21, 20:02 - Mihai Soceanu: i will ask tomorrow morning a PLC crane guy  
 21/10/21, 20:06 - Nicola Bernardi: Is it ok for you if i try to put the pallet  
 on exit CU and recreate a T0 for other crane?  
 21/10/21, 20:07 - Mihai Soceanu: yes is ok  
 21/10/21, 20:07 - Mihai Soceanu: we can try  
 21/10/21, 20:09 - Nicola Bernardi: 🙌  
 21/10/21, 20:14 - Mihai Soceanu: All AFs are in blocked locations  
 21/10/21, 20:14 - Mihai Soceanu: :(  
 21/10/21, 20:14 - Mihai Soceanu: AF stacks  
 21/10/21, 20:16 - Nicola Bernardi: We are going 🙌  
 21/10/21, 20:17 - Milo Barozzi: Unlock in wamas if needed  
 21/10/21, 20:17 - Milo Barozzi: Pls  
 21/10/21, 20:19 - Mihai Soceanu: i try  
 21/10/21, 20:22 - Mihai Soceanu: one is coming  
 21/10/21, 20:22 - Mihai Soceanu: i unlocked only one  
 21/10/21, 20:22 - Milo Barozzi: 🚀  
 21/10/21, 20:25 - Mihai Soceanu: guys can you pls check foiling line infeed

 21/10/21, 21:09 - Mihai Soceanu: left over from 16:00 today  
 21/10/21, 21:09 - Mihai Soceanu: should we book it to NOK ?  
 21/10/21, 21:10 - Milo Barozzi: Put to S04 MAV pls  
 21/10/21, 21:10 - Nicola Bernardi: I Don't know 😊  
 21/10/21, 21:10 - Milo Barozzi: Put to S04 MAV pls @Support Technician 6  
 21/10/21, 21:10 - Mihai Soceanu: ok  
 21/10/21, 21:11 - Mihai Soceanu: ok  
 21/10/21, 21:11 - Nicola Bernardi: Thx  
 21/10/21, 21:13 - Mihai Soceanu: done  
 21/10/21, 21:13 - Mihai Soceanu: pls reset conveyour  
 21/10/21, 21:13 - Milo Barozzi: Is there the dummy T0 in cway to waste  
 container?  
 21/10/21, 21:18 - Mihai Soceanu: i don't see it  
 21/10/21, 21:19 - Milo Barozzi: @Company Employee 17 tu lo vedi su cway?

 21/10/21, 21:29 - Mihai Soceanu: i think all is in correct place  
 21/10/21, 21:30 - Mihai Soceanu: thank you very much  
 21/10/21, 21:30 - Mihai Soceanu: for support  
 21/10/21, 21:31 - Nicola Bernardi: Thank you too 🙌  
 21/10/21, 21:37 - Milo Barozzi: Thanks everybody  
 21/10/21, 21:37 - Milo Barozzi: Good night  
 22/10/21, 05:05 - Andrea Brunetti: IMG-20211022-WA0000.jpg (file allegato)  
 Good morning, with all 2 my accounts I have this problem , both with MF200 and

with MF266

22/10/21, 05:06 - Andrea Brunetti: I tried to close and reopen several times wamas but continues to give this problem  
22/10/21, 05:30 - Andrea Brunetti: IMG-20211022-WA0001.jpg (file allegato)  
Even with MF210 there is the same problem  
22/10/21, 05:31 - Mihai Soceanu: I check in 5 min  
22/10/21, 05:44 - Mihai Soceanu: try now pls  
22/10/21, 05:46 - Mihai Soceanu: 60762026 i need to send to QC  
22/10/21, 05:47 - Mihai Soceanu: it says contour error does not fit  
22/10/21, 05:49 - Andrea Brunetti: Thanks  
22/10/21, 05:49 - Mihai Soceanu: works also for you ?  
22/10/21, 05:50 - Andrea Brunetti: Yes  
22/10/21, 05:51 - Mihai Soceanu: ok  
22/10/21, 05:51 - Company Employee 18: Can you unlock the work position nok foiling?  
22/10/21, 05:52 - Mihai Soceanu: i can not access prod right now  
22/10/21, 05:52 - Mihai Soceanu: i have some network issues  
22/10/21, 05:52 - Mihai Soceanu: in wh004  
22/10/21, 05:52 - Company Employee 18: 😞  
22/10/21, 05:52 - Company Employee 18: Ok I try  
22/10/21, 05:52 - Mihai Soceanu: or what is happening ?  
22/10/21, 05:54 - Company Employee 18: When he try to entry to wh085 and start work station the message is

Another user at the workstation is already active 😞

22/10/21, 05:57 - Company Employee 18: Now he goes you have do something?  
22/10/21, 05:57 - Mihai Soceanu: no  
22/10/21, 06:01 - Company Employee 18: Ok I have unlock from wh083 😊👍  
22/10/21, 06:01 - Mihai Soceanu: super  
22/10/21, 06:04 - Andrea Brunetti: Stekercrane 03 and stuck and I can't get it going again  
22/10/21, 06:06 - Andrea Brunetti: IMG-20211022-WA0002.jpg (file allegato)  
22/10/21, 06:08 - Andrea Brunetti: @Support Technician 6  
22/10/21, 06:13 - Andrea Brunetti: @Support Technician 6  
22/10/21, 06:14 - Mihai Soceanu: i know but i can not access prod ◻  
22/10/21, 06:15 - Andrea Brunetti: Okay  
22/10/21, 06:15 - Mihai Soceanu: ha works  
22/10/21, 06:15 - Mihai Soceanu: i managed  
22/10/21, 06:15 - Mihai Soceanu: 1 sec  
22/10/21, 06:17 - Andrea Brunetti: All right  
22/10/21, 06:18 - Andrea Brunetti: How did you do that?  
22/10/21, 06:18 - Mihai Soceanu: <Media omessi>  
22/10/21, 06:18 - Mihai Soceanu: 60762026 had corrupted data  
22/10/21, 06:18 - Mihai Soceanu: ...  
22/10/21, 06:18 - Mihai Soceanu: and it was crashing SRM3 controller  
22/10/21, 06:19 - Mihai Soceanu: is pallet from yesterday which was sitting in front of crane 1  
22/10/21, 06:20 - Andrea Brunetti: I used:MF014 pause and resume, then MF 200 refresh and reset, and MF 210 and kept not going  
22/10/21, 06:21 - Mihai Soceanu: yes because the controller of the crane was down because of corrupted data from pallet 60762026  
22/10/21, 06:21 - Mihai Soceanu: only developers can unlock this situations :(  
22/10/21, 06:21 - Andrea Brunetti: With which page did you solve  
22/10/21, 06:22 - Andrea Brunetti: Okay perfect  
22/10/21, 06:22 - Andrea Brunetti: Thanks  
22/10/21, 07:02 - Daniele MMOperations: Good morning everyone, little issue  
22/10/21, 07:03 - Daniele MMOperations: IMG-20211022-WA0004.jpg (file allegato)  
Picking station 6, we are ready to work  
22/10/21, 07:03 - Daniele MMOperations: IMG-20211022-WA0005.jpg (file allegato)  
But the PLT it's on te AGV... 😞  
22/10/21, 07:04 - Mihai Soceanu: Which agv number ?  
22/10/21, 07:05 - Daniele MMOperations: 21  
22/10/21, 07:06 - Mihai Soceanu: i see 2 pallets on both locations phsiicallay  
22/10/21, 07:07 - Mihai Soceanu: IMG-20211022-WA0006.jpg (file allegato)

22/10/21, 07:07 - Mihai Soceanu: AGV confirmed to MFS that it put it down  
 22/10/21, 07:08 - Mihai Soceanu: logically not in real life sorry  
 22/10/21, 07:09 - Mihai Soceanu: i saw both pallets in location  
 22/10/21, 07:09 - Mihai Soceanu: and AGV21 confirmed the put down  
 22/10/21, 07:10 - Mihai Soceanu: soon we will remain without AF stacks  
 22/10/21, 07:13 - Mihai Soceanu: btw  
 22/10/21, 07:14 - Mihai Soceanu: if you see any "ghost" pallet on infeed foiling lines pls do not do anything  
 22/10/21, 07:14 - Mihai Soceanu: and inform me here  
 22/10/21, 07:14 - Mihai Soceanu: i need to follow smth  
 22/10/21, 07:14 - Mihai Soceanu: thx  
 22/10/21, 07:25 - Mihai Soceanu: IMG-20211022-WA0007.jpg (file allegato)  
 22/10/21, 07:26 - Mihai Soceanu: pls check asap  
 22/10/21, 07:26 - Andrea Brunetti: Okay  
 22/10/21, 07:27 - Mihai Soceanu: thx  
 22/10/21, 08:27 - Mihai Soceanu: hi  
 22/10/21, 08:27 - Mihai Soceanu: IMG-20211022-WA0008.jpg (file allegato)  
 22/10/21, 08:27 - Mihai Soceanu: may you pls check this ?  
 22/10/21, 08:28 - Company Employee 18: Yes  
 22/10/21, 08:32 - Mihai Soceanu: thx so much  
 22/10/21, 08:32 - Company Employee 18: 😊  
 22/10/21, 10:30 - Company Employee 18: @Support Technician 6 can you check why the udc 60791959 don't go?  
 22/10/21, 10:36 - Mihai Soceanu: IMG-20211022-WA0011.jpg (file allegato)  
 22/10/21, 10:36 - Mihai Soceanu: it has order in PLC  
 22/10/21, 10:38 - Company Employee 18: Can you see anything of strange?  
 22/10/21, 10:40 - Company Employee 18: If you want I remove from the conveyor manually in this way the other pallet before goes  
 22/10/21, 10:40 - Mihai Soceanu: one sec  
 22/10/21, 10:41 - Company Employee 18: Ok I wait you  
 22/10/21, 10:41 - Mihai Soceanu: i can try to resend order  
 22/10/21, 10:42 - Company Employee 18: Ok  
 22/10/21, 10:43 - Mihai Soceanu: what happened  
 22/10/21, 10:43 - Mihai Soceanu: ...  
 22/10/21, 10:43 - Mihai Soceanu: ?  
 22/10/21, 10:43 - Company Employee 18: IMG-20211022-WA0012.jpg (file allegato)  
 22/10/21, 10:44 - Mihai Soceanu: sorry but you need to do it manually  
 22/10/21, 10:44 - Mihai Soceanu: ...  
 22/10/21, 10:45 - Company Employee 18: Ok I do  
 22/10/21, 10:54 - Mihai Soceanu: after you finish pls rebook pallet 60791959 to NOK  
 22/10/21, 10:54 - Mihai Soceanu: all ok  
 22/10/21, 10:55 - Company Employee 18: We have done with Benedetta 👍  
 22/10/21, 10:58 - Mihai Soceanu: thx  
 22/10/21, 12:17 - Milo Barozzi: IMG-20211022-WA0015.jpg (file allegato)  
 @Support Technician 16 shall you kindly confirm" deposit" action for this pick order?  
 22/10/21, 12:17 - Milo Barozzi: AGV retrieved the pallet but somehow didn't confirmed it and now pick station is blocked  
 22/10/21, 12:22 - Milo Barozzi: can anyone help us with pick station #9 please? user is stuck and cannot work  
 22/10/21, 14:39 - Tudor, Progetto Lavoro: <Media omessi>  
 Salut la toti..este la statia 9 acesta problema  
 22/10/21, 14:40 - Support Technician 16: sigur la 9? ca vad in video statia 10...  
 22/10/21, 14:40 - Mihai Soceanu: All stations ?  
 22/10/21, 14:40 - Mihai Soceanu: or only station 9  
 22/10/21, 14:42 - Support Technician 16: @Company Employee 27 scaneaza ce ai la S03, nu la S01  
 22/10/21, 14:44 - Tudor, Progetto Lavoro: Nu merge oricum  
 22/10/21, 14:46 - Support Technician 16: ai incercat sa il inchizi si redeschizi?  
 22/10/21, 14:46 - Tudor, Progetto Lavoro: Da  
 22/10/21, 14:48 - Support Technician 16: inchide si redeschide din nou pls

22/10/21, 14:49 - Tudor, Progetto Lavoro: Ok  
22/10/21, 14:54 - Tudor, Progetto Lavoro: Perfect...mersi mult  
22/10/21, 14:56 - Mihai Soceanu: IMG-20211022-WA0019.jpg (file allegato)  
22/10/21, 14:57 - Mihai Soceanu: IMG-20211022-WA0020.jpg (file allegato)  
22/10/21, 14:57 - Mihai Soceanu: hi  
22/10/21, 14:57 - Mihai Soceanu: this pallet was cancelled while travelling to station 59848626  
22/10/21, 14:57 - Mihai Soceanu: now is blocking retrieval from crane 6  
22/10/21, 14:59 - Mihai Soceanu: i will send it to HBW  
22/10/21, 14:59 - Benedetta Zini: okay thank you  
22/10/21, 15:12 - Milo Barozzi: lp7 released the order at pick station dialog  
22/10/21, 15:12 - Milo Barozzi: I think we have "black hole" in the SW. Usually if a user cancels the order while a pallet for that order is moving to the station, it'll continue reaching the station than it's automatically/manually sent back to HBW1  
22/10/21, 15:13 - Milo Barozzi: probably if this occur while it's on exit location from stacker crane, this is not working as supposed  
22/10/21, 15:13 - Milo Barozzi: I'll open a ticket for this  
22/10/21, 15:15 - Mihai Soceanu: yes smth like that it happned  
22/10/21, 15:19 - Milo Barozzi: thanks for deepening  
25/10/21, 13:30 - Company Employee 18: Questo messaggio è stato eliminato.  
25/10/21, 13:30 - Company Employee 18: Questo messaggio è stato eliminato.  
26/10/21, 12:50 - Nicola Bernardi: IMG-20211026-WA0017.jpg (file allegato)  
@Support Technician 6 can you check this? Is the same of this morning  
26/10/21, 12:51 - Milo Barozzi: @Company Employee 17 la locazione sotto è libera per WAMAS, ma fisicamente non lo è... riuscite a togliere il pallet da S46 40-40-00 e lasciar depositare l'ART-26?  
26/10/21, 12:52 - Nicola Bernardi: Finisco un lavoro e lo faccio subito  
26/10/21, 12:53 - Milo Barozzi: grazie mille Nick  
26/10/21, 12:54 - Milo Barozzi: Se non deposita è perché forse ribloccherà la locazione, ma l'ho sbloccata e non dovrebbe più bloccarla..  
26/10/21, 13:01 - Mihai Soceanu: i blocked again all S46 locations  
26/10/21, 13:01 - Mihai Soceanu: needed ones  
26/10/21, 13:01 - Mihai Soceanu: Y01  
26/10/21, 13:01 - Mihai Soceanu: not available  
26/10/21, 13:02 - Mihai Soceanu: now i will try to relocate pallet 59596919 from S46A11X001Y01Z1  
26/10/21, 13:03 - Mihai Soceanu: 59596919 will go to S46A03X002Y05Z1  
26/10/21, 14:07 - Mihai Soceanu: can anyone check AGV25 pls ?  
26/10/21, 14:07 - Mihai Soceanu: we still have 3 pallets more to relocate  
26/10/21, 14:08 - Daniele MMOperations: IMG-20211026-WA0018.jpg (file allegato)  
26/10/21, 14:08 - Mihai Soceanu: because of the lock prolem in the morning  
26/10/21, 14:08 - Mihai Soceanu: ok  
26/10/21, 14:08 - Mihai Soceanu: so is in error smth  
26/10/21, 14:08 - Mihai Soceanu: in MFS/Hive all is ok  
26/10/21, 14:08 - Mihai Soceanu: thx  
26/10/21, 14:09 - Mihai Soceanu: i will replenish the last 3 pallets  
26/10/21, 14:26 - Mihai Soceanu: all clear  
28/10/21, 16:55 - Company Employee 18: @Support Technician 6 hi can you check please what happened at the crane 8 position 1? He lost every pallet from wamas  
28/10/21, 16:56 - Company Employee 18: Now he have on board this udc 59940128  
28/10/21, 16:57 - Company Employee 18: But in lighthouse don't show the udc and don't start the mission  
28/10/21, 16:59 - Mihai Soceanu: 59940128 is on fork 1  
28/10/21, 17:00 - Company Employee 18: Yes  
28/10/21, 17:00 - Company Employee 18: But the crane don go to destination sh1 08-d-102-08  
28/10/21, 17:01 - Mihai Soceanu: SRM is in manual handling  
28/10/21, 17:01 - Mihai Soceanu: i will reset iot  
28/10/21, 17:01 - Company Employee 18: I try to update and refresh but don't go  
28/10/21, 17:01 - Mihai Soceanu: you need to use MF210  
28/10/21, 17:02 - Company Employee 18: Ok I understand thx 😊  
28/10/21, 17:02 - Mihai Soceanu: now is ee it works  
28/10/21, 17:02 - Company Employee 18: Yes 👍

28/10/21, 17:03 - Mihai Soceanu: you fixed crane 6 ?

28/10/21, 17:03 - Company Employee 18: You see now he have lost the udc another time

28/10/21, 17:06 - Mihai Soceanu: i see crane 8 is ok

28/10/21, 17:07 - Milo Barozzi: from LH seems all fine now

28/10/21, 17:07 - Milo Barozzi: 🤖

28/10/21, 17:10 - Company Employee 18: Yes

28/10/21, 17:10 - Company Employee 18: The 6 for now is ok 🤖🤖

28/10/21, 17:12 - Milo Barozzi: 🤖🤖🤖🤖🤖🤖

28/10/21, 17:12 - Mihai Soceanu: nice nice :)

29/10/21, 15:44 - Milo Barozzi: Dear All, pick station #5 is still blocked. I already send a ticket to Hotline at 14:48. Shall kindly someone have a look at it, pls?

29/10/21, 16:22 - Support Technician 16: @Company Employee 16 hi, I unblocked the station, at first glance, it seems the issue was a manual intervention from a person who cancelled the TPO for the pallet to leave but the agv already had the mission saved.

29/10/21, 17:50 - Support Technician 14: Don't wish Skynet 😊

29/10/21, 18:09 - Mihai Soceanu: <Media omessi>

02/11/21, 14:56 - Milo Barozzi: @Support Technician 14 @Support Technician 6 DEPLOY CONFIRMED FOR THIS EVENING 20:50 - 21:10

Battle plan is the following:

- 20:35 @Support Technician 6 please put com.wamas.mfs.core.common.agvDisable = true
- Maintenance Team will ensure AGV will finish their last orders. Usually AGV takes 10 minutes to finish their orders
- As soon as no more orders need to be executed (it'll be close to 20:50), @Support Technician 14 please proceed with deploy
- hopefully everything will be back on track within 21:10
- @Support Technician 6 please put com.wamas.mfs.core.common.agvDisable = false as soon as you can?

Is it fine @Support Technician 6 @Support Technician 14 ?

02/11/21, 15:03 - Mihai Soceanu: For me is ok

02/11/21, 16:27 - Support Technician 14: 👍

02/11/21, 18:41 - Capoturno Picking Progetto Lavoro: IMG-20211102-WA0018.jpg (file allegato)

Can you check BP07?

02/11/21, 18:46 - Nicola Bernardi: @Support Technician 6

02/11/21, 18:46 - Mihai Soceanu: i check

02/11/21, 18:47 - Nicola Bernardi: Thx

02/11/21, 18:50 - Mihai Soceanu: i think is the bug reported today D185, D181 and D187 which will be solved in the build in this evening

02/11/21, 18:51 - Milo Barozzi: @Support Technician 6 did you already managed to restore pick station back to work or can I do it?

02/11/21, 18:51 - Nicola Bernardi: Now the station is ok?

02/11/21, 18:51 - Mihai Soceanu: pls you do it :(

02/11/21, 18:51 - Mihai Soceanu: srry

02/11/21, 18:51 - Milo Barozzi: I'll do it

02/11/21, 18:51 - Milo Barozzi: not yet, just a second

02/11/21, 18:52 - Milo Barozzi: somebody finalised a pick order now  
02/11/21, 18:52 - Milo Barozzi: not me  
02/11/21, 18:53 - Mihai Soceanu: not me  
02/11/21, 18:54 - Milo Barozzi: I'm sure it wasn't you 😊  
02/11/21, 18:55 - Milo Barozzi: anyway, now it's working  
02/11/21, 18:59 - Nicola Bernardi: Not me  
02/11/21, 18:59 - Nicola Bernardi: 🙄  
02/11/21, 18:59 - Milo Barozzi: I think was the Holy Ghost... by the way, it's working now  
02/11/21, 19:00 - Mihai Soceanu: <Media omessi>  
02/11/21, 19:01 - Milo Barozzi: <Media omessi>  
one day AGVs and stacker cranes and monorail will rebel to maintenance team...  
02/11/21, 19:02 - Milo Barozzi: I'll stop spamming now 😊  
02/11/21, 19:21 - Support Technician 25: [https://youtu.be/T\\_x6QmuJdms](https://youtu.be/T_x6QmuJdms)  
02/11/21, 20:19 - Mihai Soceanu: in 10 min i will switch off the AGVs by parameter  
02/11/21, 20:22 - Nicola Bernardi: 🙄  
02/11/21, 20:30 - Mihai Soceanu: on  
02/11/21, 20:30 - Mihai Soceanu: after all orders are finished i will also restart Hive  
02/11/21, 20:32 - Nicola Bernardi: Do you need both F01 and F02 in manual?  
02/11/21, 20:32 - Mihai Soceanu: nono  
02/11/21, 20:32 - Mihai Soceanu: the rest can remain active  
02/11/21, 20:32 - Nicola Bernardi: 📺  
02/11/21, 20:34 - Nicola Bernardi: We will only check that all is ok 🙄  
02/11/21, 20:34 - Mihai Soceanu: ok thx  
02/11/21, 20:35 - Mihai Soceanu: almost all orders are consumed  
02/11/21, 20:38 - Mihai Soceanu: orders are finished  
02/11/21, 20:38 - Milo Barozzi: Deploy 🚀🚀  
02/11/21, 20:41 - Mihai Soceanu: Hive restarted  
02/11/21, 20:42 - Milo Barozzi: 👍  
02/11/21, 20:43 - Milo Barozzi: Last steps...  
02/11/21, 20:52 - Support Technician 14: deploy done  
02/11/21, 20:52 - Support Technician 14: have a nice evening  
02/11/21, 20:54 - Milo Barozzi: System seems fine?  
02/11/21, 20:54 - Support Technician 14: yes, we are waiting for MFS to start  
02/11/21, 20:54 - Milo Barozzi: 👍  
02/11/21, 20:56 - Mihai Soceanu: up  
02/11/21, 20:56 - Mihai Soceanu: i will activate AGV  
02/11/21, 20:57 - Milo Barozzi: 👍👍👍🚀📺  
02/11/21, 21:20 - Mihai Soceanu: IMG-20211103-WA0000.jpg (file allegato)  
02/11/21, 21:20 - Mihai Soceanu: not sure if anyone on site  
02/11/21, 21:20 - Mihai Soceanu: but pallet is not moving  
02/11/21, 21:20 - Mihai Soceanu: in MFS looks ok  
02/11/21, 21:20 - Mihai Soceanu: also in PLC order  
02/11/21, 21:22 - Nicola Bernardi: I'm going to see  
02/11/21, 21:24 - Mihai Soceanu: thank you  
02/11/21, 21:24 - Nicola Bernardi: Is all good

02/11/21, 21:32 - Mihai Soceanu: that is for LU on RPF01C0442  
02/11/21, 21:32 - Mihai Soceanu: is ok will get a location  
02/11/21, 21:33 - Nicola Bernardi: 🙄  
02/11/21, 21:33 - Mihai Soceanu: ah  
02/11/21, 21:33 - Mihai Soceanu: now i see what you mean  
02/11/21, 21:33 - Mihai Soceanu: pallet lost target after intervention  
02/11/21, 21:33 - Mihai Soceanu: i can push it to S46  
02/11/21, 21:34 - Nicola Bernardi: 🙄  
02/11/21, 21:35 - Mihai Soceanu: done  
02/11/21, 21:35 - Nicola Bernardi: Do you create another delivery point  
02/11/21, 21:35 - Nicola Bernardi: ?

02/11/21, 21:35 - Nicola Bernardi: Don't run😞😞😞😞😞  
02/11/21, 21:35 - Mihai Soceanu: <Media omessi>  
02/11/21, 21:36 - Mihai Soceanu: i added a intermediar target  
02/11/21, 21:36 - Nicola Bernardi: 😎👉  
02/11/21, 21:37 - Mihai Soceanu: maybe the lift is not in correct position  
02/11/21, 21:37 - Mihai Soceanu: :-??  
02/11/21, 21:39 - Nicola Bernardi: No it is ok  
02/11/21, 21:40 - Nicola Bernardi: I try to move it in manual  
02/11/21, 21:40 - Mihai Soceanu: ok :(  
02/11/21, 21:40 - Mihai Soceanu: srry but in MFS i can not do anything  
02/11/21, 21:40 - Mihai Soceanu: ...  
02/11/21, 21:42 - Mihai Soceanu: you are the best !!!!  
02/11/21, 21:42 - Mihai Soceanu: thx  
02/11/21, 21:43 - Nicola Bernardi: "I need to go home"it is my super power😏  
02/11/21, 21:44 - Mihai Soceanu: 😎👉👉  
02/11/21, 21:44 - Nicola Bernardi: 👉👉  
02/11/21, 21:46 - Mihai Soceanu: seems that AGV23 is not delivering  
02/11/21, 21:46 - Mihai Soceanu: ...  
02/11/21, 21:46 - Mihai Soceanu: to S46 empty rack  
02/11/21, 21:46 - Mihai Soceanu: oh now is ok  
02/11/21, 21:46 - Nicola Bernardi: 😎  
02/11/21, 21:47 - Mihai Soceanu: 🙌  
02/11/21, 21:48 - Nicola Bernardi: Now home is calling me👤  
02/11/21, 21:48 - Nicola Bernardi: Good evening 🙌  
02/11/21, 21:52 - Mihai Soceanu: thx for support  
02/11/21, 21:52 - Mihai Soceanu: Good evening  
02/11/21, 21:52 - Mihai Soceanu: <Media omessi>  
02/11/21, 21:52 - Nicola Bernardi: Thanks to you for the support  
03/11/21, 08:14 - Daniele MMOperations: Hi guys, picking station 1 is locked, can you please check?  
03/11/21, 08:34 - Mihai Soceanu: station 1 is ok  
03/11/21, 08:34 - Mihai Soceanu: ?  
03/11/21, 08:35 - Daniele MMOperations: Yes now it is  
04/11/21, 13:10 - Nicola Bernardi: IMG-20211104-WA0008.jpg (file allegato)  
@Support Technician 6 can you check this?  
04/11/21, 13:10 - Mihai Soceanu: yes  
04/11/21, 13:10 - Nicola Bernardi: Udc 60066589 is the B  
04/11/21, 13:11 - Nicola Bernardi: Udc 59036083 is the D on B👉  
04/11/21, 13:11 - Mihai Soceanu: and is send to stackers  
04/11/21, 13:11 - Mihai Soceanu: stacker srry  
04/11/21, 13:12 - Nicola Bernardi: Yes  
04/11/21, 13:12 - Nicola Bernardi: But it is correct?  
04/11/21, 13:16 - Mihai Soceanu: is it an empty pallet  
04/11/21, 13:16 - Mihai Soceanu: ?  
04/11/21, 13:16 - Mihai Soceanu: or is a pallet with a D on it phisically  
04/11/21, 13:16 - Nicola Bernardi: On it there is a D pallet  
04/11/21, 13:16 - Mihai Soceanu: empty one  
04/11/21, 13:16 - Nicola Bernardi: This is the udc of D  
04/11/21, 13:17 - Mihai Soceanu: ok it means that we used this pallet from the destacker to put an empty D on it  
04/11/21, 13:17 - Nicola Bernardi: IMG-20211104-WA0009.jpg (file allegato)

04/11/21, 13:20 - Mihai Soceanu: 59036083 was replenished from S46  
04/11/21, 13:20 - Mihai Soceanu: ok i see  
04/11/21, 13:20 - Mihai Soceanu: and normally should go to HBW  
04/11/21, 13:21 - Mihai Soceanu: to release the flow i suggest  
04/11/21, 13:21 - Mihai Soceanu: we need to change target for this pallet to MD  
04/11/21, 13:21 - Mihai Soceanu: or if pallet is ok  
04/11/21, 13:21 - Mihai Soceanu: we can send dirrectly to HBW1  
04/11/21, 13:22 - Mihai Soceanu: and i am checking why target is stacker  
04/11/21, 13:22 - Mihai Soceanu: after pallet was recognized at scanner  
04/11/21, 13:22 - Nicola Bernardi: Can I change the T0?

04/11/21, 13:23 - Mihai Soceanu: yes  
04/11/21, 13:23 - Mihai Soceanu: cancel the existing one  
04/11/21, 13:23 - Mihai Soceanu: and create a new one to HBW1  
04/11/21, 13:24 - Mihai Soceanu: i can do it if you agree  
04/11/21, 13:25 - Mihai Soceanu: ok is clear for me what happened, the special flow of sending back TEMP to stacker hit us ...  
04/11/21, 13:25 - Mihai Soceanu: i am checking now  
04/11/21, 13:27 - Nicola Bernardi: Ok, meanwhile i delete the T0 and recreate this one ok?  
04/11/21, 13:27 - Mihai Soceanu: ok  
04/11/21, 15:17 - Nicola Bernardi: @Support Technician 6 can you check why the pallet 60666331 wait for go on BP05 D01?  
04/11/21, 15:24 - Mihai Soceanu: IMG-20211104-WA0014.jpg (file allegato)  
04/11/21, 15:24 - Mihai Soceanu: hi  
04/11/21, 15:24 - Nicola Bernardi: 🙏👍 thx  
04/11/21, 15:24 - Mihai Soceanu: in Hive i see is assigned to AGV24  
04/11/21, 15:25 - Mihai Soceanu: and i think is related to carrier lost which Osmo told will be fixed  
04/11/21, 15:25 - Mihai Soceanu: i will retry to send the order

10/11/21, 06:15 - Nicola Bernardi: Good morning, I have one pallet wasn't going on infeed 71, I tryed all... can you check?  
10/11/21, 08:16 - Mihai Soceanu: there are 2 pallets on SL\*71\*  
10/11/21, 08:16 - Mihai Soceanu: IMG-20211110-WA0000.jpg (file allegato)  
10/11/21, 14:02 - Daniele MMOperations: Hi everyone. Can you pls check what's wrong in picking station 11? He has everything he needs for the order but he cant start the order  
10/11/21, 14:02 - Daniele MMOperations: Thanks  
10/11/21, 14:45 - Support Technician 16: @Company Employee 24 the station seems to be working correctly and a part of the order is being made as I am looking. Please open a ticket in case you encounter problems. 😊  
10/11/21, 14:45 - Daniele MMOperations: Yes, we solved it with @Company Employee 11  
10/11/21, 14:45 - Daniele MMOperations: Thanks!  
10/11/21, 20:04 - Daniele MMOperations: Hi, we have picking station 1 locked. We cant see anything strange, can you please check? Thanks

16/11/21, 07:21 - Andrea Brunetti: Good morning, but there are problems with wamas and lighthouse?  
16/11/21, 07:22 - Andrea Brunetti: IMG-20211116-WA0000.jpg (file allegato)  
16/11/21, 07:23 - Mihai Soceanu: hi  
16/11/21, 07:23 - Mihai Soceanu: i am checking  
16/11/21, 07:23 - Andrea Brunetti: Okay thanks  
16/11/21, 07:53 - Company Employee 18: @Support Technician 6 you have find something? Because we have so much error in the plant and the system try to autoreset the error  
16/11/21, 07:53 - Mihai Soceanu: not yet  
16/11/21, 07:54 - Mihai Soceanu: i see that sometimes it consumes hard some events  
16/11/21, 07:54 - Mihai Soceanu: and i suspect the printer  
16/11/21, 07:54 - Mihai Soceanu: on the conveyour 52  
16/11/21, 07:55 - Company Employee 18: Yes I think is the printer the problem  
Because I try to find any issue but everything are good

16/11/21, 07:55 - Mihai Soceanu: i am 100% sure is the printer  
16/11/21, 07:55 - Mihai Soceanu: now a pallet was moved there  
16/11/21, 07:55 - Mihai Soceanu: and we started to have problems  
16/11/21, 07:55 - Mihai Soceanu: give me 5 min  
16/11/21, 07:57 - Company Employee 18: Yes I wait your update  
16/11/21, 08:00 - Mihai Soceanu: is clear now i found the reason  
16/11/21, 08:00 - Mihai Soceanu: i try to fix it  
16/11/21, 08:01 - Mihai Soceanu: for sure is the printer  
16/11/21, 08:06 - Mihai Soceanu: [PrjWPlusTuBookingHandlerCancelPrinting]  
PrintCommandOutput: Error: print server unreachable or specified printer does not exist. - PrjPrintingManager  
16/11/21, 08:06 - Mihai Soceanu: i remember that once  
16/11/21, 08:06 - Mihai Soceanu: some static IP was changed to a printer  
16/11/21, 08:06 - Mihai Soceanu: and we had the same problem\  
16/11/21, 08:07 - Mihai Soceanu: may you pls ask IT on your side  
16/11/21, 08:07 - Mihai Soceanu: to check  
16/11/21, 08:07 - Mihai Soceanu: 10.32.0.82  
10.32.0.92  
16/11/21, 08:08 - Mihai Soceanu: i suggest i lock the lane  
16/11/21, 08:08 - Mihai Soceanu: until we figure out  
16/11/21, 08:08 - Mihai Soceanu: why printer is not working properly  
16/11/21, 08:12 - Mihai Soceanu: guys ?  
16/11/21, 08:12 - Mihai Soceanu: we have 2 possibilities  
16/11/21, 08:12 - Mihai Soceanu: 1. lock the lane in WAMAS so pallets will be rerouted  
16/11/21, 08:12 - Mihai Soceanu: 2. create an error on a conveyour before printer  
16/11/21, 08:12 - Mihai Soceanu: if we do not do this  
16/11/21, 08:13 - Mihai Soceanu: all day until 10.32.0.82,10.32.0.92 is back on track  
16/11/21, 08:13 - Mihai Soceanu: warehouse will be like a christmas tree :(  
16/11/21, 08:14 - Mihai Soceanu: based on following log  
16/11/21, 08:14 - Mihai Soceanu: PrintCommandOutput: Error: print server unreachable or specified printer does not exist. - PrjPrintingManager  
16/11/21, 08:14 - Mihai Soceanu: i suspect that the IP of the printer was changed somehow  
16/11/21, 08:15 - Mihai Soceanu: we had this before  
16/11/21, 08:26 - Company Employee 18: I have talk with milo i think we have find the issue we try to ix  
16/11/21, 08:26 - Mihai Soceanu: super  
16/11/21, 08:27 - Mihai Soceanu: thx  
16/11/21, 08:28 - Milo Barozzi: Please do it  
16/11/21, 08:28 - Milo Barozzi: And redirect the traffic somewhere else if possible  
16/11/21, 08:28 - Milo Barozzi: @Support Technician 6 I'll call u in 10 mins  
16/11/21, 08:28 - Mihai Soceanu: ok  
16/11/21, 08:28 - Milo Barozzi: Not sure the cause is the one I told Giacomo  
16/11/21, 09:06 - Mihai Soceanu: ^XA\n" + "\n" + "~JA\n" + "\n" + "^XZ  
16/11/21, 09:06 - Mihai Soceanu: this is the command  
16/11/21, 09:06 - Mihai Soceanu: only for cancel printing command  
16/11/21, 09:07 - Mihai Soceanu: this is what the file contains  
16/11/21, 09:08 - Milo Barozzi: we executed command on both printers with success and without receiving errors  
16/11/21, 09:09 - Milo Barozzi: now I'm trying to send a shipLU label directly from RM001  
16/11/21, 09:09 - Milo Barozzi: and for 10.32.0.82 it worked  
16/11/21, 09:09 - Milo Barozzi: we're trying now with 10.32.0.92  
16/11/21, 09:09 - Milo Barozzi: and it worked  
16/11/21, 09:09 - Milo Barozzi: 😞  
16/11/21, 09:10 - Milo Barozzi: @Support Technician 6 what we do now? try to reactivate the line? however, actually we changed nothing..  
16/11/21, 09:15 - Mihai Soceanu: we can try  
16/11/21, 09:15 - Mihai Soceanu: lock is out  
16/11/21, 09:15 - Milo Barozzi: Giacomo is restoring printers / doors / locks /

alarms....

16/11/21, 09:15 - Mihai Soceanu: ok thx  
16/11/21, 09:18 - Milo Barozzi: lanes are back on track  
16/11/21, 09:18 - Milo Barozzi: let's wait for pallets going there  
16/11/21, 09:19 - Milo Barozzi: @Support Technician 6 is everything is "usual" configuration? Locks removed and redirection of pallets removed?  
16/11/21, 09:20 - Mihai Soceanu: yes  
16/11/21, 09:20 - Mihai Soceanu: all is usual now  
16/11/21, 09:23 - Milo Barozzi: ok, one pallet arrived and it went at the end of the conveyor without printing anything, but it was from HBW2, so it was fine like this  
18/11/21, 07:56 - Company Employee 18: @Support Technician 6 can you check the ww i have this situation  
18/11/21, 07:56 - Company Employee 18: IMG-20211118-WA0000.jpg (file allegato)  
18/11/21, 08:11 - Daniele MMOperations: Good morning, we have a PLT in manual deslaving (location MDP05L01) stuck here, it's not moving for "unexpected error". Can you pls check? Thanks  
18/11/21, 08:19 - Mihai Soceanu: TEMP1643 is in the destacker  
18/11/21, 08:20 - Mihai Soceanu: i am not sure what manual intervention was done there  
18/11/21, 08:20 - Mihai Soceanu: TEMP1643 logically  
18/11/21, 08:22 - Company Employee 18: But now it is ok?  
18/11/21, 08:22 - Mihai Soceanu: no  
18/11/21, 08:22 - Company Employee 18: The destacker?  
18/11/21, 08:22 - Mihai Soceanu: i will cancel the T0 and delete the TEMP1643  
18/11/21, 08:22 - Mihai Soceanu: if you agree  
18/11/21, 08:23 - Company Employee 18: Im going to check the situation  
18/11/21, 08:23 - Mihai Soceanu: if is empty  
18/11/21, 08:24 - Company Employee 18: Yes Is empty  
18/11/21, 08:24 - Company Employee 18: Thx  
18/11/21, 08:24 - Mihai Soceanu: OK  
18/11/21, 08:34 - Mihai Soceanu: 59920881 in station 8 position 3  
18/11/21, 08:34 - Mihai Soceanu: is it an empty stack ?  
18/11/21, 08:34 - Mihai Soceanu: BP08 S03  
18/11/21, 08:35 - Daniele MMOperations: IMG-20211118-WA0001.jpg (file allegato)  
This pallet is on BP11 S01, we dont need it but we cant send it back  
18/11/21, 08:35 - Daniele MMOperations: Tried to create a TPO but it doesnt work  
18/11/21, 08:36 - Mihai Soceanu: IMG-20211118-WA0002.jpg (file allegato)  
18/11/21, 08:36 - Mihai Soceanu: user created TPO for a stack in a station  
18/11/21, 08:36 - Mihai Soceanu: pls send 59920881 to QC  
18/11/21, 08:37 - Mihai Soceanu: IMG-20211118-WA0003.jpg (file allegato)  
18/11/21, 08:41 - Mihai Soceanu: may you press button ? pls  
18/11/21, 08:41 - Mihai Soceanu: for 59327320  
18/11/21, 08:41 - Daniele MMOperations: Going to check  
18/11/21, 08:41 - Mihai Soceanu: thx  
18/11/21, 08:42 - Daniele MMOperations: Yes! Its going! Thank you  
18/11/21, 08:45 - Mihai Soceanu: np  
18/11/21, 08:45 - Mihai Soceanu: 59920881 is a must to be checked  
18/11/21, 08:45 - Mihai Soceanu: pls  
18/11/21, 10:41 - Support Technician 22 ha abbandonato.  
19/11/21, 07:41 - Milo Barozzi: Dear all, pick station 9 is blocked from yesterday 15.45.  
I sent two ticket but nobody is answering.  
Shall u kindly fix it pls?  
@Support Technician 14 @Support Technician 16 pls help us  
19/11/21, 07:46 - Support Technician 16: @Company Employee 16 I apologize for that, I will take a look right now  
19/11/21, 07:49 - Support Technician 16: Can the person please refresh the dialog, and tell me if it's ok now?  
19/11/21, 07:51 - Milo Barozzi: @Company Employee 24 riuscite a premere la x vicino al nome della schermata della baia 9 per farla aggiornare?  
19/11/21, 07:52 - Daniele MMOperations: Si sono già qui, ho premuto e aspetto che Wamas "non risponde"  
19/11/21, 07:53 - Daniele MMOperations: IMG-20211119-WA0001.jpg (file allegato)

19/11/21, 07:53 - Daniele MMOperations: Thanks a lot  
19/11/21, 07:55 - Support Technician 14: 👍  
19/11/21, 08:01 - Milo Barozzi: @Support Technician 16 did you recognized the root cause of the issue in manner to patch it in next deploy?  
19/11/21, 08:04 - Daniele MMOperations: Picking station 10 is waiting an empty PLT from a long time... it not coming  
19/11/21, 08:04 - Daniele MMOperations: IMG-20211119-WA0003.jpg (file allegato)  
19/11/21, 08:05 - Daniele MMOperations: We have this in OG525  
19/11/21, 08:07 - Support Technician 14: We are close to detect the roout cause  
19/11/21, 08:08 - Support Technician 14: Possible to be in the next deploy- we are doing our best  
19/11/21, 08:13 - Support Technician 16: did you check the protocol?  
19/11/21, 08:15 - Support Technician 16: and also the availability of your empty stack's of those type?  
19/11/21, 08:16 - Daniele MMOperations: I need to check it on SM023, but i dont have a UDC neither a TEMP  
19/11/21, 08:18 - Support Technician 16: You don't understand, the system asks for either a AF, F, or U pallet, do you have any available?  
19/11/21, 08:18 - Daniele MMOperations: Not in the destacker  
19/11/21, 08:19 - Support Technician 16: then that is why you are not receiving any  
19/11/21, 08:38 - Milo Barozzi: thank you so much Flaviu  
19/11/21, 08:40 - Support Technician 14: You're welcome

I all i have this kind of problem...  
19/11/21, 12:19 - Daniele MMOperations: UDC 60602971, we need to send it back cause we need the PLT in the buffer, but i cant create the TPO  
19/11/21, 12:21 - Support Technician 16: Please use the ticketing service for any problem you encouter as this channel should be used only in case of emergency  
19/11/21, 12:42 - Support Technician 25: Fully agree 👍  
19/11/21, 13:07 - Milo Barozzi: I see, but today efficiency is 44% (usually is 65-70%) and we are busy in several stuff therefore we tried the other way around  
19/11/21, 13:07 - Milo Barozzi: But we'll do it ASAP

25/11/21, 22:10 - Mihai Soceanu: guys, thx for support i think all is ok  
25/11/21, 22:19 - Milo Barozzi: Thanks everybody for your efforts! Wish you all  
a goodnight  
26/11/21, 18:14 - Milo Barozzi: Dear All, @Support Technician 14 @Support  
Technician 16 @Support Technician 6 @Support Technician 21 MAVSPIA machines  
should be fine now. Maintenance on VMs are finished. Please, give me a feedback  
if you can  
26/11/21, 18:59 - Milo Barozzi: @Flaviu Stratila @Lucian Bacescu @Adrian Vecliuc  
@Mihai Soceanu @Matthias Neuroth @Razvan Voicu Personale I'm really sorry to  
disturb you at this time, but I'm convinced that a patch applied yesterday  
evening (the one for issue K69) made a mess and generated issues K70 and A88  
(blocker) I just sent to ticketing service.

Basically it's not possible to release OG buffer a load which has a slaved pallet that is in HBW1 and there are really but really a lot of OBDs in progress state 90%, which usually doesn't allow us to close the load!

I wrote to all of you and now I'm going to send you all a mail with timeframes for potential deploy to make a rollback of that change.

Please, if possible, fix it before Monday otherwise it'll be the hell here!

Awaiting for your kind reply

Hi everyone, picking station n.3 is locked like this since 15 minutes, can u pls check? Thanks a lot

29/11/21, 09:20 - Milo Barozzi: Dear All, I reported the issue by phone and mail to helpdesk, but pick station is still blocked since 1,5 hours. Can you kindly check and fix it? Picker is doing nothing... 😞

29/11/21, 09:23 - Razvan Voicu: Hi milo

29/11/21, 09:23 - Razvan Voicu: I will look

29/11/21, 09:24 - Razvan Voicu: Station 3 above?

29/11/21, 09:28 - Milo Barozzi: yep, station 3 HBW03

29/11/21, 09:39 - Razvan Voicu: can he try now?

29/11/21, 09:39 - Daniele MMOperations: Yes, im going

29/11/21, 09:41 - Daniele MMOperations: IMG-20211129-WA0004.jpg (file allegato)

It works 🎉

29/11/21, 09:41 - Daniele MMOperations: Thank you very much

29/11/21, 09:41 - Razvan Voicu: Ok, one stock object was blocked for inventory

29/11/21, 09:41 - Razvan Voicu: And that's why you couldn't create transport order for the LU

29/11/21, 09:43 - Milo Barozzi: but.... shouldn't it be managed automatically by the pick station dialog? I mean... people from pick station dialogs cannot create TPOs, block for inventory, etc...

29/11/21, 09:44 - Razvan Voicu: IMG-20211129-WA0005.jpg (file allegato)

29/11/21, 09:44 - Razvan Voicu: something happened here

29/11/21, 09:44 - Razvan Voicu: and one stock object had the "block for inventory" check

29/11/21, 09:45 - Razvan Voicu: I believe you reported this ticket

Reopening issue D189 - OIL 3945 | BLOCKING ONE PICK STATION

based on the above problem, right?

29/11/21, 09:48 - Milo Barozzi: yep

29/11/21, 09:56 - Razvan Voicu: Ok, so for now problem is solved. We will keep ticket for further analysis

29/11/21, 10:11 - Milo Barozzi: Yes! Thank you!

02/12/21, 19:27 - Capoturno Picking Progetto Lavoro: Baia 12 blocked

03/12/21, 08:06 - Mihai Soceanu: hi

03/12/21, 08:06 - Mihai Soceanu: How SRM 8 is looking ?

03/12/21, 08:06 - Company Employee 18: Hi Mihai

03/12/21, 08:06 - Mihai Soceanu: does it have a any pallet on it

03/12/21, 08:06 - Mihai Soceanu: ?

03/12/21, 08:08 - Company Employee 18: We have calling the service Schäfer because we have an issue with wamas

Darius now is at work for that problem

03/12/21, 08:09 - Mihai Soceanu: IMG-20211203-WA0001.jpg (file allegato)

03/12/21, 08:09 - Mihai Soceanu: yes i know i am discussing with him

03/12/21, 08:09 - Mihai Soceanu: i see there was a manual intervention

03/12/21, 08:10 - Mihai Soceanu: Device Controller knows it has pallet 65605776 on SRM

03/12/21, 08:10 - Company Employee 18: 😞

03/12/21, 08:10 - Mihai Soceanu: and PLC is telling that pallet is on SRM even if in MFS is already there

03/12/21, 08:10 - Mihai Soceanu: so

03/12/21, 08:10 - Mihai Soceanu: my question is how the SRM looks in reality

03/12/21, 08:10 - Mihai Soceanu: :)

03/12/21, 08:11 - Mihai Soceanu: i suspect that Transport was finished  
03/12/21, 08:11 - Company Employee 18: I understand but I go to check but I think are clean  
03/12/21, 08:11 - Mihai Soceanu: but was already in processing  
03/12/21, 08:11 - Mihai Soceanu: ok  
03/12/21, 08:11 - Mihai Soceanu: :)  
03/12/21, 08:11 - Mihai Soceanu: pls check  
03/12/21, 08:11 - Mihai Soceanu: so we know how we can align the planets  
03/12/21, 08:11 - Mihai Soceanu: :)  
03/12/21, 08:12 - Company Employee 18: I understand we go here and after we solve the issue thx Mihai!  
03/12/21, 08:12 - Company Employee 18: Just a minutes  
03/12/21, 08:12 - Mihai Soceanu: ok thank you  
03/12/21, 08:13 - Company Employee 18: Ok now the fork are clean  
03/12/21, 08:13 - Company Employee 18: We remove the block from wh078?  
03/12/21, 08:13 - Mihai Soceanu: super thx  
03/12/21, 08:13 - Mihai Soceanu: 1 sec  
03/12/21, 08:13 - Company Employee 18: Ok Tell me when you are ready to go 🚚  
03/12/21, 08:14 - Mihai Soceanu: pls remove  
03/12/21, 08:14 - Company Employee 18: Ok thx for your support 🙏  
03/12/21, 08:14 - Mihai Soceanu: no problem  
03/12/21, 08:14 - Mihai Soceanu: lets see  
03/12/21, 08:15 - Company Employee 18: Ok  
03/12/21, 08:16 - Mihai Soceanu: back on track  
03/12/21, 08:16 - Mihai Soceanu: :)  
03/12/21, 08:16 - Company Employee 18: Perfect thx Mihai 🙏  
03/12/21, 08:17 - Mihai Soceanu: thx the same :)

13/12/21, 09:21 - Milo Barozzi: Dear All, since project closure is next to the door (we hope) we want to reduce the "volume" of messages inside this group, even it's really really low already, in manner people can become "familiar" that sooner they'll "live" without this channel.

According to this, I'll "kick out" from this channel all people that are not writing for so long on this channel.

Thank you so much for helping in our project.

Ciao a tutti, siccome (mi auguro) il progetto si sta avviando alla sua chiusura, vorremmo ridurre significativamente il già basso volume di messaggi presente in questa chat.

Per questo motivo, escluderò dal canale tutti i contatti che non scrivono da lungo tempo e/o che non dovrebbero utilizzare questo mezzo di comunicazione.

Ringrazio tutte queste persone per il preziosissimo contributo apportato al progetto.

Grazie mille!

15/12/21, 10:12 - Razvan Voicu: Hi Milo, Stefano

Could you help me with an example of terminal/user that gets disconnected because of spontaneous?

15/12/21, 10:13 - Stefano Dall'Asta, Lavoro: Hi, do you Need LUs or user ID?

15/12/21, 10:13 - Razvan Voicu: user ID

15/12/21, 10:20 - Razvan Voicu: if you don't have it, then LUs are ok aswell

15/12/21, 10:20 - Razvan Voicu: is is the mobile or the desktop? or both?

15/12/21, 10:37 - Stefano Dall'Asta, Lavoro: Mobile

15/12/21, 10:37 - Stefano Dall'Asta, Lavoro: User

15/12/21, 10:37 - Stefano Dall'Asta, Lavoro: pl39 pl97 pl25 pl28 pl61

15/12/21, 10:39 - Razvan Voicu: Is this problem still ongoing now?

15/12/21, 10:39 - Razvan Voicu: Can I log in with one of this users and try to scan for a spontaneous, so I can see the error?

15/12/21, 11:01 - Stefano Dall'Asta, Lavoro: Yes and yes you can

15/12/21, 11:01 - Stefano Dall'Asta, Lavoro: Lig out One of them of its needed

15/12/21, 11:17 - Razvan Voicu: So I have tested a couple of LUs and the only ones that have a problem are the ones with InDecori-MAV fog and the stock item has goods category "Decori" instead of "decori-mav"

15/12/21, 11:19 - Stefano Dall'Asta, Lavoro: I give some Lu

15/12/21, 11:19 - Razvan Voicu: IMG-20211215-WA0001.jpg (file allegato)

15/12/21, 11:20 - Razvan Voicu: Because of wrong FOG-GoodsCategory combination, the search fails

15/12/21, 11:24 - Stefano Dall'Asta, Lavoro: 851355862 59997619 85135861 60592617

15/12/21, 11:25 - Razvan Voicu: Ok I check

15/12/21, 11:47 - Razvan Voicu: For me it is working, just a little bit slow

15/12/21, 11:47 - Razvan Voicu: For you it's loading slow or crashing?

15/12/21, 11:47 - Stefano Dall'Asta, Lavoro: Crashing  
 15/12/21, 11:48 - Support Technician 16: Is it an instant crash or after a period of wait time?  
 15/12/21, 13:38 - Stefano Dall'Asta, Lavoro: About 5 seconds and then It crashes  
 15/12/21, 14:06 - Razvan Voicu: How about now?  
 15/12/21, 15:05 - Razvan Voicu: @Company Employee 15  
 15/12/21, 15:05 - Razvan Voicu: Is this problem still persisting?  
 15/12/21, 15:17 - Razvan Voicu: @Company Employee 11 regarding the discharge problem, what's the real status? Do you still need to discharge something?  
 15/12/21, 15:19 - Benedetta Zini: Hi @Support Technician 21 ! No i needn't to discharge something  
 15/12/21, 15:23 - Benedetta Zini: Phisically on LU 60733923 there are 5 boxes of ATLA28U 1 AQ4 8 and it is the quantity that is planned  
 15/12/21, 15:37 - Razvan Voicu: But in OBD you saw that ordered qty is 20, but delivered is only 5. Is this also intended?  
 15/12/21, 16:09 - Benedetta Zini: Yes it's okay  
 15/12/21, 16:09 - Benedetta Zini: The discharge of 15 boxes is to be canceled  
 15/12/21, 16:29 - Razvan Voicu: Ok, then I will edit the OBD so it has ordered qty = 5 pieces  
 15/12/21, 16:29 - Razvan Voicu: if that was the mistake  
 15/12/21, 16:30 - Razvan Voicu: Or am I understanding it wrong?  
 15/12/21, 16:31 - Support Technician 16: No ordered should not be modified  
 15/12/21, 16:32 - Razvan Voicu: Or I can edit the UDC to have discharge = 0, but then we will have to finalize manually the OBDL  
 15/12/21, 16:34 - Support Technician 16: Only cancel the discharge amount of the LU, let the line as it is, the line because ordered is greater than delivered it will be active and will need @Company Employee 11 to either finalize manually the line or pick the remaning  
 15/12/21, 16:41 - Razvan Voicu: I removed the amount, let me you after you finalize it if you have more problems  
 15/12/21, 16:43 - Razvan Voicu: let me know\*  
 15/12/21, 16:46 - Benedetta Zini: Superr!! It works!! thank you very much!!  
 15/12/21, 16:48 - Razvan Voicu: Great, thanks as well  
 15/12/21, 18:16 - Stefano Dall'Asta, Lavoro: Spontaneous are now wirking! Thank u

 21/12/21, 09:07 - Milo Barozzi: Good morning to All, I have a show stopper issue at pick station #4. Can somebody have a look at it with me?  
 21/12/21, 09:55 - Support Technician 14: Good morning Milo, please describe the issue in email and send it to helpdesk for ticket  
 21/12/21, 09:56 - Support Technician 14: Thank you  
 21/12/21, 10:06 - Milo Barozzi: I managed somehow. Ticket will come in 30 mins. I wrote here since pick station was completely blocked.  
 22/12/21, 09:55 - Support Technician 25: Ragazzi, Auguri a tutti :) See you in 2022  
 22/12/21, 11:22 - Milo Barozzi: @Support Technician 14 @Support Technician 6 plan for "special" deploy of today 13:00 Italian time.  
 DEPLOY CONFIRMED FOR TODAY AT 13:00  
 Battle plan is the following:  
 - 12:45 @Support Technician 6/@Support Technician 14 please put `com.wamas.mfs.core.common.agvDisable = true`  
 - @Company Employee 17 @Company Employee 10 @Company Employee 18 @Company Employee 12 will ensure AGV will finish their last orders. Usually AGV takes 10 minutes to finish their orders  
 - As soon as no more orders need to be executed (it'll be close to 13:00), @Support Technician 14 please proceed with deploy. If AGVs finish orders before 13:00, please proceed anyway.  
 - hopefully everything will be back on track within 13:10  
 - @Support Technician 6 / @Support Technician 14 please put `com.wamas.mfs.core.common.agvDisable = false` as soon as you can  
 - @Support Technician 14 please send emails to all Atlas Concorde's contacts that they can resume WAMAS

Thank you all for your kind cooperation!

22/12/21, 12:45 - Mihai Soceanu: AGVs are deactivated  
22/12/21, 12:49 - Mihai Soceanu: seems that foiling lines are blocked  
22/12/21, 12:50 - Nicola Bernardi: Now is ok  
22/12/21, 12:50 - Mihai Soceanu: thx  
22/12/21, 13:18 - Mihai Soceanu: all seems back on track  
22/12/21, 13:18 - Mihai Soceanu: i am keeping an eye on the system  
22/12/21, 13:20 - Support Technician 25: @ big Mihai is watching you  
22/12/21, 13:20 - Mihai Soceanu: :)))
