

22/12/22, 17:23 - Benedetta Zini: IMG-20221222-WA0010.jpg (file allegato)
Dear All, sorry but automatic area is completely blocked. I've just sent an email in order to open a ticket

22/12/22, 17:23 - Razvan Voicu: Hello

22/12/22, 17:23 - Razvan Voicu: On it

22/12/22, 17:23 - Benedetta Zini: Thank you!

22/12/22, 17:30 - Benedetta Zini: CPU is okay

22/12/22, 17:31 - Benedetta Zini: Do you find the root cause?

22/12/22, 17:31 - Razvan Voicu: still checking

22/12/22, 17:32 - Razvan Voicu: but I'm guessing it's back to normal?

22/12/22, 17:32 - Benedetta Zini: Right now

22/12/22, 17:32 - Benedetta Zini: We didn't anything

22/12/22, 17:32 - Razvan Voicu: me neither

22/12/22, 17:33 - Benedetta Zini: oh

22/12/22, 17:33 - Razvan Voicu: just sated checkin logs and stuff

22/12/22, 17:33 - Razvan Voicu: started*

22/12/22, 17:33 - Razvan Voicu: small hiccup :D

22/12/22, 17:34 - Razvan Voicu: was the CPU fne for the whole period?

22/12/22, 17:35 - Benedetta Zini: But it happened twice within 20 minutes

22/12/22, 17:36 - Benedetta Zini: yes

22/12/22, 17:43 - Benedetta Zini: IMG-20221222-WA0012.jpg (file allegato)
Do you know what is "Notifica interna 21" on CU064 and CU041?

22/12/22, 17:44 - Razvan Voicu: No, but that's from yesterday

22/12/22, 17:44 - Razvan Voicu: maybe can you check on stacker F what's physically there

22/12/22, 17:45 - Razvan Voicu: IMG-20221222-WA0013.jpg (file allegato)

22/12/22, 17:45 - Razvan Voicu: In Wamas we have the stack + 2 Lus there

22/12/22, 17:46 - Razvan Voicu: and these 2 LUs are connected to inventory+consolidation orders

22/12/22, 17:47 - Razvan Voicu: IMG-20221222-WA0014.jpg (file allegato)
i deleted these 2 orders since they are 2 months+ old

22/12/22, 17:48 - Razvan Voicu: I found some errors related to these 2 LUs. Very unlikely that these 2 caused the errors, but it might be the butterfly effect

22/12/22, 17:49 - Benedetta Zini: What kind of errors?

22/12/22, 17:50 - Razvan Voicu: well the inventory order was done and when trying to delete the LU it's not possible, because they still had those 2 old consolidation orders

22/12/22, 17:51 - Razvan Voicu: it was a DB constraint that stops us from deleting LUs (deletion probably requested by the normal flow of the inventory order being finished) if it has some connections, like this one with the CO

22/12/22, 17:51 - Nicola Bernardi: IMG-20221222-WA0015.jpg (file allegato)

22/12/22, 17:51 - Nicola Bernardi: IMG-20221222-WA0016.jpg (file allegato)

22/12/22, 17:54 - Razvan Voicu: 60968607
85001809

22/12/22, 17:54 - Razvan Voicu: these 2 pallets, do you see them there?

22/12/22, 17:54 - Benedetta Zini: We are checking

22/12/22, 17:56 - Nicola Bernardi: No

22/12/22, 17:56 - Benedetta Zini: Do you think total blocks of the plant are related to this 2 pallets?

22/12/22, 17:58 - Razvan Voicu: These 2 had many errors in the logs, it kept trying to delete them, which might have caused a DB load increase for a short period of time

22/12/22, 17:58 - Razvan Voicu: because from what I saw on lihthouse, it seemed like a fast MFS restart

22/12/22, 18:04 - Benedetta Zini: oh okay... In fact the first total block was at 16:35 and at 16:32 LU was on CU133

22/12/22, 18:05 - Benedetta Zini: But it's not okay that WAMAS allow me to do inventory on LU 85001809 while it have a consolidation order too

22/12/22, 18:19 - Razvan Voicu: yes from what I see around 16:35 errors started to occur

22/12/22, 18:20 - Razvan Voicu: probably because of inventory order was done, pallets were empty -> go to stacker -> delete LUs when stacker picks them up

22/12/22, 18:20 - Benedetta Zini: yes and the second time was at 17:09

22/12/22, 18:20 - Benedetta Zini: exactly

22/12/22, 18:20 - Razvan Voicu: I will close this ticket now as problem is solved
22/12/22, 18:20 - Razvan Voicu: and open a problem ticket related to it
22/12/22, 18:21 - Razvan Voicu: will talk to Adrian and we'll come back with an email regarding this issue
22/12/22, 18:24 - Benedetta Zini: Okay but I'm writing an email related to this problem
22/12/22, 18:24 - Benedetta Zini: yes thank you!
22/12/22, 18:25 - Razvan Voicu: Perfect, thanks. I'm out, have a nice evening !
22/12/22, 18:45 - Benedetta Zini: email sent! have a nice evening!
22/01/23, 15:47 - Support Technician 23: Hi
@Company Employee 11 can you please let us know if you are working on anything?
I see pallets showing up in lh
22/01/23, 15:47 - Benedetta Zini: I'm working on it
22/01/23, 15:48 - Benedetta Zini: By cancelling SOC TO ID from 266 and then refresh and reset TO from MF200
22/01/23, 15:48 - Benedetta Zini: Could you please take a look at picking station sources?
22/01/23, 15:49 - Support Technician 23: Sure, are there any pallets?
22/01/23, 15:49 - Benedetta Zini: Because I can't resume pallets
22/01/23, 15:49 - Benedetta Zini: yes all pallets you can see from WAMAS are phisically there
22/01/23, 15:49 - Support Technician 23: Ok
22/01/23, 15:49 - Benedetta Zini: If you need help, you can text me
22/01/23, 15:50 - Support Technician 23: Ok, I'll check now
22/01/23, 15:50 - Benedetta Zini: I'm working on destackers
22/01/23, 15:51 - Support Technician 23: Can someone please try to reste pick station 7?
22/01/23, 15:51 - Benedetta Zini: yes
22/01/23, 15:54 - Nicola Bernardi: We do it
22/01/23, 16:03 - Support Technician 23: Can you please check the emergency stop?
22/01/23, 16:04 - Benedetta Zini: Yes, but we don't think it's the problem
22/01/23, 16:06 - Benedetta Zini: LUs on picking station sources haven't got SOC TO ID
22/01/23, 16:07 - Support Technician 23: I see, I'm checking the log files now, but if we can get the emergency stop reset it may help as well
22/01/23, 16:09 - Benedetta Zini: we did it
22/01/23, 16:15 - Benedetta Zini: Any news?
22/01/23, 16:16 - Support Technician 23: Not yet
22/01/23, 16:19 - Benedetta Zini: I think it's a MFS problem
22/01/23, 16:32 - Support Technician 23: I see that the ones in red do not have transport order and that's the reason the pcs order is not created
22/01/23, 16:33 - Benedetta Zini: But they are needed at oicking stations
22/01/23, 16:34 - Support Technician 23: Is there any change for you to execute a picking order, and by this making sure that the pallets will show up in lh and leave ?
22/01/23, 16:34 - Benedetta Zini: It's my plan B
22/01/23, 16:35 - Support Technician 23: At least at one station
22/01/23, 16:38 - Support Technician 23: It start to move
22/01/23, 16:39 - Benedetta Zini: yes because I did "release source LU" > TO was created
22/01/23, 16:39 - Support Technician 23: Yes, there is no issue on mfs
22/01/23, 16:40 - Support Technician 23: The order was lost at the plc restrat but it will be recreated once a transport order will be create
22/01/23, 16:40 - Benedetta Zini: okay
22/01/23, 16:40 - Benedetta Zini: better
22/01/23, 16:40 - Support Technician 23: Once the picking is started, the issues from the picking stations should disappear
22/01/23, 16:41 - Support Technician 23: I guess we can close this case for today and if the issue persist in the morning create a new onr
22/01/23, 16:41 - Support Technician 23: I'll be on call next week and I'll know what was the status
22/01/23, 16:49 - Support Technician 23: @Company Employee 11 please let me know

if we can close this case for now
22/01/23, 17:00 - Benedetta Zini: @Support Technician 23 yes, you can close it.
Thank you
22/01/23, 17:00 - Support Technician 23: Thank you
04/02/23, 16:39 - Razvan Voicu: Hello. I want to start the deploy and stop
Wamas, but I still see some users active
04/02/23, 16:39 - Razvan Voicu: IMG-20230204-WA0000.jpg (file allegato)
04/02/23, 16:40 - Razvan Voicu: From my understanding at 16:30 Italy time there
should be no activity
04/02/23, 16:42 - Stefano Dall'Asta, Personale: Hi razvan. Log them out
04/02/23, 16:45 - Razvan Voicu: Ok, thanks
06/02/23, 09:52 - Benedetta Zini: Hai eliminato questo messaggio.
06/02/23, 09:54 - Benedetta Zini: Dear All, sorry but from this morning we can't
use OgStockData, PRJITEMSTACKINGINFO, loadaid, PRJORDERCOMMENT20BDL
06/02/23, 09:54 - Benedetta Zini: IMG-20230206-WA0000.jpg (file allegato)
06/02/23, 09:55 - Benedetta Zini: Do you know anything about it?
06/02/23, 10:01 - Razvan Voicu: I ll check
06/02/23, 10:02 - Benedetta Zini: thank you
06/02/23, 10:08 - Razvan Voicu: Done.
06/02/23, 10:11 - Adrian Cindea: Procedure was updated to generate properly
grants after some database changes were done for deploy
06/02/23, 10:12 - Benedetta Zini: Now they work. Thank you very much
06/02/23, 10:12 - Benedetta Zini: Okay, thanks for your explanation
06/02/23, 10:13 - Adrian Cindea: Script was but not included in deploy
procedure ... it was an old script only for a part of tables ... n
13/02/23, 06:44 - Stefano Dall'Asta, Personale: Hello. I think we have a
comunication problem between wamas and AS400
13/02/23, 06:44 - Alexandru Catarau: i'll fix it asap
13/02/23, 06:49 - Stefano Dall'Asta, Personale: Thankss
13/02/23, 06:57 - Alexandru Catarau: please check and confirm
13/02/23, 07:02 - Stefano Dall'Asta, Personale: It Seems ok now.thank you
13/02/23, 07:03 - Alexandru Catarau: you are wellcome
23/02/23, 07:19 - Razvan Voicu: @Company Employee 17 hello. Is the problem
solved?
23/02/23, 07:30 - Nicola Bernardi: For now the traspor order are OK, but I have
problem with order on stacker crane
23/02/23, 07:31 - Nicola Bernardi: IMG-20230223-WA0001.jpg (file allegato)
23/02/23, 07:31 - Razvan Voicu: I canceled those transport orders
23/02/23, 07:32 - Razvan Voicu: What the problem with NOK GTP?
23/02/23, 07:32 - Nicola Bernardi: And I have one pallet on MDP05L01 I can't
create order for put it out
23/02/23, 07:32 - Razvan Voicu: Are you trying to create transport order from
SM023 or from the NOK Gtp Work Station?
23/02/23, 07:33 - Nicola Bernardi: IMG-20230223-WA0002.jpg (file allegato)
23/02/23, 07:33 - Nicola Bernardi: I can't
23/02/23, 07:33 - Nicola Bernardi: IMG-20230223-WA0003.jpg (file allegato)
23/02/23, 07:33 - Nicola Bernardi: It's normal?
23/02/23, 07:34 - Nicola Bernardi: IMG-20230223-WA0004.jpg (file allegato)
23/02/23, 07:34 - Razvan Voicu: if it's at NOK Gtp I believe the work station
should be used
23/02/23, 07:34 - Razvan Voicu: scan LU at station, resolve error, release LU
23/02/23, 07:36 - Stefano Dall'Asta, Personale: Hi we have some problem of
comunication between As400 and wamas too
23/02/23, 07:37 - Razvan Voicu: Hi Stefano. What' the problem?
23/02/23, 07:37 - Nicola Bernardi: Can you enable me (nbernardi1) to use the
workstation?
23/02/23, 07:37 - Stefano Dall'Asta, Personale: Like OBD0000562315 is completely
ready in wamas ma not in As400
23/02/23, 07:38 - Razvan Voicu: Not sure if I'm allowed 😊 I will do it myself
23/02/23, 07:38 - Stefano Dall'Asta, Personale: I have other example if you need
them
23/02/23, 07:39 - Razvan Voicu: Tpo created
23/02/23, 07:40 - Razvan Voicu: Should WAMAS send an ACK to AS400 to mark it as
ready?

23/02/23, 07:40 - Stefano Dall'Asta, Personale: Yes
23/02/23, 07:41 - Razvan Voicu: what ack
23/02/23, 07:48 - Nicola Bernardi: @Support Technician 21 have a problem to complete the order only on S48 02
23/02/23, 07:48 - Razvan Voicu: what order
23/02/23, 07:50 - Nicola Bernardi: The forklift driver can't take the pallet logically in this stacker
23/02/23, 07:51 - Nicola Bernardi: *on this
23/02/23, 07:51 - Razvan Voicu: What's the error exactly?
23/02/23, 07:54 - Nicola Bernardi: Put out from wamas whitout error
23/02/23, 08:49 - Benedetta Zini: Hi Razvan, we checked that for ADBATL000080466 WAMAS sent to AS400 record type #24
23/02/23, 08:54 - Benedetta Zini: IMG-20230223-WA0005.jpg (file allegato)
For order line 200 and 210 record #24 was sent Yesterday at 23:10, but it seems that AS400 didn't received it
23/02/23, 09:00 - Benedetta Zini: Another example is ADBATL000070434. Record type #24 was sent Yesterday at 23:57:41 but AS400 didn't received it
23/02/23, 09:00 - Benedetta Zini: IMG-20230223-WA0007.jpg (file allegato)
23/02/23, 09:01 - Benedetta Zini: IMG-20230223-WA0006.jpg (file allegato)
23/02/23, 09:07 - Benedetta Zini: We are checking with our IT
23/02/23, 10:04 - Benedetta Zini: @Support Technician 21 Could you please explain me why we can't create TPO from MDP05L01? Untile Yesterday we can create them
23/02/23, 10:04 - Benedetta Zini: Until*
23/02/23, 10:08 - Razvan Voicu: You mean create manually from sm023 right click -> create TPO?
23/02/23, 10:08 - Nicola Bernardi: No it isn't possible
23/02/23, 10:18 - Razvan Voicu: Only for the one LU I created or for every LU?
23/02/23, 10:23 - Nicola Bernardi: Not for all
23/02/23, 10:34 - Razvan Voicu: If you encounter it again, please provide me with a fresh example and I will check
23/02/23, 10:36 - Benedetta Zini: Yes exactly
23/02/23, 10:38 - Razvan Voicu: There should be nothing different about how Wamas behaves today versus yesterday, the problem was that the DB Users tablespace was full and there were problems at commit
23/02/23, 10:42 - Benedetta Zini: We found the issue
23/02/23, 10:43 - Benedetta Zini: @Company Employee 9 is going to write an email in order to open a ticket
23/02/23, 10:44 - Benedetta Zini: As I thought
23/02/23, 10:45 - Benedetta Zini: Thanks for your help. Please, as soon as you receive the email can you fix the issue?
23/02/23, 10:51 - Chiara Lodesani, Lavoro: I have sent the email
23/02/23, 10:55 - Razvan Voicu: ok thanks
23/02/23, 11:13 - Razvan Voicu: I will unblock station now
23/02/23, 11:17 - Razvan Voicu: Done. The LUs at NOK Gtp should be handled by the work station, "Resolve Error" and "Release LU" buttons
28/02/23, 10:57 - Benedetta Zini: Dear All, I suppose we are heading towards a potential total block. I just sent an email to helpdesk, could you please take a look ASAP?
Thanks in advance for your help
28/02/23, 11:05 - Benedetta Zini: Are you doing something?
28/02/23, 11:07 - Razvan Voicu: Hello, yes, someone is looking
28/02/23, 11:08 - Benedetta Zini: Thank you
28/02/23, 11:25 - Benedetta Zini: Any news about the issue? I keep seeing errors on lighthouse 🙄
28/02/23, 11:40 - Benedetta Zini: Most ems vehicle have pallets that need to go to HBW1, this cause a picking stations block
28/02/23, 11:57 - Benedetta Zini: Picking stations are definitely blocked
28/02/23, 11:59 - Benedetta Zini: Pallets that must leave HBW2 are blocked
28/02/23, 12:01 - Benedetta Zini: it's already an hour
28/02/23, 12:24 - Benedetta Zini: We reset HBW1 pults
28/02/23, 12:33 - Razvan Voicu: Should be ok now pallets at station
28/02/23, 12:35 - Benedetta Zini: It seems okay now, what was the root cause?
28/02/23, 12:35 - Razvan Voicu: investigation is pending

28/02/23, 12:35 - Benedetta Zini: It seems that physically and logically weren't aligned
28/02/23, 12:36 - Benedetta Zini: Let me know about it because i'm afraid it will happen again
28/02/23, 12:52 - Andrea Brunetti ha aggiunto Giuseppe Romano, Lavoro e Tommaso Guizzardi, Lavoro.
28/02/23, 16:28 - Benedetta Zini: IMG-20230228-WA0010.jpg (file allegato)
I think the problem is starting again. On TPF01C1571 there is LU 51758119, whereas on TPF01C0641 there is LU 85248424 but on Lighthouse both CU are in error
28/02/23, 16:30 - Benedetta Zini: If we confirm the fault, it restarts
28/02/23, 16:59 - Benedetta Zini: IMG-20230228-WA0011.jpg (file allegato)
28/02/23, 17:30 - Nicola Bernardi ha aggiunto Robert Muraru, Personale.
28/02/23, 17:30 - Ora sei un amministratore.
28/02/23, 17:31 - Benedetta Zini: IMG-20230228-WA0012.jpg (file allegato)
28/02/23, 18:00 - Benedetta Zini: @Support Technician 24 are you looking at the problem?
28/02/23, 18:25 - Robert Muraru, Personale: Yes, still looking
28/02/23, 18:25 - Robert Muraru, Personale: And sorry can you please add this number on the grup? +Support Technician 15
28/02/23, 18:26 - Robert Muraru, Personale: This is my work number
28/02/23, 18:27 - Chiara Lodesani, Lavoro ha aggiunto ~Robert.
28/02/23, 18:28 - Robert Muraru, Personale ha abbandonato.
28/02/23, 18:29 - Support Technician 15: IMG-20230228-WA0013.jpg (file allegato)
I see those two points are still in error
28/02/23, 18:29 - Support Technician 15: i am checking
28/02/23, 18:30 - Benedetta Zini: 3 conveyor now
28/02/23, 18:30 - Benedetta Zini: IMG-20230228-WA0014.jpg (file allegato)
28/02/23, 18:30 - Support Technician 15: it says Occupation without transport order at position P1. but I see the pallet there has already TO
28/02/23, 18:31 - Benedetta Zini: Yes exactly
28/02/23, 18:33 - Benedetta Zini: If we confirm the fault, pallet will appear on Lighthouse and start moving immediately
28/02/23, 18:35 - Benedetta Zini: When ems put a pallet on conveyor, the conveyor get in error on Lighthouse but on WAMAS everything is okay --> pallet with TPO is on correct conveyor
28/02/23, 18:41 - Benedetta Zini: IMG-20230228-WA0015.jpg (file allegato)
28/02/23, 18:48 - Support Technician 15: can we do a mfsPal restart?
28/02/23, 18:52 - Nicola Bernardi: How many time do you need to restart mfsPal?
28/02/23, 18:54 - Support Technician 15: 20-30 min. When do they finish working ?
28/02/23, 18:58 - Nicola Bernardi: At 20:40 Italian time, can you wait this time? But at 21:10 Italian time restart working
28/02/23, 19:01 - Support Technician 15: so do you want us to do the restart at 21:10 Italian time ?
28/02/23, 19:31 - Benedetta Zini: @Support Technician 15 you can do the restart of mfsPal from 20:40 to 21:10 italian time
28/02/23, 19:32 - Benedetta Zini: Please talk with Darius about how to do the correct restart of mfsPal
28/02/23, 19:32 - Support Technician 15: we agreed to do it better in the morning when there is the entire team online and could assist in case there are problems with the restart
28/02/23, 19:33 - Benedetta Zini: Tomorrow means from 12:40 to 13:10 italian time
28/02/23, 19:34 - Support Technician 15: yes
28/02/23, 20:02 - Daniele MMOperations: Hi all, we cant open lighthouse in the pc now
28/02/23, 20:08 - Daniele MMOperations: Now it works
28/02/23, 20:56 - Tommaso Guizzardi, Personale ha abbandonato.
01/03/23, 09:05 - Benedetta Zini: Hi All,
sorry for bothering you but any news about the issue?
01/03/23, 11:02 - Razvan Voicu: Hello. AGVs should be up
01/03/23, 11:28 - Benedetta Zini: Yes now they're running
01/03/23, 11:28 - Benedetta Zini: What was the root cause? Is it related with

Yesterday?

01/03/23, 11:52 - Razvan Voicu: As far as it looks now, it's not related
01/03/23, 11:52 - Razvan Voicu: Alexandru will come back to you with an answer
01/03/23, 11:53 - Benedetta Zini: Thanks

02/03/23, 12:18 - Benedetta Zini: IMG-20230302-WA0010.jpg (file allegato)
02/03/23, 12:18 - Benedetta Zini: IMG-20230302-WA0009.jpg (file allegato)
02/03/23, 12:19 - Benedetta Zini: IMG-20230302-WA0008.jpg (file allegato)
02/03/23, 12:41 - Razvan Voicu: Hello
02/03/23, 12:41 - Razvan Voicu: will check
02/03/23, 13:16 - Razvan Voicu: IMG-20230302-WA0011.jpg (file allegato)
So From 27 February it seems that this location keeps firing this error
02/03/23, 13:16 - Razvan Voicu: Can you check physically if there is an issue with the scanner/conveyor?
02/03/23, 13:16 - Razvan Voicu: I know we had a lot of problems during project phase with this location, with the printer
02/03/23, 13:17 - Razvan Voicu: IMG-20230302-WA0012.jpg (file allegato)
here from 4 february -> 27 february we had this error 3 times
02/03/23, 13:18 - Razvan Voicu: IMG-20230302-WA0013.jpg (file allegato)
on 27 february this occurred 10+ times
02/03/23, 14:15 - Andrea Brunetti: IMG-20230302-WA0014.jpg (file allegato)
02/03/23, 14:15 - Andrea Brunetti: IMG-20230302-WA0017.jpg (file allegato)
02/03/23, 14:15 - Andrea Brunetti: IMG-20230302-WA0016.jpg (file allegato)
02/03/23, 14:15 - Andrea Brunetti: IMG-20230302-WA0015.jpg (file allegato)
02/03/23, 14:29 - Nicola Bernardi: The conveyor is ok, the sensor are ok, the labeler are ok but one of this it's in bypass for a issue with communication from wamas to PLC (it's in bypass from 4 months)
02/03/23, 15:02 - Andrea Brunetti: IMG-20230302-WA0019.jpg (file allegato)
02/03/23, 15:02 - Andrea Brunetti: IMG-20230302-WA0020.jpg (file allegato)
02/03/23, 15:02 - Andrea Brunetti: IMG-20230302-WA0021.jpg (file allegato)
02/03/23, 15:02 - Andrea Brunetti: IMG-20230302-WA0022.jpg (file allegato)
02/03/23, 15:02 - Andrea Brunetti: IMG-20230302-WA0023.jpg (file allegato)
02/03/23, 15:02 - Andrea Brunetti: IMG-20230302-WA0024.jpg (file allegato)
02/03/23, 15:21 - Razvan Voicu: Do you know when the printer right was set to manual mode?
02/03/23, 15:23 - Nicola Bernardi: It isn't in manual mode, It's in bypass
02/03/23, 15:25 - Andrea Brunetti: IMG-20230302-WA0025.jpg (file allegato)
02/03/23, 15:25 - Nicola Bernardi: It's in bypass about 4 months ago
02/03/23, 15:27 - Benedetta Zini: @Support Technician 21 could you please check what is happening now in the automatic area?
02/03/23, 15:28 - Benedetta Zini: Also exit line of HBW1 are in error...
02/03/23, 15:28 - Nicola Bernardi: Now the conveyor in exit of stacker crane are in error because all conveyor of labeler are in error
06/03/23, 09:50 - Benedetta Zini: Dear All, regarding today's deploy at 12:40

italian time we are going to follow the same procedure. I'm going to put
agvDisable = true, I will tell you when missions are over and then you can start
deploy.

06/03/23, 09:58 - Razvan Voicu: Ok

06/03/23, 12:34 - Benedetta Zini: I set agvDisable = true, I'll let you know
when all AGVs are in charging

06/03/23, 12:37 - Razvan Voicu: Ok

06/03/23, 12:50 - Benedetta Zini: We are fixing exit line of HBW01

06/03/23, 12:52 - Razvan Voicu: Ok. Do you have an ETA?

06/03/23, 12:55 - Benedetta Zini: You can go!

06/03/23, 12:57 - Razvan Voicu: Ok. Commencing deploy

06/03/23, 12:59 - Benedetta Zini: okay

06/03/23, 13:23 - Benedetta Zini: have you already finished deploy?

06/03/23, 13:28 - Razvan Voicu: Deploy is finished, services are up

06/03/23, 13:28 - Benedetta Zini: Great! 😊

06/03/23, 13:32 - Razvan Voicu: will send a mail soon with what changes were
deployed

06/03/23, 13:36 - Benedetta Zini: Perfect! Thank you very much

07/03/23, 10:58 - Andrea Brunetti: IMG-20230307-WA0001.jpg (file allegato)

07/03/23, 10:58 - Benedetta Zini: Che errori sono?

07/03/23, 10:59 - Andrea Brunetti: can you check please

07/03/23, 10:59 - Andrea Brunetti: ?

07/03/23, 10:59 - Nicola Bernardi: IMG-20230307-WA0002.jpg (file allegato)

07/03/23, 11:01 - Razvan Voicu: I will check

07/03/23, 11:13 - Nicola Bernardi: Any news?

07/03/23, 11:13 - Razvan Voicu: not yet

07/03/23, 11:13 - Nicola Bernardi: 😞

07/03/23, 11:18 - Razvan Voicu: I think you can reset now errors on PLC

07/03/23, 11:19 - Nicola Bernardi: Okok I try

07/03/23, 11:22 - Benedetta Zini: What was the issue?

07/03/23, 11:25 - Razvan Voicu: some events are being processed slowly or not
processed, checking why

07/03/23, 11:25 - Razvan Voicu: can you ping the printer to see if it's
unreachable again?

07/03/23, 11:27 - Razvan Voicu: actually might be DB again

07/03/23, 11:27 - Razvan Voicu: IMG-20230307-WA0004.jpg (file allegato)

07/03/23, 11:27 - Razvan Voicu: I believe you track it for longer than 60
seconds, can you check and share the graph?

07/03/23, 11:28 - Andrea Brunetti: IMG-20230307-WA0005.jpg (file allegato)

07/03/23, 11:29 - Razvan Voicu: ?

07/03/23, 11:30 - Nicola Bernardi: IMG-20230307-WA0006.jpg (file allegato)

07/03/23, 11:31 - Razvan Voicu: what pallet is there

07/03/23, 11:31 - Razvan Voicu: 60704712?

07/03/23, 11:32 - Andrea Brunetti: IMG-20230307-WA0007.jpg (file allegato)

Udc tipo B

07/03/23, 11:32 - Andrea Brunetti: IMG-20230307-WA0008.jpg (file allegato)

Udc tipo H

07/03/23, 11:32 - Razvan Voicu: this is on 118?

07/03/23, 11:33 - Nicola Bernardi: No it's on 120

07/03/23, 11:33 - Razvan Voicu: So 60704712 is on 120

07/03/23, 11:33 - Razvan Voicu: correct?

07/03/23, 11:34 - Andrea Brunetti: Yes

07/03/23, 11:34 - Benedetta Zini: the printer is reachable

07/03/23, 11:34 - Razvan Voicu: And on 118 is 51707110?

07/03/23, 11:35 - Razvan Voicu: can you check the DB, if it had spikes?

07/03/23, 11:35 - Razvan Voicu: I believe you have that tool that tracks it

07/03/23, 11:35 - Nicola Bernardi: No the 51707110 it's the pallet H on the
60704712

07/03/23, 11:36 - Razvan Voicu: ooooooh

07/03/23, 11:36 - Razvan Voicu: On 118 what pallet is there?

07/03/23, 11:36 - Andrea Brunetti: IMG-20230307-WA0009.jpg (file allegato)

07/03/23, 11:36 - Benedetta Zini: I'm checking it

07/03/23, 11:37 - Nicola Bernardi: @Support Technician 21 this is on 118

07/03/23, 11:37 - Razvan Voicu: Ok, I see the problem now

07/03/23, 11:37 - Razvan Voicu: Logically we have two pallets on 118 in Wamas
07/03/23, 11:38 - Razvan Voicu: probably it's the issue that the pallet that is on 120 was pushed forward too fast and it was booked in 118, but physically it's still on 120
07/03/23, 11:38 - Razvan Voicu: Is there any collision evidence between the 2 pallets?
07/03/23, 11:39 - Nicola Bernardi: No, the pallet B it's perfect
07/03/23, 11:43 - Benedetta Zini: IMG-20230307-WA0010.jpg (file allegato)
07/03/23, 11:46 - Nicola Bernardi: Can you solve this?
07/03/23, 11:46 - Benedetta Zini: I think it's fine, there are spikes but under 80%
07/03/23, 11:47 - Razvan Voicu: yes
07/03/23, 11:53 - Nicola Bernardi: IMG-20230307-WA0011.jpg (file allegato)
□
07/03/23, 11:57 - Benedetta Zini: @Support Technician 21 could you please check again what is it happening?
07/03/23, 11:59 - Razvan Voicu: yes, I'm already checking it
07/03/23, 12:01 - Benedetta Zini: thank you
07/03/23, 12:01 - Benedetta Zini: Meanwhile I'm fixing CU120
07/03/23, 12:14 - Benedetta Zini: @Support Technician 21 We have problems also in manual area
07/03/23, 12:14 - Benedetta Zini: And with WAMAS in general
07/03/23, 12:18 - Razvan Voicu: yes
07/03/23, 12:20 - Razvan Voicu: it should work now
07/03/23, 12:20 - Razvan Voicu: still investigating why
07/03/23, 12:21 - Razvan Voicu: meanwhile can you create a ticket for this?
07/03/23, 12:21 - Benedetta Zini: yes
07/03/23, 12:21 - Benedetta Zini: Could it be picking station in inventory mode?
07/03/23, 12:22 - Razvan Voicu: So there was a DB session stuck
07/03/23, 12:22 - Razvan Voicu: from user clodesani on machine: COSPPL22
07/03/23, 12:22 - Razvan Voicu: could it be that Wamas is not responding on that terminal?
07/03/23, 12:23 - Razvan Voicu: Might be mobile device COSPPL22
07/03/23, 12:24 - Chiara Lodesani, Lavoro: I'm using COSPPL22 and It works. I'll try to close it
07/03/23, 12:25 - Benedetta Zini: user clodesani1 logged in picking station #4 from COSPPL22
07/03/23, 12:25 - Benedetta Zini: Picking station #4 is inventory mode
07/03/23, 12:26 - Benedetta Zini: IMG-20230307-WA0012.jpg (file allegato)
07/03/23, 12:28 - Razvan Voicu: can you cancel them and recreate?
07/03/23, 12:33 - Chiara Lodesani, Lavoro: I have canceled the orders in error
07/03/23, 12:40 - Benedetta Zini: I think the problem of this morning is related to inventory
07/03/23, 12:40 - Razvan Voicu: Maybe
07/03/23, 12:41 - Razvan Voicu: There was an inactive session in the DB created from the machine COSPPL22
07/03/23, 12:41 - Razvan Voicu: after I killed it, everything started running
07/03/23, 12:41 - Benedetta Zini: I think it is related to issue D221
07/03/23, 12:41 - Razvan Voicu: Until then there were a lot of DB errors, problems with locking entities, that's why I asked if there are db spikes
07/03/23, 12:42 - Benedetta Zini: because this morning we tried to test it
07/03/23, 12:43 - Razvan Voicu: How did you test it?
07/03/23, 12:44 - Benedetta Zini: Now @Company Employee 9 is going to answer
07/03/23, 12:48 - Chiara Lodesani, Lavoro: I have created some inventory orders, than I have blocked the stacker Crane #03 for seeing if the system didn't assign the inventory orders with LU in stacker Crane #03. But the system started to send casual LUs to work station in inventory mode (LUs for which I haven't created inventory orders)
07/03/23, 13:01 - Razvan Voicu: Did you create the inventory order for specific LUs?
07/03/23, 13:01 - Chiara Lodesani, Lavoro: Yes
07/03/23, 13:02 - Razvan Voicu: And instead of those LUs arriving at the station, other LUs arrived?
07/03/23, 13:02 - Chiara Lodesani, Lavoro: After I have blocked the stacker

Crane, yes

07/03/23, 13:08 - Benedetta Zini: @Support Technician 21 could you please check INV0000000000128485, INV0000000000128486, INV0000000000128487? They are in active state

07/03/23, 13:08 - Benedetta Zini: And they refer to the same LU

07/03/23, 13:35 - Razvan Voicu: I'll have to test locally

07/03/23, 13:36 - Razvan Voicu: Seems like they were created from the same inventory demand 3 inventory orders

07/03/23, 13:36 - Benedetta Zini: IMG-20230307-WA0013.jpg (file allegato)

We have SM009 with IVD0000000000001849 referred to LU 51020195

07/03/23, 13:36 - Razvan Voicu: the only difference is the inventory area

07/03/23, 13:37 - Razvan Voicu: IMG-20230307-WA0014.jpg (file allegato)

07/03/23, 13:37 - Benedetta Zini: Wait it is more complicated 😊

07/03/23, 13:38 - Benedetta Zini: IMG-20230307-WA0015.jpg (file allegato)

If we put LU 51828621 in detail of SM010 WAMAS said that it is referred to INV0000000000128487 that is linked to LU 51020195

07/03/23, 13:38 - Benedetta Zini: 😊

07/03/23, 13:39 - Benedetta Zini: IMG-20230307-WA0016.jpg (file allegato)

also this LU 51462161

07/03/23, 13:41 - Benedetta Zini: IMG-20230307-WA0017.jpg (file allegato)

07/03/23, 13:43 - Benedetta Zini: There are 62 LUs in queue, and LU 51462161 has status Finished maybe because it passed from BP04 S*

07/03/23, 13:43 - Razvan Voicu: □

07/03/23, 13:43 - Benedetta Zini: IMG-20230307-WA0018.jpg (file allegato)

07/03/23, 13:44 - Benedetta Zini: I'm afraid of your emoticon...

07/03/23, 13:45 - Razvan Voicu: don't look at inventory *128485

07/03/23, 13:45 - Razvan Voicu: □□

07/03/23, 13:45 - Chiara Lodesani, Lavoro: Also *128486....

07/03/23, 13:45 - Benedetta Zini: too late I saw it

07/03/23, 13:46 - Razvan Voicu: Ok, let's cancel them

07/03/23, 13:46 - Benedetta Zini: Okay, but why was it happen?

07/03/23, 13:46 - Razvan Voicu: I believe that is because they have inventory area iACX_Pal / iArea which might take in consideration all of the locations

07/03/23, 13:46 - Razvan Voicu: I will check now

07/03/23, 13:46 - Benedetta Zini: WAMAS created them

07/03/23, 13:46 - Razvan Voicu: yes

07/03/23, 13:47 - Benedetta Zini: □□

07/03/23, 13:48 - Razvan Voicu: for whatever reason it created at the same time 3 Inventory Orders from the same Inventory Demand

07/03/23, 13:49 - Razvan Voicu: can I cancel them, so we don't have any surprises and I will analyze the logs?

07/03/23, 13:53 - Benedetta Zini: Yes yes sure

07/03/23, 13:55 - Benedetta Zini: Tell me when you did it so I can release pick station #4 😊

07/03/23, 13:57 - Benedetta Zini: IMG-20230307-WA0019.jpg (file allegato)

one more information, LU 51020195 came from SH1 05* that it wasn't blocked from WH078

07/03/23, 13:59 - Razvan Voicu: Doesn't really matter, this Inventories had tens of thousands of LUs assigned to inventory order line

07/03/23, 13:59 - Razvan Voicu: probably most of the warehouse was included in this inventory orders

07/03/23, 14:00 - Razvan Voicu: And it would make sense to have the kind of problems we had earlier

07/03/23, 14:00 - Benedetta Zini: I think so

10/03/23, 12:33 - Benedetta Zini: IMG-20230310-WA0009.jpg (file allegato)

Hi All,

sorry for bothering you also on WhatsApp chat, but I would like to know why OBD0000571118 and OBD0000571117 are in OG025 (status active 15%) without going in OG039. Is it due to the new loading aid AI? Is there something we can do?

10/03/23, 12:34 - Benedetta Zini: We would like to use this new kind of loading aid as soon as possible

10/03/23, 12:35 - Benedetta Zini: Thanks in advance for your kind reply 🙏

15/03/23, 14:29 - Support Technician 15: Hi,

I added some modifications for the new loading aid AI. Can you please check if

it is working this time?

15/03/23, 14:37 - Benedetta Zini: Hello, I'm checking

15/03/23, 14:38 - Benedetta Zini: IMG-20230315-WA0012.jpg (file allegato)

no picking order was found

15/03/23, 14:39 - Benedetta Zini: IMG-20230315-WA0013.jpg (file allegato)

OBDs are in status active 10% (OG025)

15/03/23, 14:48 - Support Technician 15: ok, i am checking

15/03/23, 14:49 - Benedetta Zini: I think I found something

15/03/23, 14:52 - Benedetta Zini: IMG-20230315-WA0014.jpg (file allegato)

In "Picking planning data" there is loading aid AI

15/03/23, 14:52 - Benedetta Zini: IMG-20230315-WA0015.jpg (file allegato)

whereas in "shipment loading data" there is loading aid K

15/03/23, 14:53 - Benedetta Zini: Shouldn't there be AI?

15/03/23, 14:55 - Benedetta Zini: It's OBD0000574255 refering to

ADBATLATL000094288

15/03/23, 14:57 - Benedetta Zini: IMG-20230315-WA0016.jpg (file allegato)

Picking order is 3771387

15/03/23, 14:58 - Benedetta Zini: IMG-20230315-WA0017.jpg (file allegato)

and you can see it in OG039, but deposit is still in active and if user fsurchicin1 try to finish it with mobile terminal is immediatly kick out of it

15/03/23, 14:59 - Benedetta Zini: VID-20230315-WA0018.mp4 (file allegato)

15/03/23, 15:10 - Support Technician 15: ok, i will check again the

configuration. I'll get back to you when you can test it

15/03/23, 15:11 - Benedetta Zini: Okay thank you

15/03/23, 15:12 - Benedetta Zini: If you want another example is OBD0000575687

(ADBATLATL000095993)

15/03/23, 15:14 - Support Technician 15: ok, thank you

15/03/23, 15:17 - Benedetta Zini: you're welcome

15/03/23, 15:38 - Support Technician 15: which terminal is that? Can you send the ID for it?

15/03/23, 18:53 - Benedetta Zini: Sorry I lost your message... user is fsurchicin1 and it is kick out from any mobile terminal

16/03/23, 08:50 - Benedetta Zini: Hi All, any news about configuration for new loading aid AI?

16/03/23, 09:14 - Alexandru Catarau: Good morning

16/03/23, 09:15 - Alexandru Catarau: i think the error is related to some other issue, can you try now and tell me the user and the terminal id used for test?

16/03/23, 09:22 - Benedetta Zini: IMG-20230316-WA0000.jpg (file allegato)

User is fsurchicin1 and terminal ID is 1210265

16/03/23, 09:24 - Benedetta Zini: Mobile terminal is kicking user out when it confirm MPI005

16/03/23, 09:28 - Benedetta Zini: Also user sdallasta1 is kicked out from mobile terminal when he tries to do pick order #3773267

16/03/23, 09:28 - Benedetta Zini: terminal ID 1210266

16/03/23, 15:09 - Benedetta Zini: @Support Technician 15 @Support Technician 11 any news about this topic?

16/03/23, 15:13 - Benedetta Zini: IMG-20230316-WA0005.jpg (file allegato)

I was trying to remove LU 02010201 from MUL-200-1 when I saw a warning message said "Main loading aid is not allowed to be shipped". It is referred to loading aid AI. Could be this the issue?

16/03/23, 15:20 - Alexandru Catarau: pls check now

16/03/23, 15:27 - Benedetta Zini: It worked for ADBATLATL000094288 📌

16/03/23, 15:34 - Benedetta Zini: It worked also for ADBATLATL000095993

16/03/23, 15:34 - Alexandru Catarau: :)

16/03/23, 15:35 - Benedetta Zini: IMG-20230316-WA0006.jpg (file allegato)

But is it okay that in shipment loading data there is K as loading aid?

16/03/23, 15:39 - Alexandru Catarau: that does not affect you but let me check

16/03/23, 15:40 - Benedetta Zini: Okay perfect, now we are going to test other OBDs

16/03/23, 15:40 - Alexandru Catarau: in SM023 if you check, LU is AI

16/03/23, 15:40 - Alexandru Catarau: the k was just a planning

16/03/23, 15:45 - Benedetta Zini: okay! What was the problem?

16/03/23, 15:46 - Alexandru Catarau: missing setting in MD043

16/03/23, 15:47 - Alexandru Catarau: not sure if you have access there

16/03/23, 15:47 - Alexandru Catarau: allowed loading aids for shipping method
16/03/23, 15:53 - Benedetta Zini: Yes I don't have access... So it seems we did it! 🤔
Can you please send me an email with all passages for setting new loading aids?
As I told you few days ago, it can be possible we have to add new loading aids thanks for your help
21/03/23, 09:22 - Chiara Lodesani, Lavoro: Hi, Work station #01 is blocked because an active picking order has been terminated. I have already send an email. I kindly ask you to unblock work station
29/03/23, 18:40 - Chiara Lodesani, Lavoro: Hi All, on OG025 we have 144 records that they should be archived. I think that there is a problem and I'm afraid that it'll cause more serious problems
29/03/23, 18:40 - Chiara Lodesani, Lavoro: IMG-20230329-WA0000.jpg (file allegato)
29/03/23, 18:41 - Chiara Lodesani, Lavoro: I have already send an email
29/03/23, 18:48 - Benedetta Zini: Dear All, I kindly ask you to take a look ASAP in order to prevent a total block of automatic area...
Since this morning we have had also problems in creating waste containers and TPOs of waste containers
29/03/23, 18:56 - Chiara Lodesani, Lavoro: this is the situation of CPU of WAMASDB:
29/03/23, 18:56 - Chiara Lodesani, Lavoro: IMG-20230329-WA0003.jpg (file allegato)
29/03/23, 18:56 - Chiara Lodesani, Lavoro: There was a peak
29/03/23, 18:57 - Chiara Lodesani, Lavoro: IMG-20230329-WA0004.jpg (file allegato)
29/03/23, 18:57 - Chiara Lodesani, Lavoro: It is high...
29/03/23, 18:59 - Support Technician 23: hello
29/03/23, 18:59 - Support Technician 23: there is no issue regarding the resources
29/03/23, 19:01 - Support Technician 23: the job responsible for archiving these data was waiting for another job to finish
29/03/23, 19:01 - Support Technician 23: now the data were archived
29/03/23, 19:01 - Support Technician 23: please check and cofirm
29/03/23, 19:01 - Support Technician 23: confirm*
29/03/23, 19:05 - Chiara Lodesani, Lavoro: Old records have been archived, I'll check the behavior of new records
29/03/23, 19:11 - Benedetta Zini: Which job?
29/03/23, 19:12 - Chiara Lodesani, Lavoro: IMG-20230329-WA0006.jpg (file allegato)
Now the CPU is lower
29/03/23, 19:13 - Chiara Lodesani, Lavoro: New records are archived correctly. It seems resolved
29/03/23, 19:14 - Support Technician 23: for activity protocol
29/03/23, 19:14 - Support Technician 23: ok, I will close the case
29/03/23, 19:14 - Benedetta Zini: Thank you
29/03/23, 19:18 - Chiara Lodesani, Lavoro: Thank you
29/03/23, 19:32 - Support Technician 23: thank you
31/03/23, 17:38 - Chiara Lodesani, Lavoro: Hi, we have a lot of records that they should be archived and the CPU is a enough high. can you check please?
31/03/23, 19:00 - Adrian Cindea: I think now it is ok
31/03/23, 19:01 - Adrian Cindea: Archiving for protokol is completed at 18:49
31/03/23, 19:01 - Adrian Cindea: All data is archiving in time
31/03/23, 19:02 - Adrian Cindea: All seems ok again
31/03/23, 19:02 - Chiara Lodesani, Lavoro: Yes, thanks
12/04/23, 12:26 - Benedetta Zini: Dear All, I think automatic area is going to stop shortly. I've already sent an email abput this issue
12/04/23, 12:27 - Benedetta Zini: Could you please take a look ASAP? Also picking stations are blocked
12/04/23, 12:39 - Benedetta Zini: Now automatica area works, what's happened?
12/04/23, 13:14 - Razvan Voicu: Hello
12/04/23, 13:14 - Razvan Voicu: Nobody did anything on our side
12/04/23, 13:14 - Razvan Voicu: Self recover
12/04/23, 14:44 - Benedetta Zini: Hi Razvan, oh okay thank you for the

information

13/04/23, 15:37 - Company Employee 18 ha abbandonato.

18/04/23, 11:32 - Support Technician 23: Hi

18/04/23, 11:33 - Support Technician 23: @Company Employee 11 was your computer I was connected to ?

18/04/23, 11:33 - Benedetta Zini: Hi Darius, yes

18/04/23, 11:33 - Support Technician 23: my teamviewer does not work anymore as it's a free license

18/04/23, 11:33 - Support Technician 23: can we try another option ?

18/04/23, 11:34 - Benedetta Zini: Can you call me and let me do it with your user? 🙄

19/04/23, 15:23 - Benedetta Zini: IMG-20230419-WA0003.jpg (file allegato)

Hi All,

since Monday we have had peaks of WAMASAPP memory usage (every morning). There is something that is using more memory, since Monday at 03:30. Could you please take a look?

Thanks in advance for your kind reply.

19/04/23, 15:26 - Benedetta Zini: IMG-20230419-WA0004.jpg (file allegato)

This photo shows the last 10 days

20/04/23, 12:34 - Benedetta Zini: IMG-20230420-WA0008.jpg (file allegato)

Dear All,

just to inform you that CPU of WAMASDB reached 97,2% at 11:30. It is currently decreasing slightly

20/04/23, 13:58 - Benedetta Zini: I'm sorry but CPU is constantly increasing and both manual and automatic area have slowed down

20/04/23, 13:59 - Benedetta Zini: IMG-20230420-WA0009.jpg (file allegato)

20/04/23, 13:59 - Benedetta Zini: IMG-20230420-WA0010.jpg (file allegato)

20/04/23, 14:02 - Benedetta Zini: Wamas Mobile and desktop user are working very slowing/ you have to restart both almost always

20/04/23, 14:13 - Support Technician 25: Hi Benedetta as you might know our (SSI) possibilities are currntly quite limited...

20/04/23, 14:15 - Benedetta Zini: Yes yes I know, in fact Whatsapp is the only way that allows me to inform directly the WAMAS team

20/04/23, 14:30 - Razvan Voicu: Hello Benedetta

20/04/23, 14:31 - Razvan Voicu: What do you mean by slow?

20/04/23, 14:31 - Razvan Voicu: Do you see a problem in actual Wamas stations/mobiles or just the CPU increase?

20/04/23, 14:31 - Benedetta Zini: Just the CPU increase

20/04/23, 14:32 - Razvan Voicu: Then not much we can do

20/04/23, 14:33 - Benedetta Zini: Maybe there is something blocking a queue?

20/04/23, 14:34 - Razvan Voicu: do you have acces to SE011?

20/04/23, 14:35 - Benedetta Zini: No I don't have access to SE011

20/04/23, 14:36 - Benedetta Zini: Either "superuser" nor "direttore tecnico"

20/04/23, 18:11 - Benedetta Zini: IMG-20230420-WA0029.jpg (file allegato)

CPU is still high and it doesn't decrease

20/04/23, 18:23 - Benedetta Zini: We have a lot of OBDs for Tomorrow that are still in "release in progress"

20/04/23, 18:23 - Benedetta Zini: Could you please help us to change status from "release in progress" to "Active for picking"?

25/04/23, 13:10 - Support Technician 23: Hello

Can I please have an AnyDesk remote connection on a computer that has WAMAS installed?

25/04/23, 15:22 - Benedetta Zini: Hi, today is holiday in Italy but tomorrow @Company Employee 9 will provide you AnyDesk remote connection

26/04/23, 10:56 - Chiara Lodesani, Lavoro: Hi All, at work station BP08 the issue D223 is happening now. We have a problem with the source LU-ID 60509781 in BP08 S01: the TPO to go back inside HBW01 has not been created automatically and also we can't create the TPO for this LU because one of the articles on it has a 'inventory block'. The last time you have resolved it removing the inventory block flag. I have already send an email, but I'm writing also here because I don't know the current state of your situation.. Can you check it please??

26/04/23, 10:56 - Chiara Lodesani, Lavoro: IMG-20230426-WA0002.jpg (file allegato)

26/04/23, 11:31 - Chiara Lodesani, Lavoro: Darius have already resolved it. Thank you

02/05/23, 13:11 - Andrea Brunetti ha aggiunto Giacomo Trivieri, Lavoro.

04/05/23, 10:46 - Razvan Voicu: @Company Employee 17 Hello

04/05/23, 10:47 - Razvan Voicu: I solved the SRM problem, let me know if you have any other problems

04/05/23, 10:54 - Nicola Bernardi:  thx

09/05/23, 15:10 - Benedetta Zini: URGENT: Dear All, sorry for disturbing you but all automatic area is blocked! All TPOs are in status NEW and not in ACTIVE. Could you please help us ASAP?

09/05/23, 15:10 - Benedetta Zini: Thanks in advance for your kind reply

09/05/23, 15:11 - Benedetta Zini: IMG-20230509-WA0001.jpg (file allegato)

09/05/23, 15:12 - Benedetta Zini: IMG-20230509-WA0000.jpg (file allegato)

TPOs from picking stations are in status NEW and not in ACTIVE

09/05/23, 15:14 - Benedetta Zini: IMG-20230509-WA0002.jpg (file allegato)

Both TPOs from BP* D* and BP* S*

09/05/23, 15:16 - Benedetta Zini: IMG-20230509-WA0003.jpg (file allegato)

Also from SH2* to S80* all TPOs are in status NEW without "delegated to"

09/05/23, 15:20 - Benedetta Zini: IMG-20230509-WA0004.jpg (file allegato)

Also from SH1* all TPOs are in status NEW

09/05/23, 15:21 - Benedetta Zini: Manual area is blocked because all TPOs are in NEW

09/05/23, 15:25 - Benedetta Zini: I just called Helpdesk in order to create a ticket
09/05/23, 15:30 - Benedetta Zini: ticket #01297025
09/05/23, 15:36 - Benedetta Zini: No TPOs are active for MFS
09/05/23, 15:38 - Razvan Voicu: Hell
09/05/23, 15:38 - Razvan Voicu: I will check
09/05/23, 15:38 - Razvan Voicu: Hello*
09/05/23, 15:39 - Benedetta Zini: Thank youuuu
09/05/23, 15:39 - Benedetta Zini: 🙏🙏
09/05/23, 15:39 - Razvan Voicu: Hope I didn't jinx it with the "hell" 😡
10/05/23, 08:40 - Chiara Lodesani, Lavoro: Hi All, the CPU of WAMASDB is very high 98%. Can you check please?
10/05/23, 08:42 - Chiara Lodesani, Lavoro: For this reason the orders stay to 15%
10/05/23, 08:43 - Chiara Lodesani, Lavoro: We are afraid of another block
10/05/23, 08:43 - Chiara Lodesani, Lavoro: Manual area can't work
10/05/23, 08:49 - Benedetta Zini: We have already called the Helpdesk to open a ticket
10/05/23, 08:55 - Benedetta Zini: There is something that is using a lot of CPU
10/05/23, 08:56 - Benedetta Zini: IMG-20230510-WA0000.jpg (file allegato)
10/05/23, 08:58 - Benedetta Zini: WAMASDB CPU are lower than 90% but higher than usual average values. In my opinion, it means there's still a lot of backlog activities to be processed.. and we can't release OBD
10/05/23, 09:05 - Benedetta Zini: IMG-20230510-WA0001.jpg (file allegato)
10/05/23, 09:08 - Benedetta Zini: IMG-20230510-WA0002.jpg (file allegato)
10/05/23, 09:14 - Benedetta Zini: Could you please take a look ASAP? 🙏 Helpdesk is going to open a ticket for this problem ... If you need a TeamViewer connection or Anydesk connection we can provide it
10/05/23, 09:44 - Support Technician 23: Hello
Can you please provide TeamViewer credentials?
10/05/23, 09:44 - Benedetta Zini: yes!
10/05/23, 09:45 - Benedetta Zini: id: 854 403 931
pw: famiy4rw
10/05/23, 14:24 - Benedetta Zini: Hi! How is it going?
10/05/23, 14:25 - Benedetta Zini: Could you please check order 28705?
10/05/23, 14:26 - Benedetta Zini: It has been in status release since yesterday
10/05/23, 14:39 - Adrian Cindea: It is delivered and losded
10/05/23, 14:40 - Adrian Cindea: Now db server looks ok
10/05/23, 14:40 - Adrian Cindea: And no pplu in status realease in progress
10/05/23, 14:43 - Chiara Lodesani, Lavoro: yes, I see.. Now we try to realease other orders
10/05/23, 14:44 - Benedetta Zini: This order was the problem?
10/05/23, 14:50 - Chiara Lodesani, Lavoro: we have a problem with orders of whole LUs, they stay in release in progress
10/05/23, 14:52 - Chiara Lodesani, Lavoro: the system is very slow with orders of whole LUs and the CPU starts to increase yet
10/05/23, 14:53 - Adrian Cindea: It works
10/05/23, 14:53 - Adrian Cindea: No orders in that status
10/05/23, 14:54 - Chiara Lodesani, Lavoro: IMG-20230510-WA0014.jpg (file allegato)
10/05/23, 15:00 - Chiara Lodesani, Lavoro: Now there are only 37 orders in status release in progress because the guys that approve them stopped to approve..
10/05/23, 15:05 - Chiara Lodesani, Lavoro: we have tried to releasase other whole orders and they are in state release in progress
10/05/23, 15:25 - Adrian Cindea: What is current status?
10/05/23, 15:25 - Benedetta Zini: CPU is still high
10/05/23, 15:26 - Benedetta Zini: And there are 66 orders in OG025 in status released
10/05/23, 15:26 - Adrian Cindea: I saw them
10/05/23, 15:26 - Adrian Cindea: System process 4 on loop
10/05/23, 15:27 - Benedetta Zini: What do you mean?
10/05/23, 15:27 - Razvan Voicu: Do you have problems on the system?
10/05/23, 15:27 - Razvan Voicu: Do you have OBDs that you want to process and

you are unable?

10/05/23, 15:28 - Razvan Voicu: Or the problem is just that orders are in status released

10/05/23, 15:29 - Benedetta Zini: The problem is that orders are in status release, they are for tomorrow and we can't do them

10/05/23, 15:30 - Benedetta Zini: Because they still in status released

10/05/23, 15:32 - Benedetta Zini: It takes always 40 sec for orders with whole LU and 5 sec for pick order for changing status from released to approved for picking

10/05/23, 15:32 - Benedetta Zini: Now it takes 40 minutes or more

10/05/23, 16:27 - Razvan Voicu: So we ran some statistics on the DB

10/05/23, 16:28 - Razvan Voicu: we will analyze tomorrow and see if it improved

10/05/23, 16:28 - Razvan Voicu: At the moment the problem is that the job that releases the OBDs gets stuck. For this we will need a deploy, to have more logs about where it gets stuck

10/05/23, 16:29 - Razvan Voicu: Sometimes this OBD released processes in 5-10 seconds, sometimes in 5 minutes

10/05/23, 16:29 - Razvan Voicu: At the moment there are 40 PPLUs to be released, so it's getting better

10/05/23, 16:29 - Razvan Voicu: if the situation gets worse later, let us know and we will check

10/05/23, 16:34 - Benedetta Zini: We have 184 PPLUs for tomorrow, so if we have problems I will contact you again

10/05/23, 16:34 - Benedetta Zini: Okay, this happened also 3/4 weeks ago

10/05/23, 16:36 - Razvan Voicu: Ok

12/05/23, 11:34 - Benedetta Zini: Dear All, I'm sorry for disturbing you but from yesterday afternoon (after gather stats) we have had difficulties in running queries. Both Acces and SQL Developer said "exceeded call limit on CPU usage". Is this problem related to the fact that @Support Technician 21 gathered stats?

Thanks in advance for your kind reply

12/05/23, 12:16 - Adrian Cindea: As no changes in software side and tablespaces issue related to space it seems oracle changed its execution plan affecting production and we forced to changed for some tables to restore production system to normal

12/05/23, 12:19 - Adrian Cindea: Data is growing though some tables becomes huge with a lot of trash data in side (protocol, changes of data not usefull after 3 months) being bigger than outbound data or stock tracing.

12/05/23, 12:20 - Adrian Cindea: Your user is limited and space issue affected your queries too

12/05/23, 12:22 - Adrian Cindea: The idea is to fix history data ... or to removed some big tables with not so important data though it is possible to be a must to do it

12/05/23, 12:22 - Adrian Cindea: To choose between production and history data.

12/05/23, 14:58 - Benedetta Zini: Thank you Adrian for your explanation. Due to the fact that tables become huge, it could worth update Oracle stats every day or week or 2 weeks etc...? We don't want remove tables or data from tables...

12/05/23, 16:14 - Hai aggiunto Marco Taccini, Lavoro.

19/05/23, 08:40 - Chiara Lodesani, Lavoro: Hi All, we have a lot of orders in state 'release in progres' how last week. Can you check it ASAP please?

19/05/23, 08:41 - Chiara Lodesani, Lavoro: IMG-20230519-WA0000.jpg (file allegato)

19/05/23, 08:42 - Chiara Lodesani, Lavoro: IMG-20230519-WA0001.jpg (file allegato)

Tha CPU was high at 8:30 but now it seems ok..

19/05/23, 08:43 - Chiara Lodesani, Lavoro: Now some orders is passing but very slowly

19/05/23, 08:46 - Chiara Lodesani, Lavoro: I have already called for open a ticket

19/05/23, 08:54 - Razvan Voicu: Hello

19/05/23, 08:54 - Razvan Voicu: Give me a teamviewer pleass

19/05/23, 08:55 - Chiara Lodesani, Lavoro: Questo messaggio è stato eliminato.

19/05/23, 08:56 - Chiara Lodesani, Lavoro: One minutes and we'll pass you the teamviewer of Benedetta

19/05/23, 08:56 - Benedetta Zini: IMG-20230519-WA0002.jpg (file allegato)
26/05/23, 09:35 - Razvan Voicu: Hello
26/05/23, 09:35 - Razvan Voicu: What SRM/Pallet has the problem?
26/05/23, 09:38 - Razvan Voicu: I see ticket was started by Giacomo, but can't @ him on this channel
26/05/23, 09:40 - Tommaso Guizzardi, Lavoro: We have the problem on SRM02
26/05/23, 09:41 - Razvan Voicu: What pallet was moved manually?
26/05/23, 09:54 - Chiara Lodesani, Lavoro: 51448222
26/05/23, 09:54 - Razvan Voicu: I synchronized the SRM with the current state
26/05/23, 09:54 - Razvan Voicu: I think it should be ok
26/05/23, 09:58 - Chiara Lodesani, Lavoro: yes, It starts to work
26/05/23, 09:58 - Chiara Lodesani, Lavoro: thank you
26/05/23, 12:00 - Giacomo Trivieri, Lavoro: Hi raizan i have found the problem on 2 sensor
26/05/23, 12:01 - Giacomo Trivieri, Lavoro: Questo messaggio è stato eliminato.
26/05/23, 12:02 - Giacomo Trivieri, Lavoro: Can you try to check if the crane work?
26/05/23, 12:02 - Giacomo Trivieri, Lavoro: I have found 2 sensor not allined @Support Technician 21
26/05/23, 12:27 - Support Technician 10 ha usato il link d'invito per entrare nel gruppo.
26/05/23, 12:49 - Adrian Cindea: What pallet is on fork?
26/05/23, 12:50 - Adrian Cindea: 61260043
26/05/23, 12:52 - Chiara Lodesani, Lavoro: Yes
26/05/23, 13:00 - Adrian Cindea: Please move it on tpr
26/05/23, 13:02 - Giacomo Trivieri, Lavoro: Questo messaggio è stato eliminato.
26/05/23, 13:02 - Adrian Cindea: Yes
26/05/23, 13:03 - Giacomo Trivieri, Lavoro: Perfect
26/05/23, 13:05 - Giacomo Trivieri, Lavoro: Ok the pallet now is on the 2031
26/05/23, 13:07 - Giacomo Trivieri, Lavoro: Can you free the fork of the crane? Because we have now the error of occupation fault
26/05/23, 13:07 - Giacomo Trivieri, Lavoro: On the LAM 2
26/05/23, 13:07 - Giacomo Trivieri, Lavoro: The crane is free in wh078
26/05/23, 13:13 - Adrian Cindea: Put it on auto
26/05/23, 13:14 - Giacomo Trivieri, Lavoro: Is in auto now
26/05/23, 13:16 - Giacomo Trivieri, Lavoro: The pallet on the conveyor have the trasport order for the rack of the crane 2
26/05/23, 13:19 - Giacomo Trivieri, Lavoro: Ok I think now we are back to the system.
Thx
26/05/23, 13:19 - Adrian Cindea: K
26/05/23, 13:20 - Giacomo Trivieri, Lavoro: The alarm of the sensor of this morning is gone?
26/05/23, 13:22 - Adrian Cindea: Now all seems fine at srm2
26/05/23, 13:40 - Adrian Cindea: What is current feedback from site?
26/05/23, 13:41 - Nicola Bernardi: Wait 2 min, We are on cleaning mode 😊
26/05/23, 15:46 - Adrian Cindea: I hope you are fine because we are still waiting for schengen. 😊
26/05/23, 15:47 - Adrian Cindea: Have a nice weekend!
26/05/23, 15:49 - Chiara Lodesani, Lavoro: Yes Adrian, I'm sorry, now It seems work well. Thank you
26/05/23, 20:16 - Support Technician 7 ha usato il link d'invito per entrare nel gruppo.
26/05/23, 21:08 - ~Matthias Neuroth ha abbandonato.
01/06/23, 15:00 - Benedetta Zini: Dear All,
this morning we opened a ticket for recurrent issue D223... Could you please check it ASAP?
01/06/23, 15:21 - Support Technician 15: Hello
Sorry for the late response because today we have a bank holiday in our country. I assigned the case to myself. Is this issue urgent or it can wait until tomorrow morning to have a look with the team ?
01/06/23, 15:46 - Benedetta Zini: The issue it self is not urgent, but we need item ATLAG2V that is only on LU 70610218 😞 Could you please help us removing "inventory block" from LU?

01/06/23, 15:54 - Support Technician 15: I don't see an inventory block on this LU
01/06/23, 15:55 - Support Technician 15: The mark is unchecked
01/06/23, 15:58 - Benedetta Zini: IMG-20230601-WA0000.jpg (file allegato)
01/06/23, 15:59 - Support Technician 15: Here the inventory block is put on the stock object level, not on LU
01/06/23, 15:59 - Support Technician 15: Do you want to remove it?
01/06/23, 16:00 - Benedetta Zini: oh okay, yes I want to remove it
01/06/23, 16:01 - Support Technician 15: Done 😊
01/06/23, 16:01 - Benedetta Zini: perfect! thank you very much
01/06/23, 16:02 - Support Technician 15: No problem, can I close the ticket?
01/06/23, 16:07 - Benedetta Zini: Yes, you can close it
01/06/23, 16:07 - Benedetta Zini: thank you
01/06/23, 16:09 - Support Technician 15: You welcome
20/06/23, 11:45 - Benedetta Zini: Dear All, could you please take a look at ticket 01302336
20/06/23, 11:46 - Benedetta Zini: I have already called Helpdesk, but no one from WAMAS has contacted me
20/06/23, 11:47 - Benedetta Zini: We have had stacker of empty AF pallet blocked since Yesterday afternoon
20/06/23, 13:00 - Razvan Voicu: Hi Benedetta, I will check
20/06/23, 13:19 - Support Technician 7: Hi, is there a pallet pshysically on F0217RC404?
20/06/23, 13:19 - Benedetta Zini: No
20/06/23, 13:19 - Support Technician 7: IMG-20230620-WA0002.jpg (file allegato)
20/06/23, 13:19 - Benedetta Zini: No pallet
20/06/23, 13:20 - Support Technician 7: Thanks!
20/06/23, 13:27 - Razvan Voicu: and if you try to acknowledge the error it doesnt work?
20/06/23, 13:27 - Razvan Voicu: from the conveyor panel
20/06/23, 13:34 - Razvan Voicu: Is there a pallet from stacker bottom a little bit forward causing the sensor to be triggered on the next location?
20/06/23, 13:35 - Benedetta Zini: @Company Employee 17 o @Company Employee 22 mandate una foto dello stacker AF? E lasciando in manuale provate a resettare la locazione 404
20/06/23, 13:35 - Benedetta Zini: Now maintenance guys will let you know
20/06/23, 13:37 - Razvan Voicu: ok
20/06/23, 13:40 - Nicola Bernardi: IMG-20230620-WA0003.jpg (file allegato)
20/06/23, 13:41 - Nicola Bernardi: 404 clear
20/06/23, 13:43 - Razvan Voicu: and 403 clear also, from what I se
20/06/23, 13:43 - Razvan Voicu: see*
20/06/23, 13:47 - Nicola Bernardi: Yes
20/06/23, 13:47 - Razvan Voicu: did the stack LU from 401 was moved to 403?
20/06/23, 13:49 - Razvan Voicu: @Company Employee 17
20/06/23, 13:50 - Razvan Voicu: Problem is that we also have a pallet on 403 in Wamas, but physically seems like not
20/06/23, 13:50 - Razvan Voicu: So we need to sync this up
20/06/23, 13:50 - Razvan Voicu: I will delete pallet on 403 from Wamas after you confirm or infirm if the stack moved from 401->403
20/06/23, 13:53 - Razvan Voicu: I also see that it is in maual mode
20/06/23, 13:53 - Razvan Voicu: IMG-20230620-WA0004.jpg (file allegato)
20/06/23, 14:07 - Nicola Bernardi: Can I put on automatic mode?
20/06/23, 14:09 - Razvan Voicu: lets try and see what happens
20/06/23, 14:09 - Razvan Voicu: we need to test a couple of minutes, to get rid of ghost pallets
20/06/23, 14:13 - Nicola Bernardi: Now the conveyor start to work without pallet
20/06/23, 14:13 - Nicola Bernardi: And on ctop I have a pallet on 403
20/06/23, 14:13 - Nicola Bernardi: IMG-20230620-WA0005.jpg (file allegato)
20/06/23, 14:14 - Razvan Voicu: Ok
20/06/23, 14:14 - Nicola Bernardi: I can't take out this pallet on ctop
20/06/23, 14:14 - Razvan Voicu: I will do it
20/06/23, 14:14 - Razvan Voicu: So 403 and 404 still emtpy
20/06/23, 14:14 - Razvan Voicu: and on 401 a stack, correct?
20/06/23, 14:15 - Nicola Bernardi: IMG-20230620-WA0006.jpg (file allegato)

20/06/23, 14:15 - Nicola Bernardi: IMG-20230620-WA0007.jpg (file allegato)
20/06/23, 14:15 - Nicola Bernardi: IMG-20230620-WA0008.jpg (file allegato)
20/06/23, 14:16 - Nicola Bernardi: IMG-20230620-WA0009.jpg (file allegato)
20/06/23, 14:20 - Razvan Voicu: and the sensors are ok?
20/06/23, 14:20 - Razvan Voicu: Nothing getting in their way?
20/06/23, 14:22 - Nicola Bernardi: All sensor are good
20/06/23, 14:23 - Razvan Voicu: one sec please
20/06/23, 14:23 - Nicola Bernardi: Now I have the AGV 2 on 404 for take a pallet on this
20/06/23, 14:27 - Razvan Voicu: one second
20/06/23, 14:47 - Razvan Voicu: So the problem is that PLC reports Stacker with occupancy = 1
20/06/23, 14:47 - Razvan Voicu: while physically it is empty
20/06/23, 14:47 - Razvan Voicu: I have informed the ticket responsible (Gerald Roitner) about this and will wait for feedback. Nothing more to do from our side
20/06/23, 14:48 - Razvan Voicu: our = Wamas side
20/06/23, 14:51 - Nicola Bernardi: Can I try to put a empty pallet on 402? And after, can you reset all?
20/06/23, 14:55 - Razvan Voicu: ok, let's try
20/06/23, 14:57 - Nicola Bernardi: IMG-20230620-WA0010.jpg (file allegato)
20/06/23, 14:57 - Nicola Bernardi: Can you delete the pallet on 403?
20/06/23, 15:03 - Razvan Voicu: 403 is stacker
20/06/23, 15:03 - Razvan Voicu: 402 is conveyor under stacker
20/06/23, 15:03 - Razvan Voicu: I think
20/06/23, 15:04 - Nicola Bernardi: Yes I know
20/06/23, 15:04 - Nicola Bernardi: IMG-20230620-WA0011.jpg (file allegato)
But I have a pallet on 403
20/06/23, 15:05 - Razvan Voicu: Well I know, that's the problem ,PLC reports 403 as occupied when it isn't
20/06/23, 15:05 - Razvan Voicu: so I thought you want to put a pallet on 403 to trick plc
20/06/23, 15:05 - Nicola Bernardi: OK I try to put pallet on it (403)
20/06/23, 15:08 - Nicola Bernardi: Now the pallet is on 403
20/06/23, 15:10 - Razvan Voicu: ok great
20/06/23, 15:10 - Razvan Voicu: can you also put one on 404?
20/06/23, 15:10 - Razvan Voicu: actually no
20/06/23, 15:10 - Razvan Voicu: no
20/06/23, 15:10 - Razvan Voicu: wait
20/06/23, 15:11 - Nicola Bernardi: I have a pallet for the 404
20/06/23, 15:15 - Razvan Voicu: ok
20/06/23, 15:15 - Razvan Voicu: dont put it yet
20/06/23, 15:15 - Razvan Voicu: can you acknowledge error on 404 now
20/06/23, 15:15 - Razvan Voicu: ok
20/06/23, 15:15 - Razvan Voicu: seems problems solved
20/06/23, 15:17 - Nicola Bernardi: IMG-20230620-WA0012.jpg (file allegato)
20/06/23, 15:18 - Razvan Voicu: so the pallet from 403 dropped to 402
20/06/23, 15:18 - Razvan Voicu: and thats it?
20/06/23, 15:18 - Razvan Voicu: or did the pallet from stacker move to 403 and out?
20/06/23, 15:18 - Nicola Bernardi: IMG-20230620-WA0013.jpg (file allegato)
20/06/23, 15:19 - Razvan Voicu: on lighthouse I saw pallet move from 403 to 404
20/06/23, 15:19 - Razvan Voicu: did it move physically?
20/06/23, 15:20 - Nicola Bernardi: Yes but the second pallet doesn't run
20/06/23, 15:21 - Razvan Voicu: what do you mean by the second pallet?
20/06/23, 15:21 - Razvan Voicu: We only had one pallet on 403
20/06/23, 15:22 - Razvan Voicu: So, lets get it back from 0
20/06/23, 15:22 - Razvan Voicu: Did something from 401 move?
20/06/23, 15:23 - Nicola Bernardi: Now I have take out pallet on 402
20/06/23, 15:23 - Razvan Voicu: no no no
20/06/23, 15:24 - Razvan Voicu: ok Nicola, let's slow it down a bit and let me understand what happened
20/06/23, 15:24 - Razvan Voicu: step 1
20/06/23, 15:24 - Razvan Voicu: We have an empty stack on 401. Did this move at all ?

20/06/23, 15:25 - Nicola Bernardi: IMG-20230620-WA0014.jpg (file allegato)
It Doesn't move
20/06/23, 15:25 - Razvan Voicu: Ok, so nothing moved from 401
20/06/23, 15:25 - Nicola Bernardi: Exactly
20/06/23, 15:26 - Razvan Voicu: Now, you put a pallet on 403. Stacker just placed it down from 403 to 402?
20/06/23, 15:27 - Nicola Bernardi: Yes but the pallet WAS put on 403 it's go away
20/06/23, 15:27 - Razvan Voicu: Where did it go away? Did it move to 404 and then AGV take it away?
20/06/23, 15:27 - Nicola Bernardi: Yes
20/06/23, 15:28 - Razvan Voicu: Did you put 2 pallets before? One on 402 and one on 403?
20/06/23, 15:28 - Nicola Bernardi: Yes
20/06/23, 15:30 - Razvan Voicu: Ok, I understand
20/06/23, 15:30 - Razvan Voicu: Unfortunately it didn't work
20/06/23, 15:30 - Razvan Voicu: Questo messaggio è stato eliminato.
20/06/23, 15:30 - Razvan Voicu: so something is wrong here
20/06/23, 15:31 - Razvan Voicu: PLC need to enter and check it out. I understand that they did something before
20/06/23, 15:32 - Razvan Voicu: I messaged gerald roitner and gave him my feedback. All I can say is that at the moment it's out of our Wamas hands
20/06/23, 15:32 - Razvan Voicu: I don't know what you talked with PLC, if they gave you a direct contact or you have to contact helpdesk
22/06/23, 08:59 - Chiara Lodesani, Lavoro: Hi All, the LU-ID 60509699 on MDP05L01 is blocked due an 'Inventory block'. I kindly ask you to remove it. I have already opened a ticket: 01302836
22/06/23, 08:59 - Chiara Lodesani, Lavoro: IMG-20230622-WA0002.jpg (file allegato)
22/06/23, 09:16 - Alexandru Catarau: should be fixed
22/06/23, 09:16 - Alexandru Catarau: could you confirm?
22/06/23, 09:22 - Chiara Lodesani, Lavoro: Yes, It is fixed. thank you
22/06/23, 10:26 - Chiara Lodesani, Lavoro: Hi, we need to close a CT and we can't do it because there are two OBDs with planned and delivered quantity misaligned. I have already sent an email. Can you check it please? The order number is *62754. The OBD line OBD0000635329 has planned quantity 112 while the delivered quantity is 108. The OBD line OBD0000635622 has planned quantity 14 while the delivered quantity is 18.
22/06/23, 10:26 - Chiara Lodesani, Lavoro: IMG-20230622-WA0003.jpg (file allegato)
22/06/23, 10:27 - Chiara Lodesani, Lavoro: IMG-20230622-WA0004.jpg (file allegato)
22/06/23, 10:27 - Razvan Voicu: I will check
22/06/23, 10:27 - Chiara Lodesani, Lavoro: thank you
22/06/23, 10:39 - Razvan Voicu: Should we align planned with delivered or delivered with planned?
22/06/23, 10:42 - Chiara Lodesani, Lavoro: I think the planned should be changed and align to the delivered quantity, because the delivered quantity is the real quantity on LUs
22/06/23, 10:43 - Razvan Voicu: Ok
22/06/23, 10:50 - Support Technician 7: Done. Please let us know if everything is ok.
22/06/23, 10:53 - Chiara Lodesani, Lavoro: Questo messaggio è stato eliminato.
22/06/23, 10:58 - Chiara Lodesani, Lavoro: Now it's ok! thank you
22/06/23, 11:03 - Support Technician 7: We created a ticket for the incident. Thanks!
22/06/23, 11:04 - Chiara Lodesani, Lavoro: ok
07/07/23, 18:35 - Razvan Voicu: @Company Employee 17 hello
07/07/23, 18:36 - Razvan Voicu: can you identify for me a terminal that is not working
07/07/23, 18:37 - Nicola Bernardi: Hi, now all terminals working good
07/07/23, 18:38 - Razvan Voicu: so everything is ok for now?
07/07/23, 18:40 - Razvan Voicu: @Company Employee 17
07/07/23, 18:42 - Razvan Voicu: let me know if and what terminal is working

slow/crashing and I will check it

07/07/23, 18:56 - Giuseppe Romano, Lavoro: Hi, yes at the moment everything ok

07/07/23, 18:57 - Giuseppe Romano, Lavoro: Ok, thank you

10/07/23, 08:48 - Benedetta Zini: Dear All, regarding today's deploy at 12:40 (italian time) we are going to follow the same procedure. I'm going to put agvDisable = true, I will tell you when missions are over and then you can start deploy 😊

10/07/23, 12:27 - Benedetta Zini: I set agvDisable = true, I'll let you know when all AGVs are in charging

10/07/23, 12:38 - Razvan Voicu: Ok, waiting for your ok

10/07/23, 12:39 - Benedetta Zini: Okay, you can start 🚀

10/07/23, 13:02 - Razvan Voicu: Okay, deploy is done

10/07/23, 13:03 - Razvan Voicu: S90 locations have been deployed, but they will be activated together with S10 locations, so at the moment you will not see them

10/07/23, 13:04 - Benedetta Zini: okay, so we have it (S90) but we can't use it

10/07/23, 13:05 - Benedetta Zini: Is this deploy list, right?

10/07/23, 13:05 - Benedetta Zini: 1. CR03 - Add "Finalize" button in OG539 (issue F100).

2. CR: Priority of AGVs for S46 locations (N41/N42):

3. CR: Redirecting shipLUs to HBW1 when there's no more space for them in S46 (A66) / K78

4. K79 - WAMAS doesn't show order comments if mobile user follows these steps [5] uscita merci > [4] caricamento > [2] allocazione manuale

5. SF#01292866 New S90 P* and S90 Q* locations

6. CR: MD073 - MANUAL TARE WEIGHT MODIFICATION - max 16h

7. CR: Request for adding TPOs' priority on mobile terminal - max 16 hours

8. A144 - OBD have "delivered quantity" different from "staged quantity"

24/07/23, 11:18 - Benedetta Zini: Hi @Support Technician 12, it is okay for us for doing deploy of all S10-S20 + S90 P/Q + S01 PR3 MAV during lunch break

24/07/23, 11:55 - Benedetta Zini: Some minutes ago we had a problem in automatic area, but it relesed by itself... Now we have a problem in manual area, are you doing something?

24/07/23, 12:12 - Adrian Cindea: I sent an email

24/07/23, 12:39 - Benedetta Zini: IMG-20230724-WA0006.jpg (file allegato)

24/07/23, 12:40 - Razvan Voicu: Hello. Can I start with the restart now?

24/07/23, 12:40 - Benedetta Zini: yes

24/07/23, 12:41 - Benedetta Zini: I have to do something?

24/07/23, 12:41 - Razvan Voicu: no

24/07/23, 12:41 - Razvan Voicu: it's just an allione restart, not like deploy, when we do full restart

24/07/23, 12:41 - Benedetta Zini: okay

24/07/23, 12:44 - Razvan Voicu: restart was done

24/07/23, 12:44 - Razvan Voicu: please restart your desktop applications and check in wh004 locations ,if everything is ok

24/07/23, 12:45 - Benedetta Zini: okay

24/07/23, 12:52 - Benedetta Zini: There is a problme

24/07/23, 12:53 - Benedetta Zini: problem

24/07/23, 12:53 - Benedetta Zini: IMG-20230724-WA0007.jpg (file allegato)

24/07/23, 12:53 - Benedetta Zini: No alias for new locations ▯

24/07/23, 12:53 - Alexandru Catarau: i will add those shortly

24/07/23, 12:53 - Alexandru Catarau: that is a 2nd step

24/07/23, 12:54 - Alexandru Catarau: no restart required

24/07/23, 12:54 - Benedetta Zini: okay

24/07/23, 12:54 - Benedetta Zini: I'm checking all locations, but so far S10 and S01 PR3-MAV don't have "alias"

24/07/23, 12:55 - Alexandru Catarau: dont check for alias

24/07/23, 12:55 - Alexandru Catarau: check if locations are there

24/07/23, 12:55 - Alexandru Catarau: all of them
24/07/23, 12:55 - Benedetta Zini: yes I'm checking 😊
24/07/23, 12:55 - Alexandru Catarau: alias is a second step. i will add those in a short while
24/07/23, 12:56 - Benedetta Zini: I understand
24/07/23, 13:04 - Benedetta Zini: All locations are okay
24/07/23, 13:14 - Alexandru Catarau: step 2 completed
24/07/23, 13:14 - Alexandru Catarau: pls confirm alias is ok
24/07/23, 13:35 - Benedetta Zini: Alias okay
27/07/23, 03:48 - Razvan Voicu: @Company Employee 7 Hello. Which station is not working?
27/07/23, 03:49 - Giuseppe Romano, Lavoro: Hello Razvan, all stations at the moment not working
27/07/23, 03:53 - Razvan Voicu: When the user presses the button (the so called dead man switch) for the source to go away to EMS, it's not moving away?
27/07/23, 03:54 - Razvan Voicu: is there an error on the station dialog?
27/07/23, 03:56 - Giuseppe Romano, Lavoro: IMG-20230727-WA0001.jpg (file allegato)
This is the status of "pult"
27/07/23, 03:56 - Giuseppe Romano, Lavoro: No
27/07/23, 03:56 - Razvan Voicu: Can you give me a printscreen of a station dialog?
27/07/23, 03:56 - Giuseppe Romano, Lavoro: Yes
27/07/23, 03:56 - Giuseppe Romano, Lavoro: IMG-20230727-WA0002.jpg (file allegato)
27/07/23, 03:58 - Razvan Voicu: Ok, so this means that picking cannot start until the UdC is pushed away
27/07/23, 03:58 - Giuseppe Romano, Lavoro: Exactly
27/07/23, 04:03 - Razvan Voicu: Can you please check now?
27/07/23, 04:04 - Giuseppe Romano, Lavoro: Ok now one of this flashes
27/07/23, 04:04 - Giuseppe Romano, Lavoro: And i can push it away
27/07/23, 04:05 - Giuseppe Romano, Lavoro: picking stations 1 and 2 are ok
<Questo messaggio è stato modificato>
27/07/23, 04:06 - Giuseppe Romano, Lavoro: All picking stations seem to be working good now
27/07/23, 04:08 - Razvan Voicu: Ok thanks
27/07/23, 04:08 - Razvan Voicu: I will close ticket now
27/07/23, 04:09 - Giuseppe Romano, Lavoro: Thanks you too
27/07/23, 04:09 - Giuseppe Romano, Lavoro: *👍*
01/08/23, 12:32 - Benedetta Zini: Hi, agvDisable = true
01/08/23, 12:36 - Support Technician 15: ok, please let us know when there are no more missions so we can start the deploy
01/08/23, 12:38 - Benedetta Zini: No more missions for AGV, you can start with deploy 🚀
01/08/23, 12:45 - Benedetta Zini: please let me know when you finish deploy
01/08/23, 12:45 - Support Technician 15: Ok, thanks
01/08/23, 13:09 - Benedetta Zini: Is deploy finished?
01/08/23, 13:10 - Razvan Voicu: yes
01/08/23, 13:11 - Razvan Voicu: sending mail now
01/08/23, 13:11 - Benedetta Zini: perfect!
01/08/23, 13:46 - Adrian Cindea: Current status?
01/08/23, 13:47 - Adrian Cindea: Any issue so far?
01/08/23, 13:49 - Chiara Lodesani, Lavoro: All It's ok so far, we will test the deploys
01/08/23, 13:50 - Benedetta Zini: We found some issues about some patches
01/08/23, 13:50 - Benedetta Zini: I will send it by email
01/08/23, 13:50 - Benedetta Zini: But one question... how can we use CR for WH502?
01/08/23, 13:51 - Adrian Cindea: Select 2 items with ;
01/08/23, 13:51 - Adrian Cindea: Edit more rows
01/08/23, 13:53 - Benedetta Zini: select 2 items
01/08/23, 13:53 - Benedetta Zini: IMG-20230801-WA0000.jpg (file allegato)
01/08/23, 13:54 - Benedetta Zini: and no edit multiple
01/08/23, 13:54 - Benedetta Zini: IMG-20230801-WA0002.jpg (file allegato)
01/08/23, 13:54 - Adrian Cindea: IMG-20230801-WA0001.jpg (file allegato)

01/08/23, 13:54 - Adrian Cindea: Pls check version
01/08/23, 13:55 - Adrian Cindea: Restart app
01/08/23, 13:55 - Adrian Cindea: To be verdition of yesterday
01/08/23, 13:55 - Adrian Cindea: When pack was done
01/08/23, 13:56 - Benedetta Zini: I close and open WAMAS 🙄
01/08/23, 13:56 - Benedetta Zini: IMG-20230801-WA0003.jpg (file allegato)
01/08/23, 13:57 - Adrian Cindea: And?
01/08/23, 13:57 - Benedetta Zini: I do it again
01/08/23, 13:57 - Benedetta Zini: for @Company Employee 9 works
01/08/23, 13:57 - Adrian Cindea: K
01/08/23, 13:59 - Adrian Cindea: It is important to be the last version ... update to new version is automatically normaly
01/08/23, 14:00 - Adrian Cindea: Pls send us only 'good' feedback is "accepted"
01/08/23, 14:00 - Adrian Cindea: 😊
01/08/23, 14:00 - Adrian Cindea: By email pls
01/08/23, 14:00 - Benedetta Zini: It doesn't work for me... I have the same version as Chiara...
01/08/23, 14:01 - Benedetta Zini: oh yess, finger cross
01/08/23, 14:01 - Razvan Voicu: Then maybe restart the PC
01/08/23, 14:01 - Razvan Voicu: Or try to login with Chiara's user on your PC and then login with your user on Chiara's pc
01/08/23, 14:01 - Benedetta Zini: yes I do it now
01/08/23, 14:01 - Razvan Voicu: to see if it's a PC or user issue
01/08/23, 14:01 - Benedetta Zini: good idea
01/08/23, 14:04 - Chiara Lodesani, Lavoro: It's a PC problem.. thank you
01/08/23, 14:09 - Benedetta Zini: it works 😊 thank you!
01/08/23, 14:09 - Benedetta Zini: but
01/08/23, 14:09 - Benedetta Zini: IMG-20230801-WA0004.jpg (file allegato)
01/08/23, 14:09 - Benedetta Zini: I don't have access to WH506
01/08/23, 14:11 - Support Technician 10: Hi can you tell me what profile are you using.
01/08/23, 14:11 - Benedetta Zini: Superuser
01/08/23, 14:12 - Support Technician 10: Ok I will check
01/08/23, 14:12 - Benedetta Zini: Now i'm trying to use "Direttore tecnico"
01/08/23, 14:14 - Support Technician 10: Ok I guaranteed the rights for the super user to see wh506
01/08/23, 14:14 - Benedetta Zini: IMG-20230801-WA0005.jpg (file allegato)
Superuser and Direttore tecnico should be full access to WH506
01/08/23, 14:14 - Benedetta Zini: okay
01/08/23, 14:14 - Benedetta Zini: thank you!
01/08/23, 14:15 - Support Technician 10: Done for the other user too
01/08/23, 14:17 - Support Technician 10: I sent an email with instructions to use the API
01/08/23, 14:18 - Benedetta Zini: It work! thank you very much
01/08/23, 14:18 - Benedetta Zini: yes I saw it and later we are going to read it
👍
01/08/23, 14:19 - Support Technician 10: Ok thank you 🙌
01/08/23, 22:12 - Nicola Bernardi: For the picking station 2 we can wait Tomorrow morning
01/08/23, 22:13 - Support Technician 15: Ok, thank you
02/08/23, 09:16 - Support Technician 15: Hello
The picking station 2 is working now? Or is still locked ?
02/08/23, 09:17 - Benedetta Zini: Hi, now it is working
02/08/23, 09:19 - Support Technician 15: Ok, thank you
28/08/23, 12:29 - Benedetta Zini: Hi All, I set agvDisable = true
28/08/23, 12:29 - Benedetta Zini: I will let you know when you can start deploy
28/08/23, 12:34 - Adrian Cindea: K
28/08/23, 12:44 - Adrian Cindea: Any news?
28/08/23, 12:44 - Benedetta Zini: you can start 🚀
28/08/23, 13:14 - Benedetta Zini: finish?
28/08/23, 13:18 - Benedetta Zini: Can I set agvDisable = false?
28/08/23, 13:19 - Benedetta Zini: @Support Technician 12 ?
28/08/23, 13:25 - Adrian Cindea: I saw you did it
28/08/23, 13:25 - Adrian Cindea: Wait for us

28/08/23, 13:26 - Benedetta Zini: Do I have to wait?
28/08/23, 13:26 - Adrian Cindea: Now we are almost finish
28/08/23, 13:27 - Benedetta Zini: oh okay okay
28/08/23, 13:30 - Adrian Cindea: Deploy done
28/08/23, 13:30 - Adrian Cindea: It takes longer due to dm migration
28/08/23, 13:30 - Adrian Cindea: Pls start to work
28/08/23, 13:30 - Benedetta Zini: yes I supposed
28/08/23, 13:30 - Adrian Cindea: Pls let us know any issue
28/08/23, 13:30 - Benedetta Zini: yes
28/08/23, 13:32 - Benedetta Zini: Is there any patch you need to explain me how it works in order to test it?
28/08/23, 13:33 - Adrian Cindea: I will check the list
28/08/23, 13:39 - Benedetta Zini: For example CR02
28/08/23, 13:41 - Adrian Cindea: It is deployed but not activated yet
28/08/23, 13:41 - Adrian Cindea: I need to update weight of pieces from hbw
28/08/23, 13:41 - Adrian Cindea: And to monitor target weight
28/08/23, 13:42 - Adrian Cindea: Now system sends to scale weight based on master data
28/08/23, 13:42 - Benedetta Zini: yes
28/08/23, 13:42 - Adrian Cindea: Weight based on stock weighted is computed anyhow
28/08/23, 13:43 - Adrian Cindea: But not used until we will check the values
28/08/23, 13:45 - Benedetta Zini: But for existing Whole LU pallets inside HBW1 we are going to know the real weight and I asked you to make in manner that modification will copy the value of "gross weight" filed inside "weight for picking" field
28/08/23, 13:48 - Benedetta Zini: we have a problem with printers
28/08/23, 13:49 - Benedetta Zini: All printers are in "no printing data"
28/08/23, 13:50 - Benedetta Zini: I think is related to A114
28/08/23, 13:51 - Benedetta Zini: All exit areas and Foiling are blocked due to printers
28/08/23, 13:57 - Benedetta Zini: VID-20230828-WA0000.mp4 (file allegato)
28/08/23, 14:10 - Benedetta Zini: We have a problem with labeler at Foiling area
28/08/23, 14:10 - Benedetta Zini: please I need your help
28/08/23, 14:10 - Benedetta Zini: IMG-20230828-WA0002.jpg (file allegato)
28/08/23, 14:10 - Benedetta Zini: Labeler no printing data
28/08/23, 14:16 - Benedetta Zini: please, can you check? 🙏
28/08/23, 14:22 - Benedetta Zini: we put it in bypass for the moment
28/08/23, 14:22 - Benedetta Zini: could you please check why it is not working?
28/08/23, 14:34 - Razvan Voicu: Hello, we check
28/08/23, 14:35 - Razvan Voicu: Is the printer ok? Connected/in the network?
28/08/23, 14:38 - Razvan Voicu: So here we have only a printer, TT08PC028_LEFT correct?
28/08/23, 14:38 - Razvan Voicu: IMG-20230828-WA0003.jpg (file allegato)
28/08/23, 14:39 - Benedetta Zini: I think yes
28/08/23, 14:39 - Benedetta Zini: let me check
28/08/23, 14:40 - Benedetta Zini: Yes
28/08/23, 14:40 - Benedetta Zini: It is TT08PC028
28/08/23, 14:41 - Benedetta Zini: It is online
28/08/23, 14:43 - Razvan Voicu: Ok, can we remove the lock on the printer then?
28/08/23, 14:45 - Benedetta Zini: Yes I have already asked to maintenance guys on site
28/08/23, 14:49 - Razvan Voicu: have you done anything to the printers after the reply?
28/08/23, 14:49 - Benedetta Zini: no
28/08/23, 14:52 - Razvan Voicu: Ok
28/08/23, 14:54 - Razvan Voicu: Let me know when you started the printed
28/08/23, 14:54 - Benedetta Zini: NOE
28/08/23, 14:54 - Benedetta Zini: now
28/08/23, 14:54 - Benedetta Zini: it is in error
28/08/23, 14:57 - Razvan Voicu: ok
28/08/23, 14:58 - Razvan Voicu: Have you tried to restart the printer?
28/08/23, 14:58 - Razvan Voicu: I found an older ticket with the same issue

"Connected to the system
Error on the printer after the foiling
The connection of the printer its not stable
Contact Mr. Trivieri and check together
Mr. Trivieri restarted the printer which worked for a few seconds."

28/08/23, 15:06 - Benedetta Zini: We are trying to restart the printer
28/08/23, 15:07 - Benedetta Zini: It is not working
28/08/23, 15:07 - Benedetta Zini: we still have "labeler no printing data" error
28/08/23, 15:13 - Benedetta Zini: Any news?
28/08/23, 15:15 - Benedetta Zini: @Support Technician 21 ?
28/08/23, 15:21 - Support Technician 23: We are still checking
28/08/23, 15:24 - Benedetta Zini: okay
28/08/23, 15:25 - Benedetta Zini: I leave it in error or I can put it in bypass mode just for 5 minutes?
28/08/23, 15:34 - Benedetta Zini: any news?
28/08/23, 15:41 - Support Technician 23: please check with the printer provider as well
28/08/23, 15:41 - Benedetta Zini: before deploy we didn't have this problme
28/08/23, 15:41 - Benedetta Zini: problem
28/08/23, 15:42 - Benedetta Zini: I think it is a WAMAS issue related data
28/08/23, 15:46 - Support Technician 23: is it on bypass now?
28/08/23, 15:46 - Benedetta Zini: yes
28/08/23, 15:47 - Benedetta Zini: we removed bypass and it goes in error again
28/08/23, 15:56 - Benedetta Zini: We still have "labeler no printing data" error
28/08/23, 15:58 - Adrian Cindea: what is the printer?
28/08/23, 15:58 - Benedetta Zini: TT08PC028
28/08/23, 15:58 - Benedetta Zini: Foiling area
28/08/23, 15:58 - Adrian Cindea: IMG-20230828-WA0006.jpg (file allegato)
28/08/23, 15:58 - Benedetta Zini: yes
28/08/23, 16:18 - Support Technician 23: can you please try now?
28/08/23, 16:18 - Benedetta Zini: okay
28/08/23, 16:20 - Benedetta Zini: we removed bypass mode
28/08/23, 16:20 - Adrian Cindea: pls let us know the feedback
28/08/23, 16:21 - Benedetta Zini: IMG-20230828-WA0007.jpg (file allegato)
28/08/23, 16:21 - Benedetta Zini: it is in error
28/08/23, 16:33 - Benedetta Zini: any news about the issue?
28/08/23, 16:46 - Adrian Cindea: pls put in bypass and to test new pallet
28/08/23, 16:46 - Adrian Cindea: because current one is affected
28/08/23, 16:46 - Benedetta Zini: okay
28/08/23, 16:47 - Adrian Cindea: we need a new one ... no by pass
28/08/23, 16:47 - Adrian Cindea: to see if label is printed
28/08/23, 16:47 - Benedetta Zini: yes yes
28/08/23, 16:50 - Benedetta Zini: It works
28/08/23, 16:50 - Benedetta Zini: What was the root cause?
28/08/23, 16:51 - Adrian Cindea: missing configuration for 2 printers
28/08/23, 16:51 - Benedetta Zini: What does it mean?
28/08/23, 16:51 - Adrian Cindea: TT08PC028_LEFT and TT08PC028_RIGHT
28/08/23, 16:52 - Adrian Cindea: we added properly in configuration ... it is related to A114
28/08/23, 16:52 - Adrian Cindea: it seems configuration for printers was missed from pack (maybe it was done only locally)
28/08/23, 16:53 - Adrian Cindea: we will check deeper next days what happens
28/08/23, 16:53 - Benedetta Zini: Okay... but on RM011 we have only TT08PC028
28/08/23, 16:53 - Adrian Cindea: refresh
28/08/23, 16:53 - Adrian Cindea: for sure there are both printers ... and assignments for them
28/08/23, 16:53 - Benedetta Zini: okay now I have it
28/08/23, 16:53 - Adrian Cindea: :)
28/08/23, 16:53 - Adrian Cindea: this was the reason of printing issue
28/08/23, 16:54 - Benedetta Zini: But why we have 2 printers?
28/08/23, 16:55 - Benedetta Zini: Okay thank you... Please let me know
28/08/23, 16:57 - Benedetta Zini: Am I able to check if printers are available (A114)?
28/08/23, 17:39 - Adrian Cindea: Yeap normally

28/08/23, 17:40 - Adrian Cindea: But my idea is to do it tomorrow during the working office hours
28/08/23, 17:40 - Adrian Cindea: When all my colleagues are available to solve any issue faster
29/08/23, 09:14 - Benedetta Zini: Dear All, I have opened two tickets ... Could you please take care of them?
29/08/23, 09:32 - Support Technician 23: we are checking
29/08/23, 09:33 - Benedetta Zini: yes please, both ticket... thank you
29/08/23, 09:33 - Benedetta Zini: you
29/08/23, 09:44 - Adrian Cindea: hello
29/08/23, 09:44 - Adrian Cindea: we need to make a deploy asap
29/08/23, 09:45 - Adrian Cindea: it is an issue related to CR02 - weight computation
29/08/23, 09:50 - Benedetta Zini: Both issues are related to CR02?
29/08/23, 09:50 - Adrian Cindea: picking in manual
29/08/23, 09:51 - Benedetta Zini: okay, and for what concerne TPO in automatic area?
29/08/23, 09:51 - Adrian Cindea: i will check it ...
29/08/23, 09:52 - Benedetta Zini: How many time do you need to do deploy?
29/08/23, 10:19 - Adrian Cindea: i dont know the first issue with automatic TPO
29/08/23, 10:19 - Adrian Cindea: entire picking is affected?
29/08/23, 10:20 - Adrian Cindea: after picking at GTP -> sourcepallet is not sent out from station?
29/08/23, 10:20 - Benedetta Zini: Yes exactly but not for all source pallets
29/08/23, 10:22 - Benedetta Zini: I sent some example via email
29/08/23, 10:22 - Support Technician 23: can you please retry to send pallets away ?
29/08/23, 10:22 - Benedetta Zini: Yes
29/08/23, 10:22 - Benedetta Zini: I have to click on "release LUs"
29/08/23, 10:23 - Support Technician 23: in your email there was also an error when you tried to manually create the tpo
29/08/23, 10:24 - Benedetta Zini: and WAMAS slow at picking station when it tries to create TPO after user click "release TPO" without success
29/08/23, 10:25 - Support Technician 23: what about manual tpo?
29/08/23, 10:26 - Benedetta Zini: one sec
29/08/23, 10:27 - Benedetta Zini: For example LU 60981613
29/08/23, 10:28 - Benedetta Zini: I can't send it away from pick stations
29/08/23, 10:28 - Benedetta Zini: with "release LUs", now I'm trying to create TPO manually
29/08/23, 10:33 - Benedetta Zini: IMG-20230829-WA0003.jpg (file allegato)
29/08/23, 10:33 - Benedetta Zini: no
29/08/23, 10:34 - Benedetta Zini: here I didn't suggest final destination
29/08/23, 10:35 - Benedetta Zini: but if I suggest final destination (for example SA02) WAMAS creates TPO
29/08/23, 10:35 - Benedetta Zini: IMG-20230829-WA0004.jpg (file allegato)
29/08/23, 10:35 - Benedetta Zini: IMG-20230829-WA0005.jpg (file allegato)
29/08/23, 10:36 - Adrian Cindea: there are some block locations?
29/08/23, 10:36 - Benedetta Zini: Is this issue can be related to H60?
29/08/23, 10:36 - Benedetta Zini: no..
29/08/23, 10:37 - Benedetta Zini: could it be because there are 2 stacker cranes blocked?
29/08/23, 10:39 - Benedetta Zini: HRA1 and HRA8 are blocked for storage
29/08/23, 10:40 - Benedetta Zini: and MAV1 is 92,5% full
29/08/23, 10:41 - Adrian Cindea: but no clear based on LA type
29/08/23, 10:41 - Adrian Cindea: it looks space inside but not related to LA type
29/08/23, 10:42 - Adrian Cindea: give me a pallet to create TPO manually by me
29/08/23, 10:42 - Benedetta Zini: LA = loading aid right?
29/08/23, 10:42 - Adrian Cindea: yeap
29/08/23, 10:42 - Benedetta Zini: okay
29/08/23, 10:43 - Adrian Cindea: the idea is to make rollback ... and to check latter the issue to be able to work normally asap
29/08/23, 10:43 - Adrian Cindea: but pls give a pallet to create tpo by myself
29/08/23, 10:44 - Benedetta Zini: 79640363

51598461

29/08/23, 10:44 - Benedetta Zini: Yes I agree with you
29/08/23, 10:45 - Benedetta Zini: 51976305
29/08/23, 10:45 - Benedetta Zini: 79709445
29/08/23, 10:45 - Benedetta Zini: 52249415
29/08/23, 10:45 - Benedetta Zini: 52134174
29/08/23, 10:45 - Adrian Cindea: 79640363 is U/U_1000
29/08/23, 10:46 - Adrian Cindea: there is space for it in HBW1?
29/08/23, 10:48 - Benedetta Zini: It seems there is space for it
29/08/23, 10:49 - Benedetta Zini: there are 1.700 free locations inside
HRA2/3/4/5/6/7
29/08/23, 10:51 - Benedetta Zini: How many time do you need to do rollback?
29/08/23, 10:54 - Adrian Cindea: it is almsot as a deploy
29/08/23, 10:54 - Benedetta Zini: okay
29/08/23, 10:54 - Adrian Cindea: when the issue was raised related to TPO
slowness?
29/08/23, 10:55 - Benedetta Zini: this morning at 1 am
29/08/23, 10:55 - Benedetta Zini: more or less
29/08/23, 10:57 - Benedetta Zini: are you ready for doing deploy soon?
29/08/23, 10:58 - Benedetta Zini: now
29/08/23, 11:00 - Benedetta Zini: Can I set agvDisable = true?
29/08/23, 11:00 - Adrian Cindea: wait 5 minutes
29/08/23, 11:00 - Adrian Cindea: to check to force oracle execution plan
29/08/23, 11:01 - Benedetta Zini: okay
29/08/23, 11:01 - Benedetta Zini: let me know
29/08/23, 11:04 - Adrian Cindea: please set agvDisable = true
29/08/23, 11:04 - Adrian Cindea: we will make rollback
29/08/23, 11:11 - Benedetta Zini: I did it
29/08/23, 11:12 - Adrian Cindea: let us know when no AGV activity
29/08/23, 11:13 - Benedetta Zini: yes
29/08/23, 11:13 - Benedetta Zini: There are 11 missions
29/08/23, 11:23 - Benedetta Zini: you can start with deploy
29/08/23, 11:23 - Adrian Cindea: yes
29/08/23, 11:46 - Benedetta Zini: let me know when you finish deploy
29/08/23, 11:47 - Adrian Cindea: MFS starting is in progress
29/08/23, 11:47 - Benedetta Zini: okay
29/08/23, 11:51 - Benedetta Zini: everything is green and AGVs start moving
29/08/23, 11:51 - Benedetta Zini: Is deploy finished?
29/08/23, 11:51 - Adrian Cindea: not 100%
29/08/23, 11:52 - Adrian Cindea: but it is done ... we make some checks and some
additional actions
29/08/23, 11:52 - Benedetta Zini: okay
29/08/23, 11:52 - Adrian Cindea: in about 3-5 minutes were ready
29/08/23, 11:52 - Adrian Cindea: now it is only checks
29/08/23, 11:52 - Adrian Cindea: you cans tart to towrk
29/08/23, 11:52 - Adrian Cindea: it is previous version ... version on Monday
mornig
29/08/23, 11:52 - Benedetta Zini: okay perfect
29/08/23, 11:52 - Benedetta Zini: okay
29/08/23, 12:01 - Adrian Cindea: 79640363 was created instally
29/08/23, 12:01 - Adrian Cindea: i think production is working nromally again
29/08/23, 12:02 - Benedetta Zini: Yes, now user are starting to login
29/08/23, 12:03 - Adrian Cindea: create manually
29/08/23, 13:52 - Adrian Cindea: all tickets reported after deploy will be close
and fixes will be provided on initial ticket
29/08/23, 14:36 - Benedetta Zini: Okay
29/08/23, 14:37 - Benedetta Zini: Will you be able to fix the issues of
Yesterday deploy for next Monday?
29/08/23, 14:52 - Adrian Cindea: i dont know yet
29/08/23, 14:53 - Adrian Cindea: i get your database on my system to be able to
test issues reported
29/08/23, 14:53 - Adrian Cindea: to find the root cause and fix it
29/08/23, 15:35 - Benedetta Zini: okay
29/08/23, 15:35 - Benedetta Zini: It is strange but we have a problem with DI004

29/08/23, 15:35 - Benedetta Zini: IMG-20230829-WA0006.jpg (file allegato)
 29/08/23, 15:37 - Benedetta Zini: we can't check outgoing messages due to the error "the connection to the database was interrupted"
 29/08/23, 15:38 - Adrian Cindea: IMG-20230829-WA0007.jpg (file allegato)
 29/08/23, 15:38 - Adrian Cindea: it seems to work
 29/08/23, 15:39 - Adrian Cindea: close dialog and tru again (maybe a relogin)
 29/08/23, 15:39 - Adrian Cindea: *try (tru)
 29/08/23, 15:39 - Benedetta Zini: okay I'm going to retry....
 29/08/23, 15:40 - Benedetta Zini: It works if you don't open
 29/08/23, 15:40 - Benedetta Zini: IMG-20230829-WA0008.jpg (file allegato)
 29/08/23, 15:41 - Adrian Cindea: IMG-20230829-WA0009.jpg (file allegato)
 29/08/23, 15:41 - Adrian Cindea: i did it normally and with archivng
 29/08/23, 15:41 - Adrian Cindea: open properly in both cases
 29/08/23, 15:44 - Benedetta Zini: I'm going to restart my pc 😊
 29/08/23, 15:44 - Benedetta Zini: I will let you know
 29/08/23, 15:44 - Adrian Cindea: or it is time to finsh work for today :)
 29/08/23, 15:45 - Benedetta Zini: Please, try to put * ADBATLTL000093544 *
 29/08/23, 15:57 - Benedetta Zini: It works also for me, but if I want filter by Dati it appear the error message 😞
 30/08/23, 10:01 - Benedetta Zini: Hi! Any news about DI004? ▢
 30/08/23, 10:02 - Benedetta Zini: I would like to see how many records WAMAS sent to AS400
 30/08/23, 10:04 - Adrian Cindea: i will check directly in database and to find record with issue
 30/08/23, 10:13 - Adrian Cindea: 1711055 22-FEB-22 01.49.51.0000000000 PM

 3429228 28-AUG-23 04.13.18.0000000000 PM
 30/08/23, 10:14 - Adrian Cindea: i checked directly in database
 30/08/23, 10:14 - Adrian Cindea: put filter creation time 1.08.2023 to see for this year
 30/08/23, 10:14 - Adrian Cindea: and it will work
 30/08/23, 10:14 - Adrian Cindea: i will check why it is not workig for entire db in WAMAS
 30/08/23, 10:15 - Adrian Cindea: 1711055 is message ID
 30/08/23, 10:15 - Benedetta Zini: IMG-20230830-WA0004.jpg (file allegato)
 If I put 1st August it works...
 30/08/23, 10:15 - Benedetta Zini: yes please
 30/08/23, 10:15 - Adrian Cindea: i know ..
 30/08/23, 10:16 - Adrian Cindea: there is a message with problems ... but i need to find it
 30/08/23, 10:16 - Adrian Cindea: 01.01.2023 - wrok fine
 30/08/23, 14:29 - Adrian Cindea: the issue seems to be related to volume of data
 30/08/23, 14:29 - Adrian Cindea: put filter for date to reduce months to search and it will work
 30/08/23, 14:30 - Adrian Cindea: try 6 months and after that change it to 6 months before and so on ... in case of connection lost
 30/08/23, 14:56 - Benedetta Zini: Okay, thank you
 04/09/23, 12:30 - Benedetta Zini: I set agvDisable = true

04/09/23, 12:40 - Benedetta Zini: You can start with deploy
04/09/23, 12:44 - Razvan Voicu: Ok, we are starting
04/09/23, 13:26 - Adrian Cindea: deploy was done!
04/09/23, 13:26 - Benedetta Zini: okay
04/09/23, 13:50 - Adrian Cindea: all seems fine so far
04/09/23, 14:09 - Benedetta Zini: Yes exactly
04/09/23, 14:09 - Benedetta Zini: Now we are going to test some patches
04/09/23, 14:30 - Benedetta Zini: How is it patch for A114?
04/09/23, 14:30 - Adrian Cindea: installed
04/09/23, 14:31 - Benedetta Zini: But is it something we can see?
04/09/23, 14:31 - Adrian Cindea: i dont know how to make a printer not available
04/09/23, 14:31 - Adrian Cindea: maybe to unplugged it ...
04/09/23, 14:32 - Adrian Cindea: it happens rare anyhow
06/09/23, 17:46 - Benedetta Zini: Hi all! We have a problem in automatic area...
a lot of red bubbles are appearing 😞
06/09/23, 17:47 - Razvan Voicu: Hello
06/09/23, 17:47 - Benedetta Zini: Hello
06/09/23, 17:47 - Razvan Voicu: Are just the red bubbles appearing or is there a
block in flows?
06/09/23, 17:48 - Benedetta Zini: Hai eliminato questo messaggio.
06/09/23, 17:49 - Benedetta Zini: Due to red bubbles, pallets are not moving
06/09/23, 17:49 - Benedetta Zini: Each red bubble is a pallet
06/09/23, 17:50 - Benedetta Zini: We can reset F01 but after 1 sec red bubbles
appear again
06/09/23, 17:51 - Razvan Voicu: Ok, let me check
06/09/23, 17:52 - Benedetta Zini: I checked printers and they are online
06/09/23, 17:58 - Benedetta Zini: On lighthouse there isn't SOC ID on pallets
06/09/23, 17:59 - Benedetta Zini: For example LU 70354640 is on CU0311 and there
is not in MF266
06/09/23, 17:59 - Benedetta Zini: IMG-20230906-WA0008.jpg (file allegato)
06/09/23, 18:00 - Benedetta Zini: IMG-20230906-WA0010.jpg (file allegato)
06/09/23, 18:02 - Razvan Voicu: Seems to be a bug
06/09/23, 18:02 - Razvan Voicu: With the new weight change
06/09/23, 18:02 - Benedetta Zini: 😞😞
06/09/23, 18:03 - Benedetta Zini: Can you deactivate it?
06/09/23, 18:03 - Razvan Voicu: something is being divided by 0
06/09/23, 18:03 - Benedetta Zini: Without doing rollback
06/09/23, 18:03 - Benedetta Zini: Not good...
06/09/23, 18:04 - Razvan Voicu: IMG-20230906-WA0011.jpg (file allegato)
06/09/23, 18:05 - Razvan Voicu: I think this is the issue
06/09/23, 18:05 - Razvan Voicu: stock with qty 0
06/09/23, 18:05 - Benedetta Zini: Okay
06/09/23, 18:05 - Benedetta Zini: Can you fix it?
06/09/23, 18:05 - Razvan Voicu: can I delete this stock?
06/09/23, 18:05 - Benedetta Zini: Yes
06/09/23, 18:05 - Razvan Voicu: Is there a flow where a LU requires stock object
with qty 0?
06/09/23, 18:06 - Razvan Voicu: Or it doesn't matter to you if it's stock with
qty 0 or no stock
06/09/23, 18:06 - Benedetta Zini: No
06/09/23, 18:07 - Benedetta Zini: It shouldn't be write anything
06/09/23, 18:07 - Benedetta Zini: No stock line
06/09/23, 18:07 - Razvan Voicu: ok
06/09/23, 18:07 - Razvan Voicu: I think problem solved?
06/09/23, 18:08 - Benedetta Zini: Okay it seems yes
06/09/23, 18:08 - Benedetta Zini: Pallets start moving
06/09/23, 18:08 - Razvan Voicu: Great
06/09/23, 18:08 - Benedetta Zini: But why LU have stock equal to 0?
06/09/23, 18:10 - Razvan Voicu: I remember this happened in the past
06/09/23, 18:10 - Razvan Voicu: I'll check tomorrow wiht my colleagues and see
if they have any idea
06/09/23, 18:10 - Razvan Voicu: And I'll prepare a ticket for fix for this
current issue
06/09/23, 18:11 - Razvan Voicu: From what I see in stock history, it had 5 PCS

and it got picked -4 -1

06/09/23, 18:11 - Benedetta Zini: You are right

06/09/23, 18:11 - Benedetta Zini: Okay thank you very much

06/09/23, 18:12 - Benedetta Zini: I will check what ticket was last time

14/09/23, 09:57 - Support Technician 15: Hello

for case 01316981, do you want me to finish the ODB manually ? Have they picked everything for it ?

14/09/23, 09:59 - Support Technician 15: what is the status for this OBD ?

14/09/23, 11:00 - Benedetta Zini: Hello, we want to close it as it is now

14/09/23, 11:01 - Benedetta Zini: It should be finalize

14/09/23, 11:29 - Support Technician 15: ok, I have finished it. It is closed now

14/09/23, 11:33 - Benedetta Zini: okay thank you

14/09/23, 11:33 - Benedetta Zini: What was the issue?

14/09/23, 16:20 - Support Technician 15: not sure, I will check it. It is probably related to the order of the actions made for that OBD, After picking it was cancelled before the discharge action.

14/09/23, 16:29 - Benedetta Zini: Okay pls let me know

26/09/23, 05:08 - Support Technician 10: Hello can some check agv 11 it s in front of pick station 1

26/09/23, 05:11 - Giacomo Trivieri, Lavoro: Yes i finish to unlock the crane 3 and we go

27/09/23, 09:17 - Adrian Cindea: there 32 orders irlight now ...

27/09/23, 09:18 - Benedetta Zini: now...

27/09/23, 09:18 - Benedetta Zini: What did you do?

27/09/23, 09:18 - Benedetta Zini: Please don't tell me "nothing" ahah

27/09/23, 09:18 - Adrian Cindea: i only trigger a worker which trasnformed PPLU in PO

27/09/23, 09:18 - Adrian Cindea: and assigned PO to station ...

27/09/23, 09:19 - Benedetta Zini: oh okay...

27/09/23, 09:19 - Adrian Cindea: but we will continue analyze

27/09/23, 11:10 - Adrian Cindea: ADBATLATL000032108 has a pplu and 1st line has no stock enough because one location is blocked

27/09/23, 11:11 - Adrian Cindea: ATLAME6

27/09/23, 11:11 - Adrian Cindea: 60609170 / HRA01X010Y12Z21

27/09/23, 11:11 - Adrian Cindea: it has priority 9

27/09/23, 11:11 - Adrian Cindea: i changed it to 1

27/09/23, 11:12 - Benedetta Zini: And this order block other orders?

27/09/23, 11:12 - Adrian Cindea: system tried this pplu to assign for many times to picing station (transform in po), but no stock enoufh anf no try another pplu

27/09/23, 11:13 - Benedetta Zini: okay sometimes happen

27/09/23, 11:13 - Adrian Cindea: and from time to time choose another pplu woth the same priority and assigned PPLU to station (PO)

27/09/23, 11:13 - Adrian Cindea: try to finalize this pplu and release again OBD

27/09/23, 11:14 - Adrian Cindea: to pick what is available ... or chck

location ... reason was blockage is not availabel target

27/09/23, 11:14 - Adrian Cindea: it means an issue with that location ... bit not empty based on mesage ... but a physical will help

27/09/23, 11:23 - Benedetta Zini: yes but sometimes happens and it has never blocked other orders

27/09/23, 11:26 - Adrian Cindea: :)

27/09/23, 11:26 - Adrian Cindea: we will analyze now these kind of issues ...

27/09/23, 11:26 - Adrian Cindea: PO creation/assignment is affected

27/09/23, 11:39 - Adrian Cindea: You are right, no pplu not covered generate the issue

27/09/23, 11:39 - Adrian Cindea: Hbw12 affected the system

27/09/23, 11:39 - Adrian Cindea: System tries to allocate orders but not possible because it had 2 targets in station

27/09/23, 11:39 - Adrian Cindea: But it has smallest load

27/09/23, 11:39 - Adrian Cindea: And try forever to allocate to it... allocate to others when their load was smaller than load of hbw12

27/09/23, 11:39 - Adrian Cindea: Everytime appears that pplu in log but it was not a problem ...

27/09/23, 11:39 - Adrian Cindea: The issue was due to number of targets in

station and small load

27/09/23, 11:40 - Adrian Cindea: It seems station was not used for a long time with picking available to be done at station... waiting for picker

27/09/23, 12:02 - Benedetta Zini: Yes probably

27/09/23, 12:03 - Benedetta Zini: You mean that was the root cause?

27/09/23, 12:10 - Adrian Cindea: load small at station HBW12 though it has 2 targets in station ... system tried to assign picking order having smallest load but not assigned because of already 2 targets in station . Due to it picking orders assigned works slower ... <Questo messaggio è stato modificato>

27/09/23, 12:11 - Adrian Cindea: allocate picking orders to others NORMAL station with their load goes down to load of HBW12 ... normally allocated only NORMAL stations with a 1-2 picking orders.

27/09/23, 12:13 - Adrian Cindea: the idea is to make picking ... and maybe an improvement for this situation when there is picking is postpone for execution. I thought one user assigned to more station instead of one user per station ... I know it works and it is a good idea but it is needed a strategy to work for users when to move to another station ... because the system was done to allocate orders to station with smallest load <Questo messaggio è stato modificato>

27/09/23, 14:32 - Chiara Lodesani, Lavoro: IMG-20230927-WA0004.jpg (file allegato)

Hi, we have the same problem of this morning yet, now there are only 10 orders in OG039...

27/09/23, 14:38 - Adrian Cindea: we will check (meanwhile some orders were created)

27/09/23, 14:43 - Benedetta Zini: I'm sorry, but I'm not following you...

27/09/23, 14:44 - Benedetta Zini: I don't understand what is the root cause of this problem...

27/09/23, 14:52 - Benedetta Zini: Now there are 37 pick orders

27/09/23, 14:52 - Adrian Cindea: I will check again logs

27/09/23, 16:04 - Adrian Cindea: it seems task to assign POs is not working properly

27/09/23, 16:04 - Adrian Cindea: I triggered it last time and orders were created

27/09/23, 16:04 - Adrian Cindea: we will monitor and tomorrow we will take a decision ...

27/09/23, 16:04 - Adrian Cindea: for the moment there are orders in the system

27/09/23, 16:14 - Benedetta Zini: Okay 😞

27/09/23, 16:14 - Benedetta Zini: If we need a trigger tonight?

27/09/23, 16:14 - Benedetta Zini: How can we do?

27/09/23, 16:36 - Adrian Cindea: Call us

27/09/23, 16:36 - Adrian Cindea: Questo messaggio è stato eliminato.

27/09/23, 16:37 - Adrian Cindea: IMG-20230927-WA0005.jpg (file allegato)

27/09/23, 16:37 - Adrian Cindea: right click trigger if you have access to it ...

27/09/23, 16:48 - Benedetta Zini: I don't have access to it...

27/09/23, 16:49 - Benedetta Zini: Could you please trigger again worker? It is happening again

27/09/23, 16:49 - Benedetta Zini: thank you very much

27/09/23, 17:02 - Benedetta Zini: Please 🙏

27/09/23, 17:12 - Adrian Cindea: I did it

27/09/23, 17:20 - Benedetta Zini: Sorry but we are blocked again...

27/09/23, 17:25 - Support Technician 10: I will run the task immediately

27/09/23, 17:35 - Benedetta Zini: thank you 😊

27/09/23, 17:35 - Benedetta Zini: because we have only 14 pick orders..

27/09/23, 17:47 - Benedetta Zini: did you run the task?

27/09/23, 17:54 - Support Technician 10: Yes but it seems it's creating only one order

27/09/23, 17:59 - Benedetta Zini: please check what was wrong...

27/09/23, 18:15 - Benedetta Zini: We have only 10 orders in OG039...

27/09/23, 18:15 - Support Technician 10: We are looking into it

27/09/23, 18:17 - Support Technician 10: Can someone do the pick on station 6

27/09/23, 18:18 - Benedetta Zini: Okay thank you very much

27/09/23, 18:20 - Benedetta Zini: Pick station 6 is waiting an empty pallet from

CU428 (that is empty now)

27/09/23, 18:21 - Benedetta Zini: but this can't be the problem...
27/09/23, 18:43 - Support Technician 10: Ok now we got over 30
27/09/23, 18:43 - Support Technician 10: Picking orders
27/09/23, 18:46 - Benedetta Zini: Good👍
27/09/23, 22:07 - Tommaso Guizzardi, Lavoro: Run task to assign PO, please
27/09/23, 22:07 - Tommaso Guizzardi, Lavoro: I have online 18 orders in OG039
27/09/23, 22:08 - Support Technician 10: Ok
27/09/23, 22:21 - Tommaso Guizzardi, Lavoro: We are still at 23, is it normal?
27/09/23, 22:22 - Support Technician 10: I am trying to run it again but first I read the logs
27/09/23, 22:26 - Tommaso Guizzardi, Lavoro: Okay
27/09/23, 22:43 - Support Technician 10: Now it's at 28
27/09/23, 23:34 - Tommaso Guizzardi, Lavoro: We are back at 23
28/09/23, 00:02 - Tommaso Guizzardi, Lavoro: Now there are only 13 order in OG39
28/09/23, 09:47 - Adrian Cindea: please switch NOK Foiling form LU check
28/09/23, 09:47 - Adrian Cindea: it seems the issue is generated by it
28/09/23, 09:48 - Adrian Cindea: old issue not solved
28/09/23, 09:48 - Adrian Cindea: it was in 11/11/2022
28/09/23, 09:48 - Adrian Cindea: pls do it asap
28/09/23, 09:48 - Adrian Cindea: assignment is running very rare ... at 17 minutes and now 10 minutes not run ...
28/09/23, 09:49 - Benedetta Zini: To what?
28/09/23, 09:49 - Adrian Cindea: stop
28/09/23, 09:50 - Adrian Cindea: for the moment
28/09/23, 09:50 - Benedetta Zini: And how can I check pallet at nok foiling?
28/09/23, 09:50 - Benedetta Zini: We have to stop nok foiling?
28/09/23, 09:50 - Adrian Cindea: use and stop in case of no use
28/09/23, 09:50 - Benedetta Zini: We can't do it
28/09/23, 09:50 - Adrian Cindea: let us try firstly
28/09/23, 09:50 - Benedetta Zini: Are you sure that the problem is nok foiling?
28/09/23, 09:51 - Adrian Cindea: lu check
28/09/23, 09:51 - Benedetta Zini: Okay
28/09/23, 09:51 - Adrian Cindea: we will find a solution
28/09/23, 09:51 - Benedetta Zini: We will stop nok foiling
28/09/23, 09:51 - Benedetta Zini: For a while
28/09/23, 09:51 - Adrian Cindea: 11/11/2022 it is the same discussion on internal check related to picking order creatinon for station
28/09/23, 09:51 - Adrian Cindea: pls
28/09/23, 09:51 - Adrian Cindea: so far all was fine
28/09/23, 09:51 - Adrian Cindea: assignment runs every minute
28/09/23, 09:52 - Adrian Cindea: now it is running rare
28/09/23, 09:52 - Benedetta Zini: If we stop lu check at nok foiling
28/09/23, 09:52 - Adrian Cindea: and no po are created and in about 1-2 hours and compleaint about missing orders
28/09/23, 09:52 - Adrian Cindea: pld
28/09/23, 09:52 - Benedetta Zini: Right?
28/09/23, 09:52 - Adrian Cindea: k
28/09/23, 09:52 - Adrian Cindea: we will check job running
28/09/23, 09:52 - Adrian Cindea: keep it stop for 30 minutes
28/09/23, 09:53 - Adrian Cindea: to check running og assignment task for GTP picking
28/09/23, 09:53 - Adrian Cindea: later on ... we will try to fid a solution
28/09/23, 09:53 - Benedetta Zini: We will block foiling area
28/09/23, 09:53 - Benedetta Zini: 😞
28/09/23, 09:53 - Adrian Cindea: 30 minutes?
28/09/23, 09:53 - Adrian Cindea: 15 minutes ...
28/09/23, 09:53 - Adrian Cindea: just to check the sistuation
28/09/23, 09:54 - Benedetta Zini: Yes
28/09/23, 09:54 - Benedetta Zini: We can try
28/09/23, 09:54 - Adrian Cindea: the idee is to check the effect of its running in LU check
28/09/23, 09:54 - Benedetta Zini: I will write you if foiling area blocks
28/09/23, 09:54 - Adrian Cindea: 15 minutes is enough to take a decision

28/09/23, 09:54 - Benedetta Zini: Yes I understand
 28/09/23, 09:54 - Adrian Cindea: remove pallets on ground floor for a moment
 28/09/23, 09:54 - Adrian Cindea: until station will be open again
 28/09/23, 09:55 - Benedetta Zini: IMG-20230928-WA0000.jpg (file allegato)
 28/09/23, 09:55 - Benedetta Zini: Foiling station blocked
 28/09/23, 09:56 - Benedetta Zini: Okay
 28/09/23, 10:32 - Adrian Cindea: now assignment task is working properly ...
 running at every 2 minutes
 28/09/23, 10:33 - Adrian Cindea: pls start foiling station ...
 28/09/23, 10:33 - Benedetta Zini: Okay
 28/09/23, 10:33 - Adrian Cindea: the idea to solve by our soled ... stop it for
 5 minutes in case of no orders
 28/09/23, 10:33 - Adrian Cindea: we will try to find a permanent solution
 28/09/23, 10:34 - Benedetta Zini: Yes please....
 28/09/23, 10:34 - Adrian Cindea: the idea is to not keep it in LU check in case of
 no work at it
 28/09/23, 10:34 - Adrian Cindea: keep open in case of work ... no work switch it
 to stop
 28/09/23, 10:34 - Benedetta Zini: But why now? What happened in the system?
 28/09/23, 10:35 - Adrian Cindea: LU check is running slowly and affects
 assignment
 28/09/23, 10:35 - Benedetta Zini: 😞😞
 28/09/23, 10:35 - Adrian Cindea: assignment task is for any process
 28/09/23, 10:35 - Adrian Cindea: for picking is fast enough for LU check is
 slowing ...
 28/09/23, 10:35 - Adrian Cindea: we will check what is done on LU check ...
 28/09/23, 10:36 - Adrian Cindea: so please keep it starting ... and stop only in
 case of problems
 28/09/23, 10:36 - Adrian Cindea: to try to make it to run normally for LU check
 28/09/23, 10:36 - Benedetta Zini: Okay we will try to do it
 28/09/23, 10:36 - Benedetta Zini: Please find a permanent solution
 28/09/23, 10:36 - Adrian Cindea: put back in LU check ... and stop it today only
 in case of no orders
 28/09/23, 10:37 - Benedetta Zini: Yes
 28/09/23, 10:37 - Adrian Cindea: to be able to make some adjustment on database
 28/09/23, 10:37 - Adrian Cindea: and permanent solution ... it will be based on
 investigation
 28/09/23, 10:38 - Benedetta Zini: Okay please find it asap because it will be a
 mess start and stop foiling area
 28/09/23, 11:31 - Adrian Cindea: archiving of protocol data is not working from
 10.09.2022
 28/09/23, 11:31 - Adrian Cindea: and it affects the system
 28/09/23, 11:32 - Adrian Cindea: as we already know Wamas was not built for so
 volume of archiving data
 28/09/23, 11:32 - Benedetta Zini: Oh no....
 28/09/23, 11:32 - Adrian Cindea: and as I said sometime ago ... a solution will
 be to erase some data
 28/09/23, 11:32 - Adrian Cindea: to not spend time to find solution for a system
 which was not built in this way
 28/09/23, 11:32 - Adrian Cindea: activity protocol is a huge table
 28/09/23, 11:33 - Adrian Cindea: and statistics on protocol data is not a
 solution
 28/09/23, 11:34 - Benedetta Zini: So the problem is the huge amount of data
 archived
 28/09/23, 11:34 - Adrian Cindea: tablespace issue I think in September
 28/09/23, 11:34 - Adrian Cindea: and process remains blocked ... because no
 space in database
 28/09/23, 11:34 - Adrian Cindea: and no start anymore ... and no moved from
 production to archiving
 28/09/23, 11:36 - Benedetta Zini: Not good... Can you fix it? Release the
 process?
 28/09/23, 11:36 - Adrian Cindea: it is archived after 0 minutes instantly ... it
 means production table is almost empty
 28/09/23, 11:37 - Adrian Cindea: now there are over 4 million rows <Questo

messaggio è stato modificato>
28/09/23, 11:39 - Benedetta Zini: Okay
28/09/23, 11:40 - Adrian Cindea: 4 945 279 to be archived ...
28/09/23, 11:40 - Benedetta Zini: How does it take? 😊
28/09/23, 11:40 - Adrian Cindea: IMG-20230928-WA0002.jpg (file allegato)
28/09/23, 11:40 - Adrian Cindea: i dont know ... for sure some hours
28/09/23, 11:40 - Adrian Cindea: total all tables from pictures ...
28/09/23, 11:41 - Benedetta Zini: Okay all protocols table
28/09/23, 11:41 - Benedetta Zini: Tables
28/09/23, 11:42 - Benedetta Zini: So this is the root cause, right?
28/09/23, 11:43 - Benedetta Zini: Huge amount of data that affect system
28/09/23, 11:49 - Support Technician 10: We are not 100% sure but after the archive is complet we are gone watch the logs again to see if the allocation runs slow
28/09/23, 11:52 - Benedetta Zini: Okay thank you
28/09/23, 11:52 - Benedetta Zini: Let me know
28/09/23, 11:53 - Adrian Cindea: excluding protocol table ...
28/09/23, 12:10 - Adrian Cindea: IMG-20230928-WA0003.jpg (file allegato)
28/09/23, 12:10 - Adrian Cindea: here is garbage data ... which is not normal to be stored for years (100 days is enough)
28/09/23, 12:11 - Adrian Cindea: ~84 GB are occuppied (54%) from total space ~150.4 GB occupied by archving data
28/09/23, 12:13 - Adrian Cindea: the idea is to keep arching protocol data for 100 days ... not years
28/09/23, 12:19 - Adrian Cindea: <Questo messaggio è stato modificato>
28/09/23, 12:20 - Adrian Cindea: it is an estimation at least 11 hours to transfer 4.1 mil rows
28/09/23, 13:37 - Adrian Cindea: -> starting archiving for protocols no other archivng is running
28/09/23, 13:38 - Adrian Cindea: i cancelled protocol archiving job and schedule again ... and OBD, PO archiving was done ... but next archiving for OBD, PO in about 10 hours if job si not cancelled and rescheduld
28/09/23, 13:53 - Benedetta Zini: Okay... we will solve it with History sever...
28/09/23, 16:01 - Adrian Cindea: 3251385 protocol rows ... ~ 4 hours (esitimation - nothign more)
28/09/23, 16:06 - Adrian Cindea: ~2.64 mil from ~4.3 mill rows in activity protocol ... for sure the system will start to run better and better <Questo messaggio è stato modificato>
28/09/23, 16:06 - Benedetta Zini: Great 🍷
28/09/23, 16:19 - Adrian Cindea: real cause at the end is archiving of protocol tables stopped because the system is not adjusted/built for big data warehouse (side effect of missing history server) <Questo messaggio è stato modificato>
28/09/23, 17:52 - Benedetta Zini: Okay clear as crystal...
28/09/23, 17:54 - Adrian Cindea: ~1.93 from ~4.3 - activity protocol ... remaining ~3 hours
28/09/23, 17:55 - Benedetta Zini: Great
28/09/23, 17:55 - Benedetta Zini: And PO assigned works
28/09/23, 17:55 - Benedetta Zini: We have to move with history server
29/09/23, 07:10 - Adrian Cindea: good morning
29/09/23, 07:11 - Adrian Cindea: 574 PPLUs (extra size 524, 50 nomral, 0 express)
29/09/23, 07:11 - Adrian Cindea: and taiton extrasize:2, 3 express and rest normal)
29/09/23, 07:11 - Adrian Cindea: it seems wrong configuration of station in this momnet
29/09/23, 07:11 - Adrian Cindea: and normal PPLUs no stock available in automatic part
29/09/23, 07:12 - Adrian Cindea: -> number of POs are affected ... HBW10 no orders and it is normal
29/09/23, 08:54 - Benedetta Zini: Hello, now it seems okay
29/09/23, 09:05 - Adrian Cindea: that's great ... i reported to know a possible reason for lack of POs
14/10/23, 09:09 - ~ Giovanni ha abbandonato.

17/10/23, 10:40 - Benedetta Zini: Good mornig! Are you ready for deploy?
As usual at 12:30 we are going to put agvDisable = true. @Company Employee 9 is going to inform you as soon as you can start with deploy 😊

17/10/23, 10:41 - Adrian Cindea: good morning ...

17/10/23, 10:41 - Adrian Cindea: k

17/10/23, 12:28 - Chiara Lodesani, Lavoro: Questo messaggio è stato eliminato.

17/10/23, 12:30 - Chiara Lodesani, Lavoro: Hi, I set agvDisable = true.

17/10/23, 12:30 - Chiara Lodesani, Lavoro: I'll tell you when you can start with deploy

17/10/23, 12:37 - Chiara Lodesani, Lavoro: You can start with deploy!

17/10/23, 12:41 - Chiara Lodesani, Lavoro: Are you ready?

17/10/23, 12:43 - Razvan Voicu: Yes, we are doing it now

17/10/23, 12:48 - Benedetta Zini: Everything okay?

17/10/23, 12:52 - Benedetta Zini: ??

17/10/23, 12:52 - Support Technician 10: Yes

17/10/23, 12:54 - Benedetta Zini: But evething is in automatic mode

17/10/23, 13:01 - Benedetta Zini: Sorry but are you starting with deploy? I haven't seen automatic area in manual mode as usual..

17/10/23, 13:02 - Support Technician 10: We are working on it

17/10/23, 13:08 - Benedetta Zini: Please guys tell me what is happening

17/10/23, 13:09 - Chiara Lodesani, Lavoro: How much more time do you need?

17/10/23, 13:15 - Support Technician 10: We are doing the data migration too

17/10/23, 13:34 - Benedetta Zini: there is a problem on foiling printer

17/10/23, 13:34 - Benedetta Zini: "labeler no printing data"

17/10/23, 13:37 - Razvan Voicu: checking

17/10/23, 13:42 - Benedetta Zini: i think the problem is that you cancel one of the two printer on that position...

17/10/23, 13:42 - Razvan Voicu: yep

17/10/23, 13:42 - Razvan Voicu: we check now

17/10/23, 13:49 - Razvan Voicu: Is the printer in error physically? Can you press the acknowledge button?

17/10/23, 13:53 - Benedetta Zini: we are going to press the button

17/10/23, 13:57 - Benedetta Zini: the printer is still in error

17/10/23, 13:57 - Benedetta Zini: labeler no printing data

17/10/23, 13:57 - Benedetta Zini: 😞😞

17/10/23, 13:57 - Razvan Voicu: ok

17/10/23, 14:10 - Benedetta Zini: did you find the problem?

17/10/23, 14:14 - Benedetta Zini: please send me the list of changes because I don't find new parameter in FW028 of CR report as full

17/10/23, 14:17 - Adrian Cindea: not all parameters are for all users

17/10/23, 14:18 - Benedetta Zini: direttore tecnico?

17/10/23, 14:18 - Adrian Cindea: no

17/10/23, 14:18 - Adrian Cindea: some parameters are for internal usage

17/10/23, 14:18 - Benedetta Zini: but FW028 is for superuser and direttore tecnico

17/10/23, 14:20 - Adrian Cindea: give me some minutes to check it

17/10/23, 14:20 - Adrian Cindea: for sure it is for your access

17/10/23, 14:20 - Benedetta Zini: IMG-20231017-WA0001.jpg (file allegato)

17/10/23, 14:21 - Adrian Cindea: i remember about it

17/10/23, 14:21 - Benedetta Zini: IMG-20231017-WA0002.jpg (file allegato)

17/10/23, 14:21 - Adrian Cindea: to decide procentahe

17/10/23, 14:21 - Benedetta Zini: yess

17/10/23, 14:21 - Adrian Cindea: give me some minutes to check

17/10/23, 14:21 - Benedetta Zini: <Media omessi>
20221020_CR_ReportAsFull_specifications_v05.docx

17/10/23, 14:25 - Benedetta Zini: In manual area when user try to print a label terminal crash immediately

17/10/23, 14:25 - Benedetta Zini: IMG-20231017-WA0004.jpg (file allegato)

Ordine 98199

17/10/23, 14:26 - Benedetta Zini: and we have again "unknown error" when user try to recognize empty LU in manual area

17/10/23, 14:28 - Benedetta Zini: another ploblem is that WAMAS don't send record 24 and 25

17/10/23, 14:29 - Adrian Cindea: our idea is to make rollback ... to many issues

...

17/10/23, 14:29 - Razvan Voicu: Questo messaggio è stato eliminato.

17/10/23, 14:29 - Benedetta Zini: go go go

17/10/23, 14:29 - Benedetta Zini: I put AgvDisable = true

17/10/23, 14:30 - Adrian Cindea: IMG-20231017-WA0005.jpg (file allegato)

17/10/23, 14:31 - Adrian Cindea: i think the parameter is available ...

17/10/23, 14:31 - Adrian Cindea: we will investigate the other issues ...

17/10/23, 14:31 - Benedetta Zini: I don't have it

17/10/23, 14:31 - Benedetta Zini: IMG-20231017-WA0006.jpg (file allegato)

17/10/23, 14:31 - Adrian Cindea: oen seonfs

17/10/23, 14:32 - Benedetta Zini: yes please... the problem is that WAMAS doesn't communicate with AS400

17/10/23, 14:32 - Adrian Cindea: now it is .. make a refresh

17/10/23, 14:32 - Benedetta Zini: okay

17/10/23, 14:33 - Benedetta Zini: Do you do the rollback?

17/10/23, 14:34 - Adrian Cindea: yes

17/10/23, 14:34 - Razvan Voicu: let us know when agvs are stopped

17/10/23, 14:34 - Benedetta Zini: no more missions

17/10/23, 14:34 - Benedetta Zini: you can start with rollback

17/10/23, 14:35 - Razvan Voicu: ok, starting

17/10/23, 14:36 - Benedetta Zini: yes please

17/10/23, 14:50 - Chiara Lodesani, Lavoro: please tell us something when you're done

17/10/23, 14:50 - Razvan Voicu: Sure

17/10/23, 15:06 - Razvan Voicu: Deploy is done

17/10/23, 15:06 - Razvan Voicu: Check and let us know

17/10/23, 15:10 - Benedetta Zini: we are checking

17/10/23, 15:10 - Benedetta Zini: Foiling printer is okay

17/10/23, 15:11 - Benedetta Zini: communication between WAMAS and AS400 is okay

17/10/23, 15:15 - Adrian Cindea: meesage24/25 --- please give us more details?

17/10/23, 15:15 - Adrian Cindea: to be able to uderstand the issue

17/10/23, 15:16 - Adrian Cindea: foiling printer issue was found.

17/10/23, 15:16 - Adrian Cindea: parameter for Report full was visible to you ..

17/10/23, 15:16 - Adrian Cindea: terminal mobile issue is under investigation ...

17/10/23, 15:19 - Benedetta Zini: It is difficult to explain it... WAMAS didn't communicate that user loads pallets on truck, pallets are ready etc..

17/10/23, 15:19 - Adrian Cindea: k

17/10/23, 15:19 - Adrian Cindea: an OBD?

17/10/23, 15:19 - Benedetta Zini: and for CR report as full was visible only

17/10/23, 15:20 - Benedetta Zini: this one

17/10/23, 15:20 - Benedetta Zini: and not this one

17/10/23, 15:20 - Benedetta Zini: it has to visible both on FW028

17/10/23, 15:20 - Benedetta Zini: orders:

17/10/23, 15:20 - Benedetta Zini: 41098

37553

43923

41012

17/10/23, 15:22 - Adrian Cindea: com.wamas.mfs.core.common.CompletionPercentage is visible now

17/10/23, 15:22 - Adrian Cindea: the parameters were not rollbacked ... no effect in the system (not used)

17/10/23, 15:23 - Adrian Cindea: both parameters for CR Report as Full are visible right now ...

17/10/23, 15:23 - Adrian Cindea: it was marked not visible as default and i changed them manually to visible

17/10/23, 15:24 - Chiara Lodesani, Lavoro: Ok, we see it

17/10/23, 15:27 - Adrian Cindea: we will investigate any isseu reported during short period

17/10/23, 15:29 - Benedetta Zini: yes thank you!

17/10/23, 15:31 - Support Technician 10: What is ordine 98199

17/10/23, 15:35 - Benedetta Zini: IMG-20231017-WA0007.jpg (file allegato)

17/10/23, 15:35 - Benedetta Zini: OBD00000699088 ADBATLATL000098199

17/10/23, 15:36 - Support Technician 10: Ok we are checking what the problem was

17/10/23, 16:08 - Support Technician 10: IMG-20231017-WA0008.jpg (file allegato)
I checked the ordere *41098 and on our side we sent the telegrams 24,25

17/10/23, 16:25 - Adrian Cindea: picking issue in manual area was found and fixed (no possible to pick for item with base qty != PZ) ... it was fixed.
<Questo messaggio è stato modificato>

17/10/23, 16:26 - Adrian Cindea: please feedback about 24/25 to try to understand issue reported and to look after it

17/10/23, 16:41 - Benedetta Zini: I'm calling my IT dept

17/10/23, 16:49 - Benedetta Zini: AS400 had a problem with a record that blocked every record... It started at 2 pm and our IT dept solved it at around about 2:30 pm... it was an unlucky coincidence, but the good news it that this issue it was not generate by deploy

17/10/23, 16:51 - Adrian Cindea: thx for feedback

17/10/23, 16:52 - Benedetta Zini: thank you for your help

17/10/23, 22:13 - Benedetta Zini: Hello! Could you please take a look ASAP automatic area? All F01 is in error

17/10/23, 22:13 - Benedetta Zini: IMG-20231017-WA0014.jpg (file allegato)

17/10/23, 22:13 - Benedetta Zini: We have already open a ticket prio B 01323374

17/10/23, 22:15 - Benedetta Zini: On site there is @Company Employee 22

17/10/23, 22:32 - Support Technician 10: We found the issue with this one I am gone close it and we are still looking into pick station 9

17/10/23, 22:32 - Benedetta Zini: What was the issue?

17/10/23, 22:32 - Benedetta Zini: Thank you!

17/10/23, 22:33 - Tommaso Guizzardi, Lavoro: Thank you

17/10/23, 22:33 - Support Technician 10: A pallet got an error and the system stopped cause it did not consume the pending event

17/10/23, 22:33 - Support Technician 10: We deleted the pending event and all the rest were executed

17/10/23, 22:34 - Tommaso Guizzardi, Lavoro: So picking station 5 is okay?

17/10/23, 22:34 - Benedetta Zini: Okay and it was a pallet on pick station 9?

17/10/23, 22:34 - Support Technician 10: Yea picking station 5 seems to be working I didn't call to ask

17/10/23, 22:34 - Support Technician 10: No

17/10/23, 22:35 - Support Technician 10: Dose the pick station 9 it's still in waiting?

17/10/23, 22:35 - Benedetta Zini: @Company Employee 22

17/10/23, 22:35 - Tommaso Guizzardi, Lavoro: Yes

17/10/23, 22:36 - Support Technician 10: Ok

17/10/23, 22:37 - Tommaso Guizzardi, Lavoro: In Picking station 5 source n1, the pallet Went away, so now is waiting one pallet to start

17/10/23, 22:46 - Tommaso Guizzardi, Lavoro: Questo messaggio è stato eliminato.

17/10/23, 23:21 - Tommaso Guizzardi, Lavoro: IMG-20231017-WA0016.jpg (file allegato)

17/10/23, 23:21 - Razvan Voicu: And if you scan the UDC ?

17/10/23, 23:22 - Tommaso Guizzardi, Lavoro: He can workshop only on d02

17/10/23, 23:25 - Tommaso Guizzardi, Lavoro: Work*

17/10/23, 23:26 - Razvan Voicu: IMG-20231017-WA0017.jpg (file allegato)
any idea why aardili created transport order for this UDC from station 5 buffer towards storage area?

17/10/23, 23:27 - Tommaso Guizzardi, Lavoro: I tried to re-create the order

17/10/23, 23:29 - Razvan Voicu: IMG-20231017-WA0018.jpg (file allegato)
I finished this pick order. It needs to be created from OBD again

17/10/23, 23:29 - Razvan Voicu: ADBATLATL000033352 OBD0000698082

17/10/23, 23:29 - Tommaso Guizzardi, Lavoro: Because this afternoon they did the same thing to try

17/10/23, 23:30 - Razvan Voicu: Ok. What's the status now? What doesn't work?

17/10/23, 23:32 - Tommaso Guizzardi, Lavoro: The buffer on piking station 5

17/10/23, 23:32 - Tommaso Guizzardi, Lavoro: This

17/10/23, 23:33 - Razvan Voicu: Ok, I canceled the picking order for it. You (or the person responsible) needs to release the OBD again

17/10/23, 23:33 - Razvan Voicu: I can do it if that's ok with you

17/10/23, 23:33 - Razvan Voicu: so we re-create the pick order

17/10/23, 23:35 - Tommaso Guizzardi, Lavoro: I don't know how to do it

17/10/23, 23:35 - Razvan Voicu: ok I will do it.

17/10/23, 23:38 - Razvan Voicu: So now the only station with problems is station 5?

17/10/23, 23:38 - Razvan Voicu: we sent away that pallet also

17/10/23, 23:39 - Tommaso Guizzardi, Lavoro: Yes

17/10/23, 23:40 - Razvan Voicu: Ok, AGV picked it up and sent it away

17/10/23, 23:40 - Razvan Voicu: now everything should be fine

17/10/23, 23:41 - Tommaso Guizzardi, Lavoro: Yes but the buffer is still here

17/10/23, 23:41 - Razvan Voicu: Of course, because the pick order was canceled and so was its transport order

17/10/23, 23:42 - Tommaso Guizzardi, Lavoro: Can i re-create the order to take it in picking station?

17/10/23, 23:42 - Tommaso Guizzardi, Lavoro: Take*

17/10/23, 23:42 - Razvan Voicu: I did it

17/10/23, 23:42 - Razvan Voicu: here

17/10/23, 23:43 - Razvan Voicu: IMG-20231017-WA0019.jpg (file allegato)

17/10/23, 23:43 - Razvan Voicu: but now it will pick from 85506520 not from the one from buffer

17/10/23, 23:43 - Razvan Voicu: from buffer*

17/10/23, 23:43 - Razvan Voicu: this is how Wamas strategy decided

17/10/23, 23:44 - Razvan Voicu: Ok so now everything is ok

17/10/23, 23:46 - Tommaso Guizzardi, Lavoro: Sorry but now the pallet on the buffer hasn't got any transport order

17/10/23, 23:50 - Tommaso Guizzardi, Lavoro: Now is okay

17/10/23, 23:52 - Tommaso Guizzardi, Lavoro: But it's not going away

17/10/23, 23:58 - Support Technician 10: It's delegated to the controller when it can be moved it will be moved it doesn't have any waiting reasons

18/10/23, 00:02 - Support Technician 10: Now the pallet is moving

18/10/23, 00:04 - Tommaso Guizzardi, Lavoro: Perfect

18/10/23, 00:04 - Tommaso Guizzardi, Lavoro: Thank you very much

18/10/23, 00:54 - Tommaso Guizzardi, Lavoro: IMG-20231018-WA0000.jpg (file allegato)

Here we go again

18/10/23, 01:29 - Support Technician 10: Can you check if 51983920 is on IPF01C1261

18/10/23, 01:30 - Tommaso Guizzardi, Lavoro: Yes it is

18/10/23, 01:33 - Tommaso Guizzardi, Lavoro: Before that pallet there was another one that wasn't moving, so I checked on sm023 and I didn't find it So I canceled the pallet from mf266 and take it away physically, so all started moving.

18/10/23, 01:34 - Tommaso Guizzardi, Lavoro: Then this one is still stopped on ipf01c1261

18/10/23, 01:52 - Support Technician 10: Can you take that pallet off from that position I am going to cancel it too

18/10/23, 01:52 - Tommaso Guizzardi, Lavoro: Okay, just a moment

18/10/23, 01:54 - Tommaso Guizzardi, Lavoro: Done

18/10/23, 01:55 - Support Technician 10: I saw what was the problem but I don't understand how it got to that point i-am going to open a ticket for analysis

18/10/23, 01:55 - Tommaso Guizzardi, Lavoro: Thank you

18/10/23, 01:56 - Support Technician 10: Now it seems that the system is working

18/10/23, 02:10 - Tommaso Guizzardi, Lavoro: Yes

18/10/23, 03:37 - Tommaso Guizzardi, Lavoro: IMG-20231018-WA0001.jpg (file allegato)

I'm having another problem.. all the picking stations are waiting for their pallet in the buffer, but this one is not moving, from mf200 the reason is "WAIT_FOR_SCAN"

18/10/23, 03:37 - Tommaso Guizzardi, Lavoro: This is happening in every picking station

18/10/23, 05:06 - Nicola Bernardi: All picking stations are locked, please check the issue, the ticket is 01323403

18/10/23, 05:09 - Support Technician 10: Can you check what pallet is on IPF01C1261

18/10/23, 05:10 - Nicola Bernardi: It is a F pallet (80x120) with material on it UDC 51449177

18/10/23, 05:14 - Support Technician 10: Now everything will start to work

again

18/10/23, 05:15 - Support Technician 10: Can you confirm when possible
18/10/23, 05:18 - Nicola Bernardi: Yes, now it's working, but the wuzzi still don't work
18/10/23, 05:19 - Nicola Bernardi: IMG-20231018-WA0002.jpg (file allegato)
18/10/23, 05:26 - Support Technician 10: Can you tell me on what conveyor is 51449177
18/10/23, 05:27 - Nicola Bernardi: IMG-20231018-WA0003.jpg (file allegato)
18/10/23, 05:30 - Support Technician 10: Can you push it to 137?
18/10/23, 05:35 - Support Technician 10: Can you check on 115 and confirm de error
18/10/23, 05:45 - Support Technician 10: Now is everything ok?
18/10/23, 05:45 - Nicola Bernardi: More or less 🤔
18/10/23, 05:46 - Support Technician 10: I hope is more then less 😊😊
18/10/23, 05:46 - Nicola Bernardi: Thx
18/10/23, 06:08 - Nicola Bernardi: The same pallet UDC 51449177 now on cu 125 is blocked
18/10/23, 06:08 - Nicola Bernardi: IMG-20231018-WA0004.jpg (file allegato)
18/10/23, 06:08 - Nicola Bernardi: On wamas this pallet have 2 type of material on it, the real material and a stack of pallet B
18/10/23, 06:09 - Nicola Bernardi: But I can't delete the stack on it
18/10/23, 06:10 - Support Technician 10: So can I delete the stack?
18/10/23, 06:11 - Nicola Bernardi: Yes pleaseeeee ☐☐
18/10/23, 06:22 - Support Technician 10: Done
18/10/23, 07:01 - Nicola Bernardi: On all buffer of picking station we have pallet stuck, we just checked the one in BP09 BUFF* and it is there from long time
18/10/23, 07:01 - Nicola Bernardi: Can you check?
18/10/23, 07:02 - Nicola Bernardi: And I have picking station 1 locked for a terminated order
18/10/23, 07:03 - Nicola Bernardi: Picking station 2 locked for the issue of BUFFER
18/10/23, 07:24 - Support Technician 10: Can you check buffer 1 and 2 it seems that is an error
18/10/23, 07:27 - Support Technician 10: And can you tell me if there are pallets and if yes the lu id
18/10/23, 07:29 - Nicola Bernardi: On lighthouse there isn't pallet on cu but the pallet is on it (on buff 1 and 2)
18/10/23, 07:29 - Nicola Bernardi: IMG-20231018-WA0009.jpg (file allegato)
18/10/23, 07:29 - Nicola Bernardi: IMG-20231018-WA0010.jpg (file allegato)
18/10/23, 07:30 - Nicola Bernardi: Buffer 1
18/10/23, 07:30 - Nicola Bernardi: IMG-20231018-WA0011.jpg (file allegato)
18/10/23, 07:30 - Support Technician 10: Can you confirm de error on buffer
18/10/23, 07:30 - Nicola Bernardi: IMG-20231018-WA0012.jpg (file allegato)
18/10/23, 07:30 - Nicola Bernardi: Buffer 2
18/10/23, 07:30 - Nicola Bernardi: Yes I try
18/10/23, 07:31 - Nicola Bernardi: IMG-20231018-WA0013.jpg (file allegato)
18/10/23, 07:31 - Nicola Bernardi: Nothing happens
18/10/23, 07:32 - Support Technician 10: Ok
18/10/23, 07:51 - Nicola Bernardi: Can I send the pallet on picking station 1 on MAV?
18/10/23, 07:52 - Support Technician 10: Yes
18/10/23, 07:53 - Nicola Bernardi: On picking station 2 can I send pallet?
18/10/23, 08:26 - Support Technician 10: Is everything ok now?
18/10/23, 08:29 - Nicola Bernardi: IMG-20231018-WA0014.jpg (file allegato)
18/10/23, 08:29 - Nicola Bernardi: IMG-20231018-WA0015.jpg (file allegato)
18/10/23, 08:29 - Nicola Bernardi: IMG-20231018-WA0016.jpg (file allegato)
18/10/23, 08:30 - Nicola Bernardi: The pallet is still there
18/10/23, 08:31 - Nicola Bernardi: IMG-20231018-WA0017.jpg (file allegato)
18/10/23, 08:42 - Support Technician 10: We sent the pallet in hbw
18/10/23, 08:42 - Support Technician 10: Now everything should be fine
18/10/23, 08:45 - Benedetta Zini: We are going to check
18/10/23, 08:55 - Adrian Cindea: 51983920 at IPF01C1261 generated to issue for all pallets in buffer

18/10/23, 08:56 - Adrian Cindea: after it was booked to LOST_AND_FOUND , issue was solved

18/10/23, 08:56 - Adrian Cindea: BUFFER09 - TPO was deleted by us yesterday and recreated today and buffer was released ...

18/10/23, 08:57 - Adrian Cindea: 51983920 not clear what happened with it exactly in this moment (maybe manual intervention on your side and manual handling on our side to solve the issue ... but no clear yet)

18/10/23, 11:26 - Benedetta Zini: Hi, I'm testing issue N29 but no inspection orders are created... They are in status new and I don't remember how it is work. Can someone help me?

18/10/23, 11:26 - Benedetta Zini: IMG-20231018-WA0018.jpg (file allegato)

18/10/23, 11:27 - Benedetta Zini: IMG-20231018-WA0019.jpg (file allegato)

pick station #2 is in Inspection gtp

18/10/23, 11:27 - Adrian Cindea: normally it is needed release

18/10/23, 11:27 - Benedetta Zini: okay, but if I do right click, there isn't release option

18/10/23, 11:28 - Benedetta Zini: IMG-20231018-WA0020.jpg (file allegato)

18/10/23, 11:29 - Benedetta Zini: If I click on "assign user" it goes in error

18/10/23, 11:29 - Benedetta Zini: IMG-20231018-WA0021.jpg (file allegato)

18/10/23, 15:20 - Chiara Lodesani, Lavoro: Hi, can you check the ticket 01323575 please?

18/10/23, 15:26 - Chiara Lodesani, Lavoro: I would try to test issue L23 on work station BP12

18/10/23, 15:39 - Support Technician 7: Hi, what happened with ticket 01323575? Is everything working now?

18/10/23, 15:41 - Chiara Lodesani, Lavoro: It's all ok with ticket 01323575.

18/10/23, 15:43 - Chiara Lodesani, Lavoro: Now I would try to test the issue L23, we spoke about it in some emails some days ago..

18/10/23, 15:47 - Chiara Lodesani, Lavoro: I have assigned to work station BP12 the unpick order 51327702 that was inside a blocked stacker crane (#11). when I unblocked the stacker crane, the unpick order hasn't been assigned to the work station and now it rests in state 'Active'..

18/10/23, 15:47 - Chiara Lodesani, Lavoro: IMG-20231018-WA0022.jpg (file allegato)

18/10/23, 15:53 - Support Technician 7: Please give me a moment

18/10/23, 16:23 - Support Technician 7: BP12 station has picking station kind "normal" and item "ATLA6IM" is "EXTRA-SIZE". That means that unpick order cannot be assigned to work station

18/10/23, 16:25 - Support Technician 7: To reset an active unpick order to new we should have the following:

- unpick order should be assigned to a station
- sourceLU should have transport order
- source location should have a MFS Block

18/10/23, 16:26 - Chiara Lodesani, Lavoro: Ok, I'll try with an unpick order with kind 'normal'

18/10/23, 16:36 - Adrian Cindea: the test is not conclusive

18/10/23, 16:36 - Adrian Cindea: the idea is ...

18/10/23, 16:41 - Adrian Cindea: 1. Unpick must be assigned to station (otherwise no need to touch it)

18/10/23, 16:41 - Adrian Cindea: 2. After it is assigned a TPO is created to move LU to station

18/10/23, 16:42 - Adrian Cindea: 3. Block in this moment before to be put on fork or on fork

18/10/23, 16:42 - Adrian Cindea: 4. Unpick order is reset to new <Questo messaggio è stato modificato>

18/10/23, 16:42 - Adrian Cindea: -----

18/10/23, 16:42 - Adrian Cindea: now crane is blocked -> nothing is assigned to station .. unpick orders are in active waiting for crane availability ... <Questo messaggio è stato modificato>

18/10/23, 16:44 - Adrian Cindea: when unpick order is assigned to a station, that station is affected and this unpick order if LU is blocked has to be reset to new ... to be able to assign another unpick order from available cranes

18/10/23, 16:46 - Adrian Cindea: the idea is to reset unpick order which blocked the station because crane is blocked

18/10/23, 16:47 - Adrian Cindea: if it is possible to have an issue in the software ... but it is important to clarify L23 behavior
18/10/23, 16:49 - Chiara Lodesani, Lavoro: Ok
18/10/23, 16:50 - Adrian Cindea: normally for example you started 3 unpick orders (crane 11:1 - assigne to station and crane 12:2,3) but there is some transport orders on crane 11 before to execute tpo for unpick and crane is stopped. <Questo messaggio è stato modificato>
18/10/23, 16:51 - Adrian Cindea: you blocked the crane and before CR ... station remains blocked too .. 2 and 3 are not executed becuse 1 is not finished
18/10/23, 16:51 - Adrian Cindea: the goal is to reset unpick order 1 to new to be able to make unpick orders 2 and 3 <Questo messaggio è stato modificato>
18/10/23, 16:52 - Adrian Cindea: please let us know your feedback about goal of change
18/10/23, 16:52 - Adrian Cindea: maybe we have another idea
18/10/23, 16:53 - Adrian Cindea: you know better than us the situation ...
18/10/23, 16:53 - Chiara Lodesani, Lavoro: Ok, thank you for explanation. I'll think about it and I'll test it better.. and then I'll tell you
18/10/23, 16:53 - Adrian Cindea: please let us know your idea .., in case there are other cases ... you feel better than us the system using daily <Questo messaggio è stato modificato>
18/10/23, 17:00 - Chiara Lodesani, Lavoro: I have just done a test with unpick order 51327661 and It works like we want. I need to test another case but I can't now... we will let you know as soon as possible
19/10/23, 09:54 - Chiara Lodesani, Lavoro: Hi @Support Technician 12, I have just done some others tests about L23. It works well, so I'll mark L23 as solved. Thank you!
19/10/23, 10:25 - Adrian Cindea: thx for feedback
20/10/23, 04:56 - Nicola Bernardi: We are open a ticket for a problem with order on picking station, can you check it?
20/10/23, 04:56 - Nicola Bernardi: 01323899 this is the ticket
20/10/23, 04:57 - Support Technician 10: I am checking it
20/10/23, 04:57 - Nicola Bernardi ha aggiunto Alex Ardilli, Personale.
20/10/23, 05:01 - Support Technician 10: Can you tell what is 44135 ? it's in the ticket as an example
20/10/23, 05:01 - Nicola Bernardi: It's a order
20/10/23, 05:01 - Nicola Bernardi: Example
20/10/23, 05:02 - Nicola Bernardi: This is the ticket
20/10/23, 05:04 - Support Technician 10: What kind of order I am not finding it
20/10/23, 05:44 - Support Technician 10: Hello this seems to be a problem of priority if you want more orders like that you need to change the priority of the pplu to a higher number order 48021 is a picking order now
20/10/23, 05:45 - Support Technician 10: And when the station când get more orders the first orders to try to assign to them will be the one with the higher priority
20/10/23, 05:57 - Support Technician 10: Now the order *44135 is in the pool(I increased the priority to 9) but it can't be satisfied cause no source lu was found
20/10/23, 06:20 - Nicola Bernardi: The issue is the pool order on OG039, the order on OG025 don't go on the previous page(OG039)
20/10/23, 06:34 - Nicola Bernardi: Now on OG039 we have only 9 order
20/10/23, 06:41 - Nicola Bernardi: We have only 3 picking station with materials now
20/10/23, 06:46 - Support Technician 10: Ok the problem seems to be that the pplu is the OG025 are for extra size can you change the clamp to extra size on the stations with no order
20/10/23, 06:52 - Support Technician 10: The fact that we got the stations in picking station kind in normal and express curier and not in extra size is the problem if you check the og039 you will see that the stations that are in extra size ex 7,9 are getting orders because we got mostly only pplus for extra size
20/10/23, 06:54 - Nicola Bernardi: I can't, we have all clamp of extra size on picking stations
20/10/23, 06:55 - Support Technician 10: It's the same problem like in case 01321803
20/10/23, 06:55 - Support Technician 10: The solution is either to bring the

necessary stock for the other types of orders or to change the stations type
20/10/23, 06:55 - Nicola Bernardi: But the picking stations extra size (4,6,7 and 9) not working continuously
20/10/23, 06:57 - Nicola Bernardi: I understand ▯
20/10/23, 06:57 - Support Technician 10: Pick station 7 and 9 are getting the orders from og025 they got at the sources 2+ orders at the same time and the rest of the pallets are getting at the station
20/10/23, 06:58 - Support Technician 10: I can't do much from my side in this kind of problems
20/10/23, 07:07 - Support Technician 10: Can I close the ticket?
20/10/23, 07:07 - Nicola Bernardi: My colleague will check the situation and will write you
20/10/23, 07:07 - Support Technician 10: Ok
20/10/23, 07:07 - Nicola Bernardi: Please can you wait a minute?
20/10/23, 07:10 - Stefano Dall'Asta, Personale: I am checking the situation
20/10/23, 07:30 - Support Technician 10: I-am waiting for the response
20/10/23, 07:30 - Support Technician 10: No problem
20/10/23, 07:40 - Support Technician 10: The orders are at 35 now
20/10/23, 07:44 - Adrian Cindea: @Company Employee 11 please let us know to proceed related to manage properly PPLUs vs Picking orders vs workstations mode <Questo messaggio è stato modificato>
20/10/23, 07:45 - Adrian Cindea: CR07 was rejected and the same issue is reported again
20/10/23, 07:46 - Adrian Cindea: we dont know how to proceed ... it seems a handling/understanding issue .. system works as it was designed
20/10/23, 07:49 - Adrian Cindea: + plus management of workstations related to open PPLU kind(extra size, normal, express courier) <Questo messaggio è stato modificato>
20/10/23, 07:50 - Adrian Cindea: the same topic was reported by me ... related to management of workstations vs PPLUs kind
20/10/23, 07:59 - Stefano Dall'Asta, Personale: I think now everything is fine.
20/10/23, 08:00 - Support Technician 10: Ok I will close the ticket then
20/10/23, 08:00 - Stefano Dall'Asta, Personale: We had a lot of orders that weren't launched
20/10/23, 08:01 - Adrian Cindea: yes becasue now there is workload (PPLUs with stock) for all stations ... but in the morning there were EXTRA-SIZE workload and a very few NORMAL workload -> NORMAL stations remaining without pallets. <Questo messaggio è stato modificato>
23/10/23, 09:31 - Benedetta Zini: good morning, the deploy list is the same as last week, isn't it?
23/10/23, 09:32 - Adrian Cindea: yes
23/10/23, 12:29 - Adrian Cindea: we are ready for deploy, waiting your feedback
23/10/23, 12:31 - Benedetta Zini: I set AgvDisable = true, I'm going to inform you as soon as there aren't AGVs' missions
23/10/23, 12:37 - Benedetta Zini: You can start with deploy on prod
23/10/23, 12:37 - Adrian Cindea: k
23/10/23, 12:37 - Benedetta Zini: Please tell me when deploy is over
23/10/23, 13:04 - Benedetta Zini: are you checking?
23/10/23, 13:05 - Adrian Cindea: yes
23/10/23, 13:08 - Adrian Cindea: deploy was done
23/10/23, 13:08 - Adrian Cindea: please check the system
23/10/23, 13:17 - Benedetta Zini: Report as full parameters?
23/10/23, 13:21 - Benedetta Zini: IMG-20231023-WA0000.jpg (file allegato)
I don't have it...
23/10/23, 13:22 - Benedetta Zini: IMG-20231023-WA0000.jpg (file allegato)
also this one
23/10/23, 13:24 - Adrian Cindea: both are visible now
23/10/23, 13:24 - Adrian Cindea: make a regresh
23/10/23, 13:26 - Benedetta Zini: okay now we can see them
23/10/23, 13:26 - Benedetta Zini: thanks
23/10/23, 13:57 - Adrian Cindea: please let us know the current status?
23/10/23, 13:58 - Adrian Cindea: it is important to be able to run firstly daily bussiness
23/10/23, 13:58 - Adrian Cindea: later on .. new software changes ...

23/10/23, 13:58 - Benedetta Zini: So fare everything is okay
 23/10/23, 13:58 - Benedetta Zini: Yes sure
 23/10/23, 14:23 - Tommaso Guizzardi, Lavoro: IMG-20231023-WA0001.jpg (file allegato)
 23/10/23, 14:24 - Tommaso Guizzardi, Lavoro: We are in this situation, right now
 23/10/23, 14:24 - Tommaso Guizzardi, Lavoro: Can you check asap?
 23/10/23, 14:30 - Benedetta Zini: Please could you please check what are happening in F01?
 23/10/23, 14:31 - Benedetta Zini: IMG-20231023-WA0002.jpg (file allegato)
 23/10/23, 14:35 - Benedetta Zini: VID-20231023-WA0003.mp4 (file allegato)
 23/10/23, 14:38 - Benedetta Zini: can it be this problem again?
 23/10/23, 14:38 - Benedetta Zini: 🤔🤔🤔
 23/10/23, 14:43 - Benedetta Zini: now I'm opening a ticket...
 23/10/23, 14:46 - Adrian Cindea: it is solved for the moment
 23/10/23, 14:46 - Benedetta Zini: Thank you
 23/10/23, 14:46 - Adrian Cindea: it seems garbage data ...
 23/10/23, 14:46 - Benedetta Zini: Meaning what?
 23/10/23, 14:46 - Adrian Cindea: IMG-20231023-WA0005.jpg (file allegato)
 23/10/23, 14:47 - Adrian Cindea: it was an error in that area
 23/10/23, 14:47 - Adrian Cindea: after deploy was finished
 23/10/23, 14:47 - Adrian Cindea: please check this part of conveyor
 23/10/23, 14:47 - Benedetta Zini: Yes immediately
 23/10/23, 14:47 - Adrian Cindea: and let us know if there are something in that point
 23/10/23, 14:48 - Tommaso Guizzardi, Lavoro: Ok we are cecking
 23/10/23, 14:48 - Benedetta Zini: Thank you
 23/10/23, 14:48 - Tommaso Guizzardi, Lavoro: IMG-20231023-WA0006.jpg (file allegato)
 23/10/23, 14:48 - Tommaso Guizzardi, Lavoro: IMG-20231023-WA0007.jpg (file allegato)
 23/10/23, 14:53 - Tommaso Guizzardi, Lavoro: It's beginning again
 23/10/23, 14:53 - Benedetta Zini: IMG-20231023-WA0008.jpg (file allegato)
 23/10/23, 14:53 - Tommaso Guizzardi, Lavoro: Now the stack is blocked here
 23/10/23, 14:54 - Tommaso Guizzardi, Lavoro: IMG-20231023-WA0009.jpg (file allegato)
 23/10/23, 14:54 - Tommaso Guizzardi, Lavoro: Now all okay
 23/10/23, 14:55 - Adrian Cindea: pls put a new pallet on this infeed lini
 23/10/23, 14:55 - Adrian Cindea: 1st (bottom line) from picture
 23/10/23, 14:55 - Adrian Cindea: at line with problems
 23/10/23, 14:59 - Benedetta Zini: IMG-20231023-WA0010.jpg (file allegato)
 23/10/23, 15:01 - Benedetta Zini: there is something wrong at infeed line
 23/10/23, 15:02 - Tommaso Guizzardi, Lavoro: IMG-20231023-WA0011.jpg (file allegato)
 All the pallets are blocking here every time
 23/10/23, 15:03 - Support Technician 23: please infeed some slaved pallets also on the 2nd line
 23/10/23, 15:05 - Benedetta Zini: now we are going to load slaved pallets on CU071
 23/10/23, 15:10 - Tommaso Guizzardi, Lavoro: Done
 23/10/23, 15:12 - Benedetta Zini: Can we try with CU011?
 23/10/23, 15:22 - Benedetta Zini: @Support Technician 23
 23/10/23, 15:22 - Benedetta Zini: ??
 23/10/23, 15:22 - Support Technician 23: please wait
 23/10/23, 15:22 - Support Technician 23: we'll let you know
 23/10/23, 15:24 - Benedetta Zini: okay thanks
 23/10/23, 16:15 - Adrian Cindea: please infeed only on second line (not on 1st line)
 23/10/23, 16:15 - Adrian Cindea: it is needed a fix with deploy tomorrow for it
 23/10/23, 16:18 - Benedetta Zini: we have another problem... with discharge
 23/10/23, 16:20 - Adrian Cindea: what is the issue?
 23/10/23, 16:20 - Benedetta Zini: IMG-20231023-WA0015.jpg (file allegato)
 I want discharge all quantity on LU 51979613... I click "OK"
 23/10/23, 16:20 - Benedetta Zini: IMG-20231023-WA0016.jpg (file allegato)
 error message appear

23/10/23, 16:21 - Adrian Cindea: give is the luid
23/10/23, 16:22 - Adrian Cindea: rollback?
23/10/23, 16:22 - Benedetta Zini: 51979613
23/10/23, 16:22 - Adrian Cindea: my idea is to make rollback and to split the pack
23/10/23, 16:23 - Adrian Cindea: wait to change smt
23/10/23, 16:23 - Benedetta Zini: I'm agree with you to split the pack... I asked you some weeks ago to split the deploy pack 🤔
23/10/23, 16:24 - Adrian Cindea: rollback ...
23/10/23, 16:24 - Adrian Cindea: pls inform and set agvs ...
23/10/23, 16:24 - Benedetta Zini: How does it take you to do the rollback?
23/10/23, 16:24 - Benedetta Zini: one min I have to ask to Logistics manager
23/10/23, 16:25 - Adrian Cindea: about 20-30 minutes
23/10/23, 16:30 - Benedetta Zini: in 5 minutes I'm going to set agvDisable = true
23/10/23, 16:30 - Benedetta Zini: then I will tell you when you can procede with rollback...
23/10/23, 16:39 - Benedetta Zini: I set agvDisable = true
23/10/23, 16:45 - Benedetta Zini: I have to send an email for discharge problem or you are checking?
23/10/23, 16:45 - Adrian Cindea: we will check it
23/10/23, 16:47 - Adrian Cindea: ready to start?
23/10/23, 16:48 - Benedetta Zini: yes
23/10/23, 16:48 - Benedetta Zini: you can proceed
23/10/23, 16:49 - Benedetta Zini: please let us know when deploy is over
23/10/23, 16:49 - Benedetta Zini: because we have trucks to load
23/10/23, 16:49 - Adrian Cindea: k
23/10/23, 17:04 - Adrian Cindea: deploy is almost done
23/10/23, 17:04 - Adrian Cindea: checking ...
23/10/23, 17:04 - Benedetta Zini: okay
23/10/23, 17:23 - Chiara Lodesani, Lavoro: Can you unblocked the work station 09, please? we have tried to test D158 but it doesn't work and the result is the block of the work station
23/10/23, 17:29 - Chiara Lodesani, Lavoro: I have already sent an email about it
23/10/23, 17:30 - Support Technician 15: yes, we are checking it
23/10/23, 17:30 - Chiara Lodesani, Lavoro: ok, thank you
23/10/23, 17:32 - Adrian Cindea: no data on the screen?
23/10/23, 17:33 - Chiara Lodesani, Lavoro: I'm checking
23/10/23, 17:36 - Chiara Lodesani, Lavoro: IMG-20231023-WA0017.jpg (file allegato)
It works, thanks
23/10/23, 17:36 - Adrian Cindea: pls proceed
23/10/23, 17:38 - Chiara Lodesani, Lavoro: done
23/10/23, 17:40 - Chiara Lodesani, Lavoro: please, check the patch. In this special case we have asked that the all order was replanned
23/10/23, 17:41 - Adrian Cindea: patch had an issue
23/10/23, 17:42 - Chiara Lodesani, Lavoro: ok
03/11/23, 17:33 - Support Technician 7: Hello
03/11/23, 17:34 - Chiara Lodesani, Lavoro: Hi
03/11/23, 17:34 - Support Technician 7: I finished adding the LUs from ticket 01326570
03/11/23, 17:34 - Support Technician 7: Can you check and send me some feedback?
03/11/23, 17:34 - Chiara Lodesani, Lavoro: yes, I will check
03/11/23, 17:36 - Chiara Lodesani, Lavoro: All is ok! good👍
03/11/23, 17:37 - Chiara Lodesani, Lavoro: thank you!
03/11/23, 17:37 - Support Technician 7: Awesome! I will close the ticket, have a nice evening
03/11/23, 17:37 - Chiara Lodesani, Lavoro: you too
08/11/23, 13:15 - Razvan Voicu: @Company Employee 9 can you try again to discharge the LU?
08/11/23, 14:33 - Chiara Lodesani, Lavoro: Now it has worked. Thank you
13/11/23, 11:05 - Benedetta Zini: Hello, at 12:40 I'm going to set agvDisable = true
13/11/23, 11:21 - Benedetta Zini: sorry at 12:30

13/11/23, 12:30 - Benedetta Zini: I set agvDisable = true
 13/11/23, 12:36 - Support Technician 7: Did you set srmMaintenanceAccessBlock = false?
 13/11/23, 12:36 - Benedetta Zini: what is it?
 13/11/23, 12:36 - Benedetta Zini: it is set false
 13/11/23, 12:37 - Benedetta Zini: No more missions for AGVs, you can start with deploy
 13/11/23, 12:38 - Support Technician 7: Ok, we start now
 13/11/23, 13:11 - Benedetta Zini: How is it going?
 13/11/23, 13:16 - Benedetta Zini: Everything okay?
 13/11/23, 13:17 - Support Technician 10: Yes we are doing the final verifications
 13/11/23, 13:21 - Benedetta Zini: Please write me as soon as you finish final verifications
 13/11/23, 13:27 - Support Technician 7: We are done
 13/11/23, 13:40 - Benedetta Zini: Okay thank you
 13/11/23, 13:42 - Benedetta Zini: Could you please check
 13/11/23, 13:42 - Benedetta Zini: IMG-20231113-WA0003.jpg (file allegato)
 13/11/23, 13:42 - Benedetta Zini: CU149
 13/11/23, 13:43 - Benedetta Zini: IMG-20231113-WA0005.jpg (file allegato)
 13/11/23, 13:43 - Benedetta Zini: CU031
 13/11/23, 13:46 - Benedetta Zini: Could you please check ASAP why these pallet do not move?
 13/11/23, 13:46 - Benedetta Zini: IMG-20231113-WA0004.jpg (file allegato)
 13/11/23, 13:47 - Benedetta Zini: We have a problem in manual area with terminal
 13/11/23, 13:48 - Benedetta Zini: Users are kick out of terminal
 13/11/23, 13:48 - Support Technician 7: Is the problem from infeed still active?
 13/11/23, 13:50 - Chiara Lodesani, Lavoro: No, now the infeed lines are ok
 13/11/23, 13:50 - Benedetta Zini: So far manual area seems working
 13/11/23, 13:54 - Benedetta Zini: IMG-20231113-WA0006.jpg (file allegato)
 13/11/23, 13:55 - Benedetta Zini: what is the problem?
 13/11/23, 14:07 - Support Technician 7: Do you still have problems?
 13/11/23, 14:07 - Benedetta Zini: So far no
 13/11/23, 14:07 - Benedetta Zini: 🙏🙏
 13/11/23, 14:08 - Support Technician 7: Now, everything should work fine
 13/11/23, 17:14 - Benedetta Zini: <Media omessi>
 13/11/23, 17:15 - Benedetta Zini: we have this problem.... also at picking station when user try to release pallet and declare Whole LU
 13/11/23, 17:15 - Benedetta Zini: error message "Invalid table or column name"
 13/11/23, 17:18 - Support Technician 10: Can you open a ticket I am connecting to check the situation
 13/11/23, 17:18 - Benedetta Zini: even if it is related to today deploy?
 13/11/23, 17:28 - Support Technician 10: So when you try to create an heriarhical lu you get this error?
 13/11/23, 17:29 - Support Technician 10: Or in witch dialog you get this I am not sure from the video or pres on the details so I can see the error
 13/11/23, 17:31 - Support Technician 10: On the logs I don't see any error so that is why I am asking
 13/11/23, 17:35 - Benedetta Zini: OG116
 13/11/23, 17:35 - Benedetta Zini: But we tried with bzini1 and clodesani1 and it works
 13/11/23, 17:35 - Support Technician 10: Ok that is weird
 13/11/23, 17:35 - Benedetta Zini: yes
 13/11/23, 17:36 - Benedetta Zini: Sorry OG501
 13/11/23, 17:37 - Support Technician 10: Can you do it with the user that got the error and pres on the details
 13/11/23, 17:37 - Benedetta Zini: I will give you the user
 13/11/23, 17:37 - Support Technician 10: Ok
 13/11/23, 17:38 - Benedetta Zini: Hai eliminato questo messaggio.
 13/11/23, 17:39 - Benedetta Zini: pl91
 13/11/23, 17:39 - Benedetta Zini: pl73
 13/11/23, 17:39 - Benedetta Zini: for these users appeared error message
 13/11/23, 17:41 - Benedetta Zini: Now pick station 4 is blocked
 13/11/23, 17:41 - Benedetta Zini: due to error message

13/11/23, 17:43 - Benedetta Zini: plcparto1
13/11/23, 17:43 - Support Technician 10: Can you press details button and send me the error
13/11/23, 17:47 - Benedetta Zini: IMG-20231113-WA0013.jpg (file allegato)
13/11/23, 17:50 - Support Technician 10: Ok this helps a lot
13/11/23, 17:58 - Benedetta Zini: IMG-20231113-WA0016.jpg (file allegato)
13/11/23, 17:58 - Benedetta Zini: this is when user try to release pallet from source of pick stations
13/11/23, 17:59 - Support Technician 10: Can you restart the dialog
13/11/23, 17:59 - Benedetta Zini: whereas this is when user try to split master from slaved pallet
13/11/23, 17:59 - Benedetta Zini: okay
13/11/23, 18:08 - Adrian Cindea: Pls check software version
13/11/23, 18:08 - Adrian Cindea: It seems station has no last version
13/11/23, 18:08 - Adrian Cindea: We renamed a column from picweight to pieceweight ... to be correct written <Questo messaggio è stato modificato>
13/11/23, 18:09 - Benedetta Zini: Also for me... I asked to restart pc...
13/11/23, 18:09 - Adrian Cindea: This is the issue
13/11/23, 18:11 - Benedetta Zini: Okay I retry again and I will let you know
13/11/23, 18:11 - Benedetta Zini: thanks for checking
13/11/23, 18:15 - Benedetta Zini: IMG-20231113-WA0020.jpg (file allegato)
13/11/23, 18:16 - Benedetta Zini: It seems that it has the correct version
13/11/23, 18:17 - Support Technician 10: And it doesn't work?
13/11/23, 18:18 - Benedetta Zini: IMG-20231113-WA0023.jpg (file allegato)
13/11/23, 18:18 - Benedetta Zini: this is pick station 8 and it works
13/11/23, 18:19 - Benedetta Zini: which is the last version? R202311101505, right?
13/11/23, 18:20 - Support Technician 10: Yea this is the latest version
13/11/23, 18:20 - Benedetta Zini: okay perfect
13/11/23, 18:20 - Adrian Cindea: Great ... old habits died hard
13/11/23, 18:21 - Benedetta Zini: don't get involved too 😊
13/11/23, 18:21 - Adrian Cindea: 1st step of deploy ...
13/11/23, 18:21 - Benedetta Zini: I know... I told guys today 😊
13/11/23, 18:21 - Adrian Cindea: It is possible to be checked by us
13/11/23, 18:22 - Benedetta Zini: We are checking one pick station at time
13/11/23, 18:22 - Adrian Cindea: No other issues so far ...?
13/11/23, 18:22 - Adrian Cindea: Loading list looks fine?
13/11/23, 18:23 - Benedetta Zini: Yessss it works!
13/11/23, 18:24 - Benedetta Zini: yes exactly
13/11/23, 18:25 - Adrian Cindea: I personally tested entire deploy due to 2 unsuccess deploys but i am a human being too
13/11/23, 18:26 - Adrian Cindea: I am glad to hear system works normally ... production is not affected ... later on all changes work too
13/11/23, 18:28 - Benedetta Zini: I know I know... After today deploy I reminded guys to update WAMAS and I trust them...
13/11/23, 18:29 - Benedetta Zini: Me too
13/11/23, 19:01 - Benedetta Zini: IMG-20231113-WA0028.jpg (file allegato)
13/11/23, 19:02 - Support Technician 10: Close the dialog
13/11/23, 19:02 - Support Technician 10: And open it again
13/11/23, 19:11 - Benedetta Zini: it works again
13/11/23, 19:11 - Support Technician 10: If the error appears again just refresh the dialog but I shouldn't happen
13/11/23, 19:13 - Support Technician 10: I am gone close the ticket tomorrow now I will put it on hold
13/11/23, 19:22 - Benedetta Zini: okay thank you
27/11/23, 12:27 - Benedetta Zini: Hello, I set AgvDisable = true. I will let you know when you can start with deploy
27/11/23, 12:33 - Razvan Voicu: Ok
27/11/23, 12:35 - Benedetta Zini: You can start deploy
27/11/23, 12:36 - Adrian Cindea: Hello
27/11/23, 13:01 - Benedetta Zini: Please, write me as soon as deploy is finished and you check the system
27/11/23, 13:08 - Razvan Voicu: Deploy is done
27/11/23, 13:08 - Benedetta Zini: okay, so we can start using WAMAS again

27/11/23, 13:10 - Razvan Voicu: Yes
27/11/23, 13:10 - Razvan Voicu: Let us know if there are any problems
27/11/23, 13:11 - Benedetta Zini: yes sure
27/11/23, 13:11 - Benedetta Zini: deploy list:
1. R34
2. D158(CR 6. Allow pickers to increase stock (now they can decrease it only) during inventory (IT1400016-3818))
3. CR 7. When reporting damaged source LU, replacement loading unit is delivered to source position instead to destination position (IT1400016-3816)
4. Report as full CR: create 2 target empty requests
5. A136
27/11/23, 13:11 - Benedetta Zini: confirm?
27/11/23, 13:21 - Benedetta Zini: CR Report as full parameters? I haven't found them
27/11/23, 13:22 - Adrian Cindea: one minute
27/11/23, 13:28 - Adrian Cindea: com.wamas.mfs.core.common.ReportAsFull
27/11/23, 13:28 - Adrian Cindea: com.wamas.mfs.core.common.CompletionPercentage
27/11/23, 13:28 - Adrian Cindea: both are visible for you
28/11/23, 17:01 - Benedetta Zini: Hello!
28/11/23, 17:01 - Benedetta Zini: I need you help now 😊
28/11/23, 17:02 - Benedetta Zini: I was testing patch for D156 CR 7. When reporting damaged source LU, replacement loading unit is delivered to source position instead to destination position (IT1400016-3816) on pick station #4
28/11/23, 17:02 - Benedetta Zini: but now pick #4 is blocked
28/11/23, 17:02 - Benedetta Zini: could you please help me?
28/11/23, 17:03 - Benedetta Zini: WAMAS didn't create a TPO for pallet on target location (BP04 S*) and don't let user continue picking
28/11/23, 17:04 - Benedetta Zini: IMG-20231128-WA0003.jpg (file allegato)
28/11/23, 17:04 - Razvan Voicu: I will check
28/11/23, 17:04 - Benedetta Zini: It says to wait until it will be available a compatible empty pallet
28/11/23, 17:04 - Benedetta Zini: but no empty request is created on OG525
28/11/23, 17:04 - Benedetta Zini: thank you!
28/11/23, 17:05 - Benedetta Zini: Pick station #4
28/11/23, 17:05 - Benedetta Zini: I indicated as damaged source LU 51585999 on BP04 S01
28/11/23, 17:25 - Benedetta Zini: @Support Technician 21 any news?
28/11/23, 17:26 - Razvan Voicu: trying to set now the empty for the daamaged
28/11/23, 17:29 - Benedetta Zini: Hai eliminato questo messaggio.
28/11/23, 17:31 - Razvan Voicu: I don't think I can fix it from wamas
28/11/23, 17:31 - Benedetta Zini: Okay
28/11/23, 17:31 - Benedetta Zini: so we have to use empty pallet on destination?
28/11/23, 17:31 - Benedetta Zini: to replace damage source LU
28/11/23, 17:32 - Razvan Voicu: I think now it's up to you, if you can solve this
28/11/23, 17:32 - Razvan Voicu: because the replace damaged didn't work properly
28/11/23, 17:32 - Benedetta Zini: okay okay
28/11/23, 17:32 - Benedetta Zini: can I proceed?
28/11/23, 17:32 - Razvan Voicu: yes
28/11/23, 17:32 - Razvan Voicu: I log out from station no
28/11/23, 17:32 - Razvan Voicu: The station is unblocked
28/11/23, 17:32 - Benedetta Zini: okay, please stay here if something goes wrong 😊
28/11/23, 17:33 - Razvan Voicu: But the pallet with damaged LU I don't think was handled properly
28/11/23, 17:33 - Razvan Voicu: sure
28/11/23, 17:34 - Benedetta Zini: from WAMAS?
28/11/23, 17:34 - Razvan Voicu: yes
28/11/23, 17:34 - Razvan Voicu: we will check code tomorrow
28/11/23, 17:35 - Benedetta Zini: yes WAMAS didn't work correctly
28/11/23, 17:38 - Razvan Voicu: □
28/11/23, 17:38 - Razvan Voicu: seems like it
28/11/23, 17:39 - Razvan Voicu: So the pallet was sent back to HBW and the delivered quantity was decreased

28/11/23, 17:40 - Benedetta Zini: Yes because user "root" declare "finished" --> handle damaged source LU
28/11/23, 17:41 - Benedetta Zini: IMG-20231128-WA0004.jpg (file allegato)
28/11/23, 17:41 - Benedetta Zini: but on OG525 there is the empty request ...
28/11/23, 17:46 - Razvan Voicu: The empty request is for 4233497
28/11/23, 17:46 - Razvan Voicu: the next PO
28/11/23, 17:47 - Razvan Voicu: yes, my bad here, tried to edit the empty request to match the damaged
28/11/23, 17:52 - Razvan Voicu: Let me know if you stil need me
28/11/23, 17:52 - Benedetta Zini: I think everything is okay now
28/11/23, 17:53 - Benedetta Zini: you are free 😊
28/11/23, 17:53 - Benedetta Zini: thank you very much for your help
28/11/23, 17:53 - Razvan Voicu: Thank you
28/11/23, 17:53 - Razvan Voicu: We will come back tomorrow with an answer about this
28/11/23, 17:54 - Benedetta Zini: okay thank you
29/11/23, 12:04 - Chiara Lodesani, Lavoro: Hi, we have the work station #3 blocked because I have tried to test D158 but it doesn't work yet. I have already send an email. Can you unblocked the work station, please?
29/11/23, 13:13 - Adrian Cindea: hi
29/11/23, 13:14 - Adrian Cindea: please press the button as i said in email
29/11/23, 13:14 - Adrian Cindea: to release the pallet form station to make space for an emoty pallet to put 1 CAR on it
29/11/23, 13:14 - Adrian Cindea: 60684870 is circl yng on EMS(monorail)
29/11/23, 13:15 - Adrian Cindea: waiting for 93863869 to be moved out
29/11/23, 13:16 - Adrian Cindea: it is needed (missing specification, implementation) ...to inform operator to unblock the station presssing release button ... to make space in station
29/11/23, 13:18 - Adrian Cindea: now negative picking is working ... but operator is not informed to release the LU from station...
29/11/23, 13:21 - Adrian Cindea: pallet was release and empty pallet is in station ... please pick it ...
29/11/23, 13:26 - Adrian Cindea: what is current status at HBW03?
29/11/23, 13:42 - Adrian Cindea: negative picking was done
29/11/23, 13:42 - Adrian Cindea: partially it works ... because we tested it ... but it needs some adjustments
29/11/23, 14:37 - Chiara Lodesani, Lavoro: Now it works but not thanks to the button 'realese'.. I'll test it again
29/11/23, 14:37 - Adrian Cindea: no necessary
29/11/23, 14:38 - Adrian Cindea: there are sme issues to fix before
29/11/23, 14:38 - Chiara Lodesani, Lavoro: ok
01/12/23, 17:20 - Razvan Voicu: Hello
01/12/23, 17:20 - Razvan Voicu: Regarding CC15, it loads slowly probably because of big data in the DB. We contacted the database admin to take a look at DB
01/12/23, 17:21 - Razvan Voicu: meanwhile, do you have access to the MFS(ACX) application?
01/12/23, 17:21 - Benedetta Zini: I don't know what is it...
01/12/23, 17:22 - Razvan Voicu: IMG-20231201-WA0005.jpg (file allegato)
01/12/23, 17:22 - Razvan Voicu: This one
01/12/23, 17:23 - Benedetta Zini: mmh no
01/12/23, 17:24 - Benedetta Zini: But don't worry... for now we try to use CC015 (when we need it)
04/12/23, 09:27 - Benedetta Zini: Hello, we have a problem with orders approval since this morning
04/12/23, 09:30 - Adrian Cindea: hello
04/12/23, 09:30 - Adrian Cindea: what is the exactly the action
04/12/23, 09:31 - Adrian Cindea: please take care ... system started to complain about amout of data (see CC15 issue) ... <Questo messaggio è stato modificato>
04/12/23, 09:31 - Benedetta Zini: okay ... 😊
04/12/23, 09:31 - Adrian Cindea: it is possible to be related or not ...
04/12/23, 09:31 - Benedetta Zini: We are going to send you a picture
04/12/23, 09:32 - Adrian Cindea: please let us know what is exactly issue about orders approval
04/12/23, 09:32 - Chiara Lodesani, Lavoro: IMG-20231204-WA0001.jpg (file

allegato)

For example.. order ADBATLTL000077111 is in approval in progress..

04/12/23, 09:33 - Benedetta Zini: they don't change their status from "approval in progress" to "release for picking"

04/12/23, 09:36 - Benedetta Zini: ADBATLTL000077111 for example

04/12/23, 09:40 - Benedetta Zini: IMG-20231204-WA0002.jpg (file allegato)

04/12/23, 09:50 - Adrian Cindea: it is 90% right now ...

04/12/23, 09:51 - Adrian Cindea: and PPLUs are finished ...

04/12/23, 09:52 - Chiara Lodesani, Lavoro: yes

04/12/23, 11:13 - Benedetta Zini: We have more than 200 orders in status "approval in progress"

04/12/23, 11:14 - Benedetta Zini: Have you check all jobs? Is there any job blocked?

04/12/23, 11:28 - Benedetta Zini: Now we have problem during deposit in pViazza

04/12/23, 11:29 - Benedetta Zini: Could you please check what is happening?

04/12/23, 11:29 - Benedetta Zini: Thank you very much

04/12/23, 11:33 - Adrian Cindea: 4 PPLUs

04/12/23, 11:33 - Adrian Cindea: with status "Release in progress"

04/12/23, 11:33 - Adrian Cindea: for Release in progress

04/12/23, 11:35 - Chiara Lodesani, Lavoro: IMG-20231204-WA0003.jpg (file allegato)

We see 224 orders..

04/12/23, 11:52 - Benedetta Zini: Everything okay?

04/12/23, 11:55 - Benedetta Zini: We have slow down in TPOs

04/12/23, 12:03 - Adrian Cindea: release in progress: 184

04/12/23, 12:04 - Adrian Cindea: all whole LUs

04/12/23, 12:05 - Adrian Cindea: for picking LU kind all are released

04/12/23, 12:08 - Benedetta Zini: for pick are 45 pplu in release in progress

04/12/23, 12:08 - Benedetta Zini: yes

04/12/23, 12:08 - Adrian Cindea: they are changed ...

04/12/23, 12:30 - Chiara Lodesani, Lavoro: I set AgvDisable = true. we will let you know when you can start with deploy

04/12/23, 12:39 - Benedetta Zini: is there someone?

04/12/23, 12:39 - Adrian Cindea: yes

04/12/23, 12:39 - Adrian Cindea: let us know when to start

04/12/23, 12:43 - Benedetta Zini: we have to wait 10 minutes because production is not ready 🤖

04/12/23, 12:48 - Adrian Cindea: activity protokol has 161.857.823 rows ... i did not work with this high number of rows <Questo messaggio è stato modificato>

04/12/23, 12:49 - Benedetta Zini: oh....

04/12/23, 12:51 - Benedetta Zini: do you think this is the problem of today slow down?

04/12/23, 12:51 - Adrian Cindea: i dont know ... but some tables are huge

04/12/23, 12:51 - Adrian Cindea: and if the slowness will persist there is one solution

04/12/23, 12:51 - Adrian Cindea: to start to truncate data or to use slow

04/12/23, 12:52 - Benedetta Zini: yes...

04/12/23, 12:56 - Razvan Voicu: let us know when we can start deploy

04/12/23, 12:57 - Benedetta Zini: you can proceed

04/12/23, 12:58 - Benedetta Zini: you can start

04/12/23, 13:02 - Benedetta Zini: @Support Technician 21 ?

04/12/23, 13:02 - Benedetta Zini: 😊

04/12/23, 13:02 - Razvan Voicu: We start

04/12/23, 13:02 - Razvan Voicu: Sorry, forgot to confirm

04/12/23, 13:02 - Benedetta Zini: don't worry

04/12/23, 13:19 - Benedetta Zini: please let me know as soon as you finish to check the system

04/12/23, 13:25 - Benedetta Zini: ??

04/12/23, 13:26 - Benedetta Zini: Hai eliminato questo messaggio.

04/12/23, 13:26 - Benedetta Zini: everything okay?

04/12/23, 13:28 - Benedetta Zini: VID-20231204-WA0006.mp4 (file allegato)

04/12/23, 13:29 - Support Technician 10: Yes

04/12/23, 13:29 - Support Technician 10: Deploy is done

04/12/23, 13:33 - Support Technician 10: Can you check if everything is working?

04/12/23, 13:33 - Benedetta Zini: yes we are checking
04/12/23, 13:33 - Benedetta Zini: first for record 14 and 15
04/12/23, 13:34 - Benedetta Zini: and automatic area
04/12/23, 13:34 - Support Technician 10: Ok
04/12/23, 13:34 - Support Technician 10: Don't forget to restart the apps at the picking
04/12/23, 13:34 - Benedetta Zini: oh yessss 😊
04/12/23, 13:35 - Benedetta Zini: I have informed shift leader since this morning ☐
04/12/23, 13:35 - Support Technician 10: Ok
04/12/23, 13:42 - Benedetta Zini: we have a problem with orders
04/12/23, 13:43 - Benedetta Zini: we still have problem... could you please force the release?
04/12/23, 13:43 - Benedetta Zini: after deploy everything is okay, record 14 and 15 works
04/12/23, 13:44 - Benedetta Zini: no wait... we have a problem with mobile terminal
04/12/23, 13:46 - Benedetta Zini: IMG-20231204-WA0008.jpg (file allegato)
04/12/23, 13:46 - Benedetta Zini: pl29
pl50
04/12/23, 13:47 - Support Technician 10: I will check
04/12/23, 13:47 - Benedetta Zini: pl29
pl50
pl92
04/12/23, 13:47 - Benedetta Zini: thank you
04/12/23, 13:47 - Support Technician 10: The other ones work?
04/12/23, 13:47 - Benedetta Zini: so far yes
04/12/23, 13:47 - Benedetta Zini: these users are from manual area
04/12/23, 13:48 - Benedetta Zini: they are working in pViazza (picking)
04/12/23, 13:48 - Support Technician 10: Can they restart the application?
04/12/23, 13:48 - Benedetta Zini: I already told them to restart it
04/12/23, 13:48 - Benedetta Zini: and try again
04/12/23, 13:52 - Benedetta Zini: they don't work
04/12/23, 13:52 - Support Technician 10: Ok
04/12/23, 13:52 - Benedetta Zini: after restart
04/12/23, 13:53 - Benedetta Zini: is there anyone who are checking the release of orders?
04/12/23, 13:54 - Support Technician 10: We are looking into that too
04/12/23, 13:55 - Benedetta Zini: thank you
04/12/23, 14:02 - Support Technician 10: Can you give me the terminal name ?
04/12/23, 14:02 - Benedetta Zini: All pc in automatic area are blocked
04/12/23, 14:03 - Benedetta Zini: due to "error"
04/12/23, 14:03 - Benedetta Zini: IMG-20231204-WA0010.jpg (file allegato)
Baia 12
04/12/23, 14:04 - Benedetta Zini: where I have to check?
04/12/23, 14:05 - Benedetta Zini: we refresh the dialog and now it is okay
04/12/23, 14:06 - Support Technician 10: Ok
04/12/23, 14:08 - Support Technician 10: I found it 😊
04/12/23, 14:08 - Benedetta Zini: great!
04/12/23, 14:11 - Support Technician 10: On the mobile it seems that they don have the transport area set
04/12/23, 14:12 - Benedetta Zini: mmh
04/12/23, 14:24 - Benedetta Zini: They can't change the deposit area
04/12/23, 14:24 - Support Technician 10: It's ok I am looking into it
04/12/23, 14:24 - Benedetta Zini: 🙏🙏
04/12/23, 14:26 - Support Technician 10: Can they send you the lu id for which they got the problem I got the Frist one from the picture
04/12/23, 14:26 - Benedetta Zini: WAMAS IS VERY SLOW
04/12/23, 14:27 - Benedetta Zini: WAMAS is loading but not processing
04/12/23, 14:27 - Benedetta Zini: it is very very slow
04/12/23, 14:29 - Benedetta Zini: 60490646
59254308
04/12/23, 14:30 - Benedetta Zini: this is the priority now...
04/12/23, 14:31 - Support Technician 10: Ok we are running the statistics

04/12/23, 14:31 - Benedetta Zini: okay thanks
04/12/23, 14:34 - Adrian Cindea: now it is better
04/12/23, 14:35 - Benedetta Zini: we check
04/12/23, 14:35 - Adrian Cindea: 114 - 45 in some seconds
04/12/23, 14:35 - Adrian Cindea: release in progress
04/12/23, 14:36 - Adrian Cindea: and 0 release in packing
04/12/23, 14:36 - Benedetta Zini: because all activities are slow
04/12/23, 14:36 - Benedetta Zini: release buffer
04/12/23, 14:36 - Benedetta Zini: etc..
04/12/23, 14:36 - Adrian Cindea: release works normally
04/12/23, 14:36 - Benedetta Zini: now it works
04/12/23, 14:37 - Adrian Cindea: 43 -> 9
04/12/23, 14:37 - Adrian Cindea: very fast
04/12/23, 14:37 - Benedetta Zini: okay good
04/12/23, 14:37 - Adrian Cindea: normally all seems much better
04/12/23, 14:38 - Adrian Cindea: than 10 minutes ago
04/12/23, 14:38 - Adrian Cindea: oracle issue... changed its plan
04/12/23, 14:38 - Adrian Cindea: i did a gathering of statistics for some tables and started to work normally
04/12/23, 14:39 - Adrian Cindea: oracle changes its plan sometimes and affects entire system
04/12/23, 14:39 - Benedetta Zini: are you training table again?
04/12/23, 14:39 - Adrian Cindea: please give us a feedback in about 10-15 minutes
04/12/23, 14:39 - Benedetta Zini: as Razvan did some months ago (if i remember well)
04/12/23, 14:39 - Adrian Cindea: no .. i told to oracle to try another plan
04/12/23, 14:40 - Benedetta Zini: oh okay
04/12/23, 14:40 - Benedetta Zini: now we have 248 orders in status to release
04/12/23, 14:41 - Benedetta Zini: now 160
04/12/23, 14:42 - Adrian Cindea: handle damaged LU is fixed (we will test again)
04/12/23, 14:42 - Adrian Cindea: for the moment please send to NOK if it is possible other call us
04/12/23, 14:43 - Benedetta Zini: what do you mean?
04/12/23, 14:43 - Adrian Cindea: damaged LU is not working properly
04/12/23, 14:44 - Adrian Cindea: it was not included in this deploy
04/12/23, 14:44 - Benedetta Zini: okay, we will test it this afternoon (if everything works 🍀)
04/12/23, 14:44 - Adrian Cindea: it was not fixed in time
04/12/23, 14:44 - Adrian Cindea: it is not working ...
04/12/23, 14:44 - Adrian Cindea: based on our internal tests ...
04/12/23, 14:44 - Adrian Cindea: we will fix in time next deploy
04/12/23, 14:45 - Benedetta Zini: so, handle damaged LU works but not properly due to damaged LU?
04/12/23, 14:45 - Adrian Cindea: not properly ...
04/12/23, 14:45 - Adrian Cindea: let us say easiest
04/12/23, 14:45 - Benedetta Zini: IMG-20231204-WA0018.jpg (file attached)
04/12/23, 14:46 - Adrian Cindea: + it is needed a message on the screen to inform operator to release LU
04/12/23, 14:46 - Benedetta Zini: IMG-20231204-WA0019.jpg (file attached)
04/12/23, 14:46 - Benedetta Zini: okay, we will test it after next deploy
04/12/23, 14:46 - Adrian Cindea: k
04/12/23, 14:47 - Adrian Cindea: what is current status?
04/12/23, 14:47 - Benedetta Zini: this one
04/12/23, 14:47 - Benedetta Zini: IMG-20231204-WA0020.jpg (file attached)
04/12/23, 14:48 - Benedetta Zini: red bubble and pallet at infeed lines blocked
04/12/23, 14:48 - Benedetta Zini: and at foiling area
04/12/23, 14:55 - Support Technician 10: Fixed
04/12/23, 14:58 - Chiara Lodesani, Lavoro: What was the problem?
04/12/23, 14:58 - Support Technician 10: Some pending events
04/12/23, 15:02 - Support Technician 10: Does the problem on mobile terminals still persist?
04/12/23, 15:05 - Benedetta Zini: I'm asking

04/12/23, 15:07 - Benedetta Zini: everything okay
04/12/23, 15:08 - Support Technician 10: Ok I don't know what the root cause was
I was still looking into the logs
04/12/23, 15:09 - Support Technician 10: But it seems that was a problem with
the slowness of the database I don't see any error in the logs
04/12/23, 15:09 - Benedetta Zini: okay....
04/12/23, 16:01 - Adrian Cindea: please let us know current status?
04/12/23, 16:02 - Chiara Lodesani, Lavoro: IMG-20231204-WA0022.jpg (file
allegato)
we have some red bubbles in the system..
04/12/23, 16:06 - Chiara Lodesani, Lavoro: can you check, please?
04/12/23, 16:16 - Benedetta Zini: SOS: we have a lot of red bubbles
04/12/23, 16:21 - Benedetta Zini: HELP
04/12/23, 16:21 - Benedetta Zini: SOS
04/12/23, 16:21 - Chiara Lodesani, Lavoro: IMG-20231204-WA0023.jpg (file
allegato)
04/12/23, 16:21 - Adrian Cindea: we will help you
04/12/23, 16:22 - Benedetta Zini: yes because otherwise I will start crying ☐
04/12/23, 16:23 - Benedetta Zini: and you don't wanna see me crying (I know 😞)
04/12/23, 16:32 - Benedetta Zini: IMG-20231204-WA0024.jpg (file allegato)
04/12/23, 16:33 - Benedetta Zini: error during stock creation
04/12/23, 16:33 - Razvan Voicu: can you show the whole wamas screenshot?
04/12/23, 16:33 - Razvan Voicu: so i can see what dialog you are and what yo udo
04/12/23, 16:34 - Benedetta Zini: yes
04/12/23, 16:34 - Benedetta Zini: but now all automated Warehouse is in manual
mode..
04/12/23, 16:35 - Razvan Voicu: yes, we closed MFS and restart
04/12/23, 16:35 - Benedetta Zini: oh okay
04/12/23, 16:35 - Benedetta Zini: Please, warn me 😊
04/12/23, 16:36 - Adrian Cindea: from SM22 or SM23?
04/12/23, 16:36 - Benedetta Zini: SM023
04/12/23, 16:45 - Support Technician 15: ok, I restarted mfs
04/12/23, 16:46 - Chiara Lodesani, Lavoro: IMG-20231204-WA0025.jpg (file
allegato)
ok. We have some red bubbles yet
04/12/23, 16:50 - Support Technician 15: HRA07 is blocked ?
04/12/23, 16:51 - Support Technician 15: I see a TU that is
WAIT_FOR_ROUTING_LOCK_MFS|AISLE-HRA07-BLOCK
04/12/23, 16:53 - Support Technician 15: and for HRA05 it is the same
04/12/23, 16:53 - Benedetta Zini: no...
04/12/23, 17:02 - Benedetta Zini: have you find something?
04/12/23, 17:06 - Adrian Cindea: related to SM023?
04/12/23, 17:06 - Benedetta Zini: both... SM023 and all red bubbles...
04/12/23, 17:06 - Benedetta Zini: IMG-20231204-WA0026.jpg (file allegato)
could you please release pallet at infeed lines?
04/12/23, 17:07 - Benedetta Zini: we still have red bubbles 😞
04/12/23, 17:07 - Razvan Voicu: IMG-20231204-WA0027.jpg (file allegato)
is there something fizically something?
04/12/23, 17:07 - Razvan Voicu: Retrieval point of crane2
04/12/23, 17:09 - Benedetta Zini: yes
04/12/23, 17:09 - Razvan Voicu: what pallet
04/12/23, 17:09 - Benedetta Zini: no wait
04/12/23, 17:09 - Benedetta Zini: you'd mean CU202?
04/12/23, 17:09 - Benedetta Zini: or CU203
04/12/23, 17:09 - Support Technician 15: 203
04/12/23, 17:10 - Benedetta Zini: 58282565
04/12/23, 17:17 - Adrian Cindea: for SM023 it is needed a deploy
04/12/23, 17:17 - Adrian Cindea: it can not be fixed at the spot
04/12/23, 17:17 - Razvan Voicu: Can you tell them to remove pallets from infeed?
04/12/23, 17:17 - Razvan Voicu: and wait a second
04/12/23, 17:18 - Benedetta Zini: pallet are in S04 MAV
04/12/23, 17:18 - Razvan Voicu: No pallet on infeed?
04/12/23, 17:18 - Benedetta Zini: yes
04/12/23, 17:18 - Benedetta Zini: oh...

04/12/23, 17:19 - Benedetta Zini: it is important for us using SM023 for creating stock..
04/12/23, 17:22 - Razvan Voicu: can you try infeed now?
04/12/23, 17:22 - Benedetta Zini: we can do it next Monday, okay?
04/12/23, 17:23 - Benedetta Zini: but they are in error
04/12/23, 17:25 - Benedetta Zini: Okay I fix it
04/12/23, 17:25 - Razvan Voicu: it needs to be acknowledged
04/12/23, 17:25 - Razvan Voicu: great
04/12/23, 17:31 - Razvan Voicu: Ok, infeed just infeed something 🤖
04/12/23, 17:31 - Benedetta Zini: last red bubble
04/12/23, 17:31 - Benedetta Zini: IMG-20231204-WA0028.jpg (file allegato)
04/12/23, 17:32 - Benedetta Zini: yess
04/12/23, 17:32 - Adrian Cindea: related to SM023 (and handle damaged LU =) it is needed a new deploy
04/12/23, 17:32 - Adrian Cindea: you can do it tomorrow ..
04/12/23, 17:33 - Benedetta Zini: no... we can do it on Monday 11.12...
04/12/23, 17:34 - Benedetta Zini: this week is a short week (Friday is Holiday..)
04/12/23, 17:34 - Benedetta Zini: so it is better to do it newxt week
04/12/23, 17:34 - Benedetta Zini: but I'm afraid of red bubbles.....
04/12/23, 17:34 - Benedetta Zini: do you have any idea of what is happening?
04/12/23, 17:38 - Razvan Voicu: Not sure
04/12/23, 17:38 - Razvan Voicu: we will keep monitoring
04/12/23, 17:38 - Razvan Voicu: if they occur today again
04/12/23, 17:38 - Razvan Voicu: or if you see them , please mention me/robert
04/12/23, 17:38 - Razvan Voicu: so we can get soundalert for this chat and we will check
04/12/23, 17:39 - Adrian Cindea: it is related to restart of MFS ...
04/12/23, 17:39 - Adrian Cindea: we will do next Monday then ...
04/12/23, 17:39 - Chiara Lodesani, Lavoro: IMG-20231204-WA0029.jpg (file allegato)
@Support Technician 21 @Support Technician 15 we have red bubbles yet
04/12/23, 17:40 - Razvan Voicu: That didnt take long
04/12/23, 17:40 - Razvan Voicu: aren't the red bubbles normal, atl east at SRM locations?
04/12/23, 17:40 - Razvan Voicu: because they appear and disappear
04/12/23, 17:41 - Razvan Voicu: I think this is they way it used
04/12/23, 17:42 - Chiara Lodesani, Lavoro: today red bubbles stay a lot of time, it's not normal..
04/12/23, 17:43 - Chiara Lodesani, Lavoro: they appear and disappear continuously, it's not the normal behavior of the system
04/12/23, 17:44 - Chiara Lodesani, Lavoro: IMG-20231204-WA0030.jpg (file allegato)
04/12/23, 17:45 - Benedetta Zini: are any queue blocked?
04/12/23, 17:45 - Benedetta Zini: something that block queues?
04/12/23, 17:45 - Benedetta Zini: I don't know.....
04/12/23, 17:47 - Razvan Voicu: I check
04/12/23, 17:57 - Benedetta Zini: @Support Technician 21 @Support Technician 15 red bubbles
04/12/23, 17:57 - Benedetta Zini: we leave office at 18:30
04/12/23, 17:58 - Razvan Voicu: yes I am here
04/12/23, 18:00 - Benedetta Zini: thank you
04/12/23, 18:05 - Razvan Voicu: did you do something at printer now
04/12/23, 18:06 - Razvan Voicu: IMG-20231204-WA0031.jpg (file allegato)
04/12/23, 18:06 - Razvan Voicu: This printer
04/12/23, 18:06 - Razvan Voicu: it had a red bubble and now it doesn't
04/12/23, 18:06 - Benedetta Zini: no...
04/12/23, 18:06 - Benedetta Zini: Maybe operator at pick station #1 reset the error
04/12/23, 18:13 - Benedetta Zini: please reset infeed of HBW01
04/12/23, 18:14 - Benedetta Zini: when ems put a pallet on CU, it immediately goes in error
04/12/23, 18:15 - Benedetta Zini: or when stacker crane deposit a pallet on CU
04/12/23, 18:19 - Razvan Voicu: ok

04/12/23, 18:27 - Razvan Voicu: oh ok
04/12/23, 18:27 - Razvan Voicu: found the issue
04/12/23, 18:27 - Razvan Voicu: i think
04/12/23, 18:27 - Benedetta Zini: GREAT!!!!!!
04/12/23, 18:36 - Razvan Voicu: I think it's something wrong with the left printer
04/12/23, 18:36 - Razvan Voicu: it is unreachable
04/12/23, 18:36 - Razvan Voicu: 2023-12-04-18:22:14.954 | Thread-676
| INFO | [PrjWPlusTuBookingHandlerCancelPrinting] PrintCommandOutput: Error: print server unreachable or specified printer does not exist. - PrjPrintingManager

2023-12-04-18:22:14.959 | MFS-20 [2d4049] | INFO | [PrjWPlusTuBookingHandlerCancelPrinting] 52341054 printer=10.32.0.102 exitCode=0
04/12/23, 18:36 - Razvan Voicu: can you check
04/12/23, 18:36 - Benedetta Zini: But few minutes ago i did ping 10.32.0.102
04/12/23, 18:37 - Benedetta Zini: we are trying to bypass it
04/12/23, 18:39 - Razvan Voicu: hmm
04/12/23, 18:40 - Razvan Voicu: but the right printer is not available
04/12/23, 18:40 - Razvan Voicu: so you have no printer here
04/12/23, 18:40 - Benedetta Zini: i know
04/12/23, 18:40 - Razvan Voicu: and it should go without a problem?
04/12/23, 18:40 - Razvan Voicu: without printing anything?
04/12/23, 18:40 - Benedetta Zini: IMG-20231204-WA0032.jpg (file allegato)
04/12/23, 18:41 - Benedetta Zini: for me is reachable
04/12/23, 18:41 - Razvan Voicu: IMG-20231204-WA0033.jpg (file allegato)
04/12/23, 18:41 - Benedetta Zini: no ahah
04/12/23, 18:41 - Benedetta Zini: we turn off it
04/12/23, 18:44 - Razvan Voicu: so now both are turned off?
04/12/23, 18:45 - Benedetta Zini: now yes
04/12/23, 18:46 - Razvan Voicu: red bubbles are gone
04/12/23, 18:46 - Razvan Voicu: :)
04/12/23, 18:47 - Benedetta Zini: wait hahah
04/12/23, 18:48 - Benedetta Zini: Now we have to do some tests
04/12/23, 18:48 - Razvan Voicu: The problem is that we try to send commands to that printer and it crashes and then it drags the MFS with it
04/12/23, 18:48 - Benedetta Zini: yes yes
04/12/23, 18:49 - Benedetta Zini: I understand
04/12/23, 18:49 - Razvan Voicu: there are no actual blockages , but stuff gets red
04/12/23, 18:49 - Benedetta Zini: yes
04/12/23, 18:57 - Benedetta Zini: We leave it in bypass for today
04/12/23, 18:57 - Benedetta Zini: Tomorrow morning I will check it again
04/12/23, 18:58 - Benedetta Zini: and I will let you know the status of the issue...
04/12/23, 18:58 - Benedetta Zini: Thank you very much for your help
04/12/23, 18:58 - Benedetta Zini: VID-20231204-WA0035.mp4 (file allegato)
04/12/23, 19:03 - Razvan Voicu: thanks aswell
04/12/23, 19:03 - Razvan Voicu: so I think it's important to either have at least one working
04/12/23, 19:04 - Razvan Voicu: or both off
04/12/23, 19:05 - Razvan Voicu: Because no more red bubbles since we turned it off, so clearly that was triggering it
05/12/23, 08:11 - Adrian Cindea: related to issue of SM023 ...
05/12/23, 08:11 - Adrian Cindea: good morning ...
05/12/23, 08:12 - Adrian Cindea: the workaround is:
1. create LU in SM023 (dont add stock on it)
2. open SM022 and add stock on it
05/12/23, 08:12 - Adrian Cindea: the issue was fixed internally
05/12/23, 09:16 - Benedetta Zini: Hello, okay thank you! Can you do deploy next week?
05/12/23, 09:16 - Adrian Cindea: yes
05/12/23, 09:16 - Benedetta Zini: Perfect, please send me and email with all patches

05/12/23, 09:16 - Adrian Cindea: we will fix to display to operator to release a LU from station in case of no space for damaged LU/extras tock for negative pcikign

05/12/23, 09:17 - Benedetta Zini: Can I test "report as full"?

05/12/23, 09:17 - Adrian Cindea: yes

05/12/23, 09:18 - Adrian Cindea: parameters must be visible after deploy <Questo messaggio è stato modificato>

05/12/23, 09:19 - Adrian Cindea: free empty soruce location will be activated

05/12/23, 09:20 - Adrian Cindea: it is already active after deploy

05/12/23, 09:21 - Adrian Cindea: handle damaged LU is a problem and in case of extra stock at negative pikcing ... to check in the system if there is tpo to move a pallet out ... because operator is not informed to press the button to release

05/12/23, 09:21 - Adrian Cindea: and operator will say station is blocked ... though it is something to do

05/12/23, 09:23 - Benedetta Zini: Okay

07/12/23, 09:45 - Benedetta Zini: Hi All! We realized that we have a problem with record #03 after deploy...

07/12/23, 09:46 - Benedetta Zini: IMG-20231207-WA0003.jpg (file allegato)

07/12/23, 09:47 - Benedetta Zini: there are 1.201 message in error in DI002 all type record #03

07/12/23, 09:49 - Benedetta Zini: IMG-20231207-WA0005.jpg (file allegato)

07/12/23, 09:51 - Benedetta Zini: Because of this we can't recognize Inbound delivery numeber by advised loading unit line

07/12/23, 09:51 - Benedetta Zini: for example delivery note 2074

07/12/23, 09:52 - Benedetta Zini: IMG-20231207-WA0004.jpg (file allegato)

07/12/23, 09:52 - Benedetta Zini: the lenght of the message is the same as last week... could you please check what is wrong?

07/12/23, 09:53 - Benedetta Zini: Now I'm going to send an email in order to open a ticket

07/12/23, 11:43 - Adrian Cindea: lenght of telegram

07/12/23, 11:43 - Adrian Cindea: we changed 03 too ... it will be fixed to change only 14 and 15

07/12/23, 11:43 - Adrian Cindea: i have a script to reset all of them for import

07/12/23, 11:43 - Adrian Cindea: may i run it?

07/12/23, 11:44 - Adrian Cindea: all 03 messages with error and length smaller than 169 are reprocessed

07/12/23, 11:44 - Adrian Cindea: and i will run it from time to time today in case there are messages with error

07/12/23, 11:46 - Benedetta Zini: don't worry... we can work like the other days and fix it on Monday

07/12/23, 11:47 - Adrian Cindea: k

07/12/23, 11:47 - Adrian Cindea: thx ...

07/12/23, 11:52 - Benedetta Zini: I misunderstood...

07/12/23, 11:52 - Benedetta Zini: you can do it without blocking something right?

07/12/23, 11:53 - Adrian Cindea: i did a script to update data of message adding 18 spaces and reset it to new

07/12/23, 11:53 - Adrian Cindea: no blockage ... messages are reprocessed ...

07/12/23, 11:53 - Benedetta Zini: oh okay

07/12/23, 11:53 - Benedetta Zini: you can do it

07/12/23, 11:54 - Adrian Cindea: some are old ... because IBD is closed

07/12/23, 11:54 - Benedetta Zini: sorry I was thinking about a deploy 😊

07/12/23, 11:54 - Benedetta Zini: yes

07/12/23, 11:54 - Adrian Cindea: you created manually LUs

07/12/23, 11:54 - Benedetta Zini: exactly

07/12/23, 11:55 - Adrian Cindea: in about 30 minutes i will do it ..

07/12/23, 11:55 - Benedetta Zini: okay thank you very much

07/12/23, 12:00 - Adrian Cindea: i did it for inspmid = 2140958

07/12/23, 12:00 - Adrian Cindea: and it was rejected ... No Inbound Delivery Line could be found because of parameter: 'ARTICOLO'. Searching by IBD number: GSDATLATLCF0996012'.

07/12/23, 12:00 - Adrian Cindea: it was the oldest message rejected ...

07/12/23, 12:01 - Adrian Cindea: so ... i will do it right now all 03 messages

witg data less than 169 characters ...

07/12/23, 12:02 - Adrian Cindea: 793 concerted

07/12/23, 12:03 - Adrian Cindea: 596

07/12/23, 12:03 - Adrian Cindea: 402

07/12/23, 12:03 - Adrian Cindea: 211

07/12/23, 12:04 - Adrian Cindea: 122

07/12/23, 12:04 - Benedetta Zini: 👍👍

07/12/23, 12:05 - Adrian Cindea: now it is only missing IBD as error

07/12/23, 12:05 - Adrian Cindea: i will check the script entire day and run it in case of new messages

07/12/23, 12:05 - Adrian Cindea: error messages must be cancelled to go out

07/12/23, 12:05 - Adrian Cindea: all before today at least

07/12/23, 12:05 - Adrian Cindea: i can do it too from DI002

07/12/23, 12:08 - Benedetta Zini: okay okay

07/12/23, 12:11 - Adrian Cindea: all error messages were cancelled

07/12/23, 12:11 - Adrian Cindea: i will take a look from time to time .. and i will run my script in case of new error messages

07/12/23, 12:11 - Benedetta Zini: Thank you very much!

07/12/23, 12:12 - Benedetta Zini: this problem is only for record 03 right?

07/12/23, 12:12 - Adrian Cindea: you're welcome

07/12/23, 12:12 - Adrian Cindea: i did only for 03 messages

07/12/23, 12:12 - Adrian Cindea: to understand ...

07/12/23, 12:12 - Benedetta Zini: you modify the length of messages for all record?

07/12/23, 12:12 - Adrian Cindea: 03 extends 14 extends 15

07/12/23, 12:13 - Adrian Cindea: you did in 03 instead to do it only in 14 ... because 15 extends 14

07/12/23, 12:13 - Adrian Cindea: we will move changes from 03 to 14 and issue will be fixed for next deploy

07/12/23, 12:14 - Adrian Cindea: add in 03 ... messages is bigger with 18 characters .. and it is rejected ... my script add 18 spaces and reset to new the message to be reprocessed

07/12/23, 12:14 - Adrian Cindea: all 03 messages were archived

07/12/23, 12:14 - Benedetta Zini: this I understand

07/12/23, 12:14 - Benedetta Zini: with 14 you'd mean the length?

07/12/23, 12:15 - Adrian Cindea: yes

07/12/23, 12:15 - Benedetta Zini: top

07/12/23, 12:15 - Adrian Cindea: we will add these 2 new fields only in 14 and 15 not in 03

07/12/23, 12:15 - Benedetta Zini: now it is clear (for me ahah)

07/12/23, 12:15 - Benedetta Zini: yes perfect

07/12/23, 12:18 - Adrian Cindea: if you know production will send a new bunch of 03 messages ... and you observed in error ... let us know to run the script ... it takes about some seconds (<1 min)

07/12/23, 12:19 - Benedetta Zini: Okay I will let you know

07/12/23, 14:48 - Benedetta Zini: Could you please run the script for messages 03?

07/12/23, 14:48 - Benedetta Zini: thank you

07/12/23, 14:52 - Support Technician 10: Done

07/12/23, 14:53 - Adrian Cindea: thx

07/12/23, 17:49 - Benedetta Zini: Hi! I'm sorry but we have a problem with CC015... could you please check oracle stats?

07/12/23, 17:50 - Benedetta Zini: maybe we have to gather oracle statistics

07/12/23, 22:58 - Razvan Voicu: Questo messaggio è stato eliminato.

08/12/23, 08:03 - Adrian Cindea: hi

08/12/23, 08:03 - Adrian Cindea: CC15 is bgi

08/12/23, 08:03 - Adrian Cindea: we don't run any gather statistics for it

08/12/23, 08:04 - Adrian Cindea: it contains all movements ... a LU from HBW to station has 5 locations (it is only assumption) and it is LU tracking

08/12/23, 08:04 - Adrian Cindea: no relevance for any statistics all intermediate points ...

08/12/23, 08:05 - Adrian Cindea: our customer keep them for avg 30 days

08/12/23, 08:05 - Adrian Cindea: because it is not useful how a LU was moved to picking station and back to HBW

08/12/23, 08:05 - Adrian Cindea: one year ago ...

08/12/23, 08:07 - Adrian Cindea: when it will become slow .. solution is to reduce retention period step by step ... to not crash system trying to delete a huge volume of data ... (7 days per day or depends about side effect over production more or less) or truncate entire table (delete all rows) fastest way set a new retention period and data will be accumulate again day by day.

08/12/23, 08:07 - Adrian Cindea: WAMAS was not designed to keep archiving so long time

08/12/23, 08:08 - Adrian Cindea: it is about 100 days ... it can run for more days ... but performance of the system can be affected

08/12/23, 08:08 - Adrian Cindea: for sure some specific tables can be kept more time but limited when performance is affected

08/12/23, 08:09 - Adrian Cindea: the main goal of WAMAS is production to not be affected and archiving to be adjusted to not affect production <Questo messaggio è stato modificato>

08/12/23, 08:12 - Adrian Cindea: CC15 is has 54.147.610 rows vs 108.189 LUs.

08/12/23, 08:14 - Adrian Cindea: SM003: 121.752.926 rows

08/12/23, 08:15 - Adrian Cindea: activity protocol: 163.152.973 rows

08/12/23, 08:16 - Adrian Cindea: it is possible to come a day when all these data will be removed to make the system to work in normal parameters

08/12/23, 08:22 - Adrian Cindea: there is no difference in LU tracking for last 3 months and 6 months ago ... to be able to easier daily data ... the same query is running on all table/rows

08/12/23, 08:33 - Adrian Cindea: [9:25 AM] Cindea Adrian

messages 03 will be resent

[9:32 AM] Cindea Adrian

20 messages were not processed from yesterday 16:38, but others were processed.

[9:32 AM] Cindea Adrian

we will keep an eye to resend them today

11/12/23, 09:20 - Benedetta Zini: Hello! I'm sorry but Friday was Holiday in Italy... Okay I understood, the problem is the huge amount of data... We are going to discuss internally next step

11/12/23, 09:21 - Adrian Cindea: k

11/12/23, 12:21 - Adrian Cindea: please let us know when AGVs are stopped ...

<Questo messaggio è stato modificato>

11/12/23, 12:25 - Benedetta Zini: yes sure

11/12/23, 12:25 - Benedetta Zini: at 12:30 we are going to set agvDisablr = true

11/12/23, 12:29 - Benedetta Zini: okay I set agvDisable = true

11/12/23, 12:39 - Support Technician 15: hi

ok, let us know when we can start

11/12/23, 12:39 - Support Technician 15: when the AGVs are stopped

11/12/23, 12:40 - Chiara Lodesani, Lavoro: Yuo can start

11/12/23, 12:40 - Support Technician 15: ok

11/12/23, 13:08 - Adrian Cindea: deploy is almost ready

11/12/23, 13:08 - Chiara Lodesani, Lavoro: Ok

11/12/23, 13:08 - Adrian Cindea: you can start to work

11/12/23, 13:10 - Chiara Lodesani, Lavoro: Ok

11/12/23, 13:11 - Adrian Cindea: be sure all stations are updated ...

11/12/23, 13:12 - Adrian Cindea: 5.9.1.R202312111227

11/12/23, 13:12 - Chiara Lodesani, Lavoro: Yes..😁

11/12/23, 13:25 - Benedetta Zini: okay thank you!

11/12/23, 13:49 - Adrian Cindea: com.wamas.biz.prj.TotalWeight - is true (it is available for you side until next deploy)

11/12/23, 13:49 - Adrian Cindea: it means scale weight is used by WAMAS at scale after foiling ...

11/12/23, 13:49 - Adrian Cindea: false is master data ...

11/12/23, 13:50 - Benedetta Zini: okay thank you

11/12/23, 13:50 - Adrian Cindea: so ... CR for scale weight is active too

11/12/23, 13:50 - Benedetta Zini: yes exaclty

11/12/23, 13:50 - Benedetta Zini: we will keep an eye on it

11/12/23, 13:54 - Adrian Cindea: may i cancel all error 03 messages?

11/12/23, 13:54 - Adrian Cindea: 157 messages ...

11/12/23, 13:54 - Benedetta Zini: YES SURE

11/12/23, 13:54 - Benedetta Zini: yes sure*

11/12/23, 13:55 - Benedetta Zini: from now message 03 is okay, right?
 11/12/23, 14:04 - Adrian Cindea: confirmed with 20 messages processed <Questo messaggio è stato modificato>
 11/12/23, 14:05 - Adrian Cindea: 14/15 have to work too
 11/12/23, 14:05 - Adrian Cindea: but not messages received so far
 11/12/23, 14:05 - Benedetta Zini: okay, we will see this afternoon
 11/12/23, 14:08 - Adrian Cindea: R36 is fixed and deployed
 11/12/23, 15:02 - Chiara Lodesani, Lavoro: IMG-20231211-WA0000.jpg (file allegato)
 @Support Technician 12 , we have two messages 03 in error
 11/12/23, 15:04 - Adrian Cindea: yes, the error is not related to length
 11/12/23, 15:04 - Adrian Cindea: Advised LU '71870403's quantity exceeds the IBD's available quantity.
 11/12/23, 15:04 - Adrian Cindea: maybe receiving was done on that IBD
 11/12/23, 15:05 - Adrian Cindea: before the issue was related to length
 11/12/23, 15:05 - Adrian Cindea: all 03 messages were rejected because expected 18 characters more
 11/12/23, 15:05 - Adrian Cindea: maybe it is some gargage ... ibd was processed manually without advised lu
 11/12/23, 15:06 - Adrian Cindea: before deploy, "all 03 messages" were rejected
 11/12/23, 15:07 - Adrian Cindea: now only 03 messages with an issue <Questo messaggio è stato modificato>
 11/12/23, 15:08 - Adrian Cindea: meanwhile #14 were processed
 11/12/23, 15:10 - Chiara Lodesani, Lavoro: ok, good. Thanks
 11/12/23, 15:20 - Benedetta Zini: IMG-20231211-WA0003.jpg (file allegato)
 Can I set weight < 75000 grams?
 11/12/23, 15:20 - Adrian Cindea: 75 kg is parameter now
 11/12/23, 15:20 - Adrian Cindea: it is in grams
 11/12/23, 15:21 - Adrian Cindea: you can reduce it
 11/12/23, 15:21 - Benedetta Zini: okay perfect
 11/12/23, 15:21 - Adrian Cindea: i can not propose a value ...
 11/12/23, 15:21 - Adrian Cindea: but there are in the system a lot of LUs "not scaled" ...
 11/12/23, 15:21 - Benedetta Zini: don't worry I will do it
 11/12/23, 15:42 - Adrian Cindea: IMG-20231211-WA0005.jpg (file allegato)
 11/12/23, 15:43 - Adrian Cindea: IMG-20231211-WA0006.jpg (file allegato)
 11/12/23, 15:43 - Adrian Cindea: there are 8 LUs (8 x 42 = 336) ... new LUs are rejected ...
 11/12/23, 15:44 - Adrian Cindea: R37 is fixed ... i will clsoed the ticket for it
 11/12/23, 15:44 - Adrian Cindea: i think popup for full confirmation is available ... it can be pressed anytime followed by No (nothing is done) <Questo messaggio è stato modificato>
 11/12/23, 16:53 - Benedetta Zini: Okay we will check
 11/12/23, 16:54 - Benedetta Zini: Is it normal that WAMAS takes about 3/4 minutes to send pallets away to make "room" (handle damaged LU and increase stock for negative pick)? <Questo messaggio è stato modificato>
 11/12/23, 18:43 - Support Technician 10: Yes because frist we create an empty Lu request and after it got in on the Ems on the run of the new job the pallet with the tpo is moved <Questo messaggio è stato modificato>
 12/12/23, 07:48 - Adrian Cindea: handle damage LU/ increase stock for negative picking are exceptions from normal flow. In case there is no space in station LU is removed when empty LU is on EMS/Buffer positions being done by job running at every 3 minutes
 12/12/23, 08:52 - Benedetta Zini: Hello, okay thanks for your both explanations... clear as crystal. Is it possible to decrease the running time of the job? or is it better 3 minutes?
 12/12/23, 08:53 - Adrian Cindea: it is configurable ... but 3 minutes is enough
 12/12/23, 08:53 - Adrian Cindea: but only by minute .. the smallest value is 1 minute
 12/12/23, 08:54 - Adrian Cindea: it is possible but many times it is running without to do something ... an only make queries for nothing
 12/12/23, 08:54 - Adrian Cindea: we will see during usage of system it is needed to decrease it more ...

12/12/23, 09:07 - Benedetta Zini: okay, lets keep 3 minutes
 12/12/23, 10:20 - Adrian Cindea: in case you have some feedback about changes (old/new) let us know ...
 12/12/23, 10:21 - Benedetta Zini: yes Yesterday we tested some changes
 12/12/23, 10:21 - Benedetta Zini: we are going to send you a feedback
 12/12/23, 10:21 - Adrian Cindea: maybe SM023 can be checked (create stock), popup full pallet; and others are time consuming .. <Questo messaggio è stato modificato>
 12/12/23, 10:21 - Benedetta Zini: so far, everything work
 12/12/23, 10:22 - Adrian Cindea: sounds good ...
 12/12/23, 10:22 - Benedetta Zini: oh yes 😊
 12/12/23, 10:23 - Adrian Cindea: next deploy on 18.12.2023 - P11/F81 - very old CR ...?
 12/12/23, 10:25 - Adrian Cindea: and others fixes for A110/A119/Q21/Q17 next year maybe inhibit foiling in January (i dont know if it will be ready form 18.12)
 12/12/23, 10:25 - Adrian Cindea: i will send an email too ...
 12/12/23, 11:36 - Benedetta Zini: If I remember well this CR is a very high risk... so we decide to postpone it in January (first deploy on 2024, on 15.01)
 12/12/23, 11:37 - Benedetta Zini: for this CR I propose 22.01.2024 (if you are agree)... However, I will answer your email
 12/12/23, 11:39 - Adrian Cindea: k
 13/12/23, 09:33 - Benedetta Zini: Hello! I find something strange about CR02 real weight
 13/12/23, 09:33 - Adrian Cindea: hi
 13/12/23, 09:33 - Adrian Cindea: pls
 13/12/23, 09:34 - Adrian Cindea: i will analyze the issue <Questo messaggio è stato modificato>
 13/12/23, 09:34 - Adrian Cindea: give me a shipment lu to check it <Questo messaggio è stato modificato>
 13/12/23, 09:35 - Benedetta Zini: IMG-20231213-WA0002.jpg (file allegato)
 weight for picking 934 Kg, whereas weight at foiling 1071 kg
 13/12/23, 09:36 - Benedetta Zini: but 1071 is the weight weighted at infeed line
 13/12/23, 09:36 - Adrian Cindea: i will check it ...
 13/12/23, 09:36 - Adrian Cindea: and i will send you all details
 13/12/23, 09:36 - Adrian Cindea: please copy luid <Questo messaggio è stato modificato>
 13/12/23, 09:36 - Benedetta Zini: yes
 13/12/23, 09:36 - Benedetta Zini: but now I'm not sure
 13/12/23, 09:36 - Adrian Cindea: to be easy to copy it
 13/12/23, 09:37 - Benedetta Zini: 51753193
 13/12/23, 09:37 - Adrian Cindea: thx
 13/12/23, 09:37 - Benedetta Zini: yes sorry
 13/12/23, 09:37 - Benedetta Zini: I will call shift leader to understand if on LU there are 54 boxes or 47 boxes...
 13/12/23, 09:40 - Benedetta Zini: Phisically there are 48 boxes, but based on the weight it seems there are 54 boxes... I ask shift leader to put it again on foiling in order to weight it another time
 13/12/23, 09:41 - Adrian Cindea: let me check logically ...
 13/12/23, 09:41 - Benedetta Zini: yes
 13/12/23, 09:52 - Benedetta Zini: at the third time the scale weighed 951 kg (correct because there are 48 boxes* 4 pieces *4,885)
 13/12/23, 09:54 - Adrian Cindea: so ...
 13/12/23, 09:54 - Adrian Cindea: IMG-20231213-WA0003.jpg (file allegato)
 13/12/23, 09:56 - Adrian Cindea: (1071 weigth at IP - 15.85 U - weight) / (4x54) = 4.884954 = 4.885 piece weight (check LU destination at negative picking = 51753306)
 13/12/23, 09:56 - Adrian Cindea: 1 PZ = 4.885 kg
 13/12/23, 09:57 - Benedetta Zini: exactly
 13/12/23, 09:57 - Adrian Cindea: 47 x 4 x 4.885 + 15.85 = 934.23
 13/12/23, 09:57 - Adrian Cindea: 934 kg in SM023
 13/12/23, 09:57 - Adrian Cindea: so logically it is correct
 13/12/23, 09:57 - Benedetta Zini: exactly
 13/12/23, 09:57 - Adrian Cindea: so logically is correct

13/12/23, 09:57 - Adrian Cindea: i dont see any issue
13/12/23, 09:57 - Benedetta Zini: wait
13/12/23, 09:58 - Adrian Cindea: IMG-20231213-WA0004.jpg (file allegato)
13/12/23, 09:58 - Benedetta Zini: for weight for picking everything is okay
13/12/23, 09:58 - Benedetta Zini: but for scale weight not
13/12/23, 09:58 - Adrian Cindea: piece weight at IP was computed properly at IP
(A weight of '1071.000 kg' was measured on storage location WH1;IPF01C0101.)
13/12/23, 09:59 - Adrian Cindea: the tote was sent out?
13/12/23, 09:59 - Benedetta Zini: IMG-20231213-WA0005.jpg (file allegato)
13/12/23, 09:59 - Benedetta Zini: at infeed line everything okay
13/12/23, 09:59 - Adrian Cindea: 1071 vs 934 -> out
13/12/23, 09:59 - Benedetta Zini: but foiling scale not
13/12/23, 09:59 - Adrian Cindea: it is more than 75 kg
13/12/23, 09:59 - Benedetta Zini: yes correct
13/12/23, 10:00 - Benedetta Zini: but the reale weight was 951 Kg
13/12/23, 10:00 - Adrian Cindea: 1068 vs 934 > 75 kg go out
13/12/23, 10:00 - Benedetta Zini: third time
13/12/23, 10:00 - Benedetta Zini: is it something wrong with the scale?
13/12/23, 10:00 - Adrian Cindea: i dont know
13/12/23, 10:00 - Adrian Cindea: i take the value reported
13/12/23, 10:00 - Benedetta Zini: because logically works😞
13/12/23, 10:00 - Adrian Cindea: did someone remove some goods?
13/12/23, 10:01 - Adrian Cindea: 3 times -> 3 different values
13/12/23, 10:02 - Benedetta Zini: no...
13/12/23, 10:02 - Benedetta Zini: yes... it is strange...
13/12/23, 10:02 - Benedetta Zini: now I try with 52321084
13/12/23, 10:02 - Adrian Cindea: lu is marked to use master data becuae it was
rejected to NOK due to weight mismatch
13/12/23, 10:03 - Adrian Cindea: so 2nd and 3rd time ... we used master data ..
so the weight use is ...
13/12/23, 10:04 - Benedetta Zini: impossible...
13/12/23, 10:04 - Benedetta Zini: weight based on master data is 902,25
13/12/23, 10:04 - Adrian Cindea: $4 \times 47 \times 4.7 + 15.85 = 899.45$ kg
13/12/23, 10:04 - Adrian Cindea: i put in excel
13/12/23, 10:05 - Adrian Cindea: so 3rd time ... nomrally past the check
13/12/23, 10:05 - Benedetta Zini: mmh okay...
13/12/23, 10:05 - Benedetta Zini: the problem was the weight at the scale
13/12/23, 10:05 - Adrian Cindea: 952 vs 899.45
13/12/23, 10:06 - Adrian Cindea: yeap ... it is strange 3 different values ...
but please be sure pallet was not touched
13/12/23, 10:07 - Adrian Cindea: 1071 vs $1068 = 3$ kg maybe it is a tolerance of
scale ...
13/12/23, 10:07 - Benedetta Zini: yes pallet was not touched
13/12/23, 10:07 - Adrian Cindea: but 1068 vs 951 is too much
13/12/23, 10:07 - Benedetta Zini: yes...
13/12/23, 10:07 - Adrian Cindea: but first 2 measures are very close and 3rt
time is too low
13/12/23, 10:08 - Adrian Cindea: it seems pallet was touch
13/12/23, 10:08 - Adrian Cindea: $1071 = 54$ SC
13/12/23, 10:08 - Adrian Cindea: please check to be sure pallet was not touched
physically
13/12/23, 10:08 - Adrian Cindea: locagically all is fine ...
13/12/23, 10:08 - Adrian Cindea: scale issue vs human action ...
13/12/23, 10:09 - Adrian Cindea: talk to people from that area to put a pallet
more times to check its weight to see ig there is a scale issue
13/12/23, 10:09 - Adrian Cindea: from time to time ... to see scale issue and to
fix the scale ...
13/12/23, 10:10 - Adrian Cindea: if there is a camera to check if picking was
done (7 SC were removed)
13/12/23, 10:10 - Adrian Cindea: i checked picking order ...
13/12/23, 10:11 - Adrian Cindea: IMG-20231213-WA0008.jpg (file allegato)
13/12/23, 10:11 - Adrian Cindea: picking order ...
13/12/23, 10:11 - Adrian Cindea: IMG-20231213-WA0009.jpg (file allegato)
13/12/23, 10:13 - Adrian Cindea: 7 SC-s were removed at negative picking ... but

i cannot believe the scale makes so big mistake ... but it is possible <Questo messaggio è stato modificato>

13/12/23, 10:39 - Benedetta Zini: I will check....

13/12/23, 10:42 - Benedetta Zini: I have two questions:

1. If we do inventory on a pallet, WAMAS is going to use master data and not real piece weight anymore?
2. If pallet goes to NOK foiling for "weight error" and user, after checking pallet, put again on foiling... WAMAS is going to weigh it again and check with master data... and if the difference is <75 Kg the pallet will pass and WAMAS won't update gross weight, right?

13/12/23, 10:43 - Benedetta Zini: IMG-20231213-WA0010.jpg (file allegato)
example for question #1, LU 52261777

13/12/23, 10:44 - Benedetta Zini: example fo question #2, LU 52321084

13/12/23, 12:47 - Adrian Cindea: 1. during inventory piece weight is not changed for a HBW pallet. Piece weight is computed only on IP scales (no other changes for source LU) <Questo messaggio è stato modificato>

13/12/23, 12:49 - Adrian Cindea: 2. Any shipment LU with weight mismatch -> it is marked to use next time master data weight

13/12/23, 12:49 - Adrian Cindea: because it can be an issue about data from initial IP scales meaning scale weight is wrong -> and master data has average values (this is the reason after weight mismatch to use master data values)
<Questo messaggio è stato modificato>

13/12/23, 12:51 - Adrian Cindea: WAMAS updates all the time gross weight with value reported by scale <Questo messaggio è stato modificato>

13/12/23, 12:52 - Adrian Cindea: gross weight has to kinds: measured (reported by scale), respectively calculated (from master dat)

13/12/23, 12:52 - Adrian Cindea: IMG-20231213-WA0016.jpg (file allegato)

13/12/23, 12:53 - Adrian Cindea: to be sure what means gross weight, check value of its kind

13/12/23, 12:54 - Adrian Cindea: Picking weight is computed by WAMAS based on scale/MD values (CR02) + LA weight

13/12/23, 12:54 - Adrian Cindea: i hope my answers are clear ...

13/12/23, 12:55 - Adrian Cindea: gross weight behavior has not changed by CR02.

13/12/23, 12:56 - Adrian Cindea: CR02 uses new fields to compute shipment LU weight and this value is compared with value reported by scale near foiling (it is a paramter what to use ... MD or scale weight - it set on scale weight now)
<Questo messaggio è stato modificato>

13/12/23, 12:56 - Adrian Cindea: in case of weight mismatch/difference - MD values are used

13/12/23, 13:01 - Adrian Cindea: CR02 collects/computes weights by scale and a system parameter decides what value is used by WAMAS to check weight reported by scale near foiling MD or scale (current configuration) with one exception for LU with weight mismatch (LU was already rejected due to weight mismatch) WAMAS uses MD weight (second time it is an exception of flow).

13/12/23, 15:01 - Benedetta Zini: So why after inventory piece weight become 0? And WAMAS start using master data for LU 52261777?

13/12/23, 15:05 - Adrian Cindea: yes

13/12/23, 15:06 - Benedetta Zini: why?

13/12/23, 15:08 - Adrian Cindea: inherit its piece weight

13/12/23, 15:08 - Adrian Cindea: piece weight is weight of one piece

13/12/23, 15:09 - Adrian Cindea: some LUs are not scaled (was scaled before the cr02)

13/12/23, 15:09 - Adrian Cindea: it is important when it was at IP point

13/12/23, 15:09 - Adrian Cindea: i told you the meaning i did not track this LU

13/12/23, 15:10 - Benedetta Zini: yes exactly

13/12/23, 15:11 - Benedetta Zini: LU 52261777 was scale at infeed line and went to MDP05L01 for a check... User did inventory and then piece weight was valued 0 and start using master data

13/12/23, 15:11 - Adrian Cindea: in case it is 0 = means pallet was stored and picked from it before CR02, mixed pallet or result of discharge before CR02

13/12/23, 15:13 - Benedetta Zini: yes I understood, but LU 52261777 wasn't stored before CR02 (if you mean when you start testing it on 13/11/2023...)

13/12/23, 15:14 - Adrian Cindea: i need to check it

13/12/23, 15:14 - Benedetta Zini: thank you very much!

13/12/23, 16:32 - Adrian Cindea: in protocol there is no information about any scale for it ...
13/12/23, 16:34 - Adrian Cindea: it is subLU ... i will check in master
13/12/23, 17:02 - Adrian Cindea: IMG-20231213-WA0017.jpg (file allegato)
13/12/23, 17:02 - Adrian Cindea: it was measured at IPF01C1261 and its temp was reproted with 37 KG
13/12/23, 17:03 - Adrian Cindea: piece weight <0 -> to 0.
13/12/23, 17:03 - Adrian Cindea: maybe at that point is needed another approach or scale issue
13/12/23, 17:05 - Adrian Cindea: normally we talking about these IP points
13/12/23, 17:05 - Adrian Cindea: IMG-20231213-WA0018.jpg (file allegato)
13/12/23, 17:05 - Adrian Cindea: this is the reason of piece weight is zero
13/12/23, 17:06 - Adrian Cindea: IPF01C1261 is used by us exactly as IP points from image ... scale reported 37 kg -> piece weight = 0 (use MD for it)
13/12/23, 17:36 - Chiara Lodesani, Lavoro: IMG-20231213-WA0020.jpg (file allegato)
Can you check what happens, please?
13/12/23, 18:03 - Benedetta Zini: I think there is something wrong with MFS...
13/12/23, 18:07 - Support Technician 7: Hello, give me 5 min to check
13/12/23, 18:15 - Benedetta Zini: Now we can see pallet on LH
13/12/23, 18:18 - Support Technician 7: So, what seems to be the problem now?
13/12/23, 18:18 - Support Technician 7: Because LH is green again
13/12/23, 18:19 - Benedetta Zini: Now it seems everything working... what did you do?
13/12/23, 18:19 - Support Technician 7: To be honest? Nothing 🤔
13/12/23, 18:20 - Support Technician 7: But i think i found something in logs
13/12/23, 18:20 - Benedetta Zini: oh... 😊
13/12/23, 18:21 - Support Technician 7: Let me have a look on logs and i will come back with an answer
13/12/23, 18:21 - Benedetta Zini: okay thank you
13/12/23, 18:40 - Support Technician 7: It looks like i will have to dig in more. Tomorrow morning i will look over logs in more detail with some of my colleagues to see why this happened
13/12/23, 18:40 - Support Technician 7: Good thing it works now 🤔👍
14/12/23, 16:38 - Support Technician 7: Hi, does LH work now?
14/12/23, 16:39 - Chiara Lodesani, Lavoro: Yes, now it works
14/12/23, 16:39 - Support Technician 7: Awesome, thanks
14/12/23, 16:39 - Chiara Lodesani, Lavoro: what was the problem?
14/12/23, 16:42 - Support Technician 7: I don't know. Lighthouse was down and after a restart everything was back to normal
14/12/23, 16:42 - Chiara Lodesani, Lavoro: ok, thank you
14/12/23, 16:47 - Support Technician 7: Regarding yesterday's problem, it was just an unlucky situation. Wamas tried to delete a LU that still had a picking activity. After the job that cleans the data came, everything went back to normal.
14/12/23, 17:12 - Benedetta Zini: oh... why did WAMAS try to delete a LU with pick activity? what was the LU?
thanks for checking
14/12/23, 17:16 - Benedetta Zini: Hi Adrian, sorry for late reply... Okay I understand... so for slaved pallet the weight measurement is on master pallet... in this case H pallet went to MDP05L01...
14/12/23, 17:53 - Support Technician 7: I didn't express myself correctly. It was a normal process, but the message from REST that the picking activity was finished did not process in time and when wamas tried to go to the next step it still thought that the LU had an active picking activity. That's why after some retires and a correct corelation of datas, everything went back to normal without my intervantion
14/12/23, 17:53 - Support Technician 7: It looked like a one in a lifetime thing
14/12/23, 18:02 - Benedetta Zini: oh okay, now it is clear as crystal...
14/12/23, 18:02 - Benedetta Zini: I think yes
18/12/23, 15:06 - Razvan Voicu: Hello
18/12/23, 15:06 - Razvan Voicu: regarding PO 4249567;WAMAS
18/12/23, 15:06 - Razvan Voicu: I see that it was already picked. Why was it also finalized?

18/12/23, 15:07 - Benedetta Zini: I tried to finalize it because since 16/12 it has been in OG039
18/12/23, 15:08 - Benedetta Zini: WAMAS didn't clean it up by itself... <Questo messaggio è stato modificato>
18/12/23, 15:48 - Benedetta Zini: thank you @Support Technician 21
18/12/23, 16:04 - Razvan Voicu: thanks aswell
19/12/23, 13:22 - Adrian Cindea: hello
19/12/23, 13:22 - Adrian Cindea: CR02 any feedback ...
19/12/23, 17:31 - Benedetta Zini: Hello, I'm still looking but so far it works well
20/12/23, 10:13 - Benedetta Zini: Hi All, F02 is in manual mode...
20/12/23, 10:14 - Benedetta Zini: IMG-20231220-WA0004.jpg (file allegato)
20/12/23, 10:14 - Benedetta Zini: IMG-20231220-WA0005.jpg (file allegato)
20/12/23, 10:14 - Support Technician 10: I will check it
20/12/23, 10:16 - Benedetta Zini: 5 minutes and we try to turn off and turn on F02
20/12/23, 10:17 - Support Technician 10: Ok
20/12/23, 10:23 - Benedetta Zini: I didn't work
20/12/23, 10:24 - Benedetta Zini: IMG-20231220-WA0007.jpg (file allegato)
we still have MFS receive connection fault ad error
20/12/23, 10:24 - Support Technician 10: Ok I am working on it
20/12/23, 10:25 - Benedetta Zini: okay thank you
20/12/23, 10:28 - Benedetta Zini: now also F01
20/12/23, 10:28 - Benedetta Zini: IMG-20231220-WA0008.jpg (file allegato)
20/12/23, 10:28 - Benedetta Zini: 🤔🤔
20/12/23, 10:29 - Support Technician 10: We restarted the service that is why
20/12/23, 10:29 - Support Technician 10: It seems that the controller for fo2 was not connected
20/12/23, 10:29 - Benedetta Zini: Oh okay
20/12/23, 10:36 - Razvan Voicu: We need to restart Wamas fully
20/12/23, 10:36 - Benedetta Zini: Go go
20/12/23, 10:37 - Benedetta Zini: How does it take?
20/12/23, 10:37 - Benedetta Zini: Just to inform shipping manager, operations manager and logistics manager
20/12/23, 10:38 - Razvan Voicu: should be 20-30 mins
20/12/23, 10:41 - Giuseppe Romano, Lavoro: Now lighthouse is down too
20/12/23, 10:41 - Benedetta Zini: Lighthouse stop working
20/12/23, 10:41 - Benedetta Zini: so i can't see if you have started or not
20/12/23, 10:42 - Support Technician 10: On my pc is working
20/12/23, 10:42 - Benedetta Zini: please inform me as soon as you start with restart of wamas
20/12/23, 10:42 - Benedetta Zini: IMG-20231220-WA0009.jpg (file allegato)
20/12/23, 10:43 - Support Technician 10: Ok that is strange
20/12/23, 10:44 - Support Technician 10: We are in the middle of it
20/12/23, 10:44 - Benedetta Zini: okay
20/12/23, 10:47 - Benedetta Zini: something beeping here
20/12/23, 10:47 - Nicola Bernardi: Can you try to refresh the page?
20/12/23, 10:48 - Support Technician 10: Yea now it's not working 😂😂
20/12/23, 10:49 - Benedetta Zini: ☐☐
20/12/23, 10:49 - Benedetta Zini: so now we are blind
20/12/23, 10:49 - Benedetta Zini: ☐
20/12/23, 10:49 - Support Technician 10: No I am seeing the serice is running on the mfs
20/12/23, 10:49 - Benedetta Zini: yes
20/12/23, 10:50 - Benedetta Zini: here everythng is back on track
20/12/23, 10:50 - Benedetta Zini: because pallets are moving
20/12/23, 10:50 - Support Technician 10: We are working on restarting the lighthouse
20/12/23, 10:52 - Benedetta Zini: After restarting Lighthouse I would like to know what happened....
20/12/23, 10:52 - Razvan Voicu: Sure
20/12/23, 10:52 - Razvan Voicu: at the moment all the work was done on bringing the server back
20/12/23, 10:53 - Benedetta Zini: Okay

20/12/23, 10:53 - Razvan Voicu: lh is up
 20/12/23, 10:55 - Razvan Voicu: services are up
 20/12/23, 10:55 - Razvan Voicu: everything should be ok now
 20/12/23, 11:09 - Benedetta Zini: IMG-20231220-WA0010.jpg (file allegato)
 20/12/23, 11:09 - Benedetta Zini: yes
 20/12/23, 11:09 - Support Technician 10: Try to Refresh
 20/12/23, 11:10 - Razvan Voicu: You sure admin password is entered correctly?
 20/12/23, 11:10 - Benedetta Zini: IMG-20231220-WA0011.jpg (file allegato)
 20/12/23, 11:10 - Benedetta Zini: ☐☐
 20/12/23, 11:14 - Support Technician 10: We are working on it
 20/12/23, 11:14 - Benedetta Zini: Thank you
 20/12/23, 11:23 - Benedetta Zini: there is something that is not working between WAMAS and host
 20/12/23, 11:24 - Support Technician 10: Ok we will look into it
 20/12/23, 11:24 - Benedetta Zini: we can't print loading list at Totem
 20/12/23, 11:24 - Benedetta Zini: okay thank you
 20/12/23, 11:26 - Benedetta Zini: light house is working
 20/12/23, 11:27 - Razvan Voicu:
 com.wamas.platform.jdbc.exceptions.JdbcConnectionException: The connection to the database was interrupted unexpectedly.
 20/12/23, 11:28 - Razvan Voicu: did you do something to the DB?
 20/12/23, 11:28 - Razvan Voicu: preparing for the change next week?
 20/12/23, 11:29 - Benedetta Zini: I'm trying to call IT dept
 20/12/23, 11:33 - Benedetta Zini: They are doing some replies on DB
 20/12/23, 11:34 - Benedetta Zini: Order
 84620
 84613
 20/12/23, 11:35 - Razvan Voicu: check now
 20/12/23, 11:40 - Razvan Voicu: So now everything should be ok
 20/12/23, 11:40 - Razvan Voicu: lighthouse
 20/12/23, 11:40 - Razvan Voicu: host
 20/12/23, 11:45 - Benedetta Zini: Yes
 20/12/23, 11:46 - Benedetta Zini: no
 20/12/23, 11:46 - Razvan Voicu: ERROR 2023-12-20 10:05:05.768
 At this timestamp we couldn't connect to DB and that's why it crashed
 20/12/23, 11:46 - Razvan Voicu: Caused by: java.sql.BatchUpdateException: IO Error: An existing connection was forcibly closed by the remote host
 20/12/23, 11:47 - Razvan Voicu: and because of this MFS crashed
 20/12/23, 11:48 - Benedetta Zini: Okay so it was from our side
 20/12/23, 11:48 - Benedetta Zini: IT dept is working on our server
 20/12/23, 11:49 - Benedetta Zini: Check in and check out at Totem aren't working
 20/12/23, 11:50 - Razvan Voicu: How about now?
 20/12/23, 11:51 - Benedetta Zini: Manually everything works, now we are trying to do at Totem
 20/12/23, 11:51 - Benedetta Zini: give me 5 minutes
 20/12/23, 11:52 - Benedetta Zini: check out work
 20/12/23, 11:52 - Benedetta Zini: check in no
 20/12/23, 11:53 - Razvan Voicu: I don't know what check in is
 20/12/23, 11:53 - Razvan Voicu: What doesn't work exactly?
 20/12/23, 11:54 - Benedetta Zini: User can't print loading list
 20/12/23, 11:54 - Benedetta Zini: automatically at Totem
 20/12/23, 11:54 - Razvan Voicu: Questo messaggio è stato eliminato.
 20/12/23, 11:54 - Razvan Voicu: For what order
 20/12/23, 11:56 - Benedetta Zini: order 68577
 20/12/23, 12:03 - Razvan Voicu: Can you print manually for this and check next?
 20/12/23, 12:03 - Benedetta Zini: yes we did it
 20/12/23, 12:03 - Razvan Voicu: maybe the message that triggered the automatic printing was lost in the restart
 20/12/23, 12:04 - Benedetta Zini: oh okay
 20/12/23, 12:06 - Razvan Voicu: So the problem is that for this order we didn't receive a 36 message
 20/12/23, 12:06 - Razvan Voicu: from what I remember the 36 triggered the automatic printing
 20/12/23, 12:07 - Razvan Voicu: IMG-20231220-WA0012.jpg (file allegato)

20/12/23, 12:10 - Razvan Voicu: So this is why the automatic printing doesn't work
20/12/23, 12:10 - Benedetta Zini: Yes correct
20/12/23, 12:12 - Benedetta Zini: Orde 84139 no record 36
20/12/23, 12:12 - Support Technician 10: For the order we need a record 36 so we can print
20/12/23, 12:16 - Benedetta Zini: we are looking
20/12/23, 12:37 - Benedetta Zini: WAMAS doesn't read the message
20/12/23, 12:38 - Benedetta Zini: messages
20/12/23, 12:38 - Benedetta Zini: is there some job to activate?
20/12/23, 12:39 - Razvan Voicu: let me check
20/12/23, 12:41 - Benedetta Zini: enter messages don't work
20/12/23, 12:41 - Razvan Voicu: Done
20/12/23, 12:42 - Razvan Voicu: 😊
20/12/23, 12:42 - Benedetta Zini: what did you do?
20/12/23, 12:43 - Razvan Voicu: resetted the MqReceiver worker
20/12/23, 12:50 - Benedetta Zini: okay
20/12/23, 12:50 - Benedetta Zini: Why do not reset it automatically?
20/12/23, 12:51 - Razvan Voicu: this is the first time we had to reset this worker
20/12/23, 12:51 - Razvan Voicu: probably due to the issues with the DB
20/12/23, 12:52 - Razvan Voicu: do you have any updates from your it dept?
20/12/23, 13:07 - Benedetta Zini: during the consolidation of the db machine it froze and no longer responded on time
20/12/23, 13:07 - Benedetta Zini: This afternoon we are going to do it again
20/12/23, 13:08 - Benedetta Zini: Because it has to work now
20/12/23, 13:09 - Razvan Voicu: Well ,if it happens now we will know why
20/12/23, 13:10 - Benedetta Zini: exaclty
20/12/23, 13:10 - Razvan Voicu: the requests from wamas side crashed and so everything went down :(
20/12/23, 13:10 - Benedetta Zini: We will start at 14:30 italian time, it takes 40 minutes ... If something go wrong I will call you immediately
20/12/23, 13:10 - Benedetta Zini: yes...
20/12/23, 13:11 - Benedetta Zini: thank you very much for your help @Support Technician 21 @Support Technician 10
20/12/23, 13:12 - Razvan Voicu: thanks aswell
20/12/23, 13:12 - Support Technician 10: Thanks as well
20/12/23, 15:01 - Benedetta Zini: SOS
20/12/23, 15:01 - Benedetta Zini: Could you please check why all automatic area is blocked?
20/12/23, 15:01 - Support Technician 10: On it
20/12/23, 15:01 - Benedetta Zini: we have already finished this operation
20/12/23, 15:02 - Benedetta Zini: everything seems freezing
20/12/23, 15:04 - Support Technician 10: It doesn't seem to nothing wrong
20/12/23, 15:04 - Benedetta Zini: IMG-20231220-WA0014.jpg (file allegato)
20/12/23, 15:04 - Support Technician 10: Ok now I see the srms are not connected
20/12/23, 15:05 - Benedetta Zini: yes
20/12/23, 15:05 - Benedetta Zini: but also conveyotr
20/12/23, 15:05 - Benedetta Zini: messages go in error
20/12/23, 15:06 - Support Technician 10: Ok
20/12/23, 15:07 - Benedetta Zini: AGVs don't do missions
20/12/23, 15:07 - Benedetta Zini: Check also service workers
20/12/23, 15:08 - Support Technician 10: Already did it seems that they are working now I am checking the logs
20/12/23, 15:13 - Benedetta Zini: from WAMAS to host not working
20/12/23, 15:15 - Support Technician 10: Can you tell me what you did right before this ?
20/12/23, 15:16 - Benedetta Zini: WAMASDB was frozen for 8 ping
20/12/23, 15:16 - Benedetta Zini: 15 secs
20/12/23, 15:18 - Benedetta Zini: reset this com.wamas.prj.di.server.MqSender ?
20/12/23, 15:20 - Benedetta Zini: IMG-20231220-WA0015.jpg (file allegato)
is mfs down?
20/12/23, 15:22 - Benedetta Zini: IMG-20231220-WA0016.jpg (file allegato)
is this could be a problem?

20/12/23, 15:26 - Support Technician 10: I think I fixed the srms now I am looking into it
20/12/23, 15:26 - Support Technician 10: Is something wrong besides that?
20/12/23, 15:28 - Benedetta Zini: IMG-20231220-WA0019.jpg (file allegato)
from 14:48 messages don't go into status finished
20/12/23, 15:32 - Support Technician 10: Ok I am looking into that
20/12/23, 15:33 - Benedetta Zini: we have problem whit messages from WAMAS to host
20/12/23, 15:34 - Support Technician 10: Yes I see do the messages get to the host?
20/12/23, 15:34 - Adrian Cindea: no messages in queue right now form today
20/12/23, 15:35 - Adrian Cindea: sorry my fault ... there are messages
20/12/23, 15:36 - Support Technician 10: It's working now I restarted the mqsender
20/12/23, 15:36 - Adrian Cindea: all messages were sent
20/12/23, 15:36 - Benedetta Zini: okay perfect!
20/12/23, 15:36 - Support Technician 10: Any more problems?
20/12/23, 15:36 - Adrian Cindea: now it is empty :)
20/12/23, 15:37 - Benedetta Zini: yes I see
20/12/23, 15:37 - Benedetta Zini: 🤔
20/12/23, 15:37 - Benedetta Zini: thank you!
20/12/23, 15:37 - Benedetta Zini: so far not
20/12/23, 15:37 - Razvan Voicu: Seems like this kind of operation on DB is not working while wamas is up
20/12/23, 15:37 - Benedetta Zini: let me check with my colleagues
20/12/23, 15:37 - Razvan Voicu: Do you know if you have any more scheduled?
20/12/23, 15:39 - Benedetta Zini: next time is going to be on 27.12 but WAMAS will be down...
20/12/23, 15:39 - Support Technician 10: Ok
20/12/23, 15:40 - Benedetta Zini: wamas it is very sensible
20/12/23, 15:40 - Razvan Voicu: <Media omessi>
wamas be like
20/12/23, 15:41 - Razvan Voicu: Let us know if there are any more problems we have to check
20/12/23, 15:42 - Razvan Voicu: If not, merry christmas, happy holidays and see you on 27 😊
20/12/23, 15:46 - Benedetta Zini: Yes sure!
20/12/23, 15:47 - Benedetta Zini: Merry christmas 🎄
21/12/23, 08:44 - Benedetta Zini: Good morning! I need your help... SOS
21/12/23, 08:44 - Support Technician 10: I am here
21/12/23, 08:44 - Support Technician 10: What is the problem
21/12/23, 08:44 - Benedetta Zini: IMG-20231221-WA0002.jpg (file allegato)
Outbound messages are not Finished
21/12/23, 08:45 - Benedetta Zini: I think you have to reset it...
21/12/23, 08:45 - Support Technician 10: I am on it
21/12/23, 08:45 - Benedetta Zini: thank you
21/12/23, 08:52 - Benedetta Zini: I have already called our IT dept and this morning they didn't do nothing...
21/12/23, 08:52 - Support Technician 10: Ok
21/12/23, 08:52 - Support Technician 10: Now all the messages are sent
21/12/23, 08:53 - Adrian Cindea: please check logs too for chcking @Support Technician 10
21/12/23, 08:53 - Benedetta Zini: From 1am to 1:29am we did the backup
21/12/23, 08:53 - Benedetta Zini: 😞
21/12/23, 08:53 - Benedetta Zini: as usual
21/12/23, 08:53 - Benedetta Zini: usual
21/12/23, 08:53 - Support Technician 10: Ok I will check it
21/12/23, 08:54 - Benedetta Zini: it was a proxy machine
21/12/23, 08:55 - Support Technician 10: They did something to a proxy machine or?
21/12/23, 08:58 - Support Technician 10: It seems that the worker got disconnected from dB at 1:26
21/12/23, 09:01 - Benedetta Zini: Yesterday IT dept used a proxy machine for doing the copy of virtual machine... the proxy machine wasn't disable, so this

morning, during backup, it used the proxy machine and WAMAS didn't like it...
21/12/23, 09:02 - Benedetta Zini: yes when wamadb stop responding for 10/15 sec, WAMAS froze...
21/12/23, 09:03 - Benedetta Zini: now we remove the use of proxy machine, we have returned to the previous conditions. We will use proxy machine only on 27/12 and 02/01 when Wamas is turn off
21/12/23, 09:05 - Support Technician 10: It seems that the problem with the srms from last night was connected to the same issue <Questo messaggio è stato modificato>
21/12/23, 09:05 - Benedetta Zini: yes exactly
21/12/23, 09:05 - Benedetta Zini: they are connected
21/12/23, 09:06 - Support Technician 10: Ok I will close the ticket then
21/12/23, 09:16 - Benedetta Zini: could you please check mqReceiver?
21/12/23, 09:17 - Support Technician 10: It was working I checked
21/12/23, 09:17 - Benedetta Zini: okay
21/12/23, 09:17 - Support Technician 10: Did something happened?
21/12/23, 09:17 - Benedetta Zini: Totem doesn't do documents... I check
21/12/23, 09:18 - Support Technician 10: Again maybe you need to send the record 36
21/12/23, 09:19 - Benedetta Zini: yes, wamas send it
21/12/23, 09:19 - Support Technician 10: So it's working right?
21/12/23, 09:26 - Benedetta Zini: Yes I checked and now it is working
21/12/23, 09:26 - Support Technician 10: Did you send the messages again?
21/12/23, 10:30 - Benedetta Zini: It works
